We recently released a rewritten, updated comprehensive policy statement on the laws and rules of political broadcasting. This booklet is used extensively by candidates and campaign staff. We redrafted the booklet in clear English, and we set it up in a format which we believe will be useful to the readers of the booklet. We are also revising a publication entitled "The Public and Broadcasting," which explains to the public the Commission's broadcast rules and procedures. This booklet is being completely revised to include substantive policy changes and to redraft the language into "plain English."

One project, currently under development by our Office of Plans and Policy, is an "Academic Outreach" program, through which we hope to encourage participation in FCC rulemakings (and other policy formation projects) by members of the academic community. This project will include several aspects. We hope to become a depository for communications-related academic research projects, which we will index and keep in our library. We have established an "Academic Exchange Program," in which the FCC staff and members of the academic profession would exchange positions for a semester or a year. We plan to expand our student work-study program; especially to include graduate level students. Finally, we expect to improve our mechanisms by which we inform the academic community of our research needs. Such an "Academic Outreach" would, I believe, contribute substantially to the quality of our regulatory and policymaking functions.

REGULATORY LANGUAGE

As a relative newcomer to the Commission, I agree that many of the FCC's rules are hard to understand. But, I am also aware that the subject matter of our rules often requires specialized knowledge that the general public would not have. In some instances, the licensed individual, such as a broadcaster, may not personally have the specialized knowledge. The answer is not, in all cases, to try to rewrite the rules in "plain English" for the licensee. The Commission requires the broadcast licensee to have available a licensed engineer to assure compliance with the rules. It is essential, however, that the engineer be able to understand the rule without an attorney's help. In other words, the technical rules must be written in "plain Engineering English."

In the case of the Citizens Band Radio Service, where compliance must depend on an understanding of the rules by the licensee, we have rewritten the rules in "plain English." When you issued this Executive order, you cited these rules as the example of clear language for other agencies to follow.

As we mentioned previously, we recently released a completely rewritten Primer on Political Broadcasting, which employs a simpler vocabulary and format than its predecessor edition.

I remain committed to improving the management of FCC rulemakings and to increasing citizen participation in FCC decisions. I have enclosed with this letter a number of releases and bulletins which will illustrate a few of our regulatory reform public participation efforts to date. To insure that we continue these efforts, I have established an informal staff group to carry on a broad-based review of our regulatory processes. This group will make recommendations to me of further improvements which we might make in our rulemaking functions.

Again, I appreciate this opportunity to discuss the FCC's regulatory processes.

Sincerely,

CHARLES D. FERRIS,
Chairman.

[6712-01-M]

AM BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: October 12, 1978.

Released: October 18, 1978.

Cutoff date: December 5, 1978.

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on December 6, 1978, the AM applications listed in the attached Appendix below will be considered as ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on December 5, 1978, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C. by the close of business on December 5, 1978. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix below by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.571(c) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending AM applications, pursuant to Section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[BC Docket Nos. 78-299—78-301; File Nos. BPH-10,046, etc.; BC FCC 78-651]

CHARLOTTESVILLE BROADCASTING ASSOCIATES, INC., ET AL.

Designating Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

Adopted: September 14, 1978.

Released: October 3, 1978.

In re applications of Charlottesville Broadcasting Associates, Inc., Charlottesville, Va., BC Docket No. 78-299, File No. BPH-10,046, Requests: 92.7 MHz, Channel No. 224: 412 W (H & V): 810 feet; Rev. C. H. Brown and John M. Brown, Sr., d.b.a. Brown Broadcasting Co., Charlottesville, Va., BC Docket No. 78-300, File No. BPH-10,118, Requests: 92.7 MHz, Channel No. 224: 225 W (H & V); 1070 feet; WUVA, Inc., Charlottesville, Va., BC Docket No. 78-301, File No. BPH-10,371, Requests: 92.7 MHz, Channel No. 224; 220 W (H & V); 900 feet; for construction permits.

1. The Commission, has before it for consideration: (i) The above-captioned mutually exclusive applications of Charlottesville Broadcasting Associates, Inc. ("CBA"), Rev. C. H. Brown and John M. Brown, Sr. d.b.a. Brown Broadcasting Co., ("Brown"), and WUVA, Inc., ("WUVA"); (ii) a petition, filed by WUVA, requesting waiver of § 1.573(b) of the Commission rules; and (ii) pleadings in opposition and reply thereto.[1]

2. Before considering the merits of Brown's petitions and WUVA's waiver request, a brief discussion of its corporate structure will be helpful. WUVA is organized under the laws of the Commonwealth of Virginia and is a nonprofit, non-stock membership corporation. Its articles of incorporation restrict membership to students in good academic standing at the University of Virginia who are staff members at radio station WUVA. The applicant's board of directors is composed of five students selected from the membership to serve for 1 year terms and six alumni appointed to serve for 7 years. Any of these directors may be removed by the student membership. Because the membership is present during most of the academic year and can be convened easily to deal with fundamental aspects of station operation, WUVA considers itself controlled by its members rather than by its board of directors. Hence, the applicant concedes, a change of 50% or more in its student membership would constitute a transfer of control under the terms of § 1.573(b) of the rules,[2] requiring the Commission to assign its application a new file number and thereby eliminate it from comparative consideration.[3] Acknowledging that such a change has in fact occurred since its application was filed,[4] WUVA seeks a waiver of § 1.573(b).

3. In proposing the present § 573(b), the Commission expressed its opinion that "[s]ignificant changes in ownership may be indicative of changes in the type and quality of service to be provided * * *" Notice of Proposed Rulemaking in Docket No. 20205, 49 FCC 2d 399, 402 (1974). The particular circumstances of this situation, however, indicate that such is not the case here. Of particular significance in this regard is the fact that WUVA has a long tradition of service and commitment to the Charlottesville Community, having been a carrier-current facility for more than 30 years and having been carried also on a local cable system.[5] Thus, the Commission's desire that "the public should ultimately be able to look for service to the same individuals who filed the application * * *," 49 FCC 2d at 402, will not be violated by a waiver, as the public in Charlottesville can reasonably look to a familiar and on-going institution rather than to specific individuals for service. Moreover, to the extent that the Commission's concerns in adopting § 1.573(b) focused upon the typical corporate or partnership arrangement, a strict application of the section to WUVA's unusual corporate structure seems to us both unnecessary and inappropriate. Accordingly, we will grant the waiver request and allow WUVA to retain its present file number.

4. To meet estimated costs of $47,205 for construction and operation, Brown plans to rely entirely upon a bank loan. However, since the applicant has not submitted any document which would indicate the willingness of a financial institution to lend it funds, it must be considered financially unqualified. Accordingly, an appropriate issue will be specified.

5. Finally, data submitted by the applicants indicates that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparision, the areas and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to any of the applicants.

6. Because of the recent allocation of Channel 224 in Mechanicsville, Va., 40 RR 2d 1481 (1977), CBA's application fails to meet the spacing requirements of § 73.207 of the rules. Since the other two applicants in this proceeding comply with the Commission's spacing requirements, we must order CBA to amend its application to specify a site which complies with § 73.207.

7. Except as indicated above, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

8. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to Brown Broadcasting Co. the source and availability of funds to construct the proposed station and to operate for 3 months without reliance on revenues, and in light thereof, whether the applicant is financially qualified.

2. To determine which of the proposals would, on a comparative basis, best serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

9. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Order.

10. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

11. *It is further ordered*, That the Petitions filed by Brown Broadcasting Co. are denied.

12. *It is further ordered*, That the request for waiver of § 1.573(b) filed by WUVA, Inc. is granted.

13. *It is further ordered*, That the application of Charlottesville Broadcasting Associates, Inc., shall be retained for a period of thirty (30) days to permit appropriate amendment and that action on the applications of WUVA, Inc., and Rev. C. H. Brown and John M. Brown, Sr., d.b.a. Brown Broadcasting Co., shall be withheld during this period.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[FR Doc. 78-29547 Filed 10-18-78; 8:45 am]

[1] Also before the Commission are the following related pleadings: (a) A petition to remove WUVA's application, filed by Brown; (b) an opposition, filed by WUVA; and (c) a reply, filed by Brown. We have considered these pleadings with the waiver request. More recently, on August 16, 1978, Brown submitted a third petition seeking removal of WUVA's application. As the petitions filed by Brown raised the same questions as those raised by WUVA's waiver request, we are considering all of these pleadings together.

[2] Section 1.573(b) provides: "A new file number will be assigned to an application for a new station * * * when it is amended so as to result in an assignment or transfer of control * * * which, in the case of an authorized station, would require the filing of an application therefor on FCC Form 314, 315 * * *."

[3] Under § 1.591(b), the Commission will not consider any application, if amended so as to require a new file number, as being mutually exclusive or in conflict with another application on which a cut-off date has been established. Thus, the effect of applying Section 1.573(b) would be to deny WUVA comparative consideration in the Charlottesville hearing.

[4] In this regard, WUVA states that an unusually large number of students were elected to membership after its application was filed.

[5] WUVA instituted the rulemaking which assigned channel 224 to Charlottesville.

[BC Docket Nos. 78-297, 78-298; File Nos. BPH-9741, BPH-9916; FCC 78-646]

NUANCE CORP. AND MIDCOM CORP.

Designating Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

Adopted: September 14, 1978.

Released: September 29, 1978.

In re applications of Nuance Corporation, Columbia, S.C., Req. 103.1 MHz, Channel 276A 3kW (H&V), 300 Feet, BC Docket No. 78-297, File No. BPH-9741; Midcom Corporation, Columbia, S.C., Req. 103.1 MHz, Channel 276A 3 kW (H&V), 300 Feet. BC Docket No. 78-298, File No. BPH-9916; for construction permits.

1. The Commission has before it for consideration: (i) The above-captioned mutually exclusive applications filed by Nuance Corporation (Nuance) and Midcom Corporation (Midcom), as amended; (ii) a Further Motion to Dismiss or for Inclusion of Issue, filed by Nuance; (iii) responsive pleadings.

2. In an earlier Memorandum Opinion and Order, we rejected Nuance's challenge to the acceptability of Midcom's application. *Midcom Corporation*, 63 FCC 2d 257, 39 RR 2d 943

V 4 3 / 2 0 3
OCT 19 78

(1977).[1] In its motion to dismiss, Nuance asserts that the subsequent decision of the United States Court of Appeals for the District of Columbia Circuit in *Black Broadcasting Coalition of Richmond* v. *FCC*, 181 U.S. App. D.C. 182, 556 F.2d 59 (1977), mandates reversal of the earlier ruling. More specifically, Nuance asserts that where subjective bad faith is shown in the preparation and tender of an application, a post-objection curative amendment is not permissible. Nuance submits that Midcom's original specification of a short-spaced site and unsupported waiver request, coupled with an amendment to a non-short-spaced site in response to the motion to dismiss, constitutes "subjective bad faith." Therefore, Nuance urges that the amendment either be dismissed or an appropriate hearing issue be specified against Midcom.

3. The Commission disagrees with Nuance that BBCR and the facts warrant the relief requested. Nuance has presented nothing to support its allegation of bad faith other than speculation and surmise. And, unlike BBCR, there are no underlying facts which lend credence to the allegation of bad faith. It has long been Commission policy not to waive our minimum mileage separation requirments where at least one of several mutually exclusive applicants specifies a non-short-spaced site. It has, however, also been Commission policy to afford an applicant in Midcom's position, after dismissal for a short-spaced site, the opportunity to seek reconsideration and to amend to specify a non-short-spaced site. Accordingly, the Further Motion to Dismiss will be denied.

4. Midcom proposes independent programming, while Nuance proposes to duplicate the programming of its commonly owned AM station, WOIC, Columbia, S.C., during 14 percent of its broadcast time. Therefore, evidence regarding program duplication will be admissible under the standard comparative issue. When duplicated programming is proposed, the showing permitted under the standard comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication which could offset its inherent inefficiency. *Jones T. Sudbury*, 8 FCC 2d 360, 10 RR 114 (1967).

5. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

6. *Accordingly, it is ordered,* That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine which of the proposals would, on a comparative basis, better serve the public interest.

(2) To determine in light of the evidence adduced pursuant to the foregoing issues, which of the applications for a construction permit should be granted.

7. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

8. *It is further ordered,* That the applicants herein, shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually, or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

9. *It is further ordered,* That the Further Motion to Dismiss or For Inclusion of Issue filed by Nuance Corporation, Is Denied.

FEDERAL COMMUNICATION COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[FR Doc. 78-29548 Filed 10-18-78; 8:45 am]

[1] As originally filed, Midcom proposed a site that was short-spaced to Station WZZW, Augusta, Ga., in violation of the minimum mileage separation specified in § 73.207 of the rules. Nuance, which had specified a non-short-spaced site, asserted that the application should be dismissed as patently defective. In response to this challenge, Midcom amended its application to specify a non-short-spaced site. Nuance moved to strike the amendment on the ground that since the application was unacceptable as filed and not amended prior to cut-off, it could not now be amended. We rejected Nuance's challenges citing *James River Broadcasting Co.* v. *FCC*, 130 U.S. App. D.C. 210, 399 F.2d 581 (1968) and *Earl Lamar Clark*, 36 RR 2d 1666 (1976).

TUCSON FM BROADCASTING CORP.

Preparation of Draft Environmental Impact Statement

Adopted October 10, 1978.

Released: October 12, 1978.

Pursuant to § 1.1313(b)(2) of the Commission's rules, notice is hereby given that a draft environmental impact statement will be prepared concerning the application of Tucson FM Broadcasting Corp. (BPH-10,347) for a new 100 kW FM station on Channel 298 (107.5 MHz) in Tucson, Ariz. The antenna and transmitter would be located on Trails End Peak in the Tucson Mountains 5 miles west of Tucson, Ariz. at the following coordinates:

32°14'55" North
111°6'58" West

The applicant proposes a tower 200 feet above ground, with center of radiation 150 feet above ground and 2,000 feet above average terrain.

Interested parties may obtain a copy of the statement by submitting a written request, prior to October 31, 1978, to:

Broadcast Facilities Division, Room 302, Federal Communications Commission, 1919 M Street NW., Washington, D.C. 20554.

Copies will also be sent to those who have already expressed an interest in the environmental consequences of the proposal.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

ADVISORY COMMITTEE ON STATE AND FEDERAL REGULATION OF BANKS

Meeting

The Federal Deposit Insurance Corporation Advisory Committee on State and Federal Regulation of Banks will meet on Thursday, November 2, 1978, at 10:30 a.m., in the 6th floor Board Room of the Federal Deposit Insurance Corporation Building, 550 17th Street NW., Washington, D.C.

This Committee was established to advise the director, in charge of a major study of state and federal bank regulation, on the content and direction of the study, and to review sections of the study as they are completed. The Committee consists of ten members broadly representative of groups which are impacted by banking and the regulation of banks. Notice of the establishment of this committee was published in the FEDERAL REGISTER on December 15, 1977, (Vol. 42, No. 241, page 63219).

The agenda for this meeting is: (1) Progress report; (2) Discussion, comments, and suggestions concerning study projects.

This meeting will be open to the public, with approximately 30 seats available for the public on an unreserved basis. Questions, comments, or statements to the committee may be submitted in writing prior to the opening of the meeting.

Copies of the minutes of the meeting will be available upon written request 30 days after the meeting.

Inquiries may be directed to Dr. Leonard Lapidus, Special Assistant to the Chairman, Federal Deposit Insurance Corp., 550 17th Street NW., Washington, D.C. 20429; telephone 202-389-4213.

Dated: October 12, 1978.

FEDERAL DEPOSIT INSURANCE CORPORATION,
EDWIN C. HOULDSWORTH,
Advisory Committee, Management Officer.

FEDERAL HOME LOAN BANK BOARD

[No. AC-50]

FIRST FEDERAL SAVINGS AND LOAN ASSOCIATION OF OKEECHOBEE COUNTY, OKEECHOBEE, FLA.

Post Approval Amendment of Conversion; Application Final Action

OCTOBER 16, 1978.

Notice is hereby given that on October 11, 1978, the Federal Home Loan Bank Board, as the operating head of the Federal Savings and Loan Insurance Corp., by Resolution No. 78-542 approved the amendment to the application of First Federal Savings and Loan Association of Okeechobee County, Okeechobee, Fla., for permission to convert from a Federally-chartered mutual association to a Florida-chartered stock association. The converted association will be known as the First Savings and Loan Association of Okeechobee County. The application to convert was approved on May 12, 1978, by Resolution No. 78-296. Copies of the application and the amendment are available for inspection at the Office of the Secretary of said Corporation, 1700 G Street NW., Washington, D.C. 20552 and the Office of the Supervisory Agent of said Corporation at the Federal Home Loan Bank of Atlanta, Coastal States Building, 260 Peachtree Street NW., Atlanta, Ga.,30303.

By the Federal Home Loan Bank Board.

[6730-01-M]

FEDERAL MARITIME COMMISSION

[Docket No. 78-38]

BALTIC SHIPPING CO.

Rates on Buses in the U.S. Gulf Coast/North Europe Trade; Order To Show Cause

The Baltic Shipping Co. (Baltic) is a common carrier in the foreign commerce of the United States providing liner service between U.S. Gulf of Mexico ports and Continental European ports in the Bordeaux/Hamburg range. Baltic is a state corporation of the Union of Soviet Socialist Republics.

Pursuant to section 21 of the Shipping Act, 1916, the Commission issued an Order to Baltic to furnish certain specified information concerning the transportation of approximately 25 buses from Bremerhaven, Germany, to Houston, Tex., aboard Baltic's vessel, *Magnitogorsk*, in February-March, 1978. The Order was issued on April 17, 1978. As indicated in that Order, the Commission has reason to believe that Baltic may be in violation of section 18(b) of the Shipping Act, 1916, by charging or receiving less compensation for the transportation for the buses than the rates or charges which were specified in its tariffs on file with the Commission and in effect at the time of the shipment.[1] The Commission has determined that the information requested of Baltic is necessary to establish whether such violation exists and whether further action should be taken pursuant to section 18 of the Shipping Act.

On May 15, 1978, the Commission granted Baltic an enlargement of time, extending the date for compliance with its section 21 Order to May 30, 1978. On May 30, 1978, Baltic filed bills of lading responsive to paragraphs (A)(4) and (B) of the Commission's section 21 Order. Baltic has not, however, adequately responded to paragraphs (A)(1) through (A)(3), and (A)(5) of the Commission's Order.

Paragraph (A)(1) of the Order calls for copies of all memoranda of discussions, understandings, agreements, or arrangements between Baltic and any of its agents concerning the solicitation, obtaining, or transport of the buses in question.[2] This information is necessary if the Commission is to determine the existence and nature of any undercharges by Baltic in connection with its transportation of 25 buses from Bremerhaven, Germany, to Houston, Tex. Baltic's instructions to its agents in Germany, and its understanding with those agents concerning the manner in which the carriage of the buses in question would be solicited, contracted for, and carried out are clearly relevant to the Commission's inquiry. The information sought is peculiarly within Baltic's knowledge, and is not available to the Commission except through Baltic.

Paragraph (A)(2) of the Commission's section 21 Order calls for a detailed description of all negotiations which took place concerning the transportation of the buses in question and the freight charges to be applied thereto by Baltic. The content of these negotiations would shed much light upon the existence of undercharges and upon whether such undercharges, if any, were accidental. This is a matter clearly relevant to the Commission's inquiry which is available to it only through Baltic.

Paragraph (A)(3) of the Commission's Order calls for copies of all memoranda, minutes, contracts, or other writings describing, transcribing, summarizing, or resulting from the negotiations described in paragraph (A)(2). The information sought in paragraph (A)(3) would serve to corroborate and give detail and substance to Baltic's response to paragraph (A)(2). For the reasons described above, the information sought in paragraph (A)(3) also is necessary to the Commission in its investigation. The

[1] Subsequent to the Commission's initiation of this investigation, Baltic filed an application for permission to waive collection of a portion of the freight charges applicable to the buses in question, as well as to two later bus shipments. The application was filed pursuant to section 18(b)(3) of the Shipping Act, and in accordance with 502.92 of the Commission's Rules (46 CFR 502.92). In its application, Baltic acknowledges that the lower rate it seeks to apply to the buses was not filed with the Commission until August 3, 1978, but it alleges that its failure to file the rate prior to shipment was "due to clerical error". The Administrative Law Judge in that case has scheduled the next prehearing conference for December 4, 1978.

During the course of the section 18(b)(3) proceedings, Baltic has expressed its desire to maintain the separation between the Commission's prior section 21 investigation and its section 18(b)(3) application. Baltic argues that: "[a]lthough the section 21 inquiry concerns the same shipments involved herein, its scope and aim are different The section 21 inquiry was commenced 'to determine whether Baltic [was] * * * in violation of the Act' and whether further proceedings or investigations should be undertaken * * *. The Commission's section 21 inquiry is, therefore, essentially an enforcement action. Separate enforcement considerations of the Commission are not relevant, though, in an 18(b)(3) waiver application." The Commission finds itself in agreement with Baltic's position, at least to the extent that it is unwilling to defer its section 21 investigation pending the outcome of the section 18(b)(3) proceeding initiated by Baltic.

[2] Information concerning Baltic's arrangements with its representatives in Germany, and particularly with Panalpina Welttransport G.M.B.H., would be among that which is sought in this paragraph.

V 4 3 / 2 0 3 0 C 1 9 7 8

documents sought in paragraph (A)(3) are not currently available to the Commission, and can be obtained by it only through Baltic.

Paragraph (A)(5) of the Commission's Order calls for information concerning Baltic's payment of brokerage or other compensation to its agents or others in connection with the solicitation, negotiation, or carrying out of the bus shipments in question. Specifically, the paragraph seeks the amount of brokerage or other compensation paid, and the name and address of the person(s) receiving payment. This information is necessary to determine whether rebates or other payments were given by Baltic in connection with its transport of the buses, in violation of section 18(b)(3) of the Shipping Act, and this information also ties in with the information sought in paragraph (A)(1) concerning Baltic's arrangement with its agents. The information sought in paragraph (A)(5) of the Commission's Order is essential to a thorough investigation of Baltic's possible violation of section 18(b) of the Shipping Act, 1916. The information sought is not available to the Commission except through Baltic.

Baltic's response to paragraphs (A)(1), (A)(2), (A)(3), and (A)(5), is the same: "There are no such documents under the care, custody, or control of Baltic in the United States." [3]

This response is inadequate; the Commission's inquiry was not and is not limited to documents within the United States. The Commission's Order called for information concerning activities occurring outside the United States, but effecting the foreign commerce of the United States. It is likely that the information sought is located outside the United States, and that it is within the knowledge, custody, and control of the Baltic Shipping Co. Baltic gives no explanation for limiting its response to documents within the United States. It is clear that the Commission's investigatory powers under the Shipping Act are not limited to documents within the United States. [4] Such a limitation would be irreconcilable with the Commission's statutory duty to prevent activities harmful to the *foreign* commerce of the United States.

Baltic has not complied with paragraphs (A)(1) through (A)(3) and (A)(5) of the Commission's section 21 Order, and the Commission rejects as inadequate such explanation as Baltic has seen fit to offer for this failure. It appears, therefore, that the Baltic Shipping Co. is in violation of the Commission's Order of April 17, 1978, to produce information in accordance with section 21 of the Shipping Act, 1916.

To date, Baltic has not expressly raised the possible affirmative defenses of foreign law, but the defense may be tacit in Baltic's limitation of its response to information located within the United States. Therefore, before finding that Baltic is in violation of section 21 and considering appropriate sanctions, the Commission wishes to consider any affirmative defense of foreign law that may be available to Baltic. To give adequate consideration to this possible affirmative defense, the Commission must have further information from Baltic. Specifically, the Commission must know: (1) What foreign laws, if any, apply to the gathering or release by Baltic of the information sought in the Commission's section 21 Order; (2) what information is effected by those laws; (3) the effect of violating the foreign law; and (4) the nature and extent of any efforts by Baltic to obtain a waiver of any applicable foreign laws.

Therefore, it is ordered, That pursuant to section 21 of the Shipping Act, 1916, and in accordance with 502.66 of the Commission's Rules (46 CFR 502.66), the Baltic Shipping Co. is ordered to show cause why it should not be found to be in violation of section 21 of the Shipping Act, 1916, by reason of its failure fully to comply with the Commission's Order of April 17, 1978, concerning rates on buses in the U.S. Gulf Coast/North Europe Trade issued pursuant thereto;

It is further ordered, That this proceeding is limited to the submission of affidavits of fact and memoranda of law solely on the issue of the applicability and effect of foreign law upon the information sought by the Commission's Order of April 17, 1978. Should any party feel that an evidentiary hearing is required, that party must accompany any request for such hearing with a statement setting forth in detail the facts to be proven, their relevance to the issues in this proceeding, a description of the evidence which would be adduced to prove those facts, and why such proof cannot be submitted through affidavit. Requests for hearing shall be filed no later than November 27, 1978.

It is further ordered, That pursuant to 502.66 of the Commission's Rules (46 CFR 502.66), Baltic Shipping Co. is required to answer this Show Cause Order by providing all information available to it concerning:

(1) The existence and terms of any applicable foreign law or regulation which purports to prohibit the gathering or release of information by Baltic Shipping Co. in response to the Commission's Order of April 17, 1978;

(2) The nature, description, and location of information or documents covered by the Commission's Order of April 17, 1978, the gathering or release of which the foreign law purports to prohibit, or which Baltic Co. has not yet released for any other reasons;

(3) The penalties provided by the foreign law in the event it is violated; and

(4) The nature and extent of any efforts by Baltic Shipping Co. to obtain a waiver of any applicable foreign law purporting to prohibit the gathering or release of information by Baltic Shipping Co. in response to the Commission's Order of April 17, 1978;

It is further ordered, That notice of this Show Cause Order be published in the FEDERAL REGISTER and that a copy thereof be served upon the Baltic Shipping Co.; and

It is further ordered, That the Baltic Shipping Co. shall file the information described in the third ordering paragraph hereof, together with any additional matters it may wish to submit in accordance with the second ordering paragraph hereof, no later than October 27, 1978, with the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, in an original and 15 copies;

It is further ordered, That the Commission's Bureau of Hearing Counsel be made a party to this proceeding. Reply affidavits and a memorandum of law shall be filed by the Bureau of Hearing Counsel no later than November 6, 1978, with the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, in an original and 15 copies; and

It is further ordered, That a rebuttal memorandum and affidavits repending to the memorandum and affidavits filed by the Bureau of Hearing Counsel shall be filed by Baltic Shipping Co. no later than November 16, 1978, with the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, in an original and 15 copies.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc. 78-29444 Filed 10-18-78; 8:45 am]

[3] Baltic also objects to the Commission's demand for information under paragraph (A)(2) of the Order, "on the ground that this demand is beyond the authority vested in the Commission under section 21 of the Shipping Act for the reasons set forth in Baltic's Petition for Reconsideration filed with the Commission on May 17, 1978, in the section 21 proceedings entitled 'Baltic Shipping Company Rates and Practices in the U.S. Gulf Coast/North Europe Trade', which Petition is incorporated herein by reference." Baltic has also added to its Petition by filing a "Reply of Baltic Shipping Company in Support of its Legal Objections", dated July 12, 1978, and made applicable to the Commission's section 21 inquiry into its rates on buses. For the reasons stated in the Commission's Order to Show Cause served October 5, 1978, and incorporated by reference herein, the Commission rejects the arguments raised by Baltic. Baltic's basic argument is that the Commission can only reach existing business records under section 21 of the Shipping Act, 1916, and cannot inquire into events not presently memorialized in such records. Baltic's narrow interpretation of section 21 is inconsistent with its full scope as implemented by the Commission and interpreted by the courts. *See Isbrandtsen-Moller Co. v. United States,* 300 U.S. 139 (1937), *Kerr Steamship Co. v. United States,* 284 F. 2d 61 (2d Cir. 1960), *appeal dismissed as moot,* 369 U.S. 422 (1962), and *Montship Lines, Ltd. v. Federal Maritime Board,* 295 F. 2d 147 (D.C. Cir. 1961); *Cf. Alcoa Steamship Co. v. Federal Maritime Commission,* 348 F. 2d 756 (D.C. Cir. 1965), involving the Commission's power to *inspect* corporate records.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

ADVISORY COMMITTEES

Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory bodies scheduled to assemble during the month of November 1978:

ALCOHOL RESEARCH REVIEW COMMITTEE

November 1-3; 9 a.m.
Linden Room, Linden Hill Hotel, 5400 Pooks Hill Road, Bethesda, Md. 20014.
Open—November 1; 9 to 10 a.m.
Closed—Otherwise.
Contact: Dr. James C. Tecgarden, Room 16C-26, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4223.
Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute for Alcohol Abuse and Alcoholism relating to research activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.
Agenda: From 9 to 10 a.m., November 1, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

SOCIAL SCIENCES RESEARCH REVIEW COMMITTEE

November 2-4; 9 a.m.
Holiday Inn—Georgetown, 2505 Wisconsin Avenue NW., Washington, D.C. 20007.
Open—November 2, 9-9:30 a.m.
Closed—Otherwise.
Contact: Ms. Marilyn Andersen, Room 10-95, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3936.
Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to social science research and makes recommendations to the National Advisory Mental Health Council for final review.
Agenda: From 9 to 9:30 a.m., November 2, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

PRECLINICAL PSYCHOPHARMACOLOGY RESEARCH REVIEW COMMITTEE

November 3-4; 9 a.m.
Suite G-131, Wardman Towers, Sheraton-Park Hotel, 2660 Woodley Road NW., Washington, D.C. 20008.
Open—November 3; 9 to 10 a.m.
Closed—Otherwise.
Contact: Dr. Dorothy Karp, Room 9-97, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3454.
Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to preclinical psychopharmacology research and makes recommendations to the National Advisory Mental Health Council for final review.
Agenda: From 9 to 10 a.m., November 3, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

SOCIAL PROBLEMS RESEARCH REVIEW COMMITTEE

November 9-10, 9 a.m.
Quorum Room, Sheraton-Silver Spring, 8227 Colesville Road, Silver Spring, Md. 20910.
Open—November 9; 9 to 9:30 a.m.
Closed—Otherwise.
Contact: Ms. Vi Kemp, Room 10-104, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4843
Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to the field of social problems and makes recommendations to the National Advisory Mental Health Council for final review.
Agenda: From 9 to 9:30 a.m., November 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

DEVELOPMENTAL PROBLEMS RESEARCH REVIEW COMMITTEE

November 9-10; 9 a.m.
Lobby Room, Holiday Inn, 5520 Wisconsin Avenue, Chevy Chase, Md. 20015.
Open—November 9; 9 to 10 a.m.
Closed—Otherwise.
Contact: Ms. Diana Souder, Room 10-104, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3566.
Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to the developmental growth of juveniles and makes recommendations to the National Advisory Mental Health Council for final review.
Agenda: From 9 to 10 a.m., November 9, the meeting will be open for discussion of administrative announcements, and program developments. Otherwise the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

MINORITY GROUP MENTAL HEALTH PROGRAMS REVIEW COMMITTEE

November 9-11; 9 a.m.
Board Room, Holiday Inn—Georgetown, 2505 Wisconsin Avenue NW., Washington, D.C. 20007.
Open—November 9; 9 to 11 a.m.
Closed—Otherwise.
Contact: Ms. Edna M. Hardy Hill, Room 7-103, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-2868.
Purpose: The committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to minority mental health research and training and makes recommendations to the National Advisory Mental Health Council for final review.
Agenda: From 9 to 11 a.m., November 9, the meeting will be open for discussion of administrative announcements and program developments. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

ADVISORY COMMITTEE ON ACCREDITATION AND ELIGIBILITY

Public Meeting

AGENCY: Department of Health, Education, and Welfare Office of Education.

ACTION: Notice.

SUMMARY: This Notice sets forth the schedule and proposed agenda of the next public meeting of the Advisory Committee on Accreditation and Institutional Eligibility. It also describes the functions of the Committee. Notice of these meetings is required under the Federal Advisory Committee Act (5 U.S.C Appendix i, 10(a)(2)). This document is intended to notify the general public of its opportunity to attend and to participate.

DATES: November 1, 1978, 9 a.m. to 5:30 p.m., local time; and November 2, 1978, 9 a.m. to 5 p.m. Requests for oral presentations before the Committee must be received on or before October 25, 1978. All written material which a party wishes to file may be submitted at any time and will be considered by the Advisory Committee.

ADDRESS: Sheraton Silver Spring Hotel, 8727 Colesville Road, Silver Spring, Md.

FOR FURTHER INFORMATION CONTACT:

John R. Proffitt, Director, Division of Eligibility and Agency Evaluation, Office of Education, Room 3030, ROB-3, 400 Maryland Avenue SW., Washington, D.C. 20202, 202-245-9873.

The Advisory Committee on Accreditation and Institution Eligibility is established pursuant to section 253 of the Veterans' Readjustment Assistance Act (Chapter 33, Title 38, U.S. Code).

The Committee is directed to:

1. Review all current and future policies relating to the responisbility of the Commissioner for the recognition and designation of accrediting agencies and associations wishing to be designated as nationally recognized accrediting agencies and associations, and recommend desirable changes in criteria and procedures;

2. Review all current and future policies relating to the responsibility of the Commissioner for the recognition and listing of State agenices wishing to be designated as reliable authority as to the quality of public postsecondary vocational education, and of nurse education, and recommend desirable changes in criteria and procedures;

3. Review and advise the Commissioner of Education in the formation of all current and future policy relating to the matter of institutional eligibility;

4. Review the provisions of current legislation affecting Office of Education responsibility in the area of accreditation and institutional eligibility and suggest needed changes to the Commissioner of Education;

5. Develop and recommend to the Commissioner of Education criteria and procedures for the recognition and designation of accrediting agencies and associations in accordance with legislative provisions, Presidential directives, or interagency agreements;

6. Review and recommend to the Commissioner of education for designation as nationally recognized accrediting agencies and associations of reliable authority all applicant accrediting agencies and associations which meet criteria established under (5) above;

Develop and recommend to the Commissioner of Education criteria and procedures for the recognition, designation and listing of State agencies in accordance with statutory provisions, Executive Orders, or interagency agreements;

8. Review and recommend to the Commissioner of Education for designation as State agencies of reliable authority as to the quality of public postsecondary vocational education, and of nurse education, all applicant State agencies which meet criteria established under (7) above;

9. Develop, under the authority of the Vocational Education Act of 1963, as amended, and recommend for the approval of the Commissioner of Education, standards and criteria for specific categories of private vocational training institution which have no alternative route by which to establish eligibility for Federal funding programs;

10. Develop, under the authority of the Higher Education Act of 1965, as amended, and recommend for the approval of the Commissioner of Education, standards and criteria for specific categories of institutions of higher education, for which there is no recognized accrediting agency or association, in order to establish eligibility for participation in the student loan programs authorized by Title IV-B thereof;

11. Maintain a continuous review of Office of Education administrative practice, procedures and judgments relating to accreditation and institutional eligibility and advise the Commissioner of needed changes;

12. Keep within its purview the accreditation and approval process as it develops in all levels of education;

13. Advise the Commissioner of Education concerning the relations of the Office with accrediting agencies or associations, or other approval bodies as the Commissioner may request;

14. Advise the Commissioner of Education, pursuant to the Bureau of the Budget (Office of Management and Budget) policy dated December 23, 1954, regarding the award of degree-granting status to Federal agencies and institutions;

15. Not later than March 31 of each year, make an annual report of its activities, findings and recommendations.

The meeting on November 1 and 2, 1978, will be open to the public. The meeting will be held at the Sheraton Silver Spring Hotel, Silver Spring, Md. From 9 a.m. to 4 p.m. on November 1, the Committee will review proposed revisions to the Criteria for Recognition of National Accrediting Bodies, and will discuss issues related to the recommendations in the proposed GAO report on the Office of Education's institutional eligibility system. From 4 p.m. to 5:30 p.m., November 1, the Committee will review petitions and reports from agencies seeking initial or continued designation as nationally recognized accrediting agencies and associations. From 9 a.m. to 11 a.m., November 2, the Committee will meet with the U.S. Commissioner of Education. From 11 a.m. to 5 p.m., November 2, the Committee will conclude its reviews of petitions and reports. Agencies with petitions and reports pending before the Committee are:

American Association of Bible Colleges, Commission on Accrediting

American Bar Association, Council of the Section of Legal Education and Admissions to the Bar

American Dental Association, Commission on Accreditation of Dental and Dental Auxiliary Programs

American Dietetic Association, Committee on Evaluation of Dietetic Education

American Podiatry Association, Council on Podiatry Education

Foundation for Interior Design Education Research, Committee on Accreditation

National Association of Trade and Technical Schools, Accrediting Commission

The Advisory Committee also will review a request from the Brookhaven College, Farmer's Branch, Tex., for a determination of satisfactory assurance that it will meet the accrediting standards of a nationally recognized accrediting agency within a reasonable period of time.

Requests for oral presentations before the Committee should be submitted in writing to the Director, Division of Eligibility and Agency Evaluation, Office of Education, Room 3030, ROB-3, 400 Maryland Avenue SW., Washington, D.C. 20202. Requests should include the names of all persons seeking an appearance, the party or parties which they represent, and the purpose for which the presentation is requested. Requests must be received by the Division of Eligibility and Agency Evaluation on or before October 25, 1978. Time constraints may limit oral presentations. However, all additional written material that a party wishes to file will be considered by the Advisory Committee.

Records shall be kept of all Committee proceedings and shall be available for public inspection at the Division of Eligibility and Agency Evaluation.

Signed at Washington, D.C., on October 16, 1978.

JOHN R. PROFFITT,
Director, Division of Eligibility and Agency Evaluation, Office of Education.

CALIFORNIA DESERT CONSERVATION AREA ADVISORY COMMITTEE; PUBLIC PARTICIPA-

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of

V 43 / 203 OCT 19 78

Section 783(a)(3) authorizes the Secretary to make grants to meet the costs of projects to plan, develop, and operate or maintain programs to train dental students in the organization and management of multiple auxiliary dental team practice.

Any public or nonprofit private school of dentistry or other public or nonprofit private entity located in a State is eligible to apply.

Support for projects under this program may be approved for an initial project period of up to 2 years. Additional support of up to 3 years may be obtained by submission of a competing extension application which must present evidence of satisfactory program development and operation as observed during the program evaluations which are conducted annually by regional office and/or central office staff.

Grantee institutions should consider Dental Team Practice grant support as capacity building in nature and should plan eventually to assume the expense of the program's operation. If Federal funds are desired to support the project beyond a total of 5 years, a competing extension application for 3 additional years of support may be submitted. Support for these last 3 years may not exceed a maximum of two-thirds, one-half, and one-third, respectively, of that received during the fifth year. Further, the institution must provide assurance that during this period the program will be operated on at least the same level as during the fifth year; i.e., assurance must be given that there will be no reduction in the number of students trained and that program quality will be maintained.

A funding order will be followed in making grant awards in fiscal year 1979. Approved applications will be funded in the following order: (1) continuation applications, (2) competing extension applications for the second to fifth years, (3) competing extension applications for the sixth to eighth years, (4) supplemental applications for the second to fifth years, and (5) new applications for the first to second years.

Based on the proposed appropriation for the Dental Team Practice program and projected requirements for continuation grants, it is anticipated that grants will be awarded only for the first two categories of the funding order.

Requests for application materials and questions regarding grants policy should be directed to:

Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Md. 20782. Phone: 301-436-6564.

To be considered for fiscal year 1979 funding, completed applications must be postmarked no later than November 13, 1978, and sent to the Grants Management Officer at the above address.

Should additional program information be required, please contact:

Education Development Branch, Division of Dentistry, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Hyattsville, Md. 20782. Phone: 301-436-6514.

Dated: October 2, 1978.

HENRY A. FOLEY,
Administrator, Health Resources Administration.

HEALTH SYSTEMS AGENCY APPLICATION

Information

Pursuant to section 1515 of the Public Health Service Act notice is hereby given that application materials are now available in DHEW Regional Office IX for entities interested in applying for designation as the health systems agency (HSA) for California Health Service Area 11. This health systems agency will be responsible for health planning for the health service area and for the promotion of the development of health services, manpower, and facilities which meet identified needs, reduce documented inefficiencies, and implement the health plans of the agency.

The conditionally designated HSA which previously served the health service area was not performing its functions in a manner satisfactory to the Secretary. Consequently, the Secretary decided not to renew the agency's designation agreement. Therefore, we are seeking applications for a new agency.

Entities interested in applying for designation must file a letter of intent to apply for such designation with DHEW Regional Office IX by December 15, 1978, and an application by April 1, 1979.

Application materials and further information may be obtained from the Regional Health Administrator, DHEW Regional Office IX, 50 United Nations Plaza, San Francisco, Calif. 94102, 415-556-8709.

Once the health systems agency is designated it will be entitled to receive a planning grant under section 1516 of the act. The amount of the planning grant will be determined in accordance with a formula set forth in the regulations governing this program (42 CFR Part 122, Subpart C), and will be based, in part, upon a determination by the Secretary of the population of the health service area. Section 122.204 of the governing regulations provides that the Secretary will determine the populations of such areas based upon the latest available estimate from the Department of Commerce and will publish annually in the FEDERAL REGISTER a list of all health service areas and their populations.

Dated: October 11, 1978.

HENRY A. FOLEY,
Administrator.

DEPARTMENT OF INTERIOR

Bureau of Land Management

ALASKA

Application for Pipeline Right-of-Way AA-12483

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185) the State of Alaska, Department of Fish and Game filed an application for a right-of-way to construct a 2-inch pipeline for the purpose of transporting natural gas across the following described Federal lands.

SEWARD MERIDIAN, ALASKA

T. 13 N., R. 3 W.,
Sec. 9, NW¼SW¼.

The pipeline will transport natural gas from the main line to hatchery building and residences at the Elmendorf Hatchery.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views on this matter should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Anchorage District Office, 4700 East 72d Street, Anchorage, Alaska 99502.

CURTIS V. MCVEE,
State Director.

[CA-734]

CALIFORNIA

Termination of Proposed Withdrawal and Reservation of Land

OCTOBER 13, 1978.

Notice of a Corps of Engineers', U.S. Department of the Army, application CA-734 for withdrawal and reservation of lands in connection with Boulder Gulch recreation area at Lake Isabella in Kern County, Calif., was published as FR Doc. 73-23836 on page 30893 of the issue of November 8, 1973, and republished as FR Doc. 77-21690 of the issue on pages 38436 and 38437 of the issue of July 28, 1977. The applicant has canceled its application for the following described land:

MOUNT DIABLO MERIDIAN

T. 26 S., R. 33 E.,
Sec. 20, All that portion of the NW¼SE¼ lying southeasterly of the relocated California State Highway No. 57.

The area described aggregates 20.07 acres.

Therefore, pursuant to the regulations contained in 43 CFR Part 2350, such lands at 10 a.m. on November 27, 1978, will be relieved of the segregative effect of the above-mentioned application.

JOAN B. RUSSELL,
Chief, Lands Section, Branch of Lands and Minerals Operations.

[SAC 065037]

CALIFORNIA

Termination of Proposed Withdrawal and Reservation of Land

OCTOBER 11, 1978.

Notice of Bureau of Reclamation, U.S. Department of the Interior, Application SAC 065037, for withdrawal and reservation of land for reclamation purposes was published as FR Doc. 61-3369 on page 3207 of the issue of April 14, 1961 and republished as FR Doc. 77-22466 on page 39480 of the issue of August 4, 1977. The applicant has withdrawn its application in its entirety. The lands involved are described as follows:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 32 N., R. 5 W.,
Sec. 20, Lot 15.
T. 32 N., R. 6 W.,
Sec. 18, SE¼NW¼, NE¼SW¼.

The described area aggregates 84.61 acres.

Therefore, pursuant to the regulation contained in 43 CFR 2091, such lands, at 10 a.m. on November 27, 1978, will be relieved of the segregative effect of the above-mentioned application.

JOAN B. RUSSELL,
Chief, Lands Section, Branch of Lands and Minerals Operations.

CALIFORNIA DESERT CONSERVATION AREA ADVISORY COMMITTEE; PUBLIC PARTICIPATION SUBCOMMITTEE

Meeting

Notice is hereby given in accordance with Pub. L. 92-463 and 94-579 that the Public Participation Subcommittee of the California Desert Conservation Area Advisory Committee to the Bureau of Land Management, U.S. Department of the Interior, will meet November 21, 1978, in Riverside, Calif. The subcommittee will discuss with consultants to the Bureau of Land Management the methods to be used to summarize public input received during fiscal years 1977 and 1978 with respect to the California Desert Plan.

The meeting will be held in the Conference Room of the Riverside District Office, Bureau of Land Management, 1695 Spruce Street, Riverside, Calif. 92507, beginning at 7 p.m., Tuesday, November 21, 1978. All meetings of the subcommittee are open to the public and attendance is invited. Statements will be accepted from the public relating to the subject under discussion. Persons who wish to present statements, or who want additional information should contact Chairperson Genny Smith, Public Participation Subcommittee, California Desert Conservation Area Advisory Committee, c/o Director, Desert Planning Staff, Bureau of Land Management, 3610 Central Avenue, Suite 402, Riverside, Calif. 92506.

ED HASTEN,
State Director.

FOUNTAIN VALLEY CONDUIT OF THE FRYINGPAN-ARKANSAS PROJECT, COLORADO

Availability of a Supplement to the Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a supplement to the final environmental statement for the authorized Fryingpan-Arkansas Project, Colorado, to address the construction of the Fountain Valley Conduit.

The supplement concerns a change in alinement of the proposed water supply conduit which will furnish municipal and industrial water supplies to the cities of Colorado Springs, Security, Fountain, and Widefield, Colo. We will not make a decision on this feature of the project until the 30-day wait period has elapsed.

Copies are available for inspection at the following locations:

Director, Office of Environmental Affairs, Room 7622, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, (telephone 202-343-4991.
Office of the Regional Director, Bureau of Reclamation, Lower Missouri Region, Building 20, Room E2421, Denver Federal Center, Denver, Colo. 80225, telephone 303-234-3779.
Fryingpan-Arkansas Project Office, Bureau of Reclamation, 219 West 5th Street, Room 222W, Pueblo, Colo. 81002, telephone 303-544-5277.

Single copies of the supplement statement may be obtained on request to the Commissioner of Reclamation or the Regional Director.

Dated: October 16, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant, Secretary of the Interior.

INTERNATIONAL TRADE COMMISSION

[332-73]

DRAFT CHAPTERS OF THE HARMONIZED COMMODITY DESCRIPTION AND CODING SYSTEM

Release for Public Comment of U.S. Administration Draft Comments

AGENCY: U.S. International Trade Commission.

ACTION: Release for public comment, pursuant to Commission investigation No. 332-73, under the authority of section 332(g) of the Tariff Act of 1930, as amended, of drafts of, and draft U.S. comments on, the following chapters of the Harmonized Commodity Description and Coding System.

Chapter 31: Fertilisers.
Chapter 32: Tanning and dyeing extracts; tannins and their derivatives; dyes, colours, paints and varnishes; putty, fillers and stoppings; inks.
Chapter 35: Albuminoidal substances; glues.
Chapter 36: Explosives, pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations.[1]

[1]Chapter 36 is believed to be acceptable as drafted by the Technical Team, and thus comments are not thought to be necessary.

Chapter 37: Photographic and cinematographic goods.
Chapter 85: Electrical machinery and equipment; parts thereof.

WRITTEN SUBMISSIONS: Parties wishing to submit written comments should do so by November 3, 1978.

HEARING: Parties desiring the Commission to hold a hearing on these draft chapters of the Harmonized Code should contact the Secretary of the Commission by October 20, 1978, and show good cause for holding a hearing.

COPIES OF DOCUMENTS: Copies of the draft chapters and draft U.S. comments thereon which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street NW., Washington, D.C. 20436, or at 6 World Trade Center, New York, N.Y. 10048. The Commission will also send copies to interested parties who notify the Commission of their interest with respect to any particular chapter or group of chapters.

FOR FURTHER INFORMATION CONTACT: Eugene A. Rosengarden, Director, Office of Nomenclature, Valuation, and Related Activities, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone: 202-523-0370.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to obtain the comments and views of interested parties with respect to the above mentioned draft chapters of the Harmonized Commodity Description and Coding System, and of the draft U.S. comments thereon.

This notice is being issued pursuant to Commission investigation No. 332-73, instituted on January 31, 1975 (40 FR 6329), under section 332(g) of the Tariff Act of 1930. The investigation was initiated in accordance with section 608(c) of the Trade Act of 1974, which provides, in part, that the Commission shall institute an investigation which would provide the basis for—

(2) full and immediate participation by the United States International Trade Commission in the United States contribution to technical work of the Harmonized Systems [sic] Committee under the Customs Cooperation Council to assure the recognition of the needs of the United States business community in the development of a Harmonized Code reflecting sound principles of commodity identification and specification and modern producing methods and trading practices • • •.

The Harmonized Commodity Description and Coding System (Harmonized Code) is being developed by the Customs Cooperation Council (CCC), an 80-member international organization with headquarters in Brussels, as an international commodity classification system which will be adaptable for modernized customs tariff nomenclature purposes and for recording, handling, and reporting of transactions in international trade. The Harmonized Code will be based on, and in many respects will be an extension of, the Customs Cooperation Council Nomenclature (CCCN), formerly known as the Brussels Tariff Nomenclature (BTN).

Currently, the Technical Team working under the auspices of the CCC prepares drafts of the various chapters of the Harmonized Code for consideration by the Harmonized System Committee, which was established in order to develop the code. These drafts are forwarded to the members and observers of the Committee for their review and submission of written comments. The Committee meets three times a year to consider these drafts and the written comments and presentations of the various delegations. The review of a particular chapter or group of chapters may extend to more than one meeting.

In 1971, the Department of the Treasury established an Interagency Advisory Committee on Customs Cooperation Council Matters in order to provide a basis for interested Federal agencies to participate with respect to CCC matters. In order to establish and develop U.S. programs and policies with respect to the Harmonized Code, the interagency committee has instituted procedures which take into account the provisions of section 608(c) of the Trade Act of 1974, which call for the Commission to contribute to the U.S. technical input to the Harmonized System Committee. Under these procedures the Commission is preparing technical comments and proposals on the various chapters of the Harmonized Code for consideration by the interagency committee in the determination of U.S. positions with respect to the Harmonized Code. In making proposals, the Commission is seeking and taking into consideration the views of trade and industry and other interested parties and of interested Government agencies.

The draft U.S. comments on the chapters of the Harmonized Code released for public comment today relate specifically to the Technical Team drafts of these chapters and should be read in conjunction therewith.

In its public notices of May 4, 1976 (41 FR 18716 of May 6, 1976), August 9, 1976 (41 FR 34370 of August 13, 1976), December 20, 1976 (41 FR 55948 of December 23, 1976), September 1, 1977 (42 FR 44852 of September 7, 1977), and February 7, 1978 (43 FR 5902 of February 10, 1978), the Commission identified those chapters which have been considered thus far by the Harmonized System Commit-

V 4 3 / 2 0 3 0 C 1 9 7 8

tee, and the chapters for which a Technical Team draft has been released. Since those notices were issued the Commission has received the following draft chapters prepared by the Technical Team:

Chapter 37: Photographic and cinematographic goods.
Chapter 38: Miscellaneous chemical products.
Chapter 40: Semi-manufactures and articles of plastic materials or rubber.
Chapter 50: Silk.
Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric.
Chapter 52: Cotton.
Chapter 53: Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn.
Chapter 54: Man-made filaments.
Chapter 55: Man-made staple fibres (discontinuous).
Chapter 56: Wadding, felt and nonwovens; special yarn; twine, cordage, ropes, and cables and articles thereof.
Chapter 57: Textile floor coverings.
Chapter 58: Knitted or crocheted fabrics; pile and chenille fabrics; tufted textile fabrics; woven fabrics of metallised yarn; gauze; tulle and other net fabrics; lace, embroidery; tapestries; narrow woven fabrics; trimmings.
Chapter 59: Impregnated or coated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use.
Chapter 60: Articles of apparel and clothing accessories, knitted or crocheted.
Chapter 61: Articles of apparel and clothing, not knitted or crocheted.
Chapter 62: Other made up textile articles.
Chapter 99: Works of art, collectors' pieces, and antiques.

Copies of these chapters are also available for inspection as specified above; the Commission will send copies of these chapters to interested parties upon request.

Issued: October 16, 1978.

By order of the Commission.

KENNETH R. MASON,
Secretary.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 77-58]

BERNARD L. LANGSTON III

Revocation of Registration

On November 18, 1977, the Administrator of the Drug Enforcement Administration (DEA) issued to Bernard L. Langston III, M.D. (Respondent) an Order to Show Cause proposing to revoke the Respondent's DEA Certificate of Registration, AL7140724, for reason that on October 25, 1977, in the United States District Court for the District of South Carolina, in Docket No. Cr. 77-187, the Respondent was convicted of nine counts of unlawfully, knowingly and intentionally attempting to distribute Schedule II controlled substances, by means of prescriptions, in violation of Title 21, United States Code, sections 841(a)(1) and 846, felony offenses relating to controlled substances. Simultaneously, the Administrator suspended the Respondent's registration pending a final determination of these proceedings. Service of the Order to Show Cause and notice of suspension was effected on December 13, 1977.

The Respondent, through counsel, requested a hearing on the issues raised by the Order to Show Cause and this matter was placed on the docket of the Honorable Francis L. Young, Administrative Law Judge.

During the pendency of prehearing proceedings before the Administrative Law Judge, counsel for the Respondent and for the Government jointly filed a stipulation and motion for continuance wherein, in view of the fact that the Respondent was in custody and would be imprisoned for at least the foreseeable future and in consideration of the fact that the State of South Carolina had commenced administrative proceedings with respect to the Respondent's medical licensure, it was requested that these proceedings be continued until the State had concluded its proceedings.

On July 12, 1978, the State Board of Medical Examiners for South Carolina, the State in which the Respondent was registered under the Controlled Substances Act, indefinitely suspended the Respondents license to practice medicine.

Thereafter, counsel for the Government filed with the Administrative Law Judge a motion requesting that the aforementioned Order to Show Cause be amended to include as a reason for the relief sought therein the indefinite suspension of the Respondent's medical license. The Government also requested that the stay of these proceedings be terminated and that the Government be granted the relief sought in the Order to Show Cause, as amended. By letter dated August 3, 1978, counsel for the Respondent conceded that the State Board action constituted a sufficient basis for the revocation of the Respondent's DEA registration.

On August 14, 1978, the Administrative Law Judge certified the record of these proceedings to the Administrator along with a recommendation that the Respondent's registration be revoked. The Administrator, pursuant to 21 CFR 1316.66, hereby publishes his Final Order in this matter based on the following findings of fact and conclusions of law.

The Administrator finds that prior to July 12, 1978, the Respondent was registered, pursuant to 21 U.S.C. 823(f), to dispense, prescribe and administer controlled substances as a practitioner licensed and authorized to handle such controlled substances under the laws of the State of South Carolina. The Administrator further finds that on July 12, 1978, the Respondent's license to practice medicine was indefinitely suspended by the South Carolina State Board of Medical Examiners and that his authorization to handle controlled substances as a practitioner was thereby terminated. The Administrator concludes, as a matter of law, that the Respondent is no longer authorized to handle controlled substances in the course of professional practice in the State in which he was heretofore registered under Federal law.

State authorization to handle controlled substances is a prerequisite to the issuance and retention of a Federal controlled substances registration (21 U.S.C. 823(f) and 824(a)(3)). See the Administrator's final order in the matter of *John W. Whitenight, D.O.*, Docket No. 77-30, 43 FR 28259, and prior cases cited therein. For this reason, it is the Administrator's decision that the Respondent's registration must be revoked.

Accordingly, pursuant to the authority vested in the Attorney General, and redelegated to the Administrator of the Drug Enforcement Administration, the Administrator hereby orders that DEA Certificate of Registration AL7140724, previously issued to Bernard L. Langston, III, M.D., be, and it hereby is, revoked, effective immediately.

Dated: October 13, 1978.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

[FR Doc. 78-29529 Filed 10-18-78; 8:45 am]

[4410-09-M]

[Docket No. 78-7]

JACK F. OSTERGAARD

Denial of Registration

On March 27, 1978, the Administrator of the Drug Enforcement Administration (DEA) issued an Order to show Cause to Jack F. Ostergaard, M.D. (Respondent), giving the Respondent an opportunity to show cause why his application for registration dated August 8, 1977, should not be denied, for reason that on May 30, 1974, he pled nolo contendere to one count of unlawfully obtaining a controlled substance in violation of section 11371 of the California Health and Safety Code, a drug related felony.

In response to the March 27, 1978, Order to Show Cause, the Respondent requested a hearing on the issue of the "validity of the nolo contendere plea".

Subsequently, additional independent grounds for denial of Respondent's application became clearly evident to the Government, i.e., that Respondent was registered in California and Pennsylvania to practice medicine which included authorization to dispense controlled substances, and that there occurred revocation by California and Pennsylvania of Respondent's physician's certificate, and medical license, respectively. Citing these bases, the Administrator of DEA issued to Respondent a second Order to Show Cause on July 3, 1978, and Government counsel motioned the Administrative Law Judge presiding that the hearing which Respondent requested and which the Administrative Law Judge set down for July 11, 1978, in Washington, D.C., be continued until August 15, 1978. The Administrative Law Judge granted this motion on July 5, 1978.

As to the July 3, 1978, Order to Show Cause, the Respondent filed no response.

On August 14, 1978, the Government filed a motion for termination of proceedings, asserting that the Respondent was clearly without the requisite State authorizations to dispense controlled substances, and thus could not, under the Controlled Substances Act, obtain a DEA registration as a practitioner, and therefore, the final question of whether Respondent's pending application for registration should be denied is answered as a matter of law.

On August 15, 1978, the Administrative Law Judge presiding issued an Order terminating all proceedings pending in the instant matter, and recommended that the Administrator issue his final order without a hearing, at least as to the matters regarding and raised by the July 3, 1978, Order to Show Cause.

Therefore, upon review and consideration of the Memorandum and Order issued August 15, 1978, by the Administrative Law Judge presiding, and of the record in this case, and recognizing: 1. That in the instant administrative proceeding, the Government has served on the Respondent a motion to terminate these proceedings based upon the orders of the State of California and Commonwealth of Pennsylvania revoking Respondent's State licenses to practice medicine and consequent authorizations to dispense controlled substances; 2. that the Respondent has been given ample opportunity to oppose or make other response to the Government's motion, but that the Respondent has failed to do so; 3. that the record in this matter indicates that there is no genuine issue as to any material fact with respect to Respondent's entitlement to a DEA registration as a practitioner pursuant to 21 U.S.C. 823(f), because the record reveals that he is not authorized to dispense controlled substances under the laws of the States of California and Pennsylvania, in which, heretofore, he practiced medicine; 4. that there is a lawful basis for denying Respondent's pending application; and, 5. that since the Respondent is no longer licensed to practice medicine in California or Pennsylvania, his pending DEA application must be denied.

For reason that the Respondent is no longer licensed to practice medicine, nor is he authorized to dispense controlled substances, in the State of California or Pennsylvania in which he heretofore practiced and was registered with the Drug Enforcement Administration, it is the decision of the Administrator that the Respondent's pending application for registration be denied.

Therefore, pursuant to the authority vested in the Attorney General by sections 823 and 824 of Title 21, U.S.C., and redelegated to the Administrator of the Drug Enforcement Administration, the Administrator orders that the pending application for registration of Jack F. Ostergaard, M.D., be, and it hereby is, denied, effective immediately.

Dated: October 13, 1978.

PETER B. BENSINGER,
Administrator.

MANUFACTURE OF CONTROLLED SUBSTANCES

Registration

By Notice dated August 21, 1978, and published in the FEDERAL REGISTER on August 28, 1978 (43 FR 38474), Fher Corporation, Ltd., Carretera 132, KM 25.3, P.O. Box 7468, Ponce, P.R. 00731, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of phenmetraz- ine (1630), a basic class of controlled substance listed in schedule II.

No comments or objections having been received, and pursuant to section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and Title 21, Code of Federal Regulations § 1301.54(e), the Administrator hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic class of controlled substance listed above is granted.

Dated: October 13, 1978.

PETER B. BENSINGER,
Administrator, Drug
Enforcement Administration.

Law Enforcement Assistance Administration

ADMINISTRATIVE APPEAL OF THE ILLINOIS DEPARTMENT OF CORRECTIONS HEARING ON REFUNDING FOR THE COMPUTERIZED EDUCATION FOR ADULT INMATES

Notice is hereby given that the Administrative Appeal of the Illinois Department of Corrections on the denial of LEAA Refunding for the "Computerized Education for Adult Inmates" (PLATO) Program will be heard on October 25, 1978, commencing at 9:30 a.m. It is likely that the hearing will continue on October 26. The location of the hearing will be the Dirksen Building/Federal Courthouse Building, 219 South Dearborn Street, Room 1669, Chicago, Ill. The hearing will be presided over by Administrative Law Judge Paul N. Pfeiffer of the Consumer Product Safety Commission and will be open to the public.

For further information call Jay A. Brozost, Office of General Counsel, LEAA at 202-376-3691.

CHARLES A. LAUER,
Deputy General Counsel.

NATIONAL INSTITUTE OF LAW ENFORCEMENT AND CRIMINAL JUSTICE

Program Plan for Fiscal Year 1979

INTRODUCTION

The National Institute of Law Enforcement and Criminal Justice was created in 1968 as the research branch of the Law Enforcement Assistance Administration. Congress gave the Institute this broad mandate: "to encourage research and development to improve and strengthen law enforcement and criminal justice."

In fulfilling the mandate, the Institute identifies research needs, sets research objectives and priorities, develops and sponsors research and development projects, and applies research findings in the development of action programs to improve criminal justice. For the most part, projects are conducted by independent grantees and contractors, although the Institute also has a staff research program.

The Institute's mission encompasses both basic and applied research into all aspects of crime prevention and control and the administration of criminal justice. Although the Institute supports some research relating to juvenile delinquency, the primary responsibility for such work rests with

V 43 / 203 OCT 1978

LEAA's National Institute for Juvenile Justice and Delinquency Prevention. Given the scope of its mandate, Institute research projects necessarily involve many disciplines—the behavioral, social, biological, and physical sciences, the law, operations research, and systems analysis.

In addition to research and development, the Institute administers several other programs that fulfill legislatively assigned objectives:

- Evaluation of criminal justice programs;
- Design and field-testing of model programs based on promising research findings and advanced criminal justice practices;
- Training workshops for criminal justice practitioners in research and evaluation findings, and efforts to assist the research community through fellowships and special seminars;
- Operations of an international clearinghouse for criminal justice information, the National Criminal Justice Reference Service;
- Support for a science and technology program that tests and develops standards for equipment used by criminal justice agencies.

Organization

The Institute's organizational structure reflects its wide ranging responsibilities as the research arm of a mission agency. The work of the Institute is carried out through four major offices:

The *Office of Research Programs* administers the Institute's basic, applied, and developmental research activities primarily through external grants and contracts, but also through limited in-house research projects. The Office includes the following divisions: Police, Adjudicaton, Corrections, Community Crime Prevention, and the Center for the Study of Crime Correlates and Criminal Behavior.

The *Office of Research and Evaluation Methods* administers methodological research and development activities. Most projects are conducted by grantees and contractors, but limited in-house research also may be carried out. Activities focus on research and evaluation measurement problems and systemwide research and evaluation problems in criminal justice.

The *Office of Program Evaluation* sponsors evaluations of selected programs primarily through an external grant/contract program, although it, too, maintains a small internal capability. Among the functions of the office are evaluation of selected LEAA-sponsored national programs and of State and local criminal justice initiatives.

The *Office of Development, Testing, and Dissemination* assures that Institute research and evaluation findings are disseminated and applied. The Office identifies and develops program models; designs and sponsors field tests; supports training workshops and information sharing; provides reference, dissemination, and information services; and tests and develops standards for major items of equipment used by criminal justice agencies.

The *Office of the Director* oversees the entire Institute program. Institutewide planning, analysis, and management functions are handled by a special unit created to foster a coordinated approach that builds on the results of past Institute research.

In developing its research objectives and setting priorities for both long-range and immediate research needs, the Institute relies on the counsel of its Advisory Committee of distinguished researchers and practitioners. (See inside front cover of this booklet for a list of Advisory Committee members.) The Committee meets three times a year with the Institute staff to review program and project plans in light of current needs and issues and to assist in formulating long-range goals.

Long-Range Research Agenda

In concert with the Advisory Committee, in 1977 the Institute developed a long-term research agenda, covering major issues to be addressed over the next 5 years.

In developing the agenda, the Institute was guided by the following:

- The Congressional mandate;
- The priorities set by the Attorney General and the LEAA Administator;
- The judgments of the Institute's professional staff and the results of past research;
- The recommendations of the Institute's Advisory Committee and other experts in the field;
- The responses to a survey of criminal justice researchers;
- The suggestions for research contained in the comprehensive State criminal justice and law enforcement plans.

During the planning process, the Institute staff examined the results of past research to discern fruitful areas for further inquiry. It carefully considered recommendations by knowledgeable groups such as the National Academy of Sciences.

From this process came a list of 10 broad topics, reflecting both basic and applied research needs:

- Correlates of crime and determinants of criminal behavior;
- Violent crime and the violent offender;
- Community crime prevention;
- Career criminals and habitual offenders;
- Utilization and deployment of police resources;
- Pretrial process: consistency, fairness, and delay reduction;
- Sentencing;
- Rehabilitation;
- Deterrence;
- Performance standards and measures for criminal justice.

As part of the Institute's planning process, the research priorities are periodically reviewed and refined in consultation with the Advisory Committee. In addition, the Institute annually surveys members of the research community; criminal justice practitioners; Federal, State, and local officials; and public interest groups to get their views on research proposed in the priority areas, as well as on other Institute activities planned for the forthcoming fiscal year.

The Fiscal Year 1979 Program Plan

This booklet outlines both the long-range priorities of the Institute and the general areas of research and program activity proposed for fiscal year 1979. It is published as a general guide only. Detailed specifications, funding, deadlines, and application and review procedures for specific programs are set forth in program solicitations issued periodically throughout the fiscal year.

To insure wide dissemination of information about funding opportunities, all Institute program solicitations are announced in the Federal Register. Each Federal Register notice contains either the full text or a brief description of the official program announcement and the name of the Institute staff member to contact for additional information. Researchers interested in applying for Institute funds are urged to watch for these notices. (The Federal Register is available on a subscription basis for $5 a month or $50 a year from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402).

The Institute also disseminates information on funding opportunities through its "Research Bulletin," published from time to time throughout the year. (To receive copies of the Bulletin, please write: Research Bulletin, National Criminal Justice Reference Service, Box 6000, Rockville, Md. 20850).

Requests for proposals for competitive contracts are published in the Commerce Business Daily.

The Institute is authorized to enter into grants, cooperative agreements, and contracts with public agencies, institutions of higher education, private organizations, and individuals; as well as interagency agreements with other Federal agencies. The particular funding mechanism used for each project

depends upon the nature of the work to be performed. However, LEAA policy stipulates that profitmaking organizations are not eligible for Institute grants.

Solicited Research Program

Application and review procedures. Each program solicitation spells out the specific application and review procedures to be followed, and specifies the deadline. Generally, Institute solicitations call for submission of concept papers or preliminary proposals. The length may vary depending upon the topic, but concept papers usually should not exceed 20 pages. The paper should summarize the proposed study, including objectives, methodology, milestones and anticicated products, and the preliminary budget, and indicate the applicant's competence to perform the work proposed.

Based on a careful review of the concept papers, selected applicants are invited to submit full or final proposals. Requests for full proposals do not represent a commitment by the National Institute or LEAA to support a project. Final decisions on grant awards are made by the LEAA Administrator.

For projects in which the research objectives and issues are particularly well defined, the Institute may waive the concept paper stage and solicit full proposals.

Peer review process. The Institute uses the peer review process to insure fair and knowledgeable evaluation of papers and proposals. For each solicitation, the Institute obtains written reviews from in-house reviewers and at least two—and often three—outside experts drawn from the criminal justice and academic communities, research organizations, and private industry. Usually, reviews are obtained at the concept paper stage and again at the proposal stage.

Proposals are evaluated according to the criteria specified in the program solicitation. The specific method may vary from formal numerical rankings based on weighted criteria to narrative responses only or a combination of both.

In making decisions on grant awards, the Institute is guided by the recommendations of the review panel and by the following considerations:

- Compatibility with the Institute's legislative mandate.
- Relationship to the Institute's plan and priorities and to priorities set by the Attorney General and the LEAA Administration.
- Originality, adequacy, and economy of the research design and methods.
- Experience and competence of the principal investigator and staff.
- Probability of acquiring important new knowledge that advances the understanding of or the ability to solve critical problems relating to crime and the administration of justice.

Unsolicited Research Program

To insure that creative approaches to criminal justice research issues are not overlooked, the Institute also sponsors an Unsolicited Research Program. In fiscal year 1979, there will be two funding cycles for unsolicited research, each announced through a formal solicitation. The deadlines are December 31, 1978, and June 30, 1979. Approximately $750,000 has been budgeted for unsolicited research in fiscal year 1979, half to be awarded in each funding cycle. Grants normally range from $10,000 to $150,000 for research projects of up to two years' duration.

The kinds of research eligible for funding through the Unsolicited Research Program are:

- Small, individual research projects for which there are few alternative funding mechanisms;
- Research emphasizing innovative approaches to criminal justice;
- Basic or theoretical research on interdisplinary subject areas relevant to criminal justice;
- Research not currently identified as priority or innovative approaches in priority areas for the Institute;
- Exploratory studies in criminal justice areas in which there has been little previous work.

Concept papers for the unsolicited research program are reviewed by Institute staff and at least two criminal justice specialists from outside the agency. In the first cycle of fiscal year 1978 funding, five panels were established: Police (including forensics), courts, corrections, correlates of crime, and community crime prevention. The panels reviewed a total of 200 concept papers and recommended that 16 applicant be asked to submit full proposals. Of the 16, 8 were ultimately recommended for funding by the Institute.

In the second cycle, 306 concept papers were reviewed by seven panels—in the five areas listed above, plus evaluation/methodology and forensics. The review is still in process.

For additional information on the Unsolicited Research Program, write to the Director, Office of Research Programs, National Institute of Law Enforcement and Criminal Justice, LEAA, Washington, D.C. 20531.

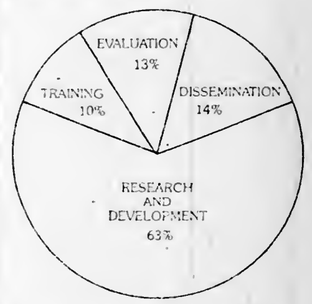
Fiscal Year 1979 Budget, Priorities, and Programs

The Institute's budget for fiscal year 1979 is $25 million.* Those funds will support research and development, as well as the Institute's legislatively mandated programs in evaluation and program development, testing, and dissemination. An additional $2.2 million will be available for training programs administered by the Institute.

*Although Institute funds are appropriated annually, the Institute is not required to obligate these funds in the same fiscal year. Thus, some carryover funds also may be awarded in fiscal year 1979.

Fiscal Year 1979 NILECJ Budget

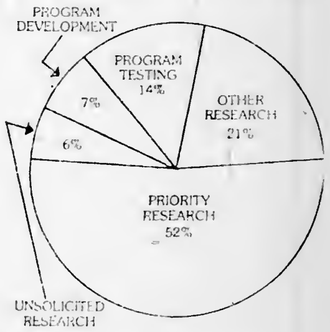
Current plans call for these funds to be allocated as follows:



For fiscal year 1979, approximately $9 million has been tentatively allocated for research in the 10 priority areas. This does not preclude major efforts in other areas, and the Institute continues to fund research in the traditional areas of police, courts, corrections, and community crime prevention. Among the major Institute efforts now underway are studies of white-collar crime, including employee theft, fraud against government benefit programs, consumer fraud, public corruption and corporate illegalities; police management; alternatives to adjudication; and probation and parole.

Research and Development

Research and development funds are apportioned approximately as follows:



By functional area, priority and other research funds are planned as follows:

Priority and Other Research

	Percent
Enforcement	15
Adjudication	15
Corrections	14
Community crime prevention	14
Correlates and determinates	25
Methodology development	17
Total	100

Sentencing	4
Rehabilitation	11
Violence	10
Correlates	22
Career criminal	4
Deterrence	4
Performance measures	6
Total	100

The fiscal year 1979 research and program activities for each Institute office are described in the following pages. Each of the 10 priority topics is briefly summarized, including a recap of efforts to date in each area and work proposed for fiscal year 1979. For information on the status of specific programs and projects, please write to the Director of the relevant Office. The mailing address is: National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, Washington, D.C. 20531.

OFFICE OF RESEARCH PROGRAMS

Focusing upon the Institute's long-range research priorities and LEAA's applied program development needs, the Office of Research Programs sponsors a balance of both basic and applied research directed toward building a body of knowledge about key criminal justice issues. Within each priority area, the emphasis is on cumulating knowledge, including systematic efforts to synthesize and summarize findings.

The Office of Research Programs administers research projects in 8 of the Institute's 10 long-range research priorities. Summaries of each of these topics follow. They describe the problem area, suggest the approach to be taken in Institute research programs, and outline specific projects proposed for fiscal year 1979 funding.

PRIORITY RESEARCH.—CORRELATES OF CRIME AND DETERMINANTS OF CRIMINAL BEHAVIOR

This priority program involves multidisciplinary, long-term, and basic research into criminal behavior. Research in this area builds on earlier Institute work as well as fundamental research now being carried out under the Research Agreements Program. (See page 20 for a fuller description of the Research Agreements). Three of these long-term research programs—on the habitual offender, unemployment and crime, and community reactions to crime—are yielding data on correlates and determinants of crime. Also included in this priority is work underway on drugs and crime, much of it carried out in collaboration with the National Institute on Drug Abuse.

CURRENT EFFORTS

In shaping the research program on correlates and determinants, the Institute has been guided by recommendations that emerged from a colloquium it sponsored in March 1978. The meeting assembled experts from a cross section of the disciplines involved in behavioral research. Among the topics reviewed were early deprivation, environmental influences, school dropout, psychobiological factor, psychopathy, and the role of alcohol and drugs in criminal behavior. The group strongly endorsed studies with a multidisciplinary, longitudinal approach.

Work continued in 1978 on articulating a detailed agenda for research into the correlates of crime and the factors that influence criminal behavior. Future projects in this area will emphasize historical and longitudinal studies, comparative research, and work in the sociological and biological sciences.

A project launched in fiscal year 1978 will exploit the particularly rich data bank developed by the perinatal study begun in 1959 by the National Institutes of Mental Health. The data includes socioeconomic, medical, developmental, and psychological statistics on 50,000 children now in the 13- to 19-year age bracket. The Institute's pilot study will review the mass of data collected and computerized in Philadelphia, which covers more than 9,900 boys and girls, to determine what part of the sample has become delinquent. New data wil be assembled and analyzed on such characteristics as violent behavior, drug and alcohol abuse, psychopathy, and learning disabilities. If the pilot study proves fruitful, the cohort of delinquents could be followed through early adulthood to reveal new insights into the development of criminal careers.

Another project will survey past and present longitudinal surveys carried out in the United States. By reviewing these existing efforts, it may be possible to uncover data that would lend itself to secondary analysis as well as to learn from the experience of others in carrying out such long-term studies.

Institute research on drugs and crime, a legislative mandate, is emphasizing a collaborative approach with other Federal agencies. Present efforts include a study in Harlem that is observing the Economic Behavior of Non-Addict Career Criminals (with the National Institute on Drug Abuse), a Washington State study of Drug and Alcohol Use Among Inmates of Correctional Facilities (with the National Institute of Corrections), and an analysis of Drug-Crime Relationships Within the PROMIS/NTA Data Bases in Washington, D.C. (with the National Institute on Drug Abuse).

Under another grant, the Institute is developing a long-term agenda for research on drugs and crime. The results of this project will influence fiscal year 1980 funding of projects in this area.

In the planning stage are similar collaborative efforts for research on alcohol and crime. As with the work in drugs and crime, the emphasis is on pulling together available information on alcohol use, which is known to be a correlate in much criminal activity, isolating the gaps in our knowledge—such as the precise relationships between alcohol use and specific crimes—and devising preliminary research designs for the most promising areas of inquiry.

Research on the subject of minorities and crime is also being supported. A state-of-the-art review of the topic is underway, and a program solicitation has been issued for a project that will examine the minorities/crime relationship from the social, economic, and political perspectives of minority communities themselves.

Similarly, inquiry into the topic of women and crime has begun with an effort to assemble a comprehensive data base on female crime and arrests, convictions, incarcerations, etc. This project will gather together existing statistical information, and where possible, fill in the gaps by collecting new data.

FISCAL YEAR 1979 PLANS

The following topics are planned for research for fiscal year 1979:

- Exploratory research on drugs and crime is now in progrss and will point to directions for future inquiry. Based on the agenda, a group of interrelated projects might be formulated for funding.
- Explorations of alcohol and crime also are in the initial stages. the topic might serve as a single focus of inquiry in a Research Agreement, or perhaps combined with drugs and crime for a broader inquiry of these two correlates of crime.
- Complementing research on the relationship between specific types of communities and neighborhoods and crime, a new effort may be launched to study the family unit and how it contributes to or inhibits the potential for criminality. This study would concentrate not only on the "traditional family" but would examine the alternative relationships now prevalent to determine impact of the family on crime.
- A study of the psychopathic personality, which remains a pervasive concept in criminology, will attempt to clarify the major issues and sum up the existing information on them.
- Research into early deprivation will attempt to provide more definitive information on the precise impact of early deprivation. While many studies have suggested that emotional and physical deprivation in infancy and childhood have a bearing on delinquent behavior, the relationship has never been conclusively established.
- A multidisciplinary exploration of the avoidance learning deficiency is planned to gain a greater understanding of the social and biological orgins of this characteristic.
- A longitudinal study of disruptive behaivor in school will attempt to differentiate among various kinds of hyperactivity and impulsive behavior and the learning disabilities involved and to determine the relationship of these problems to delinquency. the study would follow a sample into young adulthood to determine if a particular behavioral profile is associated with the career criminal or with certain categories of crime.
- If a significant relationship between the early developmental data and criminal behaviror is found, further research could examine the issue of labeling varsus the need for helping children with demonstratred, serious problems. The study would also consider whether a criminal justice agency can or should sponsor early intervention projects.
- The legal and management issues inherent in the conduct of long-term studies involving investigators from various disciplines will be analyzed. Examples of the kinds of questions to be explored are: How can continuity of funding be assured? How can privacy be safeguarded? What guidelines are needed for behaviroal research on individuals in prisons? What are the implications of these questions for research management?

For information on research in this priority, please contact Dr. Richard Barnes, Director, Center for the Study of Crime Correlates and of Criminal Behavior Office of Research Programs.

VIOLENT CRIME AND THE VIOLENT OFFENDER

Institute research in this priority program is divided into these major categories:

- *Individual crimes of violence:* Causes, correlates, incidence, and trends; strategies for prevention and control; characteristics and treatment of the violent offender (including such aspects as drug and alcohol abuse).
- *Collective violence:* Causes, correlates, incidence, trends, and methods for preventing and controlling such disorders.
- *Weapons and violent crime:* weapons availability, use, relationship to violent crime, and implications for regulation and control.

CURRENT EFFORTS

Priority for new research starts in fiscal year 1978 was given to collective violence and to weapons and violent crime. As a prelude to developing specific research projects in these two categories, the Institute held working meetings with knowledgeable specialists to sort out the complex issues involved and discuss general directions for future inquiry. In the category of individual violent crimes, projects completed last year added to the body of knowledge about such specific crimes as rape and arson.

Individual crimes of violence. A major, 2-year study of rape has been completed, producing guidelines to improve the criminal justice system's response to this crime. The violent crime of robbery will be among the major crimes explored in depth as part of a recently funded project to investigate the environmental correlates of crime and crime prevention.

Arson, a growing national concern, also has been the subject of previous research. A report describing the dimensions of the crime and the difficulties of investigating arson was published last year. A planning effort currently underway is reviewing the literature on arson and identifying gaps in information on the crime and unresolved research issues. From this an agenda for future arson research will be developed.

Collective violence. Based on the recommendations that emerged from several workshops convened on this topic, the Institute has solicited proposals for a project that will design a detailed agenda for research on nonterrorist collective disorders. The project will include an extensive analysis of the literature. To collect primary data on the nature of disorders and their control, researchers will interview staffs of law enforcement and regulatory agencies as well as groups involved in legitimate protests.

The Institute also will sponsor a national workshop on collective disorders, bringing together researchers and law enforcement personnel with the aim of producing preliminary guidelines for disorder control.

Weapons and violent crime. Before launching new efforts in this category, too, the Institute drew upon the insights of the research and practitioner communities. Based in part on suggestions from a workshop of experts, a planning project was solicited, which will review the literature, compile existing data to develop a knowledge base, design a research agenda, and initiate procedures for collecting certain basic data from police and court records. This effort will be coordinated with another Institute-funded study of firearms now being carried out by the Department of Justice, which emphasizes the legislative aspects of the problem.

FISCAL YEAR 1979 PLANS

The plans for fiscal year 1979 funding are the following:

- Research on the nature and patterns of homicide will develop a typology of various kinds of homicide. The research will study different types of offenders and victims and the community and the criminal justice system reaction to each. It will explore the relationship of homicide to other crimes and acts of violence and analyze the implications for preventing specific kinds of homicide.
- The methods of the criminal justice system uses to deal with the crime of robbery will be examined.
- A study of terrorism will emphasize the problems of State and local law enforcement in confronting local terrorist hostage situations in the United States.
- Analysis of arson prevention and control will clarify some of the key issues relating to particular forms of arson, identify the major determinants of the crime, and isolate the factors that promote or inhibit effective prevention. Among the candidates for this research are studies of building ownership and insurance patterns that might offer a method for anticipating arson targets, the psychology of arson, and fires of unknown origin.
- Basic research will be conducted on the origins of violent and aggressive behavior, the influence of drugs and alcohol, and the characteristics of the violent offender. This long-term effort is slated for funding under the research agreements program described on page 20. For information on research in this priority, please contact Lois Mock, Community Crime Prevention Division, Office of Research Programs.

V 43 / 203 OCT 1978

COMMUNITY CRIME PREVENTION

Research in community crime prevention focuses on two areas: Crime and the environment, and citizen and community action relevant to crime prevention.

CURRENT EFFORTS

Crime and the environment. Institute research has probed the relationship between the physical and design features of particular environmental settings and the citizen's fear of and vulnerability to crime. Initial studies in public housing suggested that physical design had an effect on both the rate of victimization and the public's perception of security. Further, the research hypothesized that certain types of physical design may prompt individuals to adopt a proprietary attitute toward their surroundings and exercise social control in their environment. Subsequent research has included demonstrations conducted in school, commercial, and residential settings to integrate urban design, community organization, and criminal justice tactics into a cohesive crime prevention strategy for each site. Evaluation of these efforts was nearing completion in fiscal year 1978.

To assess the growing body of knowledge on crime and the environment, the Institute has solicited proposals for a study to synthesize the results of the research to date and evaluate the soundness of the methodologies employed.

Related programs launched in fiscal year 1978 included a study of the relationship of environmental features of informal social control. This project will refine the earlier "defensible space" hypotheses to pin down those social and environmental variables that influence citizen surveillance, crime reporting, mutual aid, and other forms of "public-minded" behavior.

Th relationship between crime and neighborhood decline is also the subject of a fiscal year 1978 program solicitation. This new project will look at various indicators that appear to signal changes in a neighborhood and gauge the effect of crime prevention activities on neighborhood cohesion and well-being.

Research was also initiated this year to examine how offenders, citizens, and police perceive and respond to specific features of the environment. Expanding on past efforts, this project will attempt to identify those features that make buildings, streets, and neighborhoods likely or unlikely settings for such crimes as robbery, assault, larceny, purse-snatch, and rape. This study will include commercial and residential areas.

Citizen involvement in crime prevention and control activities. Research findings indicate that citizen actions can impede crime, enhance security, and promote justice. Such individual behavior as making one's home secure and reporting crimes promptly has been identified as important to crime prevention and control. The cooperation of victims and witnesses with police and courts has been found to be crucial to successful investigation and prosecution of crime. Collective forms of citizen action—citizen patrols and block watch projects, for example—also can be useful in increasing security and reducing fear of crime.

One of the major Institute programs relating to this subject is a research agreement with Northwestern University that supports long-range, fundamental research on community crime prevention. This 5-year endeavor is studying specific urban neighborhoods to discern how and why certain neighborhoods and organizations adopt particular crime prevention strategies. The researchers are also studying the relationship between police service and various forms of collective citizen action and the connection between an individual's reaction to crime and his/her participation in neighborhood programs. (For a fuller description of the research agreements program, please see page 20.)

Other current Institute research will focus on the mechanics of citizen involvement—how people can be recruited and how their involvement can be maintained in crime prevention efforts. Another study will examine how the mass media influence citizen awareness about crime and/or prompt people to take appropriate crime prevention actions.

FISCAL YEAR 1979 PLANS

The topics planned for fiscal year 1979 funding are the following:

- How an individual's responses to crime (including crime prevention activities) are influenced by social characteristics, past experience with crime, knowledge about crime and the criminal justice system, and perception of the citizen's proper crime-control role vis-a-vis official criminal justice roles will be studied. Since these are likely to differ for different types of crime, the research will analyze such disparate crime categories as violent crime, white-collar crime, victimless crime, and misdemeanors.
- Hypotheses about the interaction of social and economic variables, crime prevention activities, and reduced fear of crime will be examined in more detail. Building on current exploratory studies of incentives and disincentives for crime prevention behavior and the influence of social and interpersonal networks on citizen action, this research will gauge the extent to which a "sense of community" promotes crime prevention activities in various urban settings.
- "Safe and secure" neighborhoods will be analyzed. Earlier studies have shown that certain neighborhoods have unexpectedly low crime rates and the data suggest that environmental factors may help to account for these differences. This project will attempt to uncover the reasons behind the success of certain neighborhoods in maintaining safety and security. It will consider how a number of physical and urban design characteristics may influence the resident's reaction and response to crime and to the neighborhood in general. Among the factors that will be examined are access control, natural boundaries, enclave patterns, land use, transportation, and other public services and facilities.

Other tentative research issues:

- Relationship between urban environment and crime patterns, with attention to the factors that most influence mutual aid and bystander intervention among strangers;
- Impact of land use and transportation planning decisions on intrametropolitan crime patterns;
- The organizational dynamics which enhance positive citizen action, including issues of sponsorship and procedures used to mobilize and maintain citizen involvement.

For information, please contact Dr. Fred Heinzelmann, Director, Community Crime Prevention Division, Office of Research Programs.

CAREER CRIMINALS AND HABITUAL OFFENDERS

Research in the career criminal priority program area is based on the assumption—now buttressed by research findings—that a small fraction of all offenders is responsible for a disproportionately large amount of crime. The framework for career criminal research remains basically twofold: First, a continuing basic inquiry into the nature, identification, classification, and characteristics of the career criminal population; and, second, a better understanding of the variety of ways in which the criminal justice system deals with these offenders.

While the problem of the career criminal has been of interest to the Institute and LEAA for some time, the major inquiry into the classification and characteristics of the habitual offender was launched in 1975 when the Institute began a 5-year research agreement with the Rand Corp.

CURRENT EFFORTS

Preliminary findings from Rand studies of the career criminal cover a broad spectrum of issues including patterns of criminal activity, offense rates, motivation for crime, contacts with the criminal justice system, and potential effects of incapacitation on crime rates. For example, by studying detailed criminal histories of a sample of 625 defendants, researchers were able to estimate the incapacitation effect likely to result from mandatory sentencing approaches along with the potential impact on prison population. Analysis of the data consistently indicates that significant reduction in crime from incapacitation effects alone would require very large increases in prison population. In addition, the Rand study is also examining the characteristics of career criminals and highly active offenders. A survey of California inmates is providing a rich source of information about these issues. A report of the findings will be available in the fall of 1978.

One of the early recommendations emerging from the career criminal research is that greater efforts be made to identify the "intensive offender early in his career. One source of information is the criminal record of juvenile offenders. The adult criminal justice system often lacks information on the unlawful activity of young adults, making it difficult to distinguish those with serious criminal backgrounds from delinquents whose offenses are not so grave. A fiscal year 1978 project will study the role of juvenile records in adult criminal proceedings, examining the various practices relating to the withholding of such information as well as the practical effects of such policies.

FISCAL YEAR 1979 PLANS

The Rand Research Agreement runs through 1980.

Research issues outlined for the program include the following:

- The existing data base will be expanded by replicating the inmate survey in three or four other States. The new surveys would incorporate improvements in the original methodology, which called for self-reported data. When the surveys are repeated, respondents will be assured confidentiality but actual names will be requested so that data can be cross-checked against available records.
- Additional research is planned on the criminal justice system's treatment of the career criminal, with special emphasis on correctional practices.
- Continued inquiry will be made into the patterns of criminal activity.
- Various aspects of the habitual offenders' behavior will be studied, including offense rates, motivations, attitudes toward crime, social stability and drug use, and contents with the criminal justice system.

For more information, please contact Dr. Richard Barnes, Center for the Study of Crime Correlates and Criminal Behavior, Office of Research Programs.

UTILIZATION AND DEPLOYMENT OF POLICE RESOURCES

Research in this priority program focuses on police services for the public and the support and management frameworks necessary for effective delivery of those services. The goal is to create a more rational, effective delivery system, not merely to improve current approaches within existing organizational arrangements.

Earlier research on police—including studies of response time and of preventive patrol conducted in the Kansas City Police Department and a national study of criminal investigation practices carried out by Rand—has pointed up the need for a radical restructuring of the entire police services delivery system. Further, the growing body of police research demonstrates a receptivity to experimentation that offers the opportunity for significant changes in law enforcement.

CURRENT EFFORTS

In planning for fiscal year 1978 research activities, the Institute held extensive discussions with noted scholars and practitioners of law enforcement, as well as joint planning sessions with the Police Foundation. Building on earlier research, the Institute continues to focus on three themes: the nature of current police operations, overall objectives of police operations, and alternative approaches for providing field services. Among the studies initiated during the past fiscal year were the following:

Nature of current police operations. The Institute solicited proposals for a project to assess the general applicability of research findings that showed significant citizen delays in reporting crimes to police. The Kansas City Response Time Study, the first effort to isolate the citizen reporting interval in the response time continuum, found that citizens often fail to report crimes promptly, and the delays tend to diminish the impact of rapid police response. The new research will look at how long citizens in other cities take to report crimes, and the variables affecting voluntary citizen actions that impinge upon reporting crime will be analyzed in more detail. Another project is reviewing the research on police operations that has already been conducted. The study will pull together what is known on various issues and disclose the gaps that could be filled through further research and experimentation.

Overall objectives of police operations. In an attempt to sort out and understand the overall objectives of police operations, the Institute in 1977 funded a reconceptualization of the police function. The analysts are looking at what police are expected to do, what they actually do, how their activities are perceived by citizens, and what the primary determinants of police behavior are. Other studies slated for funding late in fiscal year 1978 are an examination of how police administrators make decisions in operational situations and an exploration of the interaction between citizens and police and how these relations affect policy-setting.

Alternative approaches for providing field services. Three research efforts were initiated under this heading in the past fiscal year. One project builds on the findings of the Kansas City Response Time Study by exploring alternative methods for handling various types of calls for police service. A second project will develop a system for making resource allocation calculations of an minicomputer rather than the larger automatic data processing equipment now typically required for operational planning. A third effort will explore the extent to which police agencies are using modern management concepts and techniques in their day-to-day operations.

FISCAL YEAR 1979 PLANS

Funding plans for fiscal year 1979 include the following:

- *Replication of the Kansas City preventive patrol experiment* that will modify the original research design based on criticisms and suggestions made of the earlier work. Using the improved design, the experiment will be recreated in a jurisdiction to assess the soundness of the earlier findings about the effectiveness of random preventive patrol.
- *Exploration of the advantages and disadvantages of crime-focused police operations.* Scholars and commissions often have recommended that police agencies focus as exclusively as possible on crime-related activities. This project will test the feasibility of creating a crime-focused police unit in one or more selected cities. The research will specify how the functions of a department would have to be reshaped, and the implications of the new structure for municipal government services. Among the police functions to be addressed are preventive patrol, directed patrol, differential response strategy, and criminal investigation. If the crime-focused approach appears feasible, a continuation effort might be funded to evaluate the actual operating experience in one city.
- *Study of how information is acquired and used by police investigators.* This research will parallel studies of the investigative process to be carried out by researchers in England, Australia, Canada, and Holland. Build-

ing upon earlier research, the study will look at the range of information sources tapped by police: informants, modus operandi analyses, and crime

Consistency. Plea bargaining is considered by many to be a major reason for inconsistency in case processing. It is also criticized on other grounds such

ing upon earlier research, the study will look at the range of information sources tapped by police: informants, modus operandi analyses, and crime scene analysis, for example.

● *Defining directed patrol.* As deficiencies in traditional patrol tactics have become evident through research, a number of departments have moved toward a more directed approach to patrol, with tighter management control over the patrol officer's duties and time. To date, however, there has been little systematic treatment of the concept in the literature. Hence, this project will attempt to formulate an operational definition and description of a directed patrol. The approach used will be an assessment of directed patrol operations in several cities.

For information on research in this priority, please contact David Farmer, Director, Police Division, Office of Research Programs.

PRETRIAL PROCESS: CONSISTENCY, FAIRNESS, AND DELAY REDUCTION

The topics emphasized in the pretrial process priority area are consistency, fairness, and delay reduction. A wealth of case-processing information from courts and prosecution agencies has recently been made available through computerized data bases. This mass of data has permitted cross-jurisdictional analysis of the pretrial process providing indicators relevant to both delay and consistency. With the availability of these new research-generated data bases, it has been possible to identify specific problem areas where further investigation is warranted and to generate hypotheses which may account for variations revealed.

Delay reduction. A major court delay reduction project supported by LEAA's Office of Criminal Justice Programs found that delay was a widespread but not universal problem in large jurisdictions. But the project was unable to relate variations in delay to the formal characteristics of the court—number of staff, existence of particular procedures, and/or financing available. Hence, the most recent work undertaken by the Institute has tried to explore new hypotheses that would explain delay. These studies focus on the incentives and accountability systems under which a judge or a court operates. One study is examining the local environment in which a court operates to see how such variables as community interest in the courts, media publicity, and the political climate affect judicial incentives to reduce delay. A separate activity will evaluate the local implementation of innovative approaches to reduce delay developed under the Court Delay action program.

Consistency. Plea bargaining is considered by many to be a major reason for inconsistency in case processing. It is also criticized on other grounds such as excluding the victim from participating in the disposition of the case. To provide the national data that has been lacking, the Institute is examining plea-bargaining practices as they operate throughout the country. Another project is experimenting with a pretrial hearing procedure involving the judge, defendant, victim, and arresting officer. While both of these studies are exploring mechanisms designed to make plea negotiations more structured and not totally dependant on the individual judgments of the attorneys involved, other research has just begun to develop mechanisms capable of measuring the degree of consistency in case processing within an office. Development of a tool for identifying and measuring policy within a prosecutor's office and for determining how consistently that policy is administered is also underway. An onsite analysis in a number of cities will search for explanations of the routinely high dismissal rates for felony arrests and, if possible, identify ways to reduce them.

FISCAL YEAR 1979 PLANS

The following research is proposed for the coming fiscal year:

● *An analysis of court policies, practices and behavior that affect efficiency and fairness.* The project will entail a systematic examination of key sets of variables that have been advanced as affecting case-processing and decisionmaking. The variables include such factors as the goals and incentives governing court personnel, the pressures exerted by their sponsoring organizations, and the influence relationships that develop as the workflow is processed. Analysis of these variables could help to build a valid theoretical framework for judicial administration and might yield incentives that could enable the courts to manipulate certain variables to achieve greater efficiency and fairness.

● A continuation project that is looking at prosecutorial decisionmaking to determine whether different policies produce different case outcomes.

● A study of the role norms of key court personnel. The work of court administration is generally performed by judges, court administrators, and court clerks. There are a number of questions that might be answered through research and thus suggest ways to improve performance and enhance the courts' ability to process cases efficiently and fairly. Among the research questions to be probed in this project are: How are functions delineated among court personnel? What results? What are the behavioral expectations? Who gains administrative decisionmaking power in what types of court structures and for what reasons? What incentive structures exist for different groups of court workers?

● Assessment of alternative organizational designs for defense and prosecution services. Since the Supreme Court's decision in *Argersinger* v. *Hamlin*, nearly half the States have legislated statewide public defenders services. Some States have organized their defense services under a State defender director, others on a regional basis. In half the States, provision of counsel is a matter for local jurisdictions to decide. Prosecutorial systems likewise may be organized statewide (although this is not common), regionally, or most frequently, locally. Despite numerous claims, no empirical data exist to prove that one organizational arrangement is more effective than another. This study will assess whether organizational structure makes a difference to effectiveness or efficiency of prosecutorial and defender delivery systems. Are there differences in the scope of services available, the degree of autonomy, professionalism of the office, quality and uniformity of services, provision of training, etc. under different organizational structures?

● Comparison of the negotiated and adversarial resolution of criminal cases. This project would examine negotiated and adversarial processing and analyze the way characteristics of each method affect the overall results and contribute to or detract from an appropriate outcome. It would also look at the existing range of processing styles available from the most freewheeling bargaining to the most formal adversarial process and attempt to develop new approaches to resolving cases that combine the best aspects of both the negotiated and the adversarial process.

● Court unification: An examination of empirical consequences of court unification. The major research question to be addressed in this study is whether a unified court system results in a more efficient and equitable legal system than a nonunified system. It will be necessary to develop specific measurable goals for those elements of unification that are to be studied and appropriate performance criteria to determine whether those goals have been met. It is anticipated that such dimensions as court consolidation, centralized administration, centralized rulemaking, unitary budgeting, and State financing will be assessed.

For more information on research in this priority, please contact Cheryl Martorana, Director, Adjudication Division, Office of Research Programs.

SENTENCING

Research under this priority remains focused on three sets of basic questions: (1) What degree of determinacy governs each sentencing approach? How does that degree of determinacy conceptually and operationally realize the purpose(s) for which each sentencing approach was devised? (2) Who does and who should do the sentencing? (3) What is the impact of these approaches on the policies and operations of police, courts, and corrections on community perceptions of attitudes, and on offenders?

Each question provides a context for conducting conceptual, basic, and evaluation research. The first two suggest descriptive studies of structure, implementation processes, and procedures. They also suggest studies of the intended versus the actual consequences of these approaches. The third question suggests impact studies of the effects of various sentencing measures on all segments of the criminal justice system.

CURRENT EFFORTS

Within the framework outlined above, research to date has focused on sentencing guidelines and on determinate sentencing. One study is examining the effects of sentencing guidelines in three jurisdictions currently using the guidelines approach, and a field test of multicounty sentencing guidelines will begin in at least two States next year. Workshops on developing sentencing guidelines have been conducted for judges throughout the country and an evaluation of statewide sentencing guidelines will commence this year. Evaluators will attempt to determine if the implementation of the guidelines improves the processing of offenders through the courts, lessens sentencing disparity, influences the offenders' perception of fairness, and affects the length of incarceration. Candidate States include Alaska, Minnesota, Michigan, and New Jersey.

To help clarify some of the issues involved in determinate sentencing, the Institute in June 1977 sponsored a workshop for judges, legislators, correctional administrators, and researchers. The proceedings were published* earlier this year, and provide a detailed discussion of the salient issues.

The Institute also completed a preliminary assement of existing and future needs in correctional facilities based on a national survey. As part of the project, researchers projected possible increases or decreases in prison populations that might result from various changes in sentencing policies, such as the shift toward mandatory minimums. The population forecasts will be refined in a second phase of the work now underway.

In Maine, researchers are measuring the impact of changes in the State's criminal code on the courts and corrections system. In particular, the effects of the abolition of parole and the adoption of determinate sentencing on type of disposition and sentence length are being assessed.

During fiscal year 1978, the Institute began a sentencing initiative that will explore the ramifications of determinate sentencing for the management and operations of the courts and the correctional system. Specific areas of inquiry include the effects of determinate sentencing on court caseloads and backlogs, prosecutorial discretion and plea bargaining, judicial discretions, sentencing practices, institutional programs in corrections, the use of good time, the parole function, the use of community alternatives, and the monetary costs of shifting to a determinate sentencing approach.

FISCAL YEAR 1979 PLANS

Research plans for 1979 include:

● *The feasibility of comparing sentencing approaches.* This research will delineate the conceptual and measurement issues involved in making empirical comparisons of different sentencing approaches. If comparisons of sentencing guidelines with determinate sentencing approaches seem warranted, a preliminary research design would be developed.

For more information on research in this priority, please contact Cheryl Martorana, Director, Adjudication Division, Office of Research Programs.

REHABILITATION

Increasingly, the goal of rehabilitating offenders has been challenged on both empirical and philosophical grounds. Research relating to rehabilitation then focuses on the need to expand knowledge in the following three areas: (1) The nature and effects of recent shifts in corrections purpose and philosophy; (2) the environments in which rehabilitative services are provided; and (3) the effectiveness of rehabilitative programs for both the offender and the community.

CURRENT EFFORTS

In examining the impact and future implications of change, the Institute has focused on actual and proposed changes in criminal codes and evolving case law. Advances are expected through a study of the impact of determinate sentencing in Maine and an assessment of alternative approaches to more determinate sentences enacted by several other States. A study forecasting future inmate populations and prison capacity requirements under a variety of sentencing scenarios is also providing useful data on the potential effects of change. These studies will contribute to future investigation of such concepts as the relationship between equity and individualized treatment and the development of techniques to reduce disparity in the decisions to release an offender into the community.

In the area of rehabilitative environments, past Institute research has looked at how rehabilitative services are delivered in overcrowded facilities. The findings suggest that intake rates are far more crucial to population pressures than either length of stay or exist rates, and that policy determinations significantly affect these intake rates. Other studies will examine such phenomena as the effect of different prison environments on inmates' physiology, and the prevalence and structure of inmate organizations.

The third area of inquiry has sought to develop a base of knowledge about the efficacy of various rehabilitative programs. One of the obstacles to assessing results has been the lack of accurate methods of measuring subsequent behavior. Researchers at the University of Illinois are examining a variety of methods which can be applied uniformly to measure rehabilitative outcome based on subsequent contact with the criminal justice system. Other work includes a major assessment of available evaluative studies, a national study of rehabilitation by a National Academy of Sciences panel, and syntheses of published research on probation and parole.

FISCAL YEAR 1979 PLANS

These research projects are proposed for fiscal year 1979:

● *Reanalysis of the effectiveness of correctional programs.* This project will reanalyze the rich data base developed under previous Institute research. It will assess what types of correctional programs appear to be most effective for various types of offenders.

● *Parole/probation revocations for technical violations.* The Uniform Parole Reports indicate that more paroles are revoked for technical violations than for new crimes. This study would explore the relationship between rehabilitation goals and revocation for technical violations. Specific issues to be examined include the nature of parole/probation rules and the relevance to rehabilitation, the exercise of discretion by supervising officers, administrative mechanisms for controling supervisory discretion, and the criteria employed in making revocation (or continuation) decisions.

The final report of the National Academy of Sciences Panel on Re-

* Determinate Sentencing: Reform or Regression? Washington, D.C.: U.S. GPO, 1978.

search in Rehabilitative Techniques will be completed in the fall of 1978. The Institute plans to follow up on the research recommendations out-

to eliminate batch-to-batch variations of intisera.

● *Serology standards.* Institute-sponsored research has recently devel-

for effective interaction between the forensic and criminal justice systems which would be evaluated in a continuation grant.

sions in accepting the transfer. The research should yield information on the decisionmaking process and the relationship between correctional and

tion and control and the administration of justice. Applicants are required to submit concept papers by November 15 each year.

terrence and Criminal Justice Performance Standards and Measures.

PRIORITY RESEARCH DETERRENCE

V 4 3 / 2 0 3 0 C 1 9 7 8

search in Rehabilitative Techniques will be completed in the fall of 1978. The Institute plans to follow up on the research recommendations outlined in the report. Specific topics to be investigated will be determined after the report has been published.

For more information on research in this priority, please contact John Spevacek, Director, Corrections Division, Office of Research Programs.

OTHER RESEARCH

In addition to work outlined above under the priority topics, the divisions of the Office of Research Programs will conduct a variety of other research projects. Among those proposed for fiscal year 1979 are the following:

POLICE DIVISION

● *Admissible evidence.* This project will attempt to isolate the types of evidence most helpful in solving crimes and obtaining convictions and identify methods for insuring that such evidence is properly collected and preserved. The study will complement current research into the characteristics of police officers whose large numbers of arrests result in convictions.

● *Excessive/deadly use of force by police.* This exploratory research will delve into a major concern of both police and the public—use of excessive or deadly force. The project will assess the incidence of excessive or deadly force and citizen complaints against police and review divergent opinions held by different segments of society. Collecting and analyzing data from selected cities, researchers will make an initial attempt to describe the dimensions of the problem and possible ways to alleviate it.

● *Synthesis of police management research.* This study will evaluate the large number of projects undertaken that bear on police administration. A synthesis of the findings will be produced, which will help to identify directions for future inquiry and promising action programs.

FORENSICS ANALYSIS

The Police Division also administers research in the forensic sciences. These are among the projects proposed for fiscal year 1979:

● *Antisera for blood stain analysis.* Forensic serologists generally agree that the available antisera for bloodstain analysis are of poor quality. The aim of this research is to develop more reliable antisera. This study will include surveying and evaluating commercially available antisera for specificity. In addition, research may be necessary to purify antigens prior to the preparation of antisera. A manual will be developed to teach laboratory examiners quality control procedures to eliminate batch-to-batch variations of antisera.

● *Serology standards.* Institute-sponsored research has recently developed a new system that will greatly improve the bloodstain analysis capability of the Nation's crime laboratories. Under this project, the techniques will be taught to more than 100 selected serologists throughout the country. After the training, each student will be tested with 30 blind samples to insure accuracy in phenotyping bloodstains.

● *Forensic analysis of hair.* Hair is probably one of the most common and perhaps overlooked items of physical evidence found at a crime scene. At present, however, no technique exists that would allow a crime laboratory examiner to state that a given hair sample came from one individual to the exclusion of all others.

Institute-sponsored research in this area has produced an electrophoretic technique that will determine specie identification of animal hair with almost 100 percent certainty. In fiscal year 1979, the method will be made available to the Nation's crime laboratories.

Another project is using electrophoretic techniques to examine the protein composition of the hair. This method makes it possible to identify hairs from an individual in 10 percent of the population only.

In fiscal year 1979, research on human hair will continue, using newly developed immunological techniques that greatly increase the probability of accurately linking hair samples to individuals. The basis for this individualization has to do with the large number of proteins present in the hair and their variation and composition. The separation and eventual identification of these specific proteins will lead to the identification of the hair sample.

● *Forensic analysis certification program.* This continuation project is establishing nationwide standards for the performance of forensic science professionals. Boards have been established for forensic toxicology, forensic odontology, forensic psychiatry, forensic anthropology, and forensic document examination, which test and implement certification programs in their respective disciplines. Work will continue on the design and test of standards for criminalistics for eventual implementation by an official certification board.

● *Management policies for forensics.* This study would take a comprehensive look at the entire forensics function including crime laboratories, medical examiners, toxicology, document examination, forensic toxicology, forensic psychiatry, and forensic odontology. The aim is to develop a model for effective interaction between the forensic and criminal justice systems which would be evaluated in a continuation grant.

ADJUDICATION DIVISION

● *Conflict resolution procedures in criminal cases.* This research would examine the kinds of disputes least amenable to formal adjudication. After weighing such issues as access to justice, ability to resolve disputes, and costs, the project will set criteria for deciding which disputes should be referred to alternative forums and which should remain within the formal court system. The study also will assess the compatibility of alternative forums of justice with traditional legal principles and the function of the judiciary.

COMMUNITY CRIME PREVENTION DIVISION

In addition to funding research in the priority areas of community crime prevention and violent crime, this division also sponsors studies of crimes that have a significant impact on the community and its resources, such as white-collar crime.

The following projects are planned:

● *Employee theft.* Earlier research has produced data on the patterns and characteristics of employee theft and the factors that influence its prevention and control in two large cities. The continuation project will gauge to what extent the findings can be generalized to other areas. The research will look not only at security measures but also at business policies and practices that may relate to employee theft.

● *Fraud and abuse in Government benefit programs.* This continuation effort will focus on a group of priority issues relating to existing and emerging patterns of fraud and abuse in Government benefit programs. The emphasis is on issues that have implications for policymaking and program management.

● New initiatives in white-collar crime. The Institute plans to award one or two grants to stimulate research in areas of white-collar crime not yet explored. Among the possible topics are a historical perspective of social values and white-collar crime, public awareness of and response to the problem, the role of professional organizations in controlling white-collar crime, and cross-cultural studies of white-collar criminals.

CORRECTIONS DIVISION

● *Correctional/mental health transfer decisions.* This study will examine the use of mental health facilities for offenders. It will look at the volume of transfers between prisons and hospitals, the reasons for the transfers, and the degree to which mental health facilities concur with correctional decisions in accepting the transfer. The research should yield information on the decisionmaking process and the relationship between correctional and mental health facilities, as well as indications of how well the treatment needs of mentally ill offenders are being met.

CENTER FOR THE STUDY OF CRIME CORRELATES AND CRIMINAL BEHAVIOR

This new division was established in 1978 as an expression of the Institute's growing commitment to basic research. The Center supports basic inquiries into crime and criminal behavior and addresses fundamental issues that cut across the functional lines of the criminal justice systems. Emphasis is given to long-range projects that are integrated and sequenced to foster steady cumulation of knowledge in a given area. Much of the Center's work is carried out under the priority program, *Correlates and Determinates of Criminal Behavior*, described earlier.

RESEARCH AGREEMENTS PROGRAM

The foundation of the Center's effort is the Research Agreements Program, which the Institute began in 1975. Research agreements are long-term and typically awarded to universities or research organizations capable of pursuing fundamental research in crime and criminal behavior, and the criminal justice system's response. Each grant supports a number of interrelated projects in an agreed upon area of basic research, some of the projects initiated by the Institute and others by the researchers.

Research Agreements are now supporting studies in five areas: the habitual offender, white-collar crime, econometric studies of criminal justice problems, unemployment and crime, and community reactions to crime.

In fiscal year 1979, the Center plans to fund another Research Agreement on:

● *Violent and aggressive behavior.* This multidisciplinary study will synthesize what is known about violent and aggressive behavior and attempt to expand our knowledge about which of the social, psychological, biological, and environmental factors play a significant part in stimulating such behavior.

VISITING FELLOWSHIP PROGRAM

The Center also administers the Visiting Fellowship Program, which is open to highly qualified criminal justice professionals and scholars. Fellowship recipients come to Washington, D.C., to work on research of their own design. Project periods range from 3 months to 2 years. In selecting fellowship recipients, the Institute looks for creative, independent research on the major issues involved in crime prevention and control and the administration of justice. Applicants are required to submit concept papers by November 15 each year.

For information about the Center's programs, please write to Dr. Richard Barnes, Director, Center for the Study of Crime Correlates and Criminal Behavior, Office of Research Programs, at the address listed at the end of this section.

GRADUATE RESEARCH FELLOWSHIPS

Fiscal year 1979 Institute funds will be used for a limited number of fellowships awarded to doctoral candidates through sponsoring universities. The fellowships support students engaged in the writing of a doctoral dissertation in the area of criminal justice. Applicants must have completed all degree requirements except for defense of the dissertation prior to awarding of the grant. The maximum amount of any fellowship is $10,000. Concept papers are reviewed by Institute staff, as well as the staff of LEAA's Office of Criminal Justice Training and Education and by panels of academicians knowledgeable about research needs in the field of criminal justice. For more detailed information on the Graduate Research Fellowship Program, please contact the Office of Criminal Justice Education and Training, Law Enforcement Assistance Administration, Washington, D.C. 20531.

Additional information on any of the foregoing priorities or programs may also be obtained by writing:

Robert Burkhart, Director, Office of Research Programs, National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, Washington, D.C. 20531.

OFFICE OF RESEARCH AND EVALUATION METHODS

The Office of Research and Evaluation Methods supports projects that explore the methodological and measurement problems facing criminal justice researchers and evaluators. The research usually entails the development or adaption of advanced analytical techniques to problems in crime analysis and control. Emphasis is placed on those measurement and methodological issues that recur in a wide variety of criminal justice settings, so that approaches developed can be extended to systemwide research and evaluation.

Most of the research supported by the Office is performed under grants or contracts, but the Office also maintains a small internal research program and advises other Institute and LEAA offices about methodology and measurement.

This Office administers two of the Institute's long-range priorities—Deterrence and Criminal Justice Performance Standards and Measures.

PRIORITY RESEARCH DETERRENCE

General deterrence is one of the most fundamental and controversial concepts underlying the design of crime control policy. It is based on the idea that the risk of suffering undesired consequences for a contemplated criminal act has a crime-suppressive effect on the potential offender.

Which sanctioning policies offer the best promise of deterrence has long been the subject of public debate. By 1975, general deterrence had also generated controversy within the scientific community as seemingly contradictory findings were reported in the literature.

To clarify the issues involved, the National Institute commissioned the National Academy of Sciences to make a detailed technical inquiry into the analytic merits and shortcomings of research on deterrence and incapacitation.

In its report, the NAS Panel concluded that it "could not yet assert that the evidence warrants an affirmative conclusion regarding deterrence." But the Panel noted that its "reluctance to draw a stronger conclusion does not imply that deterrence does not exist, since the evidence certainly favors a proposition supporting deterrence more than • • • one asserting that deterrence is absent." The major challenge for future research, the Panel said, is to "estimate the magnitude of the effects of different sanctions on various crime types, an issue on which one of the evidence available thus far provides very useful guidance."

CURRENT EFFORTS

In fiscal year 1978, the National Institute announced a research program on the "Theory of General Deterrance," based in part on problems uncovered in the NAS study. As this report was being prepared, the 47 concept papers submitted were undergoing peer review, with selection of proposals for funding anticipated in the fall of 1978

The projects to be funded will fall under two broad headings:

Modeling advances. In constructing models of how sanctions affect human behavior, researchers inevitably make a nost of tacit, often complex assumptions, particularly in drawing conclusions about whether a particular sanction caused a reduction in crime. Projects in this area will examine how inferences of a deterrence effect are drawn from analysis and how objectivity might be enhanced.

Quasi-experiments. The deterrence hypothesis assumes that a credible and significant change in sanctioning

V 4 3 / 2 0 3 0 C 1 9 7 8

level would result in a change in crime rates in the opposite direction. (The more severe the penalty, the lower the crime rate, and vice versa.) The validity of this theory can be tested in "quasi-experimental" settings such as a well advertised change in penalties or a police crackdown on certain classes of offenders. Projects in this category will investigate the effects of what happens in real-life situations when criminal justice sanctioning policy is changed.

FISCAL YEAR 1979 PLANS

Two perennial problems confronting researchers studying general deterrence are the confounding effects of incapacitation and the lack of information on the careers and crime rates of different types of offenders. Research reported in the literature suggests that this is an opportune time to expand the number of scholars working on these lines of inquiry.

In fiscal year 1979, the Institute plans to continue to work toward development of a scientifically sound basis for estimating the crime control effects of incapacitation. As with any crime control strategy, quantitative measures of effects cannot be observed directly. Rather they must derive from plausible models of what would have happened if certain actions had not been taken. In the case of incapacitation, crime reduction estimates must be calculated on the basis of the number of crimes likely to have been committed if the population in question had not been incarcerated.

To expand our understanding of the variety of criminal careers and how each evolves, the Institute in fiscal year 1979 will support research on the *Modeling of Criminal Histories. Specific projects might include such approaches as:*

- Development of offender history typologies and empirical estimates of crime commission rates for well defined classes of offender:
- Incorporation of specific deterrence or rehabilitation effects into model structures;
- Inquiry into possible changes in the behavior of young offenders when they leave the juvenile justice system and enter the adult criminal justice system.

PERFORMANCE STANDARDS AND MEASURES

Research in this priority is concerned with the development and validation of performance measures based on an overall theory or set of theories about the purposes of the criminal justice system and its components. The program emphasizes cumulative knowledge building over an 8- to 10-year period.

The first phase of the long-range effort has been aimed at developing definitions of the issues and problems in performance measures and identifying future research needs. Supplementing this basic strategy is a smaller program with limited funds that studies operational performance measurement systems or the practitioner's state-of-the-art.

CURRENT EFFORTS

Conceptualization of performance measurement issues. During fiscal year 1978, funds were awarded to create a consortium of five research institutions whose task is to develop a coherent conceptualization of performance in the criminal justice system and its subsystems. They will attempt to elucidate the many-faceted, and sometimes conflicting nature of the measures used to assess the performance of specific parts of the system. For example, a police performance measurement system that unduly rewards sheer number of arrests affects the performance of the prosecutor's office which must deal with the large number of cases police turn over to them.

By breaking down the generic "performance" into separate aspects, by exploring the influences of organizational style on these aspects, and by providing a cohesive measurement context, the consortium should produce a platform for further empirical research.

Operational performance measurement systems. The Institute's primary interest here is to sort out the kinds of performance information gathered, how it is used, and the factors influencing its acceptance by practitioners. This relatively new area for research has been largely limited to stimulating and observing innovative processes at the State and local levels. One grant was awarded to the New Jersey State Planning Agency to contine the evaluation efforts it has incorporated into the block-grant awards decision process, which might serve as a possible model for developing standardized performance measures for LEAA discretionary programs. Other projects under consideration include a study of the implementation of performance measures in State correctional institutions and the implementation of a systemwide resource allocation planning process by a Regional Planning Unit.

FISCAL YEAR 1979 PLANS

The consortium grants solicited in fiscal year 1978 will continue into fiscal year 1980 so additional funding of empirical studies directly related to their eventual findings will be limited in fiscal year 1979. However, basic and applied research in other aspects of performance measurement will be encouraged.

Research planned includes:

- A study of the non-crime-related social services delivered by the criminal justice system, including an analysis of the areas where it overlaps with other social service delivery systems in the community;
- A study of how resources are distributed within and across the total criminal justice system to determine whether significant increases in efficiency could be achieved through reallocations;
- Initial development of system performance indicators to create criminal justice counterparts to indicators of economic progress; and
- Comparative analyses of juvenile and adult systems with emphasis on treatment philosophies, offender flows, deterrence and youth crime, and the attitudes of young adult-offenders after they have left the juvenile system.

OTHER RESEARCH

METHODOLOGY RESEARCH

The Office of Research and Evaluation Methods also sponsors a modest program of support for a range of studies of high technical merit aimed at research, development, and testing of methodological innovations of potential significance to criminal justice.

A fiscal year 1978 program solicitation received more than 200 concept papers, 12 of which have been selected for funding late in 1978. Some are investigating the validity of crucial assumptions that underlie certain commonly used elements of criminal justice evaluation designs. Some explore sophisticated techniques that have demonstrated their utility in other social research and evaluation to determine their applicability to criminal justice research. Finally, some of the projects seek a theoretical breakthrough of critical measurement and methodological issues.

FISCAL YEAR 1979 PLANS

Two areas are likely to be given priority in methodology research:

- Efficient and valid techniques for estimating the long-range effects of criminal justice initiatives and programs.
- Investigations aimed at achieving increased utility of "official" data in the design and conduct of criminal justice research and evaluation.

In addition to the foregoing, the Office will manage a project stemming from the National Academy of Sciences Panel on Research in Rehabilitative Techniques. The effort will examine successful treatment programs used in fields such as education and mental health and assess the feasibility of transferring the approaches to a correctional setting.

For information about any of the above research write:

Dr. Richard Linster, Director, Office of Research and Evaluation Methods, National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, Washington, D.C. 20531.

OFFICE OF PROGRAM EVALUATION

The Office of Program Evaluation designs, funds, and administers evaluation of national-level LEAA programs, innovative and experimental projects and programs at the State and local level, selected criminal justice techniques and procedures, and significant State and local legislative or administrative reforms. The Office is responsible for the National Evaluation Program, evaluations of LEAA demonstration programs, and field tests sponsored by the National Institute, as well as other evaluation priorities. It also supports the development of evaluation guides and handbooks for State and local evaluations.

The major objectives of the Office are to assess the efficiency and effectiveness of LEAA-funded projects and programs and to evaluate the impact of other State and local community and criminal justice initiatives.

NATIONAL EVALUATION PROGRAM

Created as a tool for evaluating the LEAA block grant programs, the National Evaluation Program has sponsored a series of phased evaluations in 34 topic areas. Each topic area has been defined to include ongoing criminal justice projects with similar objectives and strategies, such as employment services for ex-offenders, street lighting projects, and coeducational correctional institutions.

The initial step in the process has been a "Phase I" study that identifies the key issues, assesses what is currently known about them, and outlines approaches or methodological needs for more intensive national or local evaluation. Phase I studies are not meant to be definitive evaluations; rather they analyze what is presently known and what is still uncertain. Each Phase I study results in an assessment of the project type based on available data, documentation, and limited pretesting of possible designs for more intensive Phase II evaluation.

Among the Phase I assessments currently underway are the LEAA Victim/Witness Assistance Program, Police Training Programs, Correctional Data System Projects, and Shoplifting/Employee Theft Programs. A new Phase II Program will undertake a controlled experiment to compare the effectiveness of different probation techniques used by a single jurisdiction. This multiyear assessment should produce new knowledge on levels of supervision and on the utility of different treatments for different types of offenders.

FISCAL YEAR 1979 PLANS

The Institute proposes to shift the emphasis of the studies to specific functions performed by criminal justice agencies, with special attention to those involving relationships among agencies and those involving the entire criminal justice system. These functions are tentatively planned to be assessed in the coming fiscal year:

- *Liaison offices.* The focal point for this study would be the police and their liaison activities, which include (a) police/prosecutor's offices in the courts, (b) police/community relations, (c) police-based social service workers, (d) police legal advisers. This topic area will investigate linkages within the criminal justice system in particular and should primarily involve formally established offices or officers.
- *Family counseling.* Family counseling is performed by probation officers and police and is increasingly being applied by central intake units of correctional facilities. This function is found across the criminal justice system, performed in the community and by police, courts, and correctional personnel and may involve both formal and informal programs/projects.
- *Screening and evaluation for mental health services.* This function is performed by police and court personnel in particular. This Phase I study would investigate the linkages between the criminal justice system and mental health/drug treatment service delivery. Investigation would involve all components of the criminal justice system as well as the community and other government offices.

PROGRAM EVALUATION

LEAA supports many national level programs designed to demonstrate the effectiveness of various concepts and methods to reduce crime and improve criminal justice. The Office of Program Evaluation funds evaluations of a select number of these programs each year.

The Office currently is sponsoring an evaluation of the LEAA Community Anti-Crime Program which supports community organizations operating independently of State and local governments and agencies. The evaluation uses a major decision theoretic technique, the Multi-Attribute Utility Theory.

The success of this decision theory approach resulted in its application in the evaluation of another major community initiative launched by LEAA in 1978, the Comprehensive Urban Crime Prevention Program. This program focuses on the coordinated efforts of various agencies and community groups. Another 1978 evaluation is assessing LEAA's Integrated Criminal Apprehension Program.

In addition to these demonstration program evaluations, the Office is completing the national evaluation of the LEAA Career Criminal Program and the Standards and Goals Program, and will continue to support an evaluation of the antifencing programs known as Sting.

FISCAL YEAR 1979 PLANS

The Office will fund national evaluations of three or four LEAA demonstration programs. They will be chosen from among the following:

- *Major criminal conspiracies.* This new LEAA program involves Federal, State, and local law enforcement officials in the identification and prosecution of major criminal conspiracies. The program consists of three distinct but interrelated functions: analysis of financial and intelligence data to determine the nature and scope of a major criminal conspiracy, followup investigations to obtain and analyze specific data, and prosecution based on results obtained from the data.
- *Court delay reduction.* This program supports efforts at the State level to analyze alternatives to the present organization, management, and structure of court systems that promise improved delivery of services. The program also assists in implementing the improvements.
- *Jail overcrowding and pretrial detainees.* The objective of the program is to reduce jail overcrowding in selected jurisdictions, particularly where it stems from large pretrial populations. This program concentrates LEAA's past research and training efforts related to jails into a cohesive package that can be utilized by jurisdictions facing a "jail crisis."
- *Statistical analysis centers.* The centers coordinate the analysis of information produced from Comprehensive Data Systems programs in the States. Producing both analytic and descriptive reports on the operations of the State criminal justice system, the Center can provide important input into policy decisions.
- *Field test evaluations.* The Office also conducts evaluations of experimental programs that are designed and conducted on a test basis by the Institute's Office of Development, Testing, and Dissemination. For fiscal year 1979, these tests are candidates for evaluation: (For descriptions of each, please see page 29).
- *Multi-County sentencing guidelines.*
- *Neighborhood action to reduce residential burglary.*

- *Commercial security.*

In addition, the Office of Program Evaluation is evaluating the field test

- Selecting response strategies—additional research if more knowledge is needed, or * * *.

In fiscal year 1979, the Institute will produce program models from among the following topics:

- *Commercial security.* This effort will test the effectiveness of police programs that assist businesses in

A brochure describing the program and forms for recommending projects are available from the Model Program

Four to five workshop series are conducted nationwide each year on subjects with national implications.

V 4 3 1 2 0 3 0 OCT 19 78

● *Commercial security.*

In addition, the Office of Program Evaluation is evaluating the field test of the Neighborhood Justice Center Program begun last year to experiment with the use of dispute resolution techniques to divert certain types of criminal and civil cases from the courts. The Office will assess other tests launched in 1978: Managing Patrol Operations, Pre-Release Centers, and Improved Correctional Field Services.

OTHER EVALUATIONS

The Office is funding an assessment of a special Industrial Security Program initiated by the Chicago Planning Commission of the city of Chicago, designed to aid in the development of the city's evaluation capability.

The Office also is launching an assessment of governmental responses to crime during the period 1968–1978. This historical assessment will trace the criminal justice, social, and economic responses to the problem of rising crime following World War II. The study will examine 10 cities and their suburbs across the country, and will reassess such major LEAA efforts as the Impact Cities Program and the Environmental Design Program.

For information about any of the above activities of the Office of Program Evaluation, write to:

Director, Office of Program Evaluation, National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, Washington, D.C. 20531.

OFFICE OF DEVELOPMENT, TESTING AND DISSEMINATION

The Office of Development, Testing, and Dissemination administers the Institute's research utilization program. It reviews research results to identify findings of potential significance to practitioners, policymakers, and other researchers, and shapes the information into forms most suitable to effect transfer to the appropriate audience.

A key function of the Office is to design, develop, and test action programs through an applied research process. Drawing on Institute research findings and selected innovative practices of demonstrated merit, the Office designs model programs and field tests them in a variety of settings. When results warrant further development, the Office then develops a refined model suitable for wider demonstration by LEAA.

These functions are part of an agencywide program development process, which is designed to insure systematic development of programs based on knowledge. The process involves the following steps:

● Identifying problem areas manifest through research;

● Selecting response strategies—additional research if more knowledge is needed, or • • •.

● Development of a model program based on the best available research and practical experience;

● Designing a field test of the model program;

● Implementing and evaluating the field test, and incorporating the results in • • •

● A refined model program, called a validated program design;

● Wider demonstration of the validated design and, if successful;

● Marketing by LEAA nationwide.

The three divisions of ODTD carry out specific steps in this process, principally in the early phases of problem identification, program development, and testing.

MODEL PROGRAM DEVELOPMENT DIVISION

This unit is responsible for the research utilization program, studies of the process of change in criminal justice agencies, and the Exemplary Projects Program.

The research utilization program was expanded in 1978 to increase program development and dissemination options available to the Institute. In fiscal year 1979, this effort will:

● *Review completed research, recommend research utilization strategies, and prepare specialized materials for selected target audiences.* Examples of the products would include articles, pamphlets, manuals, and state-of-the-art papers for particular audiences—for example, policy and legislative option papers on criminal justice issues for use by Governors, State legislature, or local executives and legislative bodies.

● *Develop program models* which synthesize research data, empirical experienced, and expert opinion, present detailed analyses of a series of programmatic options in the topic area, and discuss the advantages and limitations of each approach.

● *Design field tests for implementation* in a variety of settings. The division chairs teams made up of Institute staff, researchers, and practitioners which develop the program design based on findings from related research studies and documented, successful practice. The design specifies the essential elements of the model, the objectives of the program, operations, and management, selection criteria for test sites, and evaluation measures and methods.

● *Develop validated program designs.* Based on the evaluation results of the field test, the original design is modified to eliminate those features which produced unintended or undesired effects and to highlight those that demonstrated their effectiveness.

In fiscal year 1979, the Institute will produce program models from among the following topics:

● *Methods for analyzing community security problems.* This manual would assist community crime prevention planning efforts by developing methodologies for conducting an integrated analysis of crime problems, major community concerns, and community resources.

● *Police crime prevention programs.* The report would focus on organizational, operational, and management procedures to bolster the effectiveness and responsiveness of police crime prevention activities. Methods for enhancing the involvement of citizens and community groups will be emphasized.

● *Consumer fraud intervention.* The document would identify promising intervention strategies to detect and prosecute consumer fraud.

● *Pretrial release criteria and standards.* This synthesis of guidelines and evaluative research would examine operational procedures and prediction of risk techniques for pretrial release programs including bail, ROR, and supervised release programs.

● *State victim compensation programs.* The handbook would offer practical guidelines for establishing and operating statewide victim compensation programs, emphasizing the use of LEAA victimization survey data to identify the scope and nature of victim needs.

● *Employment services for ex-offenders.* The report would compile information on programs that provide training, job development, and job placement services for parolees and probationers.

● *Police services for the elderly.* The manual would provide information on police and community programs designed to reduce fear of crime among the elderly and minimize the difficulties encountered by the police in delivering services to older people.

The Division also develops program designs based on the findings of Institute research and the best available practical experience. The carefully crafted designs are then tested in a limited number of sites to evaluate their effectiveness in different settings, identify the need for further research, and determine their suitability for LEAA marketing.

Among the candidates for field test design in fiscal year 1979 are:

● *Neighborhood action to reduce residential burglary.* This test will experiment with a number of specific approaches identified through research that promise to reduce vulnerability to burglary. These include such efforts as Block Watch, property-marking, and citizen crime reporting.

● *Commercial security.* This effort will test the effectiveness of police programs that assist businesses in strengthening security on their premises.

After a program has been implemented and evaluated, the results are incorporated into a validated program design. Validated designs are nearing completion for the following programs: Prosecution of Career Criminals, Neighborhood Team Policing, and Local Criminal Justice Planning. Now in preparation are validated designs for Managing Criminal Investigations, Juror Usage and Management, and Community Response to Rape.

While the research utilization program focuses on expanding the use of existing dissemination and program development techniques, a new effort will seek knowledge that can lead to new and improved research utilization strategies. Proposals have been solicited for an exploration of how change occures—how knowledge is diffused and adopted in the form of programs and how those innovations can be made permanent.

The division also is responsible for the exemplary projects program, a systematic effort to tap the best experience of the criminal justice community nationwide. Outstanding projects operated by State, local, or private agencies are identified, and information on them is disseminated throughout the country.

To be considered exemplary, a project must have demonstrated consistent success in reducing crime or achieving a measurable criminal justice improvement for at least one year. Other selection criteria include cost effectiveness, avialability of evaluation data, suitability for transfer, and willingness of the sponsoring agency or community to provide information to other communities. LEAA funding is not a prerequisite.

Candidate projects are prescreened by Institute staff and the most promising programs submitted to a contractor for onsite validation. The validation reports are reviewed by a board of LEAA and State Planning Agency representatives which selects the best projects for Exemplary status.

All Exemplary Projects are widely publicized. Brochures and detailed instructional manuals are prepared on each project and distributed to agencies and communities throughout the nation so they can consider adopting the approach in their localities. The manuals spell out the planning, operation, budget, and staffing necessary and explain evaluation procedures, so that communities adopting the program can gauge their own success or shortcomings. To date, 29 Exemplary Projects have been selected from more than 515 candidates.

A brochure describing the program and forms for recommending projects are available from the Model Program Development Division. The deadline for submitting project recommendations for the next round of screening will be early in 1979. The exact date will be announced through the National Criminal Justice Reference Service.

TRAINING AND TESTING DIVISION

The division has two key responsibilities: Field tests of Institute-designed experiments and national training in advanced concepts for criminal justice executives.

The Field Test Program functions both as part of the Institute's research and development process and in support of LEAA action program development. Each year, two to four program designs based on the findings of Institute programs are tested in a limited number of sites. The Training and Testing Division funds, conducts, and monitors the tests, assessing and selecting sites on the basis of criteria established in the test design. Institute funding normally supports an 18- to 24-month test in three to five communities for each program.

The Division also provides special training seminars, on-site consultation, and conferences for key staff of all test sites.

In fiscal year 1979, the Division will conduct a test of Multi-County Sentencing Guidelines. This study will examine the effects of judicial guidelines on sentencing consistency and equity in two or more counties of two States.

Other candidates for fiscal year 1979 field tests, described under the Model Program Development Division, are Neighborhood Burglary Prevention Programs and Commercial Security Surveys.

The executive training program presents regional workshops for senior criminal justice officials and special national workshops and seminars for selected researchers and practitioners. It also provides specialized training to support Institute field tests.

Executive workshops are held throughout the country on selected new programs resulting from outstanding research and evaluation findings, Exemplary Projects, and Program Models. Senior officials of State and local agencies participate in workshops conducted by national experts on the particular topic—wherever possible by those who originate the concepts. A complete training curriculum and resource materials are given to officials who plan to adopt the program in their own communities. Limited follow-on training also is available to help participants sponsor additional training sessions for their own or their client organizations.

Four to five workshop series are conducted nationwide each year on subjects with national implications. Topics are selected annually based on a survey of State Planning Agencies, major regional planning units, LEAA central offices, and National Institute staff.

Last year workshops were held on Managing Patrol Operations, Developing Sentencing Guidelines, Victim/Witness Services, and health Care in correctional Institutions. More than 2,200 officials attended the workshops, and another 2,000 practitioners were reached through follow-on training.

The following workshops are scheduled to be held in fiscal year 1979:

● Improved probation strategies. A number of questions have been raised about the role and effectiveness of probation as it currently exists. This workshop will train probation executives in innovative techniques for delivering services more efficiently, with an emphasis on effective management techniques.

● Community crime prevention. Hundreds of programs that involve citizens in crime prevention now exist throughout the country. Although research and evaluation suggests that they have the potential for making a significant contribution to crime control, many projects are plagued by problems in planning, management, operating methods, and mobilizing and maintaining community involvement. The workshop series will train law enforcement executives, urban administrators, and citizens in approaches designed to overcome the most common deficiencies.

● Maintaining municipal integrity. The aim of this workshop is to heighten the awareness among police executives and other government officials of their primary responsibility for ensuring integrity in government. The topics to be covered include the extent of municipal corruption, the common problems faced by most jurisdictions, and research-based strategies for more effective prevention and control of corruption.

● Operating a defender office. This workshop will explore the basic problem involved in providing legal representation to the indigent: How best to organize and manage the delivery of defense services. The sessions will cover various structures and will emphasize techniques for evaluating a public defender's office from both the administrative and client perspectives.

In fiscal year 1979, four of the following topics will be developed and presented as workshops:

● Police/community services to the elderly. This workshop would examine the problems of crime and the elderly from four dimensions: Victimization, fear, elderly dissatisfaction with police

V 4 3 1 2 0 3 0 OCT 19 78

services, and difficulties encountered by the police in delivering services. It would train participants in implementing police and community programs to alleviate these problems.

● Drug law enforcement. The workshop would be based on results of research conducted in six cities to determine effective strategies for managing police narcotics units.

● Prosecutor career criminal programs. Training would be based on the validated program design which will provide detailed guidelines on project operations in prosecutor offices of varied size. The design is based on assessment of 8 of the 26 career criminal demonstration programs funded by LEAA.

● Court management. Four program models will be integrated into a training program for court administrative personnel. The training will cover the theoretical framework of trial court management, establishing operational goals and objectives, developing an improvement program, managing change, and budgeting.

● Parole decisionmaking. Based on research that produced guidelines for making decisions about who should be released from prison, this training would be directed at State parole board members and State legislators responsible for the oversight of paroling authorities. The training would also review alternatives to parole now being advanced by some scholars and practitioners. The purpose of the training would be to provide a sound basis for decisionmaking on the questions of who gets released and when.

● *Presentence reports.* Based on a Program Model, this workshop would train participants to develop more useful presentence reports designed to meet specific needs of a jurisdiction. Multilevel reports of varying degrees of detail may be needed to meet the requirements of specific judges in specific cases.

Special national workshops bring key researchers and practitioners together to discuss particularly significant research findings and other critical criminal justice issues. Special national workshops in the coming fiscal year will be selected from the following candidates:

● *Mental health in jails.* Jointly sponsored by NILECJ, NIMH, and NIC, this workshop will explore the status of mental health services in American jails, examine the legal and Constitutional issues, review implementation of the standards recommended by the National Advisory Commission on Criminal Justice Standards, recap the literature and research on psychological behavioral pathology in jails, examine prevention models for mental health services in jails, and assess the extent and status of research on mental health services for and problems of jailed offenders.

● *Second evaluation workshop.* An update on current best work in criminal justice evaluation will be presented in 15 panels to researchers and evaluators. Evaluation methodology and problems would be discussed with SPA and RPU evaluation managers as the target participants.

● *Collective disorders.* A panel of up to 25 law enforcement and emergency preparedness executives will examine present and anticipated issues relating to collective disorders and terrorism, determine the needs for prevention and management of such incidents, and recommend programs for updating response capabilities in the criminal justice system. A secondary function would be to identify research and data development needs in this area.

● *Governors' workshop.* A national workshop or a series of regional presentations are tentatively planned to acquaint Governors with criminal justice issues and the roles of research and LEAA in supporting State decisionmaking in this area.

● *State planning agency workshop.* With the combined sponsorship of NILECJ and the National Conference of State Criminal Justice Planning Adminstrators, this workshop would address the primary issues affected by SPA programs and supported by the research community. In addition to SPA administrators, RPU directors, State budget officers, and executive staffers from Governors' offices would be invited.

● *Community crime prevention.* The purpose of this workshop would be to review completed and ongoing research in this area as well as major questions that merit further research attention. Special consideration would be given to social science findings and experiences relevant to crime prevention. Problems and issues dealing with the planning, design, and conduct of research and evaluation in crime prevention would also be addressed. The workshop would draw upon Institute research results and work in progress.

● *Criminal careers.* The workshop would address benefits of identifying career criminals and analyze selective treatment potential, based upon a better understanding of how career criminals differ from the general offender population in such characteristics as frequency and scope of activities, success in avoiding arrest or incarceration, motivations and receptivity to correctional treatment.

● *Update 1979.* The third in a series of annual sessions for local elected officials, the workshop would present panel discussions of significant research efforts with implications for cities and counties.

● *Prison overcrowding.* The workshop would provide data and projections for all States on the issue of prison populations and related needs in manpower and physical resources. Other factors such as services, unionism, and management may be considered. The primary audience would be State legislatures.

● *Retrenchment planning.* Elected officials, budget officers, planners, and criminal justice officials would be presented with systematic approaches to reduce costs through utilization of more effective management procedures and more efficient criminal justice practices and manpower allocation.

The HOST program gives officials seriously interested in implementing a new program the opportunity to spend up to two weeks working with administrators of selected "host" Exemplary Projects. The Institute pays travel and living expenses for the visitor. The first-hand, on-location experience provides the chance to study the project operation in detail and prepares the visitor to transfer all or part of it to his own community. Response to the program is encouraging: 13 communities have made major modifications or established new procedures as an outgrowth of Host visits, and another 36 communities have initiated some changes based on what they learned through onsite observation of outstanding projects.

The program will support approximately 50 visitors to 15 host agencies in fiscal year 1979. Visitors are nominated by State Planning Agencies and professional organizations.

REFERENCE AND DISSEMINATION DIVISION

This Division supervises the operation of the National Criminal Justice Reference Service, maintains the LEAA library, and manages the publication program of the National Institute.

The National Criminal Justice Reference Service, an international clearinghouse, is the Federal information resource center for criminal justice researchers and practitioners. Through a wide range of distribution and notification services, the Reference Service informs more than 40,000 subscribers of the latest research and operating experience in criminal justice. Its computerized data base can provide quick response to individual queries on criminal justice topics. A limited number of single copies of National Institute, LEAA, and other selected publications are provided free to subscribers.

Selected foreign documents are provided in English translation.

For further information and registration details, write:

National Criminal Justice Reference Service, Box 6000, Rockville, MD. 20850.

The division also maintains the LEAA Library whose special collection serves as a resource for LEAA staff and the public.

In addition to publishing and distributing all Institute research and program documents, the Institute's publication program produces specialized information products including brochures, journal articles, the Program Plan, the Annual Report, the Research Bulletin, the Research Briefs (in the LEAA Newsletter), and a new monograph series entitled Criminal Justice Perspectives. In fiscal year 1979, the Institute will publish the first annual review of criminal justice research.

Because equipment is a major budget item for law enforcement agencies, the Office also supports testing of particularly significant equipment items and dissemination of the results. The Equipment Technology Center, operated by the International Association of Chiefs of Police with Institute support, supervises the testing process and publishes performance reports to help law enforcement agencies make sound purchasing decisions.

A corollary effort is the ongoing Law Enforcement Standards Laboratory (LESL) established at the National Bureau of Standards. It serves as the Institute's scientific laboratory in researching and developing performance standards for selected items of law enforcement and criminal justice equipment. The standards support the work of the Equipment Technology Center and also are published and disseminated directly to criminal justice purchasing agents.

For additional information on the Office of Development, Testing, and Dissemination programs and services described above, contact:

Paul Cascarano, Director, Office of Development Testing and Dissemination, National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, Washington, D.C. 20531.

BLAIR G. EWING,
Acting Director, National Institute of Law Enforcement and Criminal Justice.

[7590-01-M]

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-284]

IDAHO STATE UNIVERSITY

Proposed Issuance of Amendment to Facility License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility License No. R-110, issued to Idaho State University (the licensee), for operation of the AGN-201 Research Reactor located on the licensee's campus in Pocatello, Idaho.

The amendment would authorize an increase in the reactor's licensed maximum power level from 100 milliwatts (thermal) to 5 watts (thermal), in accordance with the licensee's application for amendment dated August 10, 1978.

Prior to issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By November 20, 1978, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend his petition, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, the petitioner shall file a supplement to the petition to intervene which include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Docketing and Service Section, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 800-325-6000 (in Missouri 800-342-6700). The Western Union operator should be given Datagram Identification No. 3737 and the following message addressed to Robert Reid: (petitioner's name and telephone number); (date petition was mailed); (Idaho AGN-201); and (publication date and page number of this FEDERAL REGISTER notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing

V 4 3 1 2 0 3 0 OCT 19 78

of the factors specified in 10 CFR 2.714(a)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-42]

ACCIDENT REPORTS; RESPONSES TO SAFETY RECOMMENDATIONS

Availability

The National Transportation Safety Board has concluded its investigations of three major accidents which occurred earlier this year—a truck collision in North Carolina, the sinking of the M/V HALLIBURTON in the Mississippi River Delta, and a train derailment in South Carolina. Copies of the narrative reports on these accidents were released last week and are now available to the public.

HIGHWAY ACCIDENT REPORT

A Kohler Company tractor-semitrailer, carrying a 43,000-lb. cargo of feldspar, was southbound last January 25 on North Carolina Route 226. As the truck descended a steep winding grade near Marion, braking capability was lost because the brakes were out of adjustment. The operator steered the truck into the northbound lanes at a blind curve and struck a northbound pickup truck headon. A passenger in the pickup truck was killed; both drivers and a second passenger in the pickup were injured. (Report No. NTSB-HAR-78-6)

The Safety Board determined that the probable cause of this accident was: (1) The loss of truck braking capability because the brakes were out of adjustment and (2) the southbound truckdriver's poor judgment in steering into the northbound lanes at a blind curve and into the path of the pickup truck. Contributing to the cause of the accident was an inadequate, preventive maintenance program by the carrier.

As a result of its investigation, the Safety Board on September 29 forwarded the following "Class II, Priority Action" recommendations to:

State of North Carolina—

Upgrade State guardrail installations at this location to conform with current American Association of State Highway and Transportation Officials (AASHTO) and Federal Highway Administration (FHWA) design and performance standards. (H-78-67)

Maintain edge line markings at this location by clearing debris from the pavement surface as recommended by Highway Safety Manual Standard No. 12, Chapter 4. (H-78-68)

Federal Highway Adminstration—

Review North Carolina's barrier rail installation practices to assure that guardrails are upgraded when roadway resurfacing alters their relative height to the extent that they no longer conform to the AASHTO standards. (H-78-69)

Ryder Truck Rental, Inc.—

Amend its maintenance program relative to brake adjustment by requiring an adjustment at least at each preventive maintenance inspection. (H-78-70)

Also as a result of this truck collision, the Safety Board reiterates its safety recommendation H-78-48, issued to the National Highway Traffic Safety Administration on June 3:

Develop a Federal Motor Vehicle Safety Standard stating a performance requirement for all newly manufactured commercial vehicles to have equipment that would insure brakes being in proper adjustment at all times.

MARINE ACCIDENT REPORT

The industrial vessel M/V HALLIBURTON 207 exploded last February 4 while attempting to plug an offshore oil well in the Garden Island Bay section of the Mississippi River Delta. Investigation showed that the explosion raised the forward section of the vessel's main deck approximately 4 feet, distorted internal bulkheads and strength members, and breached the hull. The vessel flooded slowly and sank. The explosion killed one person and injured two others. (Report No. NTSB-MAR-78-8)

The Safety Board determined that the probable cause of this accident was the entry of natural gas from an offshore oil well into the vessel's interior through a failed piping joint, and the subsequent ignition of the gas by the arcing of the contacts of an electric motor controller. Contributing factor was the lack of a device in the vessel's piping system to prevent flowback from the well, the interior location of the piping, and the lack of emergency procedures to insure that valves at the wellhead were closed at the first indication of difficulty.

On September 28, as a result of its investigation of this accident, the Safety Board issued the following Class II recommendations to:

Halliburton Services—

Alter the cement discharge piping of all Halliburton Services cementing vessels by installing a device at the outlet end of the piping to prevent flow from the well back into the vessel, and by providing a means to release entrapped pressure downstream of the device. (M-78-70)

Establish instructions requiring the hydrostatic testing of both the cement discharge lines and the mixing discharge lines before servicing petroleum wells. (M-78-71)

Establish instructions requiring Halliburton Services employees who supervise petroleum well servicing operations to formulate contingency plans with the person in charge of the well, before commencing service operations. Such plans should include, but not be limited to, the manning of key valves. (M-78-72)

Texaco, Inc.—

Establish instructions requiring Texaco, Inc., employees who supervise petroleum well drilling or production operations to formulate contingency plans with the person in charge of personnel who are contracted to service the well, before commencing service operations. Such plans should include, but not be limited to, the manning of key valves. (M-78-73)

RAILROAD ACCIDENT REPORT

Last February 24, 19 cars and a locomotive unit of Auto-Train No. 4 derailed on Seaboard Coast Line Railroad trackage at Florence, S.C. Twenty-four of the 503 passengers were injured, and the total accident damage was estimated to be nearly $775,000. (Report No. NTSB-RAR-78-6)

The Safety Board determined that the probable cause of the accident was a locomotive unit axle fracture that originated in an undetected void that developed during the manufacture of the axle. Contributing to the cause of the accident was the lack of a system for detecting an axle failure independent of crewmembers' inspection.

Investigation of this accident prompted the Safety Board on September 27 to issue the following Class II recommendations to:

Association of American Railroads—

Amend the procedures for testing and inspecting used locomotive unit axles before they are remounted to insure that internal defects can be detected. (R-78-53)

Federal Railroad Administration—

Revise 49 CFR 230.213, Axles, to establish specifications for the manufacturing and testing of locomotive axles to insure the discovery of internal defects before they are placed in service. (R-78-54)

Revise 49 CFR 230.213, Axles, to establish procedures and methods to test in-service locomotive axles to insure the detection of internal defects so they may be removed from service. (R-78-55)

Develop a method that will automatically detect the failure of a locomotive unit truck

or any of its components, independent of crew observation. (R-78-56)

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation

A-74-97, A-75-11 through 13, A-75-35 through 38, and A-76-96.—Federal Aviation Administration's letter of September 21 updates information in response to Safety Board Recommendations which were issued following investigation of several midair collisions of civilian and military aircraft.

Recommendation A-74-97 (issued in connection with the October 11, 1974, midair collision between a New Jersey Air National Guard F-106 and a civil aircraft, N6876P near Saxis, Va.) called for FAA to take positive action to assure that low-level military intercept training operations are confined to designated restricted airspace. FAA reports that on July 1, 1975, the following paragraph was added to FAA Handbook 7610.4C:

Interceptor training operations shall be conducted in either air traffic control (ATC) assigned airspace or within currently designated restricted/warning areas during existing published hours of operation. To the extent feasible, first preference shall be given to the use of restricted/warning areas. While conducting intercepter training within ATC assigned airspace, the aircraft shall be under radar surveillance at all times by the appropriate military facility.

Recommendations A-75-11 through 13 were issued as a result of investigation of the midair collision between an Aero Commander 6T and an F-111A on November 12, 1974. The recommendations called for reviewing locations of all military aerial refueling tracks and verifying their accuracy as described in the Airman's Information Manual (AIM), including in the AIM a diagram of the aerial refueling tracks, and broadcasting appropriate alerting information periodically on the VOR voice frequency when operations are being conducted within military aerial refueling tracks.

In response, FAA states that a review of the locations of all military aerial refueling tracks to assure their accuracy was completed on June 24, 1975. Aerial refueling tracks, established outside of positive control airspace, are depicted in the AIM. The format, in graphic form, is derived from the route description as published in the Department of Defense (DOD) Flip military training routes (copy attached to FAA's response). Also on July 1, 1975, FAA inserted a new paragraph in Handbook 7610.4C requiring air route traffic control centers to notify the appropriate tie-in flight service station (FSS) at least 2 hours in advance when an established aerial refueling track will be activated if all or part of the activity will take place outside of restricted/warning areas or positive control area. The tie-in FSS will then transmit an all circuit message to all FSS's within 200 nmi of the track centerline. FAA says that this information is then provided to pilots upon request during inflight/preflight briefings. (Exception—mandatory briefing item in Southern Region.)

Recommendations A-75/35 through 38 resulted from investigation of the midair collision between a Cessna-150H and a USAF T-29D at Newport News, Va., on January 9, 1975. These recommendations asked FAA to establish a Group II traffic control area (TCA) to encompass designated airports in the Tidewater, Va., area, or, should this prove impractical, to coordinate and establish a terminal radar service area (TRSA), similar to the one in Sacramento, Calif., which will encompass the Tidewater area (A-75-35); extend the approach gates to runway 7-25 at Langley Air Force Base to a distance of 12 miles (A-75-36); determine which other military areas require either a terminal control area or terminal radar service area and establish them (A-75-37); and initiate action to enable DOD to establish and maintain Group I type terminal control area around military facilities (A-75-38).

FAA's September 21 response reports that the expension of the Norfolk TRSA is being implemented in two phases. On December 5, 1975, the TRSA was expanded to include Langley AFB, providing for additional control zone protection. Equipment needed to further expand the TRSA to include both Patrick Henry International Airport and Felker Army Airfield was included in the fiscal year 1978 budget. On completion of the Norfolk Tower modifications, the TRSA will be expanded to include the remaining airports.

Commenting on A-75-37, FAA says that a DOD letter of September 15, 1975, stated that DOD accepted FAA's conclusion that stage III service offers a practicable alternative to TCA's; as a result, they plan to implement Stage III service at selected military airfields. Concerning A-75-38, FAA reports that during the past 3 years FAA/DOD established TRSA's at selected military locations in Texas, Florida, Mississippi, North Carolina, and South Carolina.

Recommendation A-76-96, issued following investigation of the emergency landing near Garrett County Airport, Oakland, Md., March 12, 1976, after a Cessna 172's engine failed because of fuel exhaustion, asked that FAA include all of the various meanings of the word "Beacon" in a revision to the Pilot/Controller Glossary. FAA reports that the various meanings of "Beacon" have been included in the Glossary and have appeared in Handbooks 7110.65, Change 4, and 7110.10D, dated January 1977, and in the AIM, effective February 1977 (copy provided).

A-78-42.—Supplementary its response of September 11 (see 43 FR 46090, October 5, 1978), FAA on October 4 provided additional information recently developed concerning the 65 accidents cited by the Safety Board in its recommendation letter issued last July 5. The Safety Board cited as caustive factors in these accidents the improper loading of the aircraft, the failure to arrange for a proper lease agreement, the failure to maintain the aircraft in accordance with 14 CFR 91.217(a), the lack of evidence that the copilot met the provisions of 14 CFR 91.213 or 14 CFR 61.55, and the fact that no qualified flight engineer was on board.

FAA's October 4 letter reports that an indepth analysis of the accident reports reveals that 14 or 21.5 percent of the 65 accidents could be attributed to improper maintenance. This review disclosed that 17 of the accidents were in these categories: (1) Six accidents involved air carriers operating under FAR 121; (2) three were FAA airplanes maintained under FAR 121; (3) two involved small airplanes which are not required to comply with 14 CFR 91, Subpart D; (4) one involved a military type airplane operated by CIA, which was not required to comply with FAR but did display an "N" number; and (5) five occurred in foreign countries, now being investigated by foreign authorities, but there is no conclusive information to indicate that maintenance was a cause or factor.

FAA states that its review further indicates that maintenance was a related or causal factor in 14 of the remaining 48 accidents, and, of the 98 fatalities cited by the Safety Board, FAA finds that 3 ocurred in a maintenance-associated accident. FAA again expresses the opinion that the intent of the recommendation will be satisfied with the completion of the Airworthiness and Operational Review Programs, the 14 CFR Part 91 regulatory project, and the agency's surveillance program as stated in FAA Order 1800.12D, Flight Standards Program Guidelines.

A-78-66.—FAA's letter of October 2 is in response to the Safety Board's recommendation issued following investigation of the crash of a McDonnell Douglas DC-3 shortly after takeoff last July 9 from the Richmond (Ind.) Airport. The recommendation asked FAA to issue an immediate Airworthiness Directive requiring an inspection of the DC-3/C-47 elevator "up" cables for interference where they pass through the bulkhead at fu-

V 43 1203 OCT 19 78

selage station 63 and to correct before their next flight those aircraft found to have cables which can interfere with the bulkhead.

FAA reports that Airworthiness Directive No. 78-18-02 (copy provided) effective September 6, was issued on August 24. This AD requires inspection of the right and left elevator "up" and cable fittings for possible interference with the bulkhead frame and channel at fuselage station F. S. 63 on the DE-3 and F. S. 24 on the Super DC-3 within the next 25 hours time in service after the effective date.

Highway

H-78-43 and 44.—Letter of October 4 from the Federal Highway Administration addresses recommendations issued following investigation of the accident last May 12 near Marion, N.C., involving a partially loaded flatbed truck which was towing a flatbed utility semitrailer fully loaded with a loader-backhoe tractor when it accelerated out of control while descending a curved, steep, long grade. Recommendation H-78-43 called on FHWA to investigate and report on the feasibility of a specially funded program to construct truck escape ramps, and recommendation H-78-44 asked FHWA to expedite the establishment of a design policy concerning long steep grades and escape ramps.

In response, FHWA states that it does not consider it advisable to recommend a specially funded Federal program to provide escape routes for out-of-control vehicles along already constructed grades for inclusion in Federal-aid highway legislation. However, FHWA is preparing a Notice emphasizing the need for countermeasures, and is encouraging each State to assess grade problems and to take appropriate action. Such action may consist of construction of emergency escape ramps for which Federal funds are currently available from the regular highway construction apportionments.

FHWA also reports that it has offered technical assistance to the American Association of State Highway and Transportation Officials which is rewriting its current policies on geometric design of highways. The revised policy will have a section on the design and location of emergency escape ramps. Since the final publication of the revised policy is still 2 or 3 years away, FHWA says that a Technical Advisory providing interim guidelines for the design of emergency escape ramps is being prepared for issue this year.

FHWA notes that a report, "Emergency Escape Ramps for Runaway Heavy Vehicles," was recently completed. Part of the work associated with this report was the development of a slide/tape presentation. The report and the presentation package, currently being reviewed by FHWA staff, emphasizes the runaway problem and offers practical solutions, i.e., various types of escape ramps that have proven to be effective. This package is planned for distribution in early 1979.

A currently active research study, "Evaluation of Techniques to Counteract Runaway Truck Accidents on Downgrades," is investigating existing and new countermeasures, FHWA states. Such countermeasures consist of signing, brake test centers at the top of a grade, or grade severity ratings. The feasibility of developing a single number grade severity rating which, with other information, allows a driver to judge the relative severity of any grade, familiar or unfamiliar to him, and choose a proper gear for descent, has been shown by a recent study. Another new study would develop design criteria for use by highway officials in determining which, if any, corrective or preventive measures to take where a steep downgrade may be a hazard. Parameters to be considered will include road geometry, traffic volume, truck traffic volume, accident history, and the cost of implementation, operation, and maintenance of specific remedial techniques. Findings of that study will be included in any future design policies, FHWA states.

H-78-53 and 54.—Letter of September 29 from the National Highway Traffic Safety Administration responds to recommendations issued as a result of investigation of the July 21, 1977, accident near Chantilly, Va., involving a dump truck loaded with 17 tons of stone which, after violating a red traffic signal at an intersection, struck an automobile, killing four persons. The recommendations asked NHTSA to actively encourage and aid the States to conform to the Model Classified Licensing System developed by the American Association of Motor Vehicle Administrators (AAMVA), and to conduct research to establish the relationship between crash exposure rates, types of trucks, and ages of truck drivers.

NHTSA agrees with the first recommendation, H-78-53, and has contracted with AAMVA to develop the Model Classified Driver Licensing System as recommended; a copy of the model guidelines is provided with NHTSA's response. These guidelines are being distributed to all licensing jurisdictions and will serve as the foundation for joint NHTSA/AAMVA encouragement to the States to design their licensing systems in a similar manner. Additionally, AAMVA has offered to provide staff guidance and assistance to the States upon request, to assist them in converting to classified licensing.

Concerning recommendation H-78-54, NHTSA says it is trying to approach data on truck crashes through an ongoing study by the Highway Safety Research Center (HSRC), University of North Carolina entitled "Requirements Analysis for Heavy Vehicle Driver Licensing." NHTSA expects this study will provide a base for further research. Previous studies by Ms. Patricia Waller, HSRC, and Ms. Susan Baker, The Johns Hopkins University, have provided NHTSA with only partial data which is expected to be expanded under the current study.

NOTE.—The above notice summarizes Safety Board documents recently released and recommendation response letters received. Single copies of accident reports are available without charge as long as supplies last. Copies of the Board's recommendation letters in their entirety and letters in response to recommendations may be obtained free of charge.

All requests for copies must be in writing, identified by report or recommendation number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

OFFICE OF ADMINISTRATION EXECUTIVE OFFICE OF THE PRESIDENT

ADVISORY COMMITTEE ON FINANCIAL REPORTING FOR THE EXECUTIVE OFFICE OF THE PRESIDENT

Establishment

In accordance with the provisions of the Federal Advisory Committee Act (5 U.S.C. App. (1976)) and Office of Management and Budget Circular A-63 of March 1974, and after consultation with the General Services Administration, it has been determined that the establishment of the Advisory Committee on Financial Reporting for the Executive Office of the President is in the public interest in connection with the performance of duties imposed on the Executive Office of the President by law.

The Committee will advise the Director, through the Director for Financial Management on current financial reporting standards and how they relate to the financial management of the Executive Office of the President.

The Committee will consist of 10 members, with representation from both the public and private sector.

The Committee will function solely as an advisory body, and in compliance with the provisions of the Federal Advisory Committee Act. Its charter has been filed under the act with appropriate congressional committees.

Interested persons are invited to submit comments regarding the establishment of the Advisory Committee on Financial Reporting for the Executive Office of the President. Comments should be addressed to Director for Financial Management, Office of Administration, Executive Office of the President, Washington, D.C. 20500, telephone, 202-456-6640.

Dated: September 27, 1978.

RICHARD M. HARDIN,
Director,
Office of Administration.

POSTAL RATE COMMISSION

[Order No. 216; Docket No. MC78-3]

ELECTRONIC MAIL PROPOSAL, 1978

Order Granting Petitions for Intervention, Allowing Participation, Designating Presiding Officer and Officer of the Commission, Fixing Date for a Prehearing Conference, and Establishing Procedures

OCTOBER 12, 1978.

The U.S. Postal Service, on September 8, 1978, filed with the Postal Rate Commission a request for a recommended decision on establishing an electronic computer originated mail (ECOM) subclass. The Commission issued a notice to that effect on September 13, 1978. The notice was published in the FEDERAL REGISTER on September 12, 1978 (43 FR 41441). The notice announced the docketing of the Postal Service's request as MC78-3 and directed persons who wished to participate in Docket No. MC78-3 to file, on or before September 29, 1978, petitions for leave to intervene or requests for leave to be heard as a limited participator. The notice also invited persons who wished to express their views, but did not wish to become a party or a limited participator, to file comments (39 CFR 3001.19-.20). Additionally, the notice pointed out that the Postal Service requested waiver of certain filing requirements of the rules of procedure of the Commission (39 CFR 3001.21-.22, .61-.66). We are directing that responses to this motion be filed within 10 days. See ordering paragraph (G), infra.

I. INTERVENTION

Fourteen persons have petitioned to intervene in Docket No. MC78-3 and twelve persons have requested to be heard as limited participators. These persons are listed in Attachment A. In order to advise these persons of their status at the earliest possible date and to establish an initial service list for this docket, we have decided to rule on the petitions at this time, subject to reconsideration on the basis of any answers which may be filed.

The persons listed in Attachment A either are users of the mails or have otherwise demonstrated an interest in Docket No. MC78-3. Accordingly, the requests for participation will be granted, subject to reconsideration as noted above.

Pursuant to section 65 of the rules of practice (39 CFR 3001.65) the Service will be required to serve copies of its Request and its prepared direct evidence upon the persons identified in Attachment A and upon the Officer of the Commission. Where service upon more than one representative has been requested in the petition to intervene or request to be heard as a limited participator, the Service will be required to serve only the first two named representatives in the petition. See sections 12 (c) and (d) of the rules of practice (39 CFR 3001.12(c)-(d)).

II. APPOINTMENT OF PRESIDING OFFICER AND DATE OF INITIAL PREHEARING CONFERENCE

In furtherance of the Commission's desire for expeditious consideration and pursuant to section 30(b) of the Commission's rules of practice (39 CFR 3001.30(b)), the Commission will conduct all prehearing conferences and hearings en banc. Clyde S. DuPont, Chairman, will be the presiding officer in such proceedings (39 CFR 3001.5(e), 3001.23). An initial prehearing conference will be held on November 2, 1978 and, therefore, on such further dates as may be designated by the presiding officer. Conferences and hearings will commence each day at 9:30 a.m. at the Postal Rate Commission's hearing room, suite 500, 2000 L Street NW., Washington, D.C. 20268, and shall be on the record and a transcript made except where the presiding officer determines otherwise.

III. APPOINTMENT OF THE OFFICER OF THE COMMISSION

The Officer of the Commission (OOC) designated to represent the general public (*see* 39 U.S.C. 3624(a)) in this proceeding will be Stephen L. Sharfman.[1] During this proceeding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor any such personnel will participate in or advise as to any Commission decision in the case. *See* 39 CFR 3001.8. The OOC will supply for the record, at the appropriate time, the names of all Commission personnel assigned to assist him in this case. In this proceeding the OOC shall be separately served three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practices (39 CFR 3001.10(c)).

IV. PROCEDURES FOR EXPEDITION

To the degree consistency with procedural fairness permits, it is our intention to expedite the proceedings in Docket No. MC78-3.[2] Accordingly, we are issuing a proposed schedule of procedural stages (including dates for the first three stages) which all participants should review and be prepared to comment upon at the initial prehearing conference. We also alert the parties that our intention to expedite this proceeding applies with equal force to the briefing stage following the close of the record. Parties should therefore be prepared to adhere to a briefing schedule consonant with this policy.

[1] Mr. Sharfman is the Commission's Acting Assistant General Counsel (Litigation).

[2] The Postal Reorganization Act requires us to consider request for changes in the classification schedule "promptly" and to conduct proceedings "with utmost expedition consistent with procedural fairness" (39 U.S.C. 3624). While the statute does not specify a particular time frame for classification cases, we are inclined to adopt the 10-month schedule to which we must adhere in rate cases (*see* 39 U.S.C. 3624(c)) as a general guideline. Of course, some cases can, and will, be completed in considerably less time, and we recognize that others which involve particularly complex or novel issues may require somewhat lengthier proceedings.

V 43 I 203 OCT 1978

V. PREHEARING CONFERENCE STATEMENTS

In preparation for the initial prehearing conference, each participant should serve a document captioned "Prehearing Conference Statement" on or before October 20, 1978, containing the following:

1. A suggested list which states with particularity the issues the party believes should be addressed in this case. (Asterisks, denoting those issues on which the party intends to present evidence, should precede the stated issue.) In view of the novel competition issues which may arise in this proceeding, the parties should also set forth, with specificity, any competition or antitrust considerations which it is believed ought to be addressed. Legal principles, decided cases or statutory references relating to competition considerations relevant to this case should also be included. (In view of the novelty of the competition or antitrust considerations, a party will not be foreclosed from subsequently refining its definition of those issues.)

2. A statement of the participant's tentative position on each of the proposed issues.

3. A brief statement describing for each issue the evidence, if any, the participant proposes to introduce.

4. A legal memorandum, where appropriate, in support of the issues proposed, the positions taken, the evidence to be presented and other legal matters which should be considered.

5. Any other matter the participant believes should be pursued at the prehearing conference.

Prior to the initial prehearing conference, all participants are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Service's presentation which each participant believes necessary in order to expedite this proceeding.

The Commission orders. (A) Each of the petitioners identified in attachment A to this order is hereby permitted to intervene or to become a limited participator in this proceeding, subject to the provisions of paragraph (B), below.

(B) The participation of the intervenors and limited participators permitted by paragraph (A), above, is subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting rights and interests specifically set forth in their respective petitions to intervene and requests to become limited participators: *And provided, further,* That the admission of such intervenors and limited participators shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) The Postal Service shall serve copies of its request and its prepared direct evidence upon representatives of petitioners permitted to intervene and the representatives of the limited participators. For purposes of such service, where service upon more than one representative has been requested in the petition to intervene or in a request for leave to be heard as a limited participator, including those petitions and requests filed jointly and severally by two or more persons, only the first two named representatives in the petition need be served.

(D) the Commission will sit en banc, with Clyde S. DuPont, Chairman, as presiding officer, in the above-captioned proceeding.

(E) A prehearing conference in this proceeding will be held on November 2, 1978, commencing at 9:30 a.m. in the Postal Rate Commission hearing room, suite 500, 2000 L Street NW., Washington, D.C. 20268. The conference will be held for the purposes specified in section 24 of the Commission's rules of practice (39 CFR 3001.24) and in this order, and to afford all participants in the proceeding an opportunity to be heard with respect to the procedures to be followed in expeditiously determining the issues to be resolved in Docket No. MC-78-3. The conference proceedings shall be recorded by an official reporter except where otherwise directed by the presiding officer.

(F) Stephen L. Sharfman is hereby designated as the Officer of the Commission to represent the general public in this proceeding. Service of documents on the Commission shall not constitute service on the OOC, who shall separately be served three copies of all documents.

(G) The participants have 10 days from the date of this order in which to file answers to the service's request for a waiver of compliance with certain rules of practice.

By the Commission.

CYRIL J. PITTACK,
Acting Secretary.

PARCEL POST PROPOSAL, 1978

Order Granting Petitions for Intervention, Allowing Participation, Designating Presiding Officer and Officer of the Commission, Fixing Date for a Prehearing Conference, and Establishing Procedures

OCTOBER 12, 1978.

The United States Postal Service filed with the Postal Rate Commission on September 8, 1978, a request for a recommended decision on a restructuring of parcel post. The Commission issued a notice to that effect on September 13, 1978. The notice was published in the FEDERAL REGISTER on September 18, 1978 (43 FR 41441-42), the notice announced the docketing of the Postal Service's request as MC78-1 and directed persons who wished to participate in Docket No. MC78-1 to file, on or before September 29, 1978, petitions for leave to intervene or requests to be heard as a limited participator. The notice also invited persons who wished to express their views, but did not wish to become a party or limited participator, to file comments (39 CFR 3001.19-.20).

I. INTERVENTION

Ten persons have petitioned to intervene in Docket No. MC78-1, and four persons have requsted to be heard as limited participators. These persons are listed in Attachment A. In order to advise these persons of their status at the earliest possible date and to establish an initial service list for this docket, we have decided to rule on the petitions at this time, subject to reconsideration on the basis of any answers which may be filed.

The persons listed in Attachment A either are users of the mails or have otherwise demonstrated an intrest in Docket No. MC78-1. Accordingly, the requests for participation will be granted, subject to reconsideration as noted above.

Pursuant to section 65 of the Rules of practice (39 CFR 3001.65) the Service will be required to serve copies of its Request and its prepared direct evidence upon the persons identified in Attachment A and upon the Officer of the Commission. Where service upon more than one representative has been requested in the petition to intervene or request to be heard as a limited participator, the Service will be required to serve only the first two named representatives in the petition. See sections 12(c) and (d) of the rules of practice (39 CFR 3001.12(c)-(d)).

II. APPOINTMENT OF PRESIDING OFFICER AND DATE OF INITIAL PREHEARING CONFERENCE

In furtherance of the Commission's desire for expeditious consideration and pursuant to section 30(b) of the Commission's rules of practice (39 CFR 3001.30(b)), the Commission will conduct all prehearing conferences and hearings en banc.

Clyde S. DuPont, Chairman, will be the presiding officer in such proceedings (39 CFR 3001.5(e), 3001.23). An initial prehearing conference will be held on October 31, 1978, at 9:30 a.m. and, thereafter, on such further dates as may be designated by the presiding officer. Conferences and hearings will commence each day at 9:30 a.m. at the Postal Rate Commission's hearing room, Suite 500, 2000 L Street NW., Washington, D.C. 20268, and shall be on the record and a transcript made except where the presiding officer determines otherwise.

III. APPOINTMENT OF THE OFFICER OF THE COMMISSION

The Officer of the Commission (OOC) designated to represent the general public (see 39 U.S.C. 3624(a)) in this proceeding will be Stephen L. Sharfman.[1] During this proceding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor any personnel will participate in nor advise as to any Commission decision in the case. See 39 CFR 3001.8. The OOC will supply for the record, at the appropriate time, the names of all Commission personnel assigned to assist him in this case. In this proceeding the OOC shall be separately served three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practice (39 CFR 3001.10(c)).

IV. PROCEDURES FOR EXPEDITION

To the degree consistency with procedural fairness permits, it is our intention to expedite the proceedings in this docket.[2] Accordingly, we are issuing a proposed schedule of procedural stages (including dates for the first three stages) which all participants should review and be prepared to comment upon at the initial prehearing conference. See Attachment B. We also alert the parties that our intention to expedite this proceeding applies with equal force to the briefing stage following the close of the record. Parties should therefore be prepared to adhere to a briefing schedule consonant with this policy.

V. PREHEARING CONFERENCE STATEMENTS

In preparation for the initial prehearing conference, each participant should serve a document captioned "Prehearing Conference Statement" on or before October 20, 1978, containing the following:

1. A suggested list which states with particularity the issues the party believes should be addressed in this case. (Asterisks, denoting those issues on which the party intends to present evidence, should precede the stated issue.)

2. A statement of the participant's tentative position on each of the proposed issues.

3. A brief statement describing for each issue the evidence, if any, the participant proposes to introduce.

4. A legal memorandum, where appropriate, in support of the issues proposed, the positions taken, the evidence to be presented and other legal matters which should be considered.

5. any other matter the participant believes should be pursued at the prehearing conference.

Prior to the initial prehearing conference, all participants are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Service's presentation which each participant believes necessary in order to expedite this proceeding.

The commission orders: (A) Each of the petitioners identified in Attachment A to this Order is hereby permitted to intervene or to become a limited participator in this proceeding, subject to the provisions of paragraph (B), below.

(B) The participation of the intervenors and limited participators permitted by paragraph (A), above, is subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting rights and interests specifically set forth in their respective petitions to intervene and requests to become limited participators: *And provided, further,* that the admission of such intervenors and limited participators shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) The Postal Service shall serve copies of its Request and its prepared direct evidence upon representatives of petitioners permitted to intervene and the representatives of the limited participators. For purposes of such service, where service upon more than one representative has been requested in the petition to intervene or in a request for leave to be heard as a limited participator, including those petitions and requests filed jointly and severally by two or more persons, only the first two named representatives in the petition need be served.

(D) The Commission will sit en banc, with Clyde S. DuPont, Chairman, as presiding officer, in the above-captioned proceeding.

(E) A prehearing conference in this proceeding will be held on October 31, 1978, commencing at 9:30 a.m. in the Postal Rate commission hearing room, suite 500, 2000 L Street, NW., Washington, D.C. 20268. The conference will be held for the purposes specified in section 24 of the Commission's rules of practice (39 CFR section 3001.24)

[1] Mr. Sharfman is the Commission's Acting Assistant General counsel (Litigation).

[2] The Postal Reorganization Act requires us to consider requests for changes in the classification schedule "promptly" and to conduct proceedings "with utmost expedition consistent with procedural fairness" (39 U.S.C. 3624). While the statute does not specify a particular time frame for classification cases, we are inclined to adopt the 10-month schedule to which we must adhere in rate cases (see 39 U.S.C. 3624(c)) as a general guideline. Of course, some cases can, and will, be completed in considerably less time, and we recognize that others which involve particularly complex or novel issues may require somewhat lengthier proceedings.

V 4 3 / 2 0 3 0 C 1 9 7 8

and in this Order, and to afford all participants in the proceeding an opportunity to be heard with respect to the procedures to be followed in expeditiously determining the issues to be resolved in Docket No. MC78-1. The conference proceedings shall be recorded by an official reporter except where otherwise directed by the presiding officer.

(F) Stephen L. Sharfman is hereby designated as the Officer of the Commission to represent the general public in this proceeding. Service of documents on the Commission shall not constitute service on the OOC, who shall separately be served three copies of all documents.

By the Commission.

CYRIL J. PITTACK,
Acting Secretary.

[Order No. 215; Docket No. MC 78-2]

THIRD-CLASS DISCOUNT PROPOSAL, 1978

Order Granting Petitions for Intervention, Allowing Participation, Designating Presiding Officer and Officer of the Commission, Fixing Date for a Prehearing Conference, and Establishing Procedures

OCTOBER 12, 1978.

The U.S. Postal Service filed with the Postal Rate Commission, on September 8, 1978, a request for a recommended decision on establishing a third-class carrier route presort subclass. The Commission issued a notice to that effect on September 13, 1978. The notice was published in the FEDERAL REGISTER on September 18, 1978 (43 FR 41440-41). The notice announced the docketing of the Postal Service's request as MC78-2 and directed persons who wished to participate in Docket No. MC78-2 to file, on or before September 29, 1978, petitions for leave to intervene or requests for leave to be heard as a limited participator. The notice also invited persons who wished to express their views, but did not wish to become a party or limited participator, to file comments (39 CFR 3001.19-.20).

I. INTERVENTION

Ten persons have petitioned to intervene in Docket No. MC78-2 and five persons have requested to be heard as limited participators. These persons are listed in Attachment A. In order to advise these persons of their status at the earliest possible date and to establish an initial service list for this docket, we have decided to rule on the petitions at this time, subject to reconsideration on the basis of any answers which may be filed.

The persons listed in Attachment A either are users of the mails or have otherwise demonstrated an interest in Docket No. MC78-2. Accordingly, the requests for participation will be granted, subject to reconsideration as noted above.

Pursuant to section 65 of the rules of practice (39 CFR 3001.65) the Service will be required to serve copies of its Request and its prepared direct evidence upon the persons identified in Attachment A and upon the Officer of the Commission. Where service upon more than one representative has been requested in the petition to intervene or request to be heard as a limited participator, the Service will be required to serve only the first two named representatives in the petition. See sections 12(c) and (d) of the rules of practice (39 CFR 3001.12 (c)-(d)).

II. APPOINTMENT OF PRESIDING OFFICER AND DATE OF INITIAL PREHEARING CONFERENCE

In furtherance of the Commission's desire for expeditious consideration and pursuant to section 30(b) of the Commission's rules of practice (39 CFR 3001.30(b)), the Commission will conduct all prehearing conferences and hearings en banc.

Clyde S. DuPont, Chairman, will be the presiding officer in such proceedings (39 CFR 3001.5(e), 3001.23). An initial prehearing conference will be held on October 26, 1978, at 2 p.m. and, thereafter, on such further dates as may be designated by the presiding officer. Subsequent conferences and hearings will commence each day at 9:30 a.m. at the Postal Rate Commission's hearing room, suite 500, 2000 L Street NW., Washington, D.C. 20268, and shall be on the record and a transcript made except where the presiding officer determines otherwise.

III. APPOINTMENT OF THE OFFICER OF THE COMMISSION

The Officer of the Commission (OOC) designated to represent the general public (see 39 U.S.C. 3624(a)) in this proceeding will be Stephen L. Sharfman.[1] During this proceeding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor any such personnel will participate in nor advise as to any Commission decision in the case. See 39 CFR 3001.8. The OOC will supply for the record, at the appropriate time, the names of all Commission personnel assigned to assist him in this case. In this proceeding the OOC shall be separately served three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practice (39 CFR 3001.10(c)).

IV. PROCEDURES FOR EXPEDITION

To the degree consistent with procedural fairness permits, it is our intention to expedite the proceedings in this docket.[2] Accordingly, we are issuing a proposed schedule of procedural stages (including dates for the first three stages) which all participants should review and be prepared to comment upon at the initial prehearing conference. See Attachment B. We also alert the parties that our intention to expedite this proceeding applies with equal force to the briefing stage following the close of the record. Parties should therefore be prepared to adhere to a briefing schedule consonant with this policy.

Footnotes continued on next page

[1] Mr. Sharfman is the Commission's Acting Assistant General Counsel (Litigation).

[2] The Postal Reorganization Act requires us to consider requests for changes in the classification schedule "promptly" and to conduct proceedings "with utmost expedition consistent with procedural fairness" (39 U.S.C. 3624). While the statute does not specify a particular time frame for classification cases, we are inclined to adopt the 10-month schedule to which we must adhere in rate cases (see 39 U.S.C. 3624(c)) as a general guideline. Of course, some cases can, and will, be completed in considerably less time, and we recognize that others which involve particularly complex or novel issues may require somewhat lengthier proceedings.

V. PREHEARING CONFERENCE STATEMENTS

In preparation for the initial prehearing conference, each participant should serve a document captioned "Prehearing Conference Statement" on or before October 20, 1978, containing the following:

1. A suggested list which states with particularity the issues the party believes should be addressed in this case. (Asterisks, denoting those issues on which the party intends to present evidence, should precede the stated issue.)

2. A statement of the participant's tentative position on each of the proposed issues.

3. A brief statement describing for each issue the evidence, if any, the participant proposes to introduce.

4. A legal memorandum, where appropriate, in support of the issues proposed, the positions taken, the evidence to be presented and other legal matters which should be considered.

5. Any other matter the participant believes should be pursued at the prehearing conference. Prior to the initial prehearing conference, all participants are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Service's presentation which each participant believes necessary in order to expedite this proceeding.

The Commission orders: (A) Each of the petitioners identified in attachment A to this order is hereby permitted to intervene or to become a limited participator in this proceeding, subject to the provisions of paragraph (B), below.

(B) The participation of the intervenors and limited participators permitted by paragraph (A), above, is subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting rights and interests specifically set forth in their respective petitions to intervene and requests to become limited participators: *And provided, further,* That the admission of such intervenors and limited participators shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) The Postal Service shall serve copies of its request and its prepared direct evidence upon representatives of petitioners permitted to intervene and the representatives of the limited participators. For purposes of such service, where service upon more than one representative has been requested in the petition to intervene or in a request for leave to be heard as a limited participator, including those petitions and requests filed jointly and severally by two or more persons, only the first two named representatives in the petition need be served.

(D) The Commission will sit en banc, with Clyde S. DuPont, Chairman, as presiding officer, in the above-captioned proceeding.

(E) A prehearing conference in this proceeding will be held on October 26, 1978, commencing at 2 p.m. in the Postal Rate Commission hearing room, suite 500, 2000 L Street NW., Washington, D.C. 20263. The conference will be held for the purposes specified in section 24 of the Commission's rules of practice (39 CFR 3001.24) and in this order, and to afford all participants in the proceeding an opportunity to be heard with respect to the procedures to be followed in expeditiously determining the issues to be resolved in docket No. MC78-2. The conference proceedings shall be recorded by an official reporter except where otherwise directed by the presiding officer.

(F) Stephen L. Sharfman is hereby designated as the Officer of the Commission to represent the general public in this proceeding. Service of documents on the Commission shall not constitute service on the OOC, who shall separately be served three copies of all documents.

Travelers Insurance Co., One Tower Square, Hartford, Conn. 06115	160	16
Connecticut Mutual Life Insurance Co., 140 Garden St., Hartford, Conn. 06105	40	4

Under a Plan of Exchange, the licensee's Certificate of Incorporation will be amended to eliminate the present classes of voting Common Stock, par value $1.00 per share, and nonvoting Common Stock, par value $500.00 per share, and to provide for a single class of voting Common Stock, par value $500.00 per share.

Each share of the licensee's currently issued and outstanding voting Common Stock, par value $1.00 per share (the "Old Voting Common"), shall be converted into and exchanged for a fractional interest right (Right) entitling the holder to one five-hundredths (1/500) share of newly created voting Common Stock, par value $500.00 per share (the "New Common").

Each share of the licensee's currently issued and outstanding non-voting Common Stock, par value $500.00 per share (the "Old Non-Voting Common"), shall be converted into and exchanged for one share of New Common.

Upon consummation of the Plan of Exchange, the owners of the former "Old Non-Voting Common" will own 100 percent (for the most part) of the licensee's outstanding stock.

There is no change of management of the licensee being considered at this time.

Notice is further given that any person may submit written comments on the proposed transfer of control to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, not later than November 3, 1978.

A similar notice shall be published by the licensee in a newspaper of general circulation in Hartford, Conn.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 29, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

REGION II ADVISORY COUNCIL MEETING

Public Meeting

The Small Business Administration Region II Advisory Council, located in the geographical area of New York City, N.Y., will hold a public meeting at 2 p.m. on Friday, October 29, 1978, in Room 29-118, 26 Federal Plaza, New York City 10007, to discuss such business as may be presented by members, staff of the Small Business Administration, or others attending.

For further information, write or call Woodie G. Williams, District Director, U.S. Small Business Administration, 26 Federal Plaza, New York City 10007, 212-264-1318.

Dated: September 28, 1978.

K. DREW,
Deputy Advocate for Advisory Councils.

[Declaration of Disaster Loan Area No. 1521; Amdt. No. 2]

TEXAS

Declaration of Disaster Loan Area

The above numbered Declaration (see FR 40583) and Amendment No. 1 (see FR 43593) are amended by adding the following counties:

County, Natural Disaster(s), and Dates

Bowie: Drought—March 1, 1978 to August 14, 1978.
Cameron: Rain and High Winds—July 30, 1978.
Dallam: Drought—June 10, 1978 to August 14, 1978.
Reagan: Drought—May 1, 1977 to July 24, 1978.

And adjacent counties within the State of Texas as a result of natural disasters as indicated. All other information remains the same; i.e., the termination date for filing applications for physical damage is close of business on March 6, 1979, and for economic injury until the close of business on June 6, 1979.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008.)

Dated: September 27, 1978.

[Public Notice 633]

CERTAIN FOREIGN PASSPORTS

Validity

Under the provisions of section 212(a)(26) of the Immigration and Nationality Act, a nonimmigrant alien who makes application for a visa or for admission into the United States is required to be in possesion of a passport which is valid for a minimum period of 6 months from the date of expiration of the initial period of his admission into the United States or his contemplated initial period of stay authorizing him to return to the country from which he came or to proceed to and enter some other country during such period. By reason of the foregoing requirement, certain foreign governments have entered into agreements with the Government of the United States whereby their passports are recognized as valid for the return of the bearer to the country of the foreign-issuing authority for a period of 6 months beyond the expiration date specified in the passport. These agreements have the effect of extending the validity period of the foreign passport an additional 6 months notwithstanding the expiration date indicated in the passport. Notice is hereby given that the following foreign governments have concluded such an agreement with the Government of the United States:

Algeria

[Public Notice CM-8/118]

STUDY GROUP 5 OF THE U.S. ORGANIZATION FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Meeting

The Department of State announces that Study Group 5 of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on November 7, 1978, from 9:30 a.m. until 12:30 p.m. in Room 1107, Radio Building, Department of Commerce, Boulder Laboratories, Boulder, Colo.

Study Group 5 deals with propagation of radio waves (including radio noise) at the surface of the earth, through the non-ionized regions of the earth's atmosphere, and in space where the effect of ionization is negligible. The purpose of the meeting is to review decisions of the CCIR XIVth Plenary Assembly, and determine work programs and action assignments in preparation for the next international meeting of Study Group 5.

Members of the general public may attend the meeting and join in the discussions subject to the instructions of the Chairman. Requests for further information should be directed to Mr. Gordon Buffcutt, State Department, Washington, D.C. 20520, telephone 202-632-2592.

Dated: October 12, 1978.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

CHEMICAL TRANSPORTATION ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I), notice is hereby given of a meeting of the Chemical Transportation Advisory Committee's Subcommittee on Breakbulk/Container Facilities to be held on November 15, 1978, beginning at 9 a.m., Room 6332, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590. The agenda for this meeting is as follows:

1. To introduce Captain Donald W. Gates of the National Cargo Bureau as new Subcommittee Chairman.
2. To discuss the status of proposed waterfront facility regulations under the authority of the Ports and Waterways Safety Act of 1972 and other statutes.
3. To discuss the most effective means for this Subcommittee to provide input to the breakbulk and container facilities portions of the regulations being developed.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the neeting, Lt. (jg) D. G. Dickman, c/o Commandant (G-WLE—1/73), U.S. Coast Guard, Washington, D.C. 20590, 202-426-1927. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on October 31, 1978.

F. P. SCHUBERT,
Captain, U.S. Coast Guard,
Acting Chief, Officer of Marine Environment and Systems.

[CGD 78-136]

VAPOR CONTROL SEMINAR

The Clean Air Act of 1970 charged the Environmental Protection Agency (EPA) with publishing regulations for a national primary air quality standard and a national secondary air quality standard for each air pollutant for which quality criteria were established. Section 110 of the Clean Air Act requires each State to adopt and submit to EPA's Administrator, a plan which sets forth a control strategy to attain the established air quality standard.

The State of Texas proposed such a plan, the Texas Air Pollution Implementation Plan, but it was rejected by EPA. On July 3, 1973, the Administrator of EPA proposed an alternate control strategy which was based upon the reduction of reactive organic compound (hydrocarbon) emissions. One of the regulations contained in this control strategy required the recovery of vapors normally emitted during the loading or unloading of gasoline and other volatile hydrocarbons from ships and barges in the Houston-Galveston Intrastate Air Quality Control Region.

The U.S. Coast Guard, under the Ports and Waterways Safety Act (33 U.S.C. 1221-1227; 46 U.S.C. 391a), is responsible for the safety of vessels and U.S. ports from the inherent hazards associated with the handling of petroleum products. The use of vapor control systems, such as vapor recovery, vapor return to shore, etc., could pose serious hazards. The Coast Guard must insure that tank vessels and ports are adequately protected from fires, explosions, and other hazards that may be generated via the use of these systems.

Toward achieving this goal, the Coast Guard funded a number of research and development studies directed at a better understanding of the principles of how flames and detonations propagate in pipelines and how they may be arrested. These studies, commenced approximately 3 years ago, are presently continuing.

To disseminate the results of these studies as they relate to vapor control systems, and to discuss additional hazards posed by the use of vapor control systems, the Coast Cuard intends to hold a Vapor Control Seminar on December 6, 1978, beginning at 9 a.m., room 8236, Nassif Building, 400 7th Street SW., Washington, D.C. 20590. The topics to be discussed include:

1. Background of Vapor Control Systems and the Level of Involvement of the Coast Guard.
2. Toxicological Effects of Vapor Emissions on Humans.
3. The Environmental Protection Agency's Role in Controlling Ambient Air Quality.
4. Coast Guard R. & D. Efforts (present and future) Relating to Vapor Control Systems.
5. Technical Assessment of Vapor Control Technology.

The seminar will include papers by Coast Guard and EPA representatives followed by an open discussion period. The emphasis of the seminar will be on the engineering and technical aspects associated with the safe design and use of vapor control systems.

Attendance is open to the interested public. For additional information, contact:

Dr. Anthony L. Rowek, Commandant (G-MHM-1/83), U.S. Coast Guard, Washington, D.C. 20590, 202-426-1217.

For scheduling and for providng adequate seating, those wishing to attend the seminar should notify the above office no late than December 1, 1978.

Issued in Washington, D.C., on October 11, 1978.

HENRY H. BELL,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

[4910-22-M]

Federal Highway Administration

NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES

Solicitation of Public Views

The National Advisory Committee on Uniform Traffic Control Devices reviews currently approved standards, guides and warrants for traffic control devices including traffic signs, markings and signals as contained in the Manual on Uniform Traffic Control Devices. The Committee recommends revisions of such standards and guides, proposes new ones to meet new developments and improvements and provides advice to the Federal Highway Administrator to the end that the Manual shall be at all times and as far as practicable a complete and up-to-date presentation of best practices.

Notice is hereby given of the major topics currently scheduled for consideration by the respective Technical Subcommittees at the semiannual meeting of the Committee in January and public input solicited.

A. *Highway Traffic Signs.* Task Forces have been appointed to review and make recommendations on the following subjects:

1. The Location of Turn Prohibition signs and the Placement of One-Way Signs at Signalized Intersections.
2. Standards and Guidelines for Specific Service and Recreational and Cultural Interest Signs.
3. Determination of the Most Advantageous Placement of Warning Signs.
4. Signing for Official Agencies Monitoring CB Channel 9.
5. Use of a Symbol Warning Sign on Roadways Parallel to a Railroad.
6. A Standing Task Force on Symbols is studying and developing additional symbol signs as alternates to standard word messages.
7. Experimentation has been approved to determine the effectiveness of:

a. The Star of Life Symbol to direct motorists to emergency medical services.

b. A symbolic No Right Turn on Red sign.

c. The use of the word Traveler or Tourist on guide signs.

B. *Highway Traffic Signals.* 1. Consideration is being given to the elimination of the flashing Walk pedestrian signal indication.

2. Use of an audible signal for blind pedestrians at signalized intersections.

3. Warrants for use of traffic control signals. Under study for potential revisions to existing warrants in the MUTCD.

4. Handbook material to be developed to supplement current standards concerning application and maintenance.

5. Current Task Forces and their subject areas are:

a. Signal Indications, Sequences and Phasing.

Preparation of a matrix table for acceptable and unacceptable signal sequences.

b. Pedestrian Signal Indication.

Alternatives to full pedestrian signalization at school crossings.

c. Signal Design Considerations.

Preparation of traffic signal design configuration revisions based on completed NCHRP research studies.

d. Traffic Signal Warrants.

Preparation of recommendations for new or revised signal warrants including peak hour conditions, left turns, bicycles and other special crossing conditions.

e. Part IV—Handbook.

Preparation of material to update and rewrite the signal portion of the Traffic Control Devices Handbook.

C. *Markings.* 1. Optional use of roadside delineators on tangent sections of highways.

A recommendation has been made to permit the optional use of roadside, post-mounted delineators where raised pavement markers are in place to adequately define the alinement of the roadway for drivers under all weather conditions. A required spacing of these raised pavement markers is under study as a subsequent revision to the recommended standards.

2. Standards for the use and spacing of all raised pavement markers are to be developed for recommendation.

3. Current practices are being solicited for evaluation of improved marking patterns for freeway lane drop application supplemented by overhead and/or shoulder mounted signing.

D. *Traffic Control for Construction and Maintenance Areas.* Preparation of a Handbook to supplement Part VI of the MUTCD is underway. The objective of this effort is to develop an operating handbook of best current practice on design, installation, and maintenance of traffic control for construction and maintenance operations including utility operations to supplement the standards in the MUTCD.

Comments, suggestions or technical input related to the above subjects may be sent to R. E. Conner, Executive Director, National Advisory Committee on Uniform Traffic Control Devices, Office of Traffic Operations, Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590.

All material received will be transmitted to the appropriate subcommittee or task force for consideration prior to their next public meeting scheduled for January 10-12, 1979. A notice of the time and place of this meeting will be published in the FEDERAL REGISTER at least 15 days in advance.

Issued on October 12, 1978.

J. J. CROWLEY,
Director,
Office of Traffic Operations.

DEPARTMENT OF THE TREASURY

Office of the Secretary

CERTAIN FRESH WINTER VEGETABLES FROM MEXICO

Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.

ACTION: Initiation of Antidumpting Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether certain fresh winter vegetables from Mexico are being, or are likely to be, sold at less than fair value within the meaning of the Antidumpting Act of 1921, as amended. Sales at less than fair value generally occur when the prices of merchandise sold for exportation to the United States are less than the prices in the home market or to countries other than the United States, or less than the constructed value.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Ready, Operations Officer, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: On September 12, 1978, a petition in proper form was received pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel on behalf of the Southwest Florida Winter Vegetable Growers Association, the Palm Beach-Broward Farmers Committee for Legislative Action, Inc., and the South Florida Tomato and Vegetable Growers, Inc., alleging that certain fresh winter vegetables from Mexico are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended (19 U.S.C 160 et seq.).

For purposes of this notice, the term "certain fresh winter vegetables" means cucumbers, eggplant, peppers, squash, and tomatoes (except cherry tomatoes), all of the foregoing fresh,

the product of Mexico, provided for in §§ 135.90 through 135.92, 136.20 through 136.22, 137.10, 137.50, and 137.60 through 137.63, respectively, of

Florida growers in recent years. Taking this factor into consideration, however, does not create a substantial doubt that domestic industry is being,

tidumping investigation with respect to motorcycles produced and sold by Yamaha, and to report certain changes in the margins by which sales

compared was considered to be minimal in relation to the total volume of exports. In addition, formal assurances have been received from that producer

gation with respect to motorcycles produced and sold by Yamaha Motor Co., Ltd., and to reflect the change in computing home market price and the

or before November 20, 1978, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule

V 4 3 / 2 0 3

0 C 1 9 7 8

the product of Mexico, provided for in §§ 135.90 through 135.92, 136.20 through 136.22, 137.10, 137.50, and 137.60 through 137.63, respectively, of the Tariff Schedules of the United States, and meeting the U.S. Department of Agriculture minimum standards for grades as set out in 7 CFR 51.2220 through 51.2239, 51.2190 through 51.2207, 51.3270 through 51.3296, 51.4030 through 51.4062, and 51.1855 through 51.1877, respectively. It is noted that this investigation concerns fresh vegetables shipped during the winter vegetable season and for this reason is limited to shipments of the subject merchandise made during the period November 1, in any year to the last day of the following April inclusive.

The petitioners allege margins of dumping which, based on a comparison of sales for export to the United States with the prices of this merchandise for sale to Canada or the constructed value of the products in Mexico, range up to 624 percent. Petitioners allege that sales in the home market of such or similar merchandise are insufficient in relation to that exported to the United States during the relevant time period, in total quantity, to constitute a viable home market. Therefore, price information was submitted on sales to a third country (Canada), which indicates that significant sales occurred to Canada at prices less than the cost of production as reflected by information submitted by the Petitioners. To the extent that sales to Canada appear to have occurred at prices less than the cost of producing the merchandise, the constructed value was used as the basis of comparison.

Based on the above, information will be requested from Mexican growers exporting this merchandise to the United States on those sales, and on sales in the home market and to third countries, and the cost of producing the merchandise.

The Southern Florida growers produce virtually all of the domestically-grown fresh winter vegetables and for this reason are considered to represent the domestic fresh winter vegetable industry for purposes of this investigation.

All five of the vegetables in question are considered to be the production of a single industry since individual growers often produce more than one of the vegetables and since production of all five vegetables within the same general area of Southern Flordia is essential to establish a marketing area that can service buyers who often require mixed lots of vegetables rather than a straight lot of any single vegetable.

Unfavorable weather has been a factor in the injury sustained by the Florida growers in recent years. Taking this factor into consideration, however, does not create a substantial doubt that domestic industry is being, or is likely to be, injured by large shipments of Mexican produce often selling at prices substantially below their constructed value.

There is evidence on record concerning injury to or likelihood of injury to an industry in the United States. Petitioners' share of the market for these vegetables has declined considerably over the past three growing seasons with a concomitant increase in imports of these products from Mexico, both in absolute terms and as a share of domestic consumption. In the 1977/78 growing season, petitioners' f.o.b. Florida prices, frequently already depressed in relation to their prices in the prior growing season, were often undercut by Mexican prices f.o.b. Nogales, Ariz. Further, it appears that elimination of the alleged margins of dumping would result in a restoration of the competitiveness of prices of the petitioners.

During the three growing seasons from 1974 through 1977, the petitioners' return on sales revenue declined significantly.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29), and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,
General Counsel
of the Treasury.

OCTOBER 12, 1978.

[FR Doc. 78-29509 Filed 10-18-78; 8:45 am]

[4810-22-M]

MOTORCYCLES FROM JAPAN

Modification of Determination of Sales at Less Than Fair Value and Exclusion From Investigation and Discontinuance of Investigation

AGENCY: U.S. Treasury Department.

ACTION: Modification of Determination of Sales at Less Than Fair Value and Exclusion from Investigation, and Discontinuance of Investigation.

SUMMARY: This notice is to advise the public that the determination of sales at less than fair value under the Antidumping Act, 1921, as amended, concerning motorcycles from Japan is being amended to discontinue the antidumping investigation with respect to motorcycles produced and sold by Yamaha, and to report certain changes in the margins by which sales of Honda and Kawasaki are at less than fair value. Honda and Kawasaki will, therefore, remain subject to the Determination of Sales at Less Than Fair Value; Suzuki remains excluded from the investigation.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard Rimlinger, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue, NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: A "Determination of Sales at Less Than Fair Value and Exclusion from Investigation" with respect to motorcycles from Japan was published in the FEDERAL REGISTER of August 8, 1978 (43 FR 35140-2). In that notice it was determined that motorcycles from Japan, with the exception of those produced and sold by Suzuki Motor Co., Ltd., are being sold at less than fair value within the meaning of section 201(a) of the Antidumping Act of 1921 as amended (19 U.S.C. 160(a)).

Subsequent to the publication of this notice, information was received indicating that recalculations of certain prices used for fair value comparisons were appropriate. The following amendments to the original Determination reflect the changes resulting from those recalculations.

Subheading (d) in the "Statement of Reasons" of that notice is hereby amended to indicate that an adjustment has been made to home market prices for credit costs attributable to differences in payment terms between United States and Japanese home market sales. The items subject to such adjustments, indicated under this subheading remain unchanged.

Subheading (f) in the "Statement of Reasons" is hereby amended to indicate the following revisions: Comparisons have been made on approximately 89 percent of the total sales of the subject merchandise to the United States by all manufacturers investigated for the period under investigation. Margins were found on approximately 18.2 percent of the sales ranging from 0.3 to 54.2 percent resulting in a weighted average margin of 2.08 percent on all sales compared. Weighted average margins found with respect to the companies under investigation, computed over all sales compared, were as follows: Honda, 2.6 percent; Kawasaki, 6.9 percent; Suzuki, 0.15 percent; and Yamaha 0.82 percent.

In the case of Yamaha, the weighted average margin on that firm's sales compared was considered to be minimal in relation to the total volume of exports. In addition, formal assurances have been received from that producer that it would make no future sales at less than fair value within the meaning of the Act.

In view of the significant change in the value of the yen since June 1977, the end of our reference period for investigation purposes, it was determined that information on Yamaha sales during a later period should be requested and scrutinized in order to determine whether Yamaha had revised current prices so as to eliminate all less than fair value sales. Accordingly, information was requested from Yamaha on all motorcycles sold to unrelated U.S. buyers during the period May–July 1978 and appropriate home market sales for comparison purposes. This information has been received, verified, analyzed, and indicates that during the three-month period sales by Yamaha were made at prices which were less than fair value by an amount considered minimal.

This information then was analyzed to determine whether margins resulted solely from exchange rate fluctuations. Section 153.52(b) of the Customs Regulations (19 CFR 153.52(b)) provides:

> For purposes of fair value investigations, manufacturers, exporters, and importers concerned will be expected to act within a reasonable period of time to take into account price differences resulting from sustained changes in prevailing exchange rates. Where prices under consideration are affected by temporary exchange rate fluctuations, no differences between the prices being compared resulting solely from such exchange rate fluctuations will be taken into account in fair value investigations.

For each of the three quarters reviewed, Customs analyzed home market sales by applying the Federal Reserve exchange rate for the quarter preceding the one under examination. The one quarter lag was used because § 153.52(b) allows foreign sellers a "reasonable period" in which to adjust prices. This analysis resulted in a determination that the differences between the prices being compared resulted solely from such exchange rate fluctuations. It has therefore been determined to discontinue the antidumping investigation with respect to Yamaha Motor Co., Ltd., in accordance with section 153.38, customs Regulations (19 CFR 153.38). The order issued April 26, 1978, (42 FR 17900-02) to withhold appraisement on the subject merchandise from Japan is hereby terminated with respect to Yamaha effective upon publication of this notice.

Accordingly, the notice of "Determination of Sales at Less Than Fair Value and Exclusion from Investigation" referred to above is modified to discontinue the antidumping investigation with respect to motorcycles produced and sold by Yamaha Motor Co., Ltd., and to reflect the change in computing home market price and the statistical changes resulting from recalculations of the prices used for fair value comparisons.

The United States International Trade Commission is being advised of this modification.

This notice is published pursuant to § 153.42, Customs Regulations (19 CFR 153.42).

ROBERT H. MUNDHEIM,
General Counsel
of the Treasury.

OCTOBER 13, 1978.

INTERSTATE COMMERCE COMMISSION

[Decisions Volume No. 38]

DECISION—NOTICE

Decided: October 10, 1978.

The following applications are governed by special rule 247 of the Commission's rules of practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, on or before November 20, 1978, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (as specifically noted below), and shall specify with particularity the facts, matters, and thing relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirments of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provided, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication.

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

We find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform

V 43 / 203 OCT 19 78

the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

It is ordered: In the absence of legally sufficient protests, filed on or before November 20, 1978 (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

By the Commission, Review Board No. 2, Members Boyle, Eaton, and Liberman.

H. G. Homme, Jr.,
Acting Secretary.

MC 1395 (Sub-10F), filed August 23, 1978. Applicant: ALVAN MOTOR FREIGHT, INC., 3600 Alvan Road, Kalamazoo, MI 49001. Representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, MI 48167. To operate as a *common carrier*, by motor vehicle, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Evart and Grand Rapids, MI, from Evart over U.S. Hwy 10 to junction U.S. Hwy 131, then over U.S. Hwy 131 to Grand Rapids, and return over the same route, serving no intermediate points. (Hearing site: Chicago, IL, or Washington, DC.)

MC 11207 (Sub-442F), filed August 17, 1978. Applicant: DEATON, INC., a Delaware corporation, 317 Avenue W, P.O. Box 938, Birmingham, AL 35201. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, DC 20014. To operate as a *common carrier*, by motor vehicles, transporting: *Steel piling, pile-driving equipment, and machinery* (except commodities which because of size or weight require the use of special equipment), from Charleston, SC, Savannah, GA Miami, FL, and Wilmington, NC, to points in AL, FL, MS, and TN. (Hearing site: Jacksonville, FL or Birmingham, AL.)

MC 19105 (Sub-51F), filed August 28, 1978. Applicant: FORBES TRANSFER CO., INC., P.O. Box 3544, Wilson, NC 27893. Representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. To operate as a *common carrier*, by motor vehicles, transporting: *Malt beverages*, in containers, from Williamsburg, VA, to points in NC in and east of Granville, Durham, Chatham, Lee, Harnett, Cumberland, and Robeson Counties, NC. (Hearing site: Raleigh, NC or Washington, DC.)

MC 19157 (Sub-53F), filed August 16, 1978. Applicant: McCORMACK'S HIGHWAY TRANSPORTATION, INC., Rural Delivery 3, Box 4, Campbell Road, Schenectady, NY 12306. Representative: Paul Montarello (same address as applicant). To operate as a *common carrier*, by motor vehicle, transporting: *Such commodities* as are dealt in by tire stores (except commodities in bulk, and those which because of size or weight require the use of special equipment), between Gadsden, AL Tyler, TX, and Indiana, PA, on the one hand, and, on the other, those points in and east of ND, SD, NE, KS, OK, and TX. Condition: In view of the findings in MC 19157 (Sub-22), et al., of which official notice is taken, the issuance of the authority in this proceeding will be held in abeyance during the consideration of applicant's fitness in MC 19157 (Sub-41). (Hearing site: San Francisco, CA or Washington, DC.)

MC 24784 (Sub-14F), filed August 8, 1978. Applicant: BARRY, INC., 463 South Water Street, Olathe, KS 66061. Representative: Arthur J. Cerra, 2100 TenMain Center, P.O. Box 19251, Kansas City, MO 64141. To operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Building materials and insulation materials (except iron and steel articles and commodities in bulk)*, from the facilities of Gibson-Homans Co. and G.A.F. Corp., at Kansas City, MO, to Denver, CO, restricted to the transportation of traffic originating at the named origin facilities and destined to the named destination. (Hearing site: Kansas City, MO.)

MC 25869 (Sub-144F), filed September 8, 1978. Applicant: NOLTE BROS. TRUCK LINE, INC., an Iowa corporation, P.O. Box 7184, Omaha, NE 68107. Representative: J. F. Crosby, P.O. Box 37205, Omaha, NE 68137. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Furniture, furniture parts*, and *equipment, materials, and supplies* used in the manufacture and distribution of furniture and furniture parts, (a) between Denver, CO, on the one hand, and, on the other, points in AZ, CA, GA, IL, IN, KS, KY, MA, MN, MO, NC, SC, TN, TX, VA, WA, and WI, and (b) from Denver, CO, to points in MT, NE, NM, SD, and WY, and (2) *furniture parts, drapery fabric, hardware, and equipment, materials, and suppliers* used in the manufacture of furniture and furniture parts, between Denver, CO, on the one hand, and, on the other, Elkhart and Mishawaka, IN, Port Clinton, OH, and Middleton and Stoughton, WI. (Hearing site: Denver, CO.)

MC 29886 (Sub-350F), filed July 26, 1978. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4314 39th Avenue, Kenosha, WI 53142. Representative: Richard C. McGinnis, 711 Washington Building, Washington, DC 20005. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cranes and materials, equipment, and supplies* used in connection with cranes, between points in the United States (except AK and HI). (Hearing site: New York, NY, or Chicago, IL.)

MC 29886 (Sub-351F), filed July 31, 1978. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4314 39th Avenue, Kenosha, WI 53142. Representative: Paul F. Sullivan, 711 Washington Building, Washington, DC 20005. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heat exchangers, turbines, turbine condensers*, and (2) *parts* for the commodities named in (1) above, from Batavia, NY, to points in the United States (except AK and HI). (Hearing site: Chicago, IL, or Washington, D.C.)

MC 30618 (Sub-14F), filed August 22, 1978. Applicant: HENRY V. RABOUIN, Richmond Road, P.O. Box 204, Pittsfield, MA 01201. Representative: Sherwood Guernsey II, Aaronson, Fuster & Denmark, 57 Wendell Avenue, Pittsfield, MA 01201. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Talc tailings*, in bulk, from West Windsor, Ludlow, and Gassetts, VT, to points in NJ, those in PA south and east of a line beginning at the NJ-PA State line and extending along Interstate Hwy 76 to its junction with U.S. Hwy 15, then along U.S. Hwy 15 to the PA-MD State line, those in NY south of Interstate Hwy 84, and those in CT west of Interstate Hwy 91. (Hearing site: Springfield or Boston, MA.)

MC 30844 (Sub-621F), filed August 7, 1978. Applicant: KROBLIN REFRIGERATED EXPRESS, INC., P.O. Box 5000, Waterloo, IA 50704. Representative: John P. Rhodes (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, and *articles distributed* by meat packinghouses, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209, 766 (except hides and commodities in bulk), from the facilities of Wisconsin Beef Industries, Inc., at Eau Claire, WI, to points in CT, DE, IN, KY, ME, MD, MA, MI, NH, NJ, NY, OH, PA, TX, VT, VA, WV, and DC, restricted to the transportation of traffic originating at the named origin facilities. (Hearing site: St. Paul, MN.)

MC 31389 (Sub-256F), filed August 31, 1978. Applicant: McLEAN TRUCKING CO., a corporation, 617 Waughtown Street, Winston-Salem, NC 27107. Representative: David F. Eshelman, P.O. Box 213, Winston-Salem, NC 27102. To operate as a *common carrier*, by motor vehicle, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of Neese Industries, Inc., at or near Livingston, LA, as an off-route point in connection with carrier's otherwise authorized regular-route operations. (Hearing site: Washington, DC, or Baton Rouge, LA.)

MC 31389 (Sub-257F), filed August 31, 1978. Applicant: McLEAN TRUCKING CO., a corporation, 617 Waughtown Street, Winston-Salem, NC 27107. Representative: David F. Eshelman, P.O. Box 213, Winston-Salem, NC 27102. To operate as a *common carrier*, by motor vehicle, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) serving the facilities of Union Carbide Corp., at or near Alloy, WV, as an off-route point in connection with carrier's otherwise authorized regular-route operations. (Hearing site: New York, NY, or Washington, DC.)

MC 31389 (Sub-258F), filed August 31, 1978. Applicant: McLEAN TRUCKING CO., a corporation, 617 Waughtown Street, Winston-Salem, NC 27107. Representative: David F. Eshelman, P.O. Box 213, Winston-Salem, NC 27102. To operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of American Biltrite, Inc., at or near Paragould, AR, as an off-route point in connection with carrier's otherwise authorized regular-route operations. (Hearing site: Boston, MA, or Washington, DC.)

MC 40898 (Sub-21F), filed August 28, 1978. Applicant: S & W MOTOR LINES, INC., P.O. Box 11439, Greensboro, NC 27409. Representative: A. W. Flynn, Jr., 314 South Eugene Street, P.O. Box 180, Greensboro, NC 27402. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from Clarion PA, to Eden, Greensboro, and Clemmons, NC. (Hearing site: Greensboro, NC.)

MC 41098 (Sub-44F), filed September 11, 1978. Applicant: GLOBAL VAN LINES, INC., a Texas corporation, One Global Way, Anaheim, CA 98203. Representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New office furniture*, from the facilities of Lehigh-Leopold Division of Litton Industries, at Burlington, IA, to points in CT, DE, MD, MA, NJ, NY, PA, RI, DC, and those points in OH on and east of Interstate Hwy 71. (Hearing site: Los Angeles, CA).

NOTE.—(1) The person or persons who it appears may be engaged in common control must either file an application under section 5(2) of the Interstate Commerce Act, or submit an affidavit indicating why such approval is unnecessary. (2) Dual operations may be involved.

MC 42261 (Sub-138F), filed August 10, 1978. Applicant: LANGER TRANSPORT CORP., Box 305, Jersey City, NJ 07303. Representative: W. C. Mitchell, 370 Lexington Avenue, New York, NY 10017. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum*, in bulk, in tank vehicles, from the facilities of Rolfite Co., at or near Elizabeth, NJ, to points in AL, AR, LA, MS, and TN, restricted to the transportation of traffic originating at the named origin facilities. (Hearing site: New York, NY, or Newark, NJ.)

MC 47171 (Sub-110F), filed July 23, 1978. Applicant: COOPER MOTOR LINES, INC., P.O. Box 4259, Greenville, SC 29608. Representative: Harris G. Andrews (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Ypsilanti, MI, as an offroute point in connection with carrier's presently authorized regular route operations, restricted to the transportation of traffic originating at Fort Wayne, IN. (Hearing site: Fort Wayne or Indianapolis, IN.)

MC 61231 (Sub-128F), filed August 10, 1978. Applicant: EASTER ENTERPRISES, INC., d.b.a. ACE LINES, INC., P.O. Box 1351, Des Moines, IA 50305. Representative: William L. Fairbank, 1980 Financial Center, Des Moines, IA 50309. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Gypsum wallboard*, from Albuquerque, NM, to points in NE, SD, and WY; and (2) *construction materials, lumber, lumber products, wood products, iron and steel articles*, and *lands*- pion International Corp., at or near Pocomoke City, MD, to points in OH and WV; and (2) *lumber and lumber products*, from the facilities of Pitt

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY-ELIMINATION OF GATEWAY LETTER NOTICES

OCTOBER 4, 1978.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Eliminaton Rules* (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 30, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

The following applicants seek to operate as a *common carrier*, by motor vehicles, over irregular routes.

MC 14702 (Sub-E1) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of October 8, 1974, and republished, as corrected, this issue. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, OH 44482. Representative: James M. Holland, (same as above). *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 MCC 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in PA on and east of a line beginning at the PA-NY

State line, and extending along U.S. Hwy 219 to junction U.S. Hwy 322, then along U.S. Hwy 322 to junction

MC 88368 (Sub-E31) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of August 25, 1975, and republished as corrected this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. Representative: Charles Ephlin, (same as above). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 MCC 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in PA on and east of a line beginning at the PA-NY State line, and extending along U.S. Hwy 219 to junction U.S. Hwy 322, then along U.S. Hwy 322 to junction Interstate Hwy 80, then over Interstate Hwy 80 to junction Interstate Hwy 85, then over Interstate Hwy 85 to junction Interstate Hwy 285, then over Interstate Hwy 285 to junction Interstate Hwy 20, then over Interstate Hwy 20 to junction Interstate Hwy 285, then over Interstate Hwy 285 to junction Interstate Hwy 85, then over Interstate Hwy 85 to the William B. Hartsfield Atlanta International Airport, and return over the same route, serving no intermediate points restricted to the transportation (1) of passengers having a prior or subsequent movement by air, and (2) of not more than 5 passengers in any one vehicle, not including children under 10 years of age who do not occupy a seat, and the driver. (Hearing site: Birmingham, AL, or Atlanta, GA.)

MC 88368 (Sub-E31) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of August 25, 1975, and republished as corrected this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. Representative: Charles Ephlin, (same as above). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 MCC 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in PA on and east of a line beginning at the PA-NY State line, and extending along U.S. Hwy 219 to junction U.S. Hwy 322, then along U.S. Hwy 322 to junction Interstate Hwy 80, then over Interstate Hwy 80 to junction Interstate Hwy 85, then over Interstate Hwy 85 to junction Interstate Hwy 285, then over Interstate Hwy 285 to junction Interstate Hwy 20, then over Interstate Hwy 20 to junction Interstate Hwy 285, then over Interstate Hwy 285 to junction Interstate Hwy 85, then over Interstate Hwy 85 to the William B. Hartsfield Atlanta International Airport, and return over the same route, serving no intermediate points restricted to the transportation (1) of passengers having a prior or subsequent movement by air, and (2) of not more than 5 passengers in any one vehicle, not including children under 10 years of age who do not occupy a seat, and the driver. (Hearing site: Birmingham, AL, or Atlanta, GA.)

rected, this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO

MC 88368 (Sub-E40) (correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of September

to Harlan, IA and points within 15 miles thereof; (39) from points in WY to points in LA; (40) from points in

V 43 N 203 OCT 19 78

State line, and extending along U.S. Hwy 219 to junction U.S. Hwy 322, then along U.S. Hwy 322 to junction U.S. Hwy 350, then along U.S. Hwy 350 to junction U.S. Hwy 220, then along U.S. Hwy 220 to the PA-MD State line, points in MD, NJ, DC, and points in that part of NY east of a line extending from the shore of Lake Ontario along NY Hwy 18 to Rochester, then along U.S. Hwy 15 to Lakeville, then along AL U.S. Hwy 20 to Leicester, then along NY Hwy 36 to Mount Morris, then along NY Hwy 408 to junction NY Hwy 16 near Hinsdale, then along NY Hwy 16 to Olean, and then along NY Hwy 16-A to the NY-PA State line, on the one hand, and, on the other, points in OH north and west of a line beginning at the Ohio River and extending along U.S. Hwy 22 to junction I Hwy 77, then along I Hwy 77 to junction OH Hwy 78, then along OH Hwy 78 to junction OH Hwy 13, then along OH Hwy 13 to junction U.S. Hwy 33, then along U.S. Hwy 33 to the Ohio River. (Gateways eliminated: Warren, OH or Blaine, OH.)

NOTE.—The purpose of this republication is to clarify the correct E-number (1) instead of E-number (7).

MC 14702 (Sub-E7), (Correction) filed May 15, 1974, published June 14, 1974 in the FEDERAL REGISTER and republished this issue. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, OH 44482. Representative: James M. Holland (same as above). *Iron, steel, manufactured iron and steel articles, motors machinery, and machinery parts* (except commodities requiring special equipment and commodities in bulk), between points in PA on and west of U.S. Hwy 219 (except points in Greene and Washington Counties), on the one hand, and, on the other, points in IN, points in IL in the Chicago, IL, commercial zone as defined by the Commission, and points in MI on and south of MI Hwy 46. (Gateway eliminated: Warren, OH.) The purpose of this correction is to clarify the filings E1 and E7.

MC 88368 (Sub-E30) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of August 25, 1974, and republished again on July 19, 1978, and partially republished, as corrected, this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. Representative: Charles Ephraim, Attorney, Suite 600, 1250 Connecticut Avenue NW., Washington, DC. 20036. *Household goods,* as defined by the Commission, (61) from points in OK to points in NH. (Gateways eliminated: Arkansas City, KS, Clinton, IL, Steubenville, OH, Philadelphia, IL, Lawrence, MA.)

NOTE.—The purpose of this partial correction is to add part (61) previously omitted.

MC 88368 (Sub-E31) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER issue of August 25, 1975, and partially republished as corrected, this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. MC 123407 (Sub-E550), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Plastic pipe and plastic products* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail or by air, from points in TX on and west of a line beginning at Galvestion extending along U.S. Hwy 75 to junction I Hwy 610, then along I Hwy 610 to junction U.S. Hwy 290, then along U.S. Hwy 290 to junction U.S. Hwy 183, then along U.S. Hwy 183 to junction U.S. Hwy 281, then along U.S. Hwy 281 to the TX-Ok State line, to points in the Upper Peninsual of MI. (Gateway eliminated: Hearings, NE.)

MC 125433 (Sub-E11), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Machinery and machinery parts* (except commodiites in bulk) which by reason of size or weight, require special handling or the use of special equipment and machinery and machinery parts which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading, as machinery and machinery parts, which by reason of size or weight require special handling or the use of special equipment, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E12), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Mining equipment and supplies* (except commodities in bulk) which by reason of size or weight require special handling or the use of special equipment, and mining equipment and supplies, which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading, as mining equipment and supplies which by reason of size or weight require special handling or the use of special equipment, between points in CA on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E13), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Machinery* (except commodities in bulk) which is embraced within the commodity description of self-propelled articles, weighing 15,000 pounds or more, transported on trailers, and *related machinery, tools, parts, and supplies* moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO. (gateway eliminated: UT.)

MC 125433 (Sub-E14), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Mining equipment* (except commodities in bulk) which is a self-propelled article, weighing 15,000 pounds or more, transported on trailers, and related machinery, tools, parts, and supplies moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E15), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction equipment and supplies* (except commodities in bulk) which by reason of size or weight, require special handling or the use of special equipment and construction equipment and supplies which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading, as construction equipment and supplies, which by reason of size or weight require special handling or the use of special equipment, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E16), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction equipment* (except commodities in bulk) which is a self-propelled article, weighing 15,000 pounds or more transported on trailers, and related machinery, tools, parts, and supplies moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO (Gateway eliminated: UT.)

MC 125433 (Sub-E17), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Pipe and pipe fittings* (except iron and steel commodities in bulk) which are also construction materials, equipment or supplies, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E18), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Pipe and pipe fittings* (except iron and steel commodities in bulk) which are also mining materials, equipment or supplies, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E19), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction materials* (except commodities in bulk), between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: points in UT.)

MC 125433 (Sub-E21), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Iron and steel articles as* described in Appendix V in *Descriptions in Motor Carrier Certificates*, 61, MCC 209 and 766, when shipped as mining and construction materials, equipment, and supplies (except commodities in bulk), between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E26), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Machinery* (except commodities in bulk) which is embraced within the commodity description of self-propelled articles, weighing 15,000 pounds or more, transported on trailers, and *related machinery, tools, parts, and supplies* moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E27), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Mining equipment* (except commodities in bulk) which is a self-propelled article, weighing 15,000 pounds or more, transported on trailers, and related machinery, tools, parts, and supplies moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E28), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction equipment* (except commodities in bulk) which is a self-propelled article, weighing 15,000 pounds or more transported on trailers, and related machinery, tools, parts, and supplies moving in connection therewith, between points in CA, on the one hand, and, on the other, points in CO (Gateway eliminated: UT.)

MC 125433 (Sub-E29), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. ice), which do not require special handling, when moving in the same shipment on the same bill of lading as special-purpose trailers designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except in either case, trailers designed to be drawn by passenger automobiles in truck-away service), which by reason of size or weight, require special handling or the use of special equipment, between points in AZ (except points in Cochise County), on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E45), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Commodities* (except commodities in bulk), which by reason of size or weight, require special handling or machinery, boilers, storage tanks, and parts therefor, structural steel, and contractors' outfits, and supplies requiring special equipment or rigging which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading as commodities which by reason of size or weight require special handling or the use of special equipment between points in NV (except points in Mineral County), on the one hand, and, on the other, points in CO. Restriction: This authority to the extent it authorizes the transportation of explosives shall expire December 22, 1981. (Gateway eliminated: UT.)

MC 125433 (Sub-E46), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Self-propelled articles,* each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith (except commodities in bulk), between points in NV (except points in Nye, Esmeralda, and Mineral Counties, NV), on the one hand, and, on the other, points in CO. Restriction: The operations authorized above are subject to the following conditions: Said operations are restricted to commodities which are transported on trailers. Said operations shall not be severable by sale or otherwise. (Gateway eliminated: UT.)

MC 125433 (Sub-E47), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Iron and steel articles* as described in appendix V to the Commission's report in *Descriptions in Motor Carrier Certificates,* 61 MCC 209 and 766 (except commodities in bulk, between points in NV (except points in Mineral County, NV), on the one hand, and, on the other, points in CO. Restriction: The operations authorized above shall not be severable, by sale or otherwise, from carrier's corresponding authority to transport commodities, the transportation of which because of size or weight, requires the use of special equipment. (Gateway eliminated: UT.)

MC 125433 (Sub-E48), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Pipe* (except iron and steel and commodities in bulk), between points in NV (except Mineral County, NV), on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E49), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction materials* when also building materials (except commodities in bulk), between points in that part of NV east of a line extending north and south through McDermitt, NV, including Winnemucca, NV, on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E50), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Construction materials* which are machinery, boilers, storage tanks, and parts therefor, structural steel and contractors' outfits and supplies, requiring special equipment or rigging (except commodities in bulk), between points in NV (except Mineral County, NV), on the one hand, and, on the other, points in CO. Restriction: This authority to the extent it authorizes the transportation of explosives shall expire December 22, 1981. (Gateway eliminated: UT.)

MC 125433 (Sub-E51), filed August 18, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake city, UT 84104. Representative: John B. Anderson (same as above). *Special-purpose trailers* designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except, in either case, trailers designed to be drawn by passenger automobiles in truck-away service), which by reason of size or weight, require special handling, or the use of special equipment, and special-purpose trailers designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except in either case, trailers designed to be drawn by passenger automobiles in truck-away service), which by reason of size or weight, require special handling or the use of special equipment, between points in NV (except points in Mineral County), on the one hand, and, on the other, points in CO. (Gateway eliminated: UT.)

MC 125433 (Sub-E52), filed September 5, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Iron and steel articles* as described in Appendix V to the Commission's report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except commodities in bulk), (1) between points in that part of CO on, north and east of a line beginning at the UT-CO State line and U.S. Hwy 40, then north and east along U.S. Hwy 40 to junction U.S. Hwy 34, then north and east on U.S. Hwy 34 to junction CO Hwy 59, then south along CO Hwy 59 to junction CO Hwy 96, then east along CO Hwy 96 to junction CO Hwy 196, then south along CO Hwy 196 to junction U.S. Hwy 287, then south along U.S. Hwy 287 to the CO-OK State line, on the one hand, and, on the other, points in that part of NM on and north of a line beginning at the NM-AZ State line and NM Hwy 504, then east along NM Hwy 504 to junction U.S. Hwy 550, then north along U.S. Hwy 550 to the NM-CO State line; (2) between points in CO, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and NM Hwy 504 to junction U.S. Hwy 666, then south and west along U.S. Hwy 666 to the NM-AZ State line; and (3) between points in that part of CO on, west and north of a line beginning at the CO-NM State line and U.S. Hwy 84, then north along U.S. Hwy 84 to junction U.S. Hwy 160, then north along U.S. Hwy 160 to junction CO Hwy 149, then north along CO Hwy 149 to junction CO Hwy 135, then north along CO Hwy 135 to junction CO Hwy 133, then north along CO Hwy 133 to junction CO Hwy 82, then north along CO Hwy 82 to junction U.S. Hwy 6, then east along U.S. Hwy 6 to junction I Hwy 70, then east along I Hwy 70 to junction U.S. Hwy 36, then east along U.S. Hwy 36 to the CO-NE State line, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and U.S. Hwy 666, then east along U.S. Hwy 666 to junction NM Hwy 32, then south along NM Hwy 32 to junction NM Hwy 12, then south along NM Hwy 12 to junction U.S. Hwy 180, then south along U.S. 180 to junction NM Hwy 90, then south along NM Hwy 90 to junction I Hwy 10, then south along I Hwy 10 to junction NM Hwy 338, then south along NM Hwy 338 to junction NM Hwy 9, then west along NM Hwy 9 to the NM-AZ State line. Restriction: The operations authorized above shall not be severable, by sale or otherwise, from carrier's corresponding authority to transport commodities, the transportation of which because of size or weight requires the use of special equipment. (Gateway eliminated: UT.)

MC 125433 (Sub-E53), filed September 5, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same address as above). *Self-propelled articles,* each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith (except commodities in bulk), (1) Between points in that part of CO on, north and east of a line beginning at the UT-CO State line and U.S. Hwy 40, then north and east along U.S. Hwy 40 to junction U.S. Hwy 34, then north and east along U.S. Hwy 34 to junction CO Hwy 59, then south along CO Hwy 59 to junction CO Hwy 96, then east along CO Hwy 96 to junction CO Hwy 196, then south along CO Hwy 196 to junction U.S. Hwy 287, then south along U.S. Hwy 287 to the CO-OK State line, on the one hand, and, on the other, points in that part of NM on the north of a line beginning at the NM-AZ State line and NM Hwy 504, the east along NM Hwy 504 to junction U.S. Hwy 550, then north along U.S. Hwy 550 to the NM-CO State line; (2) between points in CO, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and NM Hwy 504, then east along NM Hwy 504 to junction U.S. Hwy 666, then south and west along U.S. Hwy 666 to the NM-AZ State line; (3) between points in that part of CO on, west and north of a line beginning at the CO-AZ State line and Hwy 84, then north along U.S. Hwy 84 to junction U.S. Hwy 160, then north along U.S. Hwy 160 to junction CO Hwy 149, then north along CO Hwy 149 to junction CO Hwy 135, then north along CO Hwy 135 to junction CO Hwy 133, then north along CO Hwy 133 to junction CO Hwy 82, then north along CO Hwy 82 to junction U.S. Hwy 6, then east along U.S. Hwy 6 to junction I Hwy 70, then east along I Hwy 70 to junction U.S. Hwy 36, then east along U.S. Hwy 36 to the CO-NE State line, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and U.S. Hwy 666, then east along U.S. Hwy 666 to junction NM Hwy 32, then south along NM Hwy 32 to junction NM Hwy 12, then south along NM Hwy 12 to junction U.S. Hwy 180, then south along U.S. 180 to junction NM Hwy 90, then south along NM Hwy 90 to junction I Hwy 10, then south along I Hwy 10 to junction NM Hwy 338, then south along NM Hwy 338 to junction NM Hwy 9, then west along NM Hwy 9 to NM—AZ State line. Restriction: The operations authorized above are subject to the following conditions: Said operations are restricted to commodities which are transported on trailers. Said operations shall not be severable by sale or otherwise. (Gateway eliminated: UT.)

MC 125433 (Sub-E54), filed September 5, 1978. Applicant: F-B TRUCK LINE CO., 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same as above). *Special-purpose trailers* designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except, in either case, trailers designed to be drawn by passenger automobiles in truck-away service), when also commodities which by reason of size or weight, require special handling, or the use of special equipment, and special-purpose trailers designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except, in either case, trailers designed to be drawn by passenger automobiles in truck-away service), which do not require special handling, or the use of special equipment when moving in the same shipment on the same bill of lading as special-purpose trailers designed for use in connection with the maintenance and repair of electric power transmission lines, and those designed for use incidental to construction and mining projects (except, in either case, trailers designed to be drawn by passenger automobiles in truck-away service), which by reason of size or weight, require special handling or the use of special equipment: (1) Between points in that part of CO, on, north and east of a line beginning at the UT-CO State line and U.S. Hwy 40, then north and east along U.S. Hwy 40 to junction U.S. Hwy 34, then north and east along U.S. Hwy 34 to junction CO Hwy 59, then south along CO Hwy 59 to junction CO Hwy 96, then east along CO Hwy 96 to junction CO Hwy 196, then south along CO Hwy 196 to junction U.S. Hwy 287, then south along U.S. Hwy 287 to the CO-OK State line, on the one hand, and, on the other, points in that part of NM on and north of a line beginning at the NM-AZ State line and NM Hwy 504, then east along NM Hwy 504 to junction U.S. Hwy 550, then north along U.S. Hwy 550 to junction NM-CO State line; (2) between points in CO, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and NM Hwy 504, then east along NM Hwy 504 to junction U.S. Hwy 666, then south and west of U.S. Hwy 666 to the NM-AZ State line; (3) between points in that part of CO on, west and north of a line beginning at the CO-NM State line and U.S. Hwy 84, then north along U.S. Hwy 84 to junction U.S. Hwy 160, then north along U.S. Hwy 160 to junction CO Hwy 149, then north along CO Hwy 149 to junction CO Hwy 135, then north along CO Hwy 135 to junction CO Hwy 133, then north along CO Hwy 133 to junction CO Hwy 82, then north along CO Hwy 82 to junction U.S. Hwy 6, then east along U.S. Hwy 6 to junction I Hwy 70, then east along I Hwy 70 to junction U.S. Hwy 36, then east along U.S. Hwy 36 to the CO-NE State line, on the one hand, and, on the other, points in NM on and west of a line beginning at the NM-AZ State line and U.S. Hwy 666, then east along U.S. Hwy 666 to junction NM Hwy 32, then south along NM Hwy 32 to junction NM Hwy 12, then south along NM Hwy 12 to junction U.S. Hwy 180, then south along U.S. Hwy 180 to junction NM Hwy 90, then south along NM Hwy 90 to junction I U.S. Hwy 10, then south along I Hwy 10 to junction NM Hwy 338, then south along NM Hwy 338 to junction NM Hwy 9, then west along NM Hwy 9 to NM—AZ State line. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

October 11, 1978.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 30, 1978. A copy must also be served upon applicant or its representatives. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

The following applicants seek to operate as a *common carrier*, by motor vehicles, over irregular routes.

MC 68860 (Sub-E1) (correction), filed April 21, 1974, published in the Federal Register issue of June 13, 1974, corrected in the Federal Register issue of April 19, 1978, and partially republished, as corrected, this issue. Applicant: RUSSELL TRANSFER, INC., P.O. Box 2278, Roanoke, VA 24009. Representative: L. G. Gregory, Jr., (same as above). (2) *Angles, bars, bases, beams, bridge steel, channels, forms* (structural), *joists, piling, pipe* (cast iron, plate or sheet), *pipe fittings, plates* (structural) *rivets, rods, sheets, slabs, wire rope, and accessories* for beams and joists, from points in SC, and Lynchburg, Norfolk, Richmond, Danville, Bristol, Narrows, and Grundy, VA, Winston-Salem, Greensboro, Durham, Canton, Asheville, Charlotte, and Raleigh, NC, Washington, DC, Baltimore, MD, Wilmington, DE, Philadelphia, PA, Newark and Swedesboro, NJ, and Charleston, Bluefield, and Huntington, WV, to points in NC on and west of a line beginning at the VA-NC State line, and extending along U.S. Hwy 15, then along U.S. Hwy 15 to the NC-SC State line; points in TN on and east of a line beginning at the KY-TN State line, and extending along U.S. Hwy 25W to Knoxville, TN, and on and north of a line beginning at Knoxville, TN, and extending along U.S. Hwy 25W to Newport, TN, and then along U.S. Hwy 25 through Del Rio, TN, to the TN-NC State line; and points in WV on and south of a line beginning at the OH-WV State line, and extending along U.S. Hwy 33, then along U.S. Hwy 33 to the WV-VA State line. (Gateways eliminated: Roanoke, Lynchburg, and Glenvar, VA.)

Note.—The purpose of this partial republication is to correctly describe the commodities and territories in part (2). The remainder of this letter-notice remains as previously published.

MC 107515 (Sub-E674), filed December 20, 1976. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, GA 33050. Representative: Alan E. Serby, Fifth Floor, Lenox Towers, I-3390, Peachtree Road NE., Atlanta, GA 30326. (1) *Meats, meat products, and meat byproducts* as described in section A of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except commodities in bulk and canned goods), from Houston, TX, to points in ME, VT, NH, and MD. (2) *Meats, meat products, meat by-products, and articles distributed by meat packinghouses which are foodstuffs*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except in bulk, in tank vehicles) from Dalhart, TX, to points in MD, DE, NJ, CT, RI, ME, NH, VT, MA, DC, and points in NY on and east of a line beginning at the NY-PA State line, and extending along U.S. Hwy 11 to junction NY Hwy 12, then along NY Hwy 12 to junction NY Hwy 8, then along NY Hwy 8 to junction NY Hwy 30, then along NY Hwy 30 to junction NY Hwy 3, then along NY Hwy 3 to junction Interstate Hwy 87, then along Interstate Hwy 87 to the international boundary line between the United States and Canada near Champlain, NY, restricted in part (2) against the transportation of canned citrus products to points in MD, DE, NJ, CT, RI, MA, DC, and that part of NY on and south of NY Hwy 7. (3) *Meats, meat products, and meat byproducts*, as described in appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except in bulk), from Burris, TX, to points in AL on and east of a line beginning at the AL-FL State line, and extending along U.S. Hwy 231 to junction U.S. Hwy 29, then along U.S. Hwy 29 to junction U.S. Hwy 431, then along U.S. Hwy 431 to junction Interstate Hwy 59, then along Interstate Hwy 59 to the AL-GA State line. (Gateway eliminated: Doraville, GA.)

MC 112304 (Sub-E422) (correction), filed May 1, 1978, published in the Federal Register issue of August 23, 1978, and republished, as corrected, this issue. Applicant: ACE DORAN HAULING & RIGGING CO., 1601 Blue Rock Street, Cincinnati, OH 45223. Representative: A. Charles Tell, Suite 1800, 100 East Broad Street, Columbus, OH 43215. *Structural steel, and iron and steel angles, bars, channels, conduit, lath, piling, pipe, posts, rails, rods, roofing, tubing, and wire in coils*, from all points in VA on and north of a line beginning at Interstate Hwy 64 at the WV-VA State line, then east along Interstate Hwy 64 to junction Interstate Hwy 81, then north along Interstate Hwy 81 to junction Interstate Hwy 64, then east along Interstate Hwy 64 to junction U.S. Hwy 360, then east along U.S. Hwy 360 to the Chesapeake Bay, to all points in TX. "Limitation: The certificate in MC 112304 Sub-65 shall be of no further force and effect after August 9, 1980." (Gateways eliminated: Daviess County, KY and Clarksburg, WV, and points within 50 miles of Clarksburg.)

Note.—The purpose of this republication is to correct I Hwy 65 to read as I Hwy 64.

MC 112304 (Sub-E480) (Correction), filed May 1, 1978, published in the Federal Register issue of August 9, 1978, and republished, as corrected, this issue. Applicant: ACE DORAN HAULING & RIGGING CO, 1601 Blue Rock Street, Cincinnati, OH 45223. Representative: A. Charles Tell, Suite 1800, 100 East Broad Street, Columbus, OH 43215. *Structural steel, and iron and steel angles, bars, channels, conduit, lath, piling, pipe, posts, rails, rods, roofing, tubing and wire in coils*, between points in Butler County, PA, on the one hand, and, on the other, points in VA on and south of a line beginning at the WV-VA State line extending southeast along U.S. Hwy 250 to junction U.S. Hwy 360 at Richmond, then east along U.S. Hwy 360 to the Chesapeake Bay. *"Limitation:* The certificate in MC 112304 Sub-65 shall be of no further force and effect after August 9, 1980." (Gateway eliminated: Clarksburg, WV and 50 miles within Clarksburg, WV.)

Note:—The purpose of this republication is to clarify the territorial description.

MC 112304 (Sub-E481) (Correction), filed May 1, 1978, published in the Federal Register issue of August 9, 1978, and republished, as corrected, this issue. Applicant: ACE DORAN HAULING & RIGGING CO, 1601 Blue Rock Street, Cincinnati, OH 45223. Representative: A. Charles Tell, Suite 1800, 100 East Broad Street, Columbus, OH 43215. *Structural steel, and iron and steel angles, bars, channels, conduit, lath, piling, pipe, posts, rails, rods, roofing, tubing and wire in coils*, between points in Fayette County, PA, on the one hand, and, on the other, points in VA on and south of a line beginning at the WV-VA State line extending southeast along U.S. Hwy 250 to junction U.S. Hwy 360 at Richmond, then east along U.S. Hwy 360 to the Chesapeake Bay. *"Limitation:* The certificate in MC 112304 Sub-65 shall be of no further force and effect after August 9, 1980." (Gateway eliminated: Clarksburg, WV and 50 miles within Clarksburg, WV.)

Note:—The purpose of this republication is to clarify the territorial description.

MC 113651 (Sub-E36), filed February 4, 1977. Applicant: INDIANA REFRIGERATED LINES, INC., 2404 North Broadway, Muncie, IN 47303. Representative: H. Barney Firestone, 327 South LaSalle Street, Chicago, IL 60604. *Meats, meat products, and meat by-products*, as described in section A of Appendix I of the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except commodities in bulk, in tank vehicles), from the plantsite of Armour & Co., near Worthington, MN to points in NJ, PA, DE, and points in that part of WV, on and west of U.S. Hwy 219 and New York, NY, and its commercial zone. Restriction: The authority granted herein is restricted as follows: (1) It is limited to shipments originating at the plantsite of Armour & Co., at Worthington, NM; (2) it is restricted against tacking at point of origin. (Gateway eliminated: Louisville, KY.)

MC 115826 (Sub-E62), filed December 15, 1977. Applicant: W. J. DIGBY, INC., P.O. Box 5088 Termina, Denver, CO 80217. Representative: William N. Loftus (same as above.) *Building materials and materials* used in the installation and application of such commodities (except iron and steel, and commodities in bulk and commodities requiring special equipment) in containers or in trailers having an immediately prior

or subsequent movement by water, or by water-rail or by air, from points in Erie, Warren, McKeon, Potter, Tioga, Bradford, and Susquehanna Counties, PA, to points in MS. (Gateway eliminated: facilities of Certain-Teed Products at East St. Louis, IL.)

MC 123407 (Sub-E604), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above.) *Building materials and materials* used in the installation and application of such commodities (except iron and steel, and commodities in bulk and commodities requiring special equipment) in containers or in trailers having an immediately prior or subsequent movement by water, or by water-rail or by air, from points in WA, OR, CA, NV, ID, WY, UT, and CO, to points in TN. (Gateway eliminated: facilities of Certain-Teed Products Corp. at East St. Louis, IL.)

MC 123407 (Sub-E605), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Composition board* (except lumber and commodities which because of their size or weight require the use of special equipment), in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in WA, to points in SC, GA, and FL. (Gateway eliminated: Warren, IL, Brookville, IN, and facilities of Abitibi Corp. at Roaring River, NC.)

MC 123407 (Sub-E606), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Charcoal briquettes, lignite char fireplace logs, lighter fluid, and barbeque grill base material* (except commodities in bulk and commodities requiring special equipment), in containers or in trailers having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in MI on and north of MI Hwy 72. (Gateway eliminated: Facilities of Husky Briquetting, Inc., at Isanti, MN.)

MC 123407 (Sub-E607), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Charcoal briquettes, lignite char fireplace logs, lighter fluid, and barbeque grill base material* (except commodities in bulk and commodities requiring special equipment), in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail or by air, from points in the Upper Peninsula of MI to points in KS (except Doniphan, Atchison, Leavenworth, Jefferson, Jackson, Nemaha, and Brown Counties). (Gateway eliminated: Facilities of Husky Briquetting Inc. at Isanti, MN.)

MC 123407 (Sub-E608), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Building materials and materials* used in the installation and application of such commodities (except iron and steel, and commodities in bulk and commodities requiring special equipment) in containers or in trailers having an immediately prior or subsequent movement by water, or by water-rail or by air, from points in NY in, north, and west of Broome, Chenango, Otsego, Schokarie, Albany, and Rensselaer Counties, to points in MS. (Gateway eliminated: facilities of Certain-Teed Products at East St. Louis, IL.)

MC 123407 (Sub-E609), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Plastic pipe and plastic products* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in TX on and west of a line beginning at the International Boundary line between the United States and Mexico, near Del Rio, and extending along U.S. Hwy 277, then along U.S. Hwy 277 to junction U.S. Hwy 83, then along U.S. Hwy 83 to the TX-OK State line, to points in PA. (Gateway eliminated: Hastings, NE.)

MC 123407 (Sub-E610), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Floor tile* (except commodities in bulk, those commodities requiring special equipment), in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in CA (except Modoc, Lassew, Plumas, Shasta, Siskiyou, and Del Norte Counties); points in NV on and south of U.S. Hwy 50; points in AZ, NM, TX, OK, AR, LA, TN, MS, AL, FL, GA, SC, points in NC on, west, and south of U.S. Hwy 421 from Wilmington to NC-TN State line; points in Lee, Scott, Wise, and Dickerson Counties, VA; points in KY in, west, and south of Trimble, Oldham, Shelby, Anderson, Mercer, Boyle, Casey, Pulaski, Laurel, Clay, Leslie, and Harlow Counties: points in IN on, west, and south of IN Hwy 7 from Madison to junction Hwy 65, then along Hwy 65 to junction U.S. Hwy 24, then along U.S. Hwy 24 to the IN-IL State line; points in, south, and east of Lewis, Shelby, Randolph, Howard, Cooper, Pettis, Benton, St. Clair, Cedar, Barton, Jasper, Newton, and McDonald Counties, MO, to points in the Upper Peninsula of MI. (Gateway eliminated: Kankakee, IL.)

MC 123407 (Sub-E611), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Flat glass and building materials* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, between Philadelphia, PA, on the one hand, and, on the other, points in WA, OR, ID, CA, NV, UT, WY, CO, AZ, NM, KS, points in MO on and north of U.S. Hwy 24, points in OK on and west of U.S. Hwy 75; and points in TX on and west of Hwy 35. (Gateway eliminated: Warren, IL.)

MC 123407 (Sub-E612), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Composition board, materials and accessories* used in the installation of composition board, and ceiling tile (except lumber, commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in NM to points in ME, NH, VT, MA, RI, CT, NY, NJ, DE, MD, DC, WV, and VA. (Gateway eliminated: Dubuque, IA.)

MC 123407 (Sub-E613), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Building, roofing and insulating materials, and materials and accessories used in the installation thereof* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from Florence, KY, to points in WA, OR, ID, CA, NV, UT, AZ, NM, CO, WY, KS, points in OK in, north, and west of Love, Carter, Murray, Pontotoc, Hughes, Pittsburg, McIntosh, Muskogee, Cherokee, and Delaware Counties, and points in TX in and west of Cameron,

Willacy, Kenedy, Brooks, Jim Wells, Live Oak, Atascora, Bexar, Comal, Hays, Travis, Williamson, Bell, McLennon, Hill, Ellis, Dallas, Denton, and Grayson Counties. (Gateway eliminated: Keokuk, IA.)

MC 123407 (Sub-E614), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Flat glass and building materials* (except commodities in bulk, and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, between Cleveland, OH, on the one hand, and, on the other, points in WA, OR, ID, CA, NV, UT, WY, CO, AZ, NM, OK, KS, points in TX on and west of U.S. Hwy 75; and points in MO on and north and west of U.S. Hwy 24. (Gateway eliminated: Warren, IL.)

MC 123407 (Sub-E615), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Flat glass and building materials* (except commodities in bulk, and commodities requiring special equipment), in containers or in trailers, having an immediately prior or subsequent movement by water or by water-rail or by air, between Toledo, OH, on the one hand, and, on the other, points in WA, OR, ID, CA, NV, UT, WY, CO, AZ, NM, KS (except Crawford and Cherokee Counties); points in MO on and west of I Hwy 35; points in OK on and west of U.S. Hwy 75. (Gateway eliminated: Warren, IL.)

MC 123407 (Sub-E616), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as above). *Building materials* (except commodities in bulk, lumber, chemicals, and commodities the transportation of which because of their size or weight require the use of special equipment) in containers or in trailers having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in WA, to points in WV, VA, NC, KY, and those points in TN on and east of U.S. Hwy 45. (Gateways eliminated: Warren, IL and Brookfield, IN.)

MC 123407 (Sub-E617), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richrd L. Loftus (same address as above). *Lumber and forest products, pressure treated poles, pressure treated post, and pressure treated lumber* (except wood chips, commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or waterrail, or by air, from points in ID, NV, those points in Rich, Morgan, Salt Lake, Weber, Cache, Box Elder, Tooele, Summit, Wasatch, Utah, Juab, Millard, Beaver, Iron, and Washington Counties, UT, those points in and west of Niobrara, Converse, Natrona, and Sweetwater Counties, WY, to points in IN. (Gateway eliminated: Rapid City, SD.)

MC 123407 (Sub-E618), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Mineral wool, mineral wool products, insulating materials, and insulated air duct* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in KS, to points in MI, NY, PA, VT, NH, ME, MA, RI, NJ, DE, CT, and MD. Restriction: The authority granted herein is restricted to the transportation of shipments originating at the plantsite and warehouse facilities of CSG group of the Certain-Teed Products Corp. located at or near Kansas City, KS. (Gateway eliminated; Beloit, WI.)

MC 123407 (Sub-E619), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Building materials and materials* used in the installation and application of such commodities (except iron and steel, commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water or by water-rail, or by air, from points in MI, NY, VT, NH, ME, MA, CT, RI, NJ, PA, points in IN and OH on and north of U.S. Hwy 30, to points in TN on and west of U.S. Hwy 51. (Gateway eliminated: Facilities of Certain-Teed Products at East St. Louis, IL.)

MC 123407 (Sub-E630), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same as address above). (1) *Wallboard, pulpboard, hardboard, insulation, and insulation materials,* (2) *accessories and materials* used in the installation of the products described in (1) above, and (3) *padding and cushion materials and mulch* (except lumber, commodities in bulk and commodities requiring special equipment), in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in OR and ID, to points in SC, NC, GA, points in TN on and east of Interstate Hwy 65, and points in FL (except Escambia and Santa Rosa Counties). (Gateway eliminated; Cloquet, MN.)

MC 123407 (Sub-E632), filed July 25, 1978. Applicant: SAWYER TRANSPORT INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Windows, doors, building woodwork, and materials and accessories* used in the installation thereof (except commodities in bulk and commodities because of size or commodities requiring special equipment or special handling), in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in OR and UT, to points in MI, IN, OH, PA, NY, VT, NH, ME, MA, CT, RI, NJ, DE, MD, DC, WV, VA, NC, SC, points in TN on and east of Interstate Hwy 65, points in KY on and east of Interstate Hwy 65. (Gateway eliminated: Dubuque, IA.)

MC 123407 (Sub-E645), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Plastic pipe and plastic products* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in WV, MD, and DE to points in CO, WY, and NM (except Estacado, Lea, Eddy, Chaves, Llano, and Roosevelt Counties). Restriction: The authority granted herein is restricted against the transportation of oilfield commodities as described in "Mercer Extension—Oilfield Commodities," 74 MCC 459, and further restricted against the transportation of pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, (d) the injection or removal of commodities into or from holes or wells. (Gateway eliminated: Hastings, NE.)

MC 123407 (Sub-E654), filed July 25, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Hwy 6, Valparaiso, IN 46383. Representative: Richard L. Loftus (same address as above). *Plastic pipe and plastic products* (except commodities in bulk and commodities requiring special equipment) in containers or in trailers, having an immediately prior or subsequent movement by water, or by water-rail, or by air, from points in KY, NC, and SC to points in WY, CO and those points in NM on and north and west of a line beginning at the CO-NM State line, and extending along Interstate Hwy 25, then along Interstate Hwy 25 to Albuquerque, then west along interstate Hwy 40 to the NM-AZ State line. Restriction: The authority granted herein is restricted against the transportation of oilfield commodities as described in "Mercer Extension—Oilfield Commodities," 74 MCC 459, and further restricted against the transportation of pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, (d) the injection or removal of commodities into or from holes or wells from Hastings, NE to points in MT, WY, CO, NM, ND, SD, NE, KS, OK, and TX. (Gateway eliminated: Hastings, NE.)

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

OCTOBER 11, 1978.

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

NOTICE

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g. M1F, M2F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission on or before November 20, 1978. Such protests shall comply with Special Rule 247(e) of the Commission's General Rules of Practice (49 CFR 1100.247)* and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 86690 (M1F) (Notice of Filing of Petition to Modify Permit), filed August 28, 1978. Petitioner: BOND TRANSFER CO., INC., 1615 Cuba Street, Baltimore, MD 21230. Representative: S. Harrison Kahn, Suite 733, Investment Building, 1511 K Street NW., Washington, DC 20005. Petitioner holds motor contract carrier permit in MC 86690, issued March 31, 1972, authorizing transportation over irregular routes, as pertinent, of such *commodities* as are dealt in by wholesale, retail and chain gorcery and food business houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between points and portions of PA, WV, MD, DE, VA, and DC, restricted to transportation performed under individual contracts or agreements, with persons (as defined in section 203(a) of the Interstate Commerce Act) who operate retail stores, the business of which is the selling of food. By the instant petition, petitioner seeks to modify that portion of the restriction which reads "to operate retail stores, the business of which is the selling of food" so that that portion of the restriction shall read "who are engaged in the business of the sale of food."

MC 119090 (M1F) (Notice of Filing of Petition To Modify Territorial Description), filed Jun 23, 1978. Petitioner: THRUWAY FREIGHT LINES, INC., P.O. Box 56, Elmwood Park, NJ 07407. Representative: George Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Petitioner holds a motor *common carrier* certificate in MC 119090 April 18, 1967, but only holds a portion of that authority pursuant to MC-F-11369. MC 119090 presently authorizes transportation, over irregular routes as pertinent, of *general commodities,* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment) between points in Bergen, Passaic, Essex, Hudson, and Union Counties, NJ, on the one hand, and, on the other, Philadelphia, PA, and points in that part of NY on the west bank of the Hudson River, and points east of the Hudson River and south of a line beginning at Glens Falls, NY, and extending east through Porter, NY, to the NY-VT State line (except points in Kings, Queens, Richmond, Bronx, New York, and Nassau and Suffolk Counties, NY). By the instant petition, petitioner seeks to modify that portion of the territorial description which reads "on the west bank" to "on and west of the west bank" of the Hudson River.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 61231 (Sub-111) (Republication), filed November 8, 1977, published in the FEDERAL REGISTER issue of December 29, 1977, and republished this issue. Applicant: ACE LINES, INC., 4143 East 43rd Street, Des Moines, IA 50317. Representative: William L. Fairbank, 1980 Financial Center, Des Moines, IA 50309. A Decision of the Commission, Review Board No. 3, decided September 1, 1978, and served September 26, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier,* by motor vehicle, over irregular routes, in the transportation of *used irrigation systems and parts and accessories* for use with used irrigation systems, between points in AZ, AR, CO, IL, IN, IA, KS, KY, MI, MN, MO, MT, NE, NM, ND, OH, OK, SD, TX, WI, and WY, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the removal of the restriction.

MC 73165 (Sub-421) (republication), filed November 23, 1977, published in the FEDERAL REGISTER issue of January 19, 1978, and republished this issue.

*Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, DC 20423.

V 4 3 / 2 0 3 0 C 1 9 7 8

Applicant: EAGLE MOTOR LINES, INC., 830 North 33d Street, Birmingham, AL 35202. Representative: R. Cameron Rollins (same address as applicant). A Decision of the Commission, by the Initial Decision of Administrative Law Judge Jerry F. Laughlin, served August 2, 1978, becomes effective September 21, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Iron and steel articles*, from Savannah, GA, to points in AL, GA, NC, SC, TN, MS, KY, and VA, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MC 129191 (Sub—No. 8) (republication), filed December 19, 1977, published in the FEDERAL REGISTER issue of February 16, 1978, and republished this issue. Applicant: RICHARD T. PLATTNER, d.b.a. JANS MOTOR SERVICE, 4640 West 120th Street, Alsip, IL 60658. Representative: Albert A. Andrin, 180 North La Salle Street, Chicago, IL 60601. A Decision of the Commission, Review Board No. 1, decided September 15, 1978, and served September 21, 1978, finds that the present and future convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Building and roofing materials, and materials and supplies* used in the distribution or installation of building and roofing materials (except in bulk), from the facilities of the Flintkote Co., at or near Chicago Heights, IL, to points in WI, IA, MO, MI, KY, OH and those points in IN south of Vermillion, Fountain, Montgomery, Boone, Hamilton, Madison, Delaware, and Randolph Counties, IN, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description and to indicate the addition of Vermillion County, IN, as a destination point.

MC 141033 (Sub-4) (partial republication), filed July 29, 1975, published in the FEDERAL REGISTER issue of August 28, 1975, and republished this issue. Applicant: CONTINENTAL CONTRACT CARRIER CORP., 15045 East Salt Lake Avenue, P.O. Box 1257, City of Industry, CA 91749. Representative: Richard A. Peterson, P.O. Box 81849, Lincoln, NE 68501. A Decision of the Commission, Division 2, decided June 28, 1978, and served July 20, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in part (IV)(B) of appendix C, in the transportation of: *Buffing, polishing, cleaning, scouring, and washing compounds, solvents, starch, bleach, lubricating oil, carbon, gum, and sludge removing compounds, disinfectants, softeners, sizing, and janitorial supplies*, (1) from the facilities of Peterson-Puritan, Inc., at Berkeley, RI, Danville, IL, and Santa Fe Springs, CA, to Birmingham, Al, Denver, CO, Jacksonville, FL, Baltimore, MD, Minneapolis, MN, Kansas City, MO, Dallas, TX, Richmond, VA, Seattle, WA, and Milwaukee, WI, and the facilities of Texize Chemicals Division of Morton-Norwich Products, Inc., at Piscataway NJ, Greenville and Mauldin, SC, and Palestine, TX; (2) from the facilities of Peterson-Puritan, Inc., at Berkeley, RI, to Los Angeles and San Francisco, CA, and Chicago, IL, and the facilities of Texize Chemicals Division of Morton-Norwich Products, Inc., at Kankakee, IL; (3) from the facilities of Peterson-Puritan, Inc., at Danville, IL, to Los Angeles and San Francisco, CA, and Saylesville, RI; and (4) from the facilities of Peterson-Puritan, Inc., at Santa Fe Springs, CA, to Chicago, IL, Saylesville, RI, and the facilities of Texize Chemicals Division of Morton-Norwich Products, at Kankakee, IL, restricted in (B) against the transportation of commodities in bulk, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority in part (IV)(B) of appendix C above.

MC 142807 (republication), filed January 4, 1977, published in the FEDERAL REGISTER issue of March 24, 1977, and republished this issue. Applicant: NICHOLAS MARINO AND ANGELINA MARINO, d.b.a. FARRAGUT TRAVEL SERVICE, 1717 Farragut Avenue, Bristol, PA 19007. Representative: Angelina Marino (same address as applicant). A Decision of the Commission, Division 1, decided September 18, 1978, and served September 26, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Passengers and their baggage*, in the same vehicle with passengers, in special operations, in nonscheduled door-to-door service limited to the transportation of not more than 11 passengers in any one vehicle, not including the driver thereof, and not including children under 10 years of age who do not occupy a seat or seats, between Bristol Township and Bristol, PA, on the one hand, and, on the other, Atlantic City, NJ; Newark Airport at Newark, NJ; and John F. Kennedy International Airport, at New York, NY, that applicant is fit, willing, and able properly to perform such services and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity and territorial description.

MC 144178 (Sub-1) (REPUBLICATION), filed January 10, 1978, published in the FEDERAL REGISTER issue of February 24, 1978, and republished this issue. Applicant: CIRCLE CARTAGE CORP., 70 Sherman Avenue, Jersey City, NJ 07307. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. A Decision of the Commission, Review Board No. 3, decided September 1, 1978, and served September 22, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Cellular and expanded plastic sheet*, from Piscataway, NJ, to points in OH, IL, IN, MN, WI, PA, MI, KY, NY, MD, DE, and DC; and (2) *materials, supplies, and equipment* used in the manufacture of cellular and expanded plastic sheet, from points in the above-named destination territory, to Piscataway, NJ, under a continuing contract or contracts with Paramount Industries, Inc., of Piscataway, NJ, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity and territorial description.

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to

seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(e)(3) of the rule of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally, protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, a part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no signifiant effect on the quality of the human environment resulting from approval of its application.

MC 114533 (Sub-371F), filed April 4, 1978. Applicant: BANKERS DISPATCH CORP., 1106 West 35th Street, Chicago, IL 60609. Representative: Frank W. Taylor, Jr., Suite 600, 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Exposed and processed color film and prints, complimentary replacement film, accounting and audit media, business records, commercial papers and documents, microfilm, microfiche, data processing papers, eyeglasses, frames, lenses, advertising literature, graphic art material, human blood, human blood derivatives, human tissue, restorative dentistry products, laboratory specimens used in pathological testing, flowers, florist materials and supplies, fire, safety, and rescue equipment, and aircraft parts and supplies*, between points in KS and MO, on the one hand, and, on the other, points in OK. (Hearing site: Kansas City, MO.)

MC 119493 (Sub-198F), filed April 14, 1978, and previously published in the FEDERAL REGISTER issue of August 10, 1978. Applicant: MONKEM CO., INC., P.O. Box 1196, Joplin, MO 64801. Representative: Lawrence F. Kloeppel, P.O. Box 1196, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *clay products*, from Mounds, IL, to points in AL, AR, GA, IA, IN, KS, KY, LA, FL, MI, MN, MO, MS, NE, NY, NJ, NC, SC, OH, OK, TN, TX, WV, WI, and (2) *Materials and supplies* used in the manufacture, processing and distribution thereof from named destinations, to Mounds, IL. (Hearing site: St. Louis, MO, or Little Rock, AR.)

NOTE.—This republication is to reflect applicant's request for authority.

MC 144582F, filed April 3, 1978, and previously published in the FEDERAL REGISTER issue of August 10, 1978, and September 15, 1978. Applicant: HOH RIVER CEDAR PRODUCTS, INC., P.O. Box 127, Beaver, WA 98305. Representative: Bart Irwin, 112 South Lincoln, Port Angeles, WA 98362. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *Lumber and forest products*, (1) from points in Clallam and Jefferson Counties, WA, to Port Angeles, WA; and (2) from points in Clallam, Jefferson, and Grays Harbor Counties, WA, to Hoquiam, WA. (Hearing site: Port Angeles or Seattle, WA.)

NOTE.—The purpose of this republication is to indicate Port Angeles, WA, as a destination point in part (1) above.

MC 144696 (Sub-3F), filed April 10, 1978, and previously published in the FEDERAL REGISTER issue of July 20, 1978. Applicant: MEEUWSEN PRODUCE, INC., 9525 Ransom Street, Zeeland, MI 49464. Representative: Karl L. Gotting, 1200 Bank of Lansing Building, Lansing, MI 48933. Authority sought as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs and poultry requiring refrigeration*, from the Borculo, MI, plantsite and storage facilities of Bil-Mar Foods, Inc., to points in AL, AZ, CA, FL, GA, IL, IN, IA, KS. KY, MN, MO, NE, NM, NY, NC, OH, OK, PA, SC, TN, TX, WV, and WI, with the right of return of damaged or rejected merchandise; and (2) *materials and supplies* of Bil-Mar Foods, Inc., from points in AL, AZ, CA, FL, GA, IL, IN, IA, KS, KY, MN, MO, NE, NM, NY, NC, OH, OK, PA, SC, TN, TX, WV, and WI, to the plant site and storage facilities of Bil-Mar Foods, Inc., at Borculo, MI, restricted to transportation performed under a continuing contract or contracts with Bil-Mar Foods, Inc., of Borculo, MI. (Hearing site: Grand Rapids or Lansing, MI.)

NOTE.—This republication is to indicate applicant's name change from Meeuwsen Produce & Grain, Inc., to Meeuwsen Produce, Inc., and the docket number as MC 144696 (Sub-3F), in lieu of MC 143664 (Sub-2F).

MC 144760 F, filed May 15, 1978, published in the FEDERAL REGISTER issue of July 13 and August 31, 1978 and republished, as corrected this issue. Applicant: HITTMAN TRANSPORT SERVICES, INC., 2700 Keslinger Road, Geneva, IL 60134. Representative: Anthony C. Vance, 1307 Dolley Madison Boulevard, McLean, VA 22101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Radioactive waste*, in shipper-owned containers permanently mounted on shipper-owned trailers, from the Zion Nuclear Plant, at Zion, IL; Dresden Nuclear Station, at Morris, IL; Quad Cities Nuclear Station, at Cordova, IL; Duane-Arnold Energy Center, at Palo, IA; and Donald C. Cook Nuclear Station, at Bridgman, MI, to Barnwell, SC; Beatty, NV; and Richland, WA; and (2) *radioactive shipping containers*, from Barnwell, SC, to the origin points named in (1) above, under a continuing contract with Hittman Nuclear and Development Corp., of Columbia, MD.(Hearing site: Washington, DC, or Chicago, IL.)

NOTE.—This republication is to correctly state authority.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and one copy of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commis-

sion's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest

transportation of camping trailers and travel trailers (otherwise authorized), from the facilities of Airstream, Inc., no transportation for compensation on return except as otherwise authorized. KSS Transportation Corp., MC Salmanson & Co., of New York, NY. (2) *New furniture*, except upholstered furniture, as described in appendix II

V 43 / 203 0 1978 C

sion's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MC-F-13695F. Authority sought for purchase by WILLIAM B. MEYER, INC., 60 Long Beach Boulevard, Stratford, CT, 06497, of the operating rights of BOLLIGER, INC., d.b.a. SABINI'S MOVING & STORAGE CO., Stamford, CT, 06902, and for acquisition by LLOYD H. MEYER, 156 Hilltop Circle, Nichols, CT, 06661, of control of such rights through the transaction. Attorney: Sidney L. Goldstein, 109 Church Street, New Haven CT, 06510. Operating rights sought to be purchased: *Household goods as defined by the Commission* as a *common carrier* over irregular routes between Stamford CT and points within 15 miles thereof, on the one hand, and, on the other, points in MA, NJ, NY, PA and RI. Vendee is authorized to operate as a *common carrier* in CT, NH, VT, MA, RI, NY, NJ, PA, DE, MD, OH, DC and VA. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC 108194 (Sub-14F) is a directly related matter.

MC-F-13738F. Authority sought for purchase by FOX & GINN, INC., 207 Perry Road, Bangor, ME 04401, of the operating rights of HARTFORD DESPATCH & WAREHOUSE CO., INC., 225 Prospect Street, East Hartford, CT 06108, and for acquisition by David W. Fox, 207 Perry Road, Bangor, ME 04401, Shirley E. Ginn, 207 Perry Road, Bangor, ME 04401 and Robert E. Ginn, 80 Concord Street, North Reading, MA 01864, of control of such rights through the purchase. Attorneys: Kenneth B. Williams, 84 State Street, Boston, MA 02109 (For Transferee) *and* Francis P. Barrett, 60 Adams Street, Milton, MA 02187 (For Transferor). Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Boston, MA and Bridgeport, CT serving all intermediate points and off-route points within 30 miles of Boston, Springfield and Worcester, MA and Bridgeport, Hartford and New Haven, CT; between Boston, MA and Hartford, CT, serving all intermediate points and off-route points within 30 miles of Boston, Springfield and Worcester, MA, and Bridgeport, Hartford and New Haven, CT. Irregular routes: *General commodities*, with exceptions, between points in CT and MA on the one hand, and, on the other, points in MA, NJ, NY, PA and RI. Between points within 30 miles of Boston, Springfield, and Worcester, MA, and Bridgeport, Hartford, and New Haven, CT, including the points named, on the one hand, and, on the other, Bennington and Brattleboro, VT, Albany, Kingston, Middleton, Newburgh, Peekskill, Poughkeepsie, Schenectady, Troy, West Point and New York, NY, Jersey City and Newark, NJ, and points in Putnam and Westchester Counties, NY. Transferee is authorized to operate as a *common carrier* in ME, NH and MA. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC 28536 (Sub-17F) is a directly related matter.

MC-F-13739F. Authority sought for control by SEIGLE'S EXPRESS, INC., Foot of Pennsylvania Avenue, South Kearney, NJ 07032 of RILEY'S MOTOR EXPRESS, INC., Foot of Pennsylvania Avenue, South Kearney, NJ 07032 and merger of the two carriers and for acquisition by Richard Riley of control through the transaction. Attorney, William W. Becker, Suite 950, 1819 H Street NW., Washington, DC 20006. Operating rights sought to be transferred: *General commodities* (except those of unusual value, classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment, and antique automobiles and used classic cars in secondary movements in truckaway service) between points in Suffolk County, NY, on the one hand, and, on the other, points in Nassau County, NY, points in the New York, NY Commercial Zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone) those points in NJ and all of any NJ municipality any part of which is within 5 miles of New York, NY, and points in Passaic, Bergen, Hudson, Essex, Union, Morris, and Somerset Counties, NJ; and Business records and printed matter between Clinton, NJ and points in Suffolk County, NY. Vendee is authorized to operate as a *common carrier* in the States of NY, NJ, and CT. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC 54200 (Sub-7F) is a directly related matter.

MC-F-13741F. Authority sought for purchase by THRASHER TRUCKING CO., P.O. Box 116, Monahans, TX 79756, of a portion of the operating rights of J. J. Willis Trucking Co., P.O. Box 5328, Dallas, TX 75222, and for acquisition of control of such rights by J. W. Thrasher, Sr., P.O. Box 116, Monahans, TX 79756, through the purchase. Attorneys: Mike Cotten, P.O. Box 1148, Austin, TX 78767 (vendee), and James W. Hightower, 136 Wynnewood Professional Building, Dallas, TX 75224 (vendor). Operating rights sought to be transferred: Oilfield commodities as described in Mercer-Ext., Oilfield Commodities, 74 MCC 459, as a *common carrier*, over irregular routes, from, to, and/or betwen points in TX, LA, AR, OK, KS, NM, CO, and WY; *earth drilling commodities*, over irregular routes, from, to, and/or betwen points in TX, LA, OK, KS, and NM; commodities, which, because of size or weight, require the use of special equipment, over irregular routes, from, to, and/or between points in TX, NM, OK, and CO; *self-propelled articles*, each weighing 15,000 pounds or more, over irregular routes, from, to, and/or between points in TX and NM; *iron and steel articles*, over irregular routes, from Corpus Christi, Galveston, and Houston, TX, to points in NM and TX and from the facilities of C.F. & I. Steel Corp. at or near Pueblo, CO, to points in OK and TX. Vendee is authorized to operate as a common carrier in AZ, NM, TX, OK, KS, and Kansas City, MO. Application has not been filed for temporary authority under section 210a(b).

NOTE.—This application is directly related to a finance proceeding docketed MC-F-13558.

MC-F-13746F. Authority sought to reacquire control by BEATRICE FOODS CO., 120 South LaSalle Street, Chicage, IL 60603, of Haul-Away, Inc. of 419 West Pike Street, Jackson Center, OH 45334; James J. Gallery, Inc. of 555 Pleasant Street, Watertown, MA 02172; and KSS Transportation Corp. of P.O. Box 3052, North Brunswick, NJ 08902, through the transfer of stock from a voting trust. Attorney: Daniel C. Sullivan, 10 South LaSalle Street Chicago, IL 60603. Operating rights to be controlled: Haul-Away, Inc., MC 129049: (1) *Travel trailers* and *camping trailers*, in initial movements, in truckaway service, from Cerritos, CA, to points in AZ, CO, ID, KS, MO, MT, NB, NV, NM, OK, OR, SD, TX, UT, WA, and WY; and from Jackson Center (Shelby County), OH, to points in the United States, including AK, but excluding HI; and *travel trailers* and *camping trailers*, in secondary movements, in truckaway service, from the respective destination points described herein to their respective origin specified herein. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Airstream, Inc. (2) *Accessories, equipment, materials, parts, and supplies* used in, by, or incidental to camping trailers and travel trailers, when moving in conjunction with the transportation of camping trailers and travel trailers (otherwise authorized), from the facilities of Airstream, Inc., at Cerritos, CA, to points in AZ, CO, ID, KS, MO, MT, NB, NV, NM, OK, OR, SD, TX, UT, WA, and WY, with no transportation for compensation on return except as otherwise authorized. From the facilities of Airstream, Inc., at Jackson Center, Shelby County, OH, to points in the United States (including AK but excluding HI), with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Airstream, Inc., Division of Beatrice Foods, Inc., of Sidney, OH. (3) *Travel trailers and camping trailers*, in initial movements, in truckaway service, and *accessories, equipment, materials, parts, and supplies* incidental to camping trailers and travel trailers, in mixed loads with camping trailers and travel trailers, from Versailles, OH, to points in the United States (including AK but excluding HI); and *travel trailers and camping trailers*, in secondary movements, in truckaway service, from points in the United States (including AK and excluding HI), to Versailles, OH. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Airstream, Division of Beatrice Foods Co., of Sidney, OH. James J. Gallery, Inc., MC 112694: (1) *Frozen foods*, and *foodstuffs*, moving under refrigeration, not included in frozens foods, between Boston, MA, on the one hand, and, on the other, Springfield, MA; Providence, RI; Portland, ME; Hampton and Manchester, NH; points on Cape Cod, and points in NH and MA within the territory bounded by a line beginning at Boston, MA, and extending along the Atlantic coast to Hampton Beach, NH, then in a westerly direction through Hampton, NH, to Manchester, NH, then in a southwesterly direction through New Boston and Petersboro, NH, to East Jeffrey, NH, then south through Winchendon, MA, to East Templeton, MA, then in a southeasterly direction to East Princeton, MA, then south through Holden, Worcester, Auburn, North Oxford, and Oxford, MA, to Webster, MA, then east through Douglas, MA, to Mansfield, MA, then in a southeasterly direction through Stoughton, MA, to New Bedford, MA, and then along the Atlantic coast to Boston, MA, including the points named. (2) *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from Watertown, MA, to Portsmouth, Dover, Rochester, Somersworth, and Keene, NH; York, North Berwick, Wells, Sanford, Biddeford, Saco, and Westbrook, ME, with no transportation for compensation on return except as otherwise authorized. KSS Transportation Corp., MC 135873: (1) *Envelopes, advertising materials, circulars, paper bags, rolled paper stock* for printing, newsprint, periodical inserts, and business forms, from Metuchen and North Brunswick, NJ, to points in the United States (except AK and HI), under a continuing contract or contracts with Webcraft Packing, Inc.; Filmcraft Packaging, Inc.; and Publication Insert Corp. (2) (a) *Inks and adhesives* (except commodities in bulk), from Linden and Newark, NJ, to points in the United States (except AK and HI), (b) *equipment, materials, and supplies* used in the manufacture and sale of envelopes, advertising materials, circulars, paper bags, rolled paper stock, newsprints, periodical inserts, business forms, inks and adhesives (except commodities in bulk), from points in the United States (except AK and HI), to Metuchen, New Brunswick, Newark, and Linden, NJ, under continuing contract with Beatrice Foods Co. (3) To transport such commodities as are dealt in by manufactures or distributors of printed matter, paper, and paper products (except commodities in bulk), between Metuchen, North Brunswick, Newark, and Linden, NJ, on the one hand, and, on the other, points in the United States (except AK and HI), under a continuing contract or contracts with Beatrice Foods Co., of Chicago, IL. Common control of these carriers was previously authorized in MC-F-12588. The reacquisition of control will result in common control of other motor carriers. Beatrice Foods Co. is a noncarrier in control of Tropicana Transportation Corp. and Solar Rest, Inc. Tropicana Transportation Corp. is a contract carrier conducting operations in CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, DC, AZ, CA, and the States between AZ and FL as States of traversal. The application also seeks approval to continue in control of Solar Rest, Inc. and to substitute Solar Rest, Inc. (new), a successor to Solar Rest, Inc. (old). Solar Rest, Inc. is a contract carrier under the following authority: (1) *New furniture*, except upholstered furniture, as described in appendix II to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209, crated, uncrated, or otherwise packaged or unpackaged, from Union City, PA, to points in AL, AR, CT, DE, GA, IL, IN, IA, KY, ME, MD, MA, MI, MN, MS, MO, NH, NJ, NY, NC, OH, PA, RI, SC, TN, VT, VA, WV, WI, and DC with no transportation for compensation on return except as otherwise authorized. Restriction: The service authorized above is limited to a transportation service to be performed under a continuing contract, or contracts, with Salmanson & Co., of New York, NY. (2) *New furniture*, except upholstered furniture, as described in appendix II to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209, uncrated, crated, or otherwise packaged or unpackaged, from Trenton, NJ, to points in CT, DE, MD, MA, NJ, NY, NC, PA, RI, VA, and DC, with no transportation for compensation on return except as otherwise authorized.

MC-F-13751F. Authority sought for purchase by EYRE'S BUS SERVICE, INC., 15910 Union Chapel Road, Woodbine, MD, of a portion of the operating rights of Safeway Trails, Inc., 1200 Eye Street NW, Washington, DC 20005. Attorney: Bruce E. Mitchell, Esq., Serby & Mitchell, P.C. Fifth Floor, Lenox Towers South, 3390 Peachtree Road, Atlanta, GA 30326. Operating rights sought to be purchased: *Passengers and their baggage, and express mail and newspapers, in the same vehicle with passengers, as a common carrier, over regular routes*, (a) between junction U.S. Hwy 29 and MD Hwy 198 at Burtonsville, MD, and Baltimore, MD, serving all intermediate points; (b) between junction U.S. Hwy 29 and MD Hwy 196 at or near Stewart Lane, Montgomery County, MD, and junction U.S. Hwy 29 and MD Hwy 198 at or near Burtonsville, MD, serving all intermediate points; (c) between junction U.S. Hwy 29 and Maryland Hwy 650 and junctions U.S. Hwy 29 and Interstate Hwy 495; (d) between Washington, DC, and Burtonsville, MD, serving all intermediate points, with restrictions. Vendee is authorized to operate pursuant to certificate MC 116212 and permit MC 134929 in the States of MD and WV. Application has been filed for temporary authority under section 210a(b). (Hearing site: Washington, DC.)

NOTE.—MC 116212 (Sub-11f) is a directly related matter.

MC-F-13754F. Applicant: UNIVERSAL CARTAGE, INC., 640 West Ireland Road, South Bend, IN. Representative: Donald W. Smith, P.O. Box 40659, Indianapolis, IN 46240. Authority sought for purchase by Universal Cartage, Inc., 640 West Ireland Road, South Bend, IN, of the operating rights of Overland Freight Lines, Inc., Six Points Road, Indianapolis, IN. Operating rights sought to be purchased in MC 76629 and subs thereto, involving the transportation of: (a) *Paper and paper products* between Lafayette, IN, and points in OH serving the intermediate point of Indianapolis, IN; from Lafayette over U.S. Hwy 52 to Indianapolis, IN, then over U.S. Hwy 40 to the IN-OH State line, and then over irregular routes to points in that part of OH south and west of a line beginning at the OH-IN State line and extending along U.S. 40 to junc-

tion OH Hwy 440 (formerly portion of U.S. Hwy 40), then along OH Hwy 440 to Springfield, OH, then along U.S. Hwy 68 to the Ohio River, including

cial equipment and commodities in bulk), from points in the destination States named in (1) above, to the plantsite of Inland Container Corp. at

site and storage facilities of Occidental Chemical Co., at Lathrop, CA. Transferee holds authorities to operate as a common carrier between CA and AZ,

filed for temporary authority under section 210a(b).

NOTE.—MC 59206 (Sub-23F), is a directly

tween the facilities of Ocean Spray Cranberries, Inc., in the Borough of Bordentown, NJ, and the facilities of

of Interstate Hwy 90, then over Interstate Hwy 90 to U.S. Hwy 83, then over U.S. Hwy 83 to junction U.S. Hwy

V 43 / 203 0C 1978

tion OH Hwy 440 (formerly portion of U.S. Hwy 40), then along OH Hwy 440 to Springfield, OH, then along U.S. Hwy 68 to the Ohio River, including points in OH on the indicated portions of the highways specified, and return over irregular routes to the OH-IN State line, and then over the specified route to Lafayette; between Crawfordsville, IN, and points in OH, serving the intermediate point of Indianapolis, IN; from Crawfordsville over U.S. Hwy 136 to Indianapolis, IN, then over U.S. Hwy 40 to the IN-OH State line, and then over irregular routes to points in that part of OH south and west of a line beginning at the OH-IN State line, and extending along U.S. Hwy 40 to junction OH Hwy 440 (formerly portion of U.S. Hwy 40), then along OH Hwy 440 to Springfield, OH, then along U.S. Hwy 68 to the Ohio River, including points in OH on the indicated portions of the highways specified, and return over irregular routes to the OH-IN State line, and then over the specified route to Crawfordsville. Knocked down paper cartons and parts thereof from Indianapolis, IN, to points in OH, that part of MI on and south of MI Hwy 21, that part of IL on and north of U.S. Hwy 50, and Louisville, Covington, Owensboro, and Maysville, KY; and rejected or damaged shipments of the above-described commodities from points in OH, that part of MI on and south of MI Hwy 21, that part of IL on and north of U.S. Hwy 50 and Louisville, Covington, Owensboro, and Maysville, KY, to Indianapolis, IN. Knocked down paper cartons, in straight or mixed truckloads of 15,000 pounds or more, from Indianapolis, IN, to points in that part of IL south of U.S. Hwy 50; and rejected shipments of the commodity described next above, from points in that part of IL south of U.S. Hwy 50 to Indianapolis, IN; (b) *corrugated boxes and corrugated paper,* from the plantsite of the Weston Paper & Manufacturing Co., located at or near Fort Wayne, IN, to points in KY (except Louisville and points in its commercial zone as defined by the Commission); IL (except Chicago and points in its commercial zone as defined by the Commission); points in that part of OH on and east of U.S. Hwy 23 (except Columbus, Cleveland, Toledo, Akron, Canton, Mansfield, and Springfield). (c) *Paper and paper products and commodities* produced or distributed by manufacturers and converters of paper and paper products, from the plantsite of Inland Container Corp. located at Crawfordsville, IN, to points in IL, KY, MI, MO, and OH; and materials and supplies used in the manufacture and distribution of the commodities described in (1) above (except commodities which because of size or weight require the use of special equipment and commodities in bulk), from points in the destination States named in (1) above, to the plantsite of Inland Container Corp. at Crawfordsville, IN, restricted to the transportation of traffic originating at points in the destination States named in (1) above, and destined to the plantsite of Inland Container Corp. located at Crawfordsville, IN. (d) *Paper and paper products* between the facilities of Inland Container Corp. located at or near Cayuga, IN, on the one hand, and, on the other, points in IL, KY, MO, and OH, restricted to the transportation of traffic originating at or destined to Cayuga, IN. (e) *Metal beverage containers* from AC Leasing Warehouse at Sharonville, OH, and the facilities of the National Can Corp. at Obetz, OH, to the facilities of C. Helleman Brewing Co., of Indiana, Inc. at Evansville, IN, with no transportation for compensation on return except as otherwise authorized. (f) *Paper and paper products* (1) from the facilities of the Weston Paper & Manufacturing Co., at Terre Haute, IN, to points in KY; (2) from the facilities of the Weston Paper & Manufacturing Co. at Lexington, KY, to points in IN; (3) from the facilities of Inland Container Corp. at Evansville, IN, to points in KY; and (4) from the facilities of Inland Container Corp. at Louisville, KY, to points in IN restricted to traffic originating at the named origins and destined to points in the named destination States. (g) *Waste paper* for reuse or recycling, between points in IN, on the one hand, and, on the other, points in IL, KY, MI, MO, and OH. Transferee is authorized to operate in the States of IN, IL, KY, MI, and OH. Transferee's commonly controlled companies, C & C Cartage, Inc. and Whiteford Transport, Inc. are authorized to operate in all States except AK, HI, WA, OR, CA, NV, ID, MT, WY, UT, AZ, and NM.

MC-F-13758F. Authority sought for purchase by CARDINAL FREIGHTWAYS LTD., 811 South 59th Avenue, Phoenix, AZ 85043, of the operating rights of M. Nolden, trustee in bankruptcy of Osborne Highway Express. Attorney: Miles L. Kavaller, 315 South Beverly Drive, Suite 315, Beverly Hills, CA 90212. Representative: David P. Christianson of Knapp, Stevens, Grossman & Marsh, 707 Wilshire Boulevard, Suite 1800, Los Angeles, CA 90017. Operating rights sought to be purchased: *Agricultural chemicals and fertilizers* (except in bulk), as a *common carrier,* over irregular routes, from the plantsite and storage facilities of Occidental Chemical Co., at Lathrop, CA, to points in AZ; and *Chemicals and supplies* used in the manufacture and sale of agricultural chemicals and fertilizers (except in bulk), from points in AZ, to the plantsite and storage facilities of Occidental Chemical Co., at Lathrop, CA. Transferee holds authorities to operate as a common carrier between CA and AZ. Application has not been filed for temporary authority under section 210a(b).

MC-F-13759F. Authority sought for purchase by HOLLAND MOTOR EXPRESS, INC., 750 East 40th Street, Holland, MI 49423, of a portion of the operating rights and property of National Transit Corp., 4401 Stecker, P.O. Box 610, Dearborn, MI 48121, and for acquisition by Charles Cooper, Robert Cooper, and Gerald Cooper, all also of 450 East 40th Street, Holland, MI 49423, of control of such rights and property through the purchase. Attorney: Daniel C. Sullivan, Esq., 10 South LaSalle Street, Suite 1600, Chicago, IL 60603. Attorney: Charles F. Rodgers, Esq., Bowes, Millner, Rodgers, Liberstein & Werner, 167 Fairfield Road, P.O. Box 1409, Fairfield, NJ 07006. Transferor operates as a *common carrier,* over regular and irregular routes, in the transportation of: *General commodities and other specified commodities,* between points in IN, MI, and OH, pursuant to certificates contained in MC 6945 and sub numbers thereto. The operating rights sought to be transferred in this instance authorize the transportation of *general commodities,* with, exceptions, over regular routes between Cincinnati, Columbus, and Toledo, OH; Indianapolis, IN, and Detroit, MI, with service at numerous intermediate points. Also involved are rights authorizing the transportation of *general commodities,* with exceptions, over irregular routes, between Thomas, Hopewell, Madison, Walnut, and Richland Townships; Perry and Fairfield Counties, and Columbus and Alexandria, OH, on the one hand, and, on the other, points in OH on and south of U.S. Hwy 30 (except Bucyrus and Canton, OH). The foregoing summary is offered as sufficient public notice of the nature and scope of the operating rights being transferred. It is not intended to be and should not be deemed a complete description of said operating rights. Transferee operates as a common carrier over regular and irregular routes in the transportation of general commodities, with exceptions, and specified commodities, between points on IL, IN, IA, KY, MI, and OH, pursuant to authority contained in Docket No. MC 59206 and sub numbers thereto. Approval of this application will not result in dual operations or duplicating authority. Approval may result in a split of a route between Wapakoneta, OH, and Indianapolis, IN, and will result in a split of a route between Bay City and Detroit, MI, at Pontiac, MI, with transferor retaining the portion between Pontiac and Bay City. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC 59206 (Sub-23F), is a directly related matter.

MC-F-13764F. Authority sought for purchase by GENERAL CARTAGE CO., INC., West Route 30, Rock Falls, IL 61071, of the operating rights and property of Motor Freight Service, Inc., P.O. Box 742, Moline, IL 61265, and for acquisition by Charles D. Hoover, also of West Route 30, Rock Falls, IL 61071, of control of such rights and property through the purchase. Attorney: Bernard J. Kompare, Esq., 10 South LaSalle Street, Chicago, IL 60603. Operating rights sought to be purchased: (1) *Agricultural implements and parts, machinery and parts, advertising matter, and implement dealer supplies,* as a *common carrier* over irregular routes, between Rock Falls, East Moline, Rock Island, and Canton, IL, on the one hand, and, on the other, Davenport and Bettendorf, IA. (2)(a) *Wheels, rims, hubs, and spindles,* as a *common carrier* over irregular routes, from Walcott, IA, to Rock Falls, East Moline, Rock Island, and Canton, IL; and (b) *materials and supplies,* used in the manufacture and distribution of the commodities in (a) above, from Rock Falls, East Moline, Rock Island, and Canton, IL, to Walcott, IA; restricted in (a) and (b) above to the transportation of traffic originating at or destined to the facilities of French & Hecht Division, Kelsey Hayes Co., at or near Walcott, IA. Transferee is authorized to operate as a contract carrier in IL, IN, IA, KS, KY, MI, MN, MO, NB, ND, OH, SD, and WI. Approval of this application will not result in duplicating authority. Approval will result in dual operations. Application has been filed for temporary authority under section 210a(b).

MC-F-13765F. Authority sought for purchase by STOKLEY TRANSPORTATION CORP., P.O. Box 159, Glassboro, NJ 08028, of a portion of the operating rights of Fleetwood Transportation Corp., P.O. Box 155, Dunmore, PA 18512, and for acquisition by John N. Stokley, Jr. and William H. Stokley, also of P.O. Box 159, Glassboro, NJ 08028, of control of such rights through the purchase. Attorney: Michael R. Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006. Operating rights sought to be purchased: Such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses (except commodities in bulk), as a contract carrier over irregular routes from Fleetwood, PA, to points in PA, NY, NJ, MD, DE, and DC; from Fleetwood, PA, to points in VA and WV, from points in PA, NY, NJ, MD, DE, VA, WV, and DC to Fleetwood, PA; between the facilities of Ocean Spray Cranberries, Inc., in the Borough of Bordentown, NJ, and the facilities of Agfoods, Inc., in the Township of Florence, NJ, on the one hand, and, on the other, points in CT, DE, MD, MA, NJ, NY, PA, RI, VA, WV, and DC. Said operations are restricted against the transportation of glass from points in that part of PA on and west of U.S. Hwy 219 to Bordentown, NJ. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Agfoods, Inc. Common control and dual operations may be involved. Stokley Transportation Corp. holds no authority from this Commission. However, applicant's principals are the sole officers, directors and stockholders of Marsh Express, Inc., a common carrier authorized to operate in the States of PA and NJ. Application has been filed for temporary authority under section 210a(b).

MC-F-13766F. Authority sought to purchase by TFS, Inc., Box 126, Rural Route 2, Grand Island, NE 68801, of a portion of the operating rights of Payne Motor Lines, Inc., P.O. Box 1937, Elko, NV 89801, and for acquisition by Robert Wenzl, Box 126, Rural Route 2, Grand Island, NE 68801, of control of such rights through the transaction. Attorneys: Gailyn L. Larsen, P.O. Box 81849, Lincoln, NE 68501, and Scott E. Daniel, P.O. Box 82028, Lincoln, NE 68501. Operating rights, as a *common carrier,* over irregular routes, sought to be transferred: (1) *Frozen inedible meat,* from Salt Lake City and Odgen, UT, and Boise, Idaho Falls, and Twin Falls, ID, to points in CA, OR, WA, CO, KS, MO, NE, IA, AZ, WI, MI, IL, OH, and IN; (2) *Animal and poultry feed* (except liquid), from Ogden, UT, to points in CA, OR, WA, CO, KS, MO, NE, IA, AZ, MN, WI, ND, SD, MI, IL, OH, and IN; and (3) *Animal and poultry feed and frozed inedible meat* (except liquid commodities and commodities in bulk, in tank or hopper-tye vehicles), (a) from points in CA south of San Mateo, Santa Clara, Merced, Madera, and Mono Counties (except points in San Bernardino, Riverside, Imperial, and San Diego Counties), to points in CO on, north and east of a line beginning at the KS-CO State line extending along Interstate Hwy 70 to junction U.S. Hwy 24, then along U.S. Hwy 24 to Colorado Springs, CO, then along Interstate Hwy 25 to junction CO Hwy 14, then along CO Hwy 14 to U.S. Hwy 287 to the CO-WY State line; (b) from Seattle, WA, to points in NE and those points in SD located on and east and south of U.S. Hwy 14 beginning at the MN-SD State line to junction of U.S. Hwy 83 near Pierre, then over U.S. Hwy 83 to the junction of Interstate Hwy 90, then over Interstate Hwy 90 to U.S. Hwy 83, then over U.S. Hwy 83 to junction U.S. Hwy 18, then over U.S. Hwy 18 to U.S. Hwy 83, then over U.S. Hwy 83 to the NE-SD State line; (c) from Seattle, WA, to points in CO, KS, MO, IA, AZ, MI, IL, OH, and IN; (d) from points in CA north of San Benito, Fresno, Monterey, and Inyo Counties to points in CO; (e) from Seattle, WA, to points in MN on, south and east of a line beginning at the WI-MN State line extending along U.S. Hwy 61 to junction MN Hwy 60, then along MN Hwy 60 to the MN-IA State line, and to points in MI (except the Upper Peninsula) and points in WI on and south of U.S. Hwy 10; (f) from Kansas City and St. Joseph, MO, to points in CA, WA, and OR; (g) from Denver, CO, to points in CA on and north extending along U.S. Hwy 66 to San Bernardino, then along CA Hwy 91 to junction CA Hwy 55, then along CA Hwy 55 to Newport Beach, CA, and points in WA and OR; (h) from points in CA located on and south of CA Hwy 126, beginning at Ventura, CA, to the intersection of Interstate Hwy 5, then over Interstate Hwy 5 to junction CA Hwy 15, then along CA Hwy 15 to Palmdale, then east over unnumbered Hwy to Interstate Hwy 15, then over Interstate Hwy 15 to the NV-CA State line to those points in WA located on and east of U.S. Hwy 395 (except Franklin County, WA); (i) from points in CA to points in OH, IN, IL, MI, SD, ND, WI, MN, IA, and NE; and (j) from points in CA on and north of a line extending along U.S. Hwy 66 to San Bernardino, then along CA Hwy 91 to junction CA Hwy 55, then along CA Hwy 55 to Newport Beach to points in MO (except McDonald, Barry, Stone, and Taney Counties), and points in KS (except Stanton, Morton, Grant, Stevens, Haskell, Ford, Meade, Clark, Comanche, Barber, Harper, Sumner, Kiowa, Pratt, Kingman, Cowley, Sedgwick, Chataqua, and Elk Counties). TFS, Inc., holds authority as a contract carrier conducting operations between various points in the United States for the account of Oxford Cheese Corp., Ag Service, Inc., Morgen Manufacturing Co., Bonsail Pool Co., and Endicott Clay Products Co. Application has been filed for temporary authority under section 210a(b).

MC-F-13767F. Authority sought for purchase by ELLIOTT TRUCK LINE, INC., P.O. Box 1, Vinita, OK 74301, of a portion of the operating rights of Farris Truck Line, a corporation, P.O. Box 224, Faucett, MO 64448, and for acquisition by Vincent Elliott, P.O. Box 1, Vinita, OK 74301, of control of such rights, through the transaction. Applicants' attorney: Tom B. Kretsinger, Kretsinger & Kretsinger, 20 East Franklin, Liberty, MO 64068. Op-

erating rights sought to be transferred: *Dry fertilizer and dry fertilizer materials, in bulk or in bags, and pesticides and herbicides in containers and supplies* in the opposite direction. Approval of the transaction will result in splitting of vendor's operating authority. Permit MC-109501 under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under sec-

NOTE.—The purpose of this application is to convert irregular route authority to regular route authority and is directly related to a finance proceeding docketed MC-F-13681

Passaic, Bergen, Hudson, Essex, Union, Morris and Somerset Counties, NJ; and (2) *Business records* and *printed matter* between Clinton, NJ,

nati, and return over the same route. (Hearing site: Chicago, IL.)

NOTE.—This application is directly related

erating rights sought to be transferred: *Dry fertilizer and dry fertilizer materials, in bulk or in bags, and pesticides and herbicides in containers* from the plant site of W. R. Grace & Co., at or near Atlas, MO, to points in IL (except points in the St. Louis, MO-East St. Louis, IL Commercial Zone as defined by the Commission), KY, TN, and TX (except points in Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, and Waller Counties), with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with W. R. Grace & Co. The authority granted herein to the extent that it duplicates any authority heretofore granted to or now held by carrier shall not be construed as conferring more than one operating right; and Dry urea, from the facilities of Atlas Chemical Industries at or near Atlas, MO to points in AR, CO, IL, IA, KS, NE, and OK, with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with W. R. Grace & Co. Vendee is authorized to operate as a *common carrier* in the States of MO, OK, KS, AR, TX, LA, TN, MS, NE, IL, IA, CO, MN, SD, WI, GA, NM, and IN. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-59117 (Sub-60F) is a directly related matter.

No. MC-F-13768F. Authority sought for purchase by FASTWAY TRANSPORTATION, INC., 151D Morristown Road, Matawan, NJ 07747, of a portion of the operating rights of Calhoun Trucking Corp., 319 Jacet Road, Kearny, NJ 07032, and for acquisition by Edmund E. Hunt, also of Matawan, NJ, of control of the right through the purchase. Applicant's attorney: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, NY 10048. Operating rights sought to be purchased: As a *contract carrier* by motor vehicle, over irregular routes, *iron and steel mill products and aluminum products*, from Lyndhurst, NJ, to points in CT, NY and PA; *air conditioner sub assemblies and parts* from Newark, NJ, to Maspeth, NY; *boilers, radiators, furnaces, and air-conditioning units and parts* between Newark and Garwood, NJ, on the one hand, and, on the other, points in CT, NY and PA; *household appliances, furnaces, air cleaners, conditioners, waters, humidifiers, dehumidifiers*, from Edison, NJ, to points in CT, NY, PA, RI, MA, MD, DE, VA, DC, NC, SC, GA, FL, AL, TN, KY, and MI and *materials and supplies* in the opposite direction. Approval of the transaction will result in splitting of vendor's operating authority. Permit MC-109501 (Sub-13) to be purchased by Louis J. Kennedy Trucking Co. and section 5 application previously filed. No duplicating authority. Dual operations involved as vendee holds common carrier authority in MC-36918 in NY and NY. Application has been filed for temporary authority under section 210a(b).

MC-F-13769F. Authority sought by CONSOLIDATED FREIGHTWAYS CORP. OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 94025, to purchase a portion of the operating rights of Sundance Freight Lines, Inc., 821 E. Pasadena Avenue, Phoenix, AZ 85011, and for acquisition by Consolidated Freightways, Inc., 601 California Street, San Francisco, CA 94108, of control of such rights through purchase. Vendee's attorney: Eugene T. Lilpfert, Suite 1000, 1660 L Street NW., Washington, D.C. 20036; Vendor's attorney: William S. Richards, 48 Post Office Place, P.O. Box 2465, Salt Lake City, UT 84110. Operating rights to be purchased: *General commodities* with the usual exceptions, over regular routes (1) between Deming, NM and Rodeo, NM, over U.S. Hwy 80, serving all intermediate points; (2) between El Paso, TX and Deming, NM, over U.S. Hwy 80, serving the intermediate points of Aleka and Cambray, NM, and the off-route points of the Corrilitos Ranch, The Johnson Ranch, The Jernigan Ranch, The Birchfield Ranch and Wemple, NM; (3) between San Antonio, TX and El Paso, TX over U.S. Hwy 87 to Comfort, TX, thence over TX Hwy 27 to junction U.S. Hwy 290, thence U.S. Hwy 290 to junction U.S. Hwy 80, thence U.S. Hwy 80 to El Paso, serving all intermediate points and the off-route points of Royalty, Crane, and Iraan, TX; and (4) between Road Forks, NM and Tucson, AZ over Interstate 10, serving all intermediate points except Benson, AZ. Vendee has agreed to except a restriction against service at intermediate points between El Paso and Tucson outside the El Paso and Tucson Commercial Zones except as required for tacking purposes. Vendee is authorized to operate as a common carrier in all States except Hawaii pursuant to certificates issued in docket No. MC 42487 and sub numbers. Application has been filed for temporary authority under section 210a(b).

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and one copy of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(e) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that there will be no significant effect on either the quality of the human environment or energy policy and conservation resulting from approval of its application.

MC 1977 (Sub-29F), filed September 25, 1978. Applicant: NORTHWEST TRANSPORT SERVICE, INC., 5231 Monroe Street, Denver, CO 80216. Representative: Leslie R. Kehl, 1600 Lincoln Center, 1660 Lincoln Street, Denver, CO 80264. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods, commodities in bulk, and commodities, which because of size or weight, require special handling or the use of special equipment): (1) Between Salt Lake City, UT, and Idaho Falls, ID, serving the intermediate points of Blackfoot, ID, Pocatello, ID, and all intermediate points between Salt Lake City and Brigham City, UT, including Brigham City; from Salt Lake City over Interstate Hwy 15 to Idaho Falls and return; (2) between Salt Lake City, UT, and Boise, ID, serving all intermediate points between Salt Lake City and Brigham City, including Brigham City; from Salt Lake City over Intersate Hwy 15 to Junction Interstte Hwy 80 north, then over Intersate Hwy 80 north to Boise and return; (3) between Boise, ID, and Pocatello, ID, serving no intermediate points and serving Pocatello for joinder only; from Pocatello over Interstate Hwy 15 west to Junction Interstate Hwy 80 north, then over Interstate Hwy 80 north to Boise and return; (4) serving points within a 50-mile radius of Salt Lake City, UT (excluding points on Interstate Hwy 15 between Salt Lake City and Brigham City, UT, including Brigham City) as off-route points in connection with the carrier's authorized routes to and from Salt Lake City.

NOTE.—The purpose of this application is to convert irregular route authority to regular route authority and is directly related to a finance proceeding docketed MC-F-13681 which was previously published in a previous section of the FR issue of August 17, 1978. (Hearing sites: Salt Lake City, UT, Pocatello and Boise, ID.)

MC 28536 (Sub-17F), filed September 15, 1978. Applicant: FOX & GINN, INC., 207 Perry Road, Bangor, ME 04401. Representative: Kenneth B. Williams, 84 State Street, Boston, MA 02109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, new furniture, uncrated, commodities in bulk, and commodities requiring special equipment): Between, points in MA, RI and CT, on the one hand, and, on the other, Bennington and Brattleboro, VT, Albany, Kingston, Middleton, Newburgh, Peekskill, Poughkeepsie, Schenectady, Troy, West Point, and New York, NY, Jersey City and Newark, NJ, and points in Putnam and Westchester Counties, NY. (Hearing site: Boston, MA or Hartford, CT.)

NOTE.—The purpose of this application is to eliminate the gateways at points within 30 miles of Boston, Springfield, and Worcester, MA and Bridgeport, Hartford, and New Haven, CT, including the points named and to seek permission to join or tack the above with applicant's presently held irregular route authority, and is directly related to MC-F-13738F, Fox & Ginn, Inc. Purchase: Hartford Despatch & Warehouse Co., Inc., published in a previous section of this FR issue.

MC 54200 (Sub-7F), filed September 14, 1978. Applicant: SEIGLE'S EXPRESS, INC., Foot of Pennsylvania Avenue, South Kearney, NJ 07032. Representative: William W. Becker, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and antique automobiles and used classic cars in secondary movements in truckaway service): between points in Suffolk County, NJ, on the one hand, and, on the other, points in Nassau County, NY, points in the New York, NY, Commercial Zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), those points in NJ and all of any municipality any part of which is within 5 miles of New York, NY, and points in Passaic, Bergen, Hudson, Essex, Union, Morris and Somerset Counties, NJ; and (2) *Business records* and *printed matter*: between Clinton, NJ and points in Suffolk County, NY. (Hearing site: New York, NY, or Washington, DC.)

NOTE.—This application is filed as a directly related application to finance proceeding docketed MC-F-13739F published in a previous section of this FR issue. The purpose of this application is to eliminate the gateway of New York, NY Commercial Zone.

MC 59117 (Sub-60F), filed October 4, 1978. Applicant: ELLIOTT TRUCK LINE, INC., Box 1 Vinita, OK 74301. Representative: Tom B. Kretsinger, 20 East Franklin, Liberty, MO 64068. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: Dry fertilizer, dry fertilizer materials, in bulk or in bags, pesticides and herbicides in containers and dry urea, from Atlas, MO to points in IL (except points in the St. Louis, MO-East St. Louis, IL Commercial Zone as defined by the Commission), KY, TN, and TX (Except points in Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery and Waller counties), AR, CO, IA, KS, NE, and OK. (Hearing site: Kansas City, MO, or Tulsa, OK.)

NOTE.—The purpose of this application is to convert a contract carrier permit to a certificate of public convenience and necessity. This matter is directly related to a finance proceeding docketed MC-F-13767F, published in a previous section of this FEDERAL REGISTER issue.

MC 59206 (Sub-23F) filed September 29, 1978. Applicant: HOLLAND MOTOR EXPRESS, INC., 750 East 40th Street., Holland, MI 49423. Representative: Daniel C. Sullivan, 10 South LaSalle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Fort Wayne, IN and Cincinnati, OH, serving the junction of U.S. Hwy 27 and IN Hwy 67, the junction of U.S. Hwy 27 and U.S. Hwy 40, and the junction of U.S. Hwy 27 and Interstate Hwy 70 as intermediate points for joinder only, from Fort Wayne over U.S. Hwy 27 to Cincinnati, and return over the same route. Between Fort Wayne, IN and Cincinnati, OH, serving the junction of U.S. Hwy 127 and OH Hwy 29 and the junction of U.S. Hwy 127 and U.S. Hwy 40, and the junction of U.S. Hwy 127 and Interstate Hwy 70 as intermediate points for joinder only. From Fort Wayne over U.S. Hwy 33 to junction U.S. Hwy 127, then over U.S. Hwy 127 to Cincinnati, and return over the same route. (Hearing site: Chicago, IL.)

NOTE.—This application is directly related to MC-F-13759F, Holland Motor Express, Inc., purchase (portion), National Transit Corp., published in a previous section of this FEDERAL REGISTER issue. The purpose of this application is to convert an alternate route and a deviation route to service routes in order to allow joinder at the indicated intermediate points.

MC 108194 (Sub-14F), filed October 3, 1978. Applicant: WILLIAM B. MEYER, INC., 60 Long Beach Boulevard, Stratford, CT 06497. Representative: Sidney L. Goldstein, 109 Church Street, New Haven, CT 06510. Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points within 15 miles of Stamford, CT, on the one hand, and, on the other, points in NH, VT, DE, DC, MD, OH, and VA. (Hearing Site: New Haven, CT, or Hartford, CT)

NOTE.—The purpose of this application is to enable applicant to tack at common points created by the 15 mileage radii within Bridgeport, CT, and the 15 mileage radii within Stamford, CT. This matter is directly related to a finance proceeding docketed MC-F-13695F published in a previous section of this FEDERAL REGISTER issue.

MC 116212 (Sub-11F), filed October 4, 1978. Applicant: EYRE'S BUS SERVICE, INC., 15810 Union Chapel Road, Woodbine, MD 21797. Representative: Bruce E. Mitchell, Fifth floor, Lenox Towers I, 3390 Peachtree Road, Atlanta, GA 30326. Authority sought to operate as *common carrier*, by motor vehicle, over regular routes, transporting passengers and their baggage and express, in the same vehicle with passengers, between Washington, DC and the junction of U.S. Hwy 29 and Interstate Hwy 495 at or near Four Corners, MD, serving the intermediate point of Silver Spring, MD. From Washington over Colesville Road to junction of U.S. Hwy 29 thence over U.S. Hwy 29 to junction Interstate 495 and return over the same route.

Restriction: The authority requested herein is restricted against (1) originating traffic in the District of Columbia destined to Four Corners and points south thereof, and (2) originating traffic from points between Four Corners and the MD-DC line destined to the District of Columbia. (Hearing site: Washington, DC.)

NOTE.—The purpose of this application is to enable applicant to connect regular route authority at Four Corners, MD in service to and from Baltimore, MD. This matter is directly related to a section 5 finance proceeding docketed MC-F-13751F and published in a previous section of this FEDERAL REGISTER issue.

MC 145483F filed September 29, 1978. Applicant: GENOVA TRANS-

PORT, INC., 484 Clayton Road, Williamstown, NJ 07934. Representive: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Authority sought to Inc., Di Lullo & Son and Violet Packing Co., at Williamstown, Glassboro, and Gloucester, NJ, to points in NY, PA, CT, MA, VA, RI, MD, DE, NC, and Restriction: The authority sought herein is restricted to the transportation of shipments originating at the named origins and destined to the

99501, and should not be directed to the Interstate Commerce Commission.

trucks; classes A and B explosives and classes, A, C, and D poisons as defined under explosives and other dangerous

serving all points in said counties, and return over the same route, serving the junction of I-40 and TN Hwy 22

V 43 I 203 OCT 1978

PORT, INC., 484 Clayton Road, Williamstown, NJ 07934. Representive: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Authority sought to operate as a *common carrier*, over irregular routes, transporting: (1) *Canned goods*, from the facilities of Violet Packing Co., at Williamstown, NJ, to Hartford, New Haven, and Stamford, CT, Boston, MA, Providence, RI, New York, Buffalo, Albany, Schenectady, Rochester, and Canandaigua, NY, Philadelphia, Wilkes-Barre, and Scranton, PA, Baltimore, MD and Washington, DC, (2) *Containers, ends, caps, and covers*, from Fruitland, MD, to the plantsite and facilities of Violet Packing Co., at Williamstown, NJ, (3) *Metal containers, ends, caps and covers*, from Winchester, VA, to the facilities of Violet Packing Co., at Williamstown, NJ, (4) *Empty containers*, from Baltimore, MD, to the facilities of Violet Packing Co., at Williamstown, NJ, (5) *Canned goods*, from the facilities of Violet Packing Co., at Williamstown, NJ, to Norfolk and Richmond, VA, and Charlotte, NC, (6) *Metal containers, ends, caps* and *covers*, from Winchester, VA, to the facilities of National Fruit Co., Inc. and Ron Son Mushroom Products Co., Inc., at Glassboro, NJ, (7) *Canned apple products*, from the facilities of National Fruit Co., Inc. at Glassboro, NJ, to New York, Buffalo, Albany, Schenectady, Rochester and Canandaigua, NY, Philadelphia, Wilkes-Barre, and Scranton, PA, Baltimore, MD, Hartford, New Haven, and Stamford, CT, Boston, MA, Providence, RI, Norfolk and Richmond, VA, Charlotte, NC, and Washington, DC, (8) *Empty containers, ends, caps and covers*, from Baltimore, MD, to the facilities of National Fruit Co., Inc. at Glassboro, NJ, (9) *Containers and container ends, caps* and *covers*, from Fruitland, MD, to the facilities of National Fruit Co., Inc., Ron Son Mushroom Products Co., Inc., Di Lullo & Son and Violet Packing Co., at Glassboro and Gloucester, NJ, (10) *Canned goods*, from the facilities of National Fruit Co., Inc., Ron Son Mushroom Products Co., Inc., Di Lullo & Son and Violet Packing Co., at Williamstown, Glassboro, and Gloucester, NJ, to points in NY, PA, CT, MA, VA, RI, MD, DE, NC, and DC, (11) *Commodities*, the transportation of which is otherwise exempt from economic regulations when tranported in the same vehicle, at the same time with containers, and container ends, caps and covers and canned goods, (a) from Fruitland, MD, to the facilities of National Fruit Co., Inc., Ron Son Mushrooms Products Co., Inc., Di Lullo & Son and Violet Packing Co., at Glassboro and Gloucester, NJ, (b) from the facilities of National Fruit Co., Inc., Ron Son Mushroom Products Co., Inc., Di Lullo & Son and Violet Packing Co., at Williamstown, Glassboro, and Gloucester, NJ, to points in NY, PA, CT, MA, VA, RI, MD, DE, NC, and DC, (12) *Containers and container ends, caps and covers*, from Philadelphia and Morrisville (Bucks County), PA, to the facilities of National Fruit Co., Inc. and Ron Son Mushroom Products, Inc., Glassboro, NJ, (13) *Containers and container ends, caps and covers*, (a) from Philadelphia, and Morrisville (Bucks County), PA, to the facilities of Violet Packing Co., at Williamstown, NJ, (b) from Baltimore, MD, to the facilities of Di Lullo & Son, at Gloucester, NJ, (14) *Foodstuffs*, in vehicles equipped with mechanical refrigeration, (a) from the facilities of Joseph L. Scalafani, Inc., at New York, NY to Williamstown, NJ, Baltimore, MD, Washington, DC, and Philadelphia, PA, (b) from the facilities of Joseph L. Scalafani, Inc., at Williamstown, NJ, to Baltimore, MD, Washington, DC, and Philadelphia, PA, (15) *Plastic articles* (except in bulk), from the facilities of Crown Zellerbach Corp., Glassboro, NJ, to points in MA, CT, RI, PA, NY, NJ, MD, DE, VA, NC, SC, GA, FL, and DC, (16) *Containers, container ends, caps and covers*, from Lemoyne, PA, and Cambridge and Hurlock, MD, to the facilities of National Fruit Co., Inc. and Ron Son Mushroom Products, Inc., at Glassboro, NJ, and the facilities of Violet Packing Co., at Williamstown, NJ, (17) *Frozen foods*, from the facilities of Mrs. Paul's Kitchens, Inc., at Philadelphia, PA, to points in NJ, NY, CT, MA, and RI, (18) *Food products* (except in bulk), (a) Between the facilities of Buitoni Foods Corp., at South Hackensack, NJ, on the one hand, and, on the other, New York, NY, and Points in Nassau, Suffolk, Westchester, Orange, and Rockland Counties, NY, and points in Fairfield, Hartford, and New Haven Counties, CT, (b) from piers in New York Harbor, NY, to points in NJ, points in Nassau, Suffolk, Westchester, Orange, and Rockland Counties, NY, and points in Fairfield, Hartford, and New Haven Counties, CT, and (19) (a) *Canned goods and materials, equipment and supplies* used in the manufacture and sale of a canned goods (except commodities in bulk); and (b) agricultural commodities, the transportation of which is otherwise exempt from economic regulation pursuant to the provisions of section 203(b)(6) of the Interstate Commerce Act, when transported in the same vehicles and at the same time as the commodities in (a) above, between the facilities of Ron Son Mushroom Products Co., at Glassboro, NJ, and the facilities of Violet Packing Co., at Williamstown, NJ, on the one hand, and, on the other, points in OH and ME. Restriction: The authority sought herein is restricted to the transportation of shipments originating at the named origins and destined to the named destinations. (Hearing site: Philadelphia, PA, or Washington, DC.)

NOTE.—The purpose of this application is to convert applicant's contract carrier permits to a certificate of public convenience and necessity. This matter is directly related to a finance proceeding docketed MC-F-13760F, published in a previous section of this FEDERAL REGISTER issue.

MOTOR CARRIER INTRASTATE APPLICATION(S)

NOTICE

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Alaska Docket No. 78-344-MP/E filed: August 3, 1978. Applicant: TRANSPORTATION SERVICES, INC., d.b.a. American Sightseeing of Alaska, 1135 West 8th Avenue, Suite 3, Anchorage, AK 99502. Representative: Andrew E. Hoge, 3201 "C" Street, Suite 706, Anchorage, AK 99503. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *Inter-urban, sightseeing and tour services* as defined by the Alaska Transportation Commission, between Fairbanks and Prudhoe Bay, via Alaska State Hwy 2 and the unnumbered North Slope Haul Road, including services from and to all points and places along that route within thirty (30) miles laterally along each side of these hwys and at each terminus, and to and including Manley Hot Springs. Authority is also sought to tack and join these routes with all authority presently held by applicant. Intrastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Alaska Transportation Commission, 1000 McKay Building, 338 Denali Street, Anchorage, AK

99501, and should not be directed to the Interstate Commerce Commission.

Florida Docket No. 780710-CCT filed: August 29, 1978. Applicant: ALL SOUTHERN TRUCKING, INC., 1909 East Hemlock Avenue, Tampa, FL. Representative: Richard H. Wilson, 2316 First Florida Tower, Tampa, FL 33602. Certificate of Public Convenience and Necessity sought to operate a freight service, over irregular routes, as follows: Transportation of: *Rough lumber, semi-finished lumber and finished lumber, millwork, doors, hardboard, sheeting materials and products, plywood, and fabricated lumber products*, to, from and between all points and places within the State of Florida and Applicant seeks duplicating authority from the Interstate Commerce Commission to the same extent to which authority is granted by the Florida Public Service Commission. Intrastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Florida Public Service Commission, Fletcher Building, 101 East Gaines Street, Tallahassee, FL 32304, and should not be directed to the Interstate Commerce Commission.

Nebraska Docket No. M-12610 supplement No. 1, filed: September 13, 1978. Applicant: SYRACUSE TRANSFER, INC., 320 Swanson Drive, Syracuse, NE. Representative: Lavern R. Holdeman, Box 81849, Lincoln, NE. Certificate of Public Convenience and Necessity sought to operate a freight service, over irregular routes, as follows: Transportation of: *General commodities* (excepting those requiring special equipment), from points within a 25-mile radius of Syracuse, NE, (except points in Otoe County), to and from Omaha, occasionally to and from York,Grand Island and points generally within a 175-mile radius of Syracuse, NE. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to Nebraska Public Service Commission, 301 Centennial Mall South, P.O. Box 94927, Lincoln, NE 68509, and should be not directed to the Interstate Commerce Commission.

South Carolina Docket No. 78-278-T (Amendment) filed June 1, 1978. Applicant: GREENWOOD MOTOR LINES, INC., Montague Avenue, P.O. Drawer 336, Greenwood, SC. Representative: William B. Patrick, Jr., P.O. drawer 1207, Greenwood, SC. Certificate of Public Convenience and Necessity sought to operate as freight service, as follows: Transportation of: *General commodities* (except any commodities or products in bulk tank trucks; classes A and B explosives and classes, A, C, and D poisons as defined under explosives and other dangerous articles in American Trucking Assn., Inc., Agent, Tariff No. 10, MF-ICC No. 11, PSCSC No. 11, supplements thereto or reissues thereof; and household goods and related articles, as defined in Motor Truck Rate Bureau, Agent, Household Goods Tariff, Motor Freight Tariff No. 8-C, SCPSC-MF No. 79, supplements thereto or reissues thereof): between points and places in Bamberg, Barnwell and Orangeburg counties, and between points and places in these counties and points and places in South Carolina.

NOTE.—The purpose of this publication is to amend the commodity description to include Bamberg County, Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to South Carolina Public Service Commission, P.O. Box 11649, Columbia, SC 29211, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket MC 2668 (Sub-7), filed August 24, 1978. Applicant: HOHENWALD TRUCK LINES, INC., Columbia Highway, Hohenwald, TN 38462. Representative: A. O. Buck, 618 United American Bank Building, Nashville, TN 37219. Certificate of public convenience and necessity sought to operate a freight service, over regular routes, as follows: Transportation of: *General commodities* (except household goods, classes A and B explosives, commodities in bulk and those requiring special equipment); Route 1—between Franklin, TN and Buffalo, TN; from Franklin over TN Hwy 96 to its junction with Interstate Hwy I-40, then over Interstate Hwy I-40 to Buffalo, and return over the same route; Route 2—between Franklin, TN and Hohenwald, TN; from Franklin over U.S. Hwy 31 to its junction with TN Hwy 99, then over TN Hwy 99 to Hohenwald, and return over the same route; Said Routes 1 and 2 to be used as alternate routes for operating convenience only, and to be used in conjunction with all of applicant's existing authority. Intrastate, interstate and foreign commerce authority sought. Hearing: November 21, 1978, at 1:30 p.m., C-1-110 Cordell Hull Building, Nashville, TN. Requests for procedural information should be addressed to Tennessee Public Service Commission, C1-102 Cordell Hull Building, Nashville, TN 37219, and should not be directed to the Interstate Commerce Commission. (4) amend Route (1) of carrier's Certificate No. 3436, so as to read as follows: "From Nashville, TN, via I-40 to junction with TN Hwy 22, then via TN Hwy 22 to the Weakley County Line, then over any and all highways and roads in Weakley and Obion Counties, serving all points in said counties, and return over the same route, serving the junction of I-40 and TN Hwy 22 for purposes of joinder only. All of the foregoing routes to be used in conjunction with each other and in conjunction with all of carrier's other authority. Restriction: Restricted against tacking the foregoing authority with any of carrier's other authority for the purpose of providing a through service between Nashville and Memphis, TN and points in their respective commercial zones. Intrastate, interstate and foreign commerce authority sought. Hearing: December 11, 1978, at 9:30 a.m., C1-110 Cordell Hull Building, Nashville, TN. Requests for procedural information should be addressed to Tennessee Public Service Commission, C1-102 Cordell Hull Building, Nashville, TN 37219.

NOTE.—Applicant presently operates in interstate commerce pursuant to Certificates of Registration issued in MC 121699.

Tennessee Docket MC 5317 (Sub-2), filed: August 23, 1978. Applicant: VOLUNTEER EXPRESS, INC., 1220 Faydur Court, Nashville, TN 37211. Representative: Walter Harwood, P.O. Box 15214, Nashville, TN 37215. Certificate of public convenience and necessity sought to operate a freight service, over regular routes, as follows: Transportation of: *General commodities* (except classes A and B explosives, household goods, commodities in bulk, and articles requiring special equipment): (1) from Jackson, TN via U.S. Hwy 45 to junction with U.S. Hwy 45W, thence via U.S. Hwy 45W to the Obion County line, thence via any and all highways and roads in Obion and Weakley Counties, TN, serving all points in said counties (but serving no intermediate points between Jackson and the said Obion County line), and return over the same route. (2) Amend Route (2) of carrier's Certificate No. 3436-A, so as to read as follows: "From Memphis, TN via I-40 to junction with U.S. Hwy 45 at Jackson, TN, thence via U.S. Hwy 45 to its junction with U.S. Hwy 45E to the Weakley County line, thence via any and all highways and roads in Weakley and Obion Counties, serving all points in said counties, and serving Jackson as an intermediate point." (3) From Jackson, TN via I-40 to junction of I-40 and TN Hwy 22, and return over the same route, serving said junction of I-40 and TN Hwy 22 for purposes of joinder only.

Tennessee Docket MC 6105 (Sub-1), filed: August 24, 1978. Applicant: SOUTHEASTERN WAREHOUSING & DISTRIBUTION CORP., P.O. Box 5456 EKS, Johnson City, TN 37601. Representative: Blaine Buchanan, 1024 James Building, Chattanooga, TN 37601. Certificate of public conven-

[7035-01-M]

[Finance Docket No. 28867]

ILLINOIS TERMINAL RAILROAD CO.—TRACKAGE RIGHTS—OVER ILLINOIS CENTRAL GULF RAILROAD CO. BETWEEN MOUNT PULASKI, LOGAN COUNTY, AND KENNEY, DE WITT COUNTY, ILL.

Illinois Terminal Railroad Co., Post Office Box 7282, 710 North 12th Boulevard, St. Louis, Mo. 63177, represented by Steven J. Anthony, attorney for Illinois Terminal Railroad Co., Post Office Box 7282, St. Louis, Mo. 63177, hereby give notice that on the 29th day of September 1978, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for a decision approving and authorizing the acquisition of trackage rights by Illinois Terminal over main line track of Illinois Central Gulf Railroad Co. between Mount Pulaski and Kenney, Ill., a total distance of 12.37 miles.

Under the trackage rights requested, the Illinois Terminal will not serve any station on the line of the Illinois Central Gulf (ICG) nor would Illinois Terminal have the right to pick up or set out along the line. The proposed transaction will not adversely affect shippers, receivers, or employees of this carrier. The transaction will extend the trackage rights which Illinois Terminal now operates over ICG from Springfield, Ill., to Mount Pulaski, Ill., by an additional 12.37 miles to Kenney, Ill., where Illinois Terminal owns a line of track. These trackage rights will enable the carrier to effect a more efficient operation to the Peoria Gateway and Decatur, Ill., which areas Illinois Terminal is presently unable to efficiently serve.

Applicant has filed a related application docketed AB-84 (Sub-No. 1F) for certificates of convenience and necessity and authorization to abandon operation over that portion of the ICG-trackage which was covered under trackage agreement dated October 27, 1960, authorized by the Commission in Finance Docket No. 21363 which extends from Mount Pulaski to Lincoln, Ill., all in Logan County, Ill., a distance of 11.04 miles and for authority to abandon and remove that portion of Applicant's tracks which extend from Lincoln, Logan County, Ill., northwardly to Allentown, Tazewell County, Ill., a distance of 27.58 miles.

In the opinion of the Applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation (Finance Docket No. 28867) and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than 45 days after the date notice of the filing of the application is published in the FEDERAL REGISTER. Such written comments shall include the following: the person's position—e.g., party protestant or party in support—regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01-M]

[Notice No. 118]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission within 30-days after

the date of this publication. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

Finance Docket No. 28875, filed September 1, 1978. Transferee: SWIFT INTERNATIONAL, INC., 4100 14th Way NE., St. Petersburg, FL 33702. Transferor: Swift International Forwarders, a division of Microtron Industries, Inc., 618 North Beltline Road, Irving, TX 75061. Representatives: Robert J. Gallagher, attorney at law, Suite 1200, 1000 Connecticut Avenue NW., Washington, DC 20036. W. Newton Barnes, Esq., Barnes & Dishman, Mockingbird Towers East, Suite 1000, 1341 West Mockingbird Lane, Dallas, TX 75247. Authority sought for purchase by transferee of the operating rights set forth in Permit and Order No. FF-402, issued December 5, 1972, to Swift Home-Way, Inc., Irving, TX, and acquired by transferor pursuant to approval and consummation of the transfer proceeding in Finance Docket No. 28129, as follows: Freight forwarder of used household goods and unaccompanied baggage, between points in the United States (including HI but excluding AK, ND, and SD). Transferee presently holds no authority from this Commission.

MC-FC-77738, filed July 3, 1978. Transferee: ROBERT A. SHIPP and JAMES A. SHIPP, d.b.a. RO-JA Enterprises, 2210 Winterhaven Drive, Winterhaven, CA 92283. Transferor: Raymond W. Bell, d.b.a. Bell's Towing Service, 2149 Winterhaven Drive, Winterhaven, CA 92283. Representative: Waldo W. Israel, 213 South Second Avenue, P.O. Box 649, Yuma, AZ 85364. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in certificate MC 125484 (Sub-1), issued July 2, 1965, as follows: Wrecked or disabled vehicles and trailers and wrecked or disabled farm implements and farm machinery, by use of wrecker equipment only, between points in Imperial County, CA, on the one hand, and, on the other points in Yuma County, AZ, subject to certain restrictions. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210(a)(b).

MC-FC-77814, filed August 14, 1978. Transferee: W. V. TINKLEPAUGH & SON, INC., 25 West Main Street, Hancock, NY 13783. Transferor: Charles P. Faigle, Inc., P.O. Box 806, Hancock, NY 13733. Representatives: Herbert M. Canter and Benjamin D. Levine, 305 Montgomery Street, Syracuse, NY 13202. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Permit No. MC 123630, issued July 23, 1968, as follows: rough and finished lumber, wood pallets, from Hancock, NY, to points in 11 States and DC, lumber and wooden pallets, from Hancock, NY, and Emporium, PA, to specified VA counties and wooden pallets, from Hancock, NY, and Emporium, PA, to points in NC and SC, under contract with Robert Mallery Lumber Co., Inc. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77827, filed August 29, 1978. Transferee: HOWARD DULLUM, Gardner, ND 54036. Transferor: Fillipi Truck Lines, Inc., Warren, MN 57662. Representative: Alan Foss, Esq., 502 First National Bank Building, Fargo, ND 58102. Authority sought for purchase by transferee of operating rights of transferor as set forth in certificate MC 27368 (Subs 8, 9, and 11), issued October 13, 1964, November 21, 1966, and October 25, 1965, respectively, as follows: fertilizer, in bags, from Crookston, Moorhead, and Shakopee, MN, to points in ND; from Pine Bend and Minneapolis, MN, to points in Walsh and Pembina Counties, ND; and fertilizer and fertilizer ingredients from Winona, MN, to points in ND. Transferee holds authority in MC 134604 (Sub-2). Temporary authority under section 210a(b) was granted September 8, 1978.

MC-FC-77843, filed September 1, 1978. Transferee: LES MATHRE TRUCKING, INC., 417 Eighth Street, Story City, IA 50248. Transferor: Freddie Ahrenstorff, d.b.a. Ahrenstorff Transfer, Lake Park, IA 51347. Representative: Larry D. Knox, Esq., or Richard D. Howe, Esq., 600 Hubbell Building, Des Moines, IA 50309. Authority sought for purchase by transferee of operating rights of transferor as set forth in certificate MC 20729 (Sub-6) issued November 16, 1966, as follows: Anhydrous ammonia, in bulk, in tank vehicles, from the facilities of Monsanto Co., at or near Garner, IA, to points in MN, NE, ND, SD, and WI. Transferee presently holds authority in MC 139379, and (Subs 1, and 2), issued August 2, 1974, December 16, 1977, and December 16, 1977, respectively. Application for temporary authority under section 210a(b) has not been filed.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 194]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 409 (Sub-67TA), filed September 6, 1978. Applicant: SCHROETLIN TANK LINE, INC., Box 511, Saunders Avenue and Hwy 6, Sutton, NE 68979. Representative: Steven K. Kuhlmann,

P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, from Omaha, NE, to points in IA, KS, MO, and SD. Applicant has also filed a temporary authority application.

[Notice No. 193]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

October 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Motor Carriers of Property

MC 11207 (Sub-447TA), filed August 30, 1978. Applicant: DEATON, INC., 317 Avenue W., P.O. Box 938, Birmingham, AL 35201. Representative: Kim D. 3

FEDERAL COMMUNICATIONS COMMISSION.

TIME AND DATE: 9:30 a.m., Thursday, October 19, 1978.

PLACE: Room 856, 1919 M Street, NW., Washington, D.C.

STATUS: Open Commission meeting.

MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

General—1—Petition for reconsideration filed April 1, 1977, on behalf of KGME Radio, Inc., licensee of AM station KGMB, Honolulu, Hawaii.
General—2—Applications for review of staff ruling partially granting the Freedom of Information Act request jointly filed by Classical Radio for Connecticut, Inc. and the WTIC-FM Listeners' Guild.
General—3—Inquiry into commercial television network practices.
General—4—Measurement techniques of television reciever noise figures.
General—5—GAO report (The Role of Field Operations in the Federal Communications Commission Regulation).
Safety and Special Radio Services—1—Amendment of part 81 of the rules to delete the provisions which provide for the use of telegraphy by limited coast stations.
Safety and Special Radio Services—2—Termination of Docket 20092.
Safety and Special Radio Services—3—Report and Order, adopting the rules proposed in NPRM SS Docket No. 78-28, concerning the frequencies allocated in the Business Radio Service for use by operators of central station commercial protection facilities.
Safety and Special Radio Services—4—Conflict between rule section 97.79(d) and text of the Notice of Proposed Rulemaking in Docket 20112.
Safety and Special Radio Services—5—Amendment of the General Mobile Radio Service and Amateur Radio Services rules to establish procedures to minimize potential interference to radio astronomy operations.
Common Carrier—1—Proposed rulemaking to amend section 61.38 of the Commission's rules.
Common Carrier—2—A.T. & T. revisions to Tariff No. 260 establishing rates for leased voice-grade channels (Transmittal No. 13048) and Hawaiian Telephone Co. revisions to Tariffs Nos. 4 and 11 establishing rates for leased voice-grade channels (Transmittal No. 467).
Common Carrier—3—A.T. & T. and Bell System Operating Companies revisions to the A.T. & T. long lines department and Bell System Operating Companies interim OCC Tariffs to reflect a new expanded offering of telegraph grade facilities.
Common Carrier—4—Applications for consent to assignment and consent to transfer of control of radio authorizations in various services from American Television and Communications Corp. to Time Television and Communications, Inc., and applications by TTC for section 214 authority to acquire and operate channels of communication being provided by ATC through domestic satellite receive-only Earth stations.
Cable Television—1—Petition for declaratory ruling (CSR-1271) filed by Micro-Cable Communications Corp.
Cable Television—2—Joint petition for reconsideration of Arlington Telecommunications Corp. d.b.a. Artec, Arlington County, Va.
Cable Television—3—Petition for reconsideration filed by People's Cable Co., operator of a proposed cable television system serving the town of Henrietta, N.Y.
Cable Television—4—Applications for consent to the transfer of control of two cable television relay service stations licensed to Wolverine Cablevision, Inc., from American Television and Communications Corp. to the Industrial National Bank of Rhode Island as trustee under a Voting Trust Agreement.
Renewal—1—Renewal of licenses of four FM stations proposing nonentertainment programing (news, public affairs, and all other programing exclusive of entertainment and sports).
Renewal—2—Petition to deny application of Westinghouse Broadcasting Co., Inc., for renewal of license for station KPIX, San Francisco, Calif. filed by Community Coalition for Media change.
Renewal—3—Petition to deny application of Pacific FM, Inc., and San Francisco Wireless Talking Machine Co., Inc., for renewal of licenses of stations KIOI(FM) and KIQI, San Francisco, Calif., filed by Community Coalition for Media Change.
Renewal—4—Petition to deny the broadcast renewal application of McClatchy Newspapers, licensee of station KOVR(TV), filed by San Joaquin Communications Corp.
Renewal—5—Petition filed by the St. Louis Broadcast Coalition seeking reconsideration of Commission Orders in Newhouse Broadcasting Corp.
Renewal—6—Renewal application of Communico Oceanic Corp. for stations KPOI and KHSS(FM), Honolulu, Hawaii.
Complaints and Compliance—1—Request for a declaratory ruling concerning the meaning of the phrase "program or any part thereof" in section 325(a) of the act.
Complaints and Compliance—2—Violations by station WTRP, La Grange, Ga., of representations, made to the Commission in its application for license renewal, regarding the maximum amount of commercial time to be broadcast in hour.
Complaints and Compliance—3—Application for review, filed July 19, 1978, of the Broadcast Bureau's ruling of June 27, 1978, denying a complaint filed by Horace Rowley, III, against WWL-TV, New Orleans, La.

This meeting may be continued the following workday to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from the FCC Public Information Office, telephone 202-632-7260.

Issued: October 13, 1978.

PRIVACY ACT OF 1974

Amendments to Systems of Records

V 4 3 / 2 0 3 0 C 1 9 7 8

[3710-08-M]

DEPARTMENT OF DEFENSE

Department of the Army

PRIVACY ACT OF 1974

Amendment of Record Systems

AGENCY: Department of the Army, DOD.

ACTION: Notice of amendments to record systems.

SUMMARY: The Army proposes to amend 43 systems of records. Following specific changes to the systems being amended, the systems are published in their entirety.

DATES: These systems shall be amended as proposed without further notice on November, 1978, unless comments are received which would result in a contrary determination.

ADDRESS: Send comments to The Adjutant General, Department of the Army, ATTN: DAAG-AMR-R, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20314; telephone: 202-693-0973.

SUPPLEMENTARY INFROMATION: The Department of the Army systems of records notices as prescribed by the Privacy Act of 1974, 5 U.S.C. 552a, Pub. L. 93-579, have been published in the FEDERAL REGISTER as follows:

FR Doc. 77-28255 (42 FR 50396), September 28, 1977.
FR Doc. 78-23953 (42 FR 38070), August 25, 1978.
FR Doc. 78-25562 (42 FR 40272), September 11, 1978.
FR Doc. 78-26372 (42 FR 42026), September 19, 1978.
FR Doc. 78-42374 (42 FR 25819), September 20, 1978.
FR Doc. 78-26699 (42 FR 43059), September 22, 1978.
FR Doc. 78-26996 (42 FR 43539), September 26, 1978.

The proposed amendments are not within the purview of the provisions of 5 U.S.C. 552a(o) of the act which requires submission of a new or altered system report.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services. Department of Defense.

OCTOBER 11, 1978.

AMENDMENTS

AAFES0207.02

AAFES0401.05

System name: Employee Service Record Card Files (42 FR 50400) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitue: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222."
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE Dallas, TX 75222. Telephone: Area Code 214-330-2761".
Record access procedures; Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222."

AAFES0401.11

System name: 401.11 Personnel Records Maintained at Supervisory Level (42 FR 50401) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214-330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0403.01

System name: 403.01 Application for Employment Files (42 FR 50401) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0403.04

System name: 403.04 College Recruitment Files (42 FR 50401) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214-330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0403.05

System name: 403.05 Employee Examination Records (42 FR 50402) September 28, 1977.
Changes:
System manager(s) and address: Change address to read: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0403.08

System name: 403.08 Reference and Pre-Employment Credit Files (42 FR 50402) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0404.01

System name: 404.01 Incentive Awards Case Files (42 FR 50403) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0404.03

System name: 404.03 Award Control Files (42 FR 50403) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, Headquarters (HQ) AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0404.04

System name: 404.04 Award Ceremony Files (42 FR 50404) September 28, 1977.
Changes:
System manager(s) and address: Change entry to read: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761"
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0405.07

System name: 405.07 Retirement Assistance Files (42 FR 50405) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitute: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0405.15

System name: 405.15 Retirement Extention Files (42 FR 50406) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitute: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0408.05

System name: 408.05 Individual Trainee Files (42 FR 50406) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitute: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0408.06

System name: 408.06 Trainee Card Index (42 FR 50406) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitute: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0408.14

System name: 408.14 Tuition Assistance Case Files (42 FR 50407) September 28, 1977.
Changes:
System manager(s) and address: Delete entry and substitute: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0408.15

System name: 408.15 Correspondence Course Files (42 FR 50407) September 28, 1977.
Changes:
Routine uses of records maintained in the system, including categories of users and the purposes of such uses:
Safeguards: Change "None." to: "Stored in locked cabinets."
System manager(s) and address: Change entry to read: "Director, Personnel Division, HQ AAFES, Dallas, TX 75222".
Notification procedure: Delete entry and substitute: "Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761".
Record access procedures: Change address to read: "HQ AAFES, ATTN: PE, Dallas, TX 75222".

AAFES0409.01

Request from individual should be addressed to: HQ AAFES, ATTN: CM-G, Dallas, TX 75222.

Written requests should contain full name and area of assignment.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

Record source categories:

Trial balances prepared by exchange elements.

Systems exempt from certain provisions of the act:

None.

AAFES0703.01

System name:

702.01 AAFES Time Sheets.

System location:

Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Dallas, TX 75222; In continental United States (CONUS): AAFES Exchange Regions, Area Exchanges, post and base exchanges including satellites; Overseas: HQ AAFES-Europe, HQ AAFES-Pacific, and HQ AAFES-Alaska.

Categories of individuals covered by the system:

All United States citizens (to include permanent-resident alien, non-immigrant alien) employees with category of regular full-time, regular part-time, temporary full-time, temporary part-time, and intermittent employment.

Categories of records in the system:

File contains alphanumeric: Facility number, employee's name, social security number (SSN), category, leave balance, and shift identification number. Printout is combination Time Sheet and Time and Attendance (TA) Register for CONUS exchanges and TA Register only for overseas exchanges.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Printout distributed to all exchanges biweekly two pay periods in advance for recording hours worked, leave hours, and other data essential to payroll processing. CONUS exchanges record payroll data from TA Register to Optical Character Recognition (OCR) Time Sheet and submit to HQ AAFES for OCR Reader. Oversea exchanges key punch data from TA Register and submit via wire transmission to HQ AAFES.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

All records are retrieved, retained, stored, and disposed of by authorization of the Comptroller.

Storage:

Computer tape and printouts resulting from source input. OCR paper source documents stored by exchange number in steel file cabinets in HQ AAFES CM-M.

Retrievability:

Source documents by payroll period, exchange number, SSN or name.

Safeguards:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel on a need-to-know basis.

Retention and disposal:

Maintained 3 months in Payroll Branch. Transferred to AAFES Records Warehouse. Destroyed after 2 years.

System manager(s) and address:

Chief, Payroll Branch, Comptroller, HQ AAFES, Dallas, TX 75222.

Notification procedure:

Information may be obtained from: HQ AAFES, ATTN: Comptroller, Payroll Branch, Dallas, TX 75222. Telephone: Area Code 214-330-3870.

Record access procedures:

Requests from individuals should be addressed to: HQ AAFES, ATTN: CM-M, Dallas, TX 75222.

Written requests for information should contain the full name of the individual, SSN, current address and telephone number; if terminated, date of separation and last location in addition to the above.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

Record source categories:

TA Registers.

Systems exempt from certain provisions of the act:

None.

AAFES0703.02

System name:

703.02 Payroll Allotment Files.

System location:

Headquarters (HQ) Army and Air Force Exchange Service (AFFES), Comptroller Division, Dallas, TX 75222.

Categories of individuals covered by the system:

All regular full-time employees of HQ AAFES and all Universal Annual employees worldwide.

Categories of records in the system:

File contains alphanumeric: Employee's social security number (SSN) or pseudo number, employee's name, exchange number, amount of allotment, and allottee's name and address.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Used as source document to update employee's payroll master records and name and address file for mechanical preparation of checks payable to allottee.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

All records are retrieved, retained, stored, and disposed of by authorization of the Comptroller.

Storage:

Computer printouts and paper documents in file folders.

Retrievability:

Usually by name within exchange.

Safeguards:

Building employs security guards. Records are maintained in areas accessible only to authorized personnel on a need-to-know basis.

AAFES0903.06f

System name:

903.06f Personnel Management Information System (PMIS)

System location:

Disk files and computer tapes are maintained at Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Dallas, TX 75222. System maintenance and output products are maintained by Servicing Personnel Offices of the AAFES.

Categories of individuals covered by the system:

All United States citizens (to include permanent-resident alien, non-immigrant alien) employees with category of regular full-time, regular part-time, temporary full-time, temporary part-time, and intermittent employment.

Categories of records in the system:

The system consists of those documents necessary to maintain the centralized AAFES personnel data base, that information which is mechanically stored, and a variety of computer printouts related to the personnel management function of AAFES. The system contains the following information: (a) non-managerial employees: social security number (SSN); name; Exchange location; home address to include street, city, state/county, zip code/Army Post Office (APO); date of birth; date of hire; leave accrual date; retirement participation date; service award base date; citizenship; marital status; sex/security clearance and type; current and prior military status; prior AAFES service and type; sponsor affiliation where the employee is a dependent of a U.S. Government/military member; job code and title; employment category; pay plan; wage schedule number; grade/step; base hourly rate; scheduled work week and shift; commission rate where applicable to commission pay plan employees; Federal and State exemptions; type of insurance coverage; deductions to include janitorial fee, union dues, employees' association, Combined Federal Campaign, Panamanian hospital and life insurance supplement; disability identification; minority code; city tax code and deduction; (b) managerial employees: all of the above as well as mobility status; place of birth, date in grade and step; assignment/health restrictions; date of last Executive Management Program (EMP) physical examination; passport issuance date; number of dependents to accompany upon reassignment; dates of military service; number of months' active military service; date assigned to an overseas area; date returned to the continental United States (CONUS); foreign languages to include degree of proficiency; education to include high school, name of college, major, minor type of degree, date completed, nongraduate semester/quarters hours completed, whether or not currently enrolled in college and seeking a degree; professional licenses; professional/technical field of study to include date completed; assignment preference location (overseas and within CONUS); career area interests outside current field; dependents to include name, date of birth, relationship, country of citizenship, and health restrictionc; emergency contact to include name and address; whether or not employee is home-owner; training courses to include date, title, type (AAFES, management development, correspondence, professional/technical); EMP member and date status attained; and Personnel Evaluation Report to include period covered, total score, overall evaluation, promotion potential, career area, and recommended outside career area.

Authority for maintenance of the system:

Title 10 U.S.C., Sections 3012 and 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Personnel Division: To produce statistical reports (without individual identification) for various echelons of AAFES management for use in projecting trends and evaluating results in such areas as personnel costs, oreganizational configurations, strength requirements, etc., or evaluating programs not directly related to personnel management function; to obtain information on individual's current and past employment for the purposes of job assignments, promotions, and career progression; to identify and correct errors in employees' computerized data files; and to provide summary reports (with or without personal identification) in support of the function for which the records are maintained or for related personnel management or manpower studies.

Comptroller Division: To provide updated data on pay and deductions necessary to computer bi-weekly payrolls and/or to determine the validity of individual claims related to pay adjustments.

Audits and Inspection Division: To produce summary reports (with or without personal identification) in support of auditing the conduct of personnel programs within various AAFES elements.

Office of the Commander: To provide summary statistics (without individual identification) to evaluate AAFES Equal Employment Opportunity (EEO) programs and to report to the Civil Service Commission; and to produce summary listings or information (with or without individual identification) necessary to the investigation of EEO complaints or grievances.

Servicing Personnel Offices: To provide hard-copy documentation on employee's current pay and job data, career progression, cost analysis, etc.; to produce statistical reports (without individual identification) for various echelons of AAFES management for use in projecting trends and evaluating results in such areas as personnel costs, organizational configurations, strength requirements, etc., or evaluating programs not directly related to personnel management functions; to obtain information on individual's current and past employment for the purpose of job assignments, promotions, and career progression; to identify and correct errors in employees' computerized data files; and to provide summary reports (with or without personal identification) in support of the function for which the records are maintained or for related personnel management or manpower studies.

Employee: To provide a permanent record of his/her personal master file as updated.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

All records are retrieved, retained, stored, and disposed of by authorization of the Director, Personnel Division.

Storage:

Records are maintained on disk file, computer tapes, computer printouts, and in file folders.

Retrievability:

Computer records are indexed by SSN but may be retrieved by any data item listed under Record Category. Computer printouts are normally indexed by SSN within employment location but may be sorted chronologically and/or on the basis of any data item listed under Record Category.

Safeguards:

Disk files and tapes are located in restricted areas accessible only to authorized personnel who are properly screened, cleared, and trained. Retrievability requests must be written and under the signature of the Director, Personnel Division; manual records and computer printouts which contain individual identification are maintained in locked file drawers or storage cabinets and are available only to individuals having a need-to-know.

Retention and disposal:

Disk file retained for 18 months after separation and destroyed, with the exception of employees terminated under disciplinary action (ineligible for rehire), retired employees, and all Universal Annual Salary Plan employees whose file remains a permanent record. PMIS back-up tapes retained for 90 days. Computer printouts are maintained as follows: system edit reports are destroyed upon verification that identified errors have been corrected; printouts produced in connection with management functions (as described in routine uses) are maintained for periods varying from 2 to 10 years, and source documents and computer printouts which are included as part of the employee's official personnel folder are permanent.

System manager(s) and address:

Director, Personnel Division, HQ AAFES, Dallas, TX 75222.

Notification procedure:

Information may be obtained from: HQ AAFES, ATTN: PE, Dallas, TX 75222. Telephone: Area Code 214/330-2761.

Record access procedures:

Requests from individuals should be addressed to: HQ AAFES, ATTN: PE, Dallas, TX 75222.

Written requests for information should contain the full name of the individual, SSN, current address and telephone number; if terminated, date of birth, date of separation, and last employing location in addition to the above.

Visits are limited to HQ AAFES, Director, Personnel Division, HQ AAFES, Dallas, TX 75222.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

Record source categories:

Employee, employee's supervisor, Servicing Personnel Office representatives, and other AAFES management officials.

Systems exempt from certain provisions of the act:

None.

AAFES1204.07

System name:

1204 Customers' Merchandise Returned for Repair or Replacement.

System location:

Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Dallas, TX 75222; HQ AAFES-Pacific; HQ AAFES-Europe; HQ AAFES-Alaska; all continental United States and oversea exchange regions, area exchanges, and post and base exchanges and satellites within the AAFES system.

Categories of individuals covered by the system:

All AAFES Customers to include, military, retirees, civilians, and civilian dependents.

Categories of records in the system:

File contains charge or credit vouchers, shipping and receiving documents, warranty docuements, correspondence between AAFES and customers, and correspondence between AAFES and vendors.

Authority for maintenance of the system:

Title 10 U.S.C., Sections 3012 and 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To document receipt from customers of merchandise which is subsequently returned to vendors for repair or replacement. Used for follow-up actions with vendor and provides details of vendor's actions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing or records in the system:

Storage:

Paper records in file folders.

Retrievability:

Alphabetically by last name of customer.

Safeguards:

Records are maintained in areas accessible only to authorized personnel. Paper documents are maintained in steel storage cabinets.

Retention and disposal:

Records are retained in current files until close of fiscal year in which transaction is completed. At year end, files are stored and subsequently destroyed after 2 years.

System manager(s) and address:

Chief, General Accounting Branch, Comptroller, HQ AAFES, Dallas, TX 75222.

Notification procedure:

Information should be obtained from HQ AAFES, ATTN: Comptroller Division, General Accounting Branch, Dallas, TX 75222. Telephone; Area Code 214/330-2631.

Record access procedures:

Requests from individuals should be addressed to: HQ AAFES, ATTN: CM-C, Dallas TX 75222.

Written requests for information should contain the full name of the customer, current address and telephone number; AAFES activity to which the merchandise was returned, and date of return.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

Record source categories:

Information is collected directly from the customer in writing or verbally. Additional data may be obtained from correspondence between AAFES and vendors.

Systems exempt from certain provisions of the act:

None.

DEPARTMENT OF ENERGY

[10 CFR Parts 207, 735, and 1010]

CONDUCT OF EMPLOYEES

Proposed Standards

AGENCY: Department of Energy.

ACTION: Proposed regulations.

SUMMARY: These regulations prescribe standards of conduct for all employees of the Department of Energy except employees of the Federal Energy Regulatory Commission (FERC). The Department of Energy (DOE) intends these regulation to incorporate those prohibitions, restrictions, and requirements, statutory and otherwise, designed to assure the ethical conduct of employees. All DOE employees except employees of the Federal Energy Regulatory Commission (FERC) are subject to these regulations, which are intended to supersede other regulations applicable to employees prior to their commencement of DOE service. FERC employees are subject to only those provisions implementing the requirements of sections 601 through 608 of the Department of Energy Organization Act (Pub. L. 95-91). Those provisions are specifically listed and identified in the regulations.

DATE: Comments must be received on or before December 18, 1978.

ADDRESS: Send comments to: Department of Energy, Box TS, 2000 M Street, Room 2313, Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Ralph D. Goldenberg, Acting Assistant General Counsel for Standards of Conduct, 301-353-5285.

SUPPLEMENTARY INFORMATION:

I. Background

These regulation prescribe standards of conduct for all employees of the Department of Energy except employees of the Federal Energy Regulatory Commission (FERC). Only those provisions specifically designated are applied to employees of FERC. Incorporated in these regulations are the requirements of sections 601 through 608 of the Department of Energy Organization Act (Pub. L. 95-91), section 522 of the Energy Policy and Conservation Act (Pub. L. 94-163), section 308 of the Energy Research and Development Administration Appropriation Authorization Act (Pub. L. 95-39), and section 201(f) of the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95-87). These regulations also reflect requirements of 18 U.S.C. 201-209, Executive Order 11222 and applicable regulations of the Civil Service Commission (5 CFR Part 735). These regulations, when effective, will supersede conduct of employee regulations for the Energy Research and Development Administration (10 CFR Part 735), and the Federal Energy Administration (10 CFR Part 203). These regulations are divided into six subparts, as discussed below.

II. Discussion

SUBPART A—"GENERAL"

This general introductory subpart of the regulations provides an explanation of the scope and applicability of the regulations, the duties and responsibilities of DOE employees, reviewing officials, the Director of Personnel, and the General Counsels of the Department and the Federal Energy Regulatory Commission (FERC). Definitions of terms used in the regulations are also contained in Subpart A.

SUBPART B—"STANDARDS OF CONDUCT"

Subpart B contains the bulk of those provisions which guide DOE employees in their day-to-day activities. The restrictions contained in those provisions include the following:

All employees are cautioned to avoid any action which might result in, or create the appearance of, using public office for private gain, giving preferential treatement to any person, impeding Government efficiency or economy, making a Government decision outside official channels, or affecting adversely the confidence of the public in the integrity of the Government.

A supervisory employee may not engage in outside employment without first obtaining approval of the employee's reviewing official and the Counselor; any other employee must provide advance notice to his or her reviewing official.

Honoraria or fees may be accepted only for activities approved by the employee's reviewing official and the Counselor. No DOE employee shall receive compensation for any consultation, lecture, writing, etc., devoted substantially to DOE activities, drawn substantially from DOE information not publicly available, or sponsored by an interested party.

A DOE employee shall not solicit or accept, directly or indirectly, anything of monetary value (including complimentary meals and beverages) from an "interested party". An interested party is a person or entity that is, or seeks to become, engaged in financial transactions with DOE, that conducts activities regulated by DOE, or that may be substantially affected by the DOE employee's performance or nonperformance of assigned duties. Exceptions to this general rule include items available impersonally to the general public such as exhibits at fairs; loans on customary terms for usual activities such as home mortgage loans; gifts, entertainment, or favors where it is clear the motivating factor is a personal relationship rather than the business interests of the persons concerned; food and refreshments of insubstantial value and local transportation when alternative arrangements cannot be made; exchanges of entertainment and social amenities with representatives of foreign governments in accordance with diplomatic custom; and transportation, lodging, and subsistence paid by a foreign government or an international organization pursuant to treaty or U.S. statute. The Department is currently developing regulations which will implement the Foreign Gifts and Decorations Act, 5 U.S.C. 7342, as amended by Pub. L. 95-105, section 15 (August 15, 1977).

DOE employees are governed by the provisions of the Hatch Act which generally prohibit Federal employees from taking an active part in political management or political campaigns or using official authority or influence to interfere with an election or affect its results.

Employees shall not misuse Government property; engage in discrimination; misuse official information obtained through or in connection with the employee's Government employment; participate in any gambling activity while on Government property; fail to pay just financial obligations; misuse funds entrusted to the employee by fellow employees; or endorse in an official capacity the proprietary products or processes of manufacturers or other commercial firms.

SUBPART C—"RESTRICTIONS ON FINANCIAL, EMPLOYMENT, AND SIMILAR INTERESTS"

This subpart contains more specific restrictions with which employees must comply in order to avoid having or appearing to have a conflict between an employee's financial, employment and similar interests and the employee's Government duties and responsibilities.

Unless specifically permitted, no employee may participate personally and substantially in any particular matter in which, to the employee's knowledge, the employee or the employee's spouse or minor child has a financial interest. Financial interests in mutual funds or regulated investment companies that have widely diversified portfolios, and similarly constituted entities are exempted from this restriction. An employee having a financial interest in a particular matter that is within the scope of the employee's official duties shall disclose in writing that interest to the Counselor and the employee's reviewing official. An employee negotiating or arranging prospective employment with any entity may not participate personally and substantially as a Government employee in a particular matter when the employee knows that entity has a financial interest in the matter.

If a DOE employee terminates employment with the Government, that employee may never act as agent or attorney for anyone other than the United States in a particular matter involving a particular party or parties in which the United States is involved or has an interest if the former employee participated in the matter personally and substantially while employed by the Government. If the particular matter was merely within the boundaries of the former employee's official responsibilities during any part of the last year of the employee's Government service, the former employee is prohibited from appearing personally before any court or agency of the Government on behalf of anyone other than the United States with respect to that matter for 1 year after termination of the employee's official responsibility for that matter.

In addition to the above restrictions, the Department of Energy Organization Act prohibits "supervisory employees" of the Department from holding interests in energy concerns. "Supervisory employee" is defined as any employee at specified senior grade or pay levels or certain organizational levels. The term also includes employees performing certain specified functions and other employees designated by the Secretary who exercise sufficient decisionmaking or regulatory authority to warrant application of this prohibition; these employees will be identified as the Department's organizational structure solidifies. Appendix II of these regulations will contain a listing of the names or positions of supervisory employees and will be amended as circumstances warrant. The DOE Organization Act defines "energy concern" as any person having an interest in property from which certain energy resources are commercially obtained, or any person significantly engaged in any of a variety of business activities such as developing, producing, refining, distributing or selling minerals for use as an energy source; or producing, generating, transmitting, distributing, or selling electric power. A nonexclusive list of energy concerns will be published periodically to assist employees in identifying prohibited and/or reportable interests. The initial list of energy concerns was published in March 1978. The absence of a particular entity on the list shall not stay the application of any prohibition or restriction of these regulations. DOE is refining the criteria for identification of energy concerns. Such criteria will be incorporated into these regulations when they are established. Requests for determinations as to whether any particular entity is an energy concern should be submitted to the General Counsel of DOE.

In addition, supervisory employees employed by energy concerns prior to commencing service in the DOE are prohibited for 1 year after commencing DOE service from participating in any Department proceeding in which the employee while employed by an energy concern participated substantially or personally or for which the employee had direct responsibility, within 5 years of joining the Department. The supervisory employee is similarly prohibited from participating in Department proceedings involving an energy concern for 1 year after terminating employment with that energy concern other than in a rulemaking proceeding which has a substantial effect on numerous energy concerns. These regulations define Department proceeding to include a judicial proceeding, Department hearing, application, rulemaking, order, license, contract, grant, award, fund transfer, claim, controversy, charge, accusation, or arrest, in which the Department is directly involved.

Finally, supervisory employees are generally prohibited for 1 year after ceasing DOE employment from knowingly, with respect to a particular matter pending before the Department, making any communication to the DOE with intent to influence a DOE action, or making any appearance or attendance before DOE. An appearance or attendance is defined as the former employee's personal presence before a DOE employee conducting official DOE business, with direct or indirect contact between the former employee and the DOE employee relating to such official business. In person or other responses to requests from DOE officials for information relating to the former employee's duties in the Department are not encompassed by this definition.

All employees performing functions under the Surface Mining Control and Reclamation Act of 1977 are prohibited from having a financial interest in surface or underground coal mining operations. Appendix IV of these regulations will contain a list, by position, of employees performing such functions. This list is currently being compiled.

SUBPART D—"REPORTS"

Certain DOE employees will be required to file reports with their reviewing officials or the Counselor, as appropriate. Generally, all employees must file reports of financial interests unless they occupy positions specifically exempted from the disclosure requirements. Appendix I of these regulations will contain a list of exempted positions for the Department; positions may be exempted for FERC in the future.

Certain reports are required by law to be made publicly available. Lists of persons requesting access to an employee's reports will be made available to that employee.

It is intended that the report required by § 1010.403 of these regulations satisfy the reporting requirements of section 603 of Pub. L. 95-91 (42 U.S.C. 7213), section 522 of Pub. L. 94-163 (42 U.S.C. 6392) and section 308 of Pub. L. 95-39 (42 U.S.C. 5816a).

SUBPART E—"PROCEDURES AND SANCTIONS"

Subpart E explains the procedures employees should follow in seeking counseling or interpretation concerning these regulations. The Counselor will be responsible for counseling and providing interpretation. This subpart also includes procedures for seeking waivers from the restrictions or prohibitions in these regulations.

Finally, the penalties for noncompliance with these regulations are explained in Subpart E. The penalties range from administrative sanctions to civil and criminal penalties. For example, administrative sanctions may be imposed against reviewing officials for failure to perform review functions properly.

SUBPART F—"SPECIAL GOVERNMENT EMPLOYEES"

This subpart deals only with special Government employees and supplements provisions in the other subparts. Special Government employees are those employees retained or employed with or without compensation for 130 days or less during any 365 consecutive days.

III. Revocations.

These regulations when effective will supersede conduct of employee regulations for the Energy Research and Development Administration (10 CFR Part 735), and the Federal Energy Administration (10 CFR Part 203).

IV. Comments

To the extent that section 501 of the DOE Organization Act (42 U.S.C. 7191) is applicable to these regulations, it has been determined that no substantial issue of fact or law exists and that these regulations are unlikely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses. Therefore these regulations are being promulgated in accordance with section 553 of Title 5, United States Code. These reg-

ulations relate to Department management and personnel and therefore could be made final without notice and comment, period (5 U.S.C. 553(b)(A)). However, DOE has decided to publish these regulations as proposed regulations in order to receive comments from the public.

Subpart D—Reports

1010.401 General.
1010.402 Availability of reports.
1010.403 Statements of employment and fi-

In addition to the foregoing, these regulations implement other statutes cited elsewhere herein.

(c) These regulations, among other

tration, or Western Area Power Administration.

(c) "Appearance or attendance" means, for the purposes of section 605

(B) Producing, generating, transmitting, distributing, or selling electric power;

(C) Development, production, pro-

whom reports are submitted as set forth in § 1010.407(h). The functions of a reviewing official may not be re-

V 4 3 1 2 0 3 0 C 1 9 7 8

ulations relate to Department management and personnel and therefore could be made final without notice and comment period (5 U.S.C. 553(a)(2)). However, written comments are solicited and a 60-day comment period is provided. Comments must be received by 4:30 p.m. e.d.t., December 18, 1978 at the address indicated in the "Address" section of this preamble. Seven copies of the comments should be submitted.

(Department of Energy Organization Act, sections 601-608, 42 U.S.C. 7211-7218; Energy Policy and Conservation Act, section 522, 42 U.S.C. 6392; Energy Research and Development Administration Appropriation Authorization Act, section 308, 42 U.S.C. 5816a; and 5 CFR Part 735.)

Issued in Washington, D.C., October 11, 1978.

LYNN R. COLEMAN,
General Counsel.

It is proposed to amend 10 CFR Ch. X by adding Part 1010 to read as follows:[1]

PART 1010—CONDUCT OF EMPLOYEES

Subpart A—General

Sec.
1010.101 Purpose and scope.
1010.102 Applicability.
1010.103 Definitions (applicable to FERC).
1010.104 Responsibilities and authorities.
1010.105 Counseling and interpretations.

Subpart B—Standards of Conduct

1010.201 General.
1010.202 Additional statutory provisions.
1010.203 Salary of an employee payable only by the United States.
1010.204 Outside employment and other outside activity.
1010.205 Gifts, entertainment, and favors.
1010.206 Political activity.
1010.207 Use of Government property.
1010.208 Nondiscrimination.
1010.209 Misuse of information.
1010.210 Indebtedness.
1010.211 Gambling, betting, and lotteries.
1010.212 Handling of funds entrusted by fellow employees.
1010.213 Endorsements.
1010.214 Use of credentials.
1010.215 Assignees pursuant to the Intergovernmental Personnel Act and the President's Executive Interchange Program.
1010.216 Guidelines for Economic Regulatory Administration Employees in Conduct of Audits.

Subpart C—Restrictions on Financial, Employment and Similar Interests

1010.301 General.
1010.302 Restrictions concerning private financial interests.
1010.303 Postemployment restrictions.
1010.304 Participation prohibitions.
1010.305 Exceptions and waivers.

[1]These regulations when effective will supersede conduct of employee regulations for Energy Research and Development Administration (10 CFR Part 735) and the Federal Energy Administration (10 CFR Part 203).

Subpart D—Reports

1010.401 General.
1010.402 Availability of reports.
1010.403 Statements of employment and financial interests, and interests in energy concerns.
1010.404 Statement of interests in coal mining operations.
1010.405 Prior employment report—supervisory employees.
1010.406 Postemployment report—supervisory employees.
1010.407 Filing of forms DOE-459, DOE-460, and DOE-461.

Subpart E—Procedures and Sanctions

1010.501 Waivers.
1010.502 Sanctions.
1010.503 Appeals and grievances.
1010.504 Cancellation of contracts.

Subpart F—Special Government Employees

1010.601 Use of Government employment.
1010.602 Use of inside information.
1010.603 Coercion.
1010.604 Gifts, entertainment, and favors.
1010.605 Other provisions.

Appendix I [Reserved]
Appendix II [Reserved]
Appendix III A Form DOE-459.
Appendix III B Form DOE-460.
Appendix III C Form DOE-461.
Appendix IV [Reserved]

AUTHORITY: Pub. L. 95-91, section 644, 91 Stat. 599 (42 U.S.C. 7254); Pub. L. 95-91, Title VI, Part A, 91 Stat. 591-596 (42 U.S.C. 7211-7218); Pub. L. 94-163, section 522, 89 Stat. 961 (42 U.S.C. 6392); Pub. L. 95-39, section 308 (42 U.S.C. 5816a).

Subpart A—General

§ 1010.101 Purpose and scope.

(a) In order to assure that the business of the Department of Energy (DOE) is conducted effectively, objectively and without improper influence or the appearance thereof, all employees must be persons of high integrity and observe unquestionable standards of behavior. An employee shall not engage in criminal, infamous, dishonest, immoral, or disgraceful conduct or other conduct prejudicial to the Government. An employee shall avoid conflicts of private interests with public duties and responsibilities. Also, the employee must not do indirectly what would be improper to do directly. The propriety of any activity shall be considered in relation to general ethical standards of the highest order.

(b) These regulations are intended to implement the foregoing concepts. They are issued in compliance with Executive Order 11222, 5 CFR Part 735, and the following statutes:

(1) 18 U.S.C. 201-209.

(2) Pub. L. 95-91, sections 601-608 (42 U.S.C. 7211-7218).

(3) Pub. L. 94-163, section 522 (42 U.S.C. 6392).

(4) Pub. L. 95-39, section 308 (42 U.S.C. 5816a).

(5) Pub. L. 95-87, section 201(f) (30 U.S.C. 1211(f)).

(6) 30 U.S.C. 6.

In addition to the foregoing, these regulations implement other statutes cited elsewhere herein.

(c) These regulations, among other things, reflect prohibitions and requirements imposed by the criminal and civil laws of the United States. These regulations do not purport to reflect or enumerate all restrictions or requirements imposed by statutes, Executive Orders, regulations or otherwise upon Federal employees and former Federal employees. The omission of a restatement of or a reference to any such restriction or requirement in no way alters the legal effect of that restriction or requirement and any such restriction or requirement, as the case may be, continues to be applicable to employees in accordance with its own terms.

(d) It is expected that the provisions of these regulations will be observed and administered in a manner which is consistent with both their spirit and their letter.

§ 1010.102 Applicability.

(a) Except where specifically provided otherwise, these regulations apply to all officers, employees, and special Government employees of DOE, excluding officers, employees, or special Government employees of the Federal Energy Regulatory Commission (FERC).

(b) Those provisions hereinafter that are applicable to officers, employees, and special Government employees of FERC in addition to DOE employees are designated by "(Applicable to FERC)" and include: §§ 1010.103, 1010.104(g), 1010.215(a), 1010.302(b), 1010.303(b), 1010.303(c), 1010.304(b), 1010.304(c), 1010.305(d), 1010.401, 1010.402, 1010.403(b), 1010.403(c), 1010.403(d), 1010.405, 1010.406, 1010.407, 1010.501(a)(1), 1010.501(a)(2), 1010.501(a)(4), 1010.501(c), 1010.501(d), 1010.501(e), 1010.502(b), 1010.502(c), 1010.502(d), 1010.502(e), 1010.503, 1010.605(b), Appendix I, Appendix II, Appendix IIIA, Appendix IIIB, and Appendix IIIC.

(c) Special Government employees should also see Subpart F of these regulations.

§ 1010.103 Definitions (Applicable to FERC).

(a) "Secretary" means the Secretary of Energy as provided by the Department of Energy Organization Act, section 201, Pub. L. 95-91 (42 U.S.C. 7131), or his delegate.

(b) "Administrator" means any of the heads of the Energy Information Administration, Economic Regulatory Administration, Bonneville Power Administration, Southeastern Power Administration, Southwestern Power Administration, Alaska Power Administration, or Western Area Power Administration.

(c) "Appearance or attendance" means, for the purposes of section 605 of Pub. L. 95-91 (42 U.S.C. 7215), a former employee's personal presence before a DOE employee conducting official DOE business involving direct or indirect contact between the former employee and the DOE employee relating to such official business. In person, or other responses to requests from DOE officials for information relating to the former employee's duties in the Department are not encompassed by this definition.

(d) "Commission" or "FERC" means the Federal Energy Regulatory Commission established by Title IV of the Department of Energy Organization Act, Pub. L. 95-91 (42 U.S.C. 7171-7177).

(e) "Counselor" means the General Counsel of the Department or the General Counsel of the Commission or Deputy Counselors designated by either of the General Counsels, as appropriate.

(f) "DOE" or "Department" means the Department of Energy established by the Department of Energy Organization Act, section 201, Pub. L. 95-91 (42 U.S.C. 7131).

(g) "Department proceeding" means any judicial proceeding, Department hearing, application, rulemaking, order, license, contract, grant award, fund transfer, claim, controversy, charge, accusation, or arrest, in which the Department is directly involved.

(h) "Dependent" means dependent as defined in section 152 of the Internal Revenue Code of 1954, as amended.

(i) "Employee" means a DOE officer or employee (including, except where otherwise indicated, a special Government employee), or a member of the Uniformed Services (other than enlisted members) or an employee of another Government agency assigned or detailed to DOE.

(j) "Energy concern" means:

(1) Any person listed on the Energy Concern List published by DOE; or

(2) Any other person:

(i) Holding an interest in property from which coal, natural gas, crude oil, nuclear material, or a renewable resource is commercially produced or obtained;

(ii) Significantly engaged in the business of:

(A) Developing, extracting, producing, refining, transporting by pipeline, converting into synthetic fuel, distributing, or selling minerals for use as an energy source, or in the generation or transmission of energy from such minerals or from wastes or renewable resources;

(B) Producing, generating, transmitting, distributing, or selling electric power;

(C) Development, production, processing, sale, or distribution of nuclear materials, facilities, or technology; or

(D) Conducting research, development, or demonstration related to an activity described in paragraphs (2)(i), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C); or

(iii) Significantly engaged, whether or not for profit, in conducting research, development, or demonstration related to an activity described in paragraph (2)(i) or (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C) with financial assistance under any act the functions of which are vested in or delegated or transferred to the Secretary or the Department.

(3) For the purposes of reports required by Pub. L. 94-163 and Pub. L. 95-39, "energy concern" includes "energy businesses" and "energy properties" as those terms are used in those acts.

(4) "Energy concern" does not include religious organizations; mutual funds or regulated investment companies the portfolios of which are widely diversified, or similarly constituted entities; or utility cooperatives in which ownership is required for services.

(k) "Interested party" means any person, firm, corporation, or other entity, or representative thereof, which:

(1) Has, or is seeking to obtain, contractual or other business or financial relations with DOE;

(2) Conducts operations or activities that are regulated by DOE; or

(3) Has interests that may be substantially affected by the performance or nonperformance of the official duty of the DOE employee concerned.

(l) "Known financial interest" means any pecuniary interest of an employee, of which such employee has or should have knowledge.

(m) "Organization" means a university; foundation; nonprofit research entity or similar nonprofit organization; or State, county or municipality or subdivision thereof; as well as a business organization.

(n) "Participate" means, for the purposes of section 606 of Pub. L. 95-91 (42 U.S.C. 7216), involvement by an employee in a Department proceeding through decision, approval, disapproval, recommendation, the rendering of advice, or investigation.

(o) "Person" means an individual, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other organization or institution.

(p) "Represent" means, but is not limited to, acting as an agent or attorney.

(q) "Reviewing official" means, for each employee, the individual to whom reports are submitted as set forth in § 1010.407(h). The functions of a reviewing official may not be redelegated.

(r) "Special Government employee" means an officer or employee retained, designated, appointed, or employed with or without compensation for 130 days or fewer during any 365 consecutive days, to perform temporary duties either on a full-time or part-time or intermittent basis. The term includes experts and consultants, but does not include enlisted members of the Uniformed Services.

(s) "Supervisory employee" means:

(1) An individual holding a position in the Department at GS-16, GS-17, or GS-18 of the General Schedule or at level I, II, III, IV, or V of the Executive Schedule, or who is in a position at a comparable or higher level on any other Federal pay scale, or who holds a position pursuant to subsection (b) or (d) of section 621 of the DOE Organization Act (including an employee in the Energy Executive Service) or who is an expert or consultant employed pursuant to section 3109 of title 5, United States Code, for more than ninety days in any calendar year and receives compensation at an annual rate equal to or in excess of the minimum rate prescribed for individuals at GS-16 of the General Schedule;

(2) The director and deputy director of any State, regional, district, local, or other field office;

(3) An employee or officer who has primary responsibility for the award, review, modification, or termination of any grant, contract, award, or fund transfer within the authority of the Secretary; including:

(i) Contracting officers;

(ii) Grant officers;

(iii) Awarding officers (financial assistance awards);

(iv) Any other employees with authority or warrants to commit the Department to a transfer of appropriated funds to a non-Federal entity;

(v) Source selection officials; and

(4) Any other employee or officer who, in the judgment of the Secretary, exercises sufficient decisionmaking or regulatory authority so that the provisions of title VI of the DOE Organization Act should apply to such individual (See Appendix II).

(t) "Uniformed Services" means the Army, Navy, Air Force, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration, and Public Health Services (37 U.S.C. 101(3)).

(u) "Waiver" means any action by the Secretary or the Commission, where appropriate, to exempt or exclude an individual from particular restrictions, prohibitions or requirements of these regulations, including but not limited to actions under sec-

tions 602(c), 605(a)(3), and 606(c) of the DOE Organization Act, and 18 U.S.C. 205, 207, and 208.

any investigation, and report to the Counselor on any action taken.

(c) The Director of Administration shall:

(3) Maintain liaison with the General Counsel of DOE to maximize consistency in application of these regulations.

(c) The prohibitions against the disclosure of confidential information (18 U.S.C. 1905).

(v) The prohibition relating to the denial of the right to petition Congress (5 U.S.C. 7102).

employment. Incompatible activities include, but are not limited to:

(1) Acceptance of a fee, compensa-

V 43 I 203 OCT 1978

tions 602(c), 605(a)(3), and 606(c) of the DOE Organization Act, and 18 U.S.C. 205, 207, and 208.

§ 1010.104 Responsibilities and authorities.

(a) Employees shall:

(1) Read and comply with the statutes and the rules, standards of conduct, and other regulations referred to herein. Each employee shall receive a copy of these regulations and acknowledge, in writing, such receipt prior to assuming duties in the DOE;

(2) Conduct themselves in such a manner as to create and maintain respect for DOE and the Federal Government and avoid situations which require or appear to require a balancing of private interests or obligations against official duties;

(3) Be mindful of the high standards of integrity expected of them in all their activities, personal and official;

(4) Not give or appear to give favored treatment or competitive advantage to any member of the public, including former employees of DOE;

(5) Recognize that violation of any of the instructions or statutes referred to in these regulations may subject them to disciplinary action in addition to the penalty prescribed by law for such violation (see Subpart E); and

(6) Discuss with the reviewing official, or the Counselor, as appropriate, any problem arising out of these regulations.

(b) Reviewing officials shall:

(1) Assure that required reports are promptly filed by employees in each Office;

(2) Personally review all reports submitted to them, make determinations as appropriate, and forward all reports to the Counselor. Failure to fulfill these responsibilities may result in sanctions imposed in accordance with Subpart E of this part;

(3) Notify employees at the time of entrance on duty and periodically thereafter of the availability of counseling services and how and where these services are available;

(4) Bring the provisions of these regulations to the attention of each employee at such times as circumstances warrant;

(5) Bring to the attention of contractors dealing with their offices those provisions of these regulations (such as "Future employment"; "Gifts, entertainment, and favors"; "Cancellation of contracts"; and others) which may affect the actions of contractors and their employees in dealing with DOE employees; and

(6) Report to the Counselor and the Inspector General all alleged or actual misconduct of DOE employees; in consultation with the Counselor, take action where appropriate as a result of any investigation, and report to the Counselor on any action taken.

(c) The Director of Administration shall:

(1) Provide a copy of these regulations and any subsequent revision to each employee;

(2) Be responsible for transmitting notice to employees of applicable reporting requirements; and

(3) Distribute to reviewing officials those annual report forms required in Subpart D of this part no later than May 1 of each year.

(d) The Director of Personnel shall:

(1) Distribute to prospective employees and former supervisory employees those forms required to be submitted pursuant to Subpart D of this part; and

(2) Distribute copies of these regulations to all prospective employees at the time an offer of employment with the DOE is made or prior to the making of such offer, if possible.

(e) The Deputy Secretary shall assume those responsibilities placed upon the Deputy Secretary by Subpart E of this part.

(f) The General Counsel of DOE shall:

(1) Serve as the Counselor for DOE employees other than employees performing functions within the jurisdiction of FERC;

(2) Serve as DOE's designee to the Civil Service Commission on matters covered by these regulations;

(3) Designate Deputy Counselors;

(4) Have available for review by employees copies of pertinent laws, Executive orders, DOE regulations, and Civil Service Commission regulations relating to ethical standards and other conduct;

(5) Bring the provisions of these regulations to the attention of all employees annually, and at such other times as circumstances warrant;

(6) Coordinate couseling services, and assure that counseling and interpretations on questions of conflicts of interest and other matters covered by these regulations are available to employees and reviewing officials;

(7) Be responsible for the review and referral of alleged violations of these regulations to the Department of Justice or the Inspector General of DOE, as appropriate; and

(8) Maintain liaison with the General Counsel of FERC to maximize consistency in application of these regulations.

(g) The General Counsel of FERC shall: (Applicable to FERC)

(1) Serve as Counselor for employees performing functions within the jurisdiction of FERC;

(2) Perform for FERC those duties described in paragraphs (f)(3) through (f)(7) of this section; and

(3) Maintain liaison with the General Counsel of DOE to maximize consistency in application of these regulations.

(h) The Inspector General shall investigate alleged violations of these regulations.

§ 1010.105 Counseling and interpretations.

(a) Each employee's reviewing official shall be available to discuss with employees any questions or requests under these regulations.

(b) The Counselor shall be available to render advice or interpretations of these regulations to reviewing officials or to individual employees.

Subpart B—Standards of Conduct

§ 1010.201 General.

(a) All employees shall conduct themselves on the job in such a manner that the work of DOE is efficiently accomplished and courtesy, consideration and promptness are observed in dealings with the public and other governmental agencies.

(b) All employees shall conduct themselves off the job in such a manner as not to reflect adversely upon DOE or the Federal service.

(c) In all circumstances, employees shall conduct themselves so as to exemplify the highest standards of integrity. An employee should avoid any action, whether or not specifically prohibited by these regulations, which might result in, or create the appearance or:

(1) Using public office for private gain;;

(2) Giving preferential treatment to any person;

(3) Impeding Government efficiency or economy;

(4) Losing complete independence or impartiality;

(5) Making a Government decision outside official channels; or

(6) Affecting adversely the confidence of the public in the integrity of the Government.

§ 1010.202 Additional statutory provisions.

Attention of employees is directed to the following statutory provisions:

(a) The prohibitions contained in the following sections of the Atomic Energy Act of 1954, as amended: Sections 224, 225 and 226, relating to communication, receipt, and tampering with Restricted Data involving potential injury to the United States or portential advantage to a foreign nation; and section 227 relating to unauthorized disclosure of Restricted Data (42 U.S.C. 2274 through 2277).

(b) The prohibitions against the disclosure of classified information (18 U.S.C. 798, 50 U.S.C. 783).

(c) The prohibitions against the disclosure of confidential information (18 U.S.C. 1905).

(d) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(e) The prohibition against proscribed political activities in subchapter III of chapter 73 of Title 5, United States Code, and 18 U.S.C. 602, 603, 607 and 608.

(f) The prohibition against acceptance or solicitation to obtain appointive public office (18 U.S.C. 211).

(g) The prohibitions against disloyalty and striking (5 U.S.C. 7311, 18 U.S.C. 1918).

(h) The provisions relating to the habitual use of intoxicants to excess (5 U.S.C. 7352).

(i) The prohibition against the misuse of a Government vehicle (31 U.S.C. 638a(c)).

(j) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(k) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(l) The prohibition against fraud or false statements in a Government matter (18 U.S.C. 1001).

(m) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(n) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(o) The prohibition against embezzlement of Government money or property (18 U.S.C. 641).

(p) The prohibition against failing to account for public money (18 U.S.C. 643).

(q) The prohibition against an employee's private use of public money (18 U.S.C. 653).

(r) The prohibition against embezzlement of the money or property of another person in the possession of an employee by reason of his employment (18 U.S.C. 654).

(s) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(t) The prohibition against making false entries in official records with intent to defraud or making false reports concerning moneys and securities with such intent (18 U.S.C. 2073).

(u) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219). The criminal penalties of this section do not apply in any case in which the Secretary sends to the Attorney General a certification that the employment of the agent as a special Government employee is in the national interest.

(v) The prohibition relating to the denial of the right to petition Congress (5 U.S.C. 7102).

(w) The prohibition against a public official appointing or promoting a relative, or advocating such an appointment or promotion (5 U.S.C. 3110).

(x) The prohibition against the employment of an individual convicted of felonious rioting or related offenses (5 U.S.C. 7313).

(y) The prohibition against arbitrary and capricious withholding of agency records reguested under the Freedom of Information Act (5 U.S.C. 552).

(z) The prohibition against knowing disclosure of information the disclosure of which is prohibited; the prohibition against willfully maintaining a system of records without appropriate notice provisions; and the prohibition against knowingly and willfully requesting or obtaining any record concerning an individual under false pretenses (5 U.S.C. 552a).

(aa) House Concurrent Resolution 175, 85th Congress, 2d session, 72 Stat. B12, the "Code of Ethics for Government Service".

(bb) Prohibition against acceptance of an honorarium of more than $2,000 or honoraria totalling more than $25,000 in any calendar year (2 U.S.C. 441i).

§ 1010.203 Salary of an employee payable only by the United States.

(a) No employee, other than a special Government employee or an employee serving without compensation, shall receive any salary, or any contribution to or supplementation of salary, as compensation for services as a Federal employee, from any source other than the Government of the United States, except as may be contributed out of the treasury of any State, county, or municipality (18 U.S.C. 209).

(b) Nothing in this section shall be deemed to prohibit an employee from continuing to participate in a bona fide pension, retirement, group life, health, of accident insurance, profit-sharing, stock bonus, or other employee welfare or benefit plan maintained by a former employer, which does not cause a conflict of interest, appearance of conflict or potential conflict, nor from accepting contributions, awards, or other expenses under section 4111 ("Acceptance of contributions, awards and other payments") of Title 5, United States Code.

§ 1010.204 Outside employment and other outside activity.

(a) Employees shall not engage in outside employment or other outside activity not compatible with the full and proper discharge of the duties and responsibilities of their Government employment. Incompatible activities include, but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, a conflict of interest;

(2) Outside employment which tends to impair the employees' mental or physical capacity to perform assigned Government duties and responsibilities in an acceptable manner;

(3) Outside employment which conflicts or gives the substantial appearance with the employee's duties or the mission of the DOE; and

(4) Outside work or activity that takes the employees' time or attention during the employees' official work hours. Examples of the type of work or activity that often can require the employee's time or attention during the employee's official work hours, and which would be prohibited under such circumstances, include:

(i) Lawyers conducting private practice;

(ii) Auditors doing income tax forms for fellow employees or private persons;

(iii) Real estate agents handling home or land buying/selling activities.

(b) An employee who intends to engage in outside employment shall inform the employee's reviewing official and the Counselor in advance of undertaking such activity. In addition, supervisory employees shall obtain advance approval of the employee's reviewing official and the Counselor. A record of each approval under this paragraph shall be filed in the employee's official personnel folder. In addition, a record of each approval shall be retained in the Office of the General Counsel.

(c) Within the limitations imposed by this section, employees are encouraged to engage in teaching, lecturing, and writing. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing that is dependent on information obtained as a result of the employee's Government employment, except when that information has been made available to the general public or will be made available on rquest, or when the Secretary gives written authorization for the use of non-public information on the basis that the use is in the public interest. In addition, DOE employees, including Presidential appointees, shall not receive compensation or anything of monetary value (such as an honorarium) for any consultation, lecture, discussion, writing, or appearance the subject matter of which is devoted substantially to the responsibilities, programs, or operations of DOE, or which draws substantially on official

data of ideas which have not become part of the body of public information, or where the sponsor is an interested and industry. Therefore, except as provided in paragraph (b) of this section, DOE employees shall not solicit

informal business meeting at the place of business of an interested party to accept a lunch provided by the inter-

§ 1010.206 Political activity.

(a) All employees in the Executive Branch of the Federal Government

ities and the conditions under which the exceptions are granted may be obtained from the personnel office or

mation obtained through or in connection with the employee's Government employment which has not been made

V 4 3 / 2 0 3 0 C 1 9 7 8

data of ideas which have not become part of the body of public information, or where the sponsor is an interested party.

(d) Though not necessarily outside employment, an employee may accept a fee or other compensation for a private activity which is not prohibited by law or these regulations, after providing notice or receiving advance approval pursuant to paragraph (b) of this section. The amounts of honoraria are limited by 2 U.S.C. 441i.

(e) Except as allowed for training or to attend meetings under section 4111 ("Acceptance of contributions, awards and other payments") of Title 5, United States Code, and Executive Order 10800 ("Implementing the Government Employees Training Act"), no employee shall accept a fee from an outside source on account of a public appearance, a speech, or lecture, if the public appearance or the preparation or delivery of the speech or lecture was a part of the official duties of the employee; if the public appearance, speech, or lecture was made during official working hours; or if travel for the purpose of the public appearance, speech, or lecture was made at Government expense. In addition, no employee shall accept a fee for the preparation, publication, or review of an article, story, or book if it was prepared during official working hours and/or was a part of the official duties of the employee.

(f) An employee shall not engage in outside employment with a State or local government, except in accordance with applicable regulations of the Civil Service Commission.

(g) This section does not preclude an employee from:

(1) Participation in the activities of national or State political parties not proscribed by law or § 1010.206 of these regulations.

(2) Participation in the affairs of or acceptance of an award for meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit educational or recreational, public service, or civic organization.

(h) This section does not apply to special Government employees, who are subject to the provisions of Subpart F of this part.

§ 1010.205 Gifts, entertainment, and favors.

(a) Acceptance of gifts, entertainment, or favors, no matter how innocently tendered and received, from those who have or seek business with DOE may be a source of embarrassment to DOE and the employee involved, may affect the objective judgment of the recipient and may impair public confidence in the integrity of the business relations between DOE and industry. Therefore, except as provided in paragraph (b) of this section, DOE employees shall not solicit or accept any gift, entertainment, or favor (including complimentary meals and beverages), either directly or indirectly from any interested party. For the purpose of this section, gifts, entertainment, and favors include any tangible item, intangible benefits, discounts, tickets, passes, transportation, and accommodations or hospitality given or extended to or on behalf of the recipient. This prohibition, of course, does not preclude an employee from such actions as purchasing his or her own ticket to a function sponsored by an interested party, or sitting at the same table with a representative of an interested party so long as the employee pays for his or her own meal.

(b) The following are generally exceptions to the rule set forth in paragraph (a) of this section; however, employees are cautioned to avoid any situation (even if it might be viewed as one of the stated exceptions) which might raise questions of appearance of conflict of interest or reflect discredit upon the Department.

(1) Trophies, entertainment, prizes, or awards given for public service or achievement, or given in contests which are clearly open to the public generally or which are officially approved by the Secretary for DOE employee participation.

(2) Things available impersonally to the general public or classes of the general public, such as a free exhibition at a fair.

(3) Participation in civic and community activities by DOE employees when the relationship with the interested party can reasonably be characterized as remote; for example, participation in a little league or Combined Federal Campaign luncheon which is subsidized by an interested party.

(4) The acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans.

(5) Acceptance of gifts, entertainment, or favors where there is an obvious family or personal relationship between the employee and the other party, where the circumstances make it clear that it is that relationship rather than the business of the persons concerned which is the motivating factor for the gift, entertainment, or favor.

(6) Acceptance of food and refreshment of insubstantial value or acceptance of local transportation, while on official business when no provision for individual payment can be made and alternative arrangements are clearly impracticable. This exception would allow a DOE employee attending an informal business meeting at the place of business of an interested party to accept a lunch provided by the interested party where arrangements for the DOE employee to pay for the lunch are clearly impracticable. Also local transportation may be provided where alternative arrangements are impracticable, such as transportation to and from an offshore drilling rig on official business, or contractor-provided transportation from an airport to a remote site for business purposes.

(7) Exchange of food, refreshments, and social amenities with representatives of foreign governments or international organizations, where such exchanges are in accordance with diplomatic custom and are clearly incident to the conduct of official business.

(8) Acceptance of transportation, lodging, or subsistence from foreign governments or international organizations where the offer of such services is pursuant to the performance of functions under a treaty or United States Statute.

(9) Acceptance of transportation, lodging, or subsistence, in kind, from an entity providing training pursuant to a contract with a Federal Department or Agency, by a DOE employee serving as an instructor or lecturer at such training.

(10) Acceptance of gifts from foreign governments in accordance with 5 U.S.C. 7342, as amended by Pub. L. 95-105, § 515 (August 15, 1977). Any such gift or thing which cannot appropriately be refused will be brought to the attention of the Counselor for advice concerning appropriate disposition.

(11) Instances in which the interests of the government are served by participation of a DOE employee in widely attended luncheons, dinners, and similar gatherings sponsored by consumer, environmental, industrial, technical, trade, professional, or other associations for the discussion of matters of mutual interest. Participation in such events is permitted only when the host is the association and not a private company and only when approved by the employee's reviewing official as being a part of or related to his official duties. Acceptance of gratuities, food or refreshments from a private company in connection with such association's activities is forbidden.

(12) Situations not specifically covered by paragraphs (b)(1)-(11) of this section but in which, in the judgment of the individual concerned, the Government's interest will be served by participation by DOE employees in activities at the expense of an interested party and of which the Counselor has granted prior approval.

§ 1010.206 Political activity.

(a) All employees in the Executive Branch of the Federal Government are subject to basic political activity restrictions in subchapter III of Chapter 73 of Title 5, U.S.C. (commonly known as the Hatch Act) and Civil Service Rule IV (5 CFR Part 4). Employees are individually responsible for refraining from prohibited political activity. Ignorance of a prohibition does not excuse a violation. This section summarizes provisions of law and regulation concerning political activity of employees.

(b) Employees on leave, on leave without pay, or on furlough or terminal leave, even though the employee's resignations have been accepted, are subject to the restrictions. A separated employee who has received a lump-sum payment for annual leave, however, is not subject to the restriction during the period covered by the lump-sum payment or thereafter: *Provided*, That the employee does not return to Federal employment during that period. An employee is not permitted to take leave of absence to work with a political candidate, committee, or organization or become a candidate for office with the understanding that the employee will resign his position if nominated or elected.

(c) An employee is accountable for political activity by another person acting as the employee's agent or under the employee's direction or control if the employee is thus accomplishing indirectly what may not lawfully be done directly and openly.

(d) Section 7324 of title 5, U.S.C., provides that employees have the right to vote as they please and the right to express their opinions on political subjects and candidates. Generally, however, they are prohibited from taking an active part in political management or political campaigns or using official authority or influence to interfere with an election or affect its results. The following are exemptions from the restrictions of the statute:

(1) Employees may engage in political activity in connection with any question not specifically identified with any National or State political party. They also may engage in political activity in connection with an election if none of the candidates represent a party any of whose candidates for Presidential elector received votes at the last preceding election at which Presidential electors were selected.

(2) An exception relates to political campaigns in communities adjacent to the District of Columbia or in communities the majority of whose voters are employees of the Federal Government. Communities in which the exception applies are specifically designated by the Civil Service Commission. Information regarding the localities and the conditions under which the exceptions are granted may be obtained from the personnel office or the Counselor.

(3) Employees who work on an irregular or occasional basis are exempt on those days during which they are at no time in active duty status.

(4) The Secretary as well as other officials appointed by the President by and with the advice and consent of the Senate, who determine policies to be pursued by the United States in its relations with foreign powers or in the nationwide administration of Federal laws are exempt from the prohibitions concerning active participation in political management and political campaigns.

(e) There are restrictions other than those imposed by subchapter III of chapter 73 of title 5, U.S.C. (the Hatch Act), and CSC Rule IV which relate to:

(1) Political contributions and assessments;

(2) Circulars of solicitation;

(3) Solicitation in Federal buildings;

(4) Solicitation by letter;

(5) Payment by one employee to another;

(6) Discrimination because of political contributions;

(7) Purchase and sale of public office;

(8) Political recommendations and discrimination; and

(9) Other criminal offenses set forth in 18 U.S.C., chapter 29.

Further information concerning these restrictions may be obtained from the Counselor.

§ 1010.207 Use of Government property.

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property including equipment, supplies, and other property entrusted or issued to the employee.

§ 1010.208 Nondiscrimination.

An employee shall not be discriminated against because of race, color, religion, national origin, sex, age, politics, marital status, or on the basis of a physical handicap with respect to any position the duties of which may be efficiently performed by a person with a physical handicap. This prohibition applies to both employment and utilization of DOE employees.

§ 1010.209 Misuse of information.

(a) For the purpose of furthering a private interest, an employee shall not, except as provided in paragraph (c) of § 1010.204, directly or indirectly use, or allow the use of, official information obtained through or in connection with the employee's Government employment which has not been made available to the general public.

(b) An employee of DOE shall not improperly divulge or disclose any trade secrets, processes, financial data, or other business information which is submitted to or filed with DOE on a confidential basis and which falls within the purview of 18 U.S.C. 1905.

(c) In addition to the prohibitions specified in paragraphs (a) and (b) of this section employees are subject to the prohibition imposed by section 68a of the Atomic Energy Act of 1954, 42 U.S.C. 2098(a), "Public and Acquired Lands":

> No individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic energy program, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association by reason of having had such part in the development of the atomic energy program, acquired confidential official information as to the existence of deposits of uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made and subsequent to August 30, 1954, made such location, entry, or settlement, or caused the same to be made for his, or its, or their benefit.

§ 1010.210 Indebtedness.

An employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as a Federal, State, or local tax. For the purpose of this section, "in a proper and timely manner" means in a manner which DOE determines does not, under the circumstances, reflect adversely on the Government. Also, for the purpose of this section, a "just financial obligation" means one acknowledged by the employee, or reduced to judgment by a court, or one imposed by law such as Federal, State, or local taxes; any other debt contested in good faith by an employee is not subject to this section. In the event of dispute between an employee and an alleged creditor, this section does not require DOE to determine the validity or amount of the disputed debt.

§ 1010.211 Gambling, betting, and lotteries.

(a) An employee shall not participate, while on Government-owned or leased property or while on duty for the Government, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket.

(b) This section does not preclude activities:

(1) Necessitated by an employee's law enforcement duties; or

(2) Under section 3 of Executive Order 10927 (on Conduct of Fund concern, unless the Secretary grants an appropriate waiver pursuant to § 1010.501.

(b) Individuals assigned pursuant to the employee's Government duties and responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of,

(i) Financial interests in mutual funds or regulated investment companies the portfolios of which are widely diversified, and similarly constituted determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter involving a specific party or parties in which the

§ 1010.304 Participation prohibitions.

(a) *All employees (18 U.S.C. 203 and 205).* No employee except in the

V 4 3 \ 2 0 3 C 1 9 7 8

(1) Necessitated by an employee's law enforcement duties; or

(2) Under section 3 of Executive Order 10927 (on Conduct of Fund Raising Activities) and similar Department-approved activities.

§ 1010.212 Handling of funds entrusted by fellow employees.

No employee shall receive, retain, or disburse funds entrusted to the employee by fellow employees (e.g., credit union deposits or donations to charitable organizations) except with the utmost care in the safeguarding of such funds and the maintenance of full and complete records with regard to the receipt, custody, and disbursement of such funds. Such records shall be made available to appropriate authorities upon proper request.

§ 1010.213 Endorsements.

(a) Employees are prohibited from endorsing, or appearing to endorse, in an official capacity the proprietary products of processes of manufacturers or the services of commercial firms for advertising, publicity, or sales purposes. Use of materials, products, or services by the Department does not constitute official endorsement.

(b) Employees are prohibited from engaging in outside employment or other outside activity which identifies DOE or any employee in an official capacity with any organization commercializing products relating to work conducted by DOE or with any commercial advertising matter, or work performed under such circumstances as to give the impression that it is an official act of DOE or represents an official point of view.

§ 1010.214 Use of credentials.

Credentials and other Department of Energy identification devices are for use only in establishing identity or authority in connection with official business. Such credentials and identification devices or an employee's official position, status, or designation are not to be used by employees to exert influence or obtain—either directly or indirectly—privileges or rewards for themselves or others.

§ 1010.215 Assignees pursuant to the Intergovernmental Personnel Act and the President's Executive Interchange Program.

(a) (Applicable to FERC) The DOE may utilize individuals assigned under the Intergovernmental Personnel Act and the President's Executive Interchange Program. However, no individual will be invited by the DOE to participate in such programs if such individual would be a supervisory employee in the DOE and the business, government or institution by whom such individual is employed is an energy concern, unless the Secretary grants an appropriate waiver pursuant to § 1010.501.

(b) Individuals assigned pursuant to the Intergovernmental Personnel Act and the President's Executive Interchange Program shall be considered employees for the purposes of these regulations.

(c) Reviewing officials proposing to utilize an individual under the Intergovernmental Personnel Act or the President's Executive Interchange Program shall, prior to commencing negotiations with such individual, or the individual's current employer, submit to the Counselor, the individual's name, proposed position, salary, and current employer. The Counselor shall then determine whether it is appropriate to utilize such individual.

§ 1010.216 Guidelines for Economic Regulatory Administration employees in conduct of audits.

(a) When an employee of the Economic Regulatory Administration receives an assignment involving a person acting as either principal, or agent, with whom the employee has had a prior social or business association or any relationship which might impair or give the appearance of impairing the employee's impartiality or independence, the employee will discuss with his supervisor the possible need to have the assignment transferred to another employee.

(b) During the execution of the assignment, an employee should not enter into a social or business association with any person who is a principal or agent of the firm being audited, or into any relationship which might impair, or give the appearance of impairing his impartiality or independence. Should such a relationship develop, the employee will discuss with his supervisor the possible need to have the assignment transferred to another employee.

Subpart C—Restrictions on Financial, Employment and Similar Interests

§ 1010.301 General.

(a) The maintenance of public confidence in the Government clearly demands that a DOE employee take no action which would constitute the use of official position to advance personal or private interests.

(b) All employees must read carefully this subpart to ascertain those restrictions applicable only to certain classes of DOE employees. Any question concerning the class in which an individual belongs should be directed to the reviewing official concerned.

(c) An employee shall not:

(1) Have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with the employee's Government duties and responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of, or primarily relying on, information obtained through Government employment.

§ 1010.302 Restrictions concerning private financial interests.

(a) *All employees (18 U.S.C. 208).* Unless authorized to do so as provided hereafter in this section, no employee shall participate personally and substantially as a Government employee in a particular matter in which the employee knowingly has a financial interest.

(1) For purposes of this section—

(i) An employee "participates" in a particular matter through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise.

(ii) A "particular matter" is a judicial or other proceeding, application, request for ruling or other determination, contract, claim, controversy, charge, accusation, arrest or other such matter.

(iii) A "financial interest" is the interest of the employee or the employee's spouse, minor child, partner, organization in which the employee is serving as officer, director, trustee, partner, or employee, or any person or organization with whom the employee is negotiating or has any arrangement concerning prospective employment. An employee shall be deemed to be negotiating for prospective employment upon an expression of interest in response to a solicitation for future employment by either the employee or the person or organization.

(2) Administrative waiver: The employee's reviewing official may waive the restrictions of paragraph (a) of this section in a particular matter for an individual if the employee's reviewing official determines in writing that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect of the individual. See Subpart E, § 1010.501(b) for procedures applicable to this waiver. Where it appears that the conflict of interest would arise in other matters in which the employee would be involved in the performance of normal duties, remedial action shall be taken.

(3) Waiver by rule or regulation. The Secretary may by rule or regulation waive the restrictions of paragraph (a) of this section for classes of financial interest which the Secretary determines are too remote or too inconsequential to affect the integrity of an employee's services. (See § 1010.501.) The restrictions on the following financial interests are waived pursuant to this paragraph:

(i) Financial interests in mutual funds or regulated investment companies the portfolios of which are widely diversified, and similarly constituted entities.

(ii) [Reserved]

(b) *Supervisory employees (42 U.S.C. 7212).* (Applicable to FERC) In addition to the above restrictions, no supervisory employee shall knowingly receive compensation from, or hold any official relation with, any energy concern, or own stocks or bonds of any energy concern, or have any pecuniary interest therein.

(1) All supervisory employees shall comply with the provisions of paragraph (b) of this section prior to assuming their duties in the DOE.

(2) Waivers of the restrictions of paragraph (b) may be requested in accordance with § 1010.501.

(c) *Employees holding positions listed in Appendix IV (30 U.S.C. 1211(f)).* No employee holding a position listed in Appendix IV shall have a direct or indirect financial interest in underground or surface coal mining operations. Such covered employees shall comply with the provisions of this paragraph prior to assuming their duties in DOE.

(d) Notwithstanding the reporting requirements of Subpart D of this part, any employee who has a financial interest (other than a financial interest waived under paragraph (a)(3) of this section) in a particular matter which is within the scope of the employee's official duties shall make a full disclosure of that interest in writing to both the employee's reviewing official and the Counselor at such time as the employee acquires the financial interest or begins participating in the particular matter.

§ 1010.303 Postemployment restrictions.

(a) *All employees (18 U.S.C. 207).* After Government employment has ceased, no former employee may:

(1) Knowingly act as agent or attorney for anyone other than the United States in connection with any judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter involving a specific party or parties in which the United States is a party or has an interest and in which the former employee participated personally and substantially for the Government through decision, approval, disapproval, recommendation, rendering of advice, investigation, or otherwise; and

(2) Appear personally before any Government court, department or agency as agent or attorney for anyone other than the United States in connection with any proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter involving a specific party or parties in which the United States is a party or has an interest and which was within the boundaries of the former employee's official responsibilities during the last year of that employee's Government service, for a period of one year after termination of the employee's official responsibility for that matter.

(b) *Supervisory employees (42 U.S.C. 7215).* (Applicable to FERC) In addition to the above, for one year after employment with DOE ceases, except as provided in paragraph (b)(2) of this section, no supervisory employee shall knowingly make any appearance or attendance (see § 1010.103(c)) before the Department, or make any written or oral communication to, with the intent to influence the action of, the Department, if such appearance or communication relates to any particular matter which is pending before the DOE.

(1) The prohibition in paragraph (b) of this section prohibits most forms of contact with DOE of a business nature by a former supervisory employee, other than written or oral contact to request information, for one year after employment with DOE ceases. The prohibition does not prevent a former supervisory employee from responding to requests from DOE officials for information relating to the former employee's duties in the Department.

(2) The prohibition in paragraph (b) of this section shall not apply to:

(i) Any appearance, attendance or communication by a former supervisory employee who is employed by and acting on behalf of, the United States; or

(ii) Any appearance of communication by the individual where such appearance or communication is made in response to a subpoena, or concerns any matter of an exclusively personal and individual nature such as pension benefits.

(c) Scientific and technological waiver. (Applicable to FERC) The Secretary or the Commission may waive the provisions of this section for a former DOE employee in connection with a particular matter in a scientific or technological field, if the Secretary or the Commission, as appropriate, determines that the national interest would be served by such waiver because the former employee possesses outstanding scientific or technological qualifications. (See § 1010.501.)

(d) A limited exception from the restrictions contained in paragraph (a) of this section is available, pursuant to the Indian Self-Determination Act (25 U.S.C. 450i(f)), to former employees who are employed by Indian tribes.

§ 1010.304 Participation prohibitions.

(a) *All employees (18 U.S.C. 203 and 205).* No employee except in the proper discharge of official duties shall represent anyone before a court or Government agency in a matter in which the United States is a party or has an interest. This prohibition applies both to paid and unpaid representation of another.

(1) A special Government employee is subject to this restriction only if it is a matter in which that employee participated personally and substantially for the Government.

(2) Notwithstanding paragraph (a)(1) of this section, no special Government employees who has served more than 60 days during the preceding 365 days may represent anyone else in a matter pending before DOE.

(3) Waivers from the prohibitions of this paragraph are permitted in accordance with § 1010.501.

(b) *Supervisory employees (42 U.S.C. 7216).* (Applicable to FERC.) No supervisory employee shall knowingly participate:

(1) For a period of one year after terminating any employment with any energy concern, in any Department proceeding in which the supervisory employee's former employer is substantially, directly, or materially involved, other than in a rulemaking proceeding which has a substantial effect on numerous energy concerns; or

(2) For a period of one year after commencing service in the DOE, in any Department proceeding for which, within the previous 5 years, the supervisory employee had direct responsibility, or in which the supervisory employee participated substantially or personally, while in the employment of any energy concern.

(c) (Applicable to FERC.) The Secretary may waive the restrictions of paragraph (b) of this section in accordance with § 1010.501.

(d) A limited exception from the restrictions contained in paragraph (a) of this section is available, pursuant to the Indian Self-Determination Act (25 U.S.C. 450i(f)), to employees who are assigned to Indian tribes.

§ 1010.305 Exceptions and waivers.

(a) Nothing in this subpart shall be deemed to prohibit employees, if it is not otherwise inconsistent with the faithful performance of their duties, from representing without compensation any person in a disciplinary, loyalty, or other Federal personnel administrative proceeding involving such person.

(b) Provided that an employee obtains prior approval, or provides advance notification in accordance with the provisions of § 1010.204 regarding outside employment, nothing in these

regulations shall be deemed to prohibit employees from representing, with or without compensation, their par-

§ 1010.402 Availability of reports (Applicable to FERC).

(a) Reports under the provisions of

(4) Shall satisfy the requirements of section 522 of the Energy Policy and Conservation Act (EPCA), Pub. L. 94-

(1) Those entities which the supervisory employee believes to be energy concerns shall be listed in part A of the report.

(2) The individual amends such

the DOE (including Form DOE-459); and

(3) Form DOE-461 shall be filed with the Conuselor not later than May 15 of the first and second calendar

regulations shall be deemed to prohibit employees from representing, with or without compensation, their parents, spouse, child, or any person for whom, or for any estate for which, they are serving as guardian, executor, administrator, trustee, or other personal fiduciary, *except* in those matters in which they have participated personally and substantially as Government employees, or which are the subject of their official responsibilities.

(c) Nothing in these regulations shall be deemed to prohibit employees from giving testimony under oath or from making statements required to be made under penalty for perjury or contempt.

(d) (Applicable to FERC.) Nothing in this subpart shall prevent employees from requesting a waiver pursuant to Subpart E.

Subpart D—Reports

§ 1010.401 General (Applicable to FERC).

(a) The Director of Personnel shall provide appropriate forms to new employees prior to their assumption of duties in the Department, and to a DOE employee assigned new duties prior to the employee's assumption of such new duties. The Director of Administration shall provide Form DOE-459 to DOE employees annually prior to May 1.

(b) Forms DOE-459 and DOE-460 shall be filed no later than the times stated in §§ 1010.403, and 1010.405 with the employee's reviewing official who shall make a determination regarding financial interests therein revealed. The reviewing official shall complete this review and forward each form with the relevant determination to the Counselor within 15 days of receipt of the form.

(c) The Counselor shall review Form DOE-461 pursuant to § 1010.406 and other forms and determinations following receipt from the reviewing officials.

(1) The Counselor or the reviewing official in coordination with the Counselor may require divestiture of certain financial interests pursuant to § 1010.302. Any required divestiture action shall be taken within the time required by the Counselor or reviewing official and confirmed in writing.

(2) A required divestiture action may be appealed pursuant to § 1010.503, or a waiver may be requested pursuant to § 1010.501 within 30 days of receipt of such advice.

(d) An employee may request from the Counselor an extension(s) of time for filing Form DOE-459. The Counselor may grant such extensions for periods up to a total of 90 days.

(e) Persons aggrieved by application of this subpart may proceed in accordance with § 1010.503.

§ 1010.402 Availability of reports (Applicable to FERC).

(a) Reports under the provisions of §§ 1010.403(b), 1010.405(a)(1) and 1010.406(a)(1) will be made available to the public. Reports under the provisions of §§ 1010.403(c), 1010.405(a)(2) and 1010.406(a)(2) will be held in confidence.

(b) Reports required by law to be publicly available shall be made available at a location specified by the Counselor within 30 days after receipt of the reports by the reviewing official, or in the case of Form DOE-461, within 30 days after receipt by the Counselor.

(c) Written requests for copies of publicly available reports should be addressed to:

The General Counsel, Department of Energy, or Federal Energy Regulatory Commission (as appropriate), Washington, D.C. 20545 (20426 for FERC).

(1) Persons requesting copies of reports may be required to pay a reasonable fee which may be necessary to recover the cost of reproduction and mailing of such reports.

(d) Publicly available reports will be retained by the Counselor for six years.

(e) A file of the waivers granted pursuant to § 1010.501, shall be available from the Counselor for inspection and copying during regular working hours.

(f) A record of persons requesting access to any particular employee's reports shall be maintained by the Counselor and shall be available to that employee.

§ 1010.403 Statements of employment and financial interests and interests in energy concerns.

(a) The requirements of this section are applicable to all employees, except as specifically excluded in Appendix I.

(b) Form DOE-459, Part A. (Applicable to FERC) This report of interests in energy concerns:

(1) Shall be publicly available;

(2) Shall include information as requested in the sample form in Appendix III A;

(3) Shall be completed by employees within 30 days of commencement of service in the Department and on every May 15 thereafter. *Notwithstanding the allowable 30 day period, prospective supervisory employees and prospective special Government employees and their appointing officials are urged to assure the filing of such reports and their appropriate review by the Counselor to identify and avoid potential violations of section 602 of the DOE Organization Act (§ 1010.302(b) of these regulations) prior to commencement of the prospective employees; functions;* and

(4) Shall satisfy the requirements of section 522 of the Energy Policy and Conservation Act (EPCA), Pub. L. 94-163, section 601 *et seq.* of the DOE Organization Act, Pub. L. 95-91, and section 308 of Pub. L. 95-39.

(c) Form DOE-459, Part B. (Applicable to FERC) This confidential statement of employment and financial interests:

(1) Shall be held in confidence;

(2) Shall include that information requested on the sample form in Appendix III A; and

(3) Shall be filed by employees within 30 days of commencement of service in the DOE and on each May 15 thereafter. *Notwithstanding the allowable 30 day period, prospective supervisory employees and prospective special Government employees and their appointing officials are urged to assure the filing of such reports and their appropriate review by the Counselor to identify and avoid potential violations of 18 U.S.C. 208 (§ 1010.302(a) of these regulations) prior to commencement of the prospective employee's functions.*

(d) (Applicable to FERC) Employees required to file Form DOE-459 who cease to be DOE employees during any calendar year shall file the report within 30 days of the date of termination concerning that portion of such year beginning on January 1 and ending on the date employment terminates.

(e) Special Government employees shall keep the Form DOE-459 current throughout their employment with the Department by submission of supplementary statements, as needed, in addition to the annual report.

§ 1010.404 Interests in coal mining operations.

(a) All employees occupying positions listed in Appendix IV as involving functions under the Surface Mining Control and Reclamation Act (Pub. L. 95-87) must so indicate on Part C of Form DOE-459.

(b) Each employee occupying a position listed in Appendix IV must certify in Part C of Form DOE-459 that none of the listed financial interests represent a direct or indirect financial interest in an underground or surface coal mining operation except as specifically identified and described.

§ 1010.405 Prior employment report—supervisory employees—(Applicable to FERC).

(a) Each supervisory employee shall file Form DOE-460 identifying any entity which paid that employee compensation in excess of $2,500 in the calendar year in which he is reporting or in any of the five preceeding calendar years.

(1) Those entities which the supervisory employee believes to be energy concerns shall be listed in part A of the report.

(2) Other entities shall be listed in part B.

(b) Such report shall include information as requested on the sample form in Appendix III B.

(c) Such report need not include:

(1) Any information considered confidential as a result of a privileged relationship, recognized by law, between such supervisory employee and any person; or

(2) Any information with respect to any person for whom services were provided by any firm or association of which such supervisory employee was a member, partner, or employee unless such supervisory employee was directly involved in the provision of such services.

(d) Part A of the report listing energy concerns shall be available to the public.

(e) Such report shall be filed within 60 days of becoming a supervisory employee in the DOE. *Notwithstanding the allowable 60 day period, prospective supervisory employees and their appointing officials are urged to assure the filing of such reports and their appropriate review by the Counselor to identify and avoid potential violations of section 606 of the DOE Organization Act (§ 1010.304 of these regulations) prior to commencement of supervisory employee functions.*

§ 1010.406 Postemployment report—supervisory employees (Applicable to FERC).

(a) Each former supervisory employee shall file with the Counselor a report, Form DOE-461, describing any employment with any entity during the period to which such report relates, including any employment as a consultant, agent, attorney, or otherwise.

(1) Those entities which the former supervisory employee believes are energy concerns shall be listed in part A of the report.

(2) The other entities shall be listed in part B.

(b) Such report shall include that information requested on the sample form in Apendix III C.

(c) Part A of this report listing energy concerns shall be available to the public.

(d) This requirement shall not apply to an individual who, at the time employment with DOE ceases, has any contract, promise, or other agreement with respect to future employment with an energy concern: *Provided:*

(1) The individual describes such agreement in any publicly available report filed within 30 days after the individual ceases to be an employee of the DOE (including Form DOE-459); and

(2) The individual amends such report by May 15 of either of the next 2 years during which the individual has accepted any other employment.

(e) Reports under paragraph (a) of this section shall be filed in the first and second calendar years (no later than May 15 of each such year) following the first full year in which the reporting individual ceased to be an officer or employee of the DOE.

§ 1010.407 Filing of forms DOE-459, DOE-460, and DOE-461 (Applicable to FERC).

(a) Form DOE-459:

(1) Form DOE-459 shall be submitted by all employees whose positions are not listed in Appendix I.

(2) Form DOE-459 shall be submitted in accordance with § 1010.403.

(b)(1) Reviewing officials shall, as of April 15 of each year, review the positions under their jurisdiction and determine, in accordance with Appendix I, the positions which require the submission of reports from their incumbents. The affected employees shall be notified of that fact and shall be furnished with two copies of the report form by their reviewing officials. By copy of the notification (or a list of the names, grades and positions of employees required to file reports), the Counselor shall be informed by the reviewing officials of those employees required to submit forms. Each employee notified of the filing requirement shall submit the completed forms to his or her reviewing official by May 15.

(2) Whenever a new position is established, the reviewing official shall determine whether the position calls for the submission of a form in accordance with Appendix I. If it is determined that a report is a requirement, the individual to be assigned to that position shall be notified (with copy to the Counselor) of the requirement (see § 1010.403 for filing procedures).

(c) Notwithstanding the filing of the annual reports required by these regulations, each employee shall at all times avoid acquiring a financial interest that could result in a violation of the conflicts of interest provision of these regulations.

(d) Form DOE-460 (Report on prior employment).

(1) Form DOE-460 shall be submitted in accordance with § 1010.405.

(2) Form DOE-460 shall be submitted by all supervisory employees.

(e) Form DOE-461 (Postemployment report).

(1) Form DOE-461 shall be submitted in accordance with §1010.406.

(2) Form DOE-461 shall be submitted by all former supervisory employees.

(3) Form DOE-461 shall be filed with the Conuselor not later than May 15 of the first and second calendar years following the first full year such former employee ceased to be an employee of the DOE.

(f) Upon completion of processing, copies of reports shall be filed in the office of the Counselor.

(g) The reports required of employees by this subpart are in addition to, not in substitution for or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a report by an employee or the absence of any requirement that an employee submit such a report does not permit the employee or any other person to participate in a matter in which the employee's or the other person's participation is prohibited by law, order, or regulation.

(h) To whom reports are to be submitted. Submission of required reports shall be to the reviewing official as indicated below:

(1) To the Civil Service Commission Ethics Counselor (CSC Forms) and to the appropriate Counselor (Forms DOE-459, 460, and 461):

(i) The Secretary.

(ii) The Commissioners of FERC.

(2) To the Secretary:

(i) Members of the Secretary's immediate staff.

(ii) The Deputy Secretary.

(iii) The Under Secretary.

(iv) Special Government employees reporting directly to the Secretary.

(3) To the Deputy Secretary:

(i) Members of the Deputy Secretary's immediate staff.

(ii) Special Government employees reporting directly to the Deputy Secretary.

(iii) Heads of DOE organizational components who report directly to the Deputy Secretary.

(iv) Level 2 personnel (Assistant Secretary, Administrator EIA, Administrator ERA, Inspector General, Director ER, Director AD, Controller, General Counsel, Director PR, or equivalent) except those who report directly to the Under Secretary.

(4) To the Under Secretary:

(i) Members of the Under Secretary's immediate staff.

(ii) Special Government employees reporting directly to the Under Secretary.

(iii) Heads of DOE organizational components who report directly to the Under Secretary.

(5) To the Chairman of the Commission:

(i) Members of the Chairman's immediate staff.

(ii) Special Government employees reporting directly to the Chairman.

(iii) Heads of FERC organizational components who report directly to the Commission.

V 4

(6) To appropriate level 2 supervisor (Assistant Secretary, Administrator EIA, Administrator ERA, Inspector General, Director ER, Director AD,

permitted to appear, attend, or communicate with the DOE, in connection with a particular matter in a scientific or technological field; and

(1) Violations of 18 U.S.C. 203, 205, or 208 (§§ 1010.302 or 1010.304 of these regulations) may result in a fine of $10,000 or imprisonment for 2 years.

(2) An employee shall be deemed to have known of or knowingly held an interest in an energy concern if such

CAUTION

V 4 3 / 2 0 3 OCT 19 78

(6) To appropriate level 2 supervisor (Assistant Secretary, Administrator EIA, Administrator ERA, Inspector General, Director ER, Director AD, Controller, General Counsel, Director PR, or equivalent):

(i) Members of the level 2 supervisor's immediate staff.

(ii) Special Government employees reporting directly to the level 2 supervisor.

(iii) Level 3 personnel (Office Directors or equivalent) under the jurisdiction of such level 2 supervisor.

(7) To appropriate level 3 supervisor (Office Director or equivalent):

(i) Members of the level 3 supervisor's immediate staff.

(ii) Special Government employees reporting directly to the level 3 supervisor.

(iii) Level 4 personnel (Division Director or equivalent) under the jurisdiction of such level 3 supervisor.

(8) To appropriate level 4 supervisor (Division Director or equivalent):

All other employees or special Government employees required by these regulations to submit a report.

(9) In special situations, the Counselor may arrange for submission of reports to other than the employee's reviewing official.

Subpart E—Procedures and Sanctions.

§ 1010.501 Waivers.

(a) (Paragraphs (a)(1), (a)(2) and (a)(4) are Applicable to FERC.) Waivers may be granted of the requirements and restrictions in:

(1) § 1010.302(b) (prohibited interests for supervisory employees) if the Secretary finds that application of the restrictions would work an exceptional hardship on the supervisory employee or that the prohibited interest is a pension, insurance, or other similarly vested interest;

(2) Section 1010.304(b) (participation prohibitions for supervisory employees) if the Secretary finds that application of the restrictions would work an exceptional hardship on the supervisory employee or would be contrary to the national interest;

(3) Section 1010.302(a) (participation restrictions in particular matters for all employees) if the Secretary by rule or regulation finds that a particular interest is too remote or too inconsequential to be one which can be expected to cause a conflict of interest for any employee who may hold that interest; (see also § 1010.501(b))

(4) Section 1010.303 (a) and (b) (post- employment restrictions for all former employees and former supervisory employees, respectively) if the Secretary or the Commission, as the case may be, finds that the national interest would be served if a former employee with outstanding scientific or technological qualifications were permitted to appear, attend, or communicate with the DOE, in connection with a particular matter in a scientific or technological field; and

(5) Section 1010.304(a) (1) and (2) (participation prohibitions for special Government employees) if the Secretary finds that the national interest would be served if a special Government employee were permitted to represent another person in the performance of work under a grant, or a contract with or for the benefit of, the United States.

(b) The employee's reviewing official in consultation with the Counselor may waive the provisions of § 1010.302(a) if he finds that the individual employee's financial interest is not so substantial as to be likely to affect the integrity of the services which the Government may expect of that employee.

(c) (Applicable to FERC.) An employee requesting a waiver under paragraph (a) or (b) of this section shall submit a written request for waiver to the employee's reviewing official. The request shall explain the employee's duties, the nature of the conflict of interest, potential conflict of interest, or appearance of conflict of interest, the effect on the employee of the restriction or prohibition for which the employee seeks the waiver, and the reasons why the waiver should be granted.

(1) In the case of requests under paragraph (a) of this section, the reviewing official shall review the request and forward the request with the reviewing official's recommended action to the Counselor. The Counselor will review the request and the reviewing official's recommendation and, where appropriate, forward a waiver statement to the Secretary or Commission, as appropriate, for approval and signature.

(2) In the case of requests under paragraph (b) of this section, the employee's reviewing official, in consultation with the Counselor, shall review and determine in writing whether to grant the request.

(d) (Applicable to FERC.) Waivers under paragraphs (a)(1), (a)(3), or (a)(4) of this section shall be published in the FEDERAL REGISTER.

(e) (Applicable to FERC.) Waivers under paragraph (a)(2) of this section shall be filed with any record of the Department proceeding as to which the waiver, for purposes of participation, is granted.

(f) Waivers under paragraphs (a)(5) of (b) of this section shall be filed in the employee's conflicts of interest file maintained by the Counselor.

§ 1010.502 Sanctions.

(a) General criminal sanctions.

(1) Violations of 18 U.S.C. 203, 205, or 208 (§§ 1010.302 or 1010.304 of these regulations) may result in a fine of $10,000 or imprisonment for 2 years, or both.

(2) Violations of 18 U.S.C. 207 or 209 (§§ 1010.203, or 1010.303 of these regulations) may result in a fine of $5,000 or imprisonment for 1 year, or both.

(b) (Applicable to FERC.) Criminal and civil sanctions under the DOE Organization Act.

(1) Any individual who is subject to, and knowingly violates, section 603 of the DOE Organization Act (§1010.403(b) of these regulations) shall be fined not more than $2,500 or imprisoned not more than one year, or both.

(2) Any individual who violates any of sections 602 through 606 of the DOE Organization Act (§§ 1010.302(b), 1010.303(b), 1010.304(b), 1010.403, 1010.405, or § 1010.406 of these regulations) shall be subject to a civil penalty, assessed by the Secretary in accordance with applicable law or by any district court of the United States, not to exceed $10,000 for each violation.

(3) Notwithstanding any penalty imposed under paragraph (b)(1) of this section, any violation of section 605(a) of the DOE Organization Act (§ 1010.303(b) of these regulations) shall be taken into consideration in deciding the outcome of any Department proceeding in connection with which the prohibited appearance, attendance, communication, or submission was made.

(c) (Applicable to FERC.) All alleged violations of these regulations shall be referred to the Counselor and the Inspector General. The Counselor shall review the allegations and determine whether the matter should be referred to the Department of Justice for investigation, or is appropriate for investigation by the Inspector General.

(d) (Applicable to FERC.) General administrative sanctions.

(1) The Secretary or the Commission may impose administrative sanctions for violations of these regulations to the fullest extent provided by law and DOE regulations.

(2) Such administrative sanctions may be imposed for violations which include, but are not limited to:

(i) Late submission by employees of required reports, and

(ii) Failure by reviewing officials to perform counseling or review functions.

(e) (Applicable to FERC)

(1) An individual shall be deemed to have known of or knowingly committed a described act or to have known of or knowingly held a described status or position if the employee knew or should have known of such act, interest, status, or position.

(2) An employee shall be deemed to have known of or knowingly held an interest in an energy concern if such interest is sold or otherwise transferred to the employee's spouse or dependent while such employee is, or within 6 months prior to the date on which such employee becomes, an employee of DOE.

(3) Placing of an interest under a trust by an individual shall not satisfy the requirement of § 1010.302(b) of these regulations unless none of the interests placed under such trust by such individual consists of known financial interests in any energy concern. Further information concerning blind trusts may be obtained from the Counselor.

§ 1010.503 Appeals and grievances (Applicable to FERC).

(a) An employee may request review by the Counselor of an action or decision by a reviewing official, under these regulations, which adversely affects that employee. Any action or decision by the Counselor pursuant to these regulations may be appealed in writing to the Deputy Secretary, or the Chairman of FERC or his delegate, as appropriate.

(b) The DOE grievance procedure shall be available for review of the following actions and decisions:

(1) Failure to include an employee's position on the list of employees exempt from reporting requirements (Appendix I);

(2) Inclusion of an employee on the list of employees identified as supervisory employees (Appendix II);

(3) Inclusion of employees on the list of employees covered under the Surface Mining Control and Reclamation Act of 1977 (Appendix IV); and

(4) Inclusion of a person or organization on the list of energy concerns.

§ 1010.504 Cancellation of contracts.

The Secretary reserves the right to declare void, in accordance with law, any Department award, contract, decision or other Department action or proceeding in connection with which provisions of statutes or DOE regulations are violated.

Subpart F—Special Government Employees

§ 1010.601 Use of Government employment.

Special Government employees shall not use Government employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for themselves or other persons, particularly those with whom they have family, business, or financial ties.

§ 1010.602 Use of inside information.

(a) Special Government employees shall not use inside information obtained as a result of Government employment for private gain for themselves or other persons either by direct action on their part or by counsel, recommendation or suggestion to other persons, particularly ones with whom they have family, business, or financial ties. For the purpose of this section, "inside information" means information obtained under Government authority which has not become part of the body of public information.

(b) A special Government employee may teach, lecture, or write in a manner not inconsistent with § 1010.204(c).

§ 1010.603 Coercion.

Special Government employees shall not use their Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to themselves or other persons; particularly those with whom they have family, business or financial ties.

§ 1010.604 Gifts, entertainment, and favors.

(a) Except as provided in paragraph (b) of this section, special Government employees, while so employed or in connection with their employment, shall not receive or solicit from a person having business with the DOE anything of value as a gift, gratuity, loan, entertainment, or favor for themselves or other persons, particularly one with whom they have family, business, or financial ties.

(b) The exception listed in § 1010.205(b) shall be applicable to special Government employees.

§ 1010.605 Other provisions.

(a) In addition to the reqirements of this subpart, special Government employees shall be responsible for knowing the restrictions contained in Subparts B, C, and D of this part.

(b) (Applicable to FERC) Any special Government employee who is compensated at an annual rate equal to or greater than a GS-16 of the General Schedule, and who serves for more than 90 days in a calendar year, is considered to be a supervisory employee under these regulations and is subject to the restrictions contained in §§ 1010.302(b), 1010.303(b), and 1010.304(b).

APPENDIX III A

CAUTION

PRIVACY ACT DOCUMENT

REPORT OF FINANCIAL INTERESTS; PRIVACY ACT INFORMATION STATEMENT

(A) This request for information is authorized by Executive Order 11222, "Prescribing Standards of Ethical Conduct for Government Officers and Employees;" Civil Service Regulations, 5 CFR Part 735 (See also Federal Personnel Manual, Chapter 735); Pub. L. 95-91, 42 U.S.C. 7213, and DOE Regulations, 10 CFR Part 1010. The submission of information is required for all DOE employees other than those occupying positions exempted under 10 CFR 1010.403(a).

(B) The information is intended to help identify financial and employment interests of the employee or the employee's spouse, minor child, or dependent(s) which create conflicts of interest or the appearance thereof in the context of the employee's duties and responsibilities.

(C) The uses which may be made of the requested information consist of review by the employee's reviewing official and the Counselor to assist in determining whether the employment and financial interests conflict or appear to conflict with the performance of official duties; counseling the employee in avoiding conflicts; and assignment of duties. The information may also be used by authorized representatives of the Department of Justice, Civil Service Commission, and the Comptroller General in the course of the performance of their law enforcement and administrative responsibilities. Part A of this form shall be available to the public in accordance with section 607 of Pub. L. 95-91, 42 U.S.C. 7217 and 10 CFR 1010.402. Part B is not subject to public disclosure (but see paragraph 8 of General Instructions below).

(D) Failure to provide all of the requested information may result in disciplinary action or denial of employment. (10 CFR 1010.502)

GENERAL INSTRUCTIONS

1. This form consists of Parts A, B, C, and D. All DOE employees except those occupying positions listed in Appendix I of 10 CFR Part 1010 shall complete Parts A, B, and C of this form and submit it to their respective reviewing officials. If additional pages are necessary, attach them hereto and identify them by reference to the appropriate Part(s) of the statement. The employee's name should be indicated on each page of this form, including any additional pages attached. Reviewing officials shall complete paragraph 1. of Part D of the form and forward the form to the Counselor.

2. This report is made on a calendar year basis and is to include interests held at any time during the reporting period even if no longer held at the time the report is made. New employees shall report for the current year through the date of the report; all others shall report for the immediately previous calendar year ending December 31.

3. The interest, if any, of a spouse, minor child or dependent (as dependent is defined by section 152 of the Internal Revenue Code of 1954) shall be reported in this statement and marked with an "X" to the left of the block where that interest is reported.

4. It is your responsibility to provide all requested information. In the event you are not permitted access to any of the required

V 43 N 203 OCT 19 78

information, such as holdings placed in certain forms of trust, but that information is known to another person, you should request that other person to submit the information on your behalf and should report such request in your statement. The information submitted on your behalf should be submitted to your reviewing official. Also report in your statement requests made to other persons to furnish required information directly to you when responses to the requests have not been received.

5. "Energy concern" means:

(1) Any person listed on the energy Concern List published by DOE, or

(2) any other person

(i) holding an interest in property from which coal, natural gas, crude oil, nuclear material or a renewable resource is commercially produced or obtained;

(ii) significantly engaged in the business of:

(A) Developing, extracting, producing, refining, transporting by pipeline, converting into synthetic fuel, distributing, or selling minerals for use as an energy source, or in the generation of transmission of energy from such minerals or from wastes of renewable resources;

(B) Producing, generating, transmitting, distributing, or selling electric power;

(C) Development, production, processing, sale, or distribution of nuclear materials, facilities, or technology; or;

(D) Conducting research, development, or demonstration related to an activity described in paragraphs (2)(i), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C); or

(iii) significantly engaged, whether or not for profit, in conducting such research, development, or demonstration related to an activity described in paragraphs (2)(i), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C) with financial assistance under any Act the functions of which are vested in or delegated or transferred to the Secretary of the Department.

(3) For the purposes of reports required by Pub. L. 94-163 and Pub. L. 95-39, "energy concern" includes "energy businesses" and "energy properties" as those terms are used in those Acts.

(4) "Energy Concern" does not include religious organizations; mutual funds or regulated investment companies the portfolios of which are widely diversified, or similarly constituted entities; or utility cooperatives in which ownership is required for services.

6. Notwithstanding the filing of this report, each employee shall at all times avoid acquiring a financial interest that could result, of taking an action that would result, in a violation of the conflicts of interest provisions of 10 C.F.R. Part 1010.

7. Energy concern clients of a firm or association for which a new supervisory employee was directly involved in the provision of services (as a member, partner or employee of the firm or association) need not be disclosed in this report so long as such disclosure is made on Form DOE-460.

8. Part A of this report is subject to public disclosure pursuant to section 607 of Pub. L. 95-91 (42 U.S.C. 7217) and is designed for use by employees to disclose interests in "energy concerns" required by section 603 of Pub. L. 95-91 (42 U.S.C. 7213). Part B is not subject to public disclosure; it is designed to implement the disclosure requirements of Executive Order 11222 ands Civil Service Commission implementing regulations (5 C.F.R. Part 735). In addition, it is designed for the purpose of assuring against inadvertent failure to disclose interests in a person or entity which, pursuant to Pub. L. 95-91, is determined by the Secretary to be an energy concern. Employees may be asked to supply additional information regarding interests reported in Part B when the Counselor believes such interests may be interests in energy concerns. Such additional information will remain confidential unless and until the entity in which the interest is held is determined by the Secretary to be an energy concern.

Form DOE-459 DEPARTMENT OF ENERGY

PART A -- STATEMENT OF INTERESTS IN ENERGY CONCERNS
(See Attached Sheet for General Instructions)

NAME (Last, first, initial)

I. EMPLOYMENT AND FINANCIAL INTERESTS

(1) List the names of all corporations, companies, firms, or other business enterprises, partnerships, nonprofit organizations and educational institutions, or other entities that are or you believe to be energy concerns --

(a) with which you, your spouse, minor child, or dependent(s) are connected as an employee, officer, owner, director, member, trustee, partner, adviser, or consultant; or

(b) in which you, your spouse, minor child, or dependent(s) have any continuing financial interest, through a pension or retirement plan, shared income, or other arrangement as a result of any current or prior employment or business or professional association; or

(c) in which you, your spouse, minor child or dependent(s) have any financial interest through ownership of stocks, stock options, bonds, securities, or other arrangements, including trusts.

(2) If none, write NONE.

(3) Do not abbreviate names of organizations.

NAME, KIND OF ORGANIZATION (e.g., corporation, partnership, nonprofit organization, etc.) AND NATURE OF ITS ACTIVITY	ADDRESS (or the exchange in which the securities are traded)	(1) NATURE OF FINANCIAL INTERESTS, e.g., stock, prior business income, etc. and (2) total value of and compensation from interest	POSITION IN ORGANIZATION (e.g., employee, officer, owner, etc.)

(PUBLIC)

NAME

PART A - Cont.

II. CREDITORS

List the names of your creditors that are, or you believe to be, energy concerns other than those to whom you may be indebted by reason of a mortgage on property which you occupy as a personal residence or to whom you may be indebted for current and ordinary household and living expenses such as household furnishings, automobile, education, vacation, and similar expenses. If none, write NONE.

NAME AND ADDRESS OF CREDITOR	CHARACTER OF INDEBTEDNESS (e.g., Personal Loan, Note, Security)

III. INTERESTS IN REAL PROPERTY

List your interest in real property or rights in lands from which coal, natural gas, crude oil, nuclear material or a renewable resource is commercially produced or obtained. If none, write NONE.

NATURE OF INTEREST e.g., ownership, mortgage, lien, investment trust, etc.	TYPE OF PROPERTY, e.g., residence hotel, apartment, farm, undeveloped land, oil and gas rights, other mineral interests, etc.	ADDRESS (if rural, give RFD, or county & state

(PUBLIC)

NAME

PART B -- STATEMENT OF FINANCIAL INTERESTS
(Information reported in Part A need not be repeated)

1. EMPLOYMENT AND FINANCIAL INTERESTS

(1) List the names of all corporations, companies, firms, or other business enterprises, partnerships, nonprofit organizations and educational or other institutions --

(a) with which you, your spouse, minor child or dependent are connected as an employee, officer, owner, director, member, trustee, partner, adviser, or consultant or with which you are negotiating or have any arrangement concerning prospective employment; or

(b) in which you, your spouse, minor child, or dependent have any continuing financial interest, through a pension or retirement plan, shared income, or otherwise, as a result of any current or prior employment or business or professional associations; or

(c) in which you, your spouse, minor child or dependent have any financial interest through ownership of stocks, stock options, bonds, securities, or other arrangements, including trusts.

(2) The information to be listed does not include any information relating to your, your spouse's, your minor child's, or your dependent's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or any similar organization not conducted as a business enterprise and which is not engaged in the ownership or conduct of a business enterprise. Educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed to be "business enterprises" for the purposes of this report and should be included.

(3) The information to be listed in this part does not require a showing of the amount of financial interest, indebtedness, or the value of real property.

(4) If none, write NONE.

(5) Do not abbreviate names of organizations.

PRIVACY ACT DOCUMENT

REPORT ON PRIOR EMPLOYMENT

PRIVACY ACT INFORMATION STATEMENT

(A) This request for information from DOE "supervisory employees" is authorized by Pub. L. 95-91, section 604 (42 U.S.C. 7214).

(B) The information will be used to help identify prior employment interests of the employee which create conflicts of interest or the appearance thereof in the context of the employee's duties and responsibilities.

(C) The uses which may be made of the requested information consist of review by the cognizant reviewing official and the Counselor to assist in determining whether the individual's prior employment interests conflict or appear to conflict with the performance of official duties; counseling those individuals in avoiding conflicts; and assignment of duties. The information may also be used by authorized representatives of the Department of Justice, Civil Service Commission, and the Comptroller General in the course of the performance of their law enforcement and administrative responsibilities. Part A of this form shall be available to the public in accordance with section 607 of Pub. L. 95-91, 42 U.S.C. 7217, and 10 C.F.R. 1010.402. Part B is not subject to public disclosure (but see paragraph 4 of General Instructions below).

(D) Failure to provide the information requested on Part A may result in assessment of a civil penalty of up to $10,000 (section 608, Pub. L. 95-91, 42 U.S.C. 7218).

GENERAL INSTRUCTIONS

1. This form consists of Parts A, B, C, and D. All "supervisory employees" (as defined in section 601(a), Pub. L. 95-91, 42 U.S.C. 7211(a)) shall complete Parts A, B, and C of this form and submit the form to their respective reviewing officials. If additional pages are necessary, they should be attached hereto and identified by reference to the appropriate Part(s) of the statement. Reviewing officials shall complete paragraph 1 of Part D of the form and forward the form to the Counselor.

2. This one-time report is required to be submitted by all supervisory employees within 60 days of becoming a supervisory employee in the DOE. Each entity which paid the employee compensation in excess of $2,500 in the year in which the employee is reporting or in any of the five preceeding calendar years shall be disclosed.

3. "Energy concern" means:

(1) Any person listed on the Energy Concern List published by DOE, or

(2) Any person:

(i) holding an interest in property from which coal, natural gas, crude oil, nuclear material or a renewable resource is commercially produced or obtained;

(ii) significantly engaged in the business of:

(A) Developing, extracting, producing, refining, transporting by pipeline, converting into synthetic fuel, distributing, or selling minerals for use as an energy source, or in the generation or transmission of energy from such minerals or from wastes or renewable resources;

(B) Producing, generating, transmitting, distributing, or selling electric power;

(C) Development, production, processing, sale, or distribution of nuclear materials, facilities, or technology; or

(D) Conducting research, development, or demonstration related to an activity described in paragraphs (2)(ii), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C); or

(iii) significantly engaged, whether or not for profit, in conducting such research, development, or demonstration related to an activity described in paragraphs (b) or (b)(i), (b)(ii), or (b)(iii) with financial assistance under any Act the functions of which are vested in or delegated or transferred to the Secretary or the Department.

(3) "Energy Concern" does not include religious organizations; mutual funds or regulated investment companies the portfolios of which are widely diversified, or similarly constituted entities; or utility cooperatives in which ownership is required for services.

4. Part A of this report is subject to public disclosure pursuant to section 607 of Pub. L. 95-91 (42 U.S.C. 7217) and is designed for use by "supervisory employees" required to disclose certain prior employment information by section 604 of Pub. L. 95-91 (42 U.S.C. 7214). Part B is not subject to public disclosure; it is designed solely for the purpose of assuring against inadvertent failure to disclose prior employment with a person or entity which, pursuant to the Act, is determined by the Secretary to be an energy concern. Employees may be asked to supply additional information regarding employment listed in Part B when the Counselor believes such employment may be energy concern employment. Such additional information will remain confidential unless and until the employer is determined by the Secretary to be an energy concern.

REPORT OF EMPLOYMENT - FORMER SUPERVISORY EMPLOYEES

PRIVACY ACT INFORMATION STATEMENT

(A) This request for information from former DOE "supervisory employees" is authorized by Pub. L. 95-91, section 605, 42 U.S.C. 7215; and DOE Regulations, 10 C.F.R. Part 1010.

(B) The information is intended to notify the DOE of positions with energy concerns held by former supervisory employees.

(C) The uses which may be made of the requested information consist of review by the Counselor to assist in determining whether the individual's employment interests conflict or appear to conflict with former duties; and for counseling those individuals in avoiding conflict of interest violations. The information may also be used by authorized representatives of the Department of Justice, Civil Service Commission, and the Comptroller General in the course of the performance of their law enforcement and administrative responsibilities. Part A of this form shall be made available to the public in accordance with section 607 of Pub. L. 95-91, 42 U.S.C. 7217 and 10 C.F.R. 1010.402. Part B is not subject to public disclosure (but see paragraph 3 of General Instructions below).

(D) Failure to provide all of the requested information may result in assessment of a civil penalty of up to $10,000 (section 608, Pub. L. 95-91, 42 U.S.C. 7218).

GENERAL INSTRUCTIONS

1. All former supervisory employees (see 10 C.F.R. Part 1010, Appendix II) shall complete this form. Submit this report to the Counselor. If additional pages are necessary, attach them hereto and identify them by reference to the appropriate Part(s) of the statement.

2. "Energy concern" means:

(1) Any person listed on the Energy Concern List published by DOE; or

(2) Any other person:

(i) holding an interest in property from which coal, natural gas, crude oil, nuclear material or a renewable resource is commercially produced or obtained;

(ii) significantly engaged in the business of:

(A) Developing, extracting, producing, refining, transporting by pipeline, converting into synthetic fuel, distributing, or selling minerals for use as an energy source, or in the generation or transmission of energy from such minerals or from wastes or renewable resources;

(B) Producing, generating, transmitting, distributing, or selling electric power;

(C) Development, production, processing, sale, or distribution of nuclear materials, facilities, or technology; or

(D) Conducting research, development, or demonstration related to an activity described in paragraphs (2)(i), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C); or

(iii) Any person or entity significantly engaged, whether or not for profit, in conducting such research, development, or demonstration relating to an activity described in paragraphs (2)(i), (2)(ii)(A), (2)(ii)(B) or (2)(ii)(C) with financial assistance under any Act the functions of which are vested in or delegated or transferred to the Secretary or the Department.

(3) "Energy Concern" does not include religious organizations; mutual funds or regulated investment companies the portfolios of which are widely diversified, or similarly constituted entities; or utility cooperatives in which ownership is required for services.

3. Part A of this report is subject to public disclosure pursuant to section 607 of Pub. L. 95-91 (42 U.S.C. 7217) and is designed for use by former "supervisory employees" of the Department of Energy required to disclose certain employment information by section 605 of Pub. L. 95-91 (42 U.S.C. 7215). Part B is not subject to public disclosure; it is designed solely for the purpose of assuring against inadvertent failure to disclose employment with a person or entity which, pursuant to the Act, is determined by the Secretary to be an energy concern. This report must be filed with the Counselor not later than May 15 of the first and second calendar years following the first full year in which the supervisory employee ceased to be an officer or employee of the Department. This report requirement does not apply to any former supervisory employee who, at the time such employment with the Department ceases, has any contract, promise, or other agreement with respect to future employment with any energy concern if (A) the former supervisory employee describes such agreement in any report filed within thirty days after the individual ceases to be an employee of the Department, and (B) the former supervisory employee amends the report by May 15 of either of the next two years during which he has accepted employment with another energy concern.

1. NAME (last, first, initial)

2. TITLE OR FORMER POSITION

3. DATE DOE EMPLOYMENT CEASED

4. ADDRESS

5. DATE OF REPORT:

PART A

I. Describe any employment with any energy concern since your DOE employment ceased, including any employment as a consultant, agent, attorney, or otherwise.

NAME OF ENERGY CONCERN	ADDRESS	POSITION HELD	DATES OF EMPLOYMENT	BRIEF DESCRIPTION OF DUTIES PERFORMED OR SERVICES RENDERED

(PUBLIC)

NAME

PART B

I. Describe any employment not reported in Part A since your DOE employment ceased, including any employment as a consultant, agent, attorney, or otherwise.

NAME OF EMPLOYER	ADDRESS	POSITION HELD	DATES OF EMPLOYMENT	BRIEF DESCRIPTION OF DUTIES PERFORMED OR SERVICES RENDERED

I certify that the statements I have made in Part A and Part B of this report are true, complete, and correct to the best of my knowledge and belief. I understand that falsification of statements on this form is punishable in accordance with law and that failure to provide all information requested may result in assessment of a civil penalty of up to $10,000 (18 U.S.C. 1001).

THURSDAY, OCTOBER 19, 1978
PART IV

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Care Financing Administration

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Requirements for Self-Dialysis Units and Self-Dialysis Services

V 43 1203 OCT 19 78

[4110-35-M]

Title 42—Public Health

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Conditions for Coverage—Suppliers of ESRD Services; Requirements for Self-Dialysis Units and Self-Dialysis Services

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rule with comment period.

SUMMARY: These amendments change the existing requirements for end-stage renal disease (ESRD) facilities by adding requirements that specifically apply to self-dialysis units and self-dialysis services. The changes are being made to implement the Medicare End-Stage Renal Disease Program Amendments of 1978 (Pub. L. 95-292 of June 13, 1978). Other minor changes are for internal consistency and to delete outdated content. The intent of these amendments is to encourage and facilitate greater use of self-dialysis.

DATES: These regulations are effective on October 1, 1978. However, consideration will be given to written comments or suggestions received by December 18, 1978, with a view to revision of the regulations, if necessary.

ADDRESSES: Address comments to: Administrator, Health Care Financing Administration, P.O. Box 2382, Washington, D.C. 20013. In commenting, please refer to HSQ-58-RC. Comments will be available for public inspection beginning approximately 2 weeks after publication, in room 5229 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., telephone 202-245-0950.

FOR FURTHER INFORMATION CONTACT:

Janet Harryman, Director, Division of Hospital Services, Office of Standards and Certification, Health Care Financing Administration, 6401 Security Boulevard, Baltimore, Md. 21235, telephone 301-594-9712.

SUPPLEMENTARY INFORMATION: The ESRD program was created by section 2991 of the Social Security Amendments of 1972 (Pub. L. 92-603) and became effective July 1, 1973. In order to be approved to receive reimbursement under the program, facilities furnishing renal dialysis and transplantation were required to meet criteria set out in interim regulations. (38 FR 17210; June 29, 1973.) The interim regulations were replaced on September 1, 1976, by the Conditions for Coverage of Suppliers of End-Stage Renal Disease Services (41 FR 22507; June 3, 1976), subpart U of medicare regulations (42 CFR Part 405). These conditions, which ESRD facilities must meet to be certified to receive medicare reimbursement, assure that the facilities are appropriately utilized, meet health, safety, and quality standards, and participate in renal disease networks.

On June 13, 1978, the Medicare End-Stage Renal Disease program Amendments of 1978 (Pub. L. 95-292) were enacted. The amendments were intended to encourage the use of lower cost treatment modalities, specifically self-dialysis and transplantation, for the maximum number of patients who are medically, socially, and psychologically suitable for such treatment. Recognizing that many patients are unable to dialyze at home, Congress included a provision to encourage the use of self-dialysis stations in dialysis facilities. Under the new law, the Secretary is authorized to define what constitutes self-dialysis outside the home setting and to identify the institutional settings in which it can appropriately be performed.

Subpart U is being amended to implement Pub. L. 95-292. The amendments define "self-dialysis services" and "self-dialysis unit" and include conditions which facilities must meet to be certified as self-dialysis units. These amendments are the second of a series of regulations to be promulgated to implement the ESRD Amendments of 1978. The first regulation dealt with individuals' entitlement to ESRD benefits; subsequent regulations will cover reimbursement and ESRD network organizations.

SUMMARY OF CHANGES

The following discussion is numbered to correspond to the numbered amendments to the regulation.

1. Subpart U became effective on September 1, 1976, and replaced interim regulations (38 FR 17210; June 29, 1973) which had been in effect since July 1, 1973. To facilitate the orderly transition, subpart U provided for the interim regulations to remain in effect until September 1, 1977. Provisions referring to this transition period (§ 405.2100 (c) and (d)) are now obsolete and are being deleted.

2. Section 405.2101 is being revised to reflect the congressionally stated purposes of Pub. L. 95-292. These include encouraging, to the maximum feasible extent, medically appropriate use of self-dialysis and transplantation. In developing and implementing regulations for the ESRD program, we will stress the goal of maximizing use of self-dialysis and transplantation.

3. These regulations define self-dialysis unit, staff-assisted dialysis, and self-dialysis, and revise the definition of self-dialysis training.

Readers should note that the definition of a self-dialysis unit specifies that it must be a part of an approved renal transplantation center, renal dialysis center, or renal dialysis facility that also performs transplantation or furnishes a dialysis service other than self-dialysis or home dialysis. Thus, we will not approve facilities furnishing only self-dialysis. At this time, we think there are some important policy issues to be resolved concerning a facility furnishing only self-dialysis. If such a facility were required to meet all the health and safety requirements of subpart U, we doubt that it would be an efficient way of furnishing self-dialysis. If the unit were not required to meet such requirements, questions might be raised about the health and safety of patients. For these reasons, we believe the issue warranted an opportunity for public comment, which we have not been able to provide because of the statutory mandate to implement Pub. L. 95-292, by October 1. We specifically ask for comments on this issue and, based on such comments, will decide whether to certify facilities that furnish only self-dialysis.

Editorial changes have also been made in several of the existing definitions.

4. Provisions in the existing regulations dealing with minimal utilization rates are being reorganized and revised for clarity. Minimal utilization rates are now discussed in separate sections under the headings of types and duration of classification, reporting requirements, method of calculating rates, and the specific standards. (§§ 405.2122, 405.2123, 405.2124, and 405.2130.)

5. The requirements for reporting utilization rates have been clarified and expanded. Section 405.2123 now requires each dialysis facility to report on how each station is used and to report the number of dialyses performed on each station. For dialyses performed after October 1, 1978, the report must separately identify each type of service: Staff-assisted dialysis, self-dialysis, and self-dialysis and home dialysis training. Separate identification is necessary for determining that the facility meets the MUR and other certification requirements, for establishing costs and for analyzing

the cost-effectiveness of the self-dialysis unit.

6. Section 226(g) of the Act previously required that all ESRD facilities be subject to the minimum utilization requirements (MUR). The purpose is to prevent proliferation of unnecessary facilities and contribute to the statutory goal of providing all needed ESRD services in as efficient and economical a manner as possible. The ESRD Amendments of 1978 extend MUR to self-dialysis units and self-dialysis training programs. See section 1881(b) of the Act.

The present regulations establish MUR's for renal transplantation and for different classes of dialysis facilities (see 42 CFR 405.2130). These MUR's were derived from data obtained from existing dialysis facilities. However, utilization data on existing self-dialysis units is limited because there are so few units at the present time. Therefore, at this time, we are not establishing separate MUR's for self-dialysis units.

Dialysis facilities and centers will remain subject to existing MUR's and may add the utilization of self-dialysis to the utilization of staff-assisted dialysis for purposes of determining whether they have met MUR requirements.

Self-dialysis training programs will be considered to have achieved minimum utilization if they successfully train six self-dialysis patients per station per year. We have retained the provision, formerly in § 405.2123, that dialysis stations used for self-dialysis training at this level need not be included in calculating a facility's utilization rate. However, if a facility does not achieve this minimum utilization of training stations, it must include the stations and the dialyses performed on them in calculating the facility MUR.

We solicit comments and suggestions on establishing separate MUR's for self-dialysis units. In addition, we will review the results achieved under this regulation and will seek the information specified in § 405.2121 with a view toward establishing MUR's for self-dialysis units. Section 405.2121 lists information from ESRD Network Councils and other sources regarding utilization rates, the geographic distribution of patients and facilities, quality of care, and efficiency. Any change in this regulation will be published as a notice of proposed rulemaking (NPRM).

7. Pub. L. 95-292 specifies that network organizations shall establish network goals with respect to the placement of patients in self-dialysis settings and undergoing or preparing for transplantation. Section 405.2134 of the current regulation provides the specific requirements of the membership agreement between each facility in the network and the Network Coordinating Councils. This amendment requires an ESRD facility to fulfill its roles in meeting the network goals. In addition, some obsolete material in § 405.2134 has been deleted.

8. The requirements on admission criteria of an ESRD facility are being amended to make access to a self-dialysis unit available only to patients for whom the facility maintains a patient care plan.

This provision will not permit a transient patient who is a self-dialysis patient to dialyze himself at some other self-dialysis unit. We believe this provision is necessary to protect the health and safety of the transient patient who may be unfamiliar with the type of machines in use at other facilities or with differing emergency procedures. Transient patients may, of course, be dialyzed at any staff-assisted dialysis facility which undertakes to furnish them dialysis.

9. Each dialysis facility or center is presently required to maintain a patient care plan for each patient undergoing dialysis and to review these plans at least monthly (see § 405.2137.)

These amendments provide for a monthly review of the patient care plan only for patients whose medical condition has not become stabilized. For patients whose medical condition is stabilized, review is required only every 6 months. In our view, requiring monthly review for patients who have stabilized is an unnecessary and costly burden.

In addition this amendment requires that a facility or center which supervises home dialysis patients maintain a patient care plan for each of the home dialysis patients.

10. We are changing the medical records requirement (§ 405.2139) to assure that self-dialysis patients, whether dialyzing in a self-dialysis unit or at home, have a medical record maintained in a central place where all medical information about the patient is consolidated. The medical record must be kept current even if the entries in the record are completed by the patient in the absence of professional staff.

11. We are amending § 405.2140(c) to require that written patient care policies specify the procedures for prevention of contamination which are carried out by facility personnel and those which are carried out by self-dialysis patients.

Under the new requirements in § 405.2140(d)(5), both patients and facility personnel must be trained to handle medical and nonmedical emergencies.

12. Present requirements for self-dialysis and home dialysis training provide that teaching materials be available to patients during training. We have amended § 405.2161 to require that teaching materials are available to all trainees. This change is consistent with the definition of self-dialysis and home dialysis training, which includes the training of other individuals to assist patients.

We are also amending the list of responsibilities borne by the director of a facility to include periodic assessment of each home care patient's performance of dialysis.

13. Pub. L. 95-292 requires that there be patient/staff ratios which are appropriate to self-dialysis. Section 405.2162(b) has been revised to require that the patient/staff ratio be appropriate to the level of dialysis being given and meet the needs of the patients. We have not set a specific ratio at this time, because there appears to be no consensus on what is the proper ratio for self-dialysis. However, we welcome comments and will review facilities in order to identify those factors which determine appropriate patient/staff ratios for different levels of dialysis care. In addition, § 405.2162(b) has been revised to require at least one currently licensed health professional on duty whenever patients are undergoing dialysis.

14. The minimal service requirements for a dialysis facility or center have been revised to include requirements for the provision of staff-assisted dialysis service and self-dialysis service, if it is offered.

WAIVER OF PROPOSED RULEMAKING

Pub. L. 95-292 provides that medicare payments for the renal disease services specified in that statute shall be available beginning on October 1, 1978. Because of the short period between the enactment (June 13, 1978) and the effective date of the statute, we have not been able to go through the normal process for NPRM and public participation. We have attempted, however, in the limited time available to consult as widely as possible with persons and agencies whom we knew would be interested in this regulation.

Moreover, we have made only those amendments that are essential if benefits are to be made available promptly. We plan to publish a more comprehensive NPRM in the future, which will review the present regulations and cover policy issues that did not have to be resolved under the time constraints for this regulation. We welcome comments on this regulation and suggestions for subsequent amendments.

42 CFR Part 405 is amended as set forth below:

1. Section 405.2100 is amended by deleting paragraphs (c) and (d).

V 43 / 203 OCT 1978

§ 405.2100 Scope of subpart.

• • • • •

2. Section 405.2101 is amended by adding a new paragraph (d).

§ 405.2101 Objectives of the end-stage renal disease (ESRD) program.

The objectives of the end-stage renal disease program are:

(a) To assist beneficiaries who have been diagnosed as having end-stage renal disease (ESRD) to receive the care they need:

(b) To encourage proper distribution and effective utilization of ESRD treatment resources while maintaining or improving the quality of care;

(c) To provide the flexibility necessary for the efficient delivery of appropriate care by physicians and facilities; and

(d) To encourage self-dialysis or transplantation for the maximum practical number of patients who are medically, socially, and psychologically suitable candidates for such treatment.

3. Section 405.2102 is revised to read as follows:

§ 405.2102 Definitions.

As used in this subpart, the following definitions apply:

(a) *Agreement.* A written document executed between an ESRD facility and another facility in which the other facility agrees to assume responsibility for furnishing specified services to patients and for obtaining reimbursement for those services.

(b) *Arrangement.* A written document executed between an ESRD facility and another facility in which the other facility agrees to furnish specified services to patients but the ESRD facility retains responsibility for those services and for obtaining reimbursement for them.

(c) *Dialysis.* A process by which dissolved substances are removed from a patient's body by diffusion from one fluid compartment to another across a semipermeable membrane. The two types of dialysis that are currently in common use are hemodialysis and peritoneal dialysis.

(d) *End-Stage Renal Disease (ESRD).* That stage of renal impairment that appears irreversible and permanent, and requires a regular course of dialysis or kidney transplantation to maintain life.

(e) *ESRD facility.* A facility which is approved to furnish at least one specific ESRD service (see § 405.2102(f)). Such facilities are:

(1) *Renal Transplantation Center.* A hospital unit which is approved to furnish directly transplantation and other medical and surgical specialty services required for the care of the ESRD transplant patients, including inpatient dialysis furnished directly or under arrangement. A Renal Transplantation Center may also be a Renal Dialysis Center.

(2) *Renal dialysis center.* A hospital unit which is approved to furnish the full spectrum of diagnostic, therapeutic, and rehabilitative services required for the care of ESRD dialysis patients (including inpatient dialysis furnished directly or under arrangement). A hospital need not provide renal transplantation to qualify as a renal dialysis center.

(3) *Renal dialysis facility.* A unit which is approved to furnish dialysis service(s) directly to ESRD patients.

(4) *Self-dialysis unit.* A unit that is part of an approved renal transplantation center, renal dialysis center, or renal dialysis facility, and furnishes self-dialysis services.

(f) *ESRD service.* The type of care or services furnished to an ESRD patient. Such types of care are:

(1) *Transplantation service.* A process by which (a) a kidney is excised from a live or cadaveric donor, (b) that kidney is implanted in an ESRD patient, and (c) supportive care is furnished to the living donor and to the recipient following implantation.

(2) *Dialysis service:*

(i) *Inpatient dialysis.* Dialysis which, because of medical necessity, is furnished to an ESRD patient on a temporary inpatient basis in a hospital;

(ii) *Outpatient dialysis.* Dialysis furnished on an outpatient basis at a renal dialysis center or facility. Outpatient dialysis includes:

(A) *Staff-assisted dialysis.* Dialysis performed by the staff of the center or facility.

(B) *Self-dialysis.* Dialysis performed, with little or no professional assistance, by an ESRD patient who has completed an appropriate course of training.

(iii) *Home dialysis.* Dialysis performed by an appropriately trained patient at home.

(3) *Self-dialysis and home dialysis training.* A program that trains ESRD patients to perform self-dialysis or home dialysis with little or no professional assistance, and trains other individuals to assist patients in performing self-dialysis or home dialysis.

• • • • •

(r) *Qualified personnel.* Personnel that meet the requirements specified in this paragraph. (1) Chief executive officer. A person who:

(i) Holds at least a baccalaureate degree or its equivalent and has at least 1 year of experience in an ESRD unit; or

(ii) Is a registered nurse or physician director as defined in this paragraph (r); or

(iii) As of September 1, 1976, has demonstrated capability by acting for at least 2 years as a chief executive officer in a dialysis unit or transplantation program.

(2) *Dietitian.* A person who: (i) Is eligible for registration by the American Dietetic Association under its requirements in effect on June 3, 1976, and has at least 1 year of experience in clinical nutrition; or

(ii) Has a baccalaureate or advanced degree with major studies in food and nutrition or dietetics, and has at least 1 year of experience in clinical nutrition.

(3) *Medical record practitioner.* A person who:

(i) Has graduated from a program for Medical Record Administrators accredited by the Council on Medical Education of the American Medical Association and the American Medical Record Association, and is eligible for certification as a Registered Record Administrator (RRA) by the American Medical Record Association under its requirements in effect on June 3, 1976.

(ii) Has graduated from a program for Medical Record Technicians approved jointly by the Council on Medical Education of the American Medical Association and the American Medical Record Association, and is eligible for certification as an Accredited Record Technician (ART) by the American Medical Record Association under its requirements in effect June 3, 1976, or

(iii) Has successfully completed and received a satisfactory grade in the American Medical Record Association's Correspondence Course for Medical Record Personnel approved by the Accrediting Commission of the National Home Study Council, and is eligible for certification as an Accredited Record Technician by the American Medical Record Association under its requirements in effect June 3, 1976.

(4) *Nurse responsible for nursing service.* A person who is licensed as a registered nurse by the State in which practicing, and (i) has at least 12 months of experience in clinical nursing, and an additional 6 months of experience in nursing care of the patient with permanent kidney failure or undergoing kidney transplantation, including training in and experience with the dialysis process; or

(ii) Has 18 months of experience in nursing care of the patient on maintenance dialysis, or in nursing care of the patient with a kidney transplant, including training in and experience with the dialysis process.

(iii) If the nurse responsible for nursing service is in charge of self-care dialysis training, at least 3 months of the total required ESRD experience is in training patients in self-care.

(5) *Physician-director.* A physician who:

(i) Is board eligible or board certified in internal medicine or pediatrics by a professional board, and has had at least 12 months of experience or training in the care of patients at ESRD facilities; or

(ii) During the 5-year period prior to September 1, 1976, served for at least 12 months as director of a dialysis or transplantation program.

(iii) In those areas where a physician who meets the definition in subdivision (i) or (ii) of this subparagraph is not available to direct a participating dialysis facility, another physician may direct the facility, subject to the approval of the Secretary.

(6) *Social worker.* A person who is licensed, if applicable, by the State in which practicing, and

(i) Has completed a course of study with specialization in clinical practice at, and holds a masters degree from, a graduate school of social work accredited by the Council on Social Work Education; or

(ii) Has served for at least 2 years as a social worker, 1 year of which was in a dialysis unit or transplantation program prior to September 1, 1976, and has established a consultative relationship with a social worker who qualifies under subparagraph (6)(i) of this paragraph.

(7) *Transplantation surgeon.* A person who:

(i) Is board eligible or board certified in general surgery or urology by a professional board; and

(ii) Has at least 12 months training or experience in the performance of renal transplantation and the care of patients with renal transplants.

4. Section 405.2122 is amended to read as follows:

§ 405.2122 Types and duration of classification according to utilization rates.

An ESRD facility that meets all the other conditions for coverage of ESRD services will be classified according to its utilization rate(s) as follows: unconditional status, conditional status, exception status, or not eligible for reimbursement for that ESRD service. Such classification will be based on previously reported utilization data (see § 405.2124, except as specified in paragraph (a) of this section), and will be effective until notification of subsequent classification occurs. (See § 405.2123 for reporting requirements; § 405.2124, for method of calculating rates; § 405.2130 for specific standards.)

(a) *Initial classification.* (1) An ESRD facility that has not previously participated in the ESRD program will be granted conditional status if it submits a written plan, detailing how it will achieve the utilization rates for conditional status by the end of the first calendar year of its operation under the ESRD program, and the rates required for unconditional status during its third calendar year of operation.

(2) The ESRD facility's performance will be evaluated at the end of the first calendar year to ascertain whether it is properly implementing the plan.

(b) *Exception status.* (1) A renal dialysis center or a renal dialysis facility that does not meet the minimal utilization rate for unconditional or conditional status may be approved by the Secretary for a time limited exception status if:

(i) It meets all other conditions for coverage under this subpart;

(ii) It is unable to meet the minimal utilization rate because it lacks a sufficient number of patients and is located in an area without a sufficient population base to support a center or facility which would meet the rate; and

(iii) Its absence would adversely affect the achievement of ESRD program objectives.

(2) A hospital that furnishes renal transplantation services primarily to pediatric patients and is approved as a renal dialysis center under this subpart, but does not meet the utilization standards prescribed in § 405.2130(a), may be approved by the Secretary for a time limited exception status if:

(i) It meets all other conditions for coverage as a renal transplantation center;

(ii) The surgery is performed under the direct supervision of a qualified transplantation surgeon (§ 405.2102 (r)(7)) who is also performing renal transplantation surgery at an approved renal transplantation center that is primarily oriented to adult nephrology;

(iii) It has an agreement, with the other hospital serviced by the surgeon, for sharing limited resources that are needed for kidney transplantation; and

(iv) There are pediatric patients who need the surgery and who cannot obtain it from any other hospital located within a reasonable distance.

5. Section 405.2123 is revised to read as follows:

§ 405.2123 Reporting of utilization rates for classification.

Each facility must submit to HCFA an annual report on its utilization rates.

(a) Each hospital furnishing renal transplantation service must report both the number of transplants performed during the most recent year of operation and the number performed during each of the preceding 2 calendar years.

(b) Each hospital or nonhospital facility furnishing dialysis service must report the number of dialysis stations it had operating and the total number of dialyses performed during both the most recent year of operation and each of the preceding 2 calendar years. For dialyses performed on or after October 1, 1978, the report must separately identify, by type of ESRD service, the total number of dialyses performed at each station.

6. Section 405.2130 is amended by adding paragraph (d).

§ 405.2130 Condition: Minimal utilization rates.

The ESRD facility meets the applicable minimal utilization rate(s) indicated below for unconditional or conditional status, unless granted exception status in accordance with § 405.2122(b).

• • • • •

(d) Self-dialysis training stations which were utilized to successfully train at least six self-dialysis patients per station per calendar year and the dialyses performed on these stations may be excluded from the calculation of utilization rates.

7. Section 405.2134 is revised to read as follows:

§ 405.2134 Condition: Membership in a network.

The ESRD facility has a membership agreement with the network coordinating council and is providing acceptable representation on the council.

(a) *Standard: Membership agreement.* The membership agreement is signed by an authorized individual on behalf of the facility, and:

(1) Provides that the facility will participate in council activities and medical evaluation studies;

(2) Commits the facility to pursue network goals, including the placement of patients in self-dialysis and the encouragement of renal transplantation; and

(3) Includes the facility's plans for attaining the network goals.

(b) *Standard: Representation.* The facility appoints at least one representative to the Council and more than one representative, when necessary, for proper administration of the network's general program functions (see § 405.2111).

(c) *Standard: Goals and plans.* The facility fulfills its role for attaining the network goals and carrying out the network plans.

8. Section 405.2136 is amended by revising paragraph (b)(3), by revising paragraphs (f)(1) (ii) and (xi), and by revising paragraph (f)(2) as follows:

§ 405.2136 Condition: Governing body and management.

• • • • •

V 43 / 203 OCT 19 78

(b) *Standard: Operational objectives.* • • •

(3) Admission criteria that insure equitable access to services are adopted by the facility and are readily available to the public. Access to the self-dialysis unit is available only to patients for whom the facility maintains patient care plans (see § 405.2137).

• • • • • •

(f) *Standard: Patient care policies.* • • •

(1) The patient care policies cover the following:

• • • • • •

(ii) Admission and discharge policies (in relation to both in-facility care and home care).

• • • • • •

(xi) The provision of home dialysis support services, if offered (see § 405.2163(e)).

(2) The physician-director of the facility is designated in writing to be responsible for the execution of patient care policies. If the responsibility for day-to-day execution of patient care policies has been delegated by a physican director to (or, in the case of a self-dialysis unit, to another licensed health practitioner) a registered nurse, the physican-director provides medical guidance in such matters.

9. Section 405.2137 is amended by revising paragraphs (b), (b)(4), (b)(5) and adding a new paragraph (b)(6) to read as follows:

§ 405.2137 Condition: Patient long-term program and patient care plan.

• • • • • •

(b) *Standard: Patient care plan.* There is a written patient care plan for each patient of an ESRD facility (including home dialysis patients under the supervision of the ESRD facility; see § 405.2163(e)) based upon the nature of the patient's illness, the treatment prescribed, and an assessment of the patient's needs.

(1) The patient care plan is personalized for the individual, reflects the psychological, social, and functional needs of the patient, and indicates the ESRD and other care required as well as the individualized modifications in approach necessary to achieve the long-term and short-term goals.

(2) The plan is developed by a professional team consisting of at least the physician responsible for the patient's ESRD care, a qualified nurse responsible for nursing services, a qualified social worker, and a qualified dietitian.

(3) The patient, parent, or legal guardian, as appropriate, is invoved in the development of the care plan, and due consideration is given to his preferences.

(4) The care plan for patients whose medical condition has not become stabilized is reviewed at least monthly by the professional patient care team described in paragraph (b)(2) of this section. For patients whose condition has become stabilized, the care plan is reviewed every 6 months. The care plan is revised as necessary to insure that it provides for the patients ongoing needs.

(5) If the patient is transferred to another facility, the care plan is sent with the patient or within 1 working day.

(6) For a home-dialysis patient whose care is under the supervision of the ESRD facility, the care plan provides for periodic monitoring of the patient's home adaptation, including provisions for visits to the home by qualified facility personnel to the extent appropriate. (See § 405.2163(e).)

10. Sections 405.2139 and 405.2139(d) are revised to read as follows:

§ 405.2139 Condition: medical records.

The ESRD facility maintains complete medical records on all patients (including self-dialysis patients within the self-dialysis unit and home dialysis patients whose care is under the supervision of the facility) in accordance with accepted professional standards and practices. A member of the facility's staff is designated to serve as supervisor of medical records services, and insures that all records are properly documented, completed, and preserved. The medical records are completely and accurately documented, readily available, and systematically organized to facilitate the compilation and retrieval of information.

• • • • • •

(d) *Standard: Completion of medical records and centralization of clinical information.* Current medical records and those of discharged patients are completed promptly. All clinical information pertaining to a patient is kept in the patient's medical record. Provision is made for collecting and including in the medical record medical information generated by self-dialysis patients. Entries concerning the daily dialysis process may either be completed by staff, or be completed by trained self-dialysis patients, trained home dialysis patients or trained assistants and countersigned by staff.

11. Section 405.2140 is amended by revising paragraphs (b)(2) and (b)(3), by revising paragraph (c), and by adding a new paragraph (d)(5) as follows:

§ 405.2140 Condition: Physical environment.

• • • • • •

(b) *Standard: Favorable environment for patients.* • • •

(2) Treatment areas are designed and equipped to provide adequate and safe dialysis therapy, as well as privacy and comfort for patients. The space for treating each patient is sufficient to accommodate medically needed emergency equipment and staff and to insure that such equipment and staff can reach the patient in an emergency. There is sufficient space in units for safe storage of self-dialysis supplies.

(3) There is a nursing/monitoring station from which adequate surveillance of patients receiving dialysis services can be made.

• • • • • •

(c) *Standard: Contamination prevention.* The facility employs appropriate techniques to prevent cross-contamination between the unit and adjacent hospital or public areas including, but not limited to, food service areas, laundry, disposal of solid waste and blood-contaminated equipment, and disposal of contaminants into sewage systems. Waste storage and disposal are carried out in accordance with applicable local laws and accepted public health procedures. The written patient care policies (see § 405.2136(f)(1)) specify the functions that are carried out by facility personnel and by self-dialysis patients with respect to contamination prevention.

(d) *Standard: Emergency preparedness.* • • •

(5) Patients are trained to handle medical and nonmedical emergencies. Patients must be fully informed regarding what to do, where to go, and whom to contact if a medical or nonmedical emergency occurs.

12. Section 405.2161(b) is amended by revising paragraphs (3) and (5) as follows:

§ 405.2161 Condition—Director of a renal dialysis facility or renal dialysis center.

• • • • • •

(b) *Standard: Responsibilities.* • • •

(3) Assuring adequate monitoring of the patient and the dialysis process, including, for self-dialysis patients, assuring periodic assessment of patient performance of dialysis tasks.

• • • • • •

(5) When self-dialysis training or home dialysis training is offered, assuring that patient teaching materials are available for the use of all trainees during training and at times other than during the dialysis procedure.

13. Section 405.2162 is amended by revising paragraph (b) as follows:

§ 405.2162 Condition: Staff of a renal dialysis facility or renal dialysis center.

• • • • • •

(b) *Standard: Onduty personnel.* Whenever patients are undergoing dialysis: (1) One currently licensed health professional (e.g., physician, registered nurse, or licensed practical nurse) experienced in rendering ESRD care is on duty to oversee ESRD patient care; (2) an adequate number of personnel are present so that the patient/staff ratio is appropriate to the level of dialysis care being given and meets the needs of patients; and (3) an adequate number of personnel are readily available to meet medical and nonmedical needs.

14. Section 405.2163 is amended by redesignating paragraphs (a) through (e) to be (b) through (f), by adding a new paragraph (a), and by revising paragraph (e) as follows:

§ 405.2163 Condition: Minimal service requirements for a renal dialysis facility or renal dialysis center.

The facility must provide dialysis services, as well as adequate laboratory, social, and dietetic services to meet the needs of the ESRD patient.

(a) Standard: *Outpatient dialysis services.*—(1) *Staff-assisted dialysis services.* The facility must provide all necessary institutional dialysis services and staff required in performing the dialysis.

(2) *Self-dialysis services.* If the facility offers self-dialysis services, it must provide all medically necessary supplies and equipment and any other service specified in the facility's patient care policies.

(b) *Standard: Laboratory services.* The dialysis facility makes available laboratory services (other than the specialty of tissue pathology and histocompatibility testing), to meet the needs of the ESRD patient. Laboratory services are performed either by a medicare-approved hospital or by a qualified medicare-approved independent laboratory, except that hematocrit and clotting time, which the facility uses to monitor its patients' fluids incident to each dialysis treatment, may be performed by the dialysis facility's staff, who are qualified by education and experience to perform such duties, under the direction of a physician.

(c) *Standard: Social services.* Social services are provided to patients and their families and are directed at supporting and maximizing the social functioning and adjustment of the patient. Social services are furnished by a qualified social worker (§ 405.2102(r)(6)) who has an employment or contractual relationship with the facility. The qualified social worker is responsible for conducting psychosocial evaluations, participating in team review of patient progress and recommending changes in treatment based on the patient's current psychosocial needs, providing casework and groupwork services to patients and their families in dealing with the special problems associated with ESRD, and identifying community social agencies and other resources and assisting patients and families to utilize them.

(d) *Standard: Dietetic services.* Each patient is evaluated as to his nutritional needs by the attending physician and by a qualified dietitian. (§ 405.2102(r)(2)) who has an employment or contractual relationship with the facility. The dietitian, in consultation with the attending physician, is responsible for assessing the nutritional and dietetic needs of each patient, recommending therapeutic diets, counseling patients and their families on prescribed diets, and monitoring adherence and response to diets.

(e) *Standard: Self-dialysis support services.* The renal dialysis facility or center furnishing self-dialysis training upon completion of the patient's training, furnishes (either directly, under agreement or under arrangement with another ESRD facility) the following services:

(1) Surveillance of the patient's home adaptation, including provisions for visits to the home or the facility;

(2) Consultation for the patient with a qualified social worker and a qualified dietitian;

(3) A recordkeeping system which assures continuity of care;

(4) Installation and maintenance of equipment;

(5) Testing and appropriate treatment of the water; and

(6) Ordering of supplies on an ongoing basis.

(f) *Standard: Participation in recipient registry.* The dialysis facility or center participates in a patient registry program for patients who are awaiting cadaveric donor transplantation.

FEDERAL HOME LOAN BANK BOARD

CONVERSIONS OF FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION INSURED INSTITUTIONS FROM MUTUAL TO STOCK FORM

Proposed Rules

V 43/203 OC 19 78

[6720–01–M]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 563b]

[No. 78-541]

INSURANCE OF ACCOUNTS

Conversion from Mutual to Stock Form

OCTOBER 11, 1978.

AGENCY: Federal Home Loan Bank Board and Federal Savings and Loan Insurance Corporation.

ACTION: Proposed rule.

SUMMARY: The Federal Savings and Loan Insurance Corporation's present regulations governing conversions of FSLIC insured institutions from mutual to stock form of ownership provide for the sale of conversion stock by means of a subscription offering to eligible account holders, other association members, and officers, directors and employees. All unsubscribed-for shares may be sold in a public offering, if such offering is practicable, otherwise in a private distribution. The proposed amendments would continue to provide for the sale of conversion stock by means of a subscription offering but would generally increase the rights of eligible account holders and other association members and limit purchases by officers and directors. In addition, the proposed amendments would provide for the sale of all unsubscribed-for shares in a public offering either in a direct offering through an underwriter or in a direct community marketing by the association. The purpose of these proposed changes is to promote wider participation by account holders and the public at large and to prescribe the degree of concentration of stock held by officers and directors.

DATES: Comments must be received by November 20, 1978.

ADDRESS: Send comments to the Office of the Secretary, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, D.C. 20552. Comments available for public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Douglas P. Faucette, Associate General Counsel, Federal Home Loan Bank Board, 202-377-6410, at the above address.

SUPPLEMENTAL INFORMATION: The Federal Home Loan Bank Board by Resolution No. 74-144, dated February 28, 1974, (39 FR 9142), adopted the present conversion regulations, which became effective April 8, 1974. Amendments to the regulations authorized the Bank Board to issue Federal stock charters, eliminated discounts on the sales price of stock and the preliminary and final Bank Board approval concept, revised the allocation of stock subscription rights, and added § 563b.9 which prohibits certain offers to acquire securities both prior to and 3 years subsequent to a conversion.

The Bank Board staff has analyzed over 102 conversion applications; 35 have been approved of which 31 conversions have been completed.

In several conversions some small institutions which were unable to sell stock through a public underwriter because of their size, also experienced poor account holder participation. Since the current regulations require that all conversion stock be sold, management, in these instances, was required to purchase all unsold shares.

The Bank Board believes this is an unacceptable result, not only because of the burden this requirement places on management, but because of the degree of concentration of ownership which sometimes results.

In order to broaden participation by accountholders and reduce the degree of concentration by officers and directors the Bank Board proposes to amend § 563b.3(c) to require plans of conversion to contain:

(1) A provision giving each supplemental eligible account holder, immediately following subscriptions by eligible account holders, a right to purchase the greater of 200 shares, one-tenth of 1 percent of the total offering of stock, or 15 times the product obtained by multiplying the total number of shares to be sold by the fraction which his qualifying deposits represents when compared to all qualifying deposits on the supplemental eligiblity record date.

(2) A provision increasing the subscription rights distribution to eligible account holders to the greater of 200 shares, one-tenth of 1 percent of the total offering, or 15 times the account holders' pro rata share of the offering.

(3) A provision giving a right to purchase 200 shares to account holders and borrowers entitled to vote at the meeting called to consider the conversion, but who are not eligible or supplemental eligible account holders.

(4) A provision limiting purchases by a person and his associates to 5 percent of the total offering of shares.

(5) A provision limiting purchases by officers and directors of the institution and their associates to 25 percent of the total offering.

In addition, the following optional provisions have been added or amended:

(1) A provision requiring any shares not sold in the subscription offering to be sold in a public offering through an underwriter or directly by the institution in a direct community marketing.

(2) A provision permitting eligible account holders, supplemental eligible account holders and members to receive additional rights to purchase up to 1 percent of the total offering.

In order to improve the trading market in a converted institutions' stock after a conversion and to further insure arms length transactions by management, the Bank Board proposes to amend § 563b.3(c) to require that plans of conversion contain:

(1) A provision requiring a converted institution to, (a) register the stock pursuant to the Securities Exchange Act of 1934; (b) use its best efforts to encourage and assist a market maker to establish and maintain a market for the stock issued in the conversion; and (c) use its best efforts to list the shares issued in connection with the conversion on a national or regional exchange or the NASDAQ quotation system.

(2) A provision restricting resale of stock purchased by officers and directors for a period of 3 years.

(3) A provision requiring, for a period of 3 years, officers and directors to purchase stock in the institution only from a broker or dealer registered with the Securities and Exchange Commission. The only exception to this would be a negotiated transaction for more than 1 percent of the outstanding stock.

The Bank Board also proposes to amend § 563b.3 (c) and (d) by adding two requirements to plans of conversion, one being that the expenses involved in a conversion be reasonable and the other, that the number of shares reserved for a stock option plan that is adopted at the meeting called to consider the conversion cannot exceed 10 percent of the stock sold pursuant to the conversion. These two requirements have been Bank Board policy in all applications for conversion considered to date.

In addition, the Bank Board proposes to revise the current 10-year restriction on the payment of cash dividend of two-thirds of current income to one-half of current income.

Current § 563b.9(d) prohibits, without Corporation approval, an announcement of an offer to acquire more than 10 percent of any equity security of a converted institution. The Bank Board proposes to amend this paragraph to prohibit, without Corporation approval, acquisition of beneficial ownership of more than 10 percent of any classs of equity security of a converted institution for 3 years, whether or not an offer is made.

Section 563b.2 *Definitions* would be revised by deleting the unneeded definition of "intitlement shares", by amending the definition of the term "subscription offering", and by adding definitions of the terms, "Broker", "Market-Maker", "Supplemental eligibility record date", and "Supplemental eligible accountholder".

The Bank Board proposes to amend Form AC by requiring the disclosure of officers' and directors' account balances on the eligibility record date and the 2 years preceding such date if the balance is at least $5.000 on the eligibility record date and has increased by at least 25 percent during the 2-year period preceding that date.

Form PS would be revised by requiring a detailed analysis by management of the financial statements contained in the proxy statement.

In addition, conforming changes are made to the forms (AC, PS and OC) used in connection with Part 563b. Accordingly, the Bank Board proposes to amend 12 CFR Part 563b and accompanying forms to read as follows:

PART 563b—CONVERSIONS FROM MUTUAL TO STOCK FORM

Sec.

563b.1 Scope of part.
563b.2 Definitions.
563b.3 General principles for conversions.
563b.4 Notice of filing; public statements; confidentiality.
563b.5 Solicitation of proxies; proxy statement.
563b.6 Vote by members.
563b.7 Pricing and sale of securities.
563b.8 Procedural requirements.
563b.9 Acquisitions of securities of converted associations.

AUTHORITY: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730; Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

§ 563b.1 Scope of part.

(a) *General.* Except as the Corporation may otherwise determine, the provisions of this part shall exclusively govern the conversion of mutual insured institutions to capital stock insured institutions. No such mutual insured institution shall convert to the capital stock form of organization without the prior written approval of the Corporation pursuant to the provisions of this part, except as the Corporation may otherwise provide in supervisory cases.

(b) *Provisions of prescribed forms.* Any provision in a form prescribed under this part and covering the same subject matter as any provision of this part shall have the same force and effect as if it were a provision of this part except as it relates to information not deemed material.

(c) *Conflicts with State law.* (1) In the event an applicant finds that compliance with any provision of this part would be in conflict with applicable State law, the applicant may file with the Corporation a written request for waiver of compliance with such provision. Such request may be incorporated in the application for conversion; otherwise, the applicant shall file four copies of such request.

(2) In making any such request, the applicant shall:

(i) Specify the provision or provisions of this part with respect to which the applicant desires waiver;

(ii) Furnish an opinion of counsel demonstrating that applicable State law is in conflict with the specified provision or provisions of this part; and

(iii) Demonstrate that the requested waiver would not result in any effects that would be inequitable or detrimental to the applicant, its account holders or other insured institutions or be contrary to the public interest.

§ 563b.2 Definitions.

(a) As used in this part and in the forms under this part, the following definitions apply, unless the context otherwise requires:

(1) *Affiliate.* An "affiliate" of, or a person "affiliated" with, a specified person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.

(2) *Amount.* The term "amount," when used in regard to securities, means the principal amount if relating to evidences of indebtedness, the number of shares if relating to shares, and the number of units if relating to any other kind of security.

(3) *Applicant.* An "applicant" is an insured institution which has applied to convert pursuant to this part.

(4) *Associate.* The term "associate," when used to indicate a relationship with any person, means (i) any corporation or organization (other than the applicant or a majority-owned subsidiary of the applicant) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities, (ii) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (iii) any relative or spouse of such person, or any relative of such spouse, who has the same home as such person or who is a director or officer of the applicant or any of its parents or subsidiaries.

(5) *Association members.* The term "association members" refers to persons who, pursuant to the charter or bylaws of the applicant, are eligible to vote at the applicant's meeting at which conversion will be voted upon.

(6) *Board.* The term "Board" refers to the Federal Home Loan Bank Board.

(7) *Broker.* The term "broker" means any person engaged in the business of effecting transactions in securities for the account of others.

(8) *Capital stock.* The term "capital stock" includes permanent stock, guaranty stock, permanent reserve stock, or any similar certificate evidencing nonwithdrawable capital.

(9) *Charter.* The term "charter" includes articles of incorporation, articles of association, or any similar instrument, as amended, effecting (either with or without filing with any governmental agency) the organization or creation of an incorporated or unincorporated person.

(10) *Control.* The term "control" (including the terms "controlling," "controlled by," and "under common with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

(11) *Corporation.* The term "Corporation" refers to the Federal Savings and Loan Insurance Corporation.

(12) *Dealer.* The term "dealer" means any person who engages either for all or part of his time, directly or indirectly, as agent, broker, or principal, in the business of offering, buying, selling, or otherwise dealing or trading in securities issued by another person.

(13) *Director.* The term "director" means any director of a corporation or any person performing similar functions with respect to any organization whether incorporated or unincorporated.

(14) *Eligibility record date.* The term "eligibility record date" means the record date for determining eligible account holders of a converting institution.

(15) *Eligible account holder.* The term "eligible account holder" means any person holding a qualifying deposit as determined in accordance with § 563b.3(e).

(16) *Employee.* The term "employee" does not include a director or officer.

(17) *Equity security.* The term "equity security" means any stock or similar security; or any security convertible, with or without consideration, into such a security, or carrying any warrant or right to subscribe to or purchase such security; or any such warrant or right.

(18) *Insured institution.* The term "insured institution", has the same meaning as in section 561.1 of this subchapter.

(19) *Market maker.* The term "market maker" means a dealer who, with respect to a particular security, (i) regularly publishes a bona fide, competitive bid and offer quotations in a recognized interdealer quotation system; or (ii) furnishes bona fide competitive bid and offer quotations on re-

V 4

quest; and (iii) is ready, willing, and able to effect transactions in reasonable quantities at his quoted prices with other brokers or dealers.

(29) *Security.* The term "security" includes any note, stock, treasury stock, bond, debenture, transferable share, investment contract, voting-

(35) *Supplemental eligible account holder.* The term "supplemental eligible account holder" means any person holding a qualifying deposit, except

(2) The Board has determined that a method of conversion which provides a so-called "windfall" distribution to the account holders of a converting mutual insured institution would

(2) The conversion would result in any reduction of the Federal insurance reserve or would cause the applicant to fail to meet any net worth requirement of § 563.13 of this sub-

approval, a supplemental eligibility record date be determined whereby each supplemental eligible account holder of the converting insured institution, shall receive without payment,

V 4 3 1 2 0 3 OCT 19 78

quest; and (iii) is ready, willing, and able to effect transactions in reasonable quantities at his quoted prices with other brokers or dealers.

(20) *Material.* The term "material", when used to qualify a requirement for the furnishing of information as to any subject, limits the information required to those matters as to which an average prudent investor ought reasonably to be informed before purchasing an equity security of the applicant, or matters as to which an average prudent association member ought reasonably to be informed in voting upon the plan of conversion of the applicant.

(21) *Member.* The term "member" means any person qualifying as a member of an insured institution pursuant to its charter or bylaws.

(22) *Offer.* The term "offer", "offer to sell", or "offer of sale" shall include every attempt or offer to dispose of, or solicitation of an offer to buy, a security or interest in a security, for value. These terms shall not include preliminary negotiations or agreements between an applicant and any underwriter or among underwriters who are or are to be in privity of contract with an applicant.

(23) *Officer.* The term "officer" means the chairman of the board, president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and any other person performing similar functions with respect to any organization whether incorporated or unincorporated.

(24) *Person.* The term "person" means an individual, a corporation, a partnership, an association, a joint-stock company, a trust, any unincorporated organization, or a government or political subdivision thereof.

(25) *Proxy.* The term "proxy" includes every form of authorization by which a person is, or may be deemed to be, designated to act for an association member in the exercise of his voting rights in the affairs of an insured institution. Such an authorization may take the form of failure to dissent or object.

(26) *Purchase.* The terms "purchase" and "buy" include every contract to purchase, buy, or otherwise acquire a security or interest in a security for value.

(27) *Sale.* The terms "sale" and "sell" include every contract to sell or otherwise dispose of a security or interest in a security for value; but such terms do not include an exchange of securities in connection with a merger or acquisition approved by the Board or the Corporation.

(28) *Savings account.* The term "savings account" has the same meaning as in section 561.11 of this subchapter and includes certificates of deposit.

(29) *Security.* The term "security" includes any note, stock, treasury stock, bond, debenture, transferable share, investment contract, voting-trust certificate, or in general, any instrument commonly known as a "security"; or any certificate of interest or participation in, temporary or interim certificate for, receipt for, or warrant or right to subscribe to or purchase, any of the foregoing.

(30) *Solicitation; solicit.* The terms "solicitation" and "solicit" refer to (i) any request for a proxy whether or not accompanied by or included in a form of proxy; (ii) any request to execute, not execute, or revoke a proxy; or (iii) the furnishing of a form of proxy or other communication to association members under circumstances reasonably calculated to result in the procurement, withholding, or revocation of a proxy. The terms do not apply, however, to the furnishing of a form of proxy to an association member upon the unsolicited request of such association member, the performance of acts required by § 563b.5(f), or to the performance by any person of ministerial acts on behalf of a person soliciting a proxy.

(31) *Subscription offering.* The term "subscription offering" refers to the offering of shares of capital stock, through nontransferable subscription rights issued to: (i) Eligible account holders as required by § 563b.3(c)(2); (ii) supplemental eligible account holders as required by § 563b.3(c)(4); (iii) members entitled to vote at the meeting called to consider the conversion as required by § 563b.3(c)(5); (iv) directors, officers, and employees, as permitted by § 563b.3(d)(1); and (v) eligible account holders, supplemental eligible account holders, and voting members as permitted by § 563b.3-(d)(2).

(32) *Subsidiary.* A "subsidiary" of a specified person is an affiliate controlled by such person, directly or indirectly, through one or more intermediaries.

(33) *Supervisory agent.* The term "supervisory agent" means (i) the president of the bank of the Federal home loan bank district in which the applicant has its principal office, or (ii) any other person who is specifically designated as an agent by the Corporation to act in its behalf in the administration of this part.

(34) *Supplemental eligibility record date.* The term "supplemental eligibility record date" means the supplemental record date for determining supplemental eligible account holders of a converting institution required by § 563b.3(c)(3). The date shall be the last day of the calendar quarter preceding Board approval of the application for conversion.

(35) *Supplemental eligible account holder.* The term "supplemental eligible account holder" means any person holding a qualifying deposit, except officers, directors, and their associates, as of the supplemental eligibility record date.

(36) *Underwriter.* The term "underwriter" means any person who has purchased from an applicant with a view to, or offers or sells for an applicant in connection with, the distribution of any security, or participates or has a direct or indirect participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. The term "principal underwriter" means an underwriter in privity of contract with the applicant or other issuer of securities as to which he is the underwriter.

(b) Terms defined in other parts of this subchapter, when used in this part, shall have the meanings given in such definitions, to the extent such definitions are not inconsistent with the definitions contained in this part, unless the context otherwise requires.

§ 563b.3 General principles for conversions.

(a) *Findings of Federal Home Loan Bank Board.* (1) The regulations contained in this part are promulgated to provide rules by which mutual insured institutions may convert to the stock form of organization on an equitable basis. In determining the equity of conversion standards and procedures, the Board, both directly and as operating head of the Corporation, finds that it is necessary to consider the effects of various standards and procedures that might be adopted, not only on an individual applicant but also on the entire system of insured institutions. Indeed, the Board believes that it has a public responsibility also to consider the effects on financial institutions which are not thrift institutions and on thrift institutions which are not subject to the Board's regulatory jurisdiction. If a particular method of conversion would unacceptably threaten the financial stability of such institutions, or a substantial portion of them, the Board cannot consider such method of conversion to be on an equitable basis. Further, if a particular method of conversion would tend to force individual mutual insured institutions to convert to the stock form irrespective of whether such institutions or the communities they serve would be benefited thereby, the Board cannot consider such a method of conversion to be on an equitable basis.

(2) The Board has determined that a method of conversion which provides a so-called "windfall" distribution to the account holders of a converting mutual insured institution would create strong incentives for significant shifts of savings funds among insured institutions and other financial institutions and that such shifts of savings funds would unacceptably threaten the financial stability of such institutions. The Board has also determined that a method of conversion which provides a so-called "windfall" distribution would tend to force individual mutual insured institutions to convert to the stock form irrespective of whether such institutions or the communities they serve would be benefited thereby. The Board therefore finds that no method of conversion can be considered equitable unless such "windfall" distribution is virtually eliminated. The Board further finds that such "windfall" distribution is not virtually eliminated by methods of conversion under which the control of such distribution is intended to be effected by systems of averaging or weighting deposits, by restricting transferability of the capital stock of converted insured institutions, by placing such stock in escrow or trust, by delayed distribution of such stock or its equivalent in cash by placing such stock in escrow or trust, by delayed distribution of such stock or its equivalent in cash, or by segregating the net worth accounts of converted insured institutions and proportionally allocating the future income of such institutions to such accounts, or by any of the foregoing methods taken in combination. The Board also finds that, in order for conversion regulations to be effective against the undesirable results of such "windfall" distributions, the basic provisions of such regulations must operate with substantial uniformity with respect to mutual insured institutions on a national scale.

(3) The regulations contained in this part, while providing the account holder with rights to a share in the equity of the converting mutual insured institution in the event of a subsequent complete liquidation, are designed virtually to eliminate the "windfall" aspect of conversion and the resulting disruptive effect on the economy. Accordingly, the Board finds that these regulations provide a means by which mutual insured institutions may convert to stock form on an equitable basis.

(b) *General requirements.* No application for conversion shall be approved by the Corporation if:

(1) The plan of conversion adopted by the applicant's board of directors is not in accordance with the provisions of this part;

(2) The conversion would result in any reduction of the Federal insurance reserve or would cause the applicant to fail to meet any net worth requirement of § 563.13 of this subchapter;

(3) The conversion may result in a taxable reorganization of the applicant under the Internal Revenue Code of 1954, as amended; or

(4) The converted institution would not have its accounts insured by the Corporation.

(c) *Required provisions in plan of conversion.* The plan of conversion shall:

(1) Provide that the converting insured institution shall issue and sell its capital stock at a total price equal to the estimated pro forma market value of such stock in the converted insured institution, based on an independent valuation, as provided in § 563b.7.

(2) Provide that each eligible account holder shall receive without payment, nontransferable subscription rights to purchase capital stock in an amount equal to the greater of 200 shares, one-tenth of 1 percent of the total offering of shares or 15 times the product (rounded down to the next whole number) obtained by multiplying the total number of shares of capital stock to be issued by a fraction of which the numerator is the amount of the qualifying deposit of the eligible account holder and the denominator is the total amount of qualifying deposits of all eligible account holders in the converting insured institution. If the allotment made in this paragraph (c)(2) results in an oversubscription, shares shall be allocated among subscribing eligible account holders so as to permit each such account holder, to the extent possible, to purchase a number of shares sufficient to make his total allocation equal to 100 shares. Any shares not so allocated shall be allocated among the subscribing eligible account holders on such equitable basis, related to the amounts of their respective qualifying deposits as may be provided in the plan of conversion.

(3) Nontransferable subscription rights to purchase capital stock received by officers and directors and their associates of the converting insured institution based on their increased deposits in the converting association in the 1-year period preceding the eligibility record date shall be subordinated to all other subscriptions involving the exercise of nontransferable subscription rights to purchase shares pursuant to paragraph (c)(2) of this section.

(4) Provide that, in plans involving an eligibility record date that is more than 15 months prior to the date of the latest amendment to the application for conversion filed prior to Board approval, a supplemental eligibility record date be determined whereby each supplemental eligible account holder of the converting insured institution, shall receive without payment, nontransferable subscription rights to purchase supplemental shares in an amount equal to the greater of 200 shares, one-tenth of 1 percent of the total offering of shares or 15 times the product (rounded down to the next whole number) obtained by multiplying the total number of shares of capital stock to be issued by a fraction of which the numerator is the amount of the qualifying deposit of the supplemental eligible account holder and the denominator is the total amount of the qualifying deposits of all supplemental eligible account holder in the converting insured institution on the supplemental eligibility record date.

(i) Subscription rights received pursuant to this paragraph (c)(4) shall be subordinated to all rights received by eligible account holders to purchase shares pursuant to paragraph (c)(2).

(ii) Any nontransferable subscription rights to purchase shares received by an eligible account holder in accordance with paragraph (c)(2) of this section shall be applied in partial satisfaction of the subscription rights to be destributed pursuant to this paragraph (c)(4).

(iii) In the event of an oversubscription for supplemental shares pursuant to this paragraph (c)(4), shares shall be allocated among the subscribing supplemental eligible account holders as follows:

(A) Shares shall be allocated among subscribing supplemental eligible account holders so as to permit each such supplemental account holder, to the extent possible, to purchase a number of shares sufficient to make his total allocation (including the number of shares, if any, allocated in accordance with paragraph (c)(2) of this section) equal to 100 shares.

(B) Any shares not allocated in accordance with paragraph (c)(4)(iii)(A) of this section shall be allocated among the subscribing supplemental eligible account holders on such equitable basis, related to the amounts of their respective qualifying deposits as may be provided in the plan of conversion.

(5) Provide that association voting members who are not either eligible account holders or supplemental eligible account holders shall receive, without payment, nontransferable subscription rights to purchase 200 shares of capital stock, to the extent that shares are available after satisfying the subscriptions of eligible account holders and supplemental eligible account holders provided for under paragraphs (c) (2) and (4) of this section. In the event of an oversubscription for

V 43 / 203 / OCT 19 78

shares under the provisions of this paragraph (c)(5), the shares available shall be allocated among the subscribing voting members on such equitable basis as may be provided in the plan of conversion.

(6) Provide that the number of shares which any person together with any associate or group of persons acting in concert may subscribe for or purchase in the conversion shall not exceed 5 percent of the total offering of shares. For purposes of this paragraph (c)(6) the members of the converting insured institution's board of directors shall not be deemed to be associates or a group acting in concert solely as a result of their board membership.

(7) Provide that the number of shares which officers and directors of the converting insured institution and their associates may purchase in the conversion shall not exceed 25 percent of the total offering of shares.

(8) Provide that no officer, or director or their associates, shall purchase without the prior written approval of the Corporation the capital stock of the converted insured institution except from a broker or dealer registered with the Securities and Exchange Commission for a period of 3 years following the conversion. This provision shall not apply to negotiated transactions as defined by § 563.8-1(d)(3)(i) involving more than 1 percent of the outstanding capital stock of the converted insured institution.

(9) Provide that the sales price of the shares of capital stock to be sold in the conversion shall be a uniform price determining in accordance with § 563b.7; and specify the underwriting and/or other marketing arrangements to be made to assure the sale of all shares not sold in the subscription offering.

(10) Provide that each savings account holder of the converting insured institution shall receive, without payment, a withdrawable savings account or accounts in the converted insured institution equal in withdrawable amount to the withdrawal value of such account holder's savings account or accounts in the converting insured institution.

(11) Provide for the establishment and maintenance of a liquidation account for the benefit of eligible account holders and supplemental eligible account holders in the event of a subsequent complete liquidation of the converted insured institution, in accordance with the provisions of paragraph (f) of this section.

(12) Provide for an eligibility record date, which shall be not less than 90 days prior to the date of adoption of the plan by the converting insured institution's board of directors.

(13) Provide that the holders of the capital stock of the converted insured institution shall have exclusive voting rights, unless in the case of a State-chartered converted insured institution State law requires savings account holders and/or borrowers of the converted insured institution to have voting rights, in which case the charter of the converted insured institution shall (i) limit such voting rights to the minimum required by State law, and (ii) provide for the management of the converted insured institution to solicit proxies from such savings account holders and/or borrowers in the same manner as it solicits proxies from its shareholders.

(14) Provide that the plan of conversion adopted by the applicant's board of directors may be substantively amended by such board of directors as a result of comments from regulatory authorities or otherwise prior to the solicitation of proxies from members to vote on the plan and at any time thereafter with the concurrence of the Corporation; and that the conversion may be terminated by such board of directors at any time prior to the meeting of members called to consider the plan of conversion and at any time thereafter with the concurrence of the Corporation.

(15) Provide that all shares of capital stock purchased by directors and officers on original issue in the conversion either directly from the insured institution (by subscription or otherwise) or from an underwriter of such shares, shall be subject to the restriction that such shares shall not be sold for a period of not less than 3 years following the date of purchase, except in the event of death of the director or officer.

(16) Provide that, in connection with shares of capital stock subject to restriction on sale for a period of time:

(i) Each certificate for such stock shall bear a legend giving appropriate notice of such restriction;

(ii) Appropriate instructions shall be issued to the transfer agent for the converted insured institution's capital stock with respect to applicable restrictions on transfer of any such restricted stock; and

(iii) Any shares issued as a stock dividend, stock split, or otherwise with respect to any such restricted stock shall be subject to the same restriction as may apply to such restricted stock.

(17) Provide that the converting insured institution shall:

(i) Promptly following the conversion register the securities issued in connection therewith pursuant to the Securities Exchange Act of 1934 and undertake not to deregister such securities for a period of 3 years thereafter;

(ii) Use its best efforts to encourage and assist a market maker to establish and maintain a market for the securities issued in connection with the conversion; and

(iii) Use its best efforts to list those shares issued in connection with the conversion on a national or regional securities exchange or on the NASDAQ quotation system.

(18) Provide that the expenses incurred in the conversion shall be reasonable.

(19) Contain no provision which the Corporation shall determine to be inequitable or detrimental to the applicant, its savings account holders or other insured institutions or to be contrary to the public interest.

(d) *Optional provisions in plan of conversion.* The plan of conversion may provide any or all of the following:

(1) That directors, officers, and employees of the converting insured institution, as part of the subscription offering, shall be entitled to purchase shares of capital stock, to the extent that shares are available after satisfying the subscriptions of eligible account holders, supplemental eligible account holders and members provided for under paragraphs (c) (2), (4), and (5) of this section, subject to the following conditions:

(i) The total number of shares which may be purchased under this subdivision (i) shall not exceed 25 percent of the total number of shares to be issued in the case of a converting insured institution with total assets of less than $50 million or 15 percent in the case of a converting insured institution with total assets of $500 million or more; in the case of a converting insured institution with total assets of $50 million or more but less than $500 million, the percentage shall be no more than a correspondingly appropriate number of shares based on total asset size (for example, 20 percent in the case of a converting insured institution with total assets of approximately $275 million); and

(ii) The shares shall be allocated among directors, officers, and employees on an equitable basis such as by giving weight to period of service, compensation and position, subject to a reasonable limitation on the amount of shares which may be purchased by any person associate thereof, or group of affiliated persons or group of persons otherwise acting in concert.

(2) That each eligible account holder, supplemental subscription offering, shall also receive, without payment, nontransferable subscription rights to purchase up to 1 percent of the total offering of shares of capital stock, to the extent that such shares are available after satisfying the subscriptions provided for under paragraphs (c) (2), (4), and (5) of this section, subject to such conditions as may be provided in the plan of conversion. In the event of an oversubscription for such additional shares, the shares available shall be allocated among the subscribing eligible account holders, supplemental eligible account holders and voting members on such equitable basis, related to the amounts of their respective subscriptions, as may be provided in the plan of conversion. Where possible such subscriptions shall be allocated in such a manner that total purchases by eligible account holders, supplemental eligible account holders, and voting members shall be rounded to the nearest 100 shares.

(3) That any shares of the converting insured institution not sold in the subscription offering shall either be sold in a public offering through an underwriter or directly by the converting insured institution in a direct community marketing, subject to the applicant demonstrating to the Corporation the feasibility of the method of sale and to such conditions as may be provided in the plan of conversion. Such conditions shall include, but not be limited to:

(i) A condition limiting purchases by each officer and director or their associates in this phase of the offering to one tenth of one percent of the total offering of shares;

(ii) A condition limiting purchases by persons and their associates in this phase of the offering to 2 percent of the share to be sold in the total offering or any lesser percent included in the plan of conversion pursuant to paragraph (d)(5) of this section; and

(iii) A condition that any direct community offering by the converting institution shall give a preference to natural persons residing in the counties in which the institution has an office.

(4) That any significant residue of shares of the converting insured institution not sold in the subscription offering or in a public offering referred to in paragraph (d)(3) may be sold in such other manner as provided in the plan with Board approval.

(5) That the number of shares which an eligible account holder or supplemental eligible account holder may subscribe for under paragraph (c)(4) of this section may be made subject to a limit of not less than one percent of the total offering of shares for each eligible account holder or supplemental eligible account holder, or eligible account holder and supplemental eligible account holder having the same taxpayer identification number, or group of eligible account holder and supplemental eligible account holder affiliated with each other of otherwise acting in concert.

(6) That any person exercising subscription rights to purchase capital stock shall be required to purchase a minimum of up to 25 shares to the extent such shares are available (but the aggregate price for any minimum share purchase shall not exceed $500).

(7) That a stock option plan may be adopted at the meeting at which the plan of conversion is voted upon by the members of the converting insured institution. The number of shares reserved for such stock option plans should be limited to 10 percent of the number of shares sold in the conversion.

(8) That the converted insured institution shall issue and sell, in lieu of shares of its capital stock, units of securities consisting of capital stock and long-term warrants or other equity securities, in which event any reference in the provisions of this part to capital stock shall apply to such units of equity securities unless the context otherwise requires.

(9) that the Corporation may approve such other equitable provisions as are necessary to avert imminent injury to the converting insured institution.

(e) *Determination of amount of qualifying deposit; predecessor and successor accounts.* (1) Unless otherwise provided in the plan of conversion, for the purposes of this section, the amount of the qualifying deposit of an eligible account holder or supplemental eligible account holder shall be the total of the deposit balances in the eligible account holder's or supplemental eligible account holder's savings accounts in the converting insured institution as of the close of business on the eligibility record data or supplemental eligibility record date. However, the plan of conversion may provide that any savings accounts with total deposit balanced of less than $50 (or any lesser amount) shall not constitute a qualifying deposit.

(2) As used in this section, the term "savings account" includes a predecessor or successor account of a given savings account which is held only in the same right and capacity and on the same terms and conditions as the given savings account. However, the plan of conversion may provide for lesser requirements for consideration as a predecessor or successor account.

(f) *Liquidation account.* (1) Each converted insured institution shall, at the time of conversion, establish a liquidation account in an amount equal to the amount of net worth of the converting insured institution as of the latest practicable date prior to conversion. For the purposes of this paragraph, the insured institution shall use the net worth figure no later than that set forth in its latest statement of financial condition contained in the final offering circular. The function of the liquidation account is to establish a priority on liquidation and, except as provided in paragraph (g)(2) of this section, the existence of the liquidation account shall not operate to restrict the use or application of any of the net worth accounts of the converted insured institution.

(2) The liquidation account shall be maintained by the converted insured institution for the benefit of eligible account holders and supplemental eligible account holders who maintain their savings accounts in such institution. Each such eligible account holder and supplemental eligible account holder shall, with respect to each savings account held, have a related inchoate interest in a portion of the liquidation account balance ("subaccount").

(3) In the event of a complete liquidation of the converted insured institution (and only in such event), each eligible account holder and supplemental eligible account holder shall be entitled to receive a liquidation distribution from the liquidation account, in the amount of the then current adjusted subaccount balances for savings accounts then held, before any liquidation distribution may be made with respect to capital stock. No merger, consolidation, purchase or bulk assets with assumption of savings accounts and other liabilities, or similar transaction, in which the converted institution is not the surviving institution, is considered to be a complete liquidation for this purpose. In such transactions, the liquidation account shall be assumed by the surviving insured institution.

(4) The initial subaccount balance for a savings account held by an eligible account holder and/or supplemental eligible account holder shall be determined by multiplying the opening balance in the liquidation account by a fraction of which the numerator is the amount of qualifying deposits of such account holder on the eligibility record date and/or the supplemental eligibility record date and the denominator is the total amount of qualifying deposits of all eligible account holders and supplemental eligible account holders in the converting insured institution on such dates. Such initial subaccount balance shall not be increased, and it shall be subject to downward adjustment as provided in paragraph (f)(5) of this section.

(5) If the deposit balance in any savings account of an eligible account holder at the close of business on any annual closing date subsequent to the eligibility record date is less than the lesser of (i) the deposit balance in such savings account at the close of business on any other annual closing date subsequent to the eligibility record

V 43 / 203 / OCT 19 78

date or (ii) the amount of the qualifying deposit in such savings account, the subaccount balance for such savings account shall be adjusted by re-

(i) *Acquisition of converted insured institutions*—(1) *General.* The Board finds that the new capital to be received by converted insured institu-

lated business activity if its unrelated business activities would represent, on either an actual or a pro forma basis, more than 15 percent of its consolidat-

press release are not required to be filed with the Corporation, but may be submitted for comment to the Office of General Counsel. Copies of the de-

receive nontransferable subscription rights to purchase capital stock of the applicant:

(x) A brief statement as to the

version is properly executed and is not materially incomplete, the Corporation will advise the applicant, in writ-

ing, to publish notices of the filing of

V 4 3 \ 2 0 3 0 C 1 9 7 8

date or (ii) the amount of the qualifying deposit in such savings account, the subaccount balance for such savings account shall be adjusted by reducing such subaccount balance in an amount proportionate to the reduction in such deposit balance. In the event of such a downward adjustment, the subaccount balance shall not be subsequently increased, notwithstanding any increase in the deposit balance of the related savings account. If any such savings account is closed, the related subaccount balance shall be reduced to zero.

(g) *Restrictions on repurchase of stock and payment of dividends.* Any approval of a conversion by the corporation under this part shall be subject to the following conditions:

(1) No converted insured institution shall for a period of 10 years repurchase any of its capital stock from any person except in the case of a repurchase, on a pro rata basis pursuant to an offer, approved by the corporation, made to all shareholders of such institution and except for the repurchase of qualifying shares of a director.

(2) No converted insured institution shall declare or pay a cash dividend on, or repurchase any of, its capital stock if the effect thereof would cause the net worth of the converted insured institution to be reduced below (i) the amount required for the liquidation account or (ii) the net worth requirements contained in § 563.13(b) of this subchapter.

(3) Without the prior approval of the Corporation, no converted insured institution shall, for a period of 10 years after the date of its conversion, declare or pay a cash dividend on, or repurchase any of, its capital stock in an amount in excess of one half of the greater of:

(i) The institution's net income (as defined in § 563c.12 of this subchapter) for the current fiscal year; or

(ii) The average of the institution's net income (as so defined) for the current fiscal year and not more than two of the immediately preceding fiscal years.

(h) *Manipulative and deceptive devices.* In the offer, sale or purchase of securities issued incident to its conversion, no insured institution, or any director, officer, attorney agent or employee thereof, shall (1) employ any device, scheme, or artifice to defraud, or (2) obtain money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, or (3) engage in any act, transaction, practice, or course of business which operates or would operate as a fraud or deceit upon a purchaser or seller.

(i) *Acquisition of converted insured institutions*—(1) *General.* The Board finds that the new capital to be received by converted insured institutions upon the sale of capital stock will cause such insured institutions, during an initial period following conversion, to be specially vulnerable to attempts by other companies to acquire control of such insured institutions. The Board further finds that acquisition of control of such insured institutions by companies significantly engaged in unrelated business activities is inconsistent with the provision of economical home financing by such insured institutions. Accordingly, the provisions of this paragraph are designed to prevent such acquisitions of newly converted insured institutions for a limited period of time following conversion sufficient to reduce or eliminate their special vulnerability and the adverse impact on the provision of economical home financing.

(2) *Required agreement.* No conversion shall be approved by the Corporation unless the plan of conversion provides that the converted insured institution shall enter into an agreement with the Corporation, in form satisfactory to the Corporation, which shall provide that for a period of 3 years following the conversion any company significantly engaged in an unrelated business activity, either directly or through an affiliate thereof, shall not be permitted, regardless of the form of the transaction, to acquire control of the converted insured institution.

(3) *Optional charter provision.* To the extent permitted by applicable Federal or State law, a plan of conversion may provide for a provision in the charter of the converted insured institution containing, in substance, the restriction set forth in paragraph (i)(2) of this section. There may also be included a restriction providing that such charter provision may be amended only by a vote of up to 75 percent of the votes eligible to be cast at a regular or special meeting of shareholders of the converted insured institution. If the converted insured institution elects to adopt the foregoing optional charter provision, the Corporation will impose, as a condition to its approval of the conversion, a requirement that the converted institution fully enfore such charter provision.

(4) *Definitions.* As used in this paragraph:

(i) The term "affiliate" means any person or company which controls, is controlled by, or is under common control with, a specified company.

(ii) The term "control" shall have the meaning given to it by section 408(a)(2) of the National Housing Act, as amended.

(iii) A company shall be deemed to be "significantly engaged" in an unrelated business activity if its unrelated business activities would represent, on either an actual or a pro forma basis, more than 15 percent of its consolidated net worth at the close of its preceding fiscal year or of its consolidated net earnings for such fiscal year.

(iv) The term "unrelated business activity" means any business activity not authorized for a multiple savings and loan holding company under section 408(c)(2) of the National Housing Act, as amended, or under regulations adopted pursuant thereto.

§ 563b.4 Notice of filing; public statements; confidentiality.

(a) *Information prior to approval of plan of conversion.* (1) An insured institution which is considering converting pursuant to this part and its directors, officers and employees shall keep such consideration in the strictest confidence and shall only discuss the potential conversion as would be consistent with the need to prepare information for filing an application for conversion. Should this confidence be breached the Corporation may require remedial measures including:

(i) A public statement by the institution that its board of directors is currently considering converting pursuant to this part;

(ii) Providing for an eligibility record date which shall be as of such a date prior to the adoption of the plan by the converting insured institution's board of directors as to assure the equitability of the conversion;

(iii) Limitation of the subscription rights of any person violating or aiding the violation of this section to an amount deemed appropriate by the Corporation; and

(iv) Any other actions the Corporation may deem appropriate and necessary to assure the fairness and equitability of the conversion.

(2) If it should become essential as a result of rumors prior to the adoption of a plan of conversion by the applicant's board of directors, a public statement limited to that purpose may be made by the applicant.

(3) Promptly after the adoption of a plan of conversion by not less than two-third of its board of directors, the insured institution shall:

(i) Notify its members of such action by publishing a statement in a newspaper having general circulation in each community in which an office of the insured institution is located and/or by mailing a letter to each of its members; and

(ii) Have copies of the adopted plan of conversion available for inspection by its members at each office of the insured institution. The insured institution may also issue a press release with respect to such action. Copies of the proposed statement, letter and press release are not required to be filed with the Corporation, but may be submitted for comment to the Office of General Counsel. Copies of the definitive statement, letter and press release shall be filed with the Corporation as part of the application for conversion.

(4) The statement, letter and press release, unless otherwise authorized by the Corporation shall contain only (but need not contain all of) the following:

(i) A statement that the board of directors has adopted a proposed plan to convert the insured institution from a Federal (or State, as the case may be) mutual institution to a Federal (or State, as the case may be) capital stock insured institution;

(ii) A statement that the proposed plan of conversion must be approved by at least a majority of the votes eligible to be cast either in person or by proxy by association members at a meeting at which the plan will be submitted for their approval;

(iii) A statement that existing proxies held with respect to voting rights in the insured institution will not be voted regarding the conversion, and that new proxies will be solicited for voting on the proposed plan of conversion;

(iv) A statement that a proxy statement setting forth more detailed information with respect to the proposed plan of conversion will be sent to association members prior to the meeting of members;

(v) A statement that the proposed plan of conversion is subject to approval by the Federal Home Loan Bank Board and by the appropriate State regulatory authority or authorities (naming such an authority or authorities) before such plan can become effective and that members of the applicant will have an opportunity to file written comments including objections and materials supporting such objections to the Board.

(vi) A statement that the proposed plan of conversion is contingent upon obtaining favorable tax rulings from the Internal Revenue Service or an appropriate tax opinion;

(vii) A statement that there is no assurance that the approval of the Federal Home Loan Bank Board or the approval of any appropriate State authority or authorities will be obtained, and also no assurance that the favorable tax rulings or tax opinion will be received;

(viii) The proposed record date for determining the eligible account holders entitled to receive nontransferable subscription rights to purchase capital stock of the applicant;

(ix) A brief statement describing the circumstances that would require supplemental eligible account holders to receive nontransferable subscription rights to purchase capital stock of the applicant:

(x) A brief statement as to the extent to which voting members will participate in the conversion;

(xi) A brief description of the proposed plan of conversion;

(xii) A par value (if any) and approximate number of shares of capital stock to be issued and sold under the proposed plan of conversion;

(xiii) A brief statement as to the extent to which directors, officers and employees will participate in the conversion;

(xiv) A statement that savings account holders will continue to hold accounts in the converted insured institution indentical as to dollar amount, rate of return and general terms, and that their accounts will continue to be insured by the Federal Savings and Loan Insurance Corporation;

(xv) A statement that the insured institution will continue to be a member of the Federal Home Loan Bank System;

(xvi) A statement that borrowers' loans will be unaffected by conversion, and that the amount, rate, maturity, security and other conditions will remain contractually fixed as they existed prior to conversion;

(xvii) A statement that the normal business of the insured institution in accepting savings and making loans will continue without interruption; that the converted insured institution will continue after conversion to conduct its present services to savings account holders and borrowers under current policies to be carried on in existing offices and by the present management and staff;

(xviii) A statement that the proposed plan of conversion may be substantively amended by the board of directors as a result of comments from the regulatory authorities or otherwise prior to the meeting, and that the proposed plan may also be terminated by the board of directors; and

(xix) A statement that questions of members will be answered in the proxy material to be sent after the regulatory approvals of the proposed plan of conversion have been obtained and that any questions at this time may be answered by telephoning or writing to the insured institution.

(4) Such statement, letter and press release shall not in any manner solicit proxies, include financial statements, or describe the benefits of conversion or the value of the capital stock of the insured institution upon conversion. In replying to inquiries, the insured institution should limit its answers to the matters listed in paragraph (a)(3) of this section.

(b) *Notice of filing.* (1) Upon determination that an application for conversion is properly executed and is not materially incomplete, the Corporation will advise the applicant, in writing, to publish notices of the filing of such application. Promptly after receipt of such advice, the applicant shall furnish a written notice of such filing to each eligible account holder and member and also publish a notice of such filing in a newspaper printed in the English language and having general circulation in each community in which an office of the applicant is located, as follows:

NOTICE OF FILING OF AN APPLICATION FOR CONVERSION TO CONVERT TO A STOCK SAVINGS & LOAN ASSOCIATION

Notice is hereby given that, pursuant to part 563b of the rules and regulations for Insurance of Accounts

---

(Fill in name of applicant) has filed an application with the Federal Savings and Loan Insurance Corporation for approval to convert to the (State chartered or Federally-chartered) ———— stock form of organization. Copies of the application have been delivered to the Securities Division, Office of General Counsel of said Corporation, 1700 G Street NW., Washington, D.C. 20552, and to the Office of the Supervisory Agent of said Corporation at the Federal Home Loan Bank of —— (Street address) ————, (City) ————, (State) ——, (Zip Code) ——.

Written comments, including objections to the plan of conversion and materials supporting such objections, from any member of the applicant will be considered by the Corporation if filed within 20 business days after the date of this publication. Three copies of such comments should be sent to the aforementioned Office of the Secretary with one copy to said Office of the Supervisory Agent. The proposed plan of conversion and any comments thereon will be available for inspection by any member of the applicant at said Office of the Secretary and at said Office of the Supervisory Agent. A copy of the plan may also be inspected at each office of the applicant.

If a significant number of the applicant's members speak a language other than English and a newspaper in that language is published in the area served by the applicant, an appropriate translation of such notice shall also be published in such newspaper.

(2) Promptly after publication of the notices prescribed in paragraph (b)(1) of this section, the applicant shall file four copies thereof with the Corporation. The applicant shall also file four copies of an affidavit of publication from each newspaper publisher.

(c) *Confidential information.* Should the applicant desire to submit any information it deems to be of a confidential nature regarding the answer to any item or a part of any exhibit included in any application under this part, such information pertaining to such item or exhibit shall be separately bound and labeled "confidential", and a statement shall be sub-

mitted therewith briefly setting forth the grounds on which such information should be treated as confidential. Only general reference thereto need be made in the application. Such information will be kept confidential to the extent permitted by § 552 of this chapter.

(d) *Amendments.* Any amendment to the application or to the plan of conversion shall be filed with the Corporation and, unless each person solicited is concurrently furnished, or has previously been furnished, a written proxy statement, the use of which has been approved by the Corporation, a written statement containing the information specified by the Corporation, shall be furnished to each person solicited by the applicant or by any person on behalf of the applicant with respect to the plan of conversion.

(e) *Solicitation of proxies.* Any solicitation of proxies, whether by the applicant or by any person on behalf of the applicant, shall be made only by means of a proxy statement, which shall be filed with the Corporation at least 5 business days prior to the date on which the Corporation

plan of conversion, the applicant shall perform such of the following acts as may be duly requested in writing with respect to a matter to be considered at

has passed upon the merits of or approved any proposal contained therein. No representation contrary to the foregoing shall be made by any

law requires a higher percentage for a State-charted converting insured institution, in which case the higher percentage shall be used. Voting may be

V 4 3 / 2 0 3 0 C 1 9 7 8

mitted therewith briefly setting forth the grounds on which such information should be treated as confidential. Only general reference thereto need be made in that portion of the application which the applicant deems not to be confidential. Applications under this part shall be made available for inspection by the public, except for portions which are bound and labeled "confidential" and which the Corporation determines to withhold from public availability under 5 U.S.C. 552 and part 505 of this chapter. The Corporation will withhold the public availability of preliminary copies of proxy soliciting materials without the necessity of their being bound and labeled as "confidential". The applicant will be advised of any decision by the Corporation to make public information designated as "confidential" by the applicant. Even though sections of the application are considered "confidential" as far as public inspection thereof is concerned, to the extent it deems necessary the Corporation may comment on such confidential submissions in any public statement in connection with its decision on the application without prior notice to the applicant.

§ 563b.5 Solicitation of proxies; proxy statement.

(a) *Solicitations to which rules apply.* This section applies to every solicitation of a proxy from an association member of an insured institution for the meeting at which a conversion plan will be voted upon, except the following:

(1) Any solicitation made otherwise than on behalf of the management of the insured institution where the total number of persons solicited is not more than 50;

(2) Any solicitation through the medium of a newspaper advertisement which informs association members, following approval of the plan of conversion, of a source from which they may obtain copies of a proxy statement, form of proxy, or any other soliciting material and does no more than (i) name the insured institution, (ii) state the reason for the advertisement, (iii) identify the proposal or proposals to be acted upon by association members, and (iv) urge the member to vote at the meeting.

(b) *Use of proxy soliciting material to be authorized.* No proxy soliciting material required to be filed with the Corporation prior to use shall be furnished to association members or otherwise released for distribution until the use of such material has been authorized in writing by the Corporation.

(c) *Information to be furnished association members.* No solicitation subject to this section shall be made unless each person solicited is concurrently furnished, or has previously been furnished, a written proxy statement the use of which has been authorized by the Corporation.

(d) *Requirements as to proxy.* (1) The form of proxy (i) shall indicate in bold face type whether the proxy is solicited on behalf of the management, (ii) shall provide specifically designated blank spaces for dating and signing the proxy, (iii) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, (iv) shall be clearly labeled "Revocable Proxy" in bold face type (at least as large as 18 point), (v) shall describe any charter or State law requirement restricting or conditioning voting by proxy, (vi) shall contain an acknowledgement by the person giving the proxy that he has received a proxy statement prior to signing the form of proxy, (vii) shall contain the date, time and place of meeting, if practicable, and (viii) shall provide by a box or otherwise, a means whereby the person solicited is afforded an opportunity to specify by ballot a choice between approval or disapproval of each matter referred to therein as intended to be acted upon, and (ix) shall indicate in bold face type how the proxy shall be voted on each such matter to which no choice is so specified.

(2) No proxy subject to this section shall confer authority to vote at any meeting other than the meeting (or any adjournment thereof) to vote on conversion. A proxy may be deemed to confer authority to vote with respect to matters incident to the conduct of such meeting. If the plan of conversion is considered at an annual meeting, existing proxies may be voted with respect to matters not related to the plan of conversion.

(3) The proxy statement or form of proxy shall provide that the votes represented by the proxy will be voted; that, where the person solicited specified by means of a ballot provided pursuant to paragraph (d)(1)(viii) of this section a choice with respect to any matter to be acted upon, the votes will be voted in accordance with the specifications so made; and that if no choice is so specified, the votes will be cast as indicated in bold face type on the form of proxy.

(e) *Material required to be filed.* (1) Applicants shall file 10 preliminary copies of such proxy materials, as are required by the form for applying for approval to convert under this part.

(2) Ten preliminary copies of any additional soliciting material subject to this section including soliciting material in the form of press releases, and radio or television scripts, to be used or furnished to association members subsequent to furnishing the proxy statement, shall be filed with the Corporation at least 5 business days prior to the date on which the Corporation is requested to authorize the use of such material. Speeches may, but need not be, filed with the Corporation prior to use.

(3) Twenty-five copies of the proxy statement and 10 copies of the form of proxy and all other soliciting material, in the form in which such material is funished to association members, shall be filed with or mailed for filing to the Corporation not later than the date such material is first sent or given to association members. All materials filed pursuant to this subparagraph (3) shall be accompanied by a statement of the date on which copies of such materials are to be released to association members.

(4) If the solicitation is to be made in whole or in part by personal solicitation, 10 preliminary copies of all written instructions or other material which discusses or reviews, or comments upon the merits of, any matter to be acted upon and which is to be furnished to the individuals making the actual solicitation for their use directly or indirectly in connection with the solicitation shall be filed with the Corporation at least 5 business days prior to the date on which the Corporation is requested to authorize the use of such material.

(5) All preliminary copies of material filed pursuant to paragraph (e) (1), (2), and (4) of this section shall be clearly marked on the cover page "preliminary Copy." Such preliminary copies shall be for the information of the Corporation only and shall not be deemed available for public inspection except that such material may be disclosed to any department or agency of the U.S. Government or appropriate State government and the Corporation may make such inquiries or investigation in regard to the material as may be necessary for an adequate review thereof by the Corporation.

(6) Unless requested by the Corporation, copies of replies to inquiries from members of the insured institution and copies of communications which do no more than request that forms of proxy theretofore solicited be signed and returned need not be filed pursuant to this paragraph (e).

(7) Where any proxy statement, form of proxy, or other material filed pursuant to this paragraph (e) is amended or revised, four of the required copies of such amended or revised material filed with the Corporation shall be marked to indicate clearly and precisely the changes effected therein subsequent to the last prior filing.

(f) *Mailing communications for association members.* If the management of the applicant has adopted a

plan of conversion, the applicant shall perform such of the following acts as may be duly requested in writing with respect to a matter to be considered at the meeting to vote on the plan of conversion by any association member who will defray the reasonable expenses to be incurred by the applicant in the performance of the act or acts requested.

(1) The applicant shall mail or otherwise furnish to such association member the following information as promptly as practicable after the receipt of such request:

(i) A statement of the approximate number of associationm members who have been or are to be solicited on behalf of the management, or any group of such holders which the association member shall designate.

(ii) An estimate of the cost of mailing a specified proxy statement, form of proxy, or other communication to such association members.

(2) Copies of any proxy statement, form of proxy, or other communication furnished by the association member and as approved by the Corporation shall be mailed by the applicant to such of the association members specified in paragraph (f)(1)(i) of this section as the association member shall designate.

(3) Any such material which is furnished by the association member shall be mailed with reasonable promtness by the applicant after receipt of the material to be mailed, envelopes or other containers therefor and postage or payment for postage.

(4) Neither the management nor the applicant shall be responsible for such proxy statement, form of proxy, or other communication.

(g) *False or misleading statements.* (1) No solicitation of a proxy by the applicant, its management, or any other person for the meeting to vote on conversion shall be made by means of any proxy statement, form of proxy, notice of meeting, or other communication, written or oral, containing any statement which, at the time and in the light of the circumstances under which it is made, is false or misleading with respect to any material fact, or which omits to state any material fact necessary in order to make the statements therein not false or misleading or necessary to correct any statement in any earlier communication with respect to the solicitation of a proxy for such meeting which has become false or misleading.

(2) The fact that a proxy statement, form of proxy, or other soliciting material has been filed with or examined by the Corporation and authorized for use shall not be deemed a finding by the Corporation that such material is accurate or complete or not false or misleading, or that the Corporation has passed upon the merits of or approved any proposal contained therein. No representation contrary to the foregoing shall be made by any person.

(3) If a solicitation by management violates any provision of this section, the Corporation may require remedial measures including:

(i) Correction of any such violation by means of a retraction and new solicitation;

(ii) Rescheduling of the meeting for a vote on the conversion; and

(iii) Any other actions the Corporation may deem appropriate in the circumstances in order to insure a fair vote.

(h) *Prohibition of certain solicitations.* No person soliciting a proxy from an association member for the meeting to vote on conversion shall solicit:

(1) Any undated or postdated proxy; or

(2) Any proxy which provides that it shall be deemed to be dated as of any date subsequent to the date on which it is signed by the association members; or

(3) Any proxy which is not revocable at will by the association member giving it; or

(4) Any proxy which is part of any other document or instrument (such as an account card).

§ 563b.6 Vote by members.

(a) *Vote at special meeting.* Following Corporation approval of an application for conversion, the plan of conversion shall be submitted to a special meeting of members, unless in the case of a State-chartered converting insured institution State law requires that the plan be considered at an annual meeting of members.

(b) *Determining members eligible to vote.* The record date for determining those members eligible to vote at the meeting called to consider a plan of conversion shall be not more than 50 nor less than 20 days prior to the date of such meeting, unless State law requires a different voting record date.

(c) *Notice to members.* Notice of the meeting to consider a plan of conversion shall be given by means of the proxy statement authorized for use by the Corporation which notice shall be given not more than 45 nor less than 20 days prior to the date of the meeting to each association member, each eligible account holder and supplemental eligible account holder, postage prepaid, at his last address as shown on the books of the applicant unless State law requires a different notice period.

(d) *Required vote.* The plan shall be approved by a vote of at least a majority of the total outstanding votes of the association members, unless State law requires a higher percentage for a State-charted converting insured institution, in which case the higher percentage shall be used. Voting may be in person or by proxy.

563b.7 Pricing and sale of securities.

(a) *General.* No offer to sell securities of an applicant pursuant to a plan of conversion may be made prior to approval by the Corporation of the application for conversion and until the proxy statement has been authorized for use by the Corporation. No sale of such securities in the subscription offering may be made except by means of the final offering circular for the subscription offering. No sale of unsubscribed securities may be made except by means of the offering circular for the public offering or direct community marketing. The offering of shares in the direct community marketing may commence during the subscription offering upon the declaration of effectiveness of the offering circular proposed for such community offering. The provisions of this paragraph shall not apply to preliminary negotiations or agreements between an applicant and any underwriter or among underwriters who are to be in privity of contract with the applicant.

(b) *Distribution of offering materials.* Any preliminary offering circular for the subscription offering or direct community marketing which has been filed with the Corporation, may be distributed to eligible accountholders or supplemental eligible accountholders not entitled to vote on the plan of conversion and to others in connection with the subscription offering at the same time as or after the proxy statement is mailed to association members pursuant to § 563b.6(c). Any preliminary offering circular for the public offering or direct community marketing of unsubscribed securities, which has been filed with the Corporation, may also be distributed in connection with such offering at the same time as or after such proxy statement is mailed to association members pursuant to § 563b.6(c). No final offering circular shall be distributed until such offering circular has been declared effective by the Corporation.

(c) *Estimated price information in proxy statements and preliminary offering circulars.* With respect to the capital stock of the applicant to be sold under the plan of conversion, the proxy statement and any preliminary offering circular for the subscription offering shall set forth the estimated subscription price range. The maximum of such price range should normally be no more than 15 percent above the average of the minimum and maximum of such price range and the minimum should normally be no more than 15 percent below such aver-

age. The maximum price used in the price range should normally be no more than $50 per share and the minimum no less than $5 per share.

propriate comparability of such existing stock associations in terms of such factors as size, market area, competitive conditions, profit history, and ex-

(i) Indicate the maximum number of shares that may be purchased pursuant to the subscription offering.

(ii) Indicate the period of time

during the subscription period by withdrawal from a certificate account without the assessment of such penalties or causing the rate of return on the remaining balance in such account to be paid at less than the rate appli-

(2) The applicant shall file with the Corporation promptly after the meeting of association members called to consider the plan of conversion an opinion of counsel to the effect that

(e) *Number of copies; place of filing; binding; signatures.* (1) Whenever a requirement is made under this part for the filing of four copies of any document with the Corporation, one copy

V 4 3 1 2 0 3 0 C 1 9 7 8

age. The maximum price used in the price range should normally be no more than $50 per share and the minimum no less than $5 per share.

(d) *Prohibited representations.* The Corporation will review the price information required under paragraph (c) of this section in determining whether to give approval to the applications for conversion. No representations may be made in any manner that such price information has been approved by the Corporation or that the shares of capital stock sold pursuant to the plan of conversion have been approved or disapproved by the Federal Home Loan Bank Board or the Corporation or that the Board or the Corporation has passed upon the accuracy or adequacy of any offering circular covering such shares.

(e) *Underwriting expenses.* Underwriting commissions shall not exceed an amount or percentage per share acceptable to the Corporation. No underwriting commissions shall be allowed or paid with respect to shares of capital stock sold in the subscription offering; however, an underwriter may be reimbursed for accountable expenses in connection with the subscription offering where the public offering is so small that reasonable underwriting commissions thereon would not be sufficient to cover total accountable expenses. The term "underwriting commissions" includes underwriting discounts.

(f) *Pricing materials.* (1) In considering the pricing information required under paragraph (c) of this section, the Corporation will apply the following guidelines:

(i) The materials shall be prepared by persons independent of the applicant, experienced and expert in the area of corporate appraisal, and acceptable to the Corporation;

(ii) The materials shall contain data which are sufficient to support the conclusions reached therein;

(iii) The materials shall contain a complete and detailed description of the appraisal methodology employed; and

(iv) To the extent that the appraisal is based on a capitalization of the pro forma income of the converted insured institution, the materials must indicate the basis for determination of the income to be derived from the proceeds of the sale of stock and demonstrate the appropriateness of the earnings multiple used, including assumptions made as to future earnings growth. To the extent that the appraisal is based on comparison of the capital stock of the applicant with outstanding capital stock of existing stock associations, the materials must demonstrate the appropriate comparability of the form and substance of such outstanding capital stock and the appropriate comparability of such existing stock associations in terms of such factors as size, market area, competitive conditions, profit history, and expected future earnings.

(2) In addition to the information required in subparagraph (1) of this paragraph, the applicant shall submit information demonstrating to the satisfaction of the Corporation the independence and expertise of any person preparing materials under this paragraph. However, a person will not be considered as lacking independence for the reason that such person will participate in effecting a sale of capital stock under the plan of conversion or will receive a fee from the applicant for services rendered in connection with such appraisal.

(g) *Order forms for purchase of capital stock.* (1) Promptly after the Corporation has declared the offering circular for the subscription offering effective, the applicant shall distribute order forms for the purchase of shares of capital stock in the subscription offering to all eligible account holders, supplemental eligible account holders (if applicable), voting members and others persons who may subscribe for such shares under the plan of conversion.

(2) Each order form shall be accompanied or preceded by the final offering circular for the subscription offering and a set of detailed instructions explaining how to properly complete such order forms.

(3) The maximum subscription price stated on each order form shall be the amount to be paid when the order form is returned. The maximum subscription price and the actual subscription price shall be within the subscription price range stated in the Board's approval and the offering circular. If either the maximum subscription price or the actual subscription price is not within such subscription price range, the applicant must obtain an amendment to the Board's approval. If appropriate, the Board will condition its amended approval by requiring a resolicitation of proxies and/or order forms. If the actual public offering price is less than the maximum subscription price stated on the order form, the actual subscription price shall be correspondingly reduced and the difference shall be refunded to those who have paid the maximum subcription price.

(4) Each order form shall be prepared so as to indicate to the person receiving it, in as simple, clear, and intelligible a manner as possible, the actions which are required or available to him with respect to the form and the capital stock offered for purchase thereby. Specifically, each order form shall:

(i) Indicate the maximum number of shares that may be purchased pursuant to the subscription offering.

(ii) Indicate the period of time within which the subscription rights must be exercised, which period of time shall not be less than 20 days following the date of the mailing of the order form;

(iii) State the maximum subscription price share of capital stock;

(iv) Indicate any requirements as to the minimum number of shares of capital stock which may be purchased;

(v) Provide a specifically designated blank space or spaces for indicating the number of shares of capital stock which the eligible account holder or other person wishes to purchase;

(vi) Indicate that payment may be made by cash if delivered in person or by check or by withdrawal from an account holder's passbook savings account or certificate of deposit without penalty. If payment is to be made by such withdrawal, a box to check should be provided;

(vii) Provide specifically designated blank spaces for dating signing the order form;

(viii) Contain an acknowledgment by the account holder or other person signing the order form that he has received the final offering circular for the subscription offering prior to so signing; and

(ix) Indicate the consequences of failing to properly complete and return the order form, including a statement that the subscription rights are nontransferable and will become void at the end of the subscription period. The order form may, and the set of instructions shall, indicate the place or places to which the order forms are to be returned and when the applicant will consider order forms received, such as by date and time of actual receipt in the applicant's offices or by date and time of postmark.

(5) The order form may provide that it may not be modified without the applicant's consent after its receipt by the applicant. If payment is to be made by withdrawal from a passbook savings account or certificate of deposit, the applicant may, but need not, cause such withdrawal to be made upon receipt of the order form. If such withdrawal is made at any time prior to the closing date of the public offering, the applicant shall pay interest to the account holder on the account withdrawn as if such amount had remained in the account from which it was withdrawn until such closing date.

(h) *Withdrawal from certificate accounts.* Notwithstanding any regulatory provision regarding penalties for early withdrawal from certificate accounts and minimum qualifying balances for such accounts, the applicant may allow payment for capital stock

during the subscription period by withdrawal from a certificate account without the assessment of such penalties or causing the rate of return on the remaining balance in such account to be paid at less than the rate applicable to such account prior to such withdrawal, except that such certificate account may not be renewed at a certificate rate unless a minimum qualifying balance is restored at the time of such renewal.

(i) *Period for completion of sale.* The sale of all shares of capital stock of the converting insured institution to be made under the plan of conversion, including any sale in a public offering or direct community marketing, shall be completed as promptly as possible and within 45 calendar days after the last day of the subscription period, unless extended by the Corporation.

§ 563b.8 Procedural requirements.

(a) *Filing an application for conversion.* An applicant that desires to convert in accordance with this part shall file 10 copies of an application for approval in the form prescribed by the Corporation.

(b) *Return of improperly executed or materially incomplete filings.* Any application for approval that is improperly executed, or that does not contain copies of (1) a plan of conversion, (2) a preliminary proxy statement with signed financial statements, and (3) a preliminary form of proxy, shall not be accepted for filing and shall be retured to the applicant. Any application for approval containing a materially incomplete plan of conversion, proxy statement, or form of proxy may be returned by the Corporation to the applicant.

(c) *Addition filing requirements.* An applicant whose plan of conversion has been approved by the Corporation shall fulfill the following requirements.

(1) The applicant shall file with the Corporation promptly after the meeting of association members called to consider the plan of conversion a certified copy of each resolution adopted at such meeting relating to the plan of conversion, together with the following information:

(i) The total number of votes elegible to be cast;

(ii) The total number of votes represented in person or by proxy at the meeting;

(iii) The total number of votes cast in favor of and against each such matter; and

(iv) The percentage of votes necessary to approve each such matter.

The compilation of the votes cast at the meeting may the prepared for the insured institution, by an independent public accountant or by an independent transfer agent.

(2) The applicant shall file with the Corporation promptly after the meeting of association members called to consider the plan of conversion an opinion of counsel to the effect that (i) the meeting of members was duly held in accordance with all requirements of applicable State and Federal law regulation; and (ii) all requirements of State law applicable to the conversion have been complied with.

(3) The offering circulars for the subscription offering and for the public offering or direct community marketing shall be prepared in compliance with this part and form OC. The applicant shall file with the Corporation 10 copies of each preliminary offering circular and 25 copies of each final offering circular.

(d) *Termination or amendment of charter.* (1) Upon approval of a plan of conversion by the members of a State-chartered insured institution or a Federal association which is converting to a State-chartered stock insured institution, the charter of such insured institution shall terminate effective upon the issuance to it of a stock charter under the laws of the State in which the home office of the applicant is located. If such converting insured institution is a Federal association, its Federal charter shall promptly be surrendered to the Board for cancellation. An insured institution converting to a State-chartered stock insued institution shall promptly file with the Corporation a copy of the stock charter issued to it. The certificate of insurance of such insured institution shall promptly be surrendered to the Corporation for amendment or cancellation, and the Corporation shall promptly issue an amended or new certificate of insurance to the converted insured institution.

(2) A Federal association converting to a Federal stock association shall apply to amend its charter and bylaws to read in the form of a charter and bylaws for a charter S association. The effective date of such amendment shall be stated in the Board's resolution approving the conversion.

(3) The corporate existence of a Federal mutual association converting to a Federal stock association shall not terminate but the converted association shall be deemed to be a continuation of the entity of the association so converted. In the case of a Federal or a State-chartered mutual institution converting to a State-chartered stock insured institution, unless State law otherwise prescribes, the corporate existence of the converting insured institution shall similarly not terminate and the converted insured institution shall be deemed to be a continuation of the entity of the insured institution so converted.

(e) *Number of copies; place of filing; binding; signatures.* (1) Whenever a requirement is made under this part for the filing of four copies of any document with the Corporation, one copy shall be filed with the supervisory agent and the remaining copies with the Securities Division, Office of the General Counsel of the Board. Whenever a requirement is made under this part for the filing of 10 or more copies of any document with the Corporation, three copies shall be filed with the supervisory agent and the remaining copies with the Securities Division, Office of the General Counsel of the Board. Whenever a requirement is made under this part that a document to be filed be manually signed, one manually signed copy shall be filed with the supervisory agent and another with such Securities Division, Office of the General Counsel. Other copies shall be conformed. Each of the copies filed under this part shall be bound, in one or more parts, without stiff covers. The binding shall be made on the side or stitching margin in such manner as to leave the reading matter legible.

(2) At least two copies of every application and every amendment thereto filed shall be manually signed by (i) a duly authorized representative of the applicant on its behalf, (ii) its principal executive officer, (iii) its principal financial officer, (iv) its principal accounting officer, and (v) at least two-thirds of its directors.

(3) If any name is signed to an application or any amendment thereto pursuant to a power of attorney, four copies of such power of attorney, including two manually signed, shall be filed with the application.

(4) (i) Except as provided in paragraph (e)(4)(ii) of this section, the filing of any application or amendment thereto under this part shall constitute a representation of the applicant by its duly authorized representative, the applicant's principal executive officer, the applicant's principal financial officer, and the applicant's principal accounting officer, and each member of the applicant's board of directors (whether or not such director has signed the application or any amendment thereto) severally that (A) he has read such application or amendment, (B) in the opinion of each such person, he has made such examination and investigation as is necessary to enable him to express an informed opinion that such application or amendment complies to the best of his knowledge and belief with the applicable requirements of this part and forms prescribed hereunder, and (C) each such person holds such informed opinion.

(ii) The representations specified in paragraph (e)(4)(i) of this section shall

V 4 3 / 2 0 3 0 C 1 9 7 8

not be deemed to have been made by any director of the applicant who did not sign the application or any amendment thereto, if, and only to the extent that, such director files with the Corporation within 10 business days after the filing of such application or amendment a statement describing those portions of such filing as to which he does not so represent.

(f) *Requirements as to paper and printing.* (1) Applications shall be filed on good quality, unglazed, white paper approximately 8½ by 13 or 8½ by 11 inches in size, insofar as practicable. However, tables, charts, maps, and financial statements may be on larger paper if folded to such sizes, and the plan of conversion, proxy statement, and offering circular may be on smaller paper if the applicant so desires.

(2) Applications and, insofar as practicable, all papers and documents filed as a part thereof, shall be printed, lithographed, mimeographed, or typewritten. However, applications or any portion thereof may be prepared by any similar process which, in the opinion of the Corporation, produces copies suitable for a permanent record. Irrespective of the process used, all copies of any such material shall be clear, easily readable, and suitable for repeated photocopying. Debits in credit categories and credits in debit categories shall be designated so as to be clearly distinguishable as such on photocopies.

(g) *Method of preparation.* Every application shall furnish information in item-and-answer form in response to the items of the appropriate form, and shall include the captions of the form, but omit the text of all items and instructions. Every proxy statement and offering circular shall present information as provided in paragraph (n) of this section in response to the items of the appropriate form in lieu of furnishing the information in item-and-answer form, and shall omit the captions and text of all items and instructions. Every application shall include a cross-reference sheet showing the location in the proxy statement and offering circular of the response to the items of the appropriate form. If any such item is inapplicable, or the answer thereto is in the negative and is omitted, a statement to that effect shall be made in the cross reference sheet.

(h) *Interpretation of requirements.* (1) Unless the context indicates otherwise, the forms require information only as to the applicant.

(2) Whenever words relate to the future, they have reference solely to present intention.

(3) Any words indicating the holder of a position or office include persons, by whatever titles designated, whose duties are those ordinarily performed by holders of such positions or offices.

(i) *Additional information.* In addition to the information expressly required to be included in any application under this part, there shall be added such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

(j) *Information unknown or not reasonably available.* Information required need be given only insofar as it is known or reasonably available to the applicant. If any required information is unknown and not reasonably available to the applicant, either because the obtaining thereof would involve unreasonable effort or expense, or because it rests peculiarly within the knowledge of another person not affiliated with the applicant, the information may be omitted, subject to the following conditions:

(1) The applicant shall give such information on the subject as it possesses or can acquire without unreasonable effort or expense, together with the sources thereof.

(2) The applicant shall include a statement either showing that unreasonable effort or expense would be involved or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information.

(k) *Incorporation of certain information by reference.* (1) Where an item in an application calls for information not required to be included in the proxy statement or offering circular, matter contained in any part of the application, including exhibits, may be incorporated by reference in answer, or partial answer, to such item. No information may be incorporated by reference in a proxy statement or offering circular, unless the document containing such information is attached thereto or is summarized or outlined as provided in paragraph (l) of this section. However, an offering circular may incorporate by reference the information contained in a proxy statement previously delivered, without need of summary or outline.

(2) Material incorporated by reference shall be clearly identified in the reference. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the application where the information is required. Matter shall not be incorporated by reference in any case where such incorporation would render the statement incomplete, unclear or confusing.

(l) *Summaries or outlines of documents.* Where a summary or outline of the provisions of any document is required, only a brief statement shall be made, in succinct and condensed form, as to the most important provisions of the document. In addition to such statement, the summary or outline may incorporate by reference particular items, sections or paragraphs of any exhibit and may be qualified in its entirety by such reference.

(m) *Legibility of materials.* The body of all printed plans of conversion, proxy statements, and offering circulars, including all notes to financial statements and other tabular data included therein, shall be in roman type at least as large and as legible as 10-point modern type. However, to the extent necessary for convenient presentation, financial statements and other tabular data, including tabular data in notes, may be in roman type at least as large and as legible as 8-point modern type. All such type shall be leaded at least 2 points.

(n) *Presentation of information.* (1) The information required in a proxy statement or offering circular need not follow the order of the items or other requirements in the appropriate form. Such information shall not, however, be set forth in such fashion as to obscure any of the required information or any information necessary to keep the required information from being incomplete or misleading. Where an item requires information to be given in tabular form it shall be given in substantially the tabular form specified in the item.

(2) All information contained in a plan of conversion, proxy statement or offering circular shall be set forth under appropriate captions or headings reasonably indicative of the principal subject matter set forth thereunder. Except as to financial statements and other tabular data, all information set forth in any form under this part shall be divided into reasonably short paragraphs or sections.

(3) Every proxy statement and offering circular shall include in the forepart thereof a reasonably detailed table of contents showing the subject matter of its various sections or subdivisions and the page number on which each such section or subdivision begins.

(4) All information required to be included in a proxy statement or offering circular shall be clearly understandable without the necessity of referring to the particular form or to the regulations under this part. Except as to financial statements and information required in tabular form, the information set forth in a proxy statement or offering circular may be expressed in condensed or summarized form.

(5) Financial statements are to be set forth in comparative form, and shall include the notes thereto and the

accountants' certificate or certificates. Section 563c.1 of this subchapter governs the certification, form and content of such financial statements, including the basis of consolidation.

(o) *Application of amendments to regulations and forms.* (1) The form and contents of any filing made under the provisions of this part need conform only to the applicable regulations and forms then in effect, and contain the information, including financial statements specified therein, required at the time the filing is made, notwithstanding subsequent amendments to such regulations, except as otherwise provided in any such amendment or in paragraph (o)(2) of this section.

(2) Whenever the Corporation prohibits by order or otherwise the use of any filing under this part, the form and contents of any filing used thereafter shall conform to the requirements of such order and the applicable regulations and forms in efffect at the time such prohibition ceases to be effective.

(3) Applications for conversion filed pursuant to this part shall conform to the regulations and forms of this part as revised by the Corporation effective June 9, 1975.

(p) *Consents of experts.* (1) If any accountant, attorney, investment banker, appraiser, or other persons whose professions give authority to a statement made in any application under this part is named as having prepared, reviewed, passed upon, or certified any part thereof, or any report or valuation for use in connection therewith, the written consent of such person shall be filed with the application. If any portion of a report of an expert is quoted or summarized as such in any filing under this part, the written consent of the expert shall expressly state that the expert consents to such quotation or summarization.

(2) All written consents filed pursuant to this paragraph (p) shall be dated and signed manually. A list of such consents shall be filed with the application. Where the consent of the expert is contained in his report, a reference shall be made in the list to the report containing such consent.

(q) *Consents of persons about to become directors.* If any person who has not signed an application is named in the proxy statement or offering circular as about to become a director, the written consent of such person shall be filed with the appropriate form.

(r) *Date of filing.* The date on which any documents are actually received by the Office of the Secretary of the Board shall be the date of filing thereof.

(s) *Amendments.* All amendments to any application under this part shall be filed under cover of an appropriate facing sheet, shall be numbered consecutively in the order in which filed, and shall conform to all pertinent regulations applicable to the type of application which they amend.

(t) *Prefiling conferences with applicants.* (1) The staff of the Board and the supervisory agent will be available for conference with prospective applicants or their representatives in advance of filing an application to convert. These conferences may be held for the purpose of discussing generally the problems confronting an applicant in effecting conversion or to resolve specific problems of an unusual nature.

(2) Prefiling review of an application may be refused by the staff of the Board and the supervisory agent if such review would delay the examination and processing of material which has already been filed or would favor certain applicants at the expense of others. In any conference under this paragraph (t), the staff of the Board and the supervisory agent will not undertake to prepare material for filing but will limit itself to indicating the kind of information required, leaving the actual drafting to the applicant and its representatives.

(u) *Review of Board action.* Any person aggrieved by a final action of the Board or the Corporation which approves, with or without conditions, or disapproves a plan of conversion pursuant to this part may obtain review of such action by filing in the court of appeals of the United States for the circuit in which the principal office of residence of such person is located, or in the U.S. Court of Appeals for the District of Columbia Circuit, a written petition praying that the final action of the Board or Corporation be modified, terminated, or set aside. Such petition must be filed within 30 days after publication of notice of such final action in the FEDERAL REGISTER, or 30 days after the mailing by the applicant of the notice to members as provided for in § 563b.6(c), whichever is later. The further procedure for review is as follows: A copy of the petition is forthwith transmitted to the Board or the Corporation by the clerk of the court and thereupon the Board or the Corporation files in the court the record in the proceeding, as provided in section 2112 of Title 28 of the United States Code. Upon the filing of the petition, the court has jurisdiction, which upon the filing of the record is exclusive, to affirm, modify, terminate, or set aside in whole or in part, the final action of the Board or the Corporation. Review of such proceedings is had as provided in chapter 7 of title 5 of the United States Code. The judgment and decree of the court is final, except that they are subject to review by the Supreme Court upon certiorari as provided in section 1254 of title 28 of the United States Code.

(v) *Postconversion reports.* The applicant shall file such postconversion reports concerning its conversion as the Corporation may require.

§ 563b.9 Acquisitions of securities of converted associations.

(a) *Definitions.* (1) For the purpose of this section, the term "offer" includes every offer to buy or acquire, solicitation of an offer to sell, tender offer for, or request or invitation for tenders of, a security or interest in a security for value.

(2) For the purpose of this section, the term "person" means an individual, a group acting in concert, a corporation, a partnership, an association, a joint stock company, a trust, and any unincorporated organization or similar company.

(3) Without limitation on the generality of its meaning, the term "security" includes nontransferable subscription rights issued pursuant to a plan of conversion.

(b) *Prohibited transfers.* Prior to completion of a conversion, no person shall transfer or enter into any agreement or understanding to transfer, the legal or beneficial ownership of conversion subscription rights, or the underlying securities, to the account of another.

(c) *Prohibition of offers during conversion.* Prior to completion of a conversion, no person shall make any offer, or announcement of an offer or intent to make an offer, for any security of a converting association issued or to be issued in connection with such conversion.

(d) *Prohibition on offers to acquire and acquisitions of stock for 3 years following conversion.* No person for a period of 3 years following the date of the completion of the conversion shall offer to acquire or acquire the beneficial ownership of more than 10 percent of any class of an equity security of an association converted in accordance with the provisions of this part, without the prior written approval of the Federal Savings and Loan Insurance Corporation.

(e) *Exceptions.* (1) Paragraphs (b) and (c) shall not apply to a transfer, agreement or understanding to transfer, offer, or announcement of an offer or intent to make an offer which (i) pertains only to securities to be purchased pursuant to § 563b.3(d) (3) or (4); and (ii) has prior written approval of the Corporation.

(2) Paragraphs (c) and (d) of this section shall not apply to any offer with a view toward public resale made exclusively to the association or underwriters or selling group acting on its behalf.

(3) Unless made applicable by the Corporation by prior advice in writing, the prohibition contained in paragraph (d) of this section shall not

V 4 3 1 2 0 3 0 C 1 9 7 8

(3) Unless made applicable by the Corporation by prior advice in writing, the prohibition contained in paragraph (d) of this section shall not apply to any offer or announcement of an offer which if consummated would result in acquisition by a person, together with all other acquisitions by such person of the same class of securities during the preceding 12-month period, of not more than 1 percent of the same class of securities.

(f) *Criteria for denial.* The Corporation shall not approve an application involving an offer for, an announcement thereof or an acquisition of any security of a converted association submitted under paragraph (d) of this section if it finds that such offer frustrates the purposes of the foregoing provisions of this part 563b, is manipulative or deceptive, subverts the fairness of the conversion, is likely to result in injury to the association, is not consistent with economical home financing, or is otherwise violative of law or regulation.

(g) *Penalty for willful violations.* For willful violation or assistance of any such violation of any provision of this section, any person who (1) has any connection with the management of a converting or converted association, including any director, officer, employee, attorney, or agent, or (2) controls more than 10 percent of the outstanding shares of any class of equity security or voting rights thereto of a converting or converted association, shall be subject to a civil penalty of not more than $500 (which penalty shall be cumulative to any other remedies) for each day that such violation continues, which penalty the Corporation may recover by suit or otherwise for its own use. The Corporation in its discretion may, at any time before collection of such penalty (whether before or after the bringing of any action or other legal proceedings, the obtaining of any judgment or other recovery, or the issuance or levy of any execution or other legal process thereof), compromise or remit in whole or in part any such penalty.

(City, State, and ZIP code)

Date of application: _____

GENERAL INSTRUCTIONS

A. Rule as to Use of Form AC

Form AC shall be used by any insured institution seeking Federal Home Loan Bank Board or Federal Savings and Loan Insurance Corporation approval of conversion from the mutual to the stock form of organization pursuant to part 563b of the rules and regulations for insurance of accounts.

B. Application of Rules and Regulations

Attention is directed to insurance regulation § 563b.8. That section contains general requirements regarding preparation and filing of this form. The definitions in insurance regulation § 563b.2 also should be noted.

Item 1. *Form of application.* Set forth an application for approval of the plan of conversion in the following form with the names and titles of the officers and directors signing the application indicated below their signatures:

The undersigned hereby makes application for approval to convert into a stock association, and submits herewith a statement of its proposed plan of conversion and other information and exhibits as required by part 563b of the rules and regulations for insurance of accounts of the Federal Savings and Loan Insurance Corporation.

In submitting this application the applicant understands and agrees that, if further examinations or appraisals, or both, are required by the Federal Home Loan Bank Board or the Federal Savings and Loan Insurance Corporation, they will be conducted by, or as approved by, the Board or the Corporation at the expense of the applicant; and applicant will pay the costs thereof as computed by the Board or the Corporation.

This application has been approved by at least two-thirds of the board of directors of the applicant. In accordance with § 563b.8(e)(4) of the rules and regulations for insurance of accounts, by the filing of this application, the applicant by its duly authorized representative, the undersigned officers and each member of the applicant's board of directors severally represent, except to the extent otherwise provided in said section, (1) that each such person has read this application; (2) that in the opinion of each such person, he has made such examination and investigation as is necessary to enable him to express an informed opinion that this application complies to the best of his knowledge an belief with the applicable requirements of part 563b of the rules and regulations for insurance of accounts and forms thereunder; and (3) that each such person holds such informed opinion.

(Director)* _____

(Director)* _____

(Director)* _____

(Director)* _____

*Signatures of at least two-thirds of the Board of Directors.

Item 2. *Plan of conversion.* Furnish the complete formal written plan adopted by the board of directors for conversion of the applicant to the stock form of organization. The terms of the plan submitted pursuant to this item will be a basis for the Corporation's approval and the plan as approved will be distributed as an attachment to the proxy statement and the offering circular.

Item 3. *Proxy statement and offering circular.* Furnish preliminary copies of the proxy statement and offering circular. The proxy statement and offering circular should be prepared in accordance with forms PS and OC, respectively.

Item 4. *Form of proxy.* Furnish preliminary copies of the form of proxy to be distributed to association members by the management.

Item 5. *Sequence and timing of the plan.* Set forth the expected chronolgoical order of the events connected with the plan of conversion beginning with the filing of this application through completion of the sale of all the capital stock under the plan. Indicate the expected timing of any requisite approvals by State authorities. Indicate the proposed timing of all aspects of the subscription offering. If there will be an underwritten public or direct community marketing of the applicant's securities as part of the plan of conversion, indicate the proposed timing of all aspects of such offering.

Item 6. *Record dates.* If the applicant's plan of conversion contains an eligibility record date substantially earlier than 90 days prior to the date of adoption of the plan of conversion by the board of directors, state the reason for the selection of such earlier date.

Indicate the circumstances that will require the use of a supplemental eligibility record date.

Item 7. *Savings account balances of personnel.* For each director and officer of the applicant whose total account balances, including the balances of each associate of the foregoing persons, were more than $5,000 as of the eligibility record date and which balances had increased by more than 25 percent during the 2 year period prior to that date, set forth in tabular form his total account balances as of (a) the eligibility record date and (b) each of the eight earnings distribution dates of the applicant immediately preceding such date.

Item 8. *Expenses incident to the conversion.* Provide in substantially the tabular form indicated below the estimated expense of the conversion to the applicant.

Legal	
Postage and mailing	
Printing	
Escrow or agent fees	
Underwriting fees	
Appraisal fees	
Transfer agent fees	
Auditing and accounting	
Proxy solicitation fees	
Advertising	
Other expenses	
Total	$

Instructions. 1. The applicant may exclude costs represented by salaries and wages of regular employees and officers, if a statement to that effect is made.

The cost of solicitation by specially engaged employees or paid solicitors under paragraph (b) of Item 3 of Form PS shall be stated under "Proxy Solicitation Fees" in this Item.

2. If the applicant has any category of expense exceeding $10,000 which is not specified in this item, such expense shall be itemized rather than including it under the category "Other Expenses."

3. If the solicitation is conducted other than by management of the applicant, the information required in this item shall be provided with respect to the cost of such solicitation.

Item 9. *Indemnification.* State the general effect of any charter provisions, bylaw, contract, arrangement, statute, or regulation to be in effect during or after the conversion under which any underwriter, appraiser, lawyer, accountant or expert, or director or officer of the applicant will be insured or indemnified in any manner against any liability which he may incur in his capacity as such.

Item 10. *Federally chartered stock associations—charter S association.* State whether the converting Federal association is applying to amend its charter and bylaws to read in the form of the charter and bylaws of a charter S association.

EXHIBITS

The following exhibits shall be attached to this form.

Exhibit 1.—*Resolution of board of directors.* Set forth a certified copy or copies of a resolution or resolutions of the board of directors (1) adopting the plan of conversion filed with this application; (2) authorizing the filing of this application; and (3) applying for continued insurance of accounts by the Federal Savings and Loan Insurance Corporation and continued membership in the appropriate Federal home loan bank. The action adopting the plan of conversion and authorizing the filing of this application must be approved by two-thirds of the board of directors.

Exhibit 2.—*Copies of documents, contracts, and agreements.* Furnish the following documents, contracts, and agreements: (a) Proposed certificates for capital stock and any other securities to be issued; (b) proposed order forms with respect to the subscription rights; (c) proposed charter and bylaws of the applicant to take effect upon conversion including, if applicable, the optional charter provision provided for in § 563b.3(i)(3); (d) any proposed stock option plan and form of stock option agreement; (e) any proposed management employment contracts; (f) any contract described in response to item 6(e) of form PS; (g) contracts or agreements with paid solicitors described in response to item 3(b) of form PS; (h) any material loan agreements relating to borrowings by the applicant other than from a Federal home loan bank and other than subordinated debt securities approved by the Corporation; (i) any appraisal agreement or proposed agreement, underwriting contracts or agreements among underwriters; (j) the agreement with the Corporation required by § 563b.3(i)(2); (k) any charter amendment filed for the purpose of converting a Federal mutual association to a Federal stock association; (l) any proposed contracts or agreements among members of a group regarding the purchase of unsubscribed shares pursuant to § 563b.3(d)(4); (m) any required undertakings or affidavits by officers or directors purchasing shares in the conversion that they are acting independently; (n) any documents referred to in the answer to item 9; (o) any trustee agreements or indentures; and (p) any agreements for the making of markets or the listing on exchanges of the stock of the converted insured institution. Documents, contracts, and agreements which are furnished in proposed form under this exhibit shall be furnished in final form immediately after the meeting of association members to consider the plan of conversion, except for documents which by their nature cannot be practically expected until a later time required by subdivisions (l) and (l) in which case they shall be furnished in substantially final form.

Exhibit 3.—*Opinion of counsel.* Furnish an opinion of counsel for the applicant regarding each of the following matters: (a) The legal sufficiency of the applicant's proposed certificates and order forms for capital stock and any other securities; (b) State law requirements applicable to the plan of conversion including citations to applicable State law and whether such requirements will be fulfilled by the plan; (c) the legal sufficiency of the applicant's bylaws; (d) the type and extent of each class of voting rights in the applicant after conversion, including any requirement of State law that savings account holders or borrowers have voting rights in the converted insured institution; (e) the legality and Federal income tax effect to the applicant of any proposed stock option plan described in response to item 12 of form PS; and (f) a certification that the proposed charter S and bylaws conform to part 552 of this subchapter or if not a statement to that effect. Matters listed in subdivisions (b), (c), and (d) of this exhibit only apply to an applicant which is converting to a State-chartered stock association.

Exhibit 4.—*Federal and State tax opinions and rulings.* (a) Furnish an opinion of the applicant's tax adviser or an Internal Revenue ruling as to the Federal income tax consequences of the plan of conversion to the applicant and to the various account holders who receive nontransferable subscription rights to purchase capital stock.

Instruction. The Corporation recommends that each applicant obtain a ruling from the Internal Revenue Service regarding the Federal income tax consequences of the plan of conversion. The Corporation may require that such a ruling be obtained if the applicant's plan of conversion is not substantially similar to plans of conversion which have received favorable rulings. The Corporation may also require that such a ruling be obtained if the applicant's plan of conversion contains novel provisions or there is otherwise a question as to the Federal income tax consequences of the plan.

(b) Furnish an opinion of the applicant's tax adviser or, if applicable, a ruling from the appropriate State taxing authority as to any tax consequences of the plan of conversion under the laws of the State in which the applicant will be chartered upon conversion. Such opinion should relate to the applicant and to eligible account holders.

Exhibit 5.—*Appraisal materials.* Furnish the materials required by § 563b.7 regarding appraisal of the applicant.

Exhibit 6.—*Notice to members.* Furnish the notices to the applicant's members required by § 563b.4 (a) and (b).

Exhibit 7.—*Other materials.* (a) If information required by an appropriate form is not given for the reasons specified in § 563b.8(j), furnish the statement required for each such omission by § 563b.8(j)(2).

(b) Furnish all consents required to be filed by § 563b.8 (p) and (q).

(c) If applicable, furnish the statement required by the instruction to item 5(e) of form PS regarding events which occurred within the last 10 years to directors of the applicant.

(d) If information required by item 15(h) of form PS relating to historical financial information is omitted, furnish the statement required by item 15(h)(1) of form PS.

(e) Furnish any powers of attorney employed pursuant to § 563b.8(e)(3).

(f) Furnish the cross-reference sheet referred to in § 563b.8(g).

(g) If the applicant wishes to request a waiver of compliance in accordance with § 563b.1(c), furnish the materials required by § 563b.1(c)(2).

[FORM PS]

INFORMATION REQUIRED IN CONVERSION PROXY STATEMENT

Notes: 1. Except as otherwise specifically provided, where any item calls for information for a specified period in regard to directors, officers, or other persons holding specified positions or relationships, the information shall be given in regard to any person who held any of the specified positions or relationships at any time during the period. However, information need not be included for any portion of the period during which such person did not hold any such position

or relationship provided a statement to that effect is made.

2. The proxy statement shall include such information which the General Counsel or

positions and offices held with the applicant by each such person.

Instruction. The term "executive officer" means the president, vice president, secre-

(a) Furnish the following information in substantially the tabular form indicated below as to all direct remuneration paid by the applicant and its subsidiaries during the

which case there shall be stated the method of computing such benefits.

(c) Describe briefly all remuneration payments (other than payments reported in (a)

nature of his interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the appli-

amount involved in the transaction shall be indicated.

5. In describing any transaction involving the purchase or sale of assets by or to the

or relationship provided a statement to that effect is made.

2. The proxy statement shall include such information which the General Counsel or Director of the Securities Division of the Office of General Counsel by interpretative release or otherwise have deemed necessary to comply with items of this form PS.

Item 1. Notice of meeting. The cover page of the proxy statement shall give notice of the meeting of the association members called by the board of directors to act upon the conversion. The cover page shall include the date, time, and place of the meeting, a brief description of each matter to be acted upon at the meeting, the date of record for association members entitled to vote at the meeting, the date of the statement, and the full address, ZIP code, and telephone number of the applicant.

Item 2. Revocability of proxy. State that the person giving the proxy has the power to revoke it before the proxy is exercised at the meeting. If the right of revocation is subject to compliance with any formal procedure, briefly describe such procedure. Briefly describe any charter, by law, or applicable Federal or State law requirements otherwise restricting voting by proxy. State that the proxy is solicited for that meeting, and any adjournment thereof, and will not be used for any other meeting. (See also § 563b.5(d)(3).)

Item 3. Persons making the solicitation. (a) State whether the solicitation is made by the management of the applicant. Give the name of any director of the applicant who has informed the management in writing that he intends to oppose any action intended to be taken by the management and indicate the action which he intends to oppose.

(b) If the solicitation is to be made otherwise than by the use of the mails, describe the methods to be employed. If the solicitation is to be made by specially engaged employees or paid solicitors, state the material features of any contract or arrangement for such solicitation and identify the parties.

(c) If the solicitation is made otherwise than by the management of the applicant, so state and give the names of the persons by whom and on whose behalf it is made. Any such solicitation normally need not respond to items 5 through 17, but must include such information as to make such solicitations comply with § 563b.5(g)(1).

Item 4. Voting rights and vote required for approval. (a) Describe briefly the voting rights of each class of association members. State the approximate total number of votes entitled to be cast at the meeting, and the approximate number of votes to which each class is entitled.

(b) As part of the description give the date of record for association members entitled to vote at the meeting.

(c) As to each matter which will be submitted to a vote of association members, state the vote required for its approval.

Item 5. Directors and executive officers. (a) List the names and ages of all directors of the applicant, indicate all positions and offices held with the applicant by each such person, state his term of office as director and the period during which he has served as such, and briefly describe any arrangement or understanding between him and any other person pursuant to which he was selected as a director.

(b) List the names and ages of all executive officers of the applicant and indicate all positions and offices held with the applicant by each such person.

Instruction. The term "executive officer" means the president, vice president, secretary, treasurer, controller, principal accounting officer, any officer in charge of a principal lending or savings function, and any other officer or person who performs similar policymaking functions for the applicant.

(c) State the nature of any family relationship between any director or executive officer and any other director or executive officer.

Instruction. The term "family relationship" means any relationship, by blood, marriage or adoption, not more remote than first cousin.

(d) Give a brief account of the business experience during the past 5 years of each director and each executive officer, including his principal occupations and employments during that period and the name and principal business of any corporation or other organization in which such occupations and employments were carried on.

(e) Describe any of the following events which occurred during the past 10 years and which are material to an evaluation of the ability and integrity of any director of the applicant:

(1) A petition under the Bankruptcy Act of any State insolvency law was filed by or against, or a receiver, fiscal agent, or similar officer was appointed by a court for the business or property of, such person, or any partnership in which he was a general partner at or within 2 years before the time of such filing, or any corporation or business association of which he was an executive officer at or within 2 years before the time of such filing;

(2) Such person was convicted in a criminal proceeding or is the subject of a criminal proceeding which is presently pending (excluding proceedings for traffic violations and other minor offenses); or

(3) Such person was the subject of any order, judgment, or decree of any court of competent jurisdiction permanently or temporarily enjoining him from acting as an investment adviser, underwriter, broker, or dealer in securities, or as an affiliated person, director, or employee of any investment company, bank, or insurance company, or removing him from office and/or prohibiting him from further participation in any manner in the conduct of the affairs of an insured institution, or from engaging in or continuing any conduct or practice in connection with any such activity or in connection with the purchase or sale of any security, or was the subject of any order of a Federal or State authority barring or suspending, for more than 60 days, the right of such person to be engaged in any such activity, which order has not been reversed or suspended.

Instruction. If any event specified in paragraph (e) has occurred but information in regard thereto is omitted on the ground that it is not material, the applicant shall furnish, as supplemental information and not as a part of the statement the reasons for the omission of information in regard thereto.

(f) State whether control of the applicant has been exercised through the use of proxies and the nature of such control.

Item 6. Remuneration and other transactions with management and others. (See the note at the beginning of this form.)

(a) Furnish the following information in substantially the tabular form indicated below as to all direct remuneration paid by the applicant and its subsidiaries during the applicant's last fiscal year to the following persons for services in all capacities:

(1) Each director of the applicant whose aggregate direct remuneration exceeded $40,000, and each of the three highest paid officers of the applicant whose aggregate direct remuneration exceeded that amount, naming each such director and officer.

(2) All directors and officers of the applicant as a group, stating the number of persons in the group without naming them.

(A) Name of individual or number of persons in group	(B) Capacities in which remuneration was received	(C) Aggregate direct remuneration

Instructions. (1) The information is to be given on an accural basis if practicable. The tables required by this paragraph (a) and paragraph (b) below may be combined if the applicant so desires.

(2) Do not include remuneration paid to a partnership to which any director or officer was a partner, but see paragraph (e) below.

(b) Furnish the following information in substantially the tabular form indicated as to all annuity, pension, or retirement benefits proposed to be paid to the following persons in the event of retirement at their normal retirement dates pursuant to any existing plan provided or contributed to by the applicant or any ot ifs subsidiaries:

(1) Each director or officer named in answer to paragraph (a)(1), naming each such person.

(2) All directors and officers of the applicant who are eligible for such benefits, as a group, stating the number of persons in the group without naming them.

(A) Name of individual or number of persons in group	(B) Amount set aside or accrued during applicant's last fiscal year	(C) Estimated annual benefits upon retirement

Instructions. (1) The term "plan" in this paragraph and in paragraph (c) includes all plans, contracts, authorizations, or arrangements, whether or not set forth in any formal document.

(2) Column (B) need not be answered with respect to payments computed on an actuarial basis under any plan whch provides for fixed benefits in the event of retirement at a specified number of years of service. In such case, columns (A) and (C) need not be answered with respect to directors and officers as a group.

(3) The information called for by column (C) may be given in the form of a table showing the annual benefits payable upon retirement to persons in specified salary classifications.

(4) In the case of any plan (other than those specified in instruction (2) where the amount set aside each year depends upon the amount of earnings of the applicant or its subsidiaries for such year or a prior year, or where it is otherwise impracticable to state the estimated benefits upon retirement, there shall be set forth, in lieu of the information called for by column (C), the aggregate amount set aside or accrued to date, unless it is impracticable to do so, in

which case there shall be stated the method of computing such benefits.

(c) Describe briefly all remuneration payments (other than payments reported in (a) or (b) of this Item) proposed to be made in the future, directly or indirectly, by the applicant or any of its subsidiaries pursuant to any existing plan or arrangement to (i) each director or officer named in answer to paragraph (a)(1), naming each such person, and (ii) all directors and officers of the applicant as a group without naming them.

Instruction. Information need not be included as to payments to be made for, or benefits to be received from, group life or accident insurance, group hospitalization or similar group payments or benefits. If, it is impracticable to state the amount of remuneration payments proposed to be made, the aggregate amount set aside or accrued to date in respect of such payments shall be stated, together with an explanation of the basis for future payments.

(d) State as to each of the following persons who was indebted to the applicant or its subsidiaries at any time during the last three years, (i) the largest aggregate amount of indebtedness outstanding at any time during such period; (ii) the nature of the indebtedness and of the transaction in which it was incurred, (iii) the amount thereof outstanding as of the latest practicable date, and (iv) the annual percentage rate paid or charged thereon (as computed under 12 CFR Part 226):

(1) Each director or officer of the applicant; and

(2) Each associate of any such director or officer.

Instructions. (1) Include the name of each person whose indebtedness is described and the nature of the relationship by reason of which the information is required to be given.

(2) This paragraph does not apply to amounts due a person for ordinary travel and expense advances and similar transactions.

(3) If the loans to such persons (a) are secured by a first lien on a single-family dwelling owned and occupied by a director of officer of the applicant at the time of making the loan and such loan at such time did not exceed the amount then specified in section 5(c) of the Home Owners' Loan Act of 1933, as amended, with respect to single-family dwellings if applicable or (b) are fully secured by a savings account, and if the lender is the applicant, such disclosure may consist of a statement, if such is the case, that the loans to such persons (i) were made in the ordinary course of business, (ii) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and (iii) did not involve more than normal risk of collectibility or present other unfavorable features.

(4) Computation of the annual percentage rate under paragraph (d)(iv) is to be done as though 12 CFR Part 226 was applicable to the transaction.

(e) Describe briefly any transactions during or since the applicant's last 3 fiscal years or any presently proposed transactions, to which the applicant or any of its subsidiaries or any borrower from the applicant or any of its subsidiaries was or is to be a party, in which any of the following persons had or is to have a direct or indirect material interest, naming such person and stating his relationship to the applicant, the nature of his interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the applicant;

(2) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant.

Instructions. 1. No information need be given in response to this Item 6(e) as to any remuneration or other transaction reported in response to Item 6 (a), (b), (c), or (d), or as to any transaction with respect to which information may be omitted pursuant to instructions relating to such Items.

2. No information need be given in answer to this Item 6(e) as to any transaction where—

(a) The transaction involves services as a bank depository of funds, transfer agent, registrar, or similar services;

(b) The amount involved in the transaction or a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments, does not exceed $40,000, or $5,000 in the case of transactions giving rise to expenses of the type indicated in item 8 of form AC; or

(c) The interest of the specified person arises solely from the ownership of savings accounts of the applicant and the specified person receives no extra or special benefit not shared on a pro rata basis by all savings account holders as a class.

3. It should be noted that this item calls for disclosure of indirect, as well as direct, material interests in transactions. A person who has a position or relationship with a firm, corporation, or other entity, which engages in a transaction with the applicant or its subsidiaries or with any borrower from the applicant or any of its subsidiaries may have an indirect interest in such transaction by reason or such position or relationship. However, a person shall be deemed not to have a material indirect interest in a transaction within the meaning of this item (e) where—

(a) The interest arises only (i) from such person's position as a director of another corporation or organization (other than a partnership) which is a party to the transaction, or (ii) from the direct or indirect ownership by such person and all other persons specified in subparagraphs (1) and (2) above, in the aggregate, or less than a 10 percent equity interest in another person (other than a partnership) which is a party to the transaction, or (iii) from both such position and ownership;

(b) The interest arises only from such person's position as a limited partner in a partnership in which he and all other persons specified in subparagraphs (1) and (2) above had an interest of less than 10 percent; or

(c) The interest of such person arises solely from the holding of an equity interest (including a limited partnership interest but excluding a general partnership interest) or a creditor interest in another person which is a party to the transaction with the applicant or any of its subsidiaries and the transaction is not material to such other person.

4. The amount of the interest of any specified person shall be computed without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, the approximate amount involved in the transaction shall be indicated.

5. In describing any transaction involving the purchase or sale of assets by or to the applicant, state the cost of the assets to the purchaser and, if acquired by the seller within 2 years prior to the transaction, the cost thereof to the seller.

6. The foregoing instructions specify certain transactions and interests as to which information may be omitted in answering paragraph (e) of this item. There may be situations where, although the foregoing instructions do not expressly authorize nondisclosure, the interest of a specified person in the particular transaction or series of transactions is not a material interest. In that case, information regarding such interest and transaction is not required to be disclosed in response to this item.

(f) Describe briefly any transactions during or since the applicant's last 3 fiscal years or any presently proposed transactions, to which any pension, retirement or similar plan provide by the applicant or any of its subsidiaries, was or is to be a party, in which any of the following persons had or is to have a direct or indirect material interest, naming such person and stating his relationship to the applicant, the nature of his interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the applicant;

(2) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant; or

(3) The applicant or any of its subsidiaries.

Instructions. 1. Instructions 2, 3, 4, and 5 to item 6(e) shall apply to this item 6(f).

2. Without limiting the general meaning of the term "transaction" there shall be included in answer to this item 6(f) any remuneration received or any loans received or outstanding during the period, or proposed to be received.

3. No information need be given in answer to this paragraph (f) with respect to—

(a) Payments to the plan, or payments to beneficiaries, pursuant to the terms of the plan;

(b) Payment of remuneration for services not in excess of 5 per cent of the aggregate remuneration received by the specified person during the applicant's last fiscal year from the applicant and its subsidiaries; or

(c) Any interest of the applicant or any of its subsidiaries which arises solely from its general interest in the success of the plan.

Item 7. Business of the applicant. (a) *Organization.* State the year in which the applicant was organized and whether its present charter was issued by the State or Federal Government. Describe briefly any previous conversion of the applicant.

(b) *Selected statement of financial condition and other items.* As the end of each of the periods covered by the statements of operations required by item 15(b)(1) and as of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form the amounts of the following items: (1) Total assets, (2) real estate loans outstanding, (3) savings accounts, (4) advances from the Federal home loan bank, (5) other borrowed money, if material, (6) net worth and (7) number of offices indicating any which are less than full service. The applicant may use other substantially simi-

lar captions, and may include other items such as number of real estate loans outstanding and number of savings accounts.

Instructions. 1. For the classification required by subparagraph (3)(i), loans originated shall be separated into real estate

form loan origination fees charged to borrowers expressed as a percentage of the total amount of loans originated and net

(2) Describe briefly applicable liquidity requirements under section 5A of the Federal Home Loan Bank Act, as amended, the reg-

ing, the date instituted, the principal parties thereto, a description of the factual basis alleged to underly the proceeding, the relief

§ 563b.3(d)(8); (3) any optional provisions included in the plan of conversion pursuant to § 563b.3(d) for the purchase of shares of

V 4 3 / 2 0 3 0 C 1 9 7 8

lar captions, and may include other items such as number of real estate loans outstanding and number of savings accounts.

(c) *Mergers and acquisitions.* Indicate in tabular form, any mergers, bulk purchase of assets and similar acquisitions which have occurred in the periods covered by statements of operations required by item 15(b). With respect to each such acquisition, give names of the association involved, its location, its total assets immediately prior to such acquisition, the number of offices acquired, the method of accounting for such acquisition, and any excess of cost over the net assets acquired (goodwill) included in the latest statement of financial condition. The information provided in this section should be referenced to any appropriate notes to the financial statements required by item 15.

(d) *Lending activities:* (1) Describe briefly applicable Federal and State restrictions on the lending activities of the applicant including applicable laws affecting mortgage loan interest rates. Describe the applicant's general policy concerning loan to value ratios. Describe briefly the applicant's customary methods of obtaining loan originations such as the use of loan consultants and approval of security properties and use of a loan committee, if any. Describe briefly the applicant's policies as to requiring title insurance and fire and casualty insurance on security properties.

(2) As of the end of the periods covered by the statements of operations required by item 15(b)(1) and as of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form the amount and percentage of the loan portfolio of the applicant (i) by type of loan and (ii) by type of security.

Instructions. 1. For the classification required by subparagraph (2)(i), separate types of loans into real estate loans and loans for other purposes. Also, separate real estate loans into conventional loans and FHA-VA loans, and conventional loans shall be separated into loans for construction, loans on existing property and loans refinanced.

2. for the classification required by subparagraph (2)(ii), type of security shall be separated into residential and other types. Residential loans shall be separated into single-family dwellings, two-to-four family dwellings, and other dwelling units. Also, indicate any material classification of other loans such as mobile home loans, home improvement loans, home equipping loans, passbook loans, commercial or industrial loans, and undeveloped land loans.

(3) For each of the periods covered by the statements of operations required by item 15(b), set forth in tabular form the amount for each period of (i) loans originated, (ii) loans purchased, (iii) loans sold, and (iv) total net loan activity. Also describe briefly the applicant's total activity as of the date of the latest statement of financial condition required by item 15(a), and briefly indicate the applicant's general future intentions with repect to activities in secondary mortgage markets including transactions with the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, or mortgage bankers. If significant, indicate loan service fee income as a percentage of gross income for the year ended as of the latest statement of financial condition required by item 15(a).

Instructions. 1. For the classification required by subparagraph (3)(i), loans originated shall be separated into real estate loans, loans for other purposes, and total loans originated. Real estate loans shall be further separated into conventional loans and FHA-VA loans, and conventional loans shall be separated into loans for construction, loans on existing property, and loans refinanced.

2. For the classification required by subparagraph (3)(ii), loans purchased shall be separated into real estate loans, loans for other purposes, and total loans purchased. Real estate loans shall be further separated into conventional loans and FHA-VA loans.

3. For the classification required by subparagraph (3)(iii), loans sold shall be separated into whole loans, participation loans, and total loans sold.

4. For the classification required by subparagraph (3)(iv), total net loan activity shall be equal to total loans originated plus total loans purchased minus total loans sold.

(4) As to the lending area of the applicant, describe briefly (i) the lending area restrictions applicable to the applicant, (ii) the areas in which the applicant normally lends, and (iii) any material loan concentration areas of the applicant. Such descriptions may include a map illustrating one or more of these areas. Furnish an estimate of the housing vacancy rates in areas where the applicant's loan concentrations are located, if practicable.

(5) Describe briefly the general long term nature of investment in mortgage loans and the consequent effect upon the earnings spread of savings and loan associations. State the normal maturity of loans made by the applicant on the security of single-family dwellings and furnish an estimate as to the average length of time such loans are outstanding.

(6) As of the end of each of the periods covered by the statements of operations required by item 15(b)(1) and as of the date of the latest statement of financial condition required by item 15(a), set forth in tabular from, excluding origination fees, discounts and premiums on real estate loans originated, the following: (i) weighted average of return on loans originated and purchased during each period, (ii) weighted average rate of return on loans held at the end of each period, (iii) weighted average interest cost of savings at the end of each period, (iv) weighted average interest cost of Federal home loan bank advances and other borrowings during the period, (v) total weighted average interest cost of savings and borrowings for the period (the total of (iii) and (iv)), and (vi) the gross margin ((ii) minus (v)).

Instruction. As an example of the calculation of the weighted average rate, the following method should be used to calculate the weighted average interest rate on savings:

1. Determine the percentage of total savings represented by each type of savings instrument.

2. Multiply these percentages by the contractual interest rate the applicant is committed to pay on such instruments.

3. The resulting percentages are then totalled, giving the weighted rate.

(7) As of the end of each of the periods covered by the statements of operations required by item 15(b)(1) and as of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form loan origination fees charged to borrowers expressed as a percentage of the total amount of loans originated and net income. In addition, fee income, broken down into its various components including but not limited to GNMA commitment fees, serving fees, loan commitment fees, should all be expressed as a percentage of both gross and net income.

(8) Describe briefly the applicant's method of loan origination fee and discount amortization and the total of such balances deferred by the applicant as of the date of the latest statement of financial condition required by item 15(a). Describe briefly the normally volatile nature of loan fee income.

(9) Describe briefly the regulatory classifications of scheduled items and the applicant's customary procedures regarding delinquent loans. As of the end of each of the periods covered by the statements of operations required by item 15(b)(1) and as of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form the amounts and categories (slow loans, real estate owned, loans to facilitate, and others) of scheduled items and the ratio of such scheduled items to specified assets and to total assets. Where real estate owned is a significant portion of scheduled items, include a brief description of the major properties included therein and a statement as to the applicant's probable loss, if any, upon disposition of such properties.

(e) *Savings activities.* (1) As of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form the amounts and percentages of savings accounts by categories of interest rate. As to certificates of deposit, indicate the term and minimum balances required for each. As of the date of the latest statement of financial condition required by item 15(a), set forth in tabular form the amounts of such certificates maturing by quarter during the 3 years following such date and the total maturing thereafter, the percentage of such amounts to total savings.

(2) Describe the applicant's methods of computing and paying interest for both passbook savings accounts and certificates of deposit. State that the maximum rate of interest which the applicant may pay is established by the Board. State that in the event of liquidation of the applicant after conversion, savings account holders will be entitled to full payment of their accounts prior to payment to shareholders. Also, indicate the percentage of total savings accounts which are from out-of-State sources, if such total is significant.

(f) *Insurance of accounts.* (1) Describe briefly insurance of accounts and the general regulatory authority of the Corporation.

(2) Describe briefly the Federal insurance reserve requirements, the results of failure to meet those requirements, and the applicant's Federal insurance reserve account position in relation to those requirements. Also describe the annual insurance premium payment and prepayment requirements.

(g) *Federal Home Loan Bank System.* (1) Describe briefly the Federal Home Loan Bank System and state that the applicant is a member. Such description shall include: (i) Limitations on borrowings, (ii) recent loan policies of the applicant's Federal home loan bank and current interest rates, and (iii) Federal home loan bank stock purchase requirements and the applicant's position with respect to those requirements.

(2) Describe briefly applicable liquidity requirements under section 5A of the Federal Home Loan Bank Act, as amended, the regulations thereunder, and State law. State the applicant's position with respect to those requirements.

(h) *State Savings and Loan Association Law.* If the applicant is converting to a State-chartered stock association, describe briefly applicable provisions of State law which have a material effect on the business of the applicant.

(i) *Federal State taxation.* Describe briefly the Federal income tax laws applicable to the applicant incuding: (1) Permissible bad debt reserves, (2) the applicant's position with respect to the maximum bad debt reserve limitations as of the date of the latest statement of financial condition required under item 15(a), (3) future increases in the effective income tax rate, (4) the date through which the applicant's Federal income tax returns have been audited by the Internal Revenue Service, and (5) the tax effect to the applicant of the payment of cash dividends on capital stock of the applicant after conversion. Also describe briefly the State taxation of the applicant.

(j) *Competition.* Describe the material sources of competition for savings and loan associations generally and indicate to the extent practicable the applicant's position in its principal lending and savings markets.

Instruction. In answering item 7(j) give to the extent known the association savings and mortgage product market shares by county in its geographic market. Also indicate its rank and any material changes or trends in its competitive standing.

(k) *Office and other material properties.* (1) Furnish the location of the applicant's home office and each existing and approved branch office and other office facilities (such as mobile or satellite offices). State the total net book value of all such offices as of the date of the latest statement of financial condition required by item 15(a). If any such office is leased, state the expiration dates of such leases.

(2) Describe briefly undeveloped land owned by the applicant, including location, net book value, and prospective use and holding period. If the applicant or a subsidiary owns or leases electronic date processing equipment principally for its own use, describe briefly such equipment indicating net book value if owned or the principal lease terms if leased.

(l) *Employees.* State the number of persons employed fulltime by the applicant including executive officers listed under item 5. State whether employees are represented by a collective bargaining group and whether the applicant's relations with its employees is satisfactory. Summarize briefly any loans, profit sharing, retirement, medical, hospitalization or other remuneration plans provided for employees not already included pursuant to item 6.

(m) *Service corporations.* Describe briefly the applicant's investment in any subsidiary and the major lines of business (including any joint ventures) of the subsidiary which are material to its operations.

(n) *Pending legal proceedings.* Briefly describe any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the applicant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underly the proceeding, the relief sought and counsel's opinion as to the merits of the applicant's position in each such matter. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

(o) *Additional information.* The Corporation may, upon the request of the applicant, and where consistent with the protection of account holders and others, permit the omission of any of the information required by this Item or the furnishing in substitution therefor of appropriate information of comparable character. The Corporation may also require the furnishing of other information in addition to, or in substitution for, the information required by this Item in any case where such information is necessary or appropriate for an adequate description of the applicant's business done or intended to be done.

Item 8. Description of the plan of conversion. (a) A statement to the following effect shall be inserted in the proxy statement immediately preceding the information required by this Item: The Federal Home Loan Bank Board has given approval to the plan of conversion, subject to its approval by association members and the satisfaction of certain other conditions. However, such Board approval does not consititue a recommendation or endorsement of the plan by the Board.

(b) The proxy statement shall contain a description of the plan of conversion. Such description shall contain the information required by paragraphs (c) through (j) of this item and such additional information as may be necessary to accurately describe the material provisions of the plan.

(c) Briefly describe the effects of conversion from a mutual institution to a stock institution including the following information: (1) State that savings accounts of the applicant will not be affected by the conversion with respect to such matters as balances in the accounts and the extent of insurance of savings accounts by the Corporation; (2) state whether savings and borrowing members of the applicant will continue to have voting rights in the applicant after conversion, and describe any voting rights they will have; (3) state the present liquidation rights of account holders and describe the liquidation account to be established and maintained by the applicant, including the conditions under which such account will be paid, the interest of eligible account holders and supplemental eligible account holders in such account and the formula by which such account will be adjusted; (4) state that the rights and obligations of borrowers from the applicant will not be changed in any manner; (5) state that capital stock to be sold by the applicant will not be insured by the Corporation; (6) state that none of the assets of the applicant will be distributed in order to effect the conversion other than to pay expenses incident thereto; and (7) state briefly the reason why management is recommending the conversion, including any advantages to the community served by the applicant.

(d) With respect to the subscription offering, furnish the following information: (1) The formula to be used for determining the subscription rights of account holders to purchase shares pursuant to § 563b.3(c) (2), (4), and (5); (2) any minimum share purchase requirements pursuant to § 563b.3(d)(8); (3) any optional provisions included in the plan of conversion pursuant to § 563b.3(d) for the purchase of shares of capital stock including the purchase priorities, any limitation on total purchases, the total number of shares which may be purchased, and the formula for their allocation; (4) the allocation formulas to be used in the event that there is an oversubscription of shares at any time during the sale of stock under the plan of conversion; and (5) the use and timing of the order forms with respect to the subscription offering.

(e)(1) Set forth on a per share basis the estimated public offering price range of the shares of capital stock to be sold pursuant to the plan of conversion; (2) state that the public offering price will be the pro forma market value of such shares based on an independent valuation; (3) state that all of the shares are required to be sold; and (4) describe briefly the results of the appraisal of the association made by an independent appraiser for the purpose of determining the estimated price range.

(f) Discuss (1) the earnings per share on a pro forma basis of the capital stock to be sold as of the end of the most recent period covered by the statements of operation required by item 15(b)(1); and (2) the book value per share on a pro forma basis as of the date of the latest statement of financial condition required by item 15(a).

Instruction. Earnings and book value per share shall be furnished without giving effect to the estimated net proceeds from the sale of the capital stock, and then after giving effect to such proceeds with all assumptions used clearly stated.

(g) With respect to the subscription offering, state the proposed commencement and expiration dates of the subscription period and describe any provisions in the plan of conversion related to the timing of the subscription offering or extension of the subscription period. Also, state (1) that a maximum subscription price will be set forth in the offering circular used for the subscription offering; (2) that the actual subscription price will be the public offering price; (3) that the actual subscription price will not exceed the maximum subscription price shown on the order form; and (4) that any difference between the maximum and actual subscription prices will be refunded.

(h) Furnish the following information: (1) State that the converted insured institution will enter into an agreement with the Corporation in accordance with § 563b.3(l) and briefly describe the material terms of such agreement; (2) describe to the extent practicable the applicant's present intentions with respect to listing the capital stock on an exchange or otherwise providing a market for the purchase and sale of the capital stock in the future; (3) describe briefly the tax effect of the conversion both to the applicant and to the various classes of account holders receiving nontransferrable subscription rights to purchase capital stock in the conversion, and (4) state that the plan of conversion is attached as an exhibit to the proxy statement and should be consulted for further information.

(i)(1) State whether the plan of conversion provides for the capital stock not purchased in the subscription offering to be offered to the public through underwriters or directly by the converting institution. If such is the case, provide the information to the extent known required by item 6 of form OC and indicate the estimated timing

of the proposed offering. (2) State whether the plan of conversion provides for the purchase by any person or group of any insignificant residue of shares remaining at the

stock outstanding, voting as a class, so state and explain briefly.

(3) Outline briefly any restrictions on the repurchase or redemption of, and payment

lending projects, loan portfolio diversification, increased liquidity investments, repayment of debt, additional branch offices and other facilities, service corporation invest-

of operations and statements of stockholders' equity required to be included in the proxy statement. Section 563c.1 governs the certification, form, and content of such financial statements including the basis of

5. Material and unusual charges or gains, including credits or charges associated with discontinuation of operations;

6. Material changes in assumptions underlying deferred costs and/or income and the

equity of the applicant (1) for each of the 5 fiscal years preceding the date of the statement of financial condition as of the close of the applicant's latest fiscal year filed under paragraph (a) and (2) for the period

V 4 3 1 2 0 3 0 C 1 9 7 8

of the proposed offering. (2) State whether the plan of conversion provides for the purchase by any person or group of any insignificant residue of shares remaining at the conclusion of the subscription offering or the public offering.

(j) Furnish the following information in tabular form regarding proposed purchases of capital stock involving directors and officers of the applicant:

(1) State the total number of shares proposed to be purchased by all officers, directors and their associates as a group without naming them.

(2) As to each officer and director named in item 6(a)(1), name him, state his position, and the number of shares proposed to be purchased by him.

(3) As to any officer, director or their associate who proposes to purchase 1 percent or more of the total number of shares of capital stock of the applicant to be outstanding, name him, state his position, and the number of shares proposed to be purchased by him.

(4) With respect to the information required by (1), (2) and (3) above, indicate separately the number of shares proposed to be purchased in each offering category.

Item 9. Description of capital stock. (a) Furnish the following information concerning the capital stock of the applicant to be sold upon conversion:

(1) Outline briefly (i) dividend rights and restrictions; (ii) voting rights; (iii) liquidation rights; (iv) pre-emptive rights; (v) liability to further calls or to assessment by the applicant; and (vi) other material provisions.

(2) If the rights of holders of such capital stock may be modified otherwise than by a vote of a majority or more of the capital stock outstanding, voting as a class, so state and explain briefly.

(3) Outline briefly any restrictions on the repurchase or redemption of, and payment of dividends on, capital stock, or any part thereof, by the applicant.

Instructions. 1. This item requires only a brief summary of the provisions which are pertinent from an investment standpoint. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions of the governing instruments verbatim; only a succinct resume is required.

2. If the rights evidenced by the capital stock will be materially limited or qualified by the rights of savings account holders or borrowers, include such information regarding such limitation of qualification as will enable investors to understand the rights evidenced by the capital stock.

(b) An undertaking should be included in the proxy statement that the applicant where practical will use its best efforts to encourage and assist a professional market maker in establishing and maintaining a market for the capital stock of the applicant.

(c) Outline briefly the trading market that is expected to exist for the capital stock following the conversion including the estimated number of market members and stockholders, and the anticipated success of the applicant in listing the stock.

Instructions. Any discussion of the listing of the applicant's stock should include the basic requirement that must be met for such listing.

Item 10. Capitalization. Set forth in substantially the tabular form indicated below the dollar amounts of the capitalization of the applicant:

	(A)	(B)	(C)
	Capitalization as of latest statement of condition date	Adjustments as a result of conversion	Pro-forma capitalization after giving effect to the conversion
1. Savings accounts	$	$	$
2. FHL bank advances			
3. Subordinated debt securities			
4. Other borrowings			
5. Capital stock			
6. Paid in capital			
7. Undivided profits			
8. Federal Insurance Reserve			
9. Other reserves			
10. Total			

Instructions. 1. With respect to capital stock, indicate in the table or in a footnote the total number of shares to be authorized, the par or stated value of such shares, and the number of shares to be sold as part of the conversion.

2. With respect to the funds to be received by the applicant from the sale of its capital stock, indicate in the table the estimated total amount of funds to be obtained and in a footnote state the price per share used in making such estimate. Such total amount and price per share shall be clearly identified as being estimates.

Item 11. *Use of new capital.* State the principal purposes for which the net proceeds to the applicant from the capital stock to be sold are intended to be invested or otherwise used, and the approximate amount intended for each such purpose.

Instruction. Details of proposed investments are not to be given. There need be furnished, for example, only a brief statement of any investment or other activity of the applicant which will be affected materially by availability of the proceeds. Examples of such activities may include expanded secondary market activities, larger scale lending projects, loan portfolio diversification, increased liquidity investments, repayment of debt, additional branch offices and other facilities, service corporation investments, and acquisitions.

Item 12. *Stock option plan.* If action is to be taken with respect to the granting to officers and employees of any stock options to purchase capital stock of the applicant to take effect after conversion, furnish the following information:

(a) State (1) the title and number of shares to be called for by such options; (2) the prices, expiration dates and other material conditions upon which the options may be exercised; (3) the consideration to be received by the applicant for the granting of the options and (4) the Federal income tax consequences of the issuance and exercise of such options to the recipient and to the applicant.

(b) State separately the amount of options to be received by the following persons, naming each such person: (1) Each director or officer named in answer to items 6(a); (2) each associate of such directors or officers; and (3) each other person who is to receive 5 percent or more of such options to be received by all directors and officers of the applicant as a group, without naming them.

(c) Furnish such information, in addition to that required by item 6, as may be necessary to describe adequately the provisions already made pursuant to all bonus, profit-sharing, pension, retirement, deferred compensation or other remuneration or incentive plans, now in effect or in effect within the past 5 years, for (i) each director or officer named in answer to item 6(a) who may participate in the stock option plan to be acted upon; (ii) all directors and officers of the applicant as a group, if any director or officer may participate in the plan, and (iii) all employees, if employees may participate in the plan.

Instructions. The term "plan" as used in paragraph (c) of this Item means any plan as defined in instruction 1 to item 6(b).

State whether the adoption of any stock option or purchase plan is contemplated following the completion of the conversion. If so, indicate the material terms of the proposed plan.

Item 13. *New charter, bylaws or other documents.* Describe briefly any material differences between the provisions of existing charter, bylaws and any similar documents of the applicant and those which will take effect after conversion, including, if applicable, the optional charter provision provided for in § 563b.3(i)(3).

Instruction. This Item requires only a brief summary of the provisions which are pertinent from both an investment standpoint and a voting standpoint. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions verbatim; only a succinct resume is required.

Item 14. *Other matters.* State that the applicant will register its capital stock under section 12(g) of the Securities Exchange Act of 1934, as amended, and that it will not deregister such stock for a period of 3 years. It should be noted that upon registration the proxy rules, insider trading reporting and restrictions, annual and periodic reporting and other requirements of that Act will be applicable.

Item 15. Financial statements. Notes: 1. The following instructions specify the statements of financial condition, the statement

of operations and statements of stockholders' equity required to be included in the proxy statement. Section 563c.1 governs the certification, form, and content of such financial statements including the basis of consolidation.

2. If the applicant has previously used an audit period in connection with its certified financial statements which does not coincide with its fiscal year, such audit period may be used in place of any fiscal year requirement provided it covers a full 12 months' operations and is used consistently.

3. To enable investors to understand and evaluate material periodic changes in the various items of the statement of operations a separately captioned section (entitled "Management's Discussion and Analysis of the Statement of Operation") immediately following such statement of operation should include a statement explaining: (1) Material changes from period to period in the amounts of the items of revenues and expenses, and (2) changes in accounting principles or practices or in the method of their application that have a material effect on net income as reported. The purpose of this statement is to provide investors with management's analysis of the financial data included in the statement of operation through a discussion of the causes of material changes in the items of the statement of operation and of disclosure of the dollar amount of each such change and the effect of each such change on the reported results for the applicable periods. This discussion is necessary to enable investors to compare periodic results of operations and to assess the source and probability of recurrence of earning (losses). The analysis should include a discussion of material facts, whether favorable or unfavorable, which, in the opinion of management, may make historical operation or earnings as reported in the statement of operations not indicative of current or future operations or earnings.

(a) In general, the discussion of material periodic changes should be limited to: (1) The latest interim period presented and the comparable interim period in the immediately preceding fiscal year; (2) the most recent fiscal year presented and the fiscal year immediately preceeding it; and (3) the second most recent fiscal year presented and the fiscal year immediately preceding it. There may be circumstances, however, under which an explanation of revenue or expense item changes between two or more of the earlier periods of the 5-year summary may be material to an understanding of the summary. Further, to better explain revenue and expense items changes for interim periods it may be necessary to give an analysis of changes between consecutive fiscal quarters.

(b) While it is not feasible to specify all subjects which should be covered in the discussion and analysis of the statement of operation, the following are examples which applicants should consider in making disclosure:

1. Material changes in the revenues generated by types of operation;

2. Material changes in the line items contained in the statement of operations;

3. Material changes in advertising, promotion, or other discretionary costs;

4. The acquisition or disposition of a material asset other than in the ordinary course of business;

5. Material and unusual charges or gains, including credits or charges associated with discontinuation of operations;

6. Material changes in assumptions underlying deferred costs and/or income and the plan for amortization of such costs or income;

7. Material changes in the associations categorized or nonproductive, slow loans, or scheduled items;

8. Material changes of any kind in the statements of condition and/or operations of a subsidiary; and

9. Material concentration of loans made to one or more borrowers.

(c) The textual analysis should be presented in a manner that will best communicate the significant elements necessary to a clear understanding by the investor of the financial results. Favorable as well as unfavorable trends and changes should be discussed. Tables and charts may be used where appropriate. A mechanistic approach to this analysis which uses boiler plate or mere notation of percentage change by classification or line item should be avoided.

(d) A discussion of a change in an item of revenue or expense generally is required when an item required to be set forth in the statement of operations or disclosed pursuant to § 563c.7 (a) through (v) increased or decreased by more than 10 percent as compared to the prior period (but only if such prior period is presented), and increased or decreased by more than 2 percent of the average net income or loss for the most recent 3 years presented. In calculating average net income, loss years should be excluded. If losses were incurred in each of the most recent years, the average loss shall be used for purposes of this test. Should the applicant be of the opinion that an explanation of a change is not necessary to an understanding of the statement of operations even though the change meets the foregoing standards, the applicant shall furnish the Corporation, as supplemental information, a written statement of the reasons for the ommission.

(e) Notwithstanding the fact that a change in an item of revenue or expense does not meet the standards set forth in paragraph (d) it should be discussed if the applicant believes an explanation of such a change is necessary to an understanding of the statement of operations.

(f) When the text of the proxy statement or offering circular contains a discussion of factors indicating a material change in operating results, whether favorable or unfavorable subsequent to the latest period included in the statement of operations, the management discussion and analysis should call attention to the change and refer to the place in the proxy statement or offering circular where it is discussed.

(g) *Statements of financial condition of the applicant.* (1) Furnish certified statements of financial condition as of the close of the applicant's latest fiscal year and as of the close of the preceding fiscal year. (2) If the latest statement furnished under (1) is in excess of 120 days from the date of filing of the application for conversion, or any amendment thereto, furnish an additional statement of financial condition as of a date within 120 days of such filing. This additional statement need not be certified

(h) *Statements of operations and statement of stockholders' equity.* Furnish in comparative columnar form statements of operations and statements of stockholders' equity of the applicant (1) for each of the 5 fiscal years preceding the date of the statement of financial condition as of the close of the applicant's latest fiscal year filed under paragraph (a) and (2) for the period, if any, between the close of the latest of such fiscal years and the date of the statement of financial condition filed under paragraph (a). Furnish a statement of operations for the period comparable to (b)(2) in the immediately preceding fiscal year. Statements for the 3 latest fiscal years under (b)(1) shall be certified.

Instructions. 1. Reflect information or explanation of material significance to investors in appraising the results shown, or refer to such information or explanaton set forth elsewhere in the proxy statement. Include comparable data for any additional fiscal years necessary to keep the statements from being misleading. The statements shall reflect the retroactive adjustment of any material items affecting the comparability of the results.

2. In connection with capital stock sold pursuant to the plan of conversion, the statements shall reflect earnings that would have been applicable to such outstanding stock.

(c) *Statements of changes in financial position.* Furnish certified statements of changes in financial position (1) for each of the 3 fiscal years preceding the date of the latest statement of financial condition filed under paragraph (a) and (2) furnish a statement for the period if any, between the close of the latest of such fiscal years and the date of the latest statement of financial condition filed under paragraph (a). This additional statement need not be certified.

(d) *Ommission of applicant's statements in certain cases.* Notwithstanding paragraphs (a), (b), and (c), the individual financial statements of the applicant may be omitted if (1) the conditions specified in either of the following paragraphs are met, and (2) the Corporation is advised as to the reasons for such ommission.

(1) The applicant is primarily an operating company and all subsidiaries included in the consolidated financial statements filed are totally held subsidiaries; or

(2) The applicant's total assets, exclusive of investments in and advances to the consolidated subsidiaries, constitute 85 percent or more of the total assets shown by the consolidated statement of financial condition filed and the applicant's total gross revenues for the period for which its statements of operations would be filed, exclusive of interest and dividends received from the consolidated subsidiaries, constitute 85 percent or more of the total gross revenue shown by the consolidated statements of operations filed.

(e) (1) *Consolidated statements.* Furnish consolidated statements for the same periods and as of the same dates as would be required for the applicant. These statements shall be certified as would be required for the applicant's statements. (Paragraphs (a), (b), and (c) above.)

(2) *Unconsolidated subsidiaries and other persons.* Subject to § 563c.1(q)(2) regarding group statements of unconsolidated subsidiaries, there shall be set forth for each majority-owned subsidiary of the applicant not consolidated the financial statements which would be required if the subsidiary were itself an applicant. Insofar as practicable, these financial statements shall be as of the

same dates or for the same periods as those of the applicant.

(3) *Fifty-percent-owned persons and other persons.* If the applicant owns directly or indirectly approximately 50 percent of the

(2) *Acquisition of other businesses.* (i) There shall be set forth for any business directly or indirectly acquired by the applicant after the date of the statement of financial condition set forth pursuant to

books current values, reproduction cost or any values other than original cost.

(iii) No information need be furnished with respect to any revaluation entry which was subsequently reversed or with respect

(Street address of applicant)

Item 3. *Statement required in offering circulars.* There shall be set forth on the outside cover page of every offering circular the following statement in capital letters

	Price to public	Underwriting	Proceeds to applicant

V 43 I 203 OCT 19 78

same dates or for the same periods as those of the applicant.

(3) *Fifty-percent-owned persons and other persons.* If the applicant owns directly or indirectly approximately 50 percent of the voting securities of any person and approximately 50 percent of the voting securities of such person is owned directly or indirectly by another single interest, or if the applicant takes up the equity in undistributed earnings of any other unconsolidated person, there shall be set forth for each such person the financial statements which would be required if it were an applicant, subject to §563c.1(q)(2) regarding group statements. The statements set forth for each person shall identify the other single interest, or other interests in any person operated jointly.

(4) *Omission of statements required by paragraphs (2) and (3).* Not withstanding paragraphs (2) and (3), there may be omitted from the proxy statements all financial statement of any one or more unconsolidated subsidiaries or 50-percent-owned persons or other persons: (i) If all such subsidiaries and 50 percent-owned and other persons for which statements are so omitted, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary; or (2) if the income from the subsidiary reported by the applicant does not exceed 10 percent of the consolidated net income for the latest fiscal year for which income statements are filed.

(f) *Special provisions*—(1) *Succession to other business.* (i) If during the period for which its statements of operations are required, the applicant has by merger, consolidation, or otherwise succeeded to one or more businesses, the additions, eliminations, and other changes effected in the succession shall be appropriately set forth in a note or supporting schedule to the statements of financial condition set forth. In addition, statements of operations for each constituent business, or combined statements if appropriate, shall be set forth for such period prior to the succession as may be necessary when added to the time, if any, for which statements of operations after the succession are set forth to cover the equivalent of the period specified in paragraphs (a), (b), and (c) above.

(ii) If the applicant by merger, consolidation, or otherwise is about to succeed to one or more businesses, there shall be filed for the constituent businesses financial statements, combined, if appropriate, which would be required by these instructions. In addition, there shall be set forth a statement of financial condition of the applicant giving effect to the plan of succession. These statements of financial condition shall be set forth in such form, preferably columnar, as will show in related manner the statements of financial condition of the constituent business, the changes to be effected in the succession and the statement of financial condition of the applicant after giving effect to the plan of succession. By a footnote or otherwise, a brief explanation of the changes shall be given.

(iii) This subparagraph (1) shall not apply with respect to the applicant's succession to the business of any totally-held subsidiary, or to the acquistion of one or more businesses by purchase if such businesses, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary.

(2) *Acquisition of other businesses.* (i) There shall be set forth for any business directly or indirectly acquired by the applicant after the date of the statement of financial condition set forth pursuant to paragraph (a) and for any business to be directly or indirectly acquired by the applicant, the financial statements which would be required if such business were an applicant.

(ii) The acquisition of securities shall be deemed to be the acquisition of a business if such securities give control of the business or combined with securities already held give such control.

(iii) No financial statements need be set forth pursuant to this subparagraph (2), however, for any business acquired or to be acquired from a totally held subsidiary. In addition, the statements of any one or more businesses may be omitted if such businesses, considered in the aggregate as a single subsidiary, would not consititute a significant subsidiary.

(g) *Filing of other statements in certain cases.* The Corporation may, upon the request of the applicant, and where consistent with the protection of account holders and others, permit the omission of one or more of the statements herein required or the filing in substitution therefor of appropriate statements of comparable character. The Corporation may also require the inclusion of other statement in addition to, or in substitution for, the statements herein required in any case where such statements are necessary or appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of account holders and others.

(h) *Historical financial information.*—(1) *Applicability of paragraph (h).* The information required by this paragraph (h) shall be included in the proxy statement if in the opinion of the applicant it is material to the understanding of its financial condition. If the applicant determines to omit the information required by this paragraph, it shall file with its application for conversion a statement briefly explaining such omission.

(2) *Scope of paragraph (h).* The information required by paragraph (h) shall be furnished for the 7-year period preceding the period for which statements of operations are set forth, as to the accounts of each person whose statement of financial condition is set forth. The information is to be given as to all of the accounts specified whether they are presently carried on the books or not. Paragraph (h) does not call for an audit, but only for a survey or review of the accounts specified. It should not be detailed beyond a point material to account holders and others.

(3) *Revaluation of property.* (i) If there were any material increases or decreases in investments, in property, plant and equipment, or in intangible assets, resulting from revaluing such assets, state (*a*) in what year or years such revaluations were made; (*b*) the amounts of such increases or decreases, and the accounts affected, including all related entries; and (*c*) if in connection with such revaluations any related adjustments were made in reserve accounts, state the accounts and amounts with explanations.

(ii) Information is not required as to adjustments made in the ordinary course of business, but only as to major revaluation made for the purpose of entering on the books current values, reproduction cost or any values other than original cost.

(iii) No information need be furnished with respect to any revaluation entry which was subsequently reversed or with respect to the reversal of a revaluation entry recorded prior to the period if a statement as to the reversal is made.

(4) *Other changes in surplus.* If there were any material increases or decreases in surplus, other than those resulting from transactions specified above, the closing of the profit and loss account or the declaration of payment of dividends, state (i) the year or years in which such increase or decreases were made; (ii) the nature and amounts thereof; and (iii) the accounts affected, including all material related entries. Paragraph (3)(iii) shall also apply here.

(5) *Predecessors.* The information shall be furnished, to the extent it is material, as to any predecessor of the applicant from the beginning of the period to that date of succession, not only as to the entries made respectively in the books of the predecessor or the successor, but also as to the changes effected in the transfer of the assets from the predecessor. However, no information need be furnished as to any one or more predecessors which, considered in the aggregate, would not constitute a significant predecessor.

(6) *Omission of certain information.* (i) No information need be furnished as to any subsidiary, whether consolidated or unconsolidated, for the period prior to the date on which the subsidiary became a majority-owned subsidiary of the applicant or of the predecessor for which information is required above.

(ii) No information need be furnished to any one or more unconsolidated subsidiaries for which separate financial statements are filed if all subsidiaries for which the information is so omitted, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary.

(iii) Only the information specified in paragraph (3) need be given as to any predecessor or any subsidiary thereof if immediately prior to the date of succession thereto by a person for which information is required, the predecessor or subsidiary was in insolvency proceedings.

Item 16. Consents of experts and reports. (a) The proxy statement shall briefly describe all consents of experts filed pursuant to section 563b.8(p).

(b) The statement shall contain a report of the independent public accountants who have certified the financial statements and other matters in the statement.

Instruction. The instruction to item 13 shall apply to paragraph (a) of this item.

Item 17. Attachments. There shall be attached to the proxy statement distributed to association members and others a copy of the applicant's plan of conversion as approved by the Corporation. There may also be attached to such statement a copy of any stock option plan described under item 12.

FORM OC

FEDERAL HOME LOAN BANK BOARD, FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION, 1700 G STREET NW., WASHINGTON, D.C. 20552

Offering Circular

(Exact name of applicant as specified in charter)

(Street address of applicant)

(City, State, and ZIP code)

OFFERING CIRCULAR FORM

Item 1. *Information required by and use of form OC.* The offering circular shall be dated as of the date of its issuance. The offering circular shall contain substantially the same information required to be included in the proxy statement of the applicant distributed to association members to vote upon the plan of conversion. Information of the type required to be included in the proxy statement may be omitted from the offering circular only to the extent that it is clearly inapplicable. The offering circular may be in "wrap around" form with the proxy statement attached.

Instruction 1. The term "offering circular" refers to both the offering circular for the subscription offering and the offering circular for the public offering through an underwriter or the direct community marketing by the converting insured institution of the unsubscribed shares, unless otherwise indicated.

2. The offering circular shall include such information which the General Counsel or Director of the Securities Division of the Office of General Counsel, by interpretive release or otherwise, has deemed necessary to comply with this form OC.

3. An offering circular for the subscription offering in "wraparound" form distributed to association members and other persons who have previously been furnished a copy of the proxy statement need not contain the proxy statement as an attachment provided such offering circular states that a copy of the proxy statement has previously been furnished to such persons and that an additional copy thereof will be furnished promptly upon request to the applicant (with the telephone number and mailing address of the applicant stated).

Item 2. *Additional current information required.* The final offering circular for the subscription offering, the preliminary offering circular for the public offering or the direct community marketing used during the subscription period and the final offering circular for the public offering or the direct community marketing shall as of their respective dates of issuance include the following additional current information to the extent that such information is not already included in the proxy statement:

(a) Information with respect to the vote of association members upon the plan of conversion and any other proposals considered at the meeting of members;

(b) Information with respect to any recent material developments in the business or affairs of the applicant;

(c) Information with respect to the trading market that is expected to exist for the capital stock following the conversion.

(d) Any other information necessary to make such offering circular current, including full financial statements of the applicant within 6 months prior to the date of issuance of such offering circular.

Item 3. *Statement required in offering circulars.* There shall be set forth on the outside cover page of every offering circular the following statement in capital letters printed in boldface roman type at least as large as 10-point modern type and at least two points leaded.

These shares have not been approved or disapproved by the Federal Home Loan Bank Board or Federal Savings and Loan Insurance Corporation nor has such Board or Corporation passed upon the accuracy or adequacy of this offering circular. Any representation to the contrary is unlawful.

Item 4. *Preliminary offering circular.* The outside front cover page of any preliminary offering circular shall bear, in red ink, the caption "Preliminary Offering Circular," the date of its issuance, and the following statement printed in type as large as that used generally in the body of such offering circular.

"This offering circular has been filed with the Federal Savings and Loan Insurance Corporation, but has not been authorized for use in final form. Information contained herein is subject to completion or amendment. The shares covered hereby may not be sold nor offers to buy be accepted prior to the time the offering circular is declared effective by the Federal Savings and Loan Insurance Corporation. This offering circular shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these shares in any State in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such State."

Item 5. *Information with respect to subscription offering.* The offering circular used for the subscription offering shall describe all material terms of the subscription offering to the extent that such description is not already in the proxy statement. Such terms include the expiration date, any subscription agent, method of exercising subscription rights, payment for shares, delivery of stock certificates for shares purchased, maximum subscription price, possible reduction of subscription price, relationship of subscription price to public offering price, requirement that all unsubscribed shares be sold, and any other material conditions of the subscription offering.

Item 6. *Information with respect to public offering or direct community marketing.* The offering circular for the subscription offering and the offering circular for the public offering or direct community marketing shall both describe the material terms of the plan or plans of distribution for all unsubscribed shares of capital stock not purchased by account holders or others pursuant to the subscription offering to the extent such description is not already in the proxy statement, including the following:

(a) If the shares are to be offered through underwriters, the outside front cover page of both offering circulars shall give the information called for by this paragraph. In the case of the offering circular for a public offering, such information shall be given in substantially the tabular form set forth below. In the case of the offering circular for the subscription offering, and the direct community marketing, such information may be given in narrative form. If the information is not known at the time of the subscription offering, so state and estimate.

	Price to public	Underwriting [1]	Proceeds to applicant
Per share	$	$	$
Total	$	$	$

[1] Underwriting discounts and commissions

(b) The outside front cover page of the offering circular for the public offering or direct community marketing shall briefly summarize the results of the subscription offering including the number of shares sold to eligible account holders supplemental eligible account holders, voting members and others, the price at which the shares were sold, and the number of unsubscribed shares. Such offering circular may omit the description of the subscription offering required by item 5.

(c) If the unsubscribed shares are to be offered through underwriters, the offering circular for the public offerings shall state the names of the principal underwriters and the respective amount underwritten by each. The names of the principal underwriters other than the managing underwriters and the respective amounts to be underwritten may be omitted from the offering circular for the subscription offering. Both offering circulars shall identify each principal underwriter having a material relationship to the applicant and state the nature of the relationship. Both underwriting circulars shall state briefly the nature of the underwriters' obligation to take the unsubscribed shares.

(d) The offering circular for the public offering shall state briefly the discounts and commissions to be allowed or paid to dealers in connection with the sale of the unsubscribed shares. Such information may be omitted from the offering circular for the subscription offering.

(e) If the unsubscribed shares are to be offered through underwriters, the offering circular for the public offering shall identify any principal underwriter that intends to confirm sales to any accounts over which it exercises discretionary authority and include an estimate of the number of shares so intended to be confirmed. Such information may be omitted from the offering circular for the subscription offering.

Instructions. 1. Commissions include all cash, securities, contracts, or anything else of value, paid, to be set aside, disposed of, or understandings made with or for the benefit of any persons in which any underwriter or dealer is interested, in connection with the sale of the shares.

2. Only commissions paid by the applicant in cash are to be included in the table. Any other consideration to the underwriters shall be set forth following the table with a reference thereto in the second column of the table. Any finder's fees or similar payments shall be appropriately disclosed.

3. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take and to pay for all of the shares if any are taken, or whether it is merely an agency or "best efforts" arrangement under which the underwriters are required to take and pay for only such shares as they may sell to the public. Conditions precedent to the underwriters' taking the shares, including customary "market outs," need not be described. If a "best efforts" arrangement is used, describe any standby commitments for shares not sold.

(f) If the unsubscribed shares are to be sold by the converting insured institution by direct community marketing, indicate the timing of the offering, the geographical area wherein the offering will be made, the

MARINE CASUALTIES

Proposed Rules

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing to amend the casualty or accident report regulations for artificial islands and fixed structures on the Outer Continental Shelf and deepwater ports to include reports concerning diving casualties. In this issue of the FEDERAL REGISTER, at page 48724 (third column), the Coast Guard is proposing to amend the definition of marine casualty in 46 CFR 4.03-1 to include diving casualties. The proposals in this document are necessary in order to make a diving casualty reportable under all Coast Guard casualty reporting regulations.

DATE: Comments should be submitted to Commandant (G-CMC/81) (CGD 76-170A), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Capt. Alfred E. Hampton, Office of Merchant Marine Safety (G-MMI/83), Room 8305, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1455.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each comment should include the name and address of the person submitting the comment, reference the docket number (CGD 76-170A), identify the specific section of the proposal to which each comment applies, and include sufficient detail to indicate the basis on which each comment is made. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, March 8, 1978). A draft evaluation of the proposal has been prepared, and has been included in the public docket.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are Capt. Alfred E. Hampton, Project Manager, Office of Merchant Marine Safety, and Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

In consideration of the foregoing, it is proposed that chapter I of title 33 of the Code of Federal Regulations be amended as follows:

PART 146—OPERATIONS

1. By adding a new § 146.01-20(a)(6) to read as follows:

§ 146.01-20 Casualty or accident report.

(a) * * *

(6) Loss of life or injury causing any person to require hospitalization for more than 24 hours, or to be incapacitated for a period in excess of 72 hours, as a result of diving using underwater breathing apparatus.

* * * * *

PART 150—OPERATIONS

2. By adding a new § 150.711(a)(6) to read as follows:

§ 150.711 Casualty or accident.

(a) * * *

(6) Loss of life or injury causing any person to require hospitalization for more than 24 hours, or to be incapacitated for a period in excess of 72 hours, as a result of diving using underwater breathing apparatus.

* * * * *

(Pub. L. 93-627, sec. 10, 88 Stat. 2137 (33 U.S.C. 1509); sec. 4(e)(1), 67 Stat. 462 (43 U.S.C. 1333(e)(1)); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1); 49 CFR 1.46(b) and (s)).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: October 12, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

CASUALTY REPORTING REQUIREMENTS

Proposed Rules

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing to amend certain criteria in the casualty reporting regulations. Some of the present criteria are unrealistic and inadequate from a monetary viewpoint, and other are unclear as to the type of incident that must be reported. The proposed regulations should make the criteria more realistic in relation to today's economics, and increase the value of the reports as a basic tool in the marine safety program.

DATE: Comments must be received on or before December 4, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81) (CGD 76-170), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Massif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Capt. Alfred E. Hampton, Office of Merchant Marine Safety (G-MMI/83), Room 8305, Department of Transportation, Massif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1455.

SUPPLEMENTARY INFORMATION: Interested parties are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each comment should include the name and address of the person submitting the comment, reference the docket number (CGD 76-170), identify the specific section of the proposal to which each comment applies, and include sufficient detail to indicate the basis on which each comment is made. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are Capt. Alfred E. Hampton, Project Manager, Office of Merchant Marine Safety, and Edward J. Gill, Jr., Project Attorney, Office of The Chief Counsel.

DISCUSSION OF THE PROPOSAL

The monetary damage criterion in the casualty reporting regulations has become unrealistic for reporting/investigation purposes due to the increase, through the years, in the cost of ship repair. Also, because of inflation, many insignificant incidents are now reportable.

It is necessary to improve the criteria relating to the number and types of significant casualties reported in order to increase the usefulness of the Coast Guard's data bank.

It is therefore proposed that the criteria for reporting be changed in order to more clearly indicate the type of incidents required to be reported. For example, the criterion governing equipment failures is being clarified so that significant equipment failures, which are not currently reportable, will be brought to the attention of the Coast Guard so that corrective action may be taken.

The proposed grounding criterion will eliminate the reporting of groundings that are done intentionally while making up tows, or otherwise dealing with tows, providing damage meeting the other criteria does not occur.

The reporting criteria for different classes of vessels will be amended as well as the general vessel reporting requirements. The affected sections are set out below.

It is proposed that the grounding criterion be included as a reportable casualty for small passenger vessels under 100 gross tons. The existing grounding criterion is not presently included for these vessels. All vessels, regardless of inspection status or size, should have the same casualty reporting criteria.

In addition to changes to the reporting requirements, it is proposed that the definition of a marine casualty be changed to include diving casualties. These would be reported under the loss of life/injury criteria.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, March 8, 1978). A draft evaluation of the proposal has been prepared, and has been included in the public docket.

In consideration of the foregoing, it is proposed that chapter I of title 46 of the Code of Federal Regulations be amended as follows:

1. By adding a new § 4.03-1(c) to read as follows:

§ 4.03-1 Marine casualty or accident.

* * * * *

(c) A marine casualty or accident also includes occurrences of loss of life or injury to any of a vessel's crew, passengers, or industrial personnel while diving with underwater breathing apparatus.

2. By revising § 4.05-1 to read as follows:

§ 4.05-1 Notice of marine casualty.

The owner, agent, master, or person in charge of a vessel involved in a marine casualty shall give notice, as soon as possible, to the nearest marine inspection office of the Coast Guard whenever the casualty involves any of the following:

(a) Actual physical damage to property in excess of $5,000.

(b) An intentional grounding that results in damage to the vessel, and all accidental groundings.

(c) Loss of main propulsion or primary steering, or the loss of an associated component or control system, the failure of which directly affects the maneuvering capabilities of the vessel.

(d) An occurrence affecting the seaworthiness or efficiency of a vessel such as fire, flooding, failure of a fixed fire protection system, or any failure of primary lifesaving equipment.

(e) A serious threat to life, property, or the environment because of the involvement of hazardous materials. This includes failure of hazardous cargo containers, and hazardous cargo transfer equipment.

(f) Loss of life.

(g) Injury causing any person to require hospitalization for more than 24 hours, or to be incapacitated for more than 72 hours, except injury to harbor workers not resulting in death and not resulting from any of the criteria in paragraphs (a) through (e) of this section.

§§ 35.15-1, 78.07-1, 97.07-1, 167.65-65, 196.07-1 [Amended]

§ 185.15-1 [Revised]

3. The following sections in title 46 will be revised to read the same as the proposed revision of § 4.05-1:

§ 35.15-1(a) (Tank Vessels).

§ 78.07-1(a) (Passenger Vessels).

§ 97.07-1(a) (Cargo and Miscellaneous Vessels).

§ 167.65-65(a) (Nautical School Ships).

§ 185.15-1 (Small Passenger Vessels Under 100 Gross Tons).

§ 196.07-1(a) (Oceanographic Research Vessels).

(Sec. 10, 18 Stat. 128 (33 U.S.C. 361); R.S. 4450, as amended (46 U.S.C. 239); R.S. 4405, as amended (46 U.S.C. 375); R.S. 4462, as amended (46 U.S.C. 416); sec. 17, 54 Stat. 166 (46 U.S.C. 526p); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)) 49 CFR 1.46(b),)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: October 12, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION [1]

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

Test Procedures for Water Heaters

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: The Department of Energy hereby amends its test procedures for water heaters as they relate to determining the energy factor for water heaters. These test procedures are a part of the consumer product energy efficiency program established pursuant to the Energy Policy and Conservation Act, which requires that standard methods of testing be prescribed for covered consumer products.

EFFECTIVE DATE: November 20, 1978.

FOR FURTHER INFORMATION CONTACT:

James A. Smith, Office of Conservation and Solar Applications, Room 2248, 20 Massachusetts Avenue NW., Washington, D.C. 20545, 202-376-4815.

Jim Merna, Media Relations, Federal Building, Room 3104, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9833.

William J. Dennison, Office of the General Counsel, Federal Building, Room 7148, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9750.

SUPPLEMENTARY INFORMATION:

A. Background

On October 1, 1977, the Department of Energy (DOE) assumed the authority of the Federal Energy Administration (FEA) for the energy conservation program for consumer products, pursuant to section 301 of the Department of Energy Organization Act (DOE Act) (Pub. L. 95-91). The energy conservation program for consumer products was established by FEA pursuant to title III, part B of the Energy Policy and Conservation Act (Act) (Pub. L. 94-163). Section 323 (42 U.S.C. 6293) of the Act requires that standard methods of testing be prescribed for covered consumer products.

[1] Editorial Note.—It is contemplated that ch. II will be renamed at a future date to reflect the fact that it contains regulations administered by the Department of Energy, including regulations administered by the Office of Conservation and Solar Applications.

FEA proposed test procedures for water heaters by notice issued April 21, 1977 (42 FR 21576, Apr. 27, 1977), and a public hearing on the proposed test procedures was held on June 13, 1977. Final test procedures for water heaters were prescribed by FEA on September 27, 1977 (42 FR 54110, Oct. 4, 1977).

A subsequent review of the final test procedures for water heaters revealed an error in the derivation of the energy factor. The energy factor is intended to be a measure of efficiency equal to the ratio of the useful output of a water heater to the energy input of the water heater, i.e., the total energy consumed to provide the useful output. The useful output of a water heater is the energy content of the water actually delivered by the water heater on a daily basis. The energy input to a water heater is the total energy consumed by the water heater on a daily basis. In the promulgated test procedures, the useful output of a water heater (the numerator of the energy factor ratio) was erroneously expressed as a water heater's "daily water heating energy consumption." This term, which is correctly utilized in other parts of the test procedures, includes both the energy content of the water actually delivered by the water heater on a daily basis (the useful output) and any additional energy which is dissipated as a result of any inefficiency in the heat transfer process, and which does not contribute to the useful output. The result was that the water heater efficiency was overstated since part of the term in the numerator of the energy factor was not attributable to useful output.

Today's amendment specifies that the useful output (the numerator of the energy factor) shall be the "daily hot water energy consumption," a term defined by new section 4.6 of appendix E to include only the energy content of the water actually delivered by the water heater on a daily basis.

By notice issued March 27, 1978 (43 FR 13888, Apr. 3, 1978), DOE proposed to amend § 430.22(e)(2) and appendix E to subpart B of part 430. The intent of the proposed amendments was to specify the proper method of determining the energy factor for water heaters. Pending a resolution of this matter, DOE suspended the provisions of the final water heater test procedures dealing with the determination of the energy factor, by notice issued March 29, 1978 (FR 13865, Apr. 3, 1978). A public hearing on the proposed amendment was scheduled for May 16, 1978, but no requests for the presentation of oral statements were received.

B. Discussion of Comments

One written comment was received from an engineering consulting firm, which contended that despite the proposed changes, the DOE test procedures would still substantially overstate the energy consumption of water heaters. In support of this contention, the commenter referred to data previously submitted to DOE. This issue was reviewed at the time the notice prescribing final test procedures for water heaters (42 FR 54110, Oct. 4, 1977) was promulgated.

Based on available data, FEA determined that the test procedures did not overstate the energy consumption of water heaters. In connection with today's amendment, DOE has again reviewed this issue and finds no basis for changing the original FEA determination.

C. Regulations Prescribed

The effect of today's rulemaking is to amend the test procedures for water heaters by substituting in 10 CFR 430.22 a new paragraph (e)(2) for determination of the energy factor for water heaters and by adding to appendix E a new section 4.6 for calculation of the daily hot water energy consumption of water heaters.

DOE's suspension of 10 CFR 430.22(e)(2) (43 FR 13865, Apr. 3, 1978), terminates when today's amendments become effective.

As part of today's rulemaking DOE is also changing the name of 10 CFR Part 430 to "Energy Conservation Program for Consumer Products." DOE believes that this change will eliminate any possible confusion regarding the contents of 10 CFR Part 430.

In accordance with the proposed DOE plan for implementing Executive Order 12044, "Improving Government Regulations," DOE has determined that this final rule to amend the test procedures for water heaters is not a significant regulation.

In consideration of the foregoing, part 430 of chapter II of Title 10, Code of Federal Regulations, is amended as set forth below, effective November 20, 1978.

Issued in Washington, D.C., October 13, 1978.

William P. Davis,
Deputy Director of Administration.

1. Section 430.22 is amended by revising paragraph (e)(2) to read as follows:

(e) • • •

(2) The energy factor for water heaters shall be—

(i) For a gas or oil water heater, the quotient of the daily hot water energy consumption determined according to section 4.6 of appendix E of this subpart divided by the average daily energy consumption as determined according to section 4.5.3 of appendix E of this subpart, the resulting quotient then being rounded off to the nearest 0.01; and

(ii) For an electric water heater, the quotient of the daily hot water energy consumption determined according to section 4.6 of appendix E of this subpart divided by the product of the average daily energy consumption as determined according to section 4.5.4 of appendix E of this subpart times 3,412 Btu per kilowatt-hour, the resulting quotient then being rounded off to the nearest 0.01.

2. Appendix E to subpart B of part 430 is amended by adding a new section 4.6, to read as follows:

4.6 *Daily hot water energy consumption.* Calculate the daily hot water energy consumption, C_e, the energy content of the nominal daily hot water usage, expressed in Btu per day and defined as:

$$C_e = k \times U \times \Delta T_3,$$

Where:

k is as defined in section 4.1.1; and
ΔT_3 and U are as defined in section 4.3

3. The name of part 430 is changed to "Energy Conservation Program For Consumer Products," as set forth above.

IMPROVING GOVERNMENT REGULATIONS

The FEDERAL REGISTER of November 1 will contain an updated list of dates on which agencies plan to publish regulatory agendas under Executive Order 12044.

SUNSHINE ACT MEETINGS 49105

FEDERAL ACQUISITION REGULATION PROJECT
OMB/FPPO announces availability and requests comments by 12-20-78 on draft regulation 49025

FLOODPLAIN MANAGEMENT AND WETLANDS PROTECTION
SBA extends effective date of interim rule implementing Executive Orders 11988 and 11990 (Part III of this issue) 49237

EMERGENCY SCHOOL AID ACT
HEW/OE announces 11-27-78 as the closing date for transmittal of applications for Special Projects Program for fiscal year 1979 49056

SUPPLEMENTAL SECURITY INCOME PROGRAM
HEW/SSA excludes certain State and local assistance from computation of "countable income"; effective 10-20-78 48994

EQUAL EMPLOYMENT OPPORTUNITY PROGRAMS
Labor/FCCPO updates rules to consolidate compliance responsibility functions authorized under Executive Order 12086; effective 10-20-78 (Part IV of this issue) 49240

DESIGNATED SALVAGE TIMBER SALE PROGRAM
USDA/FS proposes to set forth policy and procedure for administering preferential awards to small business firms; comments by 11-20-78 49028

FEDERAL MINERAL DEPOSITS—FINANCIAL ASSISTANCE
Interior/BLM proposes to make loans available to local governments to relieve social and economic impact; comments by 11-20-78 49005

FISHERY CONSERVATION AND MANAGEMENT
Commerce/NOAA proposes new information requirements for fishery management plans; comments by 11-20-78 49023
Commerce/NOAA issues preliminary determinations on certain 1978 foreign fishing permits; comments by 11-20-78 49032

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce, Department of Energy

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment (1) changes the title of a position in the Department of Commerce from Special Assistant to the Director to Special Advisor to the Director to reflect more appropriately the duties of the position, (2) changes the title of a position at the Department of Energy from Staff Assistant to the Deputy Associate Administrator for Congressional and Intergovernmental Affairs/Director, Office of Congressional Affairs at FEA to Staff Assistant, Congressional Affairs, to the Director, Office of Congressional Affairs at DOE. This position formerly existed at the Federal Energy Administration and was subsequently transferred to the Department of Energy on September 30, 1977. And (3) excepts under schedule C a position at the Department of Energy because it is confidential in nature. Appointments may be made to these positions without examination by the Civil Service Commission.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, 5 CFR 213.3314(v)(1) and 213.3331(m)(6) are amended and 213.3331(t)(2) is added as set out below:

§ 213.3314 Department of Commerce.

• • • • • •

(v) *Bureau of the Census.* (1) One Special Advisor to the Director.

• • • • • •

§ 213.3331 Department of Energy.

• • • • • •

(m) *Office of the Assistant Secretary for Intergovernmental and Institutional Relations.* • • •

(6) Three Staff Assistants, Congressional Affairs.

• • • • • •

(t) *Southwestern Power Administration.* • • •

(2) One Deputy Administrator.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioner.

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Defense, National Foundation on the Arts and the Humanities, Department of Transportation, U.S. Metric Board

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts under Schedule C certain positions at the Department of Defense, National Foundation on the Arts and the Humanities, Department of Transportation, and the U.S. Metric Board because they are confidential in nature. Appointments may be made to these positions without examination by the Civil Service Commission.

EFFECTIVE DATE: August 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Sherwin, 202-632-4533.

Accordingly, 5 CFR 213.3306(b)(2), 213.3394(i)(7) and 213.3383 are added and 213.3382(q) is amended as set out below:

§ 213.3306 Department of Defense.

• • • • • •

(b) *Court of Military Appeals.* • • •

(2) One Personal and Confidential Assistant to a Judge.

• • • • • •

§ 213.3382 National Foundation on the Arts and the Humanities.

• • • • • •

(q) One Secretary and one Staff Assistant to the Deputy Chairman, National Endowment for the Humanities.

• • • • • •

§ 213.3394 Department of Transportation.

• • • • • •

(i) *National Highway Traffic Safety Administration.*

(7) One Chief of Consumer Participation.

• • • • • •

§ 213.3383 U.S. Metric Board.

(a) One Special Assistant to the Executive Director.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

PART 213—EXCEPTED SERVICE

International Communication Agency

AGENCY: Civil Service Commission.

ACTION: Amendment of final rule.

SUMMARY: The United States Information Agency has changed its title to International Communication Agency. This is to amend the headnotes of the Schedules A, B, and C authorities to conform with the change.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, the headnotes of 5 CFR 213.3128, 213.3228, and 213.3328 are amended as follows:

§ 213.3128 International Communication Agency.

• • • • •

§ 213.3228 International Communication Agency.

• • • • •

§ 213.3338 International Communication Agency.

• • • • •

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1979 Crop of Extra-Long Staple Cotton: Acreage Allotments and Marketing Quotas

AGENCY: Agricultural Stabilization and Conservation Service, Department of Agriculture.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to (1) determine and proclaim a national marketing quota and national acreage allotment for the 1979 crop of extra-long staple cotton (referred to as "ELS" cotton), (2) apportion the national acreage allotment to States; and (3) establish the period for holding the national marketing quota referendum in order to find whether farmers are in favor of or opposed to the announced marketing quota for ELS cotton. The need for this rule is to satisfy the statutory requirements of the Agricultural Adjustment Act of 1938, as amended (referred to as the "Act"). The latest available statistics of the Federal Government have been used in making determinations under this rule.

EFFECTIVE DATE: October 16, 1978.

ADDRESS: Production Adjustment Division, ASCS, USDA, 3630 South Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Charles V. Cunningham (ASCS), 202-447-7873.

SUPPLEMENTARY INFORMATION: A notice that the Secretary was preparing to make determinations with respect to these provisions was published in the Federal Register on August 8, 1978 (43 FR 35053) in accordance with 5 U.S.C. 553. Two comments were received. Both recommended that the national acreage allotment be established at 120,000 acres. After considering the comments received, it was determined the national marketing quota for the 1979 crop of ELS cotton should be 137,000 bales and that the national acreage allotment for such crop should be 114, 965 acres.

It is essential that these provisions be made effective as soon as possible since the proclamation of the quota and the national allotment is required by statute to be made not later than October 15, 1978. Accordingly, it is hereby found and determined that compliance with the 30-day effective date requirement of 5 U.S.C. 553 is impracticable and contrary to the public interest. Therefore, this amendment to 7 CFR §§ 722.558 to 722.561 shall become effective upon the filing of this document with the Director, Office of the Federal Register, with respect to the 1979 crop of ELS cotton. The material previously appearing in these sections under centerhead "1978 Crop of Extra-Long Staple Cotton; Acreage Allotments and Marketing Quotas" remains in full force and effect as to the crop to which it was applicable.

Accordingly, 7 CFR §§ 722.558 through 722.561 are amended to read as follows:

§ 722.558 National marketing quota for the 1979 crop of ELS cotton.

The marketing quota for the 1979 crop of ELS cotton is hereby proclaimed to be an amount of 137,000 standard bales determined in accordance with section 347(b) of the Act. The quota is based on the following data:

(1) Estimated domestic consumption, 1979-80	65,000
(2) Estimated exports, 1979-80	+30,000
(3) Adjustment to assure adequate stocks	+52,000
(4) Estimated imports, 1979-80	−10,000
Total	137,000

§ 722.559 National acreage allotment for the 1979 crop of ELS cotton.

It is hereby determined and proclaimed that a national acreage allotment shall be in effect for the 1979 crop of ELS cotton. The amount of such national allotment is 114,965 acres calculated by multiplying the national quota in bales by 480 pounds (net weight of a standard bale) and dividing the result by the national average yield of 572 pounds per planted acre of ELS cotton for the four calendar years 1974, 1975, 1976, and 1977.

§ 722.560 Apportionment of national acreage allotment to the States.

The national acreage allotment of 000,000 acres is apportioned to the States in accordance with section 344(b) of the Act as follows:

State:	*State allotment*
Arizona	49,714
California	552
Florida	142
Georgia	150
New Mexico	23,282
Texas	41,125

§ 722.561 National marketing quota referendum for the 1979 crop of ELS cotton.

The national marketing quota referendum for the 1979 crop of ELS cotton shall be held during the referendum period December 4 to 8, 1978, inclusive, by mail ballot in accordance with part 717 of this chapter (33 FR 18345, 34 FR 12940, 36 FR 12730, 38 FR 12891).

(Secs. 301, 343, 344, 347, 375; 52 Stat. 38, as amended; 63 Stat. 670, as amended; 63 Stat. 675, as amended; 52 Stat. 66, as amended; 7 U.S.C. 1301, 1343, 1344, 1347, 1375.)

NOTE.—The Agricultural Stabilization and Conservation Service has determined that this document does contain a major proposal requiring preparation of an impact statement. The impact statement is available from Charles V. Cunningham, ASCS, 202-447-7873.

Signed at Washington, D.C., on October 16, 1978.

BOB BERGLAND,
Secretary

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 169]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period October 22-28, 1978. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: October 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Adminstrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on October 17, 1978, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.469 Lemon Regulation 169.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period October 22, 1978, through October 28, 1978, is established at 225,116 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: October 18, 1978.

JOHN J. GARDNER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2929]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Interco Incorporated, et al.

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a St. Louis, Mo. manufacturer and distributor of footwear, wearing apparel, and accessories and its subsidiaries to cease suggesting resale prices for their products; maintaining price fixing agreements; compelling price adherence and exlusive dealings through coercion; and penalizing recalcitrant dealers. The firms are also required to reinstate terminated resellers; and maintain relevant records for a 5-year period.

DATES: Complaint and order issued September 26, 1978.[1]

FOR FURTHER INFORMATION CONTACT:

Leroy Richie, Director, 8R, New York Regional Office, Federal Trade Commission, 2243-EB Federal Building, 26 Federal Plaza, New York, N.Y. 10007. 212-264-1207, or, Paul R. Peterson, Director, 4R, Cleveland Regional Office, Federal Trade Commission, 1339 Federal Office Building, 1240 East Ninth Street, Cleveland, Ohio 44199. 216-522-4207.

SUPPLEMENTARY INFORMATION: On Friday, July 21, 1978, there was published in the FEDERAL REGISTER, 43 FR 31345, a proposed consent agreement with analysis in the matter of Interco Inc., a corporation, Londontown Corp., a corporation, and Queen Casuals, Inc., a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Sub-

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL ENERGY REGULATORY COMMISSION

[Docket No. R-441]

PART 2—GENERAL POLICY AND INTERPRETATION

Modification in Finding Clause (1) of Order No. 455-C Issued May 19, 1978

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order denying requests for clarification, rehearing, and reconsideration and modifying order No. 455-C.

SUMMARY: In 1972 the Commission issued order No. 455 which established optional procedures for certificating new producer sales of gas. Order No. 455 was subsequently amended by order No. 455-C in May 1978. The subject regulations which was contained in § 2.75 relate to the collection of contract rates from customers for deliveries of natural gas at no higher than the prevailing nationwide rate. The Commission received petitions asking for clarification, rehearing and reconsideration of order No. 455-C. This order denies requests for clarification, rehearing, and reconsideration and also modifies the language in finding clause No. (1) of order No. 455-C issued by the Commission on May 19, 1978.

EFFECTIVE DATE: Effective on date of issuance.

FOR FURTHER INFORMATION CONTACT:

Elizabeth Pendley, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, 202-275-4216.

ORDER DENYING REQUESTS FOR CLARIFICATION, REHEARING, AND RECONSIDERATION AND MODIFYING ORDER NO. 455-C

OCTOBER 11, 1978.

On June 16, 1978, Ecee, Inc., Pinto, Inc., Vsea, Inc., Texas Production Co., and TBP Offshore Co., and on June 19, 1978, POGO Producing Co. and Pennzoil Oil & Gas, Inc. (hereinafter collectively referred to as Petitioners) filed for clarification, rehearing, and reconsideration of order No. 455-C, pursuant to section 19(a) of the Natural Gas Act and § 1.34 of the Commission's [1] rules of practice and procedure.

[1] Prior to Oct. 1, 1977, the "Commission" refers to the Federal Power Commission; subsequent thereto, it refers to the Federal Energy Regulatory Commission.

ALLEGATIONS OF PETITIONERS

Petitioners contend that the Commission did not comply with the mandatory requirements of the Administration Procedure Act [2] nor did "good cause" [3] exist to waive said requirements. Further, Petitioners allege that order No. 455-C is void as the Commission did not comply with the DOE Act. Petitioners contend that said Act obligates "the Commission (to) give notice of and have a hearing on any rulemaking which relates to the establishment of rates and charges under the Act." [4] Petitioners contend that order No. 455-C will weaken optional procedure as a viable alternative mechanism, will create rate uncertainty by instituting an "open ended" period of collecting a rate which might be below that later found to be just and reasonable, and will exceed the Commission's statutory authority by instituting a retroactive rate increase.[5] Petitioners also contend that the issuance of order No. 455-C does not comply with the Sunshine Act.[6]

BACKGROUND

In 1972 the Commission issued order No. 455 [7] which established the optional procedure for certificating new producer sales of natural gas. Optional procedure, § 2.75: (1) Permits the producer to request approval of contracts at rates that may exceed the maximum authorized by the applicable rate order; (2) allows the Commission to determine in a single proceeding whether "the public convenience and necessity" warrants the issuance of a certificate and whether the rates requested are "just and reasonable"; (3) allows the Commission to issue a permanent certificate which upon acceptance by the producer is not subject to change under section 4 of the Act; (4) allows the producer to collect these rates without risk of refund obligations; and (5) provides an abandonment assurance, if authorized, at the end of the contract term.[8]

Originally, paragraph (o) of § 2.75 permitted producers, 6 months after the commencement of deliveries, to collect their contract rate without any refund obligation until such time as a final order was issued by the Commission. Subsequently, the 6-month provision was extended to 9 months.[9] The Commission reasoned that "the public interest requires a disposition of the certificate applications under the optional procedure * * * prior to the effectuation of a nonrefundable contract rate." [10]

ORDER NO. 455-C

On May 19, 1978, the Commission further revised paragraph (o) of § 2.75 by again extending the time period for analysis.[11] Section 2.75(o) now states that upon determining that a final decision would not be reached by the Commission within the 9-month period, the Commission may extend the analysis period until a final order is issued. During the extended period, deliveries would continue to be made at rates no higher than the prevailing nationwide rate. Also, the revision provided for a surcharge to be recouped by the applicant if the final order established a just and reasonable rate in excess of the nationwide rate collected during the extended period. These revisions of § 2.75(o) became effective upon issuance of the Commission order.

COMPLIANCE WITH THE ADMINISTRAITIVE PROCEDURE ACT

Petitioners contend that the Commission ignored the mandatory rulemaking procedure set by the Administrative Procedure Act (APA) which delineates a general notice of proposed rulemaking,[12] an opportunity for public participation or comment,[13] and publication of the rule at least 30 days prior to its effective date.[14] Although the commission acted under a finding of good cause [15] which waives the procedural rulemaking steps, Petitioners contend that good cause did not exist and that the order violates the APA rulemaking procedure. Further, Petitioners state that jurisprudence requires more than an agency's bare allegation of "good cause" to justify its dispensing with normal procedures, and that any exception must be strictly scrutinized.

At the time order No. 455 was issued, the Commission reiterated its responsibility to assure reliable and adequate supplies at the lowest reasonable costs to the consumers of natural gas.

> To this end, we seek to provide two incentives to domestic production, both fully congruous with consumer protection. First, we will certificate sales of gas not previously deliverable to the interstate market at prices which are shown to be in the public interest. Second, to the extent possible, we will lessen rate uncertainty which has prevailed since the early 1960's.[16]

Further, the Commission delineated its reasoning with regard to the 6-month period of analysis.

> Such a limitation is, however, a reasonable one, since predicated on the assumption that the Commission will have acted by final order within that period of time * * * 6 months is clearly an adequate period for preliminary Staff analysis and review of applications tendered under the optional procedure. Accordingly, by action to deny or condition certificates prior to the expiration of the 6-month period, we can protect against the impact of a nonrefundable rate which is not just and reasonable.[17]

During the 6 years from issuance of order No. 455 to its revision in order No. 455-C, the applications requesting optional procedure have become more complex requiring lengthy detailed analysis, and additional information. As well, the contract rate sought has increased dramatically during this time period with producers now seeking to collect substantially higher rates. It has long been recognized that the Commission has the flexibility to adapt its policies to changing circumstances.[18]

Obviously, the consequences of allowing producers to automatically collect their contract rate no matter how high at the expiration of the 9-month period imposes a substantial hardship for the consumer. This would be true even if producers were required, as they were not under order Nos. 455, 455-A and 455-B, to make refunds of amounts collected at the expiration of the 6- to 9-month period in excess of the just and reasonable rate.

As we stated in order No. 455-C:

> The Commission cannot permit consumers to go unprotected during the period of analysis and administrative proceedings necessary to determine the public interest and the necessity of allowing sales of gas at prices substantially in excess of the nationwide norm.[19]

The Administrative Procedures Act recognizes two exceptions to notice and public participation: One is for general statements of policy; the other is for a good cause finding that the procedure is impracticable, unnecessary or contrary to the public interest. The Commission utilized the latter exception.

The Commission did not peremptorily stamp "good cause" on the issuance of order No. 455-C; rather, in compliance with the Administrative Procedure Act, the Commission delineated its good cause findings that notice and public procedure were contrary to the public interest. The Commission stated that it was "concerned that a delay in the effective date of this rule until after public comment would trigger a flood of applications during the comment period from producers wishing to collect contract rates after the 9-month period without refund obligation." [20] The Commission feared that "Such a result would defeat the Commission's purpose of protecting consumers from the economic burden of nonrefundable rate collections in excess of the just and reasonable rate." The Commission feared that it would be so overwhelmed "with § 2.75 applications that existing as well as new applications could not be processed within the 9-month period. [21]

COMPLIANCE WITH DOE ACT

Petitioners contend that the order No.455-C, issued under the "good cause" exception to APA rulemaking regulations is void under section 403(c) of the DOE Act. Section 403(c) provides: "Any function described in section 402 of this Act which relates to the establishment of rates and charges under the Federal Power Act or the Natural Gas Act, may be conducted by rulemaking procedures. Except as provided in subsection (d), the procedures in such a rulemaking proceeding shall assure full consideration of the issues

V 4 3 / 2 0 4 0 C 2 0 7 8

and an opportunity for interested persons to present their views." Section 403(c) has no applicability to order No. 455-C because the Commission was not, in that order, establishing rates. Rather, the Commission was changing certain requirements regarding the time periods for which rates could be collected as well as provisions regarding refunds and surcharges. The rates which would be subject to the order would be established in separate proceedings under the optional procedure provisions of the Commission regulations.

Moreover section 403(c) is not the exclusive authority for the Commission's rulemakings, nor was it relied on in the issuance of the order. With respect to its authority to issue rules, the Commission in order No. 455-C, cited section 16 of the Natural Gas Act and section 401(a) of the Department of Energy Act. Both of these sections authorize the Commission, without qualification, to issue rules and regulations necessary to carry out its functions. Accordingly, it is the Administrative Procedure Act which governed order No. 455-C. As pointed out above, the Commission has complied with that Act.

RATE CERTAINTY

We agree that, at least for the period after the expiration of the 9-month period and prior to the Commission's determination of the just and reasonable rate, the provisions of order No. 455-C will diminish, for a period of time, the assurance to producers of the exact amount of revenues that they may retain. However, since throughout this period the producer will be authorized to keep the amount ultimately determined to be the just and reasonable rate, any asserted rate uncertainty does not really exist within the normal regulatory context. In any event, even if we were to accede to the producer's argument that rate certainty is a significant factor, it must be balanced against a need to adequately protect the consumer against unreasonable charges. The purpose of order No. 455-C was to strike a fair balance between these factors.

Petitioners' concern that our order violates the prohibition against retroactive ratemaking is misplaced. If the 9-month period is extended by us, the collection of the national ceiling rate will involve the collection of a tentative rate, which it is recognized, will be subject to upward adjustment in the event the just and reasonable rate is determined to be higher. It is thus the conditional nature of the rate which takes it out of the posture of retroactive ratemaking. We believe this procedure to be essentially the same as that followed when a producer collects an above ceiling rate, subject to refund. The difference in procedure is that the consumer is not required to pay above ceiling rates pending the Commission's determination, and this is particularly important when the contract is substantially above the ceiling and the volumes are large. Furthermore, our procedure obviates the difficulties involved in the trickling down of refunds to consumers.[22]

COMPLIANCE WITH THE SUNSHINE ACT

Petitioners question the Commission's compliance with the Sunshine Act [23] in the following manner: "To the best knowledge of Applicants, the Commission did not adopt this order during an open meeting as required by the Government in the Sunshine Act, 5 U.S.C.A. 552b, and its own regulations, 18 CFR 1.3a." [24]

In fact, the Secretary of the Commission issued a notice of the meeting on the afternoon of May 19, 1978, in accordance with the Sunshine Act. The meeting was held at 2 p.m., May 19, 1978, in the Commission meeting room, and was, in compliance with the Act, open to the public. The Commission's actions in this matter were in compliance with the Sunshine Act.

MODIFICATION OF ORDER NO. 455-C

The Commission has determined to modify the language of finding clause (1) order No. 455-C to more accurately portray the Commission's position in this matter.

The Commission orders: (A) The requests for clarification, rehearing, and reconsideration filed by Petitioners on June 16, 1978, and June 19, 1978, respectively, are hereby denied based on reasons set forth herein.

(B) The language in finding clause (1) has been modified to read as follows:

Good cause exists to issue this amendment without notice and public procedure. It is contrary to the public interest to provide for notice and public procedure because to do so would deter the Commission's efforts to protect consumers against the collection by producers of rates in excess of the national ceiling rate, without refund obligation and would delay the protection consumers are required to receive under the Natural Gas Act.

By the Commission.

KENNETH F. PLUMB,
Secretary.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 16]

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Subpart K—Income and Exclusions

EXCLUSION FROM INCOME OF ASSISTANCE BASED ON NEED FURNISHED BY STATES OR POLITICAL SUBDIVISIONS

AGENCY: Social Security Administration, HEW.

ACTION: Final rule.

SUMMARY: These rules provide for the exclusion from countable income in the Supplemental Security Income program (SSI) of assistance based on need furnished by a State or local government (including Indian tribes). The requirements that assistance payments must be made in cash to an individual, on a regular basis and in supplementation of an individual's SSI benefits have been removed. Thus payments made to a vendor on behalf of an eligible individual can now be excluded from countable income. For example, payments to providers of food, clothing, and shelter are now excluded if they are based on need.

DATES: These amendments will be effective October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Harry Short, Legal Assistant, 6401 Security Boulevard, Baltimore, Md. 21235, telephone 301-594-7455.

SUPPLEMENTARY INFORMATION: On September 30, 1977, a notice of proposed rulemaking and proposed amendments to subpart K of regulations No. 16 were published in the FEDERAL REGISTER (42 FR 52439).

ASSISTANCE FURNISHED BY A STATE OR POLITICAL SUBDIVISION

Section 1612(b) of the Social Security Act describes what income shall be excluded from countable income in determinations of eligibility for and amount of supplemental security income (SSI) benefits. Section 1612(b)(6) authorizes the exclusion of assistance based on need furnished by a State or local government. Effective October 1, 1976, the original requirements that assistance had to be made in cash to the individual on a regular basis and in supplementation of SSI benefits were removed by section 505(b) of Pub. L. 94-566. This now permits the exclusion of certain State or local government payments which previously resulted in countable income (e.g., foster care payments, adoption subsidies, and other payments to providers of food, clothing or shelter) if they are based on need and are furnished wholly by a State or local government. Since the statute requires that the assistance payments be made by a State or local government, excludable assistance payments still may not include any Federal or private funding.

The original criteria are still used to describe certain State supplementary benefit payments. Technical amendments are also being made in the regulations defining State supplementary payments for purposes of clarity.

COMMENTS ON NOTICE OF PROPOSED RULEMAKING

Interested parties were given the opportunity to submit data, views, or arguments within 45 days with regard to the proposed amendments.

Six agencies submitted comments. A State welfare department and a neighborhood legal aid society endorsed the changes as proposed. An association for the mentally retarded, while endorsing the proposed changes, expressed regret that assistance from a program funded in whole or in part by Federal or nonpublic moneys cannot be excluded from countable income. A State welfare agency, a Federal agency and a State social services agency suggested revisions be made in the regulations to permit the exclusion of Federal moneys and private donations from countable income. The State welfare agency contended that it was not the intention of Pub. L. 94-566 that title XX funds be considered income in determinations of eligibility for and amount of SSI payments. The Federal agency was concerned over the fact that assistance payments it makes are considered income to the recipients. The agency acknowleged that existing laws may not permit the necessary revisions to the regulations.

The above suggestions have not been accommodated since section 1612(b)(6) requires that the assistance be furnished by a State or local political subdivision. This requirement has been interpreted to mean State and local governmental funding which does not include Federal and private moneys. Therefore, this regulation section cannot be revised to permit exclusion of assistance involving Federal or private funds. However, an existing regulation, § 416.1109(b), excludes the value of social services provided under title XX from the definition of income for title XVI purposes. Thus, the suggestions involving title XX funds are accommodated under that section.

The State social services agency also expressed concern that assistance furnished by a State or political subdivision under a program not solely using the person's income as the criterion for eligibility would not be excluded from countable income for SSI purposes. The agency referred to a program in which eligibility for assistance is based upon eligibility for SSI benefits. The amount of assistance given is based on the person's actual situation (for example, a utility arrearage) irrespective of income. These amendments provide for the exclusion from income of assistance provided by a State or political subdivision under a program which uses income, or income and resources, as criteria for determining eligibility for and amount of such assistance. Since eligibility for the program described by the State social services agency is based on eligibility for SSI (which uses an income and resources test) we believe, based on the facts presented, that assistance given under this program would be excludable under 1612(b)(6) and these regulations.

Accordingly, the amendments as proposed are hereby adopted and set forth below.

Secs. 1102, 1612, 1614, 1616, and 1631 of the Social Security Act; 49 Stat. 647, as amended, 86 Stat. 1468, 1471, 1474, and 1475; (42 U.S.C. 1302, 1382a, 1382c, 1382e, and 1383).)

(Catalog of Federal Domestic Assistance Program No. 13 807, Supplemental Security Income program.)

Dated: July 25, 1978.

DON WORTMAN,
Acting Commissioner of Social Security.

Approved: October 11, 1978.

HALE CHAMPION,
Acting Secretary of Health, Education and Welfare.

Part 416 of chapter III of title 20 of the Code of Federal Regulations is amended as follows:

1. Section 416.1145 is amended by revising paragraph (b)(2) to read as follows:

§ 416.1145 Exclusions from income; order of application.

. . . . . .

(b) For the purpose of determining countable income in accordance with § 416.1115, the following income shall be excluded after income described in paragraph (a) of this section:

. . . . . .

(2) Assistance based on need which is furnished by a State or political subdivision (including Indian tribes), or any combination of such jurisdictions (§ 416.1151).

. . . . . .

2. Section 416.1151 is revised to read as follows:

§ 416.1151 State assistance based on need.

(a) Assistance based on need furnished to or on behalf of an eligible individual (and eligible spouse, if any) shall not be considered in determining countable income under title XVI provided:

(1) The assistance is furnished by a State or political subdivision (including Indian tribes) under a program which uses income, or income and resources, as criteria for determining eligibility for an amount of such assistance; and

(2) The assistance payment is funded wholly by a State or by a political subdivision of a State (including Indian tribes), or any combination of such jurisdictions. When Federal or nonpublic moneys are provided for the assistance payment, e.g., when there is a specific Federal/State program of project or formula grants (such as grants-in-aid under title IV-A of the Act), the assistance payment is not funded wholly by a State or a political subdivision.

(b) Any payments which are excluded from countable income under paragraph (a) of this section are also excluded from income to be deemed under § 416.1185 (published as a notice of proposed rulemaking with interim effectiveness at 42 FR 3316 on January 18, 1977).

3. Section 416.2001 is amended by revising paragraph (a) to read follows:

§ 416.2001 State supplementary payments; general.

(a) *State supplementary payments; defined.* State supplementary payments are any payments made by a State or one of its political subdivisions (including any such payments for which reimbursement is available from the Social Security Administration pursuant to Pub. L. 94-23, as amended) to a recipient of supplemental security income benefits (or to an individual who would be eligible for such benefits except for income), if the payments are made:

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 78N-0285]

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Neomycin Sulfate Sterile Solution

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the animal drug regulations for neomycin sulfate sterile solution to indicate those conditions of use for which approval of identical products need not include certain types of efficacy data. Approval may require submission of bioequivalency or similar data. The product was the subject of a National Academy of Science—National Research Council, Drug Efficacy Study Group (NAS/NRC) evaluation.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald A. Gable, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: The Upjohn Co., Kalamazoo, Mich. 49001, is the sponsor of a new animal drug application (NADA 11-953V) which was conditionally approved August 14, 1959. The conditional approval concerned 50 and 200 milligram per milliliter neomycin sulfate sterile solutions for intramuscular, intravenous, or topical use for the treatment of cattle, horses, sheep, swine, dogs, and cats for chronic and acute bacterial infections due to organisms susceptible to neomycin. The status of the application was upgraded to approved on January 5, 1960.

Certain drug products containing neomycin were the subject of an NAS/NRC evaluation published in the FEDERAL REGISTER of August 21, 1970 (35 FR 13403). The Academy evaluated, and the agency concurred, these preparations as probably effective in treating systemic bacterial infections in cattle, horses, sheep, swine, dogs, and cats caused by pathogens sensitive to the drug. The Academy stated that (1) each disease claim should be properly qualified as to the name of disease caused by pathogens sensitive to the drug, and if the claim cannot be so qualified it must be dropped; (2) the minimum inhibitory concentration table tends to be misleading and should be deleted; (3) the labeling should carry a warning concerning curare-like neuromuscular blockade; (4) the inclusive phraseology describing use of the drug tends to be misleading and an overstatement of the activity of the drug; (5) comments relating to development of resistant microorganisms should be rephrased as resistance to neomycin sulfate has been reported more frequently.

This evaluation concerned the drug's effectiveness and safety to the animal to which it is administered. It did not take into account the safety for food use of food derived from drug-treated animals. The August 21, 1970 announcement was published (1) To inform holders of new animal drug applications (NADA's) as to the findings of the Academy and the agency and (2) to inform all interested persons that such articles may be marketed providing they are the subject of an approved NADA and otherwise comply with all other requirements of the Federal Food, Drug, and Cosmetic Act.

The Upjohn Co. responded by submitting a supplement to NADA 11-953V updating its application by providing current information concerning manufacturing and controls and revised labeling. No new efficacy data were required.

The supplement was approved by a regulation published in the FEDERAL REGISTER of November 9, 1971 (36 FR 21405). The regulation (21 CFR 135b.40, recodified 21 CFR 522.1484) did not specify those conditions of use which were NAS/NRC approved—drug uses for which approval of an NADA does not require efficacy data as specified by §§ 514.1(b)(8)(ii) and 514.111(a)(5)(vi) (21 CFR 514.1(b)(8)(ii) and 514.111(a)(5)(vi)) of the animal drug regulations.

This document amends the regulations to indicate those conditions of use for which approvals for identical products need not include certain types of efficacy data required for approval as above. In lieu of those data, approval may require bioequivalency or similar data as suggested in the guideline for submitting NADA's for NAS/NRC reviewed generic drugs, available with the Hearing Clerk (HFA-305), Food and Drug Administration.

In addition, the regulation is editorially revised to reflect current format.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), § 522.1484 is revised to read as follows:

§ 522.1484 Neomycin sulfate sterile solution.

(a) *Specifications.* Each milliliter of sterile aqueous solution contains 50 milligrams of neomycin sulfate (equivalent to 35 milligrams of neomycin base). The neomycin sulfate used in manufacturing the drug conforms to the standards of identity, strength, quality, and purity prescribed by § 444.42a(a)(1) of this chapter.[1]

(b) *Sponsor.* See No. 000009 in § 510.600(c) of this chapter.

(c) *Conditions of use*—(1) *Amount.* 5 milligrams per pound of body weight daily divided into portions administered every 6 to 8 hours for 3 to 5 days.[1]

(2) *Indications for use.* Administer to dogs and cats for the treatment of acute and chronic bacterial infections due to organisms susceptible to neomycin.[1]

(3) *Limitations.* For intramuscular or intravenous use only. Neomycin is not for use parenterally in food-producing animals because of prolonged residues in edible tissues. Labeling shall bear an appropriate expiration date. For use by or on the order of a licensed veterinarian.[1]

Effective date. This regulation shall be effective October 23, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: October 12, 1978.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

PART 524—OPHTHALMIC AND TOPICAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Selenium Disulfide Suspension

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Hart-Delta, Inc., providing for use of a selenium disulfide suspension on dogs as a cleansing shampoo and as an agent for removing skin debris.

[1] These claims are NAS/NRC reviewed and deemed effective. Applications for these uses need not include effectiveness data as specified by § 514.111 of this chapter.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Hart-Delta, Inc., 5055 Choctaw Drive, Baton Rouge, La. 70805, filed an NADA (111-349V) providing for use of a selenium disulfide suspension on dogs as a cleansing shampoo and as an agent for removing skin debris associated with dry eczema and nonspecific dermatoses.

This application concerns a product that is similar to a National Academy of Sciences—National Research Council (NAS/NRC) reviewed product, approval of which is reflected in the regulations in 21 CFR 524.2101. This application is approved on the basis of generic equivalenee to the reviewed product. It conforms to the NAS/NRC panel recommendations published in the FEDERAL REGISTER of September 5, 1970 (35 FR 14168).

Approval of this application does not constitute reevaluation of the NAS/NRC recommendations for use on dogs as a cleansing agent.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of the safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFA-305), Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, from 9 a.m. to 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), part 524 is amended in § 524.2101 by revising paragraphs (b) and (c) (2) to read as follows:

§ 524.2101 Selenium disulfide suspension.

• • • • • •

(b) *Sponsors.* (1) See No. 043731 in § 510.600(c)(2) of this chapter for use as in paragraphs (c)(2)(i) of this section.

(2) See No. 015563 in § 510.600(c)(2) of this chapter for use as in paragraph (c)(2)(ii) of this section.

(c) • • •

(2) *Indications for use.* (i) For use on dogs as a cleaning shampoo and as an agent for removing skin debris associated with dry eczema, seborrhea, and nonspecific dermatoses.[1]

(ii) For use on dogs as a cleansing shampoo and as an agent for removing skin debris associated with dry eczema and nonspecific dermatoses.

• • • • • •

Effective date. This regulation becomes effective October 23, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: October 11, 1978.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

[4110-03-M]

PART 548—CERTIFIABLE PEPTIDE ANTIBIOTIC DRUGS FOR ANIMAL USE

Soluble Bacitracin Methylene Disalicylate and Streptomycin Sulfate Oral Powder

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The regulations are amended to reflect approval of a supplemental new animal drug application (NADA) filed by Pitman-Moore, Inc., providing for the manufacture of bacitracin methylene disalicylate and streptomycin sulfate oral powder from soluble, instead of nonsolubilized, bacitracin methylene disalicylate and for the deletion of certain inactive ingredients.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald A. Gable, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Pitman-Moore, Inc., Washington Crossing, N.J. 08560, filed a supplemental NADA (65-107V) providing for a change in the form of bacitracin methylene disalicylate used in soluble bacitracin methylene disalicylate and streptomycin sulfate oral powder. The original drug formulation contains bacitracin methylene disalicylate which is no longer commercially available. In its place, the sponsor is using soluble bacitracin methylene disalicylate which is the sodium salt of bacitracin methylene disalicylate. Because this change alters the specifications of one of the antibiotics used in this drug, an amendment to the requirements for certification is necessary. In addition, one of the inactive ingredients, sodium saccharin, has been deleted because of questions regarding its safe use. The oral powder containing soluble bacitracin methylene disalicylate, streptomycin sulfate, and carob flour is used for treating dogs for bacterial enteritis and associated diarrhea. The regulation effecting this approval is amended to reflect use of the solubilized form of bacitracin. This approval does not alter the safety and effectiveness of the drug and has not required reevaluation of its safety and effectiveness.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (i), (n), 82 Stat. 347, 350-351 (21 U.S.C. 360b (i), (n))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83), part 548 is amended in § 548.112d by revising the section heading and paragraph (a)(1) and (3) (i) (*a*) and (ii) (*a*) to read as follows:

§ 548.112d Soluble bacitracin methylene disalicylate and streptomycin sulfate oral powder.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Soluble bacitracin methylene disalicylate and streptomycin sulfate oral powder is composed of soluble bacitracin methylene disalicylate and streptomycin sulfate with carob flour and with or without one or more suitable and harmless diluents, colorings, and flavorings. Each gram contains 290 units of soluble bacitracin methylene disalicylate, streptomycin sulfate equivalent of 20 milligrams of streptomycin, and 850 milligrams of carob flour. Its soluble bacitracin methylene disalicylate content is satisfactory if it is 90 to 165 percent of the amount of bacitracin that it is represented to contain. Its streptomycin sulfate content is satisfactory if it is 90 to 125 percent of the amount of streptomycin that it is represented to contain. Its loss on drying is not more than 7.5 percent. The soluble bacitracin methylene disalicylate used conforms to the standards prescribed by § 548.112a of this chapter for soluble bacitracin methylene disalicylate without diluents, and in addition, it passes the safety test. The streptomycin sulfate used conforms to the standards prescribed by § 539.170(a)(1) of this chapter.

• • • • • •

Title 41—Public Contracts and Property Management

CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 3-1—GENERAL

Subpart 3-1.10—Publicizing Procurement Actions

AGENCY: Office of the Secretary, HEW.

ACTION: Final rule.

SUMMARY: The Office of the Secretary, Department of Health, Education, and Welfare, is amending the Departmental procurement regulations by adding a new Subpart 3-1.10, Publicizing Procurement Actions. The new subpart relates the Department's policy with respect to making solicitations available to interested parties and clarifies the Federal Procurement Regulations exemption for synopsizing procurements for services from educational institutions.

The Department is issuing the amendment to insure that interested parties are able to obtain copies of solicitations after procurements are synopsized in the Commerce Business Daily, and to insure that response dates for bids or proposals permit adequate time for an interested party to request and receive a solicitation and to prepare and submit an offer by the closing date. In addition, the Department is proposing a clarification to the exemption for synopsizing procurements for services from educational institutions under § 1-1.1003-2(a)(8). That is, the exemption from the requirement to synopsize is to be applicable only when there is a noncompetitive procurement for services from one educational institution. When more than one educational institution is to be solicited, the procurement is to be synopsized.

EFFECTIVE DATE: This amendment is effective October 20, 1978.

FOR FURTHER INFORMATION, CONTACT:

Ed Lanham, Division of Procurement Policy and Regulations Development, OGP-OASMB-OS, Room 539-H, Hubert H. Humphrey Building, Department of Health, Education, and Welfare, Washington, D.C. 20201, 202-245-6347.

SUPPLEMENTARY INFORMATION: On August 1, 1978, the proposed rule regarding the publicizing of procurement actions was published in the FEDERAL REGISTER (43 FR 33761) inviting public comment by August 31, 1978. As a result, six responses were received, five from educational institutions and one from a private firm.

One of the respondents supported the proposed policy. Another suggested that the response period begin on the date the solicitation synopsis is published in the Commerce Business Daily rather than the date the solicitation is issued. The Federal Procurement Regulations (§ 1-1.1003-6) require that a procuring activity either publicize (synopsize) the proposed procurement in the Commerce Business Daily ten (10) calendar days before issuance of the solicitation or, if this is not feasible, forward the synopsis to the Commerce Business Daily to arrive not later than the date of issuance of the solicitation, and the Department is required to comply with this regulation. In addition, adoption of the suggestion would hamper the procuring activity's issuance of the solicitation because the issuance would be delayed until the procuring activity has verified the date the synopsis has appeared or is appear in the Commerce Business Daily. Therefore, the suggestion was not accepted.

Four of the respondents recommended that the thirty (30) calendar day minimum response period when procuring other than standard commercial articles or services be increased to at least forty-five (45) calendar days. The Department emphasizes that the thirty (30) calendar day response period and the twenty (20) calendar day response period, when procuring standard commercial articles or services, are minimum periods, and the procuring activity has the option of establishing a response period greater than the minimum response period based upon the complexity and the available leadtime of each particular procurement. The Department's basis for establishing the minimum response periods is Federal Procurement Regulations § 1-2.202-1(c) which sets forth the minimal 20 and 30 calendar day response periods. Therefore, the suggestion was not accepted.

The policy regarding the publicizing of procurement actions is finalized as originally stated in the proposed rule. The provisions of the amendment are issued under 5 U.S.C. 301; 40 U.S.C. 486(c).

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Therefore, 41 CFR Chapter 3, is amended in the manner set forth below.

Dated: October 16, 1978.

E. T. RHODES,
Deputy Assistant Secretary for Grants and Procurement.

Under Part 3-1, General, Subpart 3-1.10, Publicizing Procurement Actions, is established. In addition, the table of contents for Part 3-1 is amended to add the following:

Subpart 3-1.10—Publicizing Procurement Actions

Sec.
3-1.1000 Scope of subpart.
3-1.1001 General policy.
3-1.1002 Availability of invitations for bids, requests for proposals, and requests for quotations.
3-1.1003 Synopses of proposed procurements.
3-1.1003-1 [Reserved]
3-1.1003-2 General requirements.

AUTHORITY: 5 U.S.C. 301; 40 U.S.C. 486(c).

Subpart 3-1.10—Publicizing Procurement Actions

§ 3-1.1000 Scope of subpart.

This subpart establishes Departmental policy with respect to making solicitations available to interested parties and synopsizing proposed procurements in the Commerce Business Daily.

§ 3-1.1001 General policy.

It is the Department's policy to conduct its procurements in an open fashion, to make procurements known to the public in a timely manner, to foster open and unrestricted competition, and to allow potential bidders and offerors to participate in the procurement process without artificial restrictions.

§ 3-1.1002 Availability of invitations for bids, requests for proposals, and requests for quotations.

(a) Potential offerors/bidders must be allowed a reasonable period of time in which to prepare and submit a response to a solicitation. As a general rule, the response period is to be at least 20 calendar days when procuring standard commercial articles or services, and at least 30 calendar days when procuring other than standard commercial articles or services. The 20 and 30 calendar day response periods begin on the date the solicitation is issued. The response periods are applicable to all formally advertised and negotiated procurements and for small purchases of $5,000 and above, except in cases of unusual emergency.

(b) As indicated in § 1-1.1002, a reasonable number of copies of each solicitation publicized in the Department of Commerce Synopsis, including specifications and other pertinent information, are to be made available by the issuing office for distribution to requesting parties.

(1) A reasonable number of copies is defined as that number of copies necessary to promptly satisfy all requests received for the first 20 calendar days beginning on the date the solicitation is issued. All requests received during the 20-day periods are to be filled. Requests received after the 20-day periods may be filled on a supply available, first-come, first-served basis. If the supply of solicitations is exhausted after the twentieth day, an interested party requesting a copy should be so notified and advised that a copy of the solicitation is available in the issuing office for viewing.

(2) When response periods of less than 20 days for standard commercial articles or services and less than 30 days for other than standard articles or services are used, all requests received during these shorter than preferred periods are to be promptly filled. If a requestor requires a copy of a solicitation after these periods and the supply is exhausted, the requestor should be so notified.

§ 3-1.1003 Synopses of proposed procurements.

§ 3-1.1003-1 [Reserved]

§ 3-1.1003-2 General requirements.

(a)(1)-(7) [Reserved]

(8) The exemption from the requirement to synopsize in § 1-1.1003-2(a)(8) is applicable only when there is to be a noncompetitive procurement for services from one educational institution. When more than one educational institution is to be solicited, the procurement is required to be synopsized in the Commerce Business Daily.

(5 U.S.C. 301; 40 U.S.C. 486(c).)

[4110-12-M]

MANAGEMENT APPROVAL LEVELS REGARDING DEPARTMENTAL PROCUREMENT ACTIONS

Miscellaneous Amendments

AGENCY: Department of Health, Education, and Welfare.

ACTION: Final rule.

SUMMARY: The Office of the Secretary, Department of Health, Education, and Welfare is amending 41 CFR Chapter 3 to change management approval levels regarding departmental procurement actions. This is in accordance with the Secretary's memorandum of May 18, 1977, entitled "Actions Required to Correct Major Deficiencies in the Contracting and Grant Processes."

A review of management approval levels regarding departmentwide procurement actions revealed that the majority of approvals are being made by the "head of the procuring activity" (HPA), and that the management level of the official designated as the HPA varies throughout the Department's principal operating components and regional offices. The diversity of the HPA designation has resulted in the determination to establish those approval actions at comparable management levels throughout the Department. This serves to introduce uniform control in the procurement process, vest the requisite authority and responsibility for procurement decisionmaking with the appropriate management official, and simplify the procurement process.

In conjunction with the foregoing, the Department is establishing Subpart 3-1.2, Definition of Terms, and is introducing the term "principal official responsible for procurement" to designate the official who is to approve many of the procurement actions previously approved by the HPA.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Ed Lanham, Division of Procurement Policy and Regulations Development, Office of Grants and Procurement, OASMB-OS, Department of Health, Education, and Welfare, Washington, D.C. 20201, 202-245-6347.

It is the general policy of the Department to allow time for interested parties to participate in the rulemaking process. However, since the amendments concern internal administrative procedures, the public rulemaking process was deemed unnecessary in this instance. The provisions of these amendments are issued under 5 U.S.C. 301; 40 U.S.C. 486(c).

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107. Therefore, 41 CFR Chapter 3 is amended as follows:

Dated: October 6, 1978.

E. T. RHODES,
Deputy Assistant Secretary for Grants and Procurement.

PART 3-1—GENERAL

1. Subpart 3-1.2, Definition of Terms, is established under Part 3-1, General. In addition, the table of contents for part 3-1 is amended to add the following:

. . . . .

Subpart 3-1.2—Definition of Terms

Sec.
3-1.200 Scope of subpart.
3-1.250 Principal official responsible for procurement.

. . . . .

Subpart 3-1.2—Definition of Terms

§ 3-1.200 Scope of subpart.

Definitions of commonly used procurement terms are in subpart 1-1.2 of the Federal Procurement Regulations. This subpart sets forth the definitions of other procurement and administrative terms used throughout this chapter.

§ 3-1.250 Principal official responsible for procurement.

The "principal official responsible for procurement" is defined in terms of certain organizational positions within the Office of Management Services (OMS-OS), Office of Facilities Engineering (OFE-OS), Social Security Administration (SSA), Health Care Financing Administration (HCFA), Office of Human Development Services (OHDS), National Institutes of Health (NIH), Health Services Administration (HSA), Health Resources Administration (HRA), Food and Drug Administration (FDA), Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA), Center for Disease Control (CDC), Office of the Assistant Secretary for Health (OASH), Office of Education (OE), National Institute of Education (NIE), and the Regional Offices (RO's), as follows:

OMS-OS—Director, Division of Contract and Grant Operations, OMS-OASMB.
OFE-OS—Director, Office of Facilities Engineering, OASMB.
SSA—Director, Division of Contracting and Procurement, Office of Materiel Man-

agement, Office of Management and Administration.

HCFA—Chief, Contract Branch, Division of Contracts, Grants, and Administrative Services, Office of Management and Budget.

HRA—Director, Division of Grants and Contracts Management, Office of Management.

HSA—Director, Division of Grants and Contracts Management, Office of Management.

NIH—Director, Division of Research Grants, Office of Extramural Research and Training.

OASH—Director, Office of Management.

OE—Director, Grants and Contracts Management Division, Office of Management.

OHDS—Director, Division of Grants and Contracts Management, Office of Management.

§ 3-3.303-51 Determination that the making of advance payments is in the public interest.

The determination required by § 1-

§ 3-3.306-54 [Amended]

11. Section 3-3.306-54 is amended by deleting the first paragraph and substituting the following:

official responsible for procurement (not delegable)."

PART 3-56—GOVERNMENT

the FEDERAL REGISTER (43 FR 33940). Public comments were invited, and one comment was received.

The commenter opposed the incor-

agement, Office of Management and Administration.

HCFA—Chief, Contract Branch, Division of Contracts, Grants, and Administrative Services, Office of Management and Budget.

OHDS—Chief, Contracts Branch, Division of Grants and Contracts Management, Office of Administration and Management.

NIH—Director, Division of Contracts and Grants, Office of Administration (For procurements assigned to the Division of Contracts and Grants); Director, Division of Administrative Services, Office of Administration (For procurements assigned to the Division of Administrative Services).

HSA—Director, Office of Contracts and Grants, Office of Administration.

HRS—Director, Division of Grants and Contracts Management, Office of Administration.

FDA—Director, Division of Contracts and Grants Management, Office of the Associate Commissioner for Administration.

ADAMHA—Director, Division of Grants and Contracts Management, Office of the Administrator.

CDC—Director, Procurement and Grants Office, Office of the Center Director.

OASH—Director, Division of Materiel Management, Administrative Support Center, Office of Management.

OE—Director, Division of Grants and Procurement Management, Office of Management.

NIE—Chief, Contracts and Grants Management Division, Office of Administration and Management.

RO—Director, Regional Administrative Support Center in each Regional Office.

§ 3-1.405 [Amended]

2. Section 3-1.405(b) is amended by deleting the last sentence ("This approval authority shall not be redelegated."), and substituting the following: "This approval authority may be redelegated to a designee not lower than the principal official responsible for procurement."

§ 3-1.5403 [Amended]

3. Section 3-1.5403(a) is amended by deleting the term "head of the procuring activity or his designee" in the next to last sentence, and substituting the following: "principal official responsible for procurement (not delegable)."

PART 3-3—PROCUREMENT BY NEGOTIATION

§ 3-3.303 [Amended]

4. Section 3-3.303 is amended by deleting the first sentence, and substituting the following: "The following determinations and findings shall be made by the head of the principal operating component (POC), or the Assistant Secretary for Management and Budget in cases involving the Office of the Secretary:".

5. Section 3-3.303-51 is deleted in its entirety, and the following is substituted:

§ 3-3.303-51 Determination that the making of advance payments is in the public interest.

The determination required by § 1-3.302(d) that the making of advance payments is in the public interest shall be made by the principal operating component (POC), Office of the Secretary (OS), and Regional Office (RO) officials, as follows:

SSA—Director, Division of Contracting and Procurement, Office of Materiel Management, Office of Management and Administration.

HCFA—Chief, Contract Branch, Division of Contracts, Grants, and Administrative Services, Office of Management and Budget.

OHDS—Director, Division of Grants and Contracts Management, Office of Administration and Management.

PHS—Deputy Executive Officer.

ED—Deputy Assistant Secretary for Management and Budget.

OMS-OS—Director, Division of Contract and Grant Operations, OMS-OASMB.

OFE-OS—Director, Office of Facilities Engineering, OASMB.

RO—Principal Regional Official (PRO) in each Regional Office.

This authority is not delegable by the referenced officials.

§ 3-3.303-52 [Amended]

6. Section 3-3.303-52 is amended to delete the term "head of the procuring activity," in the title, and by substituting the term "principal official responsible for procurement."

7. Section 3-3.303-52(a) is amended to delete the term "head of the procuring activity or his designee [1]" and by substituting the term "principal official responsible for procurement (not delegable):"

8. Section 3-3.303-52(a) is further amended to delete the footnote designation "[1]" in items (1), (3), (6), and (8), and the footnote [1] at the bottom of the page.

§ 3-3.306-50 [Amended]

9. Section 3-3.306-50 is amended by deleting the first sentence, and substituting the following: "Determinations and findings to be made by the head of a principal operating component (POC) or, for OS, the Assistant Secretary for Management and Budget (ASMB) shall be prepared in an original and four copies and forwarded through procurement channels to the POC head or the ASMB."

§ 3-3.306-51 [Amended]

10. Section 3-3.306-51(a) is amended by deleting the heading "Secretarial determinations.", and substituting the term "POC head determinations." In addition, the term "an Assistant Secretary" in the first sentence is deleted, and the term "the head of a POC or the Assistant Secretary for Management and Budget" is substituted.

§ 3-3.306-54 [Amended]

11. Section 3-3.306-54 is amended by deleting the first paragraph and substituting the following:

Each determination to be signed by the officials cited in § 3-3.303-51 shall be accompanied by a briefing letter.

* * * * *

§ 3-3.408 [Amended]

12. Section 3-3.408 is amended by deleting paragraphs (d)(1) and (d)(2) and substituting the following:

* * * * *

(d) *Approval.* (1) Any letter contract which obligates more than 50 percent of the estimated cost of the procurement or provides for a period of effectiveness of more than 90 days must be approved by the appropriate official cited in § 3-3.303-51. (This authority is not delegable.) All requests for approval must be in writing, prepared by the contracting officer, and submitted to the appropriate official through normal procurement channels. Any letter contract which obligates up to 50 percent of the estimated cost of the procurement or provides for a period of effectiveness up to 90 days must be approved by the principal official responsible for procurement (not delegable).

(2) [Reserved]

* * * * *

13. Section 3-3.408(g) is amended by eliminating the first paragraph and substituting the following:

* * * * *

(g) *Approval for modifications to letter contracts.* All letter contract modifications (amendments) must be approved by the appropriate official referenced in paragraph (d)(1) of this § 3-3.408. Requests for authority to issue letter contract modifications shall be processed in the same manner as requests for authority to issue letter contracts (see paragraph (d)(1) of this section) and shall include the following:

* * * * *

PART 3-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

§ 3-4.5101 [Amended]

14. Section 3-4.5101(a) is amended by deleting the phrase in the first sentence, "an official delegated such authority (see Subpart 3-75.3).", and substituting the following: "the principal official responsible for procurement (not delegable)."

PART 3-56—GOVERNMENT PROPERTY

§ 3-56.501 [Amended]

15. Section 3-56.301(a) is amended by deleting the term "head of the procuring activity (§ 3-75.101)" in the second sentence and substituting the term "principal official responsible for procurement (not delegable)."

[4110-12-M]

PROCUREMENT OF DRUGS AND MEDICAL SUPPLIES AND MAXIMUM ALLOWABLE COST FOR DRUG PRODUCTS

Final Rule

AGENCY: Office of the Secretary, HEW.

ACTION: Final rule.

SUMMARY: The Office of the Secretary, Department of Health, Education, and Welfare, is amending its procurement regulations by adding a new Subpart 3-4.61, Procurement of Drugs and Medical Supplies, to consolidate the Department's policies pertaining to the procurement of drugs and medical supplies. The new subpart incorporates the Department's general policy regarding the procurement of drugs, the procurement of drug products classified by effectiveness, and the maximum allowable cost for drug products. As a result of the consolidation, § 3-1.352, Drug products—effectiveness, is deleted. In conjunction with the policy on the maximum allowable cost for drug products, Subpart 3-7.50, Special Contract Clauses, is amended by adding the clause entitled, Maximum Allowable Cost for Drugs.

EFFECTIVE DATE: These amendments are effective October 20, 1978.

FOR FURTHER INFORMATION, CONTACT:

E. S. Lanham, Division of Procurement Policy and Regulations Development, OGP-OASMB-OS, Room 539-H, Hubert H. Humphrey Building, Department of Health, Education, and Welfare, Washington, D.C. 20201, 202-245-6347.

SUPPLEMENTARY INFORMATION: On August 2, 1978, the proposed rule regarding the addition of a new subpart containing the Department's policy on the procurement of drugs and medical supplies was published in the FEDERAL REGISTER (43 FR 33940). Public comments were invited, and one comment was received.

The commenter opposed the incorporation of the sentence, "Only the prescriber may approve 'product shifting' of drugs," in paragraph (b) of § 3-4.6101-1, Policy. Upon evaluation of the commenter's rationale for requesting deletion of the sentence, the Department determined that the sentence was misleading and has removed it from the final regulation.

The provisions of the amendments are issued under 5 U.S.C. 301; 40 U.S.C. 486(c).

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Therefore, 41 CFR Chapter 3, Parts 3-1, 3-4, and 3-7 are amended in the manner set forth below

Dated: October 5, 1978.

E. T. RHODES,
Deputy Assistant Secretary for Grants and Procuremnt.

PART 3-1—GENERAL

Subpart 3-1.3—General Policies

§ 3-1.352 [Deleted]

1. Under Subpart 3-1.3, General Policies, of Part 3-1, General, delete § 3-1.352, Drug products—effectiveness, in its entirety.

PART 3-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

2. Under Part 3-4, Special Types and Methods of Procurement, Subpart 3-4.61, Procurement of Drugs and Medical Supplies, is established. In addition, the table of contents for Part 3-4 is amended to add the following:

* * * * *

Subpart 3-4.61—Procurement of Drugs and Medical Supplies

Sec.
3-4.6100 Scope of subpart.
3-4.6101 Procurement of drugs.
3-4.6101-1 Policy.
3-4.6103 Effectiveness of drug products.
3-4.6103-1 General.
3-4.6103-2 Policy.
3-4.6104 Maximum allowable cost for drugs.
3-4.6104-1 General.
3-4.6104-2 Applicability.

AUTHORITY: 5 U.S.C. 301; 40 U.S.C. 486(c).

Subpart 3-4.61—Procurement of Drugs and Medical Supplies

§ 3-4.6100 Scope of subpart.

This subpart provides policies pertaining to the procurement of drug products and medical supplies by the Department or the Department's contractors.

§ 3-4.6101 Procurement of drugs.

§ 3-4.6101-1 Policy.

(a) Drugs shall be procured at the lowest possible price consistent with acceptable standards of identity, strength, quality, purity, safety, and effectiveness, and with due regard for the welfare of the patient and the professional judgment of the prescriber.

(b) Procuring activities shall ensure that drugs are procured by generic name on a competitive basis whenever it is possible to obtain therapeutically effective equivalent drugs of established quality. However, the professional judgment of the prescriber to request drugs by brand name or house designation must be recognized when the best interest of the patient requires it. Similarly, scientific investigators have the prerogative to request drugs having end-product characteristics considered necessary for the conduct of research or investigations.

§ 3-4.6103 Effectiveness of drug products.

§ 3-4.6103-1 General.

(a) The National Academy of Sciences National Research Council (NAS-NRC) has established effectiveness classifications for the indication of drug products, based upon the following criteria:

(1) Factual information that is freely available in scientific literature;

(2) Factual information that is available from the Food and Drug Administration, the manufacturer, or other sources; and

(3) Experience and informed judgment of the members of NAS—NRC panels.

(b) The indications mentioned in the following categories refer to "the effect the drug purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling." That is, the indications are the claims noted in the labeling of a given drug product.

(1) *Category A.—Effective.* For the presented indication, the drug is effective on the basis of the criteria cited in paragraph (a) of this section.

(2) *Category B.—Probably effective.* For the indication presented, effectiveness of the drug is probable on the basis of the criteria cited in paragraph (a) of this section, but additional evi-

dence is required before it can be assigned to Category A.

(3) *Category C.—Possibly effective.* In relation to the indication in question, there is some evidence to support effectiveness, but adequate and well-controlled studies are lacking.

(4) *Category D.—Ineffective.* In relation to the indication in question, there is no evidence to support effectiveness.

(5) *Category E.—Ineffective.* In relation to the indication in question, there is evidence of ineffectiveness.

(6) *Category F.—Ineffective.* In relation to the indication in question, there is evidence of ineffectiveness, but adequate and well-controlled studies are lacking.

§ 3-4.6103-2 Policy.

(a) Drug products classified by the NAS-NRC as Category A, B, C, or F shall be procured in accordance with § 3-4.6101-1, Policy.

(b) Drug products classified by the NAS-NRC as Category D or E shall not be procured.

§ 3-4.6104 Maximum allowable cost for drugs.

§ 3-4.6104-1 General.

(a) The maximum allowable cost for drug products is established to limit the amount of Federal funds expended for drug products procured by the Department or the Department's contractors.

(b) The maximum allowable cost for drug products is established by the Department's Drug Price Review Committee (DPRC). The DPRC is composed of representatives from the Office of the Secretary, the Health Care Financing Administration, the Health Services Administration, the Public Health Service, and the Social Security Administration.

(c) The DPRC establishes the maximum allowable cost for drug products on the basis of the lowest price available from a responsible source, as determined by the DPRC, which is capable of meeting the Department's requirements.

(d) The DPRC establishes the maximum allowable cost for drug products on a quarterly basis. The DPRC may establish the maximum allowable cost for drug products more frequently when it is necessary to meet the Department's requirements.

(e) The DPRC establishes the maximum allowable cost for drug products by therapeutic category. The DPRC may establish the maximum allowable cost for drug products by individual drug product when it is necessary to meet the Department's requirements.

(f) The DPRC establishes the maximum allowable cost for drug products by dosage form, strength, and package size.

(g) The DPRC establishes the maximum allowable cost for drug products by generic name.

§ 3-4.6104-2 Applicability.

(a) The maximum allowable cost for drug products established by the DPRC is applicable to all procurements of drug products by the Department's contractors.

(c) This regulation does not apply to the procurement of drugs for research

ments in which he stated that if a class A channel were assigned to Solvang, he would not apply for it.

3. Comments were also filed by Cliff

ACTION: Report and order in CT docket 78-266.

SUMMARY: The Commission is

procedures. These have been designed to assure: That effective public notice of new proposals is given; that applications contain full information on the details of system op-

V 4 3 / 2 0 4 0 C 0 2 0 7 8

dence is required before it can be assigned to Category A.

(3) *Category C.—Possibly effective.* In relation to the indication in question, there is little evidence of effectiveness under any of the criteria cited in paragraph (a) of this section. The possibility that additional supporting evidence might be developed should not be ruled out, however.

(d) *Category D.—Ineffective.* In relation to the indication in question, there is no acceptable evidence under any of the criteria cited in paragraph (a) of this section to support a claim of effectiveness.

§ 3-4.6103-2 Policy.

(a) It is the Department's policy to *not* procure drug products classified "ineffective" or "possibly effective" for use in its direct care programs. However, there are two exceptions to this policy:

(1) Drug products categorized as "ineffective" and "possibly effective" may be procured for use in the pursuit of approved clinical research projects.

(2) Drug products categorized as "possibly effective" may be procured when no alternate means of therapy with drug products in the "probably effective" or "effective" categories are available.

(b) This policy applies to similar drug products marketed by the same or other firms.

§ 3-4.6104 Maximum allowable cost for drugs.

§ 3-4.6104-1 General.

(a) The regulation entitled "Limitation on Payment or Reimbursement for Drugs," also known as the Maximum Allowable Cost or MAC regulation, is set forth in Part 19 to Subtitle A of Title 45 of the Code of Federal Regulations.

(b) The MAC regulation established Departmental policies and procedures for determining allowable drug costs and, where applicable, dispensing fees to be used to establish:

(1) Reimbursement to providers and health maintenance organizations under the medicare program;

(2) Reimbursement to States under State administered health, welfare, and social service programs; and

(3) Allowable costs under projects for health services.

§ 3-4.6104-2 Applicability.

(a) This regulation implements the MAC regulation by establishing procurement procedures consistent with the purpose and intent of the MAC regulation.

(b) This regulation applies to the direct procurement of drugs by the Department and the procurement or supply of drugs by the Department's contractors.

(c) This regulation does not apply to the procurement of drugs for research programs made by the Department and its contractors.

PART 3-7—CONTRACT CLAUSES

Subpart 3-7.50—Special Contract Clauses

3. Under Subpart 3-7.50, Special Contract Clauses, of Part 3-7, Contract Clauses, add section 3-7.5021 as follows:

. . . . . .

§ 3-7.5021 Maximum allowable cost for drugs.

The following clause, or one reading substantially as follows, shall be included in all contracts subject to the provisions of the Maximum Allowable Cost regulation and § 3-4.6104.

MAXIMUM ALLOWABLE COST FOR DRUGS

(a) Reimbursement for drugs provided or used under this contract shall be in accordance with the Maximum Allowable Cost (MAC) regulation set forth in 45 CFR Subtitle A, Part 19. In accordance with § 19.3 of the MAC regulation, the amount which is recognized for reimbursement or payment purposes for any drug purchased under the terms of the contract shall not exceed the lowest of:

(1) The maximum allowable cost of the drug, if any, established in accordance with § 19.5 of the MAC regulation plus a reasonable dispensing fee;

(2) The acquisition cost of the drug plus a reasonable dispensing fee; or

(3) The provider's usual and customary charge to the public for the drug: *Provided*, That:

(i) The maximum allowable cost established for any drug shall not apply to a brand of that drug prescribed for a patient which the prescriber has certified in his own handwriting is medically necessary for that patient: *And provided further*, That:

(ii) When compensation for drug dispensing is included in some other amount payable to the provider by the reimbursing or payment program agency, a separate dispensing fee will not be recognized.

(b) The contractor agrees:

(1) To include the following solicitation notification in all applicable solicitations issued under this contract and to ensure that subcontractors include it in any subsequent applicable solicitations:

This procurement is subject to the Maximum Allowable Cost (MAC) regulation set forth in Part 19 to Subtitle A of Title 45 of the Code of Federal Regulations.

(2) To include this clause, including this paragraph (b), in all applicable subcontracts, regardless of tier, awarded pursuant to this contract.

(3) To include the furnished MAC determination or acquisition cost data in all applicable solicitations issued under this contract and in all resultant subcontracts awarded pursuant to this contract.

(5 U.S.C. 301; 40 U.S.C. 486(c).)

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[BC Docket No. 78-152; RM-3004]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Solvang, Calif.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: In response to a petition, the Federal Communications Commission amends its regulations relating to radio broadcast services, by adding to the FM table of assignments Channel 244A as a first assignment at Solvang, California. An FM station will provide that community with a first local aural broadcast service.

EFFECTIVE DATE: November 27, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER

Adopted: October 12, 1978.

Released: October 17, 1978.

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations (Solvang, Calif.), BC Docket No. 78-152, RM-3004.

1. The Commission has before it the *Notice of Proposed Rule Making*, adopted May 16, 1978, 43 FR 23617, in the above-entitled proceeding instituted in response to the petition filed by John C. Butler ("petitioner"). The petition proposed the assignment of Class B FM Channel 233 at Solvang, California, as that community's first FM assignment.

2. The Notice indicated that a basis could not be found for an exception to the policy of assigning class B FM channels only to large communities. Instead, since there was an available class A channel which could provide city-grade coverage to Solvang, we proposed assignment of channel 244A to that community. Petitioner filed comments in which he stated that if a class A channel were assigned to Solvang, he would not apply for it.

3. Comments were also filed by Clifford A. Wagner[1] and Santa Ynez Valley Broadcasting Co. stating that if channel 244A were assigned to Solvang they would apply for it.

4. Solvang (pop. 2,004), in Santa Barbara County (pop. 264,324)[2] is located in the Santa Ynez Valley approximately 160 kilometers (100 miles) northwest of Los Angeles and 40 kilometers (25 miles) northwest of Santa Barbara, Calif. There is no local aural broadcast service in Solvang.

5. We believe the public interest would be served by the assignment of FM channel 244A to Solvang, Calif. Interests have been expressed for the use of a class A channel and an FM station would provide that community with a first local aural broadcast service.

6. Authority for the adoption of the amendment contained herein appears in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

7. *Accordingly, it is ordered*, That effective November 27, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended as it pertains to the community listed below:

City and Channel No.
Solvang, Calif. 244A

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 5, 303, 46 Stat., as amended, 1066, 1068, 1082 (47 U.S.C. 154, 155, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[CT Docket No. 78-206; RM-3102; FCC 78-690]

PART 76—CABLE TELEVISION SERVICES

Cable Television Certificate of Compliance Process

AGENCY: Federal Communications Commission.

ACTION: Report and order in CT docket 78-206.

SUMMARY: The Commission is amending its rules to eliminate the certification procedure for new cable television operations and replace it with a system of registration. This change is in furtherance of the Commission's efforts to deregulate the cable television industry. Adoption of the registration process is intended only to make the initiation of new cable television services more efficient.

EFFECTIVE DATE: October 20, 1978.

ADDRESS: Office of the Secretary, Federal Communications Commission, 1919 M Street NW., Washington, D.C. 20554.

James Ewalt, Cable Television Bureau, 202-632-6468.

In the matter of amendment of part 76 of the Commission's rules and regulations concerning the cable television certificate of compliance process, CT docket No. 78-206,[1] RM-3102. Report and order (proceeding terminated) (43 FR 30845).

Adopted: September 27, 1978.

Released: October 13, 1978.

By the Commission: Commissioner Brown absent.

1. On July 12, 1978, the Commission issued a notice of proposed rulemaking, FCC 78-460, — FCC 2d — (1978), initiating this proceeding to determine whether the present system of prior review and certification of all new cable television operations ought to be eliminated and replaced by a simpler, more efficient process of registration. Comments were received from parties representing cable television interests, television broadcast interests, one State education department, and one municipality. After consideration of the comments we have determined that the certification process should be eliminated and a process of registration adopted instead. Appendix A sets forth the new regulations we are adopting to implement this procedure. Appendix B contains a list of parties filing comments in this proceeding.

2. When the certification process was adopted in 1972 the Commission addressed the question of procedural matters stating:

With the adoption of our new program for cable television, we are also instituting new procedures. These have been designed to assure: That effective public notice of new proposals is given; that applications contain full information on the details of system operation; and that new cable proposals are, without exception, reviewed for consistency with our rules. *Cable Television Report and Order*, FCC 72-108, 36 FCC 2d 143 at paragraph 109 (1972).

We also stated that:

Cable television is an emerging technology that promises a communications revolution. Inevitably, our regulatory pattern must evolve as cable evolves—and no one can say what the precise dimensions will be. *Cable Report and Order, id.*, at par. 189.

We contemplated dynamic procedural regulations changing over time, dependent upon changes within the industry as well as our assessment of the Commission's proper role in the regulatory process. Those procedures adopted in 1972 were thought to be essential at that stage for the "orderly development" of the industry in that they provided a means of obtaining citizen input with respect to the operation of particular cable systems and as a means of screening service proposals prior to the commencement of operations. *Cable Report and Order, id.* In general, it was thought that the process would be a useful complement to the substantive regulatory program. See discussion in notice beginning at paragraph 2.

3. Comments filed in this proceeding were nearly unanimous in recommending some type of overhaul of the certification process. Broadcast interests typically argued that the certification process should not be abandoned but merely streamlined, retaining the notice and service requirements. Most important, they argue, is the need to continue Commission authorization of new services as this facilitates enforcement through forfeiture and may be necessary for copyright purposes. The American Broadcasting Cos., Inc., in its comments further suggest that it would be premature to abandon certification at this time because it would prejudice pending issues regarding cable television's public interest responsibilities and the scope of the Commission's authority to impose such obligations. Cable television interests on the other hand enthusiastically support elimination of the certification process and propose replacing it with a process of simple registration. They argue that certification no longer serves its purpose and imposes unjustified delays and cost burdens on the initiation of new cable services. Others commenting also agree that the process should be revamped, but argue strongly for retention of a public notice procedure whereby interested parties may learn of new cable services.

[1] Although Wagner's comments were received after the expiration date for filing reply comments, we see no purpose in rejecting this pleading only to require a refiling of these comments for action. There has been no objection to our acceptance of this pleading and no other parties would be affected thereby. Therefore, we have accepted this pleading for our consideration.

[2] Population figures are taken from the 1970 U.S. census.

[1] This *Report and Order* also constitutes a partial decision with respect to petitions for reconsideration of our *Report and Order in Docket 21002*, FCC 77-530, 66 FCC 2d 380 (1977). See footnote 4 below. For that reason, copies of this decision will be filed in docket 21002 and the Secretary of the Commission is directed to serve copies on all parties to docket 21002.

4. The notice in this proceeding set forth a number of reasons why the certification process was no longer believed to be efficiently serving its intended purposes and why the whole tern must evolve as cable evolves." *Cable Television Report and Order, supra*, at paragraph 189. The speed with which new operations have commenced has not matched our expecta- cable television industry, particularly through deletion of those complex "leapfrogging" rules regulating from which markets particular signals had to be selected and the elimination of

access statement, which secured compliance with our rules. In sum, we have considered the substance of the reconsideration petitions and find nothing in them that would dissuade promptly process all applications filed, delays of this length would be hard to avoid considering the time involved in preparing the application and the delays built into the process by the re- from the cable industry strongly favor a simple process of registration patterned after that presently used for cable systems serving fewer than 1,000 subscribers. While limited notice and

4. The notice in this proceeding set forth a number of reasons why the certification process was no longer believed to be efficiently serving its intended purposes and why the whole process was in need of reexamination. In general, we expressed the feeling that whatever benefits there were in the process had come to be more than outweighed by the costs it imposed on the Commission, the cable industry, and the public, especially in light of the other alternative procedures available for obtaining compliance with the rules. The need for a change in this process was largely unchallenged in the comments received. After consideration of these comments and the alternatives available to us, we have determined to delete the existing certificate system and replace it with a registration procedure.

5. This change appears desirable for a number of reasons. First, recent amendments to the Communications Act permitting the imposition of monetary forfeitures on cable operators of up to $20,000 for violations of Commission rules now provide us with a new and significant enforcement tool.[2] Because the procedure for imposing these civil penalties is less cumbersome than previously available means of enforcement, it should provide additional incentives for compliance which greatly diminish the need for a process of prior review and certification. An additional incentive for compliance with the carriage rules is also created by passage of the general copyright law revision under which violations of the Commission's signal carriage rules may also be violations of the copyright law for which harsh penalties may be imposed. These include statutory damages, treble damages, injunctions, the payment of attorney's fees, and criminal sanctions when the violation is willful and "for purposes of commercial advantage or private financial gain." [3]

6. A second factor in the decision to eliminate the certification process concerns the speed with which the cable industry has grown. When the certification process was adopted in 1972, the industry was perceived to be on the brink of a period of very rapid development. We stated at that time that this was a new regulatory program involving many unknowns so that "inevitably, our regulatory pattern must evolve as cable evolves." *Cable Television Report and Order, supra,* at paragraph 189. The speed with which new operations have commenced has not matched our expectations in 1972. Thus, the continued need for an especially close scrutiny of new cable operations as they commence is questionable. The Commission must, in its efforts to best regulate the industry, continually concern itself with the most efficient allocation of its own resources. In view of the slower than anticipated rate of growth of the industry we need not be as concerned as we were in 1972 that developments will be so rapid that they can only be coped with through a prior review process.[4]

7. Another important development supporting our decision to eliminate this process relates to various substantive changes in the rules that have been made since 1972. When first adopted, the process was used, among other things, to review compliance with the franchise standards, the access channel rules, and matters relating to preemptions of local laws or franchise requirements. Since that time we have moved away from our franchise standards, have moved toward making the preemptions self-enforcing, and have reduced the degree to which access matters are considered in the certification process.[5] Other efforts to deregulate the cable television industry, particularly through deletion of those complex "leapfrogging" rules regulating from which markets particular signals had to be selected and the elimination of all of the more complex rules from smaller cable systems (those with under 1,000 subscribers),[6] also mean that there is a reduced likelihood of inadvertent rule violations that might be revealed through a prior review process. This action is, in fact, the culmination of a series of evolutionary steps concerning the certification process which we have taken as greater confidence in our ability to enforce the rules was developed. Among the steps already taken toward a streamlining of the certification rules are the simplified filing requirement adopted in docket 21002, a total exemption from the requirement for smaller systems, and an expedited system for the addition of local signals.[7] This step is a continuation of this process of rule reform.

These arguments were previously considered by the Commission and were rejected for reasons specifically spelled out in the *Report and Order in Docket 21002.* No new fact or argument having been presented, we are not persuaded that our decision in that proceeding was incorrect. On the contrary, our review of *Gill Cable, Inc.* (San Jose, Calif.), FCC 77-683, 66 FCC 2d 515 (1977), the case advanced by the legislative committee to illustrate the need for prior review and approval of cable operators' access plans, strengthens our original skepticism about the value of the deleted requirements. In *Gill Cable,* it was our response to complaints, not our prior review and approval of the operator's

[2] Communications Act Amendments of 1978, Pub. L. 95-234, 92 Stat. 33, amending 47 U.S.C. § 503(b).

[3] General Revision of the Copyright Law, Pub. L. 94-553, 90 Stat. 2041 (1976), 17 U.S.C. 101-810 (1976). The provision of this law that ties the copyright obligations of cable operators to the Commission's signal carriage rules is found in sec. 111(c) (1) and (2). The remedies and penalties for copyright infringements are found in ch. 5 of the statute.

[4] As noted, paragraph 2, supra, in 1972 where we adopted the current cable regulatory approach we anticipated that cable might grow so rapidly that so stringent a measure as prior review and approval of service offerings would be necessary to assure its "orderly development," *Cable Television Report and Order, supra,* at par. 189, and to permit the growth of cable "without jeopardizing the basic structure of over-the-air television." Id., at par. 58 (footnote omitted). In fact, anticipated penetration rates have been far below levels predicted prior to the 1972 *Report and Order.* For example, the 1970 Broadcast Bureau Staff Report, The Economics of the TV-CATV Interface, estimated that 25 percent of TV homes would be connected to cable by 1975, and that an upper limit of 50 percent was reasonable. As of this date, approximately 17 percent of TV homes receive cable service, with the annual increase over the last 6 years averaging less than 2 percent of TV homes. We have recognized, in the *Second Report and Order in Docket No. 20423,* 55 FCC 2d 541 (1975), that "the cable industry has not developed with the speed many had predicted it would * * *."

[5] The franchise standards were largely deleted, along with the requirements relating to review of access channel proposals and franchise consistency statements in the certification process, in the *Report and Order in Docket 21002, supra.* Reconsideration of that decision insofar as it related to changes in the certification process (sec. 76.13) has been sought by the Legislative Committee of the Philadelphia Community Cable Coalition et al. In order to avoid any appearance that our present action forecloses a positive response to that petition without its merits have been considered and in accordance with footnote 13 of the notice in this proceeding we believe it appropriate to consider and resolve that portion of the legislative committee's reconsideration petition here. Restoration of those certification requirements that were deleted in docket 21002 is basically sought on the grounds that they were a useful, unburdensome requirement which protected consumers, eased the Commission's enforcement burden, and served to advise the cable operator of his obligations under the rules.

[6] *Report and Order in Docket 20487,* FCC 75-1409, 57 FCC 2d 625 (1975) (largely deleting the "leapfrogging" rules). *Second Report and Order in Docket 20561,* FCC 78-288, 68 FCC 2d —— (1978) (exempting small systems from franchise and certification requirements, "sports blackout" rules, and distant signal limitations).

[7] *Order,* FCC 73-1214, 43 FCC 2d 1072 (1973) (allowing addition of local signal without certification); *Second Report and Order in Docket 20561, supra* (exempting cable systems with fewer than 1,000 subscribers from the certification process); *Report and Order in Docket 21002, supra* (simplifying the certificate application procedures).

access statement, which secured compliance with our rules. In sum, we have considered the substance of the reconsideration petitions and find nothing in them that would dissuade us from the action proposed in this proceeding. To the extent those petitions seek rule changes inconsistent with those we are adopting in this proceeding, those petitions are denied.

8. We believe the certification process has largely accomplished the purposes we set out for it in 1972, that is to bring the industry as a whole into compliance with the Commission's regulatory program for cable television. The bulk of applications received today are for changes in already certified systems and reflect a high degree of awareness of the Commission's rules. The remainder of the applications, about 20 percent, are for new cable systems. Of these, almost all are filed by established operators certified for operations elsewhere or who are seeking approval to extend an existing operation into a neighboring community where the permissible signal carriage complement is well known by the applicant. It is quite unusual, in other words, for a new cable system to be constructed and operated by owners who are inexperienced with our cable regulatory program. At present the staff discovers very few requests for inconsistent signals that are not accompanied by a waiver request. This indicates to us that one of the major functions of the process—to educate the industry with respect to our rules—has been substantially accomplished so that the need for a continuation of this process is greatly diminished.[8]

9. Under the regulatory scheme adopted in 1972 it was intended that "new cable proposals [be] reviewed, *without exception,* for consistency with [the] rules." *Cable Report and Order, supra,* at paragraph 109 (emphasis added). Fully implementing this program of wholesale review proved as recently as 1974 to require a staff of 35 including 27 attorneys. In considering whether to continue the certification process we cannot ignore these very substantial costs nor the additional costs which this process imposes on the public in the form of delays in the receipt of new or improved cable television service. The problem is particularly acute when it is considered that every proposal for new or added service is held up for 2 or 3 months in order that a regulatory action may be taken with respect to a small minority of situations. Even were there adequate staff available to promptly process all applications filed, delays of this length would be hard to avoid considering the time involved in preparing the application and the delays built into the process by the requirement that each application be placed on public notice and held for 30 days before action may be taken. Several operators in their comments produced examples demonstrating that the processing period for consistent, unopposed applications for certificates of compliance often extends for 5 or more months. Several other systems allege that the processing period is even longer, approaching 6 months. Commission backlog figures confirm that there have been delays in the processing of applications, although the length of such delays has varied greatly depending upon the type of application involved and the staff available at any particular time to process the applications. Of course, some potential violations are uncovered through this process, but when the number of such violations is compared to the overall impact of the certification process in delaying service to the public we cannot conclude that a case has been made for its continuation. This is particularly the case when other enforcement tools are available with which to obtain compliance with the rules.

10. In the notice it was suggested that the certification process could be replaced by a simpler procedure whereby cable operators would register with the Commission by providing certain basic information pertaining to the operation and identification of their cable television operations. It was noted that registration already was being used for systems serving fewer than 1,000 subscribers and for systems adding local, "must carry" broadcast stations to their operations. These registration procedures were suggested as possible models for a procedure to replace certification. Generally, broadcast interests argued that adoption of a pure "registration" procedure which lacked Commission review and authorization would jeopardize protections for consumers and communications entities because it fails to provide adequate notice to interested parties and necessary information regarding the impact of nonbroadcast services such as subscription cable television. Most importantly, however, adoption of a registration procedure would impair the Commission's ability to enforce its regulations by eliminating prior review and restricting the use of forfeiture authority. The broadcasters do, however, acquiesce in, and some even detail, a "registration" procedure which is more efficient than the present certification process but which maintains the features noted above. Comments from the cable industry strongly favor a simple process of registration patterned after that presently used for cable systems serving fewer than 1,000 subscribers. While limited notice and service requirements would be acceptable, the operators want most to have eliminated the procedural delays encountered while seeking certification. They argue also that enforcement tools such as forfeiture are available to assure compliance with the regulations.

11. Taking all of the preceding factors into account, we have decided to replace the present system of certification with a simple registration procedure similar to the one employed for smaller cable television systems by present section 76.10 of the rules. Simple registration coupled with public notice will protect the interests of broadcast licensees, local authorities, the public and other interested parties while enabling cable operators to initiate new or different broadcast signals to their communities with a minimum of delay and burden. At the same time the Commission will continue to receive the information it needs to monitor cable operations throughout the country. We do not agree with the charges that this action is premature and neglects our public interest responsibilities. We have not abandoned the substantive provisions of our rules. Rather, we are adopting simpler, more efficient procedures for the initiation of new services, and we will continue our vigorous enforcement of the rules as we seek to fulfill the purposes for which they were adopted.[9]

REGISTRATION AND COMMENCEMENT OF SERVICE

12. Briefly, the registration procedure we are adopting will work as follows: Operators of cable systems commencing operation or adding signals to an existing operation will be required to file certain basic information with the Commission relating to system identification, location, and signal carriage. A separate copy of the registration statement will be required for each community in which service is to be provided. Immediately upon filing

[8] Since March 1972, 12,250 applications for certificates of compliance or interim authorization have been processed. More than 7,500 system community units have been scrutinized at least once.

[9] The Commission enjoys particular leeway, applying its experience and judgment gained in dealing with dynamic conditions, to bring about necessary changes in its procedural rules, as it has done in this proceeding. See, *FCC v. Schreiber,* 381 U.S. 279, 289-90 (1965); also, *American Farmlines v. Black Ball Freight Service,* 397 U.S. 532 (1970). No party can successfully argue that it has any vested right in maintenance of the status quo. Particularly, it is legitimate for the Commission to pursue simplification and ease of administration in its rules. See *CBS Television Network Affiliates Ass'n v. FCC,* 555 F2d 985 (D.C. Cir., 1977) (affirmed revisions in the cable television network nonduplication rules).

V 4 3 / 2 0 4 0 C 0 2 0 7 8

this information, operation may be commenced or new signals added. The filing of this information is solely for the purpose of providing the Commission with certain basic information concerning the identity, location, and operations of cable systems and, in contrast with the certification procedure, does not create a forum in which disputes concerning proposed operations may be resolved. Thus, there will be no requirement that the registration statement be served on any party, nor will there be any systematic review of the information filed by the Commission's staff to ascertain if the service proposed is in compliance with the rules. Cable operators or others seeking either a variance from or enforcement of the rules will proceed in other forms, not through oppositions to or waiver requests filed with the registration form. See discussion beginning at paragraph 16 herein.

13. The commencement of operation upon filing of the registration will be entirely at the risk of the system operator. If violations are subsequently discovered, appropriate regulatory sanctions, including specifically the imposition of forfeitures and the issuance of cease and desist orders, may be employed. Moreover, the filing of a waiver request by a cable operator or the inclusion of signals whose carriage is not permitted by the rules in a registration statement will not prevent the imposition of sanctions if carriage of such signals is commenced in violation of the rules even if it is subsequently determined that a waiver of the rules is appropriate.

Information To Be Filed

14. Cable operators seeking to register signal carriage will be required to file only basic information relating to their system's identity, location, signal carriage, and equal employment opportunity program.[10] This reflects the Commission's perception of the registration process as an information gathering tool rather than as a forum for resolution of questions concerning the rules. Thus, registration statements should reflect actual signal carriage and not include other signals for which it is hoped that a waiver can be obtained. After a system has registered its signal carriage complement or has previously obtained a certificate of compliance or an interim authorization, additional signals may be registered individually without listing the entire complement of signals. Deleted signals need not be registered. We emphasize that any changes in operator, mailing address, or operational status continue to require submission of the appropriate information pursuant to § 76.400 of the rules. Several comments urge that cable operators be required to submit other information such as nonbroadcast services and penetration rates. We believe this additional information would encumber the registration process, is available from other sources such as the annual reports filed by each system and is not necessary for the purpose of registration. If it will be relevant in another context, that will be the appropriate time to obtain it.

Service and Public Notice

15. A public notice will be issued by the Commission setting forth the details of each cable registration as it is received. There will be no requirement that the registration statement be served on any party. Many of the comments received in this proceeding were addressed to the notice issue and indicate the concern held by those parties for the inclusion of a notice provision as part of any registration procedure. Key Television, Inc., for instance notes that it is a broadcast licensee in a small, highly saturated market, and argues that because cable carriage is so important, notification of the commencement of all new cable operations is imperative. Similarly, the State Education Department of the University of the State of New York, and the city of Seattle Board of Public Works Office of Communications both stress the importance of notice for educational administrations and municipalities. On the other hand, comments from cable operators note the economic and administrative burdens often imposed by the service requirements.[11] We agree that notice is important and, therefore, all registration statements will be placed on public notice. We believe that this simple procedure will be sufficient to protect any legitimate interests which may be affected by a cable system's service proposals and, in consequence, that the extensive service requirements of the past safely may be discontinued. Many who presently must be served (such as grade B licensees) have no direct interest or mandatory carriage rights. The commencement of cable operation or alterations in cable service offerings will almost always be attended by advertising to acquaint the community with its availability. Thus, interested parties, including local authorities, consumers, broadcasters, and educators, will be alerted that a new cable service is being commenced. In addition, the public notice issued by the Commission will provide this information. We emphasize that the purpose of the public notice is informational only and that no rights are dependent upon its issuance.

Special Relief Procedures and Enforcement

16. Even in the absence of our certification process the rules provide ample procedural mechanisms for rule violations to be corrected, disputed questions to be ruled on, and for variances from the rules to be considered. First, those who would seek to have the Commission "waive any provision of the rules relating to cable television systems" or "impose additional or different requirements," may proceed through the special relief procedures specified in § 76.7 of the rules. Under this process direct service of the request must be made on "all interested parties," an opportunity is provided for a reply to the request, and the Commission has the flexibility to act on the matter either on the papers filed or after oral argument or hearing or the filing of such additional written submissions as may be required by the Commission. The same section of the rules also provides a mechanism for issuance of declaratory rulings to resolve complaints or disputed questions. Requests under this section of the rules may be filed simultaneously with the registration statement, but no rights accrue to the petitioner until Commission disposition thereon.

17. Although the Commission will retain full authority to issue temporary orders maintaining the status quo pending resolution of a contested matter, there will be no automatic stay imposed while the matter in controversy is being litigated. Comments from cable operators agree that this change is warranted, particularly in view of the new enforcement tools available to us. Even some broadcast interests, who benefit most from the existing automatic stay process, apparently are more concerned about continued notice and Commission "authorization" than automatic stays. Although the National Association of Broadcasters would impose additional procedural requirements, it agrees that automatic stays may not be necessary. It generally supports the proposal that a system,

upon receipt of timely objection, would be on notice that its carriage on noncarriage of a specific signal or signals might be violative of the Commission's rules. The system then would have the option of continuing carriage of the allegedly illegal signal * * * at the risk of a possible forfeiture or copyright infringement suit in the event of an adverse determination. See comments filed August 14, 1978, p. 4.

[10] We continue to require the filing of this statement because it is a one-time requirement and registration appears to be the most appropriate time for it to be filed.

[11] Sec. 76.13 (f) and (g) requires cable operators to serve copies of certificate of compliance applications on all grade B broadcast licensees, the local superintendent of schools, State and local educational authorities, and the local franchising authority, in addition to broadcast licensees possessing mandatory carriage rights.

In the past the use of such automatic stay process was thought to be necessary for several reasons including the feeling that the cable industry might develop in unforeseeable ways and with such speed that irreparable injury might occur before regulatory relief could otherwise be granted, because the penalties available for use against rule violators were too weak to assure compliance, and because of the difficulties inherent in the withdrawal of service after the public had become accustomed to it. The first two of these considerations now provide much less justification for such a process. The last consideration remains, but does not outweigh, in our opinion, the negative aspects of withholding service from the public whenever an objection of any type is made to that service. Rather, it seems preferable to invoke such a stay either on our own motion or at the request of any party only in those particular situations where its need has been specifically justified.

18. Where rule violations are uncovered they can be addressed either through the issuance of an order to show cause under § 76.9 of the rules or through the imposition of forfeitures. We are in the process of developing and soon will announce specific rules to implement forfeiture authority. Allegations of rule violations need not be formally presented to merit our attention. See § 1.41 of rules.

19. Some parties have questioned the adequacy of forfeitures as an enforcement tool in the absence of the certification process. Under the statute any party that violates a Commission rule but who is not a holder of a "license, permit, certificate, or other authorization issued by the Commission" may not be subject to the payment of any forfeiture until the violation has been formally brought to his attention and the violation has occurred again.[12] We are confident that the forfeiture remedy will prove efficacious even if the less direct approach to its implementation were acquired. Even though our decision here is not dependent upon our interpretation of the procedural steps necessary to impose forfeitures, it appears that it would be useful to advise affected parties of our interpretation of our authority in this area. In our view, the registration statement which the rules will still require of cable operators is a sufficient license or authorization under this section so that a forfeiture may be imposed without the initial warning.[13]

[12] 47 U.S.C. § 503(b)(5).

[13] The meaning of the terms "license, permit, certificate, or other authorization" is not definitively set forth either in the Communications Act or in the legislative history of the Communications Act Revisions of 1978. However, the legislative history indicates that the initial warning approach of section 503(b)(5) was included in the amendments to protect those persons who might not reasonably know they were engaging in an activity regulated by the Commission. See, S. Rep. No. 95-580, 95th Cong., 1st Sess. (1977). Cable operators are presumed to be aware that their activities are regulated as evidenced by the registration filing requirement. Also, the term "license" is defined in the Administrative Procedure Act, 5 U.S.C. 551, as the "whole or a part of an agency permit, certificate, approval, *registration*, charter, membership, statutory exemption or other form of permission." (Emphasis added.)

Rule Changes

20. Adoption of the registration process is intended only to make more efficient the initiation of new cable television services by revising the Commission's procedural rules. It is not intended to alter in any way the substantive provisions of the rules. For example, while an operator no longer is required to submit a franchise for Commission approval prior to commencing operation, the franchise still must conform to the Commission's requirements as set out in the rules. Also, as noted by the Federal Aviation Administration representative to the Interdepartmental Radio Advisory Committee, this new procedure does not relieve the operator of the requirements imposed by §§ 76.610 and 76.611 of the rules relating to notification of operations in the frequency bands 108-136 and 225-400 MHz. Likewise, adoption of the registration process in no way constitutes a change in our concern that certain areas of regulation remain free from additional requirements imposed by local regulatory authorities. Thus, the registration process will produce some procedural changes to the extent that judgments previously made during the certificating process, such as signal carriage consistency and franchise fee limitations, now will be made in either a special relief or enforcement context. With respect to comments from noncommercial educational interests, arguing against the proposed change to a registration procedure, we do not believe the rule we are adopting works a substantive alteration in the manner of affording economic protection to educational stations, as approved in *Colby-Bates-Bowdoin Educational Foundation, Inc. v. FCC*, 574 F. 2d 639 (1st Cir. 1978). Nevertheless, it is apparent that some procedural changes are affected. The educational television commentors have argued that deletion of prior, personal notification to them of new or added cable television importation of distant competing signals, together with a decision to allow immediate startup of those services, will impact their flow of local contributions and audience shares. Moreover, they argue, startup prior to adjudication of any objections to that service will establish equities in carriage and viewing patterns which will be reluctantly rescinded after a final decision. In answer, we first point out that the actual process open to educators for voicing opposition has changed little under the new rule. The objections allowed under §§ 76.59(c) and 76.61(d) of the rules have always been implemented pursuant to the special relief provisions and burdens of § 76.7, just as will be the case under the registration process. The differences under the new rule have to do with the manner of receiving notice, and the time at which opposition may be filed. As to notice, now educators, as well as all others, will need to follow the Commission public notices of registration filings in order to become aware of signal carriage information, in addition to reviewing the annual report filings of cable systems. Nothing in the comments or our experience has indicated that this notice process change will work hardships. The effect of the rule probably more important to educators is that they cannot delay startup of new or increased cable services simply by filing their § 76.7 oppositions. The reason for this change has been procedural, and not intended to alter either burdens or substance of protection. We will continue, under the pattern explained in *Colby-Bates, supra*, to be solicitous of the special needs of educational stations, audiences. However, we do not believe, nor have we been shown in this proceeding, that this change denigrates their interests. The comments have acknowledged the opportunity for abuse of process under the former rule allowing an initial procedural stay of cable service. See Public Broadcasting Service Comments, August 14, 1978, at 9.

We believe that the interests of educational stations' viewers can be adequately assessed and protected, as needed, under this rule. We would note that they already have the capability under current procedures—§ 76.7 and related sections—to make requests for stay of cable carriage of competing educational signals. We will give such filings the scrutiny they warrant, in light of the concerns espoused by these stations. In addition, if it appears, from our experience with and application of the new rule to educational stations' circumstances, that modification of the rule is necessary, we will be amenable to reasonable amendment of the process.

Pending Applications

21. Those cable systems with certificate of compliance applications presently pending before the Commission will be considered to have registered and are free to initiate their new operations to the extent they are consist-

ent with the rules, as of the effective date of the adoption of these new procedures. Applications for certificates contain the information required for registration and, therefore, no need

paragraph (q) above, unless novel questions of fact, law, or policy which cannot be resolved under outstanding precedents and guidelines are involved.

ent with the rules, as of the effective date of the adoption of these new procedures. Applications for certificates contain the information required for registration and, therefore, no need exists to have these systems refile. This should ameliorate the exisitng "backlog" problems.[14] Requests for special relief contained in applications or objections to consistent service will be identified and processed as special relief matters. Systems previously certified will be considered to have registered and no further filings, other than required annual reports, will be necessary until new signals are added to their operations.

22. Because the action in this proceeding relieves a restriction imposed on the initiation of new cable television operations, we are advancing the effective date so that the registration procedure adopted herein is effective immediately upon publication in the FEDERAL REGISTER.[15]

Authority for the amendments to the rules adopted in the appendix attached hereto is contained in sections 2, 3, 4 (i), and (j), 301, 303, 307, 308, 309, 315, and 317 of the Communications Act of 1934, as amended.

Accordingly, *it is ordered*, That part 76 of the Commission's rules and regulations is amended, effective October 20, 1978, as set forth below. *It is further ordered*, that this proceeding is terminated.

(Secs. 2, 3, 4, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085, 1088, 1089 (47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309 315, 317).)

FEDERAL COMMUNICATIONS COMMISSION,
WLILLIAM J. TRICARICO,
Secretary.

1. In § 0.288 paragraph (d) is amended to delete "76.20" after the words "as provided in § 76.8"; paragraph (i) is amended to delete "certificates" after the words "conditions in permits"; paragraph (k) is amended to delete "certificates" after the words "and to cancel"; paragraphs (r), (s), and (t) are deleted and paragraph (u) is amended to read as follows:

§ 0.288 Authority delegated.

• • • • • •

(u) To act on petitions for special relief subject to the limitations of paragraph (q) above, unless novel questions of fact, law, or policy which cannot be resolved under outstanding precedents and guidelines are involved.

• • • • • •

§ 76.7 [Amended]

2. Section 76.7(i) is deleted.

3. Subpart B is renamed "Registration Statements."

§ 76.10 [Deleted]

4. Section 76.10 is deleted.

§ 76.11 [Deleted]

5. Section 76.11 is deleted.

6. A new § 76.12 is added as follows:

§ 76.12 Registration statement required.

A system community unit shall be authorized to commence operation or add a television broadcast signal to existing operations only after filing with the Commission the following information:

(a) The legal name of the operator, entity identification or social security number, and whether the operator is an individual, private association, partnership, or corporation. If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;

(b) The assumed name (if any) used for doing business in the community;

(c) The mail address, including ZIP code, and the telephone number to which all communications are to be directed;

(d) The date the system provided service to 50 subscribers;

(e) The name of each separate community or area served and the county in which it is located;

(f) The television broadcast signals to be carried which previously have not been certified or registered; and

(g) A statement of the proposed community unit's equal employment opportunity program, as described in § 76.311, unless such program has previously been filed for the community unit or is not required to be filed by § 76.311 (d) and (g) basing this conclusion on the anticipated number of full-time employees during January, February, and March of the year following commencement of operations. If no program statement is filed, an explanation must be submitted.

§ 76.13 [Deleted]

7. Section 76.13 is deleted.

8. A new § 76.14 is added as follows:

§ 76.14 Who may sign registration statements.

(a) Registration statements shall be personally signed by the operator; by one of the partners, if the operator is a partnership; by an officer, if the operator is a corporation; by a member who is an officer, if the operator is an unincorporated association; or by any duly authorized employee of the operator.

(b) Registration statements may be signed by the operator's attorney in case of the operator's physical disability or of his absence from the United States. The attorney shall in that event separately set forth the reasons why the registration statement was not signed by the operator. In addition, if any matter is stated on the basis of the attorney's belief only (rather than his knowledge), he shall separately set forth his reasons for believing that such statements are true.

§ 76.16 [Deleted]

9. Section 76.16 is deleted.

10. A new § 76.17 is added to read as follows:

§ 76.17 Public notice.

The Commission will give public notice of the filing of registration statements.

§ 76.18 [Deleted]

11. Section 76.18 is deleted.

§ 76.20 [Deleted]

12. Section 76.20 is deleted.

§ 76.25 [Deleted]

13. Section 76.25 is deleted.

§ 76.27 [Deleted]

14. Section 76.27 is deleted.

15. Section 76.29(a) is amended to delete "pursuant to a valid certificate of compliance" after the words "for operations not authorized" and substitute "by the Commission's rules," and paragraph (b)(7) is amended to read as follows:

§ 76.29 Special temporary authority.

• • • • • •

(b) • • •

(7) A certificate of service on all interested parties.

• • • • • •

§ 76.57 [Amended]

16. Section 76.57(c) is amended to delete "approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission"; and paragraph (d) is amended to delete "Commission notification or approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission."

[14] On Aug. 17, 1978, the National Cable Television Association filed a "Petition for Adoption of Interim Processing Procedures" for processing certificate of compliance applications pending our decision in this proceeding. We believe our action today eliminates any excess burden on systems with pending applications by immediately granting them "registered" status, and, therefore, we are denying the petition.

[15] See, Administrative Procedure Act, 5 U.S.C. 553(d)(1).

§ 76.59 [Amended]

17. Section 76.59(d)(3) is amended to delete "approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission", and paragraph (d) (1), (2), and (4) is amended to delete "Commission notification or approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission."

§ 76.61 [Amended]

18. Section 76.61(e)(3) amended to delete "approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission", and paragraph (e) (1), (2), and (4) is amended to delete "Commission notification or approval in the certificating process" after the words "shall not require prior" and substitute "registration with the Commission."

19. Section 76.65(a) is revised to read as follows:

§ 76.65 Grandfathering provisions.

(a) The provisions of §§ 76.57, 76.59, 76.61, and 76.63 shall not require the deletion of any television broadcast or translator signals which a community unit was authorized to carry or was lawfully carrying prior to March 31, 1972: *Provided, however,* That if carriage of a signal has been limited by Commission order to discrete areas of a community, any expansion of service will be subject to the appropriate provisions of this subpart. If a community unit is authorized to carry signals, either by virtue of specific Commission authorization or otherwise, any other community unit already operating or subsequently commencing operations in the same community may carry the same signals. (Any such new community unit shall, before instituting service, register with the Commission if otherwise required by § 76.12.)

• • • • • •

20. Section 76.305(a)(9) is added to read as follows and in paragraph (c) the first sentence is revised to delete the words "or until the system receives a certificate or certificates of compliance from the Commission occasioned by a local franchise review, whichever occurs later.

§ 76.305 Records to be maintained locally by cable television system operators for public inspection.

(a) • • •

(9) A copy of every registration statement filed with the Commission pursuant to § 76.12 of the rules.

• • • • • •

§ 76.400 [Amended]

21. The "note" in § 76.400 is amended to delete "during preoperational certification" after the words "routinely assigned" and substitute "upon registration."

Title 30—Mineral Resources

CHAPTER II—U.S. GEOLOGICAL SURVEY, DEPARTMENT OF THE INTERIOR

PART 211—COAL MINING OPERATING REGULATIONS

AGENCY: Geological Survey, Interior.

ACTION: Revision of regulations.

SUMMARY: On August 22, 1978, final rules were published in the FEDERAL REGISTER (43 FR 37181) revising departmental existing Federal coal mining operating regulations (30 CFR Part 211) to comply with the requirements of section 523 of the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87. Section 211.75(c)(3) of the final regulations, relating to the modification of cooperative agreements in existence on August 3, 1977, pursuant to section 523(c) of the Act, provides that modification of such existing agreements must be agreed to within 60 days of the date of publication of the revised regulations. The purpose of this amendment is to extend the period for reaching an agreement to 90 days from the date of publication of the final rules in the FEDERAL REGISTER.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Chedville L. Martin, Staff Attorney, Division of Surface Mining, Office of the Solicitor, 202-343-5207.

SUPPLEMENTARY INFORMATION: Section 523(c) of the Surface Mining Control and Reclamation Act authorizes States with cooperative agreements existing on the date of enactment which provide for State regulation of surface coal mining and reclamation operation on Federal lands to elect to continue such agreements provided they are modified to fully comply with the initial regulatory procedues set forth in section 502 of the Act. Several States have indicated a desire to modify their agreements and the Department is actively engaged in concluding negotiations with these States. However, it has been determined that it is administratively impossible to conclude these negotiations within the 60-day time limit set forth in the rules published on August 22, 1978. The Department believes it is in the public interest to extend the time limit for 30 days.

OTHER INFORMATION: The principal author of this rulemaking is Chedville L. Martin, Staff Attorney, Division of Surface Mining, Office of the Solicitor, 202-343-5207. Under the authority delegated to the Secretary of the Interior by the Mineral Leasing Act of 1920 as amended, and the Surface Mining Control and Reclamation Act of 1977, part 211, chapter II, title 30 of the Code of Federal Regulations is amended as set forth below:

Section 211.75 is amended by revising (c)(3) to read as follows:

§ 211.75 Applicability of State law.

• • • • • •

(c) • • •(3) The Governor of any State that wishes to modify the cooperative agreement existing on August 3, 1977, shall notify the Secretary in writing of the State's intent to modify the cooperative agreement. The notice of intent to modify the cooperative agreement must have been received by the Secretary prior to December 31, 1977, and the modification to the existing cooperative agreement agreed to within 90 days of the date of publication of these regulations. Failure to give notice or to timely complete the modification shall result in termination of any cooperative agreement executed prior to August 3, 1977.

Dated: October 19, 1978.

HOPE M. BABCOCK,
Deputy Assistant Secretary, Energy and Minerals.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 966]

[Amdt. No. 1]

TOMATOES GROWN IN FLORIDA

Notice of Proposed Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed amendment would extend through June 16, 1979, the minimum grade, size, pack, container, marking and inspection requirements effective from October 15 through November 15, 1978, for tomatoes grown in certain counties in Florida. It would promote orderly marketing of such tomatoes by keeping less desirable sizes and qualities from being shipped to consumers.

DATE: Comments due: November 4, 1978.

ADDRESSES: Comments should be sent to: Hearing Clerk, Room 1077-S, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written comments shall be submitted, and they will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: 202-447-6393.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 125 and order No. 966, both as amended (7 CFR 966) regulate the handling of tomatoes grown in designated counties of Florida. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The Florida Tomato Committee, established under the order, is responsible for its local administration.

This notice is based upon recommendations made by the committee at its public meeting in Palm Beach, Fla., on September 8, 1978.

The recommendations of the committee reflect its appraisal of the composition of the 1978-79 crop of Florida tomatoes and the marketing prospects for this season. The proposed regulation is similar to those issued during past seasons and to the temporary regulation in effect during October 15 through November 15, 1978. The proposed grade and size requirements are necessary to prevent tomatoes of lower quality and undesirable size from being distributed in fresh market channels. Such tomatoes are usually of negligible economic value to producers. This would provide consumers with tomatoes of good quality and size throughout the season consistent with the overall quality of the crop. The proposed requirements, including those for containers, container net weights, and size classifications, are intended to standardize shipments in the interest of orderly marketing and to improve returns to growers.

Exceptions would be provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Shipments would be allowed to certain special purpose outlets without regard to minimum grade, size, container or inspection requirements provided that safeguards were used to prevent such tomatoes from reaching unauthorized outlets. Tomatoes for canning are exempt under the legislative authority for this part. Since no purpose would be served by regulating tomatoes used for relief or charity purposes such shipments would also be exempt. Because export requirements differ materially, on occasion, from domestic market requirements such shipments would also be exempt.

The following types of tomatoes would be exempt from these regulations: Elongated types commonly referred to as pear shaped or paste tomatoes, cerasiform type tomatoes commonly referred to as cherry tomatoes, hydroponic tomatoes and greenhouse tomatoes. Such types are generally of good quality, readily identifiable either by their distinctive shapes or container markings and usually comprise a very small part of the total crop. Tomatoes marketed within the regulated area would be unregulated because of an increase in the u-pick type of harvest in Florida production areas close to urban areas and resulting difficulty in obtaining compliance with regulations. The minimum quantity exemption would permit persons to handle up to 60 pounds of tomatoes per day without regard to the requirements of this part. This would reduce the problem of enforcement on small shipments of essentially noncommercial nature. The proposals concerning special pack shipments are intended to help handlers in the production area compete on an equal basis with those outside the area by not requiring reinspection of previously inspected and certified tomatoes when repacked in consumer size packages.

Occasionally individual fruit of several new varieties, including Flora-Dade, may be elongated in shape. This characteristic may be exaggerated by adverse growing conditions. It is anticipated that handlers packing these varieties usually will be able to comply with all provisions of the regulation. However, if situations arise in which the incidence of tomatoes not of the normal globular shape makes sizing in accordance with present grade standards infeasible, the affected varieties could be exempted from the size requirements of the regulation.

The proposed amendment is as follows:

§ 966.317 Handling regulation.

During the period November 16, 1978, through June 16, 1979, no person shall handle any lot of tomatoes for shipment outside the regulated area unless they meet the requirements of paragraph (a) or are exempted by paragraphs (b) or (d).

(a) *Grade, size, container and inspection requirements.* (1) *Grade.* Tomatoes shall be graded and meet the requirements specified for U.S. No. 1, U.S. combination, U.S. No. 2 or U.S. No. 3, of the U.S. standards for grades of fresh tomatoes. When not more than 15 percent of tomatoes in any lot fail to meet the requirements of U.S. No. 1 grade and not more than one-third of this 15 percent (or 5 percent) are comprised of defects causing very serious damage including not more than one percent of tomatoes which are soft or affected by decay, such tomatoes may be shipped and designated as at least 85 percent U.S. No. 1 grade.

(2) *Size.* (i) Tomatoes shall be at least 2$^{2}/_{32}$ inches in diameter and be sized in accordance with § 2851.1859 of the U.S. tomato standards.

(ii) Tomatoes of designated sizes may not be commingled unless they are over 2$^{17}/_{32}$ inches in diameter and each container shall be marked to indicate the designated sizes.

(iii) Only the generic terms as defined in § 2851.1859 may be used to indicate size designations on containers of tomatoes; except that the following abbreviations may be used—SML for small, MED for medium, LG for large, EX LG for extra large, or MAX LG for maximum large.

(3) *Containers.* (i) Tomatoes shall be packed in containers of 20, 30 or 40 pounds designated net weights and comply with the requirements of § 2851.1863 of the U.S. tomato standards.

(ii) Each container shall be marked to indicate the designated net weight and must show the name and address of the shipper in letters at least one-fourth (¼) inch high.

(iii) If the container in which the tomatoes are packed is not clean and bright in appearance without mark, stains, or other evidence of previous use, the lid of such container shall be marked in a principal display area at least 2½ inches high and 4½ inches long with the words "Used Box" in letters not less than 1¼ inches high and the name of the shipper and point of origin in letters not less than ⅜ inch high.

(4) *Inspection.* Tomatoes shall be inspected and certified pursuant to the provisions of § 966.60. Each handler who applies for inspection shall register with the committee pursuant to § 966.113. Handlers shall pay assessments as provided in § 966.42. Evidence of inspection must accompany truck shipments.

(b) *Special purpose shipments.* The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for canning, relief, charity or export if the handler thereof complies with the safeguard requirements of paragraph (c) of this section. Shipments for canning are also exempt from the assessment requirements of this part.

(c) *Safeguards.* Each handler making shipments of tomatoes for canning, relief, charity or export in accordance with paragraph (b) of this section shall:

(1) Apply to the committee and obtain a certificate of privilege to make such shipments.

(2) Prepare on forms furnished by the committee a report in quadruplicate on such shipments authorized in paragraph (b) of this section.

(3) Bill or consign each shipment directly to the designated applicable receiver.

(4) Forward one copy of such report to the committee office and two copies to the receiver for signing and returning one copy to the committee office. Failure of the handler or receiver to report such shipments by signing and returning the applicable report to the committee office within 10 days after shipment may be cause for cancellation of such handler's certificate and/or receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of any such certificate, the handler may appeal to the committee for reconsideration.

(d) *Exemption.* (1) *For types.* The following types of tomatoes are exempt from these regulations: Elongated types commonly referred to as pear shaped or paste tomatoes and including but not limited to San Marzano, Red Top, and Roma varieties; cerasiform type tomatoes commonly referred to as cherry tomatoes; hydroponic tomatoes; and greenhouse tomatoes.

(2) *For minimum quantity.* For purposes of these regulations each person subject thereto may handle up to but not to exceed 60 pounds of tomatoes per day without regard to the requirements of these regulations but this exemption shall not apply to any shipment or any portion thereof of over 60 pounds of tomatoes.

(3) *For special packed tomatoes.* Tomatoes resorted, regraded, and repacked by a handler who has been designated as a "Certified Tomato Repacker" by the committee are exempt from the tomato grade classifications of paragraph (a)(1) and the size classifications of paragraph (a)(2) (except that the tomatoes shall be at least 2$^{2}/_{32}$ inches in diameter) and the container requirements of paragraph (a)(3) if such tomatoes comply with the inspection requirements of paragraph (a)(4).

(4) *For varieties.* Upon recommendation of the committee, varieties of tomatoes that are elongated or otherwise misshapen due to adverse growing conditions may be exempted by the Secretary from the provisions of paragraph (a)(2) *Size.*

(e) *Definitions.* "Hydroponic tomatoes" means tomatoes grown in solution without soil; "greenhouse tomatoes" means tomatoes grown indoors. A "Certified Tomato Repacker" is a repacker of tomatoes in the regulated area who has the facilities for handling, regrading, resorting, and repacking tomatoes into consumer size packages and has been certified as such by the committee. "U.S. tomato standards" means the revised U.S. standards for grades of fresh tomatoes (7 CFR 2851.1855-2851.1877), effective December 1, 1973, as amended, or variations thereof specified in this secton (Title 7, Chapter I, Part 51 was redesignated Title 7, Chapter 28, Part 2851 on June 27, 1977). Other terms in this section shall have the same meaning as when used in Marketing Agreement No. 125, as amended, and this part, and the U.S. tomato standards.

(f) *Applicability to imports.* Under section 8e of the act and section 980.212 "Import regulations" (7 CFR 980.212, as amended; 43 FR 3349) tomatoes imported during the effective period of this section shall be at least U.S. No. 3 grade and at least 2$^{2}/_{32}$ inches in diameter. Not more than 10 percent, by count, in any lot may be smaller than the minimum specified diameter.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

Dated: October 17, 1978.

JOHN J. GARDNER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 982]

FILBERTS GROWN IN OREGON AND WASHINGTON

Proposed Free and Restricted Percentages for 1978-79 Marketing Policy Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would establish free and restricted percentages of 50 percent and 50 percent, respectively, for inshell filberts for the marketing policy year beginning August 1, 1978. The free percentage prescribes the total merchantable supply subject to regulation which may be handled as inshell filberts. The restricted percentage prescribes that portion which must be withdrawn from such handling. The action is taken under the marketing order for filberts grown in Oregon and Washington to promote orderly marketing conditions.

DATES: Written comments to this proposal must be received by November 17, 1978.

ADDRESSES: Written comments should be submitted in duplicate to the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader 202-447-6393.

V 4 3 / 2 0 4 0 C 2 0 7 8

SUPPLEMENTARY INFORMATION: This proposal was recommended by the Filbert Control Board. The Board is established under the marketing agreement, as amended, and order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposed percentages are based upon the following estimates by the Filbert Control Board for the 1978-79 marketing policy year:

	Tons
Inshell supply:	
(1) Total	12,925
(2) Less substandard, etc	1,681
(3) Merchantable production	11,244
(4) Carryover Aug. 1, 1978 of merchantable filberts	58
(5) Supply subject to regulation (item 3 plus item 4)	11,302
Inshell requirements:	
(6) Trade demand	5,800
(7) Carryover July 31, 1979	950
(8) Total	6,750
(9) Less carryover Aug. 1, 1978 not subject to 1978-79 regulation	1,055
(10) Inshell requirements	5,695
Percentage:	
(11) Free percentage (item 10 divided by item 3)	50
(12) Restricted percentage (100 pct minus 50 pct)	50

The free percentage prescribes that portion of the total merchantable supply subject to regulation which may be handled as inshell filberts. The restricted percentage prescribes that portion which must be withheld from such handling. Restricted filberts may be shelled (for domestic or foreign consumption), exported, or disposed of in outlets determined by the Filbert Control Board to be noncompetitive with normal market outlets for inshell filberts.

The proposal is as follows:

§ 982.228 Free and restricted percentages—1978-79 marketing policy year.

The free and restricted percentages for merchantable filberts for the 1978-79 marketing policy year shall be 50 percent and 50 percent, respectively.

Dated: October 16, 1978

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Animal and Plant Health Inspection Service

[9 CFR Part 113]

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Amended Challenge Level; Leptospira Bacterin Standards

AGENCY: Animal and Plant Health Inspection Service (USDA).

ACTION: Proposed rule.

SUMMARY: This proposed amendment would revise the potency test in four standard requirements for leptospira bacterin by increasing the range in titer permitted for the challenge dose from 10-1,000 hamster LD_{50} to 10-10,000 hamster LD_{50}. Failure of the challenge to be within the range of titer permitted by the present standards occurs frequently and requires the test to be repeated. This amendment would reduce the number of retests required by increasing the range in titer permitted for challenge without affecting the validity of the results.

DATE: Comments must be received on or before December 19, 1978.

ADDRESS: Interested parties are invited to submit written data, views, or arguments regarding the proposed regulation to: Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Md. 20782.

FOR FURTHER INFORMATION CONTACT:

Dr. R. J. Price, 301-436-8245.

SUPPLEMENTARY INFORMATION: The present standard requirements for leptospira bacterins require potency tests to be conducted in hamsters using a challenge dose of 10-1,000 hamster LD_{50} for each animal. Failure of the challenge to have a titer within this range requires the test to be designated as a no test and to be repeated.

It is difficult to consistently prepare challenge material that will have a titer within this range because fresh challenge material such as is used here may vary in virulence. Therefore, an exact titer of the materials cannot be determined until the completion of the test. As a result, retests are frequently required.

This amendment would increase the range in titer permitted for challenge in these tests to 10-10,000 hamster LD_{50}. A survey of tests conducted over a 1-year period indicates this increase would reduce the number of retests conducted for these products by licensees by nearly 26 percent.

This reduction in retests would be accomplished without affecting test results since data indicate survival of hamsters in this test is not significantly effected by the titer of the challenge when evaluated in a range of 10-10,000 hamster LD_{50}.

§§ 113.86—113.89 [Amended]

1. The first letter in each word of the headings for §§ 113.86, 113.87, 113.88, and 113.89 are to be capitalized.

2. Section 113.86 would be amended by revising paragraph (c)(3) to read:

§ 113.86 Leptospira Pomona Bacterin.

* * * * *

(c) * * *

(3) *Challenge.* From 14-18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospire pomona* organisms, using a dose of 10-10,000 hamster LD_{50} as determined by titration.

* * * * *

3. Section 113.87 would be anended by revising paragraph (c)(3) to read:

§ 113.87 Leptospira Icterohaemorrhagiae Bacterin.

* * * * *

(c) * * *

(3) *Challenge.* From 14-18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of *Leptospira icterohaemorrhagiae* organisms using a dose of 10-10,000 hamster LD_{50} as determined by titration.

* * * * *

4. Section 113.88 would be amended by revising paragraph (c)(3) to read:

§ 133.88 Leptospira Canicola Bacterin.

* * * * *

(c) * * *

(3) *Challenge.* From 14-18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospira canicola* organisms using a dose of 10-10,000 hamster LD_{50} as determined by titration.

* * * * *

5. Section 113.89 would be amended by revising paragraph (c)(3) to read:

§ 113.89 Leptospira Grippotphosa Bacterin.

* * * * *

(c) * * *

(3) *Challenge.* From 14-18 days postvaccination, challenge each vaccinate and each control intraperitoneally with a suspension of virulent *Leptospira grippotyphosa* organisms using a dose of 10-10,000 hamster LD_{50} as determined by titration.

* * * * *

All written submissions made pursuant to this notice will be made available for public inspection at the address listed in this document during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 12.7(b)).

Done at Washington, D.C., this 16th day of October 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Avian Pox Vaccine Safety Test; Proposed Revision

AGENCY: Animal and Plant Health Inspection Service (USDA).

ACTION: Proposed rule.

SUMMARY: This proposed amendment would revise the standard requirement for avian pox vaccines by adding a new safety test for vaccines that are recommended for use in birds 10 days of age or younger. Since issuance of the present standard requirement, new products have been developed that are recommended for use in birds as young as 1 day of age. This amendment would update the present standard by adding a safety test to evaluate these new products.

DATE: Comments must be received on or before December 19, 1978.

ADDRESS: Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to: Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Md. 20782.

FOR FURTHER INFORMATION CONTACT:

Dr. R. J. Price, 301-436-8245.

SUPPLEMENTARY INFORMATION: The safety test provided in the present standard requirement for avian pox vaccines in § 113.161 was designed for the testing of vaccine that is recommended for use in birds 6 to 8 weeks of age. Since the issuance of this standard, new avian pox vaccines have been developed that are recommended for use in birds as young as 1 day of age. The safety test in the present standard has been found to be unsatisfactory for use in the evaluation of these new products, since it does not make provision for occasional deaths that occur when conducting tests in birds less than 5 days of age that are not attributable to the product. As a result, retests are frequently required.

This amendment would provide a new two-stage safety test for these new products that is designed to be conducted in birds less than 5 days of age. This test would provide a valid evaluation of safety and result in less retesting of product than is required by the present standard.

Some editing changes would also be made for clarity and consistency in the safety test for products recommended for use in older birds.

1. The first letter in each word of the heading for § 113.161 is to be capitalized.

2. Section 113.161 would be amended by revising paragraph (d)(1) to read:

§ 113.161 Avian pox vaccine.

* * * * *

(d) * * *

(1) *Safety test.* Final container samples of completed product from each serial shall be tested to determine whether the vaccine is safe for use in susceptible young birds. Vaccines recommended for use in birds 10 days of age or younger shall be tested in accordance with paragraphs (d)(1) (i), (ii), and (iii) of this section.

(i) Twenty-five susceptible birds 5 days of age or younger, properly identified and obtained from the same source and hatch, shall be vaccinated as recommended on the label, with the equivalent of 10 doses of vaccine each, and the birds shall be observed each day for 14 days. Severe clincial signs or death shall be counted as failures. Two-stage sequential testing may be conducted if the first test (which then becomes stage one) has three failures.

(ii) The results shall be evaluated according to the following table:

CUMULATIVE TOTALS

Stage	Number of birds	Failures for satisfactory serials	Failures for unsatisfactory serials
1	25	2 or less	4 or more.
2	50	6 or less	6 or more.

(iii) If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and may be repeated or, in lieu thereof, the serial declared unsatisfactory.

(iv) Vaccines not recommended for use in birds 10 days of age or younger shall be tested for safety as follows:

Each of twenty-five 3- to 5-week-old, fowl-pox-susceptible birds shall be vaccinated as recommended on the label with the equivalent of 10 doses and observed each day for 14 days. If any of the birds show severe clinical signs of disease or death during the observation period due to causes attributable to the product, the serial is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and may be repeated or, in lieu thereof, the serial declared unsatisfactory.

* * * * *

All written submissions made pursuant to this notice will be made available for public inspection at the address listed in this document during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays), in a manner convenient to the public business (7 CFR 12.7(b)).

Done at Washington, D.C., this 16th day of October 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

[Docket No. 77N-0333]

EXEMPTION FROM PREEMPTION OF STATE AND LOCAL HEARING AID REQUIREMENTS

Applications for Exemption

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: This proposal would deny an exemption from Federal preemption for a New Jersey hearing aid device requirement. The agency issued in the FEDERAL REGISTER of July 28, 1978 (43 FR 33180), a proposed regulation responding to applications from 19 State and local governments, including the State of New Jersey, for exemptions from Federal preemption for hearing aid device requirements. This proposal is in response to a request for an extention of the comment period on that proposal. The request pointed out that the July 28, 1978, proposal filed to address a regulation for which the State of New Jersey had sought exemption from preemption, elsewhere in this issue of the FEDERAL REGISTER is a notice extending the comment period on that proposal.

DATE: Comments by December 19, 1978, proposed effective date of the final regulation based on this proposal is 30 days after the date of publication of the final regulation in the FEDERAL REGISTER.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Joseph M. Sheehan, Bureau of Medical Devices HFK-70), Food and Drug Administration, Department of Health, Education, and Welfare; 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7114.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of July 28, 1978 (43 FR 33180), the Commissioner of Food and Drugs issued a proposed regulation responding to 19 applications for exemption from Federal preemption of State and local hearing aid requirements. The applications were filed under section 521(b) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360k(b)). Interested persons were given until September 26, 1978, to comment on the proposed regulation.

In the same issue of the FEDERAL REGISTER (43 FR 32868), interested persons were given an opportunity to request an oral hearing on the proposed regulation. The Commissioner received several requests for an oral hearing. Subsequently, in the FEDERAL REGISTER of September 22, 1978 (43 FR 43037), the Commissioner announced that the oral hearing would be held on October 31, 1978, and that written notices of appearance should be filed by October 10, 1978.

In the proposal of July 28, 1978, the Commissioner proposed to exempt New Jersey Statutes Annotated, sections 45:9A-23, -24, and -25. Subsequently, it was brought to the attention of the Commissioner that the proposal failed to address one requirement for which New Jersey sought exemption from preemption, namely, chapter 3, section 5 of the rules and regulations adopted pursuant to N.J.S.A. 45:9A-1 et seq.

Chapter 3, section 5, provides that no hearing aid may be sold without a hearing examination including, at a minimum, pure tone air conduction and bone conduction thresholds. The measurements must be conducted in an environment which meets or exceeds the American national standard criteria for background noise in audiometer rooms.

The Commissioner agrees that the July 28, 1978, proposal should have addressed chapter 3, section 5 of the rules and regulations adopted pursuant to N.J.S.A. 49:9A-1 et seq.

The Commissioner has determined that a requirement of an audiological evaluation would create an additional barrier to the receipt of a hearing aid where audiological services are scarce and could increase the cost of obtaining a hearing aid without providing any conclusive assurance that the patient would benefit from amplification. The requirements of chapter 3, section 5, are the equivalent of an audiological evaluation requirement. Therefore, the Commissioner is proposing to deny exemption from preemption for this requirement.

Interested persons may address this issue at the oral hearing on October 31. Anyone who has not yet filed a notice of appearance for the October 31 hearing and who wishes to address this issue may schedule an appearance by telephoning Joseph M. Sheehan at 301-427-7114.

Therefore, under the Federal Food, Drug and Cosmetic Act (secs. 521, 701, 52 Stat. 1055-1056 as amended, 90 Stat. 574 (21 U.S.C. 360k, 371)) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that part 808 be amended by adding new § 808.80 to read as follows:

§ 808.80 New Jersey.

(a) The following New Jersey medical device requirements are enforceable notwithstanding section 521 of the Act, because the Commissioner of Food and Drugs has granted an exemption from preemption under section 521(b) of the Act:

(1) New Jersey Statutes Annotated, section 45:9A-23, on the condition that New Jersey, in enforcing this requirement, applies the definition of "used hearing aid" in § 801.420(a)(6) of this chapter.

(2) New Jersey Statutes Annotated, sections 45:9A-24 and 45:9A-25.

(b) The following New Jersey medical device requirement is preempted by section 521 of the Act and has been denied an exemption from preemption: Chapter 3, section 5 of the rules and regulations adopted under New Jersey Statutes Annotated, section 45:9A-1 et seq.

Interested persons may, on or before December 19, 1978, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the hearing clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

In accordance with Executive Order 12044, the economic effects of this proposal have been carefully analyzed, and it has been determined that the proposed rulemaking does not involve major economic consequences as defined by that order. A copy of the regulatory analysis assessment supporting this determination is on file with the Hearing Clerk, Food and Drug Administration.

Dated: October 16, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 77N-0333]

EXEMPTION FROM PREEMPTION OF STATE AND LOCAL HEARING AID REQUIREMENTS

Applications for Exemption; Extension of Comment period

AGENCY: Food and Drug Administration.

ACTION: Extension of time for Comment.

SUMMARY: This document extends the time for submission of comments of a proposed regulation that would exempt certain State and local hearing aid device requirements from Federal preemption. The agency is taking this action in response to a request for an extension.

DATE: The deadline for written comments is December 19, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Joseph M. Sheehan, Bureau of Medical Devices (HFK-70), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7114.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of July 28, 1978 (43 FR 33180), the Commissioner of Food and Drugs issued a proposed regulation responding to 19 applications for exemption from Federal preemption of State and local hearing aid requirements. The applications were filed under section 521(b) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 360k(b)). Interested persons were given until September 26, 1978 to comment on the proposed regulation. In the same issue of the FEDERAL REGISTER (43 FR 32868), interested persons were given an opportunity to request an oral hearing on the proposed regulation. The Commissioner has received several requests for an oral hearing. Subsequently, in the FEDERAL REGISTER of September 22, 1978 (43 FR 43037), the Commissioner announced that the oral hearing would be held on October 31, 1978, and that written notices of appearance should be filed by October 10, 1978.

The Commissioner has received a request for a 60-day extension of the comment period. The request pointed out that the proposed regulation is of major importance requiring the broadest possible public input. The request also pointed out that the proposed regulation failed to address a requirement for which the State of New Jersey had sought exemption from preemption. Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner issues a proposed regulation addressing that New Jersey requirement.

The Commissioner agrees that an extension of the comment period is in order.

Therefore, under the Federal Food, Drug and Cosmetic Act (secs. 521, 701, 52 Stat. 1055-1056 as amended, 90 Stat. 574 (21 U.S.C. 360k, 371)) and under authority delegated to him (21 CFR 5.1), the Commissioner hereby extends the comment period to December 19, 1978. This extension will enable interested persons to comment on all issues with respect to exemptions from Federal preemption of State and local hearing aid device requirements.

Interested persons may, on or before December 19, 1978, submit to the Hearing (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding exemptions from preemption of State and local hearing aid device requirements. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in the brackets in the heading of this document. Received comments may be seen in the above office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: October 16, 1978.

WILLIAM F. RANDLOPH,
Acting Associate Commissioner for Regulatory Affairs.

[7550-01-M]

NATIONAL MEDIATION BOARD

[29 CFR Part 1206]

REPRESENTATION DISPUTES TIME LIMITS ON APPLICATIONS

AGENCY: National Mediation Board.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The proposed text eliminates the note to § 1206.4(b) of the National Mediation Board Rules. The effect of such action is to make the time limits on applications for the investigation of representation disputes applicable to employees who are unrepresented for purposes of collective bargaining. The proposed text also makes certain grammatical changes in the existing text of rule 1206.4. The effect of the changes is to clarify the meaning of the rule.

DATES: Consideration will be given to all written comments received on or before December 19, 1978.

ADDRESS: Written comments should be addressed to Mr. Rowland K. Quinn, Jr., Executive Secretary, National Mediation Board, Washington, DC 20572.

FOR FURTHER INFORMATION CONTACT:

Rowland K. Quinn, Jr., Executive Secretary, National Mediation Board, telephone: 202-523-5920.

SUPPLEMENTARY INFORMATION: These proposed regulations are issued pursuant to the authority of 44 Stat. 577, as amended, 45 U.S.C. 151 et seq.

By direction of the National Mediation Board.

Dated: October 17, 1978.

ROWLAND K. QUINN, JR.,
Executive Secretary.

It is proposed that 29 CFR 1206.4 be amended to read as follows:

§ 1206.4 Time limit on applications.

Except in unusual or extraordinary circumstances, the National Mediation Board will not accept an application for investigation of a representation dispute among employees of a carrier:

(a) For a period of two (2) years from the date of a certification covering the same craft or class of employees on the same carrier, and

(b) For a period of one (1) year from the date on which:

(1) The Board conducted an election among the same craft or class of employees on the same carrier and less than a majority of eligible voters participated in the election; or

(2) The Board dismissed a docketed application covering the same craft or class of employees on the same carrier

V 4 3 / 2 0 4 0 OCT 20 1978

because no dispute existed as defined in § 1206.2 of these rules; or

(3) The applicant withdrew an application covering the same craft or class of employees on the same carrier after the application was docketed by the Board.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 1880]

FINANCIAL ASSISTANCE, LOCAL GOVERNMENTS

Loans for Relief From Mineral Development Impacts

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rulemaking.

SUMMARY: Section 317(c) of the Federal Land Policy and Management Act of 1976, as amended, authorizes the Secretary of the Interior to make loans to qualified States and their political subdivisions to relieve the adverse impacts which may result from the development of mineral deposits leased under the Act of February 25, 1920, as amended. This proposed rulemaking provides the procedure under which the loans may be made.

DATE: Comments requested by November 20, 1978.

ADDRESS: Send comments to: Director (210), Bureau of Land Management, 1800 C Street NW., Washington, D.C. 20240.

Comments will be available for public review in room 5555 of the above address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Robert C. Bruce, 202-343-8735.

SUPPLEMENTARY INFORMATION: Section 317(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1747), as amended by the Act of August 20, 1978 (Pub. L. 95-352), authorizes the Secretary of the Interior to make loans to those States and their political subdivisions that qualify under the provisions of the section. The loans are to be used to relieve social and economic impacts that result from the development of mineral deposits leased under the Act of February 25, 1920, as amended (30 U.S.C. 181 et seq.). This does not cover the lease of mineral deposits on the Outer Contenental Shelf. The proposed rulemaking establishes the procedure under which States and their political subdivisions will apply for loans to relieve social and economic impacts resulting from the leasing and development of Federal mineral resources.

The loan program will be dependent on the amount of money, if any, appropriated by the Congress in any given fiscal year for such a program even though the loans are repaid out of the receipts paid the States under the provisions of section 35 of the Act of February 25, 1920.

The principal author of this proposed rulemaking is Mr. Robert C. Bruce of the Division of Legislation and Regulatory Management, assisted by the Divisions of Budget and program Development and Finance, all of the Bureau of Land Management.

It is hereby determined that the publication of this document is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required. The Department of the Interior has determined that this document is not a significant regulatory action requiring the preparation of a regulatory analysis under Executive Order 12044.

Pursuant to the authority of section 317(c) of the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1740), it is proposed to amend part 1880, group 1800, subchapter A, chapter II of title 43 of the Code of Federal Regulations by adding a new subpart 1882 as set forth below:

Subpart 1882—Mineral Development Impact Relief Loans

Sec.
1882.0-1 Purpose.
1882.0-2 Objective.
1882.0-3 Authority.
1882.0-5 Definitions.
1882.1 Loan fund, general.
1882.2 Qualifications.
1882.3 Application procedures.
1882.4 Allocation of funds.
1882.5 Terms and condition.
1882.5-1 Tenure of loan.
1882.5-2 Interest rate.
1882.5-3 Limitation on amount of loans.
1882.5-4 Loan repayment.
1882.5-5 Security for a loan.
1882.5-6 Use of loan.
1882.5-7 Nondiscrimination.
1882.5-8 Additional terms and conditions.
1882.6 Loan renegotiation.
1882.7 Inspection and audit.

AUTHORITY: Sec. 317(c), Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1740) (90 Stat. 2767).

Subpart 1882—Mineral Development Impact Relief Loans

§ 1882.0-1 Purpose.

The purpose of this subpart is to establish procedures to be followed in the implementation of a program under section 317 of the Federal Land Policy and Management Act to make loans to qualified States and their political subdivisions.

§ 1882.0-2 Objective.

The objective of the program is to provide financial relief through loans to those States and their political subdivisions that are experiencing adverse social and economic impacts as a result of the development of Federal mineral deposits leased under the provisions of the Act of February 25, 1920, as amended.

§ 1882.0-3 Authority.

Section 317(c) of the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1744), authorizes the Secretary of the Interior to make loans to States and their political subdivisions to relieve social or economic impacts resulting from the development of Federal minerals leased under the Act of February 25, 1920 (30 U.S.C. 181 et seq.).

§ 1882.0-5 Definitions.

As used in this subpart, the term:

(a) "Secretary" means the Secretary of the Interior.

(b) "Director" means the Director, Bureau of Land Management.

(c) "Act" means the Act of February 25, 1920, as amended (30 U.S.C. 181).

§ 1882.1 Loan fund, general.

Funds appropriated by Congress for loans for relief of adverse social and economic impacts resulting from the development of Federal mineral deposits leased and developed under the Act may be made to those States and their political subdivisions who qualify under this subpart. Such loans may be used for: (a) Planning, (b) construction and maintenance of public facilities, and (c) provisions for public services.

§ 1882.2 Qualifications.

(a) Any State or any political subdivision of a State receiving payments from the Federal Government under the provisions of section 35 of the Act that can document to the satisfaction of the Director that it has suffered or will suffer adverse social and economic impacts as a result of the leasing and development of Federal mineral deposits under the provisions of the Act shall be considered qualified to receive loans made under this subpart.

(b) A loan to a qualified political subdivision of a State receiving payment from the Federal Government under the provisions of section 35 of the Act shall be conditioned upon a showing of proof, satisfactory to the Director, by the political subdivision that it has a pledge from the State of sufficient funds from the payments made under section 35 of the Act to the State to secure the payment of the loan.

§ 1882.3 Application procedures.

No later than October 1 of the fiscal year in which a loan is to be made, the State or its political subdivision shall submit a letter signed by the authorized agent requesting a loan. The authorized agent shall furnish proof of authority to act for the State or political subdivision with the application. Such letter shall constitute a formal application for a loan under this subpart and shall contain the following:

(a) The name of the State or political subdivision requesting the loan.

(b) The amount of the loan requested.

(c) The name, address, and position of the person in the State or political subdivision who is to serve as contact on all matters concerning the loan.

(d) A description and documentation of the adverse social and economic impacts suffered as a result of the leasing and development of Federal mineral deposits.

(e) An analysis and documentation of the additional expenses generated as a result of the leasing and development of Federal minerals.

(f) Proposed uses of the funds derived from the loan.

(g) The Director may request any additional information from the applicant that is needed to properly act on the loan application. The applicant shall furnish such additional information in any form acceptable to the applicant and the Director. No loan shall be granted unless such additional information is timely received by the Director.

§ 1882.4 Allocation of funds.

If applications for loans exceed the funds appropriated for such purpose, loans shall be allocated among the States and their political subdivisions in a fair and equitable manner, after consultation with the Governors of the affected States, giving priority to those States and political subdivisions suffering the most severe social and economic impacts. The allocation of funds under this section shall be the final action of the Department of the Interior.

§ 1882.5 Terms and conditions.

§ 1882.5-1 Tenure of loan.

Loans shall be for a period not to exceed 10 years. Loan documents shall include a schedule of repayment showing the amount of the principal and interest due on each installment.

§ 1882.5-2 Interest rate.

Loans shall bear interest at a rate equivalent to the lowest interest rate paid on an issue of at least $1 million of bonds exempt from Federal taxes of the applicant State or any agency thereof within the calendar year immediately preceding the year of the loan. Proof of each rate shall be furnished by an applicant with its application.

§ 1882.5-3 Limitation on amount of loans.

Total outstanding loans under this program for qualified States or their political subdivisions shall not exceed the total amount of the qualified States's projected mineral revenues under the Act for the 10 years following. The total outstanding loans shall be the sum of the unpaid balance on all such loans made to a qualified State and all of its qualified political subdivisions.

§ 1882.5-4 Loan repayment.

Loan repayment shall be by withholding mineral revenus payable to the qualified State for itself or its political subdivisions under the Act until the full amount of the loan and interest have been recovered.

§ 1882.5-5 Security for a loan.

The only security for loans made under this subpart shall be the mineral revenues received by a qualified State or its political subdivisions under the Act. Loans made under this subpart shall not constitute an obligation upon the general property or taxing authority of the qualified recipient.

§ 1882.5-6 Use of loan.

A loan made under this subpart may be used for the non-Federal share of the aggregate cost of any project or program otherwise funded by the Federal Government which requires a non-Federal share for such project or program and which provides planning or public facilities otherwise eligible for assistance under the Act.

§ 1882.5-7 Nondiscrimination.

No person shall, on the grounds of race, color, religion, national origin or sex be excluded from participation in, be denied the benefits of or be subjected to discrimination under any program or activity funded in whole or part with funds made available under this subpart.

§ 1882.5-8 Additional terms and conditions.

The Director may impose any terms and conditions that he determines necessary to assure the achievement of the purpose of the loans made under this subsection.

§ 1882.6 Loan renegotiation.

The Secretary may, upon application of a qualified State or one of its qualified political subdivisions, take any steps he determines neessary and justified by the failure of anticipated mineral development or related revenues to materialize as expected when the loan was made under this subpart to renegotiate the loan, including restructuring of the loan. All applications submitted under this section shall set forth in detail the basis for the renegotiation of the loan. The renegotiated loan shall meet the requirements of this subpart to the extent possible.

§ 1882.7 Inspection and audit.

Upon receipt of a loan under this subpart, the grantee of the loan shall establish accounts and related records necessary to record the transactions relating to receipt and disposition of such loan. These accounts and related records shall be sufficiently detailed to provide an adequate inspection and audit by the Secretary and the Comptroller General of the United States. The loan funds shall not be commingled with other funds of the recipient.

GARY J. WICKS,
Acting Assistant Secretary of the Interior.

AERONAUTICAL ADVISORY FREQUENCIES

Authorizing use by Aeronautical Utility Mobile Stations Located at Certain Landing Areas Which Do Not Have a Control Tower or FAA Flight Service Station

AGENCY: Federal Communications Commission.

ACTION: Proposed rulemaking.

SUMMARY: Amendment of the rules to permit aeronautical advisory frequencies to be utilized by certain ground vehicles at landing areas which are served by an aeronautical advisory station (unicom), but which do not have a control tower or FAA flight service station in operation. The FAA requested that this proposed rule change be considered. The additional communications capability of the eligible vehicles is intended to improve aviation safety at the many airports affected.

DATES: Comments must be received on or before November 15, 1978, and reply comments must be recevice on or before November 27, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Robert H. McNamara, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of parts 2 and 87 of the rules to authorize the use of aeronautical advisory frequencies by aeronautical utility mobile stations located at certain landing areas which do not have a control tower or FAA flight service station.

Adopted: September 26, 1978.

Released: October 12, 1978.

By the Commission:

SUMMARY

1. In this notice we are proposing to amend the Commission's rules to permit certain ground vehicles which routinely operate on airports that have no functioning control tower or FAA flight service station, but which are served by an aeronautical advisory station, to utilize aeronautical advisory frequencies for safety related communications.

BACKGROUND

2. The Commission has received a letter from the Federal Aviation Administration (FAA) requesting that the rules be amended to allow FAA vehicles and certain other ground vehicles to utilize aeronautical advisory frequencies while operating on landing areas not served by a control tower or FAA flight service station. FAA feels that safety and operating efficiency would be enhanced at these airports by permitting vehicles used for inspections, maintenance, emergencies, and the like, to communicate with the local aeronautical advisory station (unicom) when operating on the airfield. Primarily, these vehicles would be expected to monitor the appropriate frequency and only transmit or acknowledge relevant safety information. FAA recommends that communications by such vehicles, if authorized, be subject to the supervision of the advisory station operator. Also it is recommended that nonsafety communications, such as dispatching, not be permitted. We note that from time to time the Commission has received, and in appropriate cases granted, requests for waivers to provide similar communications capabilities for certain ground vehicles operating on nontower airfields.

DISCUSSION

3. Presently, aeronautical advisory frequencies are limited to the necessities of safe and expeditious operation of private aircraft, such as runway conditions, types of fuel available, wind conditions, weather information, and dispatching. Further, only one aeronautical advisory station is permitted on a landing area.[1] Due to congestion problems on the then one available aeronautical advisory frequency at uncontrolled airports, the Commission amended the rules to provide two additional frequencies for advisory purposes at these landing areas.[2] In view of the nature of this radio service and the potential that increased traffic would negate the beneficial effects of the two additional frequencies recently provided, we are cautious regarding the grant of broader access to the advisory frequencies.

4. However, it appears that with appropriate safeguards, as discussed below, the FAA recommended rule change would provide an added safety feature at many uncontrolled airports without appreciably increasing message traffic on the advisory frequencies. Therefore, we propose to amend the rules substantially as requested by FAA, to permit FAA vehicles and aeronautical utility mobile stations to utilize aeronautical advisory frequencies on a noninterference basis, at airports which have an aeronautical advisory station but no control tower or FAA flight service station (FSS). Also, at landing areas which have a part-time control tower and/or part-time FSS, utility mobile stations will be permitted to use advisory frequencies during the hours that neither the control tower nor FSS is in operation, on the same basis as utility mobile stations at nontower, non-FSS airfields. Communications by utility mobile stations on advisory frequencies will be limited to the necessities of safety (such as runway conditions and hazards on the landing area). Further, these stations will be required to discontinue transmission when so requested by the advisory station operator.

5. Eligibility for authority to operate utility mobile stations will be limited to those applicants able to demonstrate a legitimate need and authority to operate a ground vehicle on the particular airport movement area. An airport movement area is defined as the runways, taxiways, and other areas which are utilized for taxiing, takeoff and landing of aircraft, exclusive of loading ramps and parking areas. For example, the use of ground vehicles for inspection of airport movement areas by airport operators and State and local governmental organizations, and the various emergency and support vehicles, such as crash trucks and snowplows, customarily used on an airfield, would satisfy the proposed eligibility requirements. On the other hand, fuel trucks which normally operate only on ramp and parking areas, serve as an example of the type of vehicle not contemplated to be eligible. Our intention in proposing this rule amendment is to provide a means for vehicles which routinely operate on a nontower, non-FSS landing area to *monitor* the advisory frequency and communicate when safety considerations so dictate.

PROPOSAL

6. Accordingly, we propose to amend §§ 2.106, 87.257 and Subpart J of Part 87 of the Commission's rules to permit aeronautical advisory frequencies to be utilized on a noninterference basis by FAA vehicles and aeronautical utility mobile stations authorized to operate at landing areas having an aeronautical advisory station and either a part-time or no control tower or FAA flight service station.

7. The proposed amendments to the Commission's rules, as set forth below, are issued pursuant to the authority contained in sections 4(i) and 303 (b), (c), (d), and (r) of the Communications Act of 1934, as amended.

COMMENTS

8. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before November 15, 1978, and reply comments on or before November 27, 1978. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

9. In accordance with the provisions of § 1.419 of the Commission's rules, an original and five copies of all statements, briefs, or comments shall be furnished the Commission. All comments received in response to this Notice of Proposed Rule Making, will be available for public inspection in the Docket Reference Room in the Commission's Offices in Washington, D.C.

10. Regarding questions on matters covered in this document contact Robert McNamara, 202-632-7107.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[1] This restriction has been retained in the rules since the inception of the aeronautical advisory service. As indicated in a report prepared by Special Committee 113 of the Radio Technical Commission for Aeronautics (Document No. DO-129, November 23, 1965) such a limitation is necessary for safety, legal, and technical considerations.

[2] Report and Order, docket No. 20123, FCC 77-253, adopted April 1977; 42 FR 20469, 64 FCC 2d 573.

Parts 2 and 87 of Chapter 1 of title 47 of the Code of Federal Regulations are amended as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

In § 2.106 footnote US31 is amended to read as follows:

§ 2.106 Table of frequency allocations.

* * * * *

U.S. FOOTNOTES

* * * * *

US31 Except as provided below the band 121.9375–123.0875 MHz is for use by private aircraft stations.

The frequencies 122.700, 122.725, 122.750, 122.800, 122.950, 122.975, 123.000, 123.050 and 123.075 MHz may be assigned to aeronautical advisory stations. In addition, at landing areas having a part-time or no airdrome control tower or FAA flight service station, these frequencies may be assigned on a secondary noninterference basis to aeronautical utility mobile stations, and may be use by FAA ground vehicles for safety related communications during inspections conducted at such landing areas.*

* * * * *

PART 87—AVIATION SERVICES

1. In § 87.257, paragraph (d)(5) is added to read as follows:

§ 87.257 Scope of service.

* * * * *

(d) * * *

(5) Aeronautical advisory stations may communicate with aeronautical utility mobile stations and FAA ground vehicles, concerning runway conditions and safety hazards on the landing area when neither an airdrome control tower nor FAA flight service station is in operation. (Transmissions by aeronautical utility mobile stations are subject to the control of the aeronautical advisory station to the extent that communications by ground vehicles must be discontinued when so requested by the aeronautical advisory station).

* * * * *

2. Section 87.431 is amended to read as follows:

§ 87.431 Frequencies available.

(a) At landing areas having an airdrome control tower or an FAA flight service station, the frequencies 121.600 through 121.925 MHz listed in § 87.401(a) are available to aeronautical utility mobile stations. The other frequencies listed in § 87.401(a) may be assigned to utility mobile stations on such landing areas only after FCC coordination with FAA. The frequency that will be assigned to the utility mobile station at an airport served by a control tower or flight service station, is the frequency that is used by the control tower for ground traffic control or the flight service station to communicate with ground vehicles.

(b) In addition to the frequencies described in paragraph (a) of this section, at landing areas which have a part-time airdrome control tower or part-time FAA flight service station and an aeronautical advisory station, the frequency assigned to the advisory station is available on a noninterference basis to aeronautical utility mobile stations. However, utility mobile stations may transmit on the advisory frequency only when the control tower or flight service station has ceased operations.

(c) At landing areas which have an aeronautical advisory station but no airdrome control tower or FAA flight service station, the frequency assigned to the advisory station is available on a noninterference basis to aeronautical utility mobile stations. (The frequencies available for assignment to aeronautical advisory stations are described in § 87.253.)

3. Section 87.432 is amended to read as follows:

§ 87.432 Eligibility.

(a) Authorization to operate an aeronautical utility mobile station on the frequencies described in § 87.431(a) will be issued only for operation at landing areas having an airdrome control tower or FAA flight service station.

(b) Authorization to operate an aeronautical utility mobile station on an aeronautical advisory frequency will be issued only for operation at landing areas having an aeronautical advisory station and either a part-time or no airdrome control tower or FAA flight service station. In addition, an applicant must: (1) Demonstrate a need to routinely operate a ground vehicle on the airport movement area (the airport movement area is defined as the runways, taxiways and other areas which are utilized for taxiing, takeoff and landing of aircraft, exclusive of loading ramp and parking areas); (2) identity the vehicle in which the station is to be located; and (3) either attach a statement that the applicant is the airport owner or operator, or a State or local governmental aeronautical agency; or attach a statement from the airport owner or operator granting permission to operate the subject vehicle(s) on the specified airport movement area.

4. Section 87.433 is amended to read as follows:

§ 87.433 Scope of service.

(a) Communications by an aeronautical utility mobile station at a landing area which has an airdrome control tower or FAA flight service station in operation, are limited to the management of ground traffic at the airport.

(b) Aeronautical utility mobile stations which operate on the aeronautical advisory station frequency are authorized only to transmit and acknowledge information relating to safety, such as runway conditions and hazards on the airfield. (Such stations are expected to be employed primarily for monitoring advisory communications.)

5. Section 87.437, including the heading, is amended to read as follows:

§ 87.437 Supervision by operator of airdrome control tower, FAA flight service station or aeronautical advisory station.

(a) Transmissions by an aeronautical utility mobile station are subject to the control of the airdrome control tower, the FAA flight service station or the aeronautical advisory station, as appropriate at the particular landing area. When so requested by the control tower, the flight service station or advisory station, a utility mobile station must discontinue transmitting immediately.

(b) An aeronautical utility mobile station must guard its assigned frequency during periods of operation.

(c) Aeronautical utility mobile stations operating on the frequency assigned to an airdrome control tower or FAA flight service station must cease to transmit on that frequency when neither of these stations are in operation.

6. Section 87.439 is amended to read as follows:

§ 87.439 Frequency change.

In the event that the utility frequency is changed by the Federal Aviation Administration (to a frequency in the band 121.600–121.925 MHz) or by the Federal Communications Commission, an aeronautical utility mobile station licensee has temporary authority for a period of 90 days to use the new frequency in place of the one listed on the license. An application for modification of the station license to specify the new frequency must be submitted within 10 days from the date that the station commences operation on the new frequency.

[CC Docket No. 78-331; FCC 78-712; Transmittal No. 13012]

AMERICAN TELEPHONE & TELEGRAPH CO.

Providing for Certain Exceptions Required To Protect the National Defense and Security as Well as Other Appropriate Exceptions

AGENCY: Federal Communications Commission.

ACTION: Proposed rulemaking.

SUMMARY: As of July 1, 1979, all customer-provided tele-communications terminal equipment and systems must be registered in conformance with the FCC's rules. The Department of Defense has requested that the FCC make an exception for their equipment and systems in instances where compliance with the registration requirements would compromise the national security and defense. The FCC is thus proposing to amend its rules to meet this need. In addition, the FCC is soliciting comments on whether other special exceptions would be appropriate.

DATES: Comments must be received on or before November 17, 1978, and reply comments must be received on or before December 19, 1978.

ADDRESS: Send Comments to: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Eliot J. Greenwald, Common Carrier Bureau, 202-632-5550.

SUPPLEMENTARY INFORMATION: In the matter of American Telephone & Telegraph Co., revision to tariff FCC No. 263 880th revised page 1; amendment of Part 68 of the Rules to provide for certain exceptions required to protect the national defense and security as well as other appropriate exceptions. Memorandum opinion and order and notice of proposed rulemaking.

Adopted: October 5, 1978.

Released: October 20, 1978.

By the Commission: 1. Presently before the Commission is Transmittal No. 13012, filed by American Telephone & Telegraph Co. (A.T. & T.) on June 5, 1978, to become effective on October 6, 1978. This transmittal would revise Tariff FCC No. 263 to require that as of July 1, 1979, customer-provided equipment that is used in connection with long-distance message telecommunications service (MTS) must conform to the registration requirements of Part 68 of the Commission's rules. 47 CFR 68.1 *et seq.* The Department of Defense (DOD) filed a petition for suspension and investigation on June 30, 1978. A.T. & T. filed an opposition on July 11, 1978.

2. In its petition, DOD explains that it has frequently connected its own telephone equipment and communications systems to telephone company provided services for use with MTS. It adds that in many instances the specific type of equipment, or the geographic location of the equipment may be subject to security classification, or the equipment or location may be used for security classified projects and exercises. DOD lists four general areas where these classified equipment items, locations and projects/exercises normally occur:

1. Communications support of the President and other senior U.S. officials, particularly when they are in a travel status;

2. Communications support of U.S. intelligence agencies, including counterintelligence;

3. Communications support of criminal investigative activities, particularly of espionage, sabotage, and subversion; and

4. Communications support of other classified/sensitive activities approved at Cabinet-official levels.

DOD contends that compliance with Part 68 of the Commission's rules would result in the public release of classified information. Thus, DOD maintains that the tariff revisions that would require it to register classified equipment, locations, and projects/exercises should not be allowed to go into effect.

3. In its opposition, A.T. & T. contends that its tariff revisions were necessary to comply with the Commission's *Third Report and Order* in Docket No. 19528, FCC No. 78-248, released April 13, 1978. A.T. & T. maintains that the order does not make any exceptions for DOD or any other party. A.T. & T. adds that should the Commission conclude that the Part 68 requistration program does not apply to certain Government equipment because of national defense or security, A.T. & T. would not oppose such action.

4. We agree with DOD when it maintains that the Commission never intended to enact an equipment registration program that would interfere with the national security and defense. In this regard we note that section 1 of the Communications Act requires that we regulate communications "* * * for the purpose of the national defense * * *" 47 U.S.C. § 151. Furthermore, in our *Third Report and Order* for Docket No. 19528, we stated at paragraph 67, note 20, that certain entities such as governmental agencies were presumed competent by the carriers to install and maintain their own telephone equipment and communications systems.[1] Nevertheless, Part 68, as written, does not contain any exceptions for DOD.

5. It would therefore appear appropriate to adopt an exception to the registration requirements of Part 68 of the rules to allow governmental agencies such as DOD to install and maintain their own communications equipment and systems without registration in instances where such governmental agency can certify that the equipment and systems will not harm the public telephone network and where disclosure of either equipment, locations, or projects/exercises would compromise the national security and defense.

6. Any such exception which we might adopt would have to be narrowly drawn so as not to compromise the objectives of our telephone equipment registration program. Thus, it would appear appropriate to limit such an exception solely to equipment and systems affecting national defense, and continue to require that DOD or other agencies conform to the requirements of Part 68 of our rules in instances where the information would not be classified. If DOD were to install an ordinary telephone, for example, in a nonclassified location, the registration requirements of Part 68 should apply.

7. In view of this, we will institute rulemaking to determine whether, and to what extent, Part 68 should be amended to reflect a national defense exception along these lines. Additionally, there are other historic exceptions to the earlier tariff requirements prohibiting interconnection of customer provided systems or equipment. They include, among others, railroads, pipeline companies, right-of-way companies,[2] so-called "service station" lines,[3] and customers in hazardous or inaccessible locations.[4] *See First Report and Order*, 56 FCC 2d 593, 598 (1975). These exceptions may also have been affected by the *Third Report and Order* in Docket No. 19528. We will thus explore whether any other special exceptions to Part 68 should be adopted for reasons other than national defense. We realize that many of these historical exceptions

[1] Moreover, in adopting the Part 68 standards for plugs and jacks in Docket No. 20774, we acknowledged the continuing validity of analagous exceptions to the predecessor telephone company imposed interconnection requirements. *See* 41 FR 28694, 28699 (Jul. 12, 1976).

[2] These include utilities such as electric companies.

[3] These are subscribers whose locations are distant from the main telephone lines and have been given the opportunity to connect their own lines to the main telephone lines.

[4] These include locations such as mining operations where a telephone may be located in a potentially explosive atmosphere.

were adopted in order to allow particular customers to interconnect their own systems or equipment.[5] At the present time, however, our Part 68 rules generally accord customers a right of interconnection. Thus, it may not be necessary to retain these historical tariff exceptions by making them exceptions to Part 68 of the rules. Moreover, we do not intend to relitigate the question of whether special assemblies provided by telephone companies or others should be registered or used with protective circuitry registered under Part 68 of the Rules. This matter was presented for decision on several occasions and has been ruled on. *Memorandum Opinion and Order*, 64 FCC 2d 1058, 1060-62 (1977).

8. This still leaves for consideration A.T. & T.'s Transmittal No. 13012 and DOD's Petition. Under the new tariff, the existing requirements will remain effective through the transition period specified in section 68.2 of our rules. Therefore DOD's equipment will not have to be registered until the expiration of that period, which is currently July 1, 1979. In any event, A.T. & T's tariff appears to fully comply with the Commission's existing rules in this regard, and therefore, suspension and investigation is unwarranted. However, it is our intention to act expeditiously on the rulemaking which we are instituting in order that these issues can be resolved prior to the end of the transition period.

9. In view of the foregoing, *it is ordered*, That the Petition of the Department of Defense for Suspension and Investigation of American Telephone & Telegraph Co.'s Transmittal No. 13012 revisions to Tariff FCC No. 263 is denied.

10. *It is further ordered*, That, pursuant to the provisions of sections 1, 2(a), 4(i)-(j), 201(b), 202(a), 203, 205, and 403 of the Communications Act of 1934 (as amended), 47 U.S.C. 151, 152(a), 154(i)-(j), 201(b), 202(a), 203, 205, and 403, and 5 U.S.C. 553, notice is given of proposed rule changes in part 68 of the FCC's Rules and Regulations, 47 CFR 68.1 *et seq.* to create an exception to the registration requirement for telephone systems and equipment provided by governmental agencies or others as discussed in paragraph 5 through 7, *supra*. Comments are specifically requested on the following issues.

(a) Should there be an exception to the general requirements of Part 68 of the FCC's Rules, running to equipment or systems provided by governmental agencies in instances where compliance with Part 68 might compromise the national security or defense? How shall any such exception be defined?

(b) Are there other special customer circumstances, such as those expressed in the historical special "interconnection" tariff regulations for pipeline, right-of-way, and railroad companies, as well as "service station" lines and hazardous or inaccessible locations, which would also warrant special treatment under Part 68 of the FCC's Rules? How shall the contours of any such special treatment be defined?

(c) What procedures, if any, should be adopted for any exceptions to part 68 of the FCC's Rules which might be promulgated under (a) or (b) above to assure that equipment or systems connected to the nationwide telephone network do not cause it harm?

(d) What specific rules or rule changes should be adopted in Part 68 of the FCC's Rules consistent with the foregoing?

11. *It is further ordered*, That interested persons may file comments on or before November 17, 1978 and reply comments on or before December 19, 1978. We particularly encourage the Department of Defense to actively participate in this proceeding. In reaching its decision in this matter the Commission may consider any other relevant information before it in addition to the comments filed pursuant to this notice. In accordance with § 1.419 of the Commission's Rules, 47 CFR 1.419, an original and 11 copies of all comments, replies, pleadings, briefs and other documents filed shall be furnished to the Commission. Responses filed in this proceeding will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters at 1919 M Street NW., Washington, D.C.

BROADCAST RENEWAL APPLICANTS FOR NONCOMMERCIAL EDUCATIONAL BROADCAST APPLICANTS, PERMITTEES AND LICENSEES

Primer on Ascertainment of Community Problems; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing comments and reply comments in a proceeding concerning the Primer on Ascertainment of Community Problems by Broadcast Renewal Applicants and Noncommercial Educational Broadcast Applicants, Permittees and Licensees. Petitioners, National Religious Broadcasters, Inc., and the Midwest Chapter of the National Religious Broadcasters, state that the additional time is necessary so that they can respond to the issues involved.

DATES: Comments must be received on or before November 16, 1978, and reply comments December 18, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Freda Lippert Thyden, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of the primer on ascertainment of community problems by broadcast renewal applicants and noncommercial educational broadcast applicants, permittees and licensees. Order extending time for filing comments and reply comments.

Adopted: October 12, 1978.

Released: October 16, 1978.

By the Chief, Broadcast Bureau:

1. On August 1, 1978, the Commission adopted a Memorandum Opinion and Order and Notice of Proposed Rulemaking, 43 FR 35357 (see also 43 FR 41241, Sept. 15, 1978), concerning the above-captioned proceeding. The present dates for filing comments and reply comments are October 16, and November 15, 1978, respectively.

2. On October 3, 1978, counsel for the National Religious Broadcasters, Inc. ("NRB"), filed a request seeking an extension of time for filing comments and reply comments to and including January 15, and March 16, 1979, respectively.[1] Counsel states that due to the complexity of issues NRB anticipates raising [2] and the geographical and other diversity of its member organizations and their interests in this proceeding, additional time is necessary to prepare comments.

3. On the basis of the reasons represented in the above-mentioned request for extension of time, we are persuaded that some additional time is warranted in order to assure development of a sound and comprehensive record on which to base a final decision in

[1] A Motion for Extension of time was also filed by the Midwest Chapter of the National Religious Broadcasters, requesting an extension for filing comments to Jan. 15, 1979.

[2] In this regard, counsel states that NTB proposes to offer the Commission, among other things, a survey of the law of the 50 states as it relates to the acts advocated by certain of the petitioners and their supporters.

this proceeding. We are, therefore, granting 30 additional days for filing comments and believe the same amount of time is appropriate for the filing of the reply comments.

40251, Sept. 11, 1978) proposing to substitute UHF TV channel 64 for UHF TV channel 39 at Miami, Fla. The date for filing comments has expired and the date for filing reply comments is

this proceeding. We are, therefore, granting 30 additional days for filing comments and believe the same amount of time is appropriate for the filing of the reply comments.

4. Accordingly, *it is ordered*, That the requests for extension of time filed by the National Religious Broadcasters, Inc., and the Midwest Chapter of the National Religious Broadcasters, Inc. are granted to and including November 16, and December 18, 1978, respectively, and are denied in all other respects.

5. This action is taken pursuant to sections 4(i), 5(d)(1), 303(r) and 307(b) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

TELEVISION BROADCAST STATIONS IN MIAMI, AND WEST PALM BEACH, FLA.

Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding concerning the proposed assignment of television channels in Miami, West Palm Beach, Hollywood, and Boca Raton, Fla. Petitioner, Pierson, Ball & Dowd, state that the additional time is needed so that it can prepare comments.

DATE: Reply comments must be filed on or before October 31, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Miami, West Palm Beach, Hollywood, and Boca Raton, Fla.). Order extending time for filing reply comments.

Adopted: October 12, 1978.

Released: October 16, 1978.

By the Chief, Broadcast Bureau:

1. On July 6, 1978, the Commission adopted a Notice of Proposed Rulemaking, 43 FR 30841 (see also 43 FR 40251, Sept. 11, 1978) proposing to substitute UHF TV channel 64 for UHF TV channel 39 at Miami, Fla. The date for filing comments has expired and the date for filing reply comments is presently October 10, 1978.

2. On September 28, 1978, a request was filed by the law firm of Pierson, Ball & Dowd ("Pierson") seeking an extension of time for filing reply comments to and including October 31, 1978. Pierson states that a number of pleadings have been filed in this proceeding which require careful study.

3. We are of the view that the public interest would be served by granting the additional time so that Pierson, Ball & Dowd may file any information which may be helpful to the Commission in resolving the issues in this proceeding.

4. Accordingly, *it is ordered*, That the request for filing reply comments submitted by Pierson, Ball & Dowd is granted to and including October 31, 1978.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[BC Docket No. 78-251; RM-2712]

AIRING OF PUBLIC SERVICE ANNOUNCEMENTS BY BROADCAST LICENSEES

Order extending time for filing comments and reply comments

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing comments and reply comments in a proceeding concerning the airing of public service announcements by broadcast licensees. Petitioner, Public Media Center, states that the additional time is necessary so that it can respond to the issues involved.

DATES: Comments must be filed on or before November 22, 1978, and reply comments on or before December 22, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Freda Lippert Thyden, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of petition to institute a notice of inquiry and proposed rulemaking on the airing of public service announcements by broadcast licensees. Order extending time for filing comments and reply comments.

Adopted: October 12, 1978.

Released: October 16, 1978.

By the Chief, Broadcast Bureau:

1. On August 8, 1978, the Commission adopted a Memorandum Opinion and Order and Notice of Inquiry, 43 FR 37725, concerning the above-entitled proceeding. The present dates for filing comments and reply comments are October 23, and November 22, 1978, respectively.

2. On September 29, 1978, counsel for Public Media Center ("PMC"), filed a request for extension of time for filing comments to and including November 22, 1978. Counsel states that various questions regarding public service announcements have been posed by the Commission. He contends that while much of this information is readily available to broadcast licensees, the listening and viewing public who have in the past been in a position to participate in Commission proceedings have had little reason to compile data until now. Counsel asserts that PMC is in communication with citizen and public interest groups, as well as local groups, which constitute a large and diverse segment of radio and television listeners, who have expressed a desire to participate in this proceeding.

3. We are of the view that the public interest would be served by this extension so that Public Media Center may file any information which might be helpful to the Commission in reaching a decision in this proceeding.

4. Accordingly *it is ordered*, That the dates for filing comments and reply comments in Docket No. 78-251 are extended to and including November 22, and December 22, 1978, respectively.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 602]

FISHERY MANAGEMENT PLANS

Proposed Guidelines for Development

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Proposed amendments to regulations.

SUMMARY: These proposed amendments require fishery management plans (FMP's) to contain information regarding: (1) Historical and projected transfers from U.S. harvesters to foreign vessels, (2) the processing capacity of U.S. fish processors, and (3) data which U.S. processors must submit to the Secretary of Commerce. The addition of such information is required by Pub. L. 95-354, an amendment of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.) (FCMA).

DATE: Comments are invited until November 20, 1978.

ADDRESS: Comments should be submitted in writing to the Assistant Administrator for Fisheries, National Marine Fisheries Service (F37), Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Mr. Alfred J. Bilik, Program Support Specialist, National Marine Fisheries Service, Washington, D.C. 20235, 202-634-7265.

SUPPLEMENTARY INFORMATION: The FCMA establishes certain criteria and procedures for foreign vessels to engage in fishing in the fishery conservation zone (FCZ) of the United States. Included in those procedures is a requirement that no foreign fishing vessel may engage in fishing within the FCZ unless a valid permit has been issued to such vessel. As amended by Pub. L. 95-354, the FCMA requires that in the case of any application for a permit by a foreign vessel which proposes to receive U.S. harvested fish from vessels of the United States, the Secretary of Commerce may approve the application unless the Secretary determines that U.S. fish processors have adequate capacity, and will utilize such capacity, to process all U.S. harvested fish from the fishery concerned. Accordingly, the FCMA, as amended, requires all FMP's to contain information regarding the capacity and extent to which U.S. fish processors, on an annual basis, will process fish covered by FMP's.

50 CFR Part 602 contains the guidelines for development of FMP's (42 FR 34450, July 5, 1977; 42 FR 36980, July 18, 1977). It is proposed that § 602.3 be amended to require the inclusion in FMP's of historical information on any transfers of U.S. harvested fish to foreign vessels. A significant amendment is the proposal that a new subsection be added to § 602.3(b)(8) entitled "Domestic processing capacity" which will require inclusion in FMP's of an assessment and specification of the capacity and extent to which U.S. fish processors will process the stocks of fish covered by the plan. Certain factors are enumerated which shall be considered in assessing the extent to which U.S. fish processors will process the stocks. Comments regarding these factors and their application, or additional factors which deserve consideration, are specifically solicited.

Finally, it is proposed that § 602.3 specify the types of data which FMP's may require to be submitted by U.S. fish processors.

Signed in Washington, D.C., this 17th day of October, 1978.

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

§ 602.2 [Amended]

1. Revise § 602.2(b)(5) by deleting the second sentence and substituting as follows:

. . . . . .

(b) * * *

(5) * * * In determining whether U.S. fishermen will not harvest an optimum yield, the Councils are to give consideration to the capacity and extent to which fishing vessels of the United States will harvest such optimum yield, including U.S. harvested fish which will be received at sea by foreign vessels. * * *

§ 602.3 [Amended]

2. Revise § 602.3(b)(8)(iv) by inserting "(A)" after "the fishery," and by adding a new subparagraph (B) as follows:

. . . . . .

(b) * * *
(8) * * *
(iv) * * *

(B) Describe and enumerate the amount or tonnage of any transfers, or proposed transfers, of the stock(s) comprising the management unit from U.S. harvesters to foreign vessels."

3. Amend § 602.3(b)(8) by adding the following new subparagraph (v):

. . . . . .

(b) * * *
(8) * * *

(v) *Domestic processing capacity.* Assess and specify the capacity and extent to which U.S. fish processors, on an annual basis, will process the stock(s) comprising the management unit. In assessing the extent to which U.S. fish processors will process the stock(s), the following factors, as appropriate, shall be considered:

(A) Any contracts or other agreements for the purchase of U.S. harvested fish by U.S. fish processors;

(B) The actual ability and intent of U.S. processors to utilize that ability to process a particular species;

(C) Considerations as geographical proximity of harvest areas to the facilities of U.S. fish processors, especially in relation to the refrigeration/freezing capability of potential U.S. fish harvesting vessels;

(D) Recent history of extent to which U.S. fish processors have processed particular species;

(E) Availability and capacity of the labor force, processing machinery, freezers and cold storage facilities of the U.S. fish processors and intent and plans to increase availability or capacity of any of the above to process a particular species;

(F) Seasonal schedules of the U.S. fish processors; and

(G) Availability of U.S. harvesting vessels to supply the stock(s) comprising the management unit taking into consideration such things as capability of vessels to fish the species in the fishery, seasonal schedules, and relative availabilities and prices of alternative fisheries.

. . . . . .

4. Substitute the following for § 602.3(b)(9)(ii):

. . . . . .

(b) * * *
(9) * * *

(ii) *Domestic processing sector.* Describe the wholesale products and their values. Specify the degree of dependence of the processing sector upon products from the fishery.

. . . . . .

5. Revise § 602.3(b)(13)(viii) by substituting "the harvesting and processing sectors of the U.S. fishing industry." for "U.S. fishermen."

6. Revise the head for § 602.3(b)(14)(ii) by substituting "(ii) *Domestic and foreign harvesters*" for "(ii) *Domestic and foreign fishermen*".

7. Revise § 602.3(b)(14)(ii) after "number of hauls," by adding "numbers or weight of fish received by foreign vessels from U.S. harvesting vessels,".

8. Substitute the following for § 602.3(b)(14)(iii):

. . . . . .

pared by a Council or by the Secretary.* * *

8. Substitute the following for § 602.3(b)(14)(iii):

. . . . . .

(b) * * *
(14) * * *

(iii) *Processors.* The plan shall specify the data that shall be submitted by fish buyers, processors, etc. who purchase, transport, and process the catch of the stock(s). The data specified shall include, but are not limited to:

(A) The amount or tonnage of fish purchased, transported, and/or processed, by species.

(B) Locations at which fish are received and/or processed, by species.

(C) Limitations as to seasons, quantities, or quality standards of fish which apply to fish received and/or processed, by species.

(D) Disposition of the fish received or processed, by species.

(E) Prices paid for fish received, by species.

§ 602.4 [Amended]

9. Add to § 602.4(b)(8) the following:

. . . . . .

(b) * * *
(8) * * *
(v) Domestic processing capacity.

. . . . . .

10. Amend § 602.4(b)(14)(ii) to read: "Domestic and Foreign Harvesters"

§ 602.5 [Amended]

1. Revise § 602.5(d)(1) to read:

. . . . . .

(d) * * *

(1) *Council review.* The Act directs each Council to review on a continuing basis, and revise as appropriate, the assessments and specifications made regarding the optimum yield from, the capacity and extent to which U.S. fish processors will process U.S. harvested fish from, and the total allowable level of foreign fishing in, each fishery within its geographical area of authority.

12. Amend § 602.5(d)(2), second sentence, to read:

. . . . . .

(d) * * *

(2) * * * At least once each year, each Council must assess the accuracy of the estimates of MSY and optimum yield, the capacity and extent to which U.S. fish harvesters will harvest the optimum yield, the capacity and extent to which U.S. fish processors will process U.S. harvested fish, and the total allowable level of foreign fishing for each plan implemented regardless of whether the plan is prepared by a Council or by the Secretary. * * *

[50 CFR Part 611]

PACIFIC BILLFISHES AND SHARKS

Preliminary Fishery Management Plan

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice of public hearings.

SUMMARY: On September 14, 1978, the National Marine Fisheries Service (NMFS) published a notice in the FEDERAL REGISTER (43 FR 41062) withdrawing proposed rulemaking to implement a Preliminary Management Plan (PMP) for Pacific Billfish and Oceanic Sharks. The PMP was published in the FEDERAL REGISTER on July 21, 1978 (43 FR 3137-1406). The proposed rulemaking was withdrawn to provide an opportunity for the NMFS to reconsider certain provisions in the PMP. This notice is published to announce a series of public hearings to solicit inputs from the public on the issues being addressed in the reconsideration of the PMP.

DATES: Hearings will be held on November 13, 14, and 21, 1978. Comments should be submitted by December 24, 1978.

ADDRESSES: The hearing schedule is as follows:

Monday, November 13, 1978, 7 p.m., the Civic Center Conference Room, Saipan, Northern Mariana Islands.

Tuesday, November 14, 1978, 7 p.m., Legislative Hall, Agana, Guam.

Tuesday, November 21, 1978, 7 p.m., the Conference Center, Pago Pago, American Samoa.

Send comments to: Mr. Gerald V. Howard, Director, Southwest Region, National Marine Fisheries Service (NOAA), 300 South Ferry Streeet, Terminal Island, Calif. 90731, telephone: 213-548-2575.

FOR FURTHER INFORMATION CONTACT:

Mr. Denny Moore, 202-634-7454.

SUPPLEMENTARY INFORMATION: The particular issues for which the NMFS solicits public inputs are:

1. *Consideration of fishery conservation and management measures to apply in the fishery conservation zone (FCZ) seaward of the Northern Mariana Islands.* The PMP published in the FEDERAL REGISTER did not propose any such measures because the Fishery Conservation and Management Act of 1976 (FCMA) did not apply to the Northern Mariana Islands at the time the PMP was being prepared in 1977. The FCMA became applicable to the Northern Mariana Islands on January 8, 1978. The NMFS now proposes that the PMP be revised to apply to the FCZ around the Northern Mariana Islands as well as other portions of the FCZ in the Pacific Ocean. The alternatives being considered include establishment of 12-mile and 50-mile zones in which retention of billfish or other affected species by foreign fishing vessels may be prohibited. The NMFS is particularly interested in obtaining the views of the people of the Northern Mariana Islands as to the importance of domestic fishing and appropriate conservation and management measures; and in receiving data on domestic catches of billfish, sharks, and associated species.

2. *Consideration of separate determinations of optimum yield (OY), domestic capacity, and total allowable levels of foreign fishing (TALFF's) for each species of fish covered by the PMP for separate portions of the FCZ.* The published PMP proposed that there be a single determination of OY and TALFF for each affected species (or species group) in aggregate for the FCZ. Many organizations and individuals who commented on the PMP said that this approach did not give sufficient consideration to the special social and economic conditions and needs of different portions of the FCZ. Some commentors were especially concerned that the PMP could adversely affect operations of American Samoa-based foreign longliners whose deliveries are critical to tuna canneries which constitute the principal private industry of American Samoa. The NMFS is especially interested in receiving data on domestic and foreign catches of the fish covered by the PMP in the FCZ seaward of American Samoa, and in hearing the views of American Samoa interests on the impacts which would be expected if the PMP as originally proposed were implemented. The NMFS also solicits views on the merits of establishing separate OY's and TALFF's for different fisheries in the FCZ.

3. *Consideration of establishing OY's and TALFF's for wahoo and dolphin (also known as mahi mahi in Hawaii and masi masi in American Samoa).* The published PMP did not apply to foreign catches of wahoo and dolphin in the FCZ because of the limited data available on abundance, distribution, and stock status of these species. These species therefore would continue to be "prohibited species" under the FCMA and foreign fishing regulations (50 CFR 611.13). Reviewers of the PMP indicated that these species

are of special importance to American Samoans. Longliners deliver these species in addition to tuna, and wahoo are canned for local consumption while dolphin enter the fresh fish markets. Prohibition of retention of these species in the FCZ, it is claimed, may deprive American Samoans of important sources of protein. Therefore, consideration is being given to modification of the PMP to determine OY and TALFF for dolphin and wahoo. Consideration is also being given to establishing separate OY's for these species in separate fisheries in the FCZ. The NMFS is especially interested in obtaining data on domestic and foreign catches of wahoo and dolphin in the FCZ, quantities of each species processed and consumed in American Samoa and elsewhere, and alternative conservation and management measures to apply to foreign catches of wahoo and dolphin in the FCZ.

4. *Consideration of alternative reporting and inspection requirements.* The PMP and proposed rulemaking called for a variety of reporting, inspection, and related measures to monitor the foreign fishing which would be permitted under the PMP. Some commentors indicated that many of the foreign vessels invcived would have substantial difficulty complying with all these requirements. Therefore, the NMFS is interested in obtaining the views of the affected public concerning the extent to which modification of these requirements is warranted and the appropriate modifications, if any.

The NMFS has not reached any definite conclusions on the above issues at this time. The NMFS is cooperating with the Pacific and Western Pacific Fishery Management Councils and with State governments and other interests in evaluation alternatives. A Draft Supplemental Impact Statement/PMP is being prepared and will be distributed to interested parties in advance of the hearings to provide them with additional background. A notice of availability for the draft Supplemental will be published in the FEDERAL REGISTER in the future.

Dated: October 17, 1978.

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

[48 CFR Ch. 1]

FEDERAL ACQUISITION REGULATION PROJECT

Availability and Request for Comment of Draft Regulation

AGENCY: Office of Federal Procurement Policy, Office of Management and Budget.

ACTION: Notice of availability and request for comment on dratt regulation.

SUMMARY: The Office of Federal Procurement policy is making available for public and Government agency review and comment a segment of the draft Federal Acquisition Regulation (FAR). Additional segments will be announced for availability and comment on later dates. The regulation is being developed to replace the current system of procurement regulations. It will be a single uniform acquisition regulation for use by all Federal executive agencies in the acquisition of supplies and services with appropriated funds.

DATE: Comments must be received on or before December 20, 1978.

ADDRESS: Obtain copies of the draft regulation from and submit comments to William W. Thybony, Assistant Administrator for Regulations, Office of Federal Procurement Policy, 726 Jackson Place, NW., Room 9025, Washington, D.C. 20503. Government personnel may obtain copies from the contact points indicated in the list at the end of this notice.

FOR FURTHER INFORMATION CONTACT:

William Maraist, or Strat Valakis, 202-395-3390.

SUPPLEMENTARY INFORMATION: The fundamental purpose of the FAR is to reduce the proliferation of regulations; to eliminate conflicts and redundancies, and to provide an acquisition regulation that is simple, clear, and understandable. The intent is not to create new policy. However, because new policies may arise concurrently with the FAR project, the notice of availability of draft regulations will summarize the section of part available for review and describe any new policies therein.

The following segment of the draft Federal Acquistion Regulation is available for the public and Government agency review and comment.[1]

PART 29—TAXES

29.000 Scope of part.
29.1 General.
29.2 Federal Excise Taxes.
29.3 State and Local Taxes.
29.4 Contract Clauses.

PART 29—TAXES

29.000 Scope of part—states that this part explains Federal, State and local taxation of certain supplies and services, the applicability of such taxes to the Federal Government, and prescribes policy and procedures for use of tax clauses.

29.1 General—advises contracting officers to coordinate with and consult legal counsel on tax matters and to discourage contractors from negotiating independently with taxing authorities under certain circumstances.

29.2 Federal excise taxes—discusses the impostion of Federal excise taxes on certain supplies and services and the fact that the Federal Government is often exempt from such taxes. It describes the procedures and circumstances under which the Government takes advantage of the available exemptions.

29.3 State and local taxes—discusses the application of State and local taxes to the Federal Government and to its contractors and subcontractors. It covers the procedure for claiming exemption from the taxes, as well as the special circumstances involving the North Carolina Sales and Use Tax Act

29.4 Contract clauses—prescribes the circumstances for use of certain tax clauses. The tax clauses are provided here for review purposes. However, they will be published in part 52 of the completed FAR.

This segment of the FAR contains new policy only to the extent that certain DOD policies have been extended to all agencies where the change was considered desirable or necessary. Other changes include: (1) The material has been reorganized for clarity; (2) the FAR has not employed the DAR and FPR "guidance-by-example"; (3) applicable tax statutes are cited for reference purposes; but are not paraphrased; (4) the complicated subject of State and local taxes has been covered by a general discussion and reference to legal counsel on specific questions; (5) sections on exports and evidence of exemption are expanded and made consistent; (6) the discussion of taxes on communication and transportation has been amplified.

Government personnel in the following agencies must obtain copies of the FAR drafts through the established agency contact point listed for each agency. Official agency views are requested by this notice. Agency personnel, therefore, should not send their comments directly to the Office of Federal Procurement Policy. They should be coordianted within the

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

OFFICIAL WEIGHING AND SUPERVISION OF WEIGHING

Intent

AGENCY: Federal Grain Inspection Service, Department of Agriculture.

ACTION: Notice.

SUMMARY: Notice is given that effective November 20, 1978, the Administrator of the Federal Grain Inspection Service (FGIS), U.S. Department of Agriculture (USDA), will require all export grain to be officially weighed in accordance with provisions of the U.S. Grain Standards Act, as amended (7 U.S.C. 71 et. seq.) hereinafter cited as the Act), whether the grain is shipped from an export port location or from a location other than an export port location. Pending further study, the Administrator has determined that truck and rail shipments of grain exported into Canada, other than grain shipped from export locations, will not be required to be officially weighed until further notice. Additionally, notice is given that effective November 20, 1978, official weighing and supervision of weighing will be available upon request for nonexport grain.

EFFECTIVE DATE: November 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Leslie E. Malone, Assistant Deputy Administrator, Room 1627—South Building, FGIS, USDA, Washington, D.C. 20250, 202-447-9166.

SUPPLEMENTARY INFORMATION: Since May 20, 1978, all grain transferred into or out of export elevators at export port locations has been officially weighed, as defined in section 3(x) of the Act (7 U.S.C. 75(x)), and as required by sections 5(a)(1) and 5(a)(2) of the Act (7 U.S.C. 77(a) (1) and (2)). In addition, official weighing and supervision of weighing, as defined in section 3(y) of the Act (7 U.S.C. 75(y)), are available on a request basis at nonexport elevators at export port locations. At export port locations, all official weighing and supervision of weighing are performed by official inspection personnel employed by the FGIS or by States which have been delegated export weighing authority by the Administrator under section 7A(c)(2) of the Act (7 U.S.C. 79a(c)(2)).

MANDATORY WEIGHING AFTER NOVEMBER 20

In addition to all export grain transferred into or out of export elevators at export port locations, effective November 20, 1978, all export grain transferred out of grain elevators at other than export port locations, must be officially weighed in accordance with the official weighing requirements of section 5(a)(1) of the Act.

In essence, section 5(a)(1) provides that no person shall ship from the United States to any place outside thereof any lot of grain, unless, first, the lot is officially weighed as it is being loaded aboard the final carrier in which it is to be transported from the United States; and, second, a valid official certificate showing the certified weight of the lot of grain has been provided by official inspection personnel and is promptly furnished by the shipper, or his agent, to the consignee.

Until further notice, the official weighing requirements of section 5(a)(1) will not be applied to grain shipped by truck or rail into Canada from export elevators that are not located at export port locations. Additional time is needed for FGIS to evaluate the feasibility of requiring the weighing of such shipments and its long-range impact on agricultural trade between the United States and Canada.

PERMISSIVE WEIGHING AFTER NOVEMBER 20

Pursuant to sections 7A(b) and 7A(e) of the Act (7 U.S.C. 79a (b) and (e)), effective November 20, 1978, the Administrator will authorize official weighing or supervision of weighing of grain not subject to the official weighing requirements of sections 5(a)(1) and 5(a)(2) of the Act. Such weighing services will be available on a request basis.

At locations where the Administrator has designated an official agency to perform official inspection functions, the official agency will be afforded an opportunity to apply for an amendment to its designation and, provided the agency is deemed qualified, its designation will be amended to authorize the agency to perform official weighing and supervision of weighing services. Such official weighing and supervision of weighing shall be performed only by those employees of the official agency specifically licensed to do so by the Administrator.

If an official agency does not apply for an amended designation, requests for official weighing or supervision of weighing in the geographic area assigned to the agency will be handled by FGIS. The Administrator may publish a notice in the FEDERAL REGISTER seeking applications from others for designation as the official agency to provide official weighing and supervision of weighing services in geographic areas in need of such services. Applicants for such designations will be required to meet the criteria in section 7(f)(1) of the Act (7 U.S.C. 79(f)(1)). If no State or local government agency or person applies for such designations, FGIS will continue to provide official weighing or supervision of weighing services.

An official agency holding a designation to officially inspect grain which applies for an amended designation to provide official weighing and supervision of weighing services will be assigned only one geographic area in which to perform the combined functions. Not more than one official agency shall provide official weighing and supervision of weighing services at one time in any one area, pursuant to section 7A(i) of the Act (7 U.S.C. 79a(i)).

Effective November 20, 1978, official agencies designated to perform official weighing and supervision of weighing functions are prohibited from performing unofficial weighing services on commodities covered by the amended Act. This is in accordance with section 26.86(e)(2) of the regulations under the Act (7 CFR 26.86(e)(2)), which prohibits official personnel from engaging in any unofficial activities which the public could construe as an unofficial function under the Act.

FACILITY REQUIREMENTS

Before official weighing or supervision of weighing may be performed at a grain elevator, warehouse, or other storage or handling facility, either on a mandatory or permissive basis, such facilities must comply with requirements of section 7A(f) of the Act (7 U.S.C. 79a(f) and meet additional cri-

teria for approval established by the Administrator. Accordingly, effective November 20, 1978, no grain elevator, warehouse, or other storage or han-

Forest Service

NATIONAL FOREST MANAGEMENT ACT COMMITTEE OF SCIENTISTS

Meeting

The Committee of Scientists has scheduled three public meetings to continue preparation of its report to the Secretary of Agriculture regarding the scientific and technical adequacy of proposed regulations prepared by the Forest Service pursuant to Section 6 of the National Forest Management Act.

Each meeting will be held: beginning 8:30 a.m.

November 1-3, 1978 at the Edgewater Inn, 2411 Alaskan Way, Seattle, Wash., (meeting will adjourn 12 a.m., November 3).
December 7-8, 1978 at the Mansion Inn, 700 16th Street, Sacramento, Calif. (meeting will adjourn 5 p.m., December 8).
January 8-10, 1979 in Houston, Tex. Meeting facilities will be announced.

At its November 1-3 meeting, the Committee will hold intensive discussion on two major issues:

1. Lands suitable for timber production will be discussed on the morning of November 1, 1978.
2. Silvicultural standards will be discussed on the morning of November 2, 1978.

Wilderness and timber harvest scheduling, with particular emphasis on criteria for developing departures from nondeclining evenflow, will be discussed December 7-8.

Recommendations for treating the above subjects in regulations or for modifying the content of the proposed regulations should be sent to Charles R. Hartgraves, Forest Service, Director, Land Management Planning, P.O. Box 2417, Washington, D.C. 20013, area code 202-447-5933, to insure adequate consideration.

These are primarily working sessions for the purpose of preparing the Committee Report to the Secretary, and therefore the Committee will not engage in extensive public discussion.

Dated: October 16, 1978.

DOUGLAS R. LEISZ,
Deputy Chief.

[3410-11-M]

SPECIAL SALVAGE TIMBER SALE PROGRAM

Forest Service Policy

AGENCY: Forest Service, USDA.

ACTION: Proposed Policy.

SUMMARY: This proposal sets forth policy and procedures for administering a set-aside program of preferential awards to small business firms bidding on designated salvage timber sales. The program is to be based on a special size standard for loggers and other small forest products firms currently being promulgated by the Small Business Administration.

DATES: Written comments must be received by November 20, 1978.

ADDRESSES: Submit comments to: John R. McGuire, Chief, Forest Service, Department of Agriculture, P.O. Box 2417, Washington, D.C. 20013.

All written submissions made pursuant to this notice will be available for public inspection in the office of the Timber Management Staff, 12th and Independence Avenue, South Agriculture Building, Room 3207, Washington, D.C., during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Jim Beavers or George Leonard, Timber Management Staff, Forest Service, Department of Agriculture, P.O. Box 2417, Washington, D.C. 20013, 202-447-4051.

SUPPLEMENTARY INFORMATION: On October 3, 1978, the Administrator of the Small Business Administration (SBA) published a proposed rule in the FEDERAL REGISTER which would establish a size standard for small business firms applicable to a special salvage timber sale program to be jointly administered by the Forest Service and SBA. This program is designed to facilitate the salvage of insect-infested, dead, and down timber on National Forest System lands.

It is proposed to add the following to the Forest Service Manual.

2438.—Special Salvage Timber Sale Program.

The Special Salvage Timber Sale Program is a joint program administered by the Forest Service and the Small Business Administration (SBA). It provides for preferential award of certain salvage sales, funded under Section 14(h) of the National Forest Management Act of 1976, to loggers and forest products concerns qualified under size standards promulgated by the SBA. Initially the program will be tested on a limited number of Forests. Following an evaluation period it is anticipated that the program will be expanded Nationwide. The two Agencies plan to monitor it closely in order to be sure that it meets its objectives and does not adversely affect volumes available to small or large manufacturing concerns. Timber set aside under this program will be included in nonmanufacturer volume in establishing shares and in 6-month analyses as provided in the 1971 USDA/SBA Agreement.

2438.1—Authority.—The Small Business Act (15 U.S.C. 631) provides authority for the use of set-aside sales to ensure that a fair proportion of the total sales of government property be made to small business firms. SBA, acting under authority of the Small Business Act, has established a small business size standard which defines firms eligible for preferential award on salvage sales. The program operates under the general framework of the USDA/SBA Agreement of December 1971.

2438.2—Objective.—In order to promote the optimum use of wood material, the National Forest Management Act authorized the establishment of a revolving fund to cover the cost of preparing and administering sales of insect-infested, dead, damaged or down timber. The intent of this fund was to provide for increasing the sales of such timber. The objective of the Special Salvage Timber Sale Program is to encourage the development and maintenance of logging capability so that the utilization of such timber can be improved.

2438.3—Eligible Firms.—For the purposes of the Special Salvage Timber Sale Program, the SBA defines a small business as a concern that:

1. Is primarily engaged in the logging or forest products industry:
2. Is independently owned and operated;
3. Is not dominant in its field of operation; and
4. Together with its affiliates, its number of employees has not exceeded 25 persons during any pay period for the past 12 months.

2438.4—Eligible Sales.—Sales meeting all of the following criteria may be set-aside for preferential bidding to small business:

1. Sale preparation financed with salvage sale funds or with funds intended as "seed money" for the salvage sale fund. Where a mix of appropriated and salvage sale funds has been used, more than 50 percent of the estimated preparation cost shall have been paid with salvage sale funds.
2. Sale period no more than 1 year.
3. Sale involves only minor road construction or reconstruction.
4. Sale does not involve catastrophic damage, such as fire or windstorm.

Generally, salvage sales meeting the above criteria will be set aside, unless experience demonstrates that competitive bidding by small loggers and small forest products firms cannot be expected. Relatively small sales are preferred. However, there is no size limit on the sale, provided it can be completed by loggers of average capability in the area. Larger sales suitable for logging by only one or two operators in the area should be avoided so as to prevent allocation to individual firms.

When fire, windstorm or other catastrophic losses occur, the total capacity of the tributary industry is often needed to salvage the timber in a timely manner. Therefore, such sales are not eligible to be set aside under this program. A catastrophic loss is a loss resulting from a single, indentifiable event which affects volume of more than 10 percent of the volume planned for sale on the affected District within any 6-month period or 1 million board feet, whichever is less.

As a general rule, the size of the program in any locality should be geared to the existing capability of the local qualifying firms. However, occasionally it may be appropriate to set aside a larger volume when it is reasonable to expect that all of the included timber will be harvested promptly.

2438.41—Selection process.—Forest Supervisors administering salvage sale programs will, after considering such advice as the SBA representative may offer, select sales to be set aside for preferential bidding by concerns with less than 25 employees and notify the SBA field representative using SBA Form 441 to document the selection process. Each sale selected will be specifically defined as to whether the 30-70 log distribution requirement is or is not required on sawlog volume from that sale (see 2438.5). The SBA field representative will be provided a reasonable period (at least 1 week) for comment prior to publication of the program.

In the event the SBA field representative disagrees on whether or not a proposed sale should be set aside or whether 30-70 manufacturing requirements shall apply, the matter shall be promptly referred to the Regional Forester for review. Because of the need for prompt action on salvage sales, the Regional Forester's decision on whether or not to set aside specific sales or to apply the 30-70 requirement is final. However, if the SBA field representative believes that policy issues relating to the operation of the program are involved, he may seek review of the policy issues, without delay of the particular sale, by higher authorities within the Agencies. It is the intent of the Agencies that the program be a joint program and Forest Supervisors will make every effort to work cooperatively with SBA field representatives.

If a set-aside is agreed upon and the Forest Supervisor determines that it is no longer advisable, or if a new sale is proposed after agreement on the 6-month program, the Forest Supervisor will consult with the SBA representative following the same procedures as outlined above.

2438.5—Contract conditions.—The Forest Service and SBA expect to make annual reviews during the first 3 years of the Special Salvage Timber Sale Program, so that adjustments can be made as necessary to insure that the program objectives are met. In order to facilitate this review, contracts for set-aside salvage sales shall require the purchaser to provide the Forest Service with an accounting of log deliveries by 6-month periods. Data to be furnished shall include volume and species delivered, the point of delivery, and the name and affiliation of the party to whom the logs were sold. The contract shall also require the purchaser to make his records, including payroll records, available to the Forest Service and SBA to verify his eligibility for participation in the program.

Timber sold under the special salvage timber sale program will generally be offered subject to 30-70 manufacturing requirements (see FSM 2431.19) unless the Forest Supervisor determines the purchaser of the sale will not have a competitive market for logs available from qualified small business firms. A competitive market would involve two or more qualified firms which have demonstrated interest in the types (species, size, condition) of logs to be produced on the salvage sale and located within the normal log haul distance from the proposed sale. The Forest Supervisor will consult with the SBA field representative in determining whether sales shall be subject to the 30-70 manufacturing requirement.

2438.6—Size protests.—Instructions set forth in FSM 2431.19 govern procedures for responding to size protests. It is important to notify SBA of the nature of the sale so that appropriate priority can be assigned to resolving the protest.

Dated: October 16, 1978.

R. A. RESLER,
Acting Chief,
Forest Service.

[Order 78-10-67, Docket 33305]

LOFTLEIDIR, H.F. (ICELANDIC AIRLINES)

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of October 1978.

Loftleidir, H.F. (Icelandic Airlines) is the holder of a foreign air carrier permit authorizing foreign air transportation of persons, property, and mail between terminal points in Iceland and the alternate U.S. terminal points New York, N.Y., and Chicago, Ill. By application filed on August 29, 1978, Loftleidir requests amendment of its foreign air carrier permit to add Baltimore, Md., as a U.S. coterminal point. On September 27, 1978, Loftleidir filed a motion for an order to show cause. The authority sought by Loftleidir is provided for in an Exchange of Notes dated August 17, 1978, between the United States and Iceland, amending the Annex of the United States-Iceland Air Transport Services Agreement. Loftleidir wishes to begin offering the service on November 4, 1978.

OPERATING HISTORY

Loftleidir was established in March 1944 as a domestic Icelandic carrier. It began international operations in 1947. In May 1948 it received its existing foreign air carrier permit and began New York-Iceland operations in August 1948.[1] In 1953 Loftleidir began offering U.S.-originating passengers, on a New York-Reykjavik-Luxembourg routing, fares at levels significantly below those established by the member carriers of the International Air Transport Association (IATA) in IATA fare agreements. Loftleidir has continued to offer scheduled low far alternatives vis-a-vis IATA carriers.

PRESENT OPERATIONS

Loftleidir currently operates 19 weekly round-trips to Iceland from the United States during the peak summer season and ten during the off-peak winter season.[2] Single-plane service to Luxembourg via Iceland is available to all passengers. Loftleidir operates four DC-8-63 aircraft. In 1977 its passenger revenues were over $49 million and its cargo revenues over $4 million.

SERVICE PROPOSAL

Loftleidir plans to operate three weekly round-trips during the peak summer season (April 1-October 31) and one weekly round-trip the remainder of the year from Baltimore to Iceland, continuing on to Luxembourg.[3] It will provide single-class service on an unrestricted basis. The basic round-trip fare will be $310 and be available between September 1 and May 31; the peak period fare will be $385 and be available between June 1 and August 31.[4]

The carrier forecasts for Calendar Year 1979: (1) 21,669 round-trip passengers; (2) $7.6 million in passenger revenues; (3) $1.7 million in freight revenues; and (4) $1.6 million operating profit for the proposed service.[5]

OWNERSHIP AND CONTROL

Loftleidir owns no interest in any other person. Loftleidir's stock is held by Flugleidir, H.F., a holding company over 99 percent owned by Icelandic nationals, including 6.3 percent owned by the Government of Iceland.[6] All directors and key management personnel of Loftleidir are Icelandic citizens.

ENFORCEMENT AND SAFETY RECORD

Loftleidir represents that it has never had its operating authority suspended, revoked, canceled or otherwise terminated, and that in the past 5 years it has not been involved in any safety violations or accidents.[7]

Loftleidir, along with several other route carriers providing scheduled service in the North Atlantic market, was a party to the consent decree entered in *United States v. Compagnie Nationale Air France, et al.* (S.D.N.Y., 1975) involving tariff rebating. Loftleidir states, however, that it has not been cited for any specific tariff violation in the past 5 years.

The State of Maryland filed an answer on October 3, 1978, in support of Loftleidir's application. It urged expedited action on the application.

In granting Loftleidir its existing routes to the United States, the Board determined that the carrier was substantially owned and effectively controlled by citizens of Iceland; that it was financially and operationally fit; and that it was in the public interest to grant the carrier authority to the United States.[8] Loftleidir's application indicates that no changes in its corporate structure or operations have occurred which would cast doubt upon the accuracy or validity of the Board's previous findings. Moreover, Loftleidir has operated United States-Iceland scheduled services for 30 years. During the last 25 years, Loftleidir has offered competitive low-fare service in the North Atlantic market giving consumers an alternative to the much higher scheduled fares set by IATA, albeit with a stop en route in Iceland. Thousands of U.S. citizens have taken advantage of Loftleidir's low fares to Luxembourg from New York and Chicago via Iceland, and we find it in the public interest to amend Loftleidir's foreign air carrier permit to authorize Baltimore-originating service to Iceland.

In view of the foregoing and all the facts of record, the Board tentatively finds and concludes that:

1. It is in the public interest to amend the foreign air carrier permit issued to Loftleidir, H.F. (Icelandic Airlines);

2. The public interest requires that the exercise of the privileges granted

---

[1] *Loftleidir, H.F., Air Carrier Permit*, 9 C.A.B. 373 (1948). Loftleidir's route authority has remained unchanged since 1948. Loftleidir, along with other foreign route air carriers with outstanding foreign air carrier permits, was authorized to engage in off-route charter trips in 1958. See *Foreign Off-Route Charter Service Investigation*, 27 C.A.B. 196.

[2] Twelve from New York and seven from Chicago in the summer; seven from New York and three from Chicago in the winter.

[3] The proposed services will result in an annual fuel consumption of 3.9 million gallons, see Loftleidir Exhibit LL-3001. The marginal increase in flights at Baltimore-Washington International Airport will not lead to a significant increase in air pollution or a significant increase in the ambient noise level, see Loftleidir's environmental evaluation, Exhibit LL-3000.

[4] The fares will not be available to Luxembourg-originating passengers. Loftleidir expects to offer children's discounts at 50 percent of the applicable normal fare and to impose surcharges during holiday seasons.

[5] See Loftleidir Exhibit LL-805.

[6] Flugleidir owns, in addition to Loftleidir, interest in the following companies: (1) 100 percent of Flugfelag Islands, H.F., an Icelandic airline with domestic authority and international authority between Iceland and the United Kingdom and Scandinavia; (2) 100 percent of Hekla Holdings Limited, which owns International Air Bahama, an airline with international route authority between Nassau and Luxembourg; (3) 33 percent of Cargolux International Airlines, S.A., a Luxembourgian all-cargo airline; (4) 40 percent of Flugfelag Austurlands, H.F. (East Air Limited), an Icelandic commuter airline; (5) 35 percent of Flugfelag Nordurlands, H.F. (North Air Limited), an Icelandic commuter airline; (6) 80 percent of Urval Travel Agency, a travel agency in Reykjavik; (7) 100 percent of Icelandic Airlines, Inc. a travel agency in New York City; (8) 100 percent of Loftleidir Icelandic Airlines, S.A., a travel agency in Luxembourg; (9) 100 percent of Loftleidir Icelandic Airlines, S.A.R.L., a travel agency in Paris; (10) 100 percent of Hotel Esja HT in Reykjavik; (11) 23 percent of Hotel Aerogulf in Luxembourg; and (12) 16.7 percent of Hotel Husavik in Aukeyrl, Iceland, see Loftleidir Exhibit LL-103.

[7] The minor exception was a hard landing at John F. Kennedy International Airport, New York in 1973. See Loftleidir Exhibit LL-2000.

[8] See *Loftleidir Permit*, 9 C.A.B. 373, 377.

by the amended permit shall be subject to the terms, conditions, and limitations contained in the specimen permit attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board;

3. Loftleidir, H.F. (Icelandic Airlines) is fit, willing and able properly to perform the foreign air transportation described in the specimen permit, and to conform to the provisions of the Federal Aviation Act of 1958, as amended, and the rules, regulations, and requirements of the Board;

4. The public interest does not require an oral evidentiary hearing on the application;[9]

5. The amendment of Loftleidir, H.F. (Icelandic Airlines') foreign air carrier permit would not constitute "a major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 and will not constitute a "major regulatory action" under the Energy Policy and Conservation Act of 1975, as defined in section 313.4(a)(1) of the Board's Regulations;[10]

6. The request of Loftleidir, H.F. (Icelandic Airlines) for a waiver of Part 312 of the Board's Regulations, regarding the requirements for the filing of an environmental evaluation should be granted; and

7. Except to the extent granted, the application of Loftleidir, H.F. (Icelandic Airlines) in Docket 33305 should be denied.

Accordingly,

1. We direct all interested persons to show cause why the Board should not (1) make final its tentative findings and conclusions, and (2) issue an amended foreign air carrier permit to Loftleidir, H.F. (Icelandic Airlines) in the specimen form attached, subject to the approval by the President pursuant to section 801 of the Act;[11]

2. Any interested persons having objections to the issuance of an order making final the Board's tentative findings and conclusions and issuing the attached specimen permit shall, no later than October 26, 1978, file with the Board and serve on the persons named in paragraph 5 below, a statement of objections specifying the part or parts of the tentative findings or conclusions objected to, together with a summary of testimony, statistical data, and concrete evidence expected to be relied upon in support of the objections. If an oral evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, we will give further consideration to the matters and issues raised by the objections before we take further action, *Provided*, that we may proceed to enter an order in accordance with our tentative findings and conclusions set forth in this order, if we determine that there are no factual issues presented that warrant the holding of an oral evidentiary hearing;[12]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Secretary shall enter an order which (1) shall make final our tentative findings and conclusions set forth in this order, and (2) subject to the approval of the President, shall issue an amended foreign air carrier permit to the applicant in the specimen form attached; and

5. We are serving this order upon Loftleidir, H. F. (Icelandic Airlines), the Ambassador of Iceland in Washington, D.C., the U.S. Departments of State and Transportation, Pan American World Airways, Trans World Airlines, Braniff Airways, Northwest Airlines, Delta Air Lines, Trans International Airlines, World Airways, Capitol International Airways, and the Governor and the State of Maryland.

We shall publish this order in the FEDERAL REGISTER and shall transmit a copy to the President of the United States.

By the Civil Aeronautics Board.[13]

PHYLLIS T. KAYLOR,
Secretary.

[Specimen Permit]

UNITED STATES OF AMERICA CIVIL AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN AIR CARRIER (AS AMENDED)

Loftleidir, H.F. (Icelandic Airlines) is authorized, subject to the provisions set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules and regulations of the Board, to engage in foreign air transportation of persons, property, and mail, as follows: Between a terminal point or points in Iceland, and the coterminal points New York, New York, Chicago, Illinois, and Baltimore, Maryland.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Iceland for Icelandic international air service.

The holder shall not operate any aircraft under the authority granted by this permit, unless the holder complies with the operational safety requirements at least equivalent to Annex 6 of the Chicago Convention.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Iceland shall be parties.

The holder shall keep on deposit with the Board a signed counterpart of C.A.B. Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in Agreement C.A.B. 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

The initial tariff filed by the holder shall not set forth rates, fares and charges lower than those that may be in effect for any U.S. air carrier in the same foreign air transportation; *However*, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted here shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

---

[9] Any interested persons having objections to the issuance of an order making final the Board's tentative findings and conclusions, and issuing the attached permit, shall be allowed ten (10) days in which to respond from the date of service of this order.

[10] Our tentative findings are based upon the fact that amendment of Loftleidir, H.F. (Icelandic Airlines') permit will not result in a significant increase in civil aviation operations at U.S. points, nor will it result in an annual increase in fuel consumption of more than 10 million gallons of fuel.

[11] We, therefore, are granting the Loftleidir, H.F. (Icelandic Airlines) motion for an order to show cause.

[12] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[13] All Members concurred.

This permit shall be effective on ———, 1978. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement or amendment, which shall have the effect of eliminating the route or routes authorized by this permit from the routes which may be operated by airlines designated by the Government of Iceland (or in the event of the elimination of any part of the authorized route or routes, the authority granted shall terminate to the extent of such elimination); or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Iceland in lieu of the holder, or (3) upon the termination or expiration of the Air Transport Services Agreement between the Government of the United States of America and the Government of Iceland effective February 1, 1945, as amended by Exchanges of Notes on April 11, 1945 and August 17, 1978: *However*, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation authorized becomes the subject to any treaty, convention, or agreement to which the United States of America and Iceland are or shall become parties.

The Civil Aeronautics Board, through its Secretary, has executed this permit and affixed its seal on .

[SEAL]

Issuance of this permit to the holder approved by the President of the United States on , in .

———,
Secretary.

YUCATAN SERVICE CASE

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter will be held on November 30, 1978, at 10 a.m. in Room 1003, Hearing Room B, Universal Building North, 1875 Connecticut Avenue NW., Washington, D.C., before the undersigned judge.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and four copies to the judge of: (1) Proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Pricing and Domestic Aviation will circulate its material on or before November 9, 1978, and the other parties on or before November 21, 1978. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Pricing and Domestic Aviation, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., October 17, 1978.

RUDOLF SOBERNHEIM,
Administrative Law Judge.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric

FOREIGN FISHING

Preliminary Determinations of Consistency

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Preliminary determinations of consistency of certain 1978 foreign fishing permits with the Fishery Conservation and Management Act of 1976, as amended by Pub. L. 95-354.

SUMMARY: Public comments are sought on preliminary determinations of the consistency of 1978 foreign fishing permits to receive U.S. harvested Gulf of Alaska pollock and Pacific hake with provisions of Pub. L. 95-354.

DATE: Comments received by November 20, 1978, will be considered.

ADDRESS: Comments may be submitted in writing to the Assistant Administrator of Fisheries, National Marine Fisheries Service, F37, Washington, D.C. 20235.

ADDITIONAL INFORMATION MAY BE OBTAINED FROM:

Mr. Alfred J. Bilik, Permits and Regulations Division, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, telephone 202-634-7265.

SUPPLEMENTARY INFORMATION: The fishery Conservation and Management Act of 1976, as amended, 16 U.S.C. 1801 et seq. (Act) provides for a national program for the conservation and management of the Nation's fishery resources within the fishery conservation zone (FCZ). Under the Act and § 611.3 of the Foreign Fishing Regulations (50 CFR Part 611), procedures are established for foreign participation in fisheries under the exclusive management authority of the United States. Any foreign vessel harvesting fish or supporting fishing operations in the FCZ must have a permit. Activities in support of fishing include those in which a foreign vessel in the FCZ receives fish from a U.S. fishing vessel. The amount of fish that a foreign nation's vessels may harvest in the FCZ is limited to that amount which has been allocated by the Department of State to that nation. However, receipts by foreign vessels from U.S. vessels do not count against such allocations.

A NOAA policy, published in the FEDERAL REGISTER on May 12, 1978, created a mechanism to closely review foreign permit applications involving the receipt of U.S. harvested fish by foreign vessels in the FCZ to minimize the possibility that the optimum yield in a fishery would be exceeded. The policy was based on factors directly related to conservation and management of the resource and the requirements of the Act. The policy did not take into consideration any preference for U.S. fish processors.

On August 28, 1978, the President signed Pub. L. 95-354 into law. This law amended the Act to provide a preference for U.S. fish processors to U.S. harvested fish to the extent such processors have and will utilize the capacity to process such fish. An application for a foreign fishing vessel to receive U.S. harvested fish in the FCZ may be approved only if U.S. fish processors do not have, or will not utilize, the capacity to process all U.S. harvested fish from the fishery concerned. The amounts of any U.S. harvested fish which may be received by foreign fishing vessels in the FCZ may not exceed that portion of the optimum yield which will not be utilized by U.S. fish processors.

On June 9, 1978, NMFS issued foreign fishing permits to two Republic of Korea fishing vessels to allow the vessels (*Soo Gong 51* and *Book Neung*) to receive from vessels of the u.S. in the FCZ in 1978 up to a total of 51,460 metric tons (m.t.) of Gulf of Alaska pollock and various amounts of certain other designated species normally taken incidental to the pollock fishery.

On August 16 a similar permit was issued to the Soviet vessel, *Sulak*, for a similar operation in the pollock fishery. The amount of incidental species which may be received by the foreign vessels was determined as a percentage of the pollock received. Percentage limits were derived from experience with the incidental catch in directed foreign fisheries for Alaska pollock. The permits thus were consistent with the NOAA policy of May 12 and complied in all respects with existing requirements of the Act and other applicable law.

On August 16, 1978, NMFS also issued foreign fishing permits to the Soviet fishing vessels MYS *GRINA*, *TERNEY*, and *18 Siezd Vlksm* to allow the vessels to receive from vessels of the United States in the FCZ off California, Oregon, and Washington during 1978, up to a total of 10,000 m.t. of Pacific hake and various amounts of certain other designated species normally taken incidental to the hake fishery. The amount of incidental species which may be received by the foreign vessels again was determined as a percentage of the hake received. Percentage limits were derived from limitations on incidental catch by foreign fishing vessels prescribed under the 1978 Foreign Fishing Regulations for the Washington-Oregon-California trawl fishery. These permits thus also were consistent with the NOAA policy of May 12 and complied in all respects with existing requirements of the Act and other applicable law.

The purpose of this notice is to publish for public comment preliminary NMFS determinations concerning the consistency of permit actions applicable in 1978 for the above named vessels, with the Act, as amended by Pub. L. 95-354, specifically subparagraph 204(b)(6)(B) (i) and (ii). In order to make such determinations, it is necessary to assess the anticipated U.S. harvest of Pacific hake off Washington, Oregon, and California and of Alaska pollock in the Gulf of Alaska in 1978 and to assess the capacity, and utilization of such capacity, of U.S. fish processors to process Pacific hake and Alaska pollock from these geographic areas in 1978. Applying provisions of subparagraphs 204(b)(6)(B)(i) to reconsideration of permits issued on June 9 and August 16 requires a determination whether United States fish processors have adequate capacity, and will utilize such capacity, to process all United States harvested hake and/or pollock from the Washington, Oregon, and California trawl fishery and/or the Gulf of Alaska Trawl fishery in 1978. If U.S. processors do not have, or will not utilize, adequate capacity, the condition of subparagraph 204(b)(6)(ii) must be applied. Under this condition, the total amount or tonnage of U.S. harvested hake or pollock which may be received at sea by foreign fishing vessels during 1978 under the permits may not exceed that part of the optimum yield of these species which will not be utilized by United States fish processors. Permit modifications, if any are required, may be effected in accordance with § 611.3 (i) of the Foreign Fishing Regulations (50 CFR Part 611).

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

OCTOBER 17, 1978.

1978 FOREIGN FISHING PERMITS FOR RECEIVING U.S. HARVESTED ALASKA POLLOCK—REPUBLIC OF KOREA (ROK) VESSELS "SOO GONG" 51 AND "BOOK NEUNG" AND SOVIET VESSEL "SULAK"

ANTICIPATED U.S. HARVEST

U.S. fishing vessels which operate in the Gulf of Alaska historically have not engaged in bottom trawl fishing operations but, rather, have been rigged to fish for crab and shrimp. For the most part, those vessels currently rigged for crab fishing would require major modifications in order to fish for Alaska pollock while most shrimp vessels could easily accommodate groundfish gear. There are about 80 shrimp fishing vessels operating out of Kodiak. In addition, there are two to five trawlers in the Kodiak area which devote a substantial amount of effort towards catching groundfish, including Alaska pollock, for bait. Up to three vessels in and around Petersburg have trawled for pollock during the winter and for flounders during the spring. From 60 to 70 dragnet vessels which normally harvest rockfish and flounder off the Washington, Oregon., and California coasts could fish for Alaska pollock in Gulf of Alaska if the weather conditions and economic factors were suitable. Of the total number of vessels presently capable of harvesting and immediately available to harvest Alaska pollock, a significant portion do not have freezing capability. Thus, these vessels could engage in the Alaska pollock fishery (other than the bait fishery) only in close proximity to a processing plant, a floating processor or a transport with freezer storage. While some conversions to the Alaska pollock fishery have been noted, mass shifts are not indicated.

The projection for the 1977 U.S. harvest of Alaska pollock from the Gulf of Alaska was 1,000 m.t. Actual catches were approximately 232 m.t. the 1978 projection was 17,000 m.t. This amount was contemplated to cover significant increases in domestic landings. In addition, a reserve of 33,760 m.t. has been set aside to accommodate domestic landings in excess of 17,700 m.t. and transfers from U.S. fish harvesters to foreign processors. And assessment completed by the Alaska Region, NMFS in early September has found that the 1978 U.S. harvest will be approximately 32,700 m.t. That assessment is based on catches through June of approximately 500 m.t. with the remainder predicated on the timely commencement and successful operation of the proposed transfer of Alaska pollock to the ROK vessels. Agents for U.S. harvesters who plan to deliver pollock to the ROK vessels state that up to seven U.S. vessels will deliver up to 50 tons per day per vessel for the balance of the year. Operation of the Soviet vessel in the Gulf of Alaska is not expected during 1978.

CAPACITY AND UTILIZATION OF SUCH CAPACITY OF U.S. FISH PROCESSORS

The initial projection of 1978 U.S. processing capacity of Alaska pollock was 17,700 m.t. Early in 1978 that projection was revised downward to 3,000 m.t. of Alaska pollock. The amount of Alaska pollock processed through June was approximately 500 m.t. Two U.S. fish processors who earlier in the year purchased Alaska pollock no longer are accepting deliveries. U.S. fish processors currently are fully utilized processing salmon and shrimp with shifts to crab processing contemplated. In short, realistic production estimates for the remainder of the year indicate that the amount of Alaska pollock which will be processed by U.S. fish processors during 1978 will not significantly exceed the 500 m.t. already processed. There are no indications of processing vessels or freezer transports employed or planned for use by U.S. fish processors for pollock production in 1978.

QUANTITIES WHICH MAY BE RECEIVED

Having established that U.S. fish processors do not have capacity, or will not utilize such capacity, to process all U.S. harvested Alaska pollock which up to seven U.S. vessels have potential to harvest in 1978, it is necessary to reassess the amount of Gulf of Alaska pollock which may be received by foreign fishing vessels in 1978. In accordance with section 204(b)(6)(B)(ii) of the act, as amended by Pub. L. 95-354, such amount may not exceed that portion of the optimum yield (OY) of Gulf of Alaska pollock which will not be utilized by U.S. fish processors. The OY of Gulf of Alaska pollock in 1978 is established at 168,800 m.t. That amount less the 500 m.t. expected to be processed by U.S. fish processors in 1978 leaves 168,300 m.t. Permits for the foreign vessels restrict the amount of U.S. harvested Gulf of Alaska pollock which may be received

by foreign vessels to a maximum of 51,460 m.t., thus meeting the requirements of section 204(b)(6)(B)(ii).

Under the terms of the permits

1978 FOREIGN FISHING PERMITS FOR RECEIVING U.S. HARVESTED PACIFIC HAKE—SOVIET VESSELS "MYS GRINA", "TERNEY", AND "18 SIEZD

In August, in the process of reassessing the anticipated U.S. harvest of Pacific hake during 1978, most of the potential and major buyers and proces-

U.S. harvested fish. Thus, unexpectedly large amounts of Pacific hake processed by U.S. fish processors may reduce amounts that may be received

eral Government will be required to procure the commodity and the service listed below from workshops for

[3128-01-M]

DEPARTMENT OF ENERGY

V 4 3 / 2 0 4

0 C 2 0 7 8

by foreign vessels to a maximum of 51,460 m.t., thus meeting the requirements of section 204(b)(6)(B)(ii).

Under the terms of the permits, moreover, the actual amounts of gulf of Alaska pollock which will be received by foreign fishing vessels may be reduced below 51,460 m.t. the permit provides that if the Director of NMFS determines that 51,400 m.t. of pollock has been harvested by vessels of the United States the permitted foreign fishing vessels may not receive additional U.S. harvested fish in the FCZ. That is, at such time as the total of U.S. harvested Alaska pollock delivered to U.S. fish processors and delivered to foreign vessels equals 51,460 m.t., the foreign vessels may not receive any further U.S. harvested fish. thus, unexpectedly large amounts of Gulf of Alaska pollock harvested by U.S. vessels and processed by U.S. fish processors may reduce amounts that may be received by the foreign vessels.

It should be noted that the Gulf of Alaska trawl fishery management plan, prepared by the North Pacific Fishery Management Council, is to be implemented in late 1978. The plan includes new estimates of the domestic harvest of pollock. thus only about 10,850 m.t. of pollock plus 500 m.t. landed at U.S. ports (11,350 m.t.) will be harvested under the existing preliminary management plan for this fishery. It is expected that about 21,850 m.t. of pollock will be harvested under the fishery management plan for the balance of the year (November-December). Therefore, a total 1978 U.S. harvest of 33,200 m.t. of pollock is expected.

CONCLUSION

The anticipated U.S. harvest of Alaska pollock in the Gulf of Alaska during 1978 (33,200 m.t.) exceeds the capacity and expected utilization of such capacity of U.S. fish processors for Alaska pollock in that fishery during 1978 (500 m.t.). The amount of U.S. harvested fish which may be received by the subject foreign fishing vessels (51,460 m.t. or less) does not exceed that portion of the OY which will not be utilized by U.S. fish processors (168,300 m.t.). thus, permits issued to the foreign vessels are consistent with the provisions of section 204(b)(6)(B) (i) and (ii) of the act, as amended by Pub. L. 95-354. Further, permit restrictions insure that when the total U.S. harvest of Gulf of Alaska pollock reaches 51,460 m.t. in 1978, no further U.S. harvested fish may be received by the foreign vessels.

1978 FOREIGN FISHING PERMITS FOR RECEIVING U.S. HARVESTED PACIFIC HAKE—SOVIET VESSELS "MYS GRINA", "TERNEY", AND "18 SIEZD VLKSM"

ANTICIPATED U.S. HARVEST

Fishing vessels which operate out of Pacific coast ports from Northern California to Washington generally have not engaged in the hake fishery but, rather, have fished for shrimp, crab, rockfish, flounder, and other groundfish. These vessels generally shift among the west coast fisheries according to prices offered and the annual and seasonal availability of the fish resources. However, there are 30 to 50 crab boats which could be converted for trawling operations; up to 100 shrimp boats are rigged for trawling; and 60-70 dragnet vessels currently harvesting rockfish and flounder could operate in the hake fishery. Thus, while up to 220 U.S. vessels are capable of harvesting Pacific hake, the number which will engage in that fishery is dependent primarily on relative prices for and anticipated abundance of Pacific hake and other species. Currently, these factors do not create favorable conditions for mass shifts to the hake fishery. A significant number of the vessels capable of harvesting Pacific hake do not have freezing capability. Thus, these vessels could engage in the Pacific hake fishery only in close proximity to a processing plant, a floating processor or a transport with freezer storage.

The projection for the 1977 U.S. harvest of Pacific hake was 6,800 m.t. The actual 1977 U.S. harvest is estimated at only 630 m.t. The projection for the 1978 U.S. harvest was set originally at 41,000 m.t. This was a high-side estimate to allow for vastly increased domestic landings plus the contemplated joint venture. Based on the conduct of the 1978 fishery to date and reassessments of projections for the remainder of the 1978 fishery, on August 14, 1978, the anticipated U.S. harvest of Pacific hake was set at 10,000 m.t. Prior to August 14, 1978, the contemplated action was approved by the Pacific Fishery Management Council with no dissenting vote and was published in the FEDERAL REGISTER for public comment on August 4, 1978. No comments were received. It should be noted that 5,000 m.t. of the anticipated U.S. harvest of 10,000 m.t. was based on the availability of foreign processing vessels to receive the catch at sea.

CAPACITY AND UTILIZATION OF SUCH CAPACITY OF U.S. FISH PROCESSORS

The early 1978 survey indicated that about 6,000 m.t. of the 41,000 m.t. U.S. harvest of Pacific hake would be processed by U.S. fish processors in 1978. In August, in the process of reassessing the anticipated U.S. harvest of Pacific hake during 1978, most of the potential and major buyers and processors of Pacific hake were contacted. Quatitative estimates of hake production were generally not forthcoming. However, based on production up to that time and realistic production estimates for the remainder of the year it was determined that the amount of Pacific hake which will be processed by U.S. fish processors in 1978 will not exceed 4,000 m.t. It is apparent that the high interest of U.S. fish processors in Pacific hake has not yet been matched by capacity and performance. At present there is only one floating processor being employed by U.S. hake processors in 1978. There are no other indications of floating processors or freezer transports being employed or planned for use by U.S. fish processors during 1978.

QUANTITITES WHICH MAY BE RECEIVED

Having established that U.S. fish processors do not have the capacity, or will not utilize such capacity, to process all U.S. harvested Pacific hake in 1978, there remains the necessity to reassess the amount of Pacific hake, which may be received by foreign vessels. In accordance with section 204(b)(6)(B)(ii) of the Act, as amended by Pub. L. 95-354, such amount may not exceed that portion of the optimum yield (OY) of Pacific hake which will not be utilized by U.S. fish processors. The OY for Pacific hake in 1978 is established at 130,000 m.t. That amount less the 4,000 m.t. anticipated to be processed by U.S. fish processors in 1978 leaves 126,000 m.t. Permits for the Soviet vessels restrict the amount of U.S. harvested Pacific hake to a maximum of 10,000 m.t., thus meeting the requirements of section 204(b)(6)(B)(ii).

Because of the late start of operations by the Soviet vessels (September 17) and the required cessation of such operations not later than October 31, it is probable that the amount of Pacific hake which will be delivered to the Soviet vessels will not exceed 5,000 m.t. That amount added to the amount expected to be processed by U.S. fish processors, 4,000 m.t., does not exceed the anticipated U.S. harvest of 10,000 m.t. Moreover, the terms of the permits for the Soviet vessels provide that if the Director, NMFS, determines that 10,000 m.t. have been harvested by vessels of the United States, the permitted foreign vessels may not receive additional U.S. harvested fish in the FCZ. That is, at such time as the total of U.S. harvested Pacific hake delivered to U.S. fish processors and delivered to the Soviet vessels equals 10,000 m.t., the Soviet vessels may not receive any further U.S. harvested fish. Thus, unexpectedly large amounts of Pacific hake processed by U.S. fish processors may reduce amounts that may be received by the Soviet vessels.

CONCLUSION

The anticipated U.S. harvest of Pacific hake off Washington, Oregon, and California during 1978 (10,000 m.t.) exceeds the capacity and expected utilization of such capacity of U.S. fish processors for Pacific hake in that fishery during 1978 (4,000 m.t.) by 6,000 m.t. The maximum amount of U.S. harvested fish which may be received under the terms of the permits by the Soviet vessels (10,000 m.t.) does not exceed that portion of the OY which will not be utilized by U.S. fish processors (126,000 m.t.). Thus, permits issued to the Soviet vessels are consistent with the provisions of section 204(b)(6)(B)(i) and (ii) of the Act, as amended by Pub. L. 95-354. Further, permit restrictions ensure that when the total U.S. harvest of Pacific hake reaches 10,000 m.t. in 1978, no further U.S. harvested fish may be received by the Soviet vessels.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1978

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The committee has received proposals to add to Procurement List 1978 a commodity to be produced by and a service to be provided by workshops for the blind and other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 22, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is pulished pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodity and the service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity and service to Procurement List 1978, November 14, 1977 (42 FR 59015):

NO NSN

Currency Packing Block, BEP Stock No. L-1391 (formerly BEP L-83).

SIC 0782

Grounds Maintenance Bldgs. M254, M311, M312, M317/318, M325, M339, M340, M495, Naval Air Station, Miramar, San Diego, Calif. 92145.

C. W. FLETCHER,
Executive Director.

DEPARTMENT OF ENERGY

ALABAMA ELECTRIC COOPERATIVE, INC.

Prohibition Order; Effectiveness

Pursuant to section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, 15 U.S.C. 791 et seq. (ESECA), and 10 CFR 303.37 and 305.7, the Department of Energy (DOE) gives notice that the prohibition order dated June 30, 1975, to the below named powerplant shall be effective on the date this notice is signed. The prohibition against the burning of natural gas or petroleum products at the McWilliams Generating Station, powerplant No. 3, as its primary energy source shall commence January 15, 1979. This prohibition shall be in effect until December 31, 1984, unless the order is subsequently amended by DOE.

Docket No.	Owner	Generating station	Powerplant No.	Location
OFU-060	Alabama Electric Cooperative, Inc.	McWilliams	3	Gantt, Ala.

In accordance with the provisions of the Clean Air Act (42 U.S.C. 1857 et. seq.) (sec. 119(d)(1)(B)) which were in effect at the time the subject order was issued and in accordance with the requirements of the Clean Air Act, as amended (42 U.S.C. 7413(d)(5) and the Act of August 7, 1977, Pub. L. 95-95, 112), EPA certified to the Federal Energy Administration (FEA), by letter dated April 28, 1976, that on and after January 28, 1976 powerplant No. 3 could burn coal and comply with the applicable regional limitation. A copy of the EPA letter is attached to this notice.

An Environmental Assessment (EA) of the environmental impact of the issuance of the notice has been performed and as a result of that assessment, FEA, on July 15, 1977, issued a declaration (42 FR 37233, July 20, 1977) that the June 30, 1975, prohibition order when made effective by this notice is not a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). The EA and the negative determination are available upon request from the DOE National Office at the address stated below:

Department of Energy, Division of Coal Utilization, 2000 M Street NW., Washington, D.C. 20461, phone: 202-254-5436.

As provided in the June 30, 1975, prohibition order, any person aggrieved by such order may file an appeal with the DOE's Office of Hearings and Appeals (formerly Office of Exceptions and Appeals), in accordance with 10 CFR part 303, subpart H, within 30 days after service of this notice.

In accordance with 10 CFR part 303, subpart J, application may be made for modification or rescission of the prohibition order based on "significantly changed circumstances", which circumstances occurred during the interval between issuance of the prohibition order and service of this notice. Such application shall be filed within 30 days of service of this notice. Application for modification or rescission based on significantly changed circumstances occurring after such interval may be filed at any time after service of this notice.

All terms and conditions of the prohibition order and this notice, may be the subject of either an appeal or an application for modification or rescission.

Any terms utilized in this notice have the same meaning as such terms have in 10 CFR parts 303 and 305 in the prohibition order.

The prohibition order is effective on the date this notice is signed. Pursuant to 10 CFR 303.7(c), service of the NOE is complete upon mailing. The prohibition against the burning of natural gas or petroleum products commences on January 15, 1979.

V 43/204 OCT 78

Any questions regarding this notice should be directed to Mr. Walter A. Romanek, Director, Division of Coal Utilization, Department of Energy, 2000 M Street NW., Washington, D.C. 20461, 202-254-3910.

Issued in Washington, D.C., October 16, 1978.

BARTON R. HOUSE,
Assistant Administrator, Fuels Regulation, Economic Regulatory Administration.

IOWA PUBLIC SERVICE CO.

Prohibition Order; Effectiveness

Pursuant to section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, 15 U.S.C. 791 et seq. (ESECA), and 10 CFR 303.37 and 305.7, the Department of Energy (DOE) gives notice that the prohibition order dated June 30, 1975, to the below named powerplant shall be effective on the date this notice is signed. The prohibition against the burning of natural gas or petroleum products at the George Neal Generating Station, powerplant No. 1, as its primary energy source shall commence November 15, 1978. This prohibition shall be in effect until December 31, 1984, unless the order is subsequently amended by DOE.

Docket No.	Owner	Generating station	Powerplant No.	Location
OFU-007	Public Service Co	George Neal	1	Salix, Iowa

In accordance with the provisions of the Clean Air Act (42 U.S.C. 1857 et seq.) (section 119(d)(1)(B)) which were in effect at the time the subject order was issued and in accordance with the requirements of the Clean Air Act, as amended (42 U.S.C. 7413(d)(5) and the Act of August 7, 1977, Pub. L. 95-95 112), EPA certified to the Federal Energy Administration (FEA), by letter dated November 19, 1976, that October 1, 1978 was the earliest date upon which powerplant No. 1 could burn coal and comply with the applicable regional limitation. A copy of the EPA letter is attached to this notice.

An Environmental Assessment (EA) of the environmental impact of the issuance of the notice has been performed, and as a result of that assessment, DOE, on June 23, 1978, (43 FR 28229, June 29, 1978) issued a declaration that the June 30, 1975, prohibition order when made effective by this notice is not a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). The EA and the negative determination are available upon request from the DOE National Office at the address stated below:

Department of Energy, Division of Coal Utilization, 2000 M Street NW., Washington, D.C. 20461, phone: 202-254-5436.

As provided in the June 30, 1975, prohibition order, any person aggrieved by such order may file an appeal with the DOE's Office of Hearings and Appeals (formerly Office of Exceptions and Appeals), in accordance with 10 CFR Part 303, Subpart H, within 30 days after service of this notice.

In accordance with 10 CFR Part 303, Subpart J, application may be made for modification or rescission of the prohibition order based on "significantly changed circumstances", which circumstances occurred during the interval between issuance of the prohibition order and service of this notice. Such application shall be filed within 30 days of service of this notice. Application for modification or rescission based on significantly changed circumstances occurring after such interval may be filed at any time after service of this notice.

All terms and conditions of the prohibition order and this notice, may be the subject of either an appeal or an application for modification or rescission.

Any terms utilized in this notice have the same meaning as such terms have in 10 CFR Parts 303 and 305 in the prohibition order.

The prohibition order is effective on the date this notice is signed. Pursuant to 10 CFR 303.7(c), service of the NOE is complete upon mailing. The prohibition against the burning of natural gas or petroleum products commences as of November 15, 1978.

Any questions regarding this notice should be directed to Mr. Walter A. Romanek, Director, Division of Coal Utilization, Department of Energy, 2000 M Street NW., Washington, D.C. 20461, 202-254-3910.

Issued in Washington, D.C., October 16, 1978.

Federal Energy Regulatory Commission

[Docket No. CP78-540]

ARKANSAS LOUISIANA GAS CO.

Notice of Application

OCTOBER 12, 1978.

Take notice that on September 27, 1978, Arkansas Louisiana Gas Co. (Applicant), P.O. Box 1126, Shreveport, La. 71163, filed in Docket No. CP78-540, an application, pursuant to section 7(c) of the Natural Gas Act for authorization to drill five new wells in the Chiles Dome Area, Oklahoma, to test and develop new storage facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that this application is filed as a substitute for the petition to amend the order, issued on April 26, 1977, in Docket No. CP77-222, which Applicant filed on September 11, 1978. It is stated that pursuant to a budget-type authorization issued in Docket No. CP77-222. Applicant collected data which indicates the suitability of using the Chiles Dome Field in Coal County, Okla., as a new gas storage reservoir. In order to confirm the data collected, Applicant states that it desires to drill five new wells and that such wells would ultimately be incorporated into the storage reservoir as injection/withdrawal wells. Applicant anticipates using the Chiles Dome reservoir for its long-term storage needs and general system use and estimates that it would have a rated deliverability of 133,000 Mcf of gas per day, thus augmenting its existing Ada Storage Field. Applicant estimates the cost of drilling the new wells would be $3,500,000, which would be financed from cash on hand and short-term borrowing.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-61 (PGA78-3)]

ARKANSAS LOUISIANA GAS CO.

Notice of Filing of Revised Tariff Sheets Reflecting Purchased Gas Cost Adjustment

OCTOBER 5, 1978.

Take notice that on September 29, 1978, Arkansas Louisiana Gas Co. (Arkla) tendered for filing 18th Revised Sheet No. 4 to its FERC Gas Tariff First Revised Volume No. 1, Rate Schedule No. G-2, to become effective November 1, 1978.

Arkla states that the purpose of 18th Revised Sheet No. 4 is to track producer and pipeline supplier price changes as of November 1, 1978 and to recover the accumulated deferred purchased gas costs as of July 31, 1978, through unit rate adjustments computed pursuant to provisions of Arkla's purchased gas cost adjustment clause contained in its FERC Rate Schedule No. G-2.

Arkla also states that copies of the revised tariff sheet and supporting data were mailed to Arkla's jurisdictional customers and other interested parties affected by this tariff change.

Any person desiring to be heard or to protest said filing should file a Peti-

tion to Intervene or Protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance

the parties. Accordingly, the Commission shall reject the proposed rates for filing, denying the implied request for waiver of the Commission's notice re-

that "General Plant as covered by accounts 389-399 in the Commission's Uniform System of Accounts for Public Utilities and Licenses, should

convene a conference in this proceeding to be held within ten (10) days after the serving of top sheets in a hearing room of the Federal Energy Regulatory Commission,

By the Commission.

[6740-02-M]

[Docket No. ER78-489]

ARKANSAS-MISSOURI POWER CO.

Order Accepting in Part for Filing, Rejecting in Part, Suspending Proposed Rate Increase and Establishing Procedures

OCTOBER 12, 1978.

On July 13, 1978, Arkansas-Missouri Power Co. (Ark-Mo) tendered for filing a proposed rate change for its services to four firm power customers and three transmission service customers.[1] Ark-Mo's submittal was declared deficient in a letter dated August 11, 1978, and was completed on September 12, 1978. The proposed rate revision would increase revenues by approximately $323,091 (29.07 percent) to the firm power customers and by approximately $285,195 (75.84 percent) to the transmission customers, based on the 12-month test period ending December 31, 1979.

The original July 13th submittal requested an effective date of September 1, 1978, for all rates except the proposed transmission service rate to the city of Thayer. The September 12 transmittal letter accompanying the curing documents does not propose a new effective date; neither does Ark-Mo reiterate its request for a September 1 effective date or seek waiver of 18 CFR 35.3 notice requirements. According to 18 CFR 35.2(c), the filing date shall be September 12, 1978, and the suspension period shall commence 30 days thereafter, pursuant to 18 CFR 35.2(e).

As to the effective date for the proposed transmission service rates for the city of Thayer, Ark-Mo indicates that the rates are not to become effective until after the June 30, 1983, expiration of the fixed rate transmission contract currently in effect between the parties. Accordingly, the Commission shall reject the proposed rates for filing, denying the implied request for waiver of the Commission's notice requirements.[2] This denial is based solely upon the prematurity of the filing, and does not reflect the view that the continuation of transmission service to the city of Thayer upon expiration of the existing contract is inappropriate.

Notice of the filing was issued on July 26, 1978, with protests or petitions to intervene due on or before August 2, 1978. No such protests or petitions have been received.

We note that Ark-Mo's case-in-chief includes an allocation of a portion of Liquid Metal Fast Breeder Reactor (LMFBR) research contributions and Electric Power Research Institute (EPRI) contributions to the resale cost of service. In *Carolina Power & Light Co.*, Opinion No. 19, August 2, 1978, we affirmed that part of the Initial Decision in which the Presiding Judge removed LMFBR contributions from the wholesale customers' cost of service. Neither may contributions to EPRI be allocated to wholesale customers' cost of service. Such contributions are voluntary and are made on the basis of retail sales. Moreover, many wholesale customers make contributions to LMFBR and EPRI on the basis of their retail sales. Accordingly, we shall summarily dispose of the allocation to resale cost of service of contributions to LMFBR and EPRI.[3] However, we shall not require Ark-Mo to refile in this case to reflect proper treatment of LMFBR or EPRI, as the cost of refiling may outweigh the benefits it could be expected to produce. It should nevertheless be noted that, in the future, filings must comport with Commission determinations on these issues.

In addition, we find that Ark-Mo has included Accumulated Deferred Investment Tax Credit (ADITC) in its capital structure at zero cost. In the event that Ark-Mo seeks in the proceeding to claim a return on this component of its capital structure, Ark-Mo shall be bound, as are all utilities, by the precedent established in Opinion 19[4] that the appropriate return on this component shall be the overall rate of return allowed, rather than the return on common equity.

We also note Ark-Mo's allocation of General Plant based on plant ratios. In *Minnesota Power & Light Co.*, Opinion No. 20, issued August 3, 1978, in Docket Nos. E-9499, et al., we held that "General Plant as covered by accounts 389-399 in the Commission's Uniform System of Accounts for Public Utilities and Licenses, should be properly allocated on the basis of labor costs," and that "the Company's plant allocation method is not reasonable." We also "requir(ed) that labor ratios be used in allocating general plant. * * * in succeeding cases." In a subsequent order,[5] we indicated that the use of labor ratios in functionalizing general plant was a "general rule" and held that the burden on the applicant was "to show that labor ratios are unreasonable as applied to the Company, not merely that its alternative method might be reasonable." We reiterate that, at hearing, Ark-Mo must sustain the burden of proving labor ratios "unreasonable" and that the mere proffer of evidence of a "reasonable alternative" would be insufficient.[6]

Our reviews indicates that the rates filed by Ark-Mo have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Therefore, the Commission will accept the submittal for filing, excepting the proposed transmission rates for the city of Thayer, and suspend the proposed rates for 5 months. Accordingly, the rates will become effective March 13, 1979, subject to refund.

The Commission orders:

(A) The rates proposed by Arkansas-Missouri Power Co., excepting those rates proposed for transmission service to the city of Thayer, are hereby accepted for filing and are suspended for 5 months, to become effective as of March 13, 1979, subject to refund.

(B) Waiver of 18 CFR 35.3 notice requirements as pertains to the proposed rates for transmission service by Arkansas-Missouri Power Co. to the city of Thayer is hereby denied.

(C) The rates tendered for filing by Arkansas-Missouri Power Co. for transmission service to the city of Thayer is hereby rejected.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(A) of the DOE Act and by the Federal Power Act and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR, Chapter 1, a public hearing shall be held concerning the justness and reasonableness of the rates proposed by the Arkansas-Missouri Power Company in this proceeding.

(E) The Staff shall prepare and serve top sheets on all parties on or before January 10, 1979.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (*see*, Delegation of Authority, 18 CFR 3.6(d)) shall convene a conference in this proceeding to be held within ten (10) days after the serving of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Said Law Judge is authorized to establish all procedural dates and to rule upon all motions (except motions to consolidate and sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(G) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER 78-304]

BOSTON EDISON CO.

Order Clarifying Prior Order

OCTOBER 4, 1978.

The Commission in Opinion No. 809-A,[1] inter alia, directed Boston Edison Co. (Edison) "to file a definitive, cost justified partial requirements rate tariff within 4 months of the issuance of this order." Edison responded by filing a proposed partial requirements tariff on April 10, 1978, this filing being docketed in ER78-304. Then by order issued on May 30, 1978, the Commission accepted the proposed partial requirements tariff for filing and set the matter for hearing. A prehearing conference on the matter was convened on July 19, 1978, during which procedural and jurisdictional concerns arose which have led to the instant motion for clarification filed by Edison on July 27, 1978.

Since Edison has received no requests for service under the newly filed partial requirements tariff, it did not ask for an effective date for that tariff.[2] In the May 30 order, the Commission waived § 35.3(a) and deferred the question of suspension until Edison files notice of commencement of service and asks for an effective date.

During the July 19 prehearing conference (Tr. 3-4), the Presiding Administrative Law Judge expressed concern that, without the partial requirements tariff being in effect, any Commission ruling thereon would be merely advisory and not enforceable.[3] Edison then agreed to seek clarification from the Commission as to its jurisdiction over this tariff absent an effective date (Tr. 37). In its July 27 motion which followed, Edison requests in the alternative either an order that the Commission has jurisdiction to rule definitively upon a rate schedule offered to but not taken by an customer, thus having no effective date, or the assignment of an effective date 30 days after the filing of this motion, in the event the Commission would not otherwise have jurisdiction.[4]

We find that Edison's requested clarification is correct and that no effective date is required for the Commission to exercise full jurisdiction under the Federal Power Act. When waiver of the effective date provision in our filing regulations is appropriate, as in the instant case, supra, the Commission does have jurisdiction to definitively rule upon the justness and reasonableness of rates, charges or tariffs under which the applicant utility seeks to provide service even though no potential customer has yet requested such service. The operative jurisdictional language of the Federal Power Act is "any rate, charges, or classification, demanded, observed, charged, or collected by any public utility * * *."[5] Clearly, Edison's filed partial requirements tariff is "demanded" in that Edison would provide partial requirements service only under that tariff, subject of course to a Commission ruling to the contrary. Accordingly, the Commission possesses jurisdiction under sections 205 and 206 of the Federal Power Act to adjudicate this tariff which has been demanded but never requested to be put into effect.

As a matter of sound regulatory administration, § 35.3(a) requires rate schedules or tariffs to be tendered for filing not less than 30 days nor more than 90 days before the effective date. This requirement can be and was waived in this proceeding when the Commission in the May 30 order found good cause. Specifically, the Commission in Opinion 809-A, supra note 1, concluded that a partial requirements rate should be established through a new filing even though no concrete request for partial requirements service has been made.

The Commission orders:

Edison's July 27 motion for clarification of jurisdiction is granted to the extent set forth in the body of this order.

[1] *Boston Edison Company*, Opinion No. 809-A, Docket Nos. E-7738 and E-7784, issued December 9, 1977.

[2] Instead, Edison requested waiver of § 35.3(a) of the Commission's Rules and Regulations under the Federal Power Act (rate filing cannot be made more than 90 days before effective date) and stated that it would inform the Commission when the tariff is to become effective.

[3] Edison stated on the record that it would be bound by a final nonappealable Commission order relative to the partial requirements tariff.

[4] Edison's full requirements wholesale customers, the Towns of Concord, Norwood and Wellesley, Mass. (the Towns) answered this motion for clarification on August 7, 1978. The Towns oppose setting any effective date, supporting instead deferral of an effective date pending final resolution on the merits.

[5] Section 206(a) of the Federal Power Act, 16 U.S.C. § 824(e). Similar language appears in section 205 of the Federal Power Act, 16 U.S.C. 824(d).

[2] Although Ark-Mo has not explicitly requested a waiver of 18 CFR 35.3, such a request is implicit in Ark-Mo's July 13 transmittal letter.

[Docket No. RP73-86]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Proposed Changes in FERC Gas Tariff

OCTOBER 5, 1978.

Take notice that Columbia Gas Transmission Corp. (Columbia) on September 29, 1978, tendered for filing the following revised tariff sheet to its FERC Gas Tariff, Original Volume No. 1, to become effective November 1, 1978:

FORTY-SEVENTH REVISED SHEET NO. 16

Columbia states that Forty-seventh Revised Sheet No. 16 is necessary in order to comply with Commission order issued January 20, 1975 at Docket No. RP73-86 which provides for a phased removal of its multiple zone system. In compliance with the above mentioned order the rates contained in this filing reflect a further one-sixth movement to be effective November 1, 1978 toward a system-wide rate structure.

Copies of this filing were served upon the Company's jurisdictional customers, interested State commissions and to each of the parties set forth on the official service list in this proceeding.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP77-407]

EL PASO NATURAL GAS CO.

Notice of Petition To Amend

OCTOBER 13, 1978.

Take notice that on October 4, 1978, El Paso Natural Gas Co. (Petitioner), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP77-407, a petition, pursuant to section 7(c) of the Natural Gas Act, to amend the order issued July 5, 1978, in the instant docket so as to extend the period in which Petitioner is authorized to transport natural gas for Pacific Interstate Transmission Co. (Pacific), all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner states that it was authorized to transport and deliver, on a best efforts basis, up to 200 billion Btu's of gas per day for Pacific for a limited-term period ending October 31, 1978. It is stated that Petitioner receives the gas from Northwest Pipeline Corp. (Northwest) at a delivery point near Ignacio, Colo., and delivers the gas to Southern California Gas Co. (SoCal), for Pacific's account, at the Arizona-California boundary. It is further stated that Pacific's gas purchase agreement with Northwest has been amended to extend until October 31, 1981, with an automatic extension of the term to and including September 30, 1989. Consequently, Petitioner requests that the order of July 5, 1978, in the instant docket be amended to extend the period of authorization from October 31, 1978, through September 30, 1989.

The petition indicates that the gas supplies to be received under the extended arrangements would aid SoCal in meeting its public responsibilities to gas consumers in its service areas.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before November 6, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP78-548]

EL PASO NATURAL GAS CO. AND NORTHERN NATURAL GAS CO.

Notice of Application

OCTOBER 12, 1978.

Take notice that on September 29, 1978, El Paso Natural Gas Co. (El Paso), Post Office Box 1492, El Paso, Tex. 79978, and Northern Natural Gas Co. (Northern), 2223 Dodge Street, Omaha, Nebr. 68102, filed a joint application in Docket No. CP78-548 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing (i) the utilization of certain existing facilities, (ii) the construction and operation of certain new facilities, and (iii) the limited-term delivery and exchange of up to 30 billion Btu's equivalent of natural gas per day on a firm and best efforts basis, at points of interconnection of El Paso's and Northern's facilities located in Eddy County, N. Mex. and Hemphill County, Tex., and the balancing point in Pecos County, Tex., all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that El Paso is advised that Northern has acquired interests in gas production in two (2) supply areas, including two (2) wells presently connected to El Paso's existing field gathering facilities in such areas, both areas located in Eddy County, N. Mex., from which production can be delivered to El Paso, on a short-term basis, for exchange. It is stated that El Paso's existing facilities have capacity adequate to handle such production. Northern is advised that El Paso, through its gas acquisition and development program, has available natural gas supplies which are temporarily in excess of El Paso's available system capacity in Hemphill County, Tex.[1] El Paso is advised further, that Northern also has an existing gathering system located in Hemphill County, Tex., that currently possesses a small amount of excess capacity, which capacity can be used to accept deliveries of natural gas made available by El Paso for exchange, on a firm and a best efforts basis, for a limited-term period. Accordingly, in order to facilitate and effectuate such interim arrangements, El Paso and Northern have entered into a limited-term exchange agreement dated August 29, 1978 (exchange agreement), designed to assist each party in making additional quantities of natural gas available to their respective systems, it is asserted.

The application further states that under the subject exchange agreement, Northern has agreed to accept, partially on a firm and partially on a best efforts basis from El Paso up to an aggregate of 30 billion Btu's of natural gas that would be delivered by El Paso at mutually agreed to points of interconnection that would be installed between the parties systems in Hemphill County, Tex., hereinafter referred to as the Hemphill County Delivery Points. It is stated that from the date of initial deliveries through October 1, 1978, Northern has agreed to receive at the Hemphill County Delivery Points, up to 5 billion Btu's per day of natural gas on a firm basis. It is further stated that after October 1, 1978, and extending to the end of the term of the subject exchange arrangement (Apr. 30, 1979), Northern has agreed to receive at said points up to 15 billion Btu's per day of natural gas on a firm basis and up to 15 billion Btu's per day of natural gas on a best efforts basis. Concurrently, El Paso has agreed to receive from Northern quantities of natural gas equivalent on a million Btu basis to the firm and best efforts quantities delivered by El Paso to Northern such quantities to be made available to El Paso by Northern from the Little Box Canyon and Cass Ranch area supply sources located in Eddy County, N. Mex., hereinafter referred to as the Eddy County Delivery Points, it is said.

It is asserted that El Paso and Northern have agreed that the subject limited-term exchange arrangement would provide for the exchange of equivalent quantities of natural gas on a million Btu basis on a reasonably concurrent basis without charge. It is further asserted that should an imbalance occur, the exchange agreement provides that any such imbalance would be eliminated by the parties as soon as possible at Mobil Oil Corp's (Mobil) Coyanosa Plant located in Pecos County, Tex.

It is said that with respect to the existing Eddy County Delivery Points, no new or additional facilities would be required by either party. It is further said that as for new wells that Northern may acquire an interest in and which are located in the areas of interest set forth in the exchange agreement, Northern has agreed to install those facilities necessary to deliver and measure natural gas to El Paso's system and El Paso has agreed to install all necessary taps and side valves to accept such natural gas into its existing field gathering system. The parties have agreed that Northern would install necessary taps, side valves and related piping necessary to effectuate the receipt of natural gas from El Paso at the Hemphill County Delivery Points. It is said that El Paso would install all remaining facilities, including measurement and flow control devices at the Hemphill County Delivery Points. Further, El Paso requests that the authorizations sought herein, when granted, specifically permit the construction and operation of minor tap and valve facilities, as may be required, to permit Northern to attach to El Paso's gathering system additional wells which may become available to Northern in the Little Box Canyon and Cass Ranch areas of Eddy County, N. Mex., it is said. Northern would construct and operate its specific facilities at the Hemphill County Delivery Points A and B as well as additional facilities, when necessary, to attach future wells in Eddy County, N. Mex., through use of its budget-type gas-purchase facility authorization at Docket No. CP77-587, it is asserted. It is further stated that the total estimated cost of the facilities to be constructed by El Paso hereunder is $98,041, which cost El Paso would finance from internally generated funds.

The exchange agreement would become effective when all necessary regulatory approvals have been obtained and accepted and would continue in full force and effect through April 30, 1979, it is indicated.

It is stated that the subject agreement would make available to Northern certain natural gas supplies for the forthcoming 1978-79 heating season. It is further stated that the agreement would enable El Paso to obtain gas supplies which cannot be presently transported by El Paso to its interstate system markets due to El Paso's temporarily limited pipeline capacity in the Hemphill County, Tex., area.

Any person desiring to be heard or to make any protest with reference to said application should, on or before November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the authorization is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP78-537]

FLORIDA GAS TRANSMISSION CO.

Notice of Application

OCTOBER 12, 1978.

Take notice that on September 25, 1978, Florida Gas Transmission Co. (Applicant), P.O. Box 44, Winter Park, Fla. 32790, filed in CP78-537 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 6.5 miles of pipeline facilities to extend between block 149 and block 132 in the South Marsh Island area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has acquired the right to purchase 77 percent of the total amount of gas produced from the block 149 field by Shell Oil Co., Florida Gas Exploration Co., Barber Oil Exploration, Inc., and Drillamex, Inc. Applicant requests authorization to construct and operate approximately 6.5 miles of 10-inch pipeline to extend

[1] It is stated that El Paso filed with the Commission on June 19, 1978, as supplemented on July 14, 1978, at Docket No. CP78-383, its application to increase the capacity of its existing Panoma to Dumas system, which will assist El Paso in increasing its capacity in Hemphill County, Tex. By order issued September 5, 1978, the Commission granted El Paso requisite certificate authorization at Docket No. CP78-383.

[Docket No. ER78-629]

IOWA POWER & LIGHT CO.

Notice of Filing of Transmission Service Agreement

OCTOBER 12, 1978.

Take notice that Iowa Power & Light Co., Des Moines, Iowa (Iowa Power) on September 29, 1978, tendered for filing a Transmission Service Agreement with Iowa-Illinois Gas & Electric Co., Davenport, Iowa (Iowa-Illinois) dated December 30, 1977.

Relating to the proposed utilization by Iowa-Illinois of 202 MW of capacity in Iowa Power's existing 345 kV transmission system from the Sycamore substation near Des Moines, Iowa, to Hills substation near Hills, Johnson County, Iowa, the agreement facilitates transmission of Iowa-Illinois' share of Council Bluffs Generating Unit No. 3 capacity. The agreement is to become effective on the first of the month next following synchronization of the unit, which is not anticipated to occur prior to October 1978. Consequently, an effective date of November 1, 1978 is requested, subject to confirmation of the synchronization date.

Iowa Power states the purpose of the proposed rates and charges is to recover reflected costs of the facilities to be provided as the scheduling path, for associated operation and maintenance, and for transmission losses for which compensation in kind is provided.

Iowa Power states copies of the filing have been mailed to Iowa-Illinois and to the Iowa State Commerce Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NW., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 20, 1978. Protests will be considered by the Commission in determining the appropriate action be taken but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-630]

IOWA POWER & LIGHT CO.

Notice of Filing of Transmission Service Agreement

OCTOBER 12, 1978.

Take notice that Iowa Power & Light Co., Des Moines, Iowa (Company) on September 29, 1978, tendered for filing a Transmission Service Agreement with Eastern Iowa Light & Power Cooperative, Wilton, Iowa (Cooperative), dated February 27, 1978.

Relating to the proposed utilization by Cooperative of 24 MW of capacity in Company's existing 345 kV transmission system from the Sycamore substation near Des Monies, Iowa, to Hills substation near Hills, Johnson County, Iowa, the agreement facilitates transmission of Cooperative's share of Council Bluffs Generating Unit No. 3 capacity. The agreement is to become effective on the first of the month next following synchronization of the unit, which is not anticipated to occur prior to October 1978. Consequently, an effective date of November 1, 1978, is requested, subject to confirmation of the synchronization date.

Company states the purpose of the proposed rates and charges is to recover reflected costs of the facilities to be provided as the scheduling path, for associated operation and maintenance, and for transmission losses for which compensation in kind is provided.

Company states copies of the filing have been mailed to Cooperative and to the Iowa State Commerce Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER77-578]

KANSAS GAS & ELECTRIC CO.

Notice of Compliance Filing

OCTOBER 13, 1978.

Take notice that Kansas Gas & Electric Co. on February 28, 1978 tendered for filing changes in its FPC Electric Service Tariff Nos. 32, 45, 46, 47, 48, 49, 72, 74, 87, 89, 98, 110, 113, 114, 115, 117, 118, 119, 120, 122, 123, 124, 125, 126, 127, 128, 129, 131, and 134, in response to Ordering Paragraph H of the Commission's February 1, 1978, order in the above-noted docket.

This filing represents a number of contractual amendments which have not been previously filed with the Commssion. The majority are changes to the maximum and minimum amounts of power delivered to the customer.

The amendments date back to 1970 and were executed by both parties with appropriate copies supplied upon execution, according to the Company.

Any person desiring to be heard or to protest said application should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before October 27, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this application are on file with the Commission and are available for public inspection.

KANSAS POWER & LIGHT CO.

Notice of Filing

OCTOBER 12, 1978.

Take notice that Kansas Power & Light Co. on October 2, 1978, tendered for filing an amendment dated September 5, 1978, to that Certain Contract dated August 7, 1974, and designated KPL Rate Schedule FPC No. 186. The Company indicates that the contract concerns wholesale electric service to the City of Minneapolis.

The Company requests waiver of the Commission's notice requirements to allow for an effective date of September 5, 1978.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 23, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[6740-02-M]

[Docket No. CP78-545]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Application

OCTOBER 11, 1978.

Take notice that on September 28, 1978, Michigan Wisconsin Pipe Line Co. (Applicant), One Woodward Avenue, Detroit, Mich. 48226, filed in Docket No. CP78-545 an application, pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Applicant to (1) provide transportation services for United Gas Pipe Line Co. (United), Panhandle Eastern Pipe Line Co. (Panhandle), Mississippi River Transmission Corp. (Mississippi), and Northern Indiana Public Service Co. (NIPSCO); (2) construct and operate pipeline, measurement, and compressor facilities necessary to provide the transportation services; and (3) exchange natural gas with Great Lakes Gas Transmission Co. (Great Lakes), all as more fully set forth in the application which is on file with the Commission and open for public inspection.

The application indicates that ANR Storage Co. (ANR) filed in Docket No. CP78-432 a request for authorization to provide natural gas storage services for United, Panhandle, Mississippi, and NIPSCO (collectively referred to as the storage customers), and for such purpose to acquire, develop, and operate for underground natural gas storage gas fields located in Kalkaska County, Mich. Applicant states the purpose of the instant application is to obtain authorization to provide transportation services for the storage customers, and to construct and operate pipeline, measurement, and compression facilities necessary to provide such services.

Applicant states that it has agreed to provide a transportation service for United of up to 30,000,000 Mcf of natural gas, plus compressor fuel. During 1980 and ensuing Summer Periods (April 1 through October 31), it is stated that United would cause Midwestern Gas Transmission Co. (Midwestern) to deliver annually to Applicant up to 30,000,000 Mcf of gas at a daily rate of up to 100,000 Mcf at an existing point of connection between the pipeline systems of Applicant and Midwestern located in Channahon Township, Will County, Ill. (the Will County delivery point).

It is further stated that United would annually deliver to Applicant up to 10,750,000 Mcf at a daily rate of up to 53,750 Mcf at a point of interconnection between the pipeline systems of Applicant and United located in Rapides Parish, La. Subject to an exchange arrangement presently being negotiated by United with Arkansas Louisiana Gas Co. (Arkla), Applicant states as an alternative to making deliveries to Applicant in Rapides Parish, at Applicant's option United would cause Arkla to make deliveries to Applicant for United's account of up to 10,750,000 Mcf at the tailgate of Arkla's treating plant located in Custer County, Okla. Applicant states that it would transport and redeliver equivalent volumes to Michigan Consolidated Gas Co., Interstate Storage Division (Consolidated), at an existing point of connection between the pipeline systems of Applicant and Consolidated located in Ypsilanti Township, Washtenaw County, Mich. (the Willow Run delivery point). Consolidated would transport the quantities so received and redeliver equivalent quantities to Applicant at a point of interconnection between the systems of Applicant and Consolidated located at Applicant's W. G. Woolfolk Compressor Station in Austin Township, Mecosta County, Mich. (the W. G. Woolfolk delivery point), it is asserted. From this point, Applicant states that it would transport and redeliver the storage volumes to Great Lakes at a point of interconnection between the pipeline systems of Applicant and Great Lakes at Farwell, Mich. (the Farwell delivery point), and Great Lakes would redeliver equivalent volumes to ANR at a proposed point of connection between ANR and Great Lakes (the Kalaska delivery point) pursuant to a transportation and exchange arrangement between Applicant and Great Lakes.

It is stated that during the Winter Period (November 1 through March 31), ANR would deliver the storage volumes to Great Lakes which in turn would deliver such volumes to Applicant at the Farwell delivery point. Applicant would transport and redeliver equivalent volumes to Midwestern and Consolidated for the account of United. Applicant indicates that it

would annually redeliver to Midwestern at the Will County delivery point up to 20,000,000 Mcf at a rate of up to 222,222 Mcf per day and the balance

transportation service in conjunction with the off peak storage service.

The application indicates that in accordance with a Transportation Agree-

plicant requests authorization to construct and operate the following new facilities:

November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to

that Defendants have improperly produced and caused to be delivered to Tennessee natural gas from certain

ately paying back to Complainants amounts of gas which Tennessee took in disregard of the unitization order.

V 4 3 / 2 0 4 0 C 2 0 7 8

would annually redeliver to Midwestern at the Will County delivery point up to 20,000,000 Mcf at a rate of up to 222,222 Mcf per day and the balance to Consolidated at the W. G. Woolfolk delivery point at a daily rate of up to 105,278 Mcf. Applicant states that daily delivery rates and the times of such deliveries would be determined by it based on its ability to provide the proposed service. It is stated that the quantities delivered by Applicant to Consolidated would be transported by Consolidated and redelivered to Applicant at the Willow Run delivery point. Applicant would redeliver equivalent volumes to United by displacement at a point of connection between their systems in St. Mary Parish, La., it is said. As consideration for providing the transportation service, Applicant states that United would pay it an initial rate of $622,000 per month.

The application indicates that in accordance with a Transportation Agreement covering transportation for 50-day storage service and a second transportation Agreement covering off-peak storage service, both dated July 6, 1978, with Panhandle, Applicant has agreed to provide a transportation service for Panhandle of up to an aggregate of 1,260,000 Mcf of natural gas, plus compressor fuel. In combination, it is stated, the agreements provide that during the 1980 and ensuing Summer Periods, Panhandle would deliver to Applicant up to 1,260,000 Mcf at a daily rate of up to 6,310 Mcf at an existing point of connection between their systems located in Noble Township, Defiance County, Ohio (the Defiance delivery point). Applicant states that it would transport and redeliver equivalent volumes to Consolidated at the Willow Run delivery point. From this point, it is stated, the gas would be transported and delivered to ANR for storage in the manner described above for the transportation and delivery of storage gas for United.

During the Winter Periods, Applicant asserts, ANR would deliver the storage volumes to Great Lakes for transportation to Michigan Wisconsin. Applicant states that it would transport and redeliver equivalent volumes, to Consolidated at the W. G. Woolfolk delivery point at a daily rate of up to 23,909 Mcf, and Consolidated would transport and deliver equivalent volumes to Applicant at the Willow Run delivery point. Applicant states that it would redeliver by displacement equivalent volumes to Panhandle at the Defiance delivery point. As consideration for providing the transportation service, Applicant states that the agreement covering the transportation service for the 50-day storage service provides for an initial rate of $21,170 per month and $1,388 per month for the transportation service in conjunction with the off peak storage service.

The application indicates that in accordance with a Transportation Agreement dated September 22, 1978, with Mississippi, Applicant has agreed to provide a transportation service, in conjunction with a 100-day storage service to be provided by ANR, for Mississippi of up to 3,050,000 Mcf of natural gas, together with compressor fuel. Applicant states that during the 1980 and ensuing Summer Periods, Mississippi would cause Panhandle to deliver to it up to 3,050,000 Mcf at a daily rate of up to 15,266 Mcf at the Defiance delivery point. Applicant further states that Mississippi's gas would be transported from, and redelivered to, the Defiance delivery point for Mississippi's account in the same manner as Panhandle's storage gas, described above, except that Applicant would not be obligated to redeliver gas to Consolidated for the account of Mississippi in excess of 29,997 Mcf per day. Applicant states that Mississippi would pay it an initial rate of $48,708 per month.

Finally, the application indicates that in accordance with a Transportation Agreement dated May 12, 1978, with NIPSCO, Applicant has agreed to provide a transportation service for up to 2,000,000 Mcf of natural gas, plus compressor fuel. Applicant states that during the 1980 and ensuing Summer Periods, NIPSCO would cause Natural Gas Pipeline Co. of America (Natural) to deliver to it up to 2,000,000 Mcf at a daily rate of up to 10,000 Mcf at an existing point of connection between the systems of Applicant and Natural at Joliet, Ill. Applicant states that it would transport and redeliver equivalent volumes to Consolidated at the Willow Run delivery point. From this point, applicant indicates that NIPSCO's gas would be transported to ANR for storage in the same manner as United's storage gas, described above.

During the winter period, Applicant states that ANR would deliver to Great Lakes, for the account of Applicant, and Applicant would redeliver equivalent volumes to NIPSCO at a daily rate of up to 21,833 Mcf at the outlet side of its meter station in La-Porte County, Ind., where Applicant's pipeline system is connected with the system of NIPSCO and/or, at NIPSCO's request, at Applicant's existing meter station in Adams County, Ind., where Applicant indicates it makes deliveries to NIPSCO under other service agreements. As consideration for providing the transportation service, Applicant states that NIPSCO would pay it an initial rate of $31,367 per month.

To provide the transportation services for United, Panhandle, Mississippi, and NIPSCO described above, Applicant requests authorization to construct and operate the following new facilities:

1. 4,000 horsepower of compression and four additional 8-inch meters at Applicant's existing compressor station located in Will County, Ill., at an estimated cost of $3,157,670.
2. 1,000 horsepower of additional compression at Applicant's existing compressor station located in Defiance County, Ohio, at an estimated cost of $898,030.
3. 4,000 horsepower of additional compression at Applicant's W. G. Woolfolk Compressor Station located in Mecosta County, Mich., at an estimated cost of $3,863,630.
4. 31.6 miles of 36-inch O.D. pipeline loop located in Mecosta, Osceola, and Clare Counties, Mich., between applicant's W. G. Woolfolk Compressor Station and Lincoln Compressor Station, at an estimated cost of $18,879,990.

Applicant estimates that the total cost of the above-described facilities will be $26,851,630 which, it indicates, would be financed initially with treasury funds, retained earnings and other funds generated internally together with borrowings from banks and/or short-term lines of credit as required. Applicant states that it contemplates that any bank borrowings will be permanently financed as market conditions permit.

To implement the above-described arrangement, Applicant states that it and Great Lakes have entered into a Gas Transportation and Exchange Contract dated May 30, 1978. Applicant indicates that the agreement provides that during the Summer Period, Great Lakes would exchange a maximum quantity of 300,000 Mcf per day for not in excess of 60 days and 200,000 Mcf per day for the remaining days. It is stated that during the Summer Period, the point of delivery where Applicant would make deliveries of exchange gas is at the Farwell interconnection and the point of delivery where Great Lakes would make redelivery of the exchange gas is at the Kalkaska delivery point. During the winter period, Applicant states that ANR would make deliveries of up to 550,000 Mcf per day to Great Lakes of storage gas at the Kalkaska delivery point, and Great Lakes would provide transportation and make redeliveries of equivalent volumes to Applicant at the Farwell interconnection and/or alternatively at an existing point of connection between the pipeline systems of Applicant and Great Lakes at Crystal Falls, Mich. As consideration for providing the transportation service, Applicant states that Great Lakes would charge 2.66 cents per Mcf for all gas received by Great Lakes for Applicant's account at the Kalkaska delivery point during the Winter Period.

Any person desiring to be heard or to make any protest with reference to said application should on or before

November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.7). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. any person wishing to become a party to a proceeding or to participate as a party in any hearing herein must file a petition to intervene in accordance with the Commission's rules.

Take further notice, that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP78-535]

NATURAL GAS PIPELINE CO. OF AMERICA, ET AL., COMPLAINANTS, V. TEXACO INC., ET AL., DEFENDANTS

Notice of Complaint

OCTOBER 12, 1978.

Take notice that on September 22, 1978, Natural Gas Pipeline Co. of America, 122 South Michigan Avenue, Chicago, Ill. 60603, Sea Robin Pipeline Co., P.O. Box 1478, Houston, Tex. 77001, and United Gas Pipeline Co., P.O. Box 1478, Houston, Tex. 77001 (jointly referred to as Complainants), jointly filed in Docket No. CP78-535 a complaint, pursuant to section 13 of the Natural Gas Act, against Texaco Inc. (Texaco), Tenneco Oil Co., a Division of Tenneco Inc. (Tenneco), and Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee) (jointly referred to as Defendants) alleging that Defendants have improperly produced and caused to be delivered to Tennessee natural gas from certain unitized blocks located in the Federal Domain, offshore Louisiana, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

The facts alleged by Complainants are as follows: Complainants purchase gas produced from West Cameron Blocks 532, 533, and 534. The producers which have an interest in said West Cameron Blocks are Mobil Oil Corp., Chevron U.S.A., Inc., Pennzoil Louisiana and Texas Offshore, Inc., Pogo Producing Co., and Pennzoil Oil and Gas, Inc. Tennessee purchases gas produced by Tenneco and Texaco from East Cameron Block 281. Two reservoirs underlie all or part of the West Cameron Blocks 532, 533, and 534 and East Cameron Block 281, with the 3,200 ft. Sand reservoir underlying West Cameron Blocks 532, 533, and 534 and East Cameron Block 281, and the 3,500 ft. Sand reservoir underlying West Cameron Blocks 532 and 533, and East Cameron Block 281. In 1976, the Oil and Gas Supervisor, Production Control, Gulf of Mexico Area, of the United States Geological Survey (USGS) determined these reservoirs to be competitive. Subsequently, the USGS established a unitization plan, determining the proportionate share of production from such reservoirs to which each producer is entitled, which became effective January 1, 1977.

Complainants allege that since January 1, 1977, to the present Texaco and Tenneco have been producing from these reservoirs volumes of natural gas in excess of the amounts attributable to the East Cameron Block 281 under the USGS order. Complainants state that Texaco and Tenneco's proportionate share of the reservoirs as established by the USGS order is 16 percent. Complainants further state that from January 1, 1977 to July 1, 1978, Texaco and Tenneco have produced a combined total of 51,800,000 Mcf of gas from the two reservoirs which constitutes a production of 30,900,000 Mcf of gas over the amount properly attributable to their share as determined by USGS. The amount of recoverable reserves remaining in the two reservoirs, Complainants state to be 133,600,000 Mcf of gas. Consequently, Complainants state that because they are concerned that gas to which they are entitled will not be delivered to them, they request that the Commission issue an order directing Tenneco and Texaco to produce and Tennessee to take deliveries of no more gas than the amounts attributable to East Cameron Block 281 under the USGS unitization order. Additionally, it is requested that Tenneco, Texaco and/or Tennessee be ordered to begin immediately paying back to Complainants amounts of gas which Tennessee took in disregard of the unitization order. Alternatively, Complainants request that an order be issued establishing a date for a hearing on this matter.

Any person desiring to be heard or to make any protest with reference to said complaint should on or before November 15, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Project No. 2852]

NEW YORK STATE ELECTRIC & GAS CORP.

Notice of Application for Major License for Constructed Project

OCTOBER 12, 1978.

Public notice is hereby given that New York State Electric & Gas Corp. ("applicant") has filed an application under the Federal Power Act (16 U.S.C. 791(a)-825(r) (1970)) for a major license for its constructed Keuka project, FERC project No. 2852. The Keuka project is located on the impounded waters of Lamoka and Waneta Lakes near the cities of Geneva and Corning, in Schuyler and Steuben Counties, N.Y. Correspondence regarding this application should be sent to Mr. L. Theodore Everett, senior vice president, New York State Electric & Gas Corp., P.O. Box 287, Ithaca, N.Y. 14850 and Huber, Magill, Lawrence & Farell, 99 Park Avenue, New York, N.Y. 10016.

The constructed 2 megawatt Keuka project consists of:

(1) The Bradford Dam, located at the south end of Lamoka Lake, which is comprised of (A) a concrete, earth, and rock fill spillway and gate section (30 feet wide, 85 feet long, and 20 feet high) including a concrete apron (65 feet (average) wide, 31 feet long, and 8 inches thick); (B) two concrete outlet tunnels each of which are 6 feet wide, 4.5 feet high, and 30 feet long; (C) two earth and rock fill embankments, the one west of the spillway measuring 25

feet (average) wide, 424 feet long, and 10 feet high; the one east of the spillway measuring 48 feet (average) wide, 57 feet long, and 10 feet high;

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,

participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

the Commission and are available for public inspection.

KENNETH F. PLUMB,

proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to inter-

ceive volumes of natural gas equivalent to volumes of LNG which Haverhill would purchase from DOMAC.

Applicant proposes to receive from

V 4 3 / 2 0 4 0 C 2 0 7 8

feet (average) wide, 424 feet long, and 10 feet high; the one east of the spillway measuring 48 feet (average) wide, 57 feet long, and 10 feet high;

(2) A natural channel, 25 feet wide, 5 feet deep, and 4,400 feet long connecting Lakes Lamoka and Waneta;

(3) An unlined canal 12 feet wide, 7 feet deep, and 9,290 feet long connecting Lake Waneta to the headworks structure;

(4) A reinforced concrete headworks structure;

(5) A concrete penstock, 54 inches in diameter and 3,600 feet long, connected to a riveted steel penstock 42 inches in diameter and extending 825 feet to the generating plant;

(6) A reinforced concrete powerhouse approximately 18 feet long, 30 feet wide, and 27 feet high;

(7) A single generating unit rated at 2,000 kW under a design head of 380 feet;

(8) A transmission-distribution substation located 50 feet east of the generating station; and

(9) Two 25.5-kV transmission lines.

(A) One approximately 7.5 miles long terminating at the Dundee substation; and

(B) One approximately 8.2 miles long terminating at the Hammondsport substation.

(10) Appurtenant facilities; and

(11) The impounded waters of Lakes Lamoka and Waneta which provide a storage capacity of approximately 5,760 acre-feet, at a spillway elevation of 1,099 feet.

RECREATION

Recreationists now make only limited use of the project area. Development plans for the near future provide only for parking facilities. Applicant states that access to the lakes is good.

USE OF PROJECT ENERGY

All energy generated is incorporated into the applicant's main transmission system for use within the State.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before December 18, 1978. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-29622 Filed 10-19-78; 8:45 am]

[6740-02-M]

[Docket No. CP79-2]

NORTHERN NATURAL GAS CO.

Notice of Application

OCTOBER 12, 1978.

Take notice that on October 2, 1978, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP79-2 an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing January 1, 1979, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of the budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coestensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant request that the provisions of § 157.7 (b)(1) of the Commission's Regulations be waived so as to authorize Applicant to spend an amount not to exceed $15,000,000, with no single onshore project cost to exceed $2,500,000 and no single offshore project cost to exceed $3,500,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisidiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket Nos. ER78-460; ER78-483]

POTOMAC EDISON CO.

Notice of Compliance Filing

OCTOBER 5, 1978.

Take notice that Potomac Edison Co. on September 28, 1978, tendered for filing Period II costs the 12 month period ending June 30, 1979, a revised Statement M (Schedules 1 and 2) and Statement N (Schedule 1) of Period I of the initial filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 16, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-4]

SOUTH TEXAS NATURAL GAS GATHERING CO.

Notice of Application

OCTOBER 13, 1978.

Take notice that on October 3, 1978, South Texas Natural Gas Gathering Co. (South Texas) Five Greenway Plaza East, Houston, Tex. 77046, filed in Docket No. CP79-4, an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing with the date of the requested authorization, and operation of facilities to enable South Texas to take into its certificated main pipeline system natural gas which would be purchased or received from producers or other similar sellers, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment South Texas' ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with South Texas.

It is stated that the total cost of the proposed facilities would not exceed $360,000 and that the cost of any single project would not exceed a cost of $90,000. It is indicated that these costs would be financed from cash on hand and from cash generated from normal operations and internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 6, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for South Texas to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-29626 Filed 10-19-78; 8:45 am]

[6740-02-M]

[Docket No. CP78-543]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO, INC.

Notice of Application

OCTOBER 12, 1978.

Take notice that on September 28, 1978, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-543 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Haverhill Gas Co. (Haverhill), a distributor customer of Applicant, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that Haverhill has arranged to purchase volumes of liquefied natural gas (LNG) from Distrigas of Massachusetts Corp. (DOMAC), pursuant to an agreement between these parties dated February 3, 1977. In Docket No. CP77-216, et al., DOMAC received temporary certificate authorization from the Commission to make the sale, it is said. Applicant states that it is requesting authorization to transport gas for Haverhill in order to enable Haverhill to receive volumes of natural gas equivalent to volumes of LNG which Haverhill would purchase from DOMAC.

Applicant proposes to receive from Boston Gas Co. (Boston Gas), a distributor customer of Applicant, daily volumes of natural gas during each winter period from November 1 through the following March 31 as requested by Haverhill, up to a maximum daily volume of 1,300 Mcf, not to exceed 72,800 Mcf in any winter period, and to transport and deliver equal volumes to Haverhill at Applicant's existing Haverhill Sales Meter Station Delivery Point in Essex County, Mass. Boston Gas would receive daily volumes of LNG from DOMAC and would release equivalent volumes of gas to Applicant, it is said.

For the proposed transportation service Applicant would charge Haverhill 16.18 cents per Mcf, it is indicated.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to

appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP78-543]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO, INC.

Notice of Application

OCTOBER 12, 1978.

Take notice that on September 28, 1978, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-543 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Haverhill Gas Co. (Haverhill), a distributor customer of Applicant, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that Haverhill has arranged to purchase volumes of liquefied natural gas (LNG) from Distrigas of Massachusetts Corp. (DOMAC), pursuant to an agreement between these parties dated February 3, 1977. In Docket No. CP77-216, et al., DOMAC received temporary certificate authorization from the Commission to make the sale, it is said. Applicant states that it is requesting authorization to transport gas for Haverhill in order to enable Haverhill to receive volumes of natural gas equivalent to volumes of LNG which Haverhill would purchase from DOMAC.

Applicant proposes to receive from Boston Gas Co. (Boston Gas), a distributor customer of Applicant, daily volumes of natural gas during each winter period from November 1 through the following March 31 as requested by Haverhill, up to a maximum daily volume of 1,300 Mcf, not to exceed 72,800 Mcf in any winter period, and to transport and deliver equal volumes to Haverhill at Applicant's existing Haverhill Sales Meter Station Delivery Point in Essex County, Mass. Boston Gas would receive daily volumes of LNG from DOMAC and would release equivalent volumes of gas to Applicant, it is said.

For the proposed transportation service Applicant would charge Haverhill 16.18 cents per Mcf, it is indicated.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to

[Project No. 2818—Alaska]

CITY AND BOROUGH OF SITKA

Notice of Availability of Staff Draft Environmental Impact Statement

Notice is hereby given in the captioned project, that on or about October 24, 1978, as required by § 2.81(b) of Commission order No. 415-C, a draft environmental impact statement, prepared by the Staff of the Federal Energy Regulatory Commission, was made available for comments. This statement deals with the environmental impact of the issuance of a Federal Energy Regulatory Commission license to the city and borough of Sitka for the construction, operation, and maintenance of the proposed Green Lake Dam, reservoir, power tunnel, powerhouse, transmission line, and access road. The project would have an installed capacity of 16,500 kW.

This statement has been circulated for comments to Federal, State, and local agencies, has been placed in the public files of the Commission, and is available for public inspection both in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426 and at its San Francisco Regional office located at 555 Battery Street, San Francisco, Calif. 94111. Copies may be ordered from the Commission's Office of Public Information, Washington, D.C. 20426.

Any person who wishes to do so may file comments on the staff draft statement for the Commission's consideration. All comments must be filed on or before December 8, 1978.

Any person who wishes to present evidence regarding environmental matters in this proceeding must file with the Commission a petition to intervene pursuant to section 1.8 of the Commission's Rules of practice and procedures. Petitioners must also file timely comments on the draft statement in accordance with section 2.81(c) of order No. 415-C.

All petitions to intervene must be filed on or before December 8, 1978.

KENNETH F. PLUMB,
Secretary.

UNITED STATES AND EUROPEAN ATOMIC ENERGY COMMUNITY

Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the additional agreement for cooperation between the Government of the United States of America and the Europeon Atomic Energy Community (EURATOM) concerning the peaceful uses of atomic energy and the agreements for cooperation between the Government of the United States of America and the Governments of Sweden and Austria concerning civil uses of atomic energy.

The subsequent arrangements to be carried out under the above-mentioned agreements involve the following retransfers:

Application No.	Countries	Description and end use of material
RTD/EU(SW)-40	Sweden to Germany	2,248 kgs of uranium as UO_2 enriched to 1.44 percent U-235 for conversion to UF_6 for use as feed under DOE enrichment contracts.
RTD/AT(EU)-46	Germany to Austria	30 g of uranium enriched to 93 percent U-235 in the form of UCO kernels for methods and phase analysis by X-ray examination of the chemical composition.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that these subsequent arrangements will not be inimical to the common defense and security of the United States.

These subsequent arrangements will take effect no sooner than 15 days after the date of the publication of this notice (November 6, 1978).

For the Department of Energy.

Dated: October 16, 1978.

HAROLD D. BENGELSDORF,
Director for Nuclear Affairs, International Programs.

[3128-01-M]

PROPOSED SUBSEQUENT ARRANGEMENT

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "Subsequent Arrangement" under the Agreement Between the United States of America and the International Atomic Energy Agency (IAEA) for Cooperation in Peaceful Application.

The subsequent arrangement to be carried out under the above mentioned agreement involves transfer of the material listed below for use in the IAEA's Safeguards Analytical Laboratory Evaluation (SALE) program. This program is designed to evaluate the capability of participating laboratories to analyze materials to be safeguarded in the nuclear fuel cycle and to provide the means by which measurement capability may be improved through the interchange of measurement technology.

Contract No.	Countries	Material
WC-1ACZ-101	United States and Czechoslovakia	53.1g uranium as UO_2 containing 1.2g of U-235, 20g uranium as U-NO_3 containing 0.8g of U-235 and 3.5g plutonium as PuO_2 containing 3g of Pu-239.
WC-EU-100	United States and West Germany	20g of uranium containing 0.8g of U-235.
WC-EU-102	United States and United Kingdom	4g of uranium containing 0.2g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-EU-103	United States and France	4g of uranium containing 0.2g of U-235.
WC-EU-104	United States and West Germany	87.5g of uranium containing 2.1g of U-235.
WC-EU-105	United States and France	87.5g of uranium containing 2.1g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-EU-106	United States and West Germany	87.4g of uranium containing 2.1g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-EU-107	United States and Belgium	178.4g of uranium containing 4.2g of U-235 and 40g of uranium containing 1.6g of U-235.
WC-EU-108	United States and the Netherlands	87.6g of uranium containing 2.1g of U-235 and 40g of uranium containing 1.5g of U-235.
WC-EU-109	United States and Italy	89.0g of uranium containing 2.1g of U-235.
WC-EU-110	United States and West Germany	87.5g of uranium containing 2.1g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-EU-111	United States and United Kingdom	87.3g of uranium containing 2.1g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-JA-11	United States and Japan	87.6g of uranium containing 2.1g of U-235.
WC-JA-10	....do	87.3g of uranium containing 2.1g of U-235 and 40g of uranium containing 1.5g of U-235.
WC-1ARFI-103	United States and Finland	87.5g of uranium containing 2.1g of U-235 and 20g of uranium containing 0.8g of U-235.
WC-1AAU-102	United States and Austria	88.8g of uranium containing 2.1g of U-235.
WC-AR-2	United States and Argentina	3.1g of plutonium containing 0.8g of Pu-239 and 3g of natural uranium.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of the nuclear material will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than November 6, 1978.

Dated: October 16, 1978.

For the Department of Energy.

HAROLD D. BENGELSDORF,
Director for Nuclear Affairs, International Programs.

Office of Energy Research

ENERGY RESEARCH ADVISORY BOARD

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Energy Research Advisory Board will meet Thursday and Friday, November 9 and 10, 1978, from 9 a.m., to 5 p.m., in Room 1E-235, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C.

The Board was established to advise the Department of Energy on overall research and development conducted in DOE and to provide long-range guidance in these areas to the Department.

The tentative agenda is as follows:

Preliminary organization.
Presentation of DOE programs.
Further organization and preparation for next meeting.

The meeting is open to the public. The Chairman of the Board is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Board will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements on the agenda items should inform Georgia Hildreth, Director, Advisory Committee Management (202)252-5935, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Transcripts of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C., on October 17, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

[Docket No. R-0183]

SMALL BANKS

Reports of Condition and Income

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed simplification of Reports of Condition and Income.

SUMMARY: The Federal Reserve System has issued for public comment a proposed simplified version of the Reports of Condition and Income for small banks (banks with less than $100 million in assets) which could be used by commercial banks to reduce their reporting burden. The simplified reports would eliminate approximately 40 percent of the reporting over a year's time compared to the standard form and could be used by 91 percent of all commercial banks.

DATE: Comments should be received by November 15, 1978.

ADDRESS: Comments should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

Copies of the reports are available upon request to the Federal Reserve Banks or to the Federal Reserve System's Freedom of Information Office 202-452-3684.

Board of Governors of the Federal Reserve System, October 13, 1978.

FEDERAL RESERVE SYSTEM

RAINIER BANCORP.

Proposed Acquisition of Rainier Credit Life Insurance Co.

Rainier Bancorp., Seattle, Wash., has applied, pursuant to Section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire through its subsidiary, Rainier Credit Co., all of the voting shares of Rainier Credit Life Insurance Co., Phoenix, Ariz., a proposed new subsidiary. Notice of the application was published on August 16, 1978 in *The Seattle Times*, a newspaper circulated in Seattle, Wash., and on August 21, 1978 in *The Arizona Republic*, a newspaper circulated in Phoenix, Ariz.

Applicant states that the proposed subsidiary would engage in the activities of underwriting, as reinsurer of credit life and disability insurance which is directly related to extensions of credit by Rainier National Bank and Rainier Credit Co. (both wholly owned subsidiaries of Rainier Bancorp.) Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 6, 1978.

Board of Governors of the Federal Reserve System, October 12, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. app. I)), and FDA regulations (21 CFR Part 14) relating to advisory committees. The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. General Hospital and Personal Use Devices Section of the General Medical Devices Panel.	Nov. 6, 9 a.m., Room 6831, FB-8, 200 C Street SW., Washington, D.C.	Open public hearing 9 to 10 a.m.; open committee discussion, 10 a.m. to 4:30 p.m.; Lillian Yin (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7555.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of general hospital and personal use devices to Lillian Yin. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify Lillian Yin by October 27, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and an indication of the approximate time required to make their presentations.

Open committee discussion. The General Hospital and Personal Use Devices Section will classify the following devices: Examination light, gas-powered fluid injectors, graduated liquid medication containers, ice bags, liquid crystal vein location device, liquid medication dispenser, medical insoles, I.V. bag pressure infusion device, rescue blanket, snake bite kit, and syringe needle introducer.

The Panel will discuss the Emergency Care Research Institute's Final Report for Neonatal Apnea Monitors and the Panel's recommended classification of these monitors.

The Panel will also discuss the previous classification recommendations for forehead liquid crystal fever indicators, bed-patient monitors, elastic stockings, vacuum regulator, ultraviolet air purifier, suction catheter and tip, and spinal pressure manometers.

Committee name	Date, time, and place	Type of meeting and contact person
2. Cardiovascular and Renal Drugs Advisory Committee.	Nov. 6 and 7, 9 a.m., Conference Room G-H, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, Nov. 6, 9 to 10 a.m.; open committee discussion, Nov. 6, 10 a.m. to 5 p.m., Nov. 7, 9 a.m. to 1 p.m.; Joan C. Standaert (HFD-110), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4730.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writ-

drug application (NDA) 18-103—Selacryn (ticrynafen)—Smith, Kline and French; NDA 18-154—Loniten (minoxidil)—Upjohn; and an FDA update on

mittee. Those who desire to make such a presentation should notify the contact person before November 7, 1978, and submit a brief statement of the

Open committee discussion. The Panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this Panel

V 4 3 / 2 0 4 0 0 C 2 0 0 7 8

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in cardiovascular and renal disorders.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The Committee wiii review and discuss new drug application (NDA) 18-103—Selacryn (ticrynafen)—Smith, Kline and French; NDA 18-154—Loniten (minoxidil)—Upjohn; and an FDA update on NDA 18-017—Timolate (timolol maleate), NDA 18-009—Saralasin (1-SAR-8-ALA angiotensin I), NDA 17-937—Petrin (pentrinitrol).

Committee name	Date, time, and place	Type of meeting and contact person
3. Ear, Nose, and Throat Devices Section of Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel.	Nov. 6 and 7, 9 a.m., room 1813, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing, Nov. 6, 9 a.m. to 12 p.m.; open committee discussion, Nov. 6, 12 to 4:30 p.m., Nov. 7, 9 a.m. to 4:30 p.m.; Glenn A. Rahmoeller (HFK-450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7536.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the proposed classification recommendations for ear, nose, and throat devices. Those desiring to make formal presentations should notify Glenn Rahmoeller by October 16, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and an indication of the approximate time required to make their presentations.

Open committee discussion. The Ear, Nose, and Throat Devices Section will review: Medical and scientific data on the safety and efficacy of porous polyethylene when used as a middle ear implant material; medical and scientific data on nasal septal implants; procedures for regulating devices under investigational study; and other matters that may come to the Panel's attention relating to the classification of ear, nose, and throat devices.

Committee name	Date, time, and place	Type of meeting and contact person
4. Clinical Toxicology Devices Section of the Clinical Chemistry and Hematology Devices Panel.	Nov. 8 and 9, 9 a.m., Room 1209, 8757 Georgia Ave., Silver Spring, Md.	Open public hearing, Nov. 8, 9 to 10 a.m.; open committee discussion, Nov. 8, 10 a.m. to 5 p.m.; Nov. 9, 9 a.m. to 5 p.m.; William C. Dierksheide (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the products listed below to Srikrishna Vadlamudi. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify Dr. Vadlamudi at 301-427-7234 by October 20, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and an indication of the approximate time required to make their presentations.

Open committee discussion. The Panel will review and comment on the reclassification petition under section 513(f)(2) of the act (21 U.S.C. 360c(f)(2)), by Wien Labs on their product Tri-Cy Test Set (a radioimmunoassay for tricylic antidepressent drugs). The Panel will review the classification list for completeness, particularly in relation to the following products: Tetrahydrocannabinal; dopamine; methotrexate; netilmicin; carbamazepine; procainimide; guinidine; and amitriptyline.

Committee name	Date, time, and place	Type of meeting and contact person
5. Technical Electronic Product Radiation Safety Standards Committee.	Nov. 9, 9 a.m., Room 146, 12720 Twinbrook Parkway, Rockville, Md.	Open public hearing, 9 to 10 a.m.; open committee discussion, 10 a.m. to 4:30 p.m.; Michael S. Terpilak (HFX-440), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3429.

General function of the Committee. The Committee advices on technical feasibility, reasonableness, and practicability of performance standards for electronic products to control the emission of radiation pursuant to 42 U.S.C 263f(f)(1)(A).

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Anyone from outside the agency wishing to make a presentation at the meeting is to submit a copy of the presentation to the executive secretary at least 3 weeks in advance of the meeting. This will permit distribution and advance review by the committee members.

Open committee discussion. The Committee will discuss the amendments to the diagnostic X-ray standard, the proposed mercury vapor lamp standard, and the status report on standards projects.

Committee name	Date, time, and place	Type of meeting and contact person
6. Antimicrobial Panel	Nov. 10 and 11, 9 a.m., Georgia Room, Holiday Inn, Bethesda, Md.	Open public hearing, Nov. 10, 9 to 10 a.m.; open committee discussion, Nov. 10, 10 a.m. to 4:30 p.m., Nov. 11, 9 a.m. to 4:30 p.m.; Lee Geismar (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-6057.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those who desire to make such a presentation should notify the contact person before November 7, 1978, and submit a brief statement of the general nature of the data, information, or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open committee discussion. The Panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this Panel (see also 21 CFR 330.10(a)(2)).

The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
7. Psychopharmacologic Drugs Advisory Committee.	Nov. 13 and 14, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, Nov. 13, 9 to 10 a.m.; open committee discussion, Nov. 13, 10 a.m. to 4:30 p.m., Nov. 14, 9 a.m. to 4:30 p.m.; Robert C. Nelson (HFD-120), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3800.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of psychiatry and related fields.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The Committee will discuss and review a new NDA from Sandoz Laboratories (Temazepam); and NDA resubmission from Schering Labs (Halazepam); report on Guidelines for Clinical Evaluation of Drugs in Dementia; and staff report on geriatic sections for previously published DNDP composed "Guidelines."

Committee name	Date, time, and place	Type of meeting and contact person
8. Science Advisory Board	Nov. 13 and 14, 9 a.m., Bldg. 12, National Center for Toxicological Research, Jefferson, Ark.	Open public hearing, Nov. 13, 9 to 10 a.m.; open committee discussion, Nov. 13, 10 a.m. to 4 p.m., Nov. 14, 9 a.m. to 2 p.m.; Ruth S. Magee, National Center for Toxicological Research, Jefferson, Ark. 72079, 501-541-4528.

General function of the Committee. The Committee advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. This discussion will include orientation for new members; the perinatal Research program; biolchemical mechanisms of toxicity; personnel safety; heritable translocation white paper; and the review of experiment 014 (mutagenesis).

Committee name	Date, time, and place	Type of meeting and contact person
9. Fertility and Maternal Health Drugs Advisory Committee.	Nov. 16, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, 9 to 10 a.m. open committee discussion, 10 a.m. to 5 p.m.; A. T. Gregoire (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3490.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of obstetrics and gynecology.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The Committee will discuss prenatal glucocorticoid treatment; prevention of respiratory distress syndrome; clinical safety and efficacy of ethinyl estradiol, and conjugated natural estrogens as postcoital contraceptive agents; DES task force report; and FDA action report.

Committee name	Date, time, and place	Type of meeting and contact person
10. Arthritis Advisory Committee	Nov. 16 and 17, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, Nov. 16, 9 to 10 a.m.; open committee discussion, Nov. 16, 10 a.m. to 5 p.m., Nov. 17, 9 a.m. to 5 p.m.; Joyce Creamer (HFD-150), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4360.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in arthritic conditions.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issued pending before the Committee.

Open committee discussion. The Committee will discuss Meclomen; Azathioprine use in rheumatoid arthritis; and reports from the Slow-acting Anti-Rheumatic Drugs Subcommittee (SAARDS) and the Non-Steroidal Anti-Inflammatory Drugs Subcommittee (NSAIDS). The Committee will also discuss general guidelines; relabeling gold salts; committee management information; and date for the next meeting.

Committee name	Date, time, and place	Type of meeting and contact person
11. Miscellaneous Internal Drug Products Panel	Nov. 17, 18, and 19, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane	Open public hearing, Nov. 17, 9 to 10 a.m.; open committee discussion, Nov. 17, 10 a.m. to 4:30 p.m., Nov. 18, 9 a.m. to 4:30 p.m., Nov. 19, 9 a.m. to 12 noon; Ronald W. Gots (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of dentistry.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The Committee will discuss Ketorolac; Ketoprofen; Naproxen; Fenoprofen; Flurbiprofen; Ibuprofen; Meclofenamate; Mefenamic acid; Piroxicam; Tolmetin; Zomepirac; and Diflunisal.

Committee name	Date, time, and place	Type of meeting and contact person
12. Dental Drugs Advisory Committee	Nov. 20 and 21, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, Nov. 20, 9 to 10 a.m.; open committee discussion, Nov. 20, 10 a.m. to 5 p.m., Nov. 21, 9 a.m. to 5 p.m.; Joyce Creamer (HFD-150), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4360.

11. Miscellaneous Internal Drug Products Panel.....	Nov. 17, 18, and 19, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. (Nov. 17), Holiday Inn, Chevy Chase, Md. (Nov. 18 and 19).	Open public hearing, Nov. 17, 9 to 10 a.m.; open committee discussion, Nov. 17, 10 a.m. to 4:30 p.m., Nov. 18 and 19, 9 a.m. to 4:30 p.m.; Armond M. Welch (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those who desire to make such a presentation should notify the contact person before November 14, 1978, and submit a brief statement of the general nature of the data, information, or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open committee discussion. The Panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
12. Hematology Section of the Clinical Chemistry and Hematology Devices Panel.	Nov. 21, 9 a.m., Room 1409, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing, 9 to 10 a.m.; open committee discussion, 10 a.m. to 5 p.m.; William C. Dierksheide (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Those desiring to make formal presentations should notify Kaiser Aziz at 301-427-7550 by November 7, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and an indication of the approximate time required to make their presentations.

Open committee discussion. The Section will review and comment on the reclassification petition under section 513(f)(2) of the act, by Abbott Laboratories, North Chicago, Ill. 60064, for its radioimmunoassay for platelet factor 4, the PF4-RIA diagnostic kit.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

The Comissioner approves the scheduling of meetings at locations outside of the Washington, D.C., area on the basis of the criteria of 21 CFR 14.22 of FDA's regulations relating to public advisory committees.

Dated: October 13, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

REPORT ON BIOASSAY OF 1 - PHENYL - 3 - METHYL - 5 - PYRAZOLONE FOR POSSIBLE CARCINOGENICITY

Availability

1-Phenyl-3-methyl-5-pyrazolone (CAS 89-25-8) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of 1-phenyl-3-methyl-5-pyrazolone for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use in hair dyes and as an intermediate in the manufacture of dyes. 1-Phenyl-3-methyl-5-pyrazolone was administered in the feed, at either of two concentrations, to groups of 49 or 50 male and 50 female animals of each species.

Under the conditions of this bioassay, there was no evidence for the carcinogenicity of 1-phenyl-3-methyl-5-pyrazolone to Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

REPORT OF BIOASSAY OF ANILAZINE FOR POSSIBLE CARCINOGENICITY

Availability

Anilazine (CAS 101-05-3) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of anilazine for possible carcinogenicity was conducted by administering the test chemical in feed to Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as a fungicide.

It is concluded that under the conditions of this bioassay, anilazine was not carcinogenic for either Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

REPORT ON BIOASSAY OF 4-NITROANTHRANILIC ACID FOR POSSIBLE CARCINOGENICITY

Availability

4-Nitroanthranilic acid (CAS 619-17-0) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of 4-nitroanthranilic acid for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use in the past as an intermediate in the manufacture of dyes. 4-Nitroanthranilic acid was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species. Under the conditions of this bioassay evidence was not provided for the carcinogenicity of 4-nitroanthranilic acid in Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

REPORT ON BIOASSAY OF 2,5-TOLUENEDIAMINE SULFATE FOR POSSIBLE CARCINOGENICITY

Availability

2,5-Toluenediamine sulfate (CAS 6369-59-1) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay for possible carcinogenicity of 2,5-toluenediamine sulfate was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as an intermediate in the manufacture of dyes. 2,5-Toluenediamine sulfate was administered in the feed, at either of two concentrations, to groups of 50 males and 50 females of each species.

Under the conditions of this bioassay, sufficient evidence was not obtained to demonstrate the carcinogenicity of 2,5-toluenediamine sulfate in either Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

Office of Education

EMERGENCY SCHOOL AID ACT

Closing Date for Transmittal of Applications for the Special Projects Program for Fiscal Year 1979

Applications are invited under the Emergency School Aid Special Projects Program.

Authority for this program is contained in section 708(a)(2) of the emergency School Aid Act ("ESAA"; Title VII of Pub. L. 92-318, as amended (20 U.S.C. 1601-1619)).

This program provides financial assistance to local educational agencies that have adopted desegregation plans (or other plans described in section 706(a) of the statute) for initial implementation during the 1978-79 school year and that have not previously applied for ESAA assistance based on those plans.

The Commissioner has determined that projects to meet needs arising from the implementation of the plans described above will make substantial progress toward achieving the purposes of the statute.

Closing date for transmittal of applications. Applications for awards must be mailed (postmarked) or hand delivered by November 27, 1978.

Applications delivered by mail. An application sent by mail must be addressed to the U.S. Office of Education, Application Control Center, Attention: 13.532B, Washington, D.C. 20202.

Proof of mailing must consist of a legible U.S. Postal Service dated postmark or a legible mail receipt with the date of the mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service.

NOTE.—The U.S. Postal Service does not uniformly provide a date postmark. Applicants should check with their local post office before relying on this method.

Applicants are encouraged to use registered or at least first class mail.

Each late applicant will be notified that its application will not be considered in the current competition.

Applications delivered by hand. An application that is hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets SW., Washington, D.C.

The Application Control Center will accept hand delivered applications between 8 a.m. and 4 p.m. (Washington, D.C., time) daily, except Saturdays, Sundays, and Federal holidays.

Applications that are hand delivered will not be accepted after 4 p.m. on the closing date.

Available funds. Fiscal year 1979 ap-

Applications that are hand delivered will not be accepted after 4 p.m. on the closing date.

Available funds. Fiscal year 1979 appropriations under the statute have not yet been made. It is expected that $5,000,000 will be available to support projects submitted in response to this notice.

Application forms. Application forms and program information packages are available and may be obtained by writing to the Special Projects Branch, Equal Educational Opportunity Programs, U.S. Office of Education, 400 Maryland Avenue SW., Washington, D.C. 20202.

Project period. Grant awards made pursuant to this notice will be for projects beginning no earlier than January 2, 1979, and ending no later than September 30, 1979.

Resubmitted applications. As required by section 710(d)(2) of the emergency School Aid Act (20 U.S.C. 1609(d)(2)), applications from local educational agencies which are not approvable in whole or in part will be returned to applicants for modification and resubmission, within a reasonable period of time, at the applicants' option.

Applicable regulations. The regulations applicable to this program are:

(a) Regulations relating generally to programs under the Emergency School Aid Act (45 CFR Part 185) and in particular 45 CFR 185.94 through 185.94-4, relating to Other Special Projects; and

(b) The Office of Education general provisions regulations (45 CFR Parts 100, 100a, and appendices), except to the extent that those regulations are inconsistent with 45 CFR Part 185.

Further information. For further information contact David Lerch, Acting Branch Chief, Special Projects Branch, Equal Educational Opportunity Programs, U.S. Office of Education, 400 Maryland Avenue SW., Washington, D.C. 20202, telephone 202-245-2465 or 245-0931.

(20 U.S.C. 1601-1619.)

Dated: October 13, 1978.

[4110-02-M]

NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Meeting

AGENCY: National Advisory Council on Extension and Continuing Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agendas of forthcoming meetings of four ad-hoc committees of the National Advisory Council on Extension and Continuing Education. It also describes the functions of the Council. Notice of meetings is required under the Federal Advisory Committee Act (5 U.S.C. Appendix 1, 10(a)(2)). This document is intended to notify the general public of their opportunity to attend the meetings.

DATE: Meetings: October 31, November 6, November 9, and November 16, 1978.

ADDRESS: Council's office: 425 Thirteenth Street NW., Suite 529, Washington, D.C. 20004.

FOR FURTHER INFORMATION:

William G. Shannon, Executive Director, National Advisory Council on Extension and Continuing Education, 425 Thirteenth Street NW., Suite 529, Telephone: 202-376-8888.

The National Advisory Council on Extension and Continuing Education is authorized under Pub. L. 89-329. The Council is required to report annually to the President, the Congress, the Secretary of HEW, and the commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Part A of Title I (HEA) including policies and procedures governing the approval of State plans under section 105; and to advise the Assistant Secretary of HEW on Part B (Lifelong Learning activities) of the title. The Council is required to review the administration and effectiveness of all federally supported extension and continuing education programs.

The meetings of the Council are open to the public. However, because of limited space in the Council's office, those interested in attending any meeting are asked to call the Council's office beforehand. Available seats will be assigned on a first-come basis. Less than 15 days notice to the public for the meetings is given because conflict in schedules among participants required the Council to reschedule the first committee meeting for October 31 rather then early November, as originally planned. Each of the meetings of the ad-hoc committees will begin at 9 a.m. and adjourn at about 5 p.m.

The agenda for the Council meetings are summarized as follows:

A. TUESDAY, OCTOBER 31

Meeting of the Title I Committee to review for reauthorization purposes title I and other titles of the Higher Education Act.

B. MONDAY, NOVEMBER 6

Meeting of the Committee on Adult Learning Needs and Financial Aid to review for reauthorization purposes Federal student financial aid provisions (title IV, HEA), especially as they relate to unserved adult educational needs.

C. THURSDAY, NOVEMBER 9

Meeting of the Committee on Private Funding Alternatives for Postsecondary Continuing Education to review for reauthorization purposes opportunities in the private sector for increased support to adult learners.

D. THURSDAY, NOVEMBER 16

Meeting of the Committee on International Dimensions of Continuing Education to review for reauthorization purposes opportunities among community and other organizations to increase support for cross-cultural continuing education programs among adults.

All records of the Council proceedings are available for public inspection at the Council's staff office, located in Suite 529, 425 Thirteenth Street NW., Washington, D.C.

Dated: October 17, 1978.

WILLIAM G. SHANNON,
Executive Director.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which is established to provide advice to the Secretary of Health, Education, and Welfare on the impact of the policies, programs, and activities of the Department on the status of women, will hold its Health Task Force meeting on Thursday, November 16, 1978 from 10 a.m. to 5 p.m., in Room 403-A, Hubert H. Humphrey Building, and on Friday, November 17, 1978 from 9 a.m. to 1 p.m., in Room 529-A, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C. The agenda will include discussions on: (1) Health Advisory Committees; (2) Teenage Pregnancy Initiative; (3) President's Mental Health Report; (4) National Health Insurance; and (5) Health Care Financing Administration (HCFA) regulations for medicaid-medicare boards of directors.

Further information on the Committee may be obtained from: Susan C. Lubick, executive secretary, telephone 202-245-8454. These meetings are open to the public.

Dated: October 16, 1978.

SUSAN C. LUBICK,
Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

ALASKA

Application for Pipeline Right-of-Way

OCTOBER 13, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185) the State of Alaska, Department of Fish and Game filed an application for a right-of-way to construct a 2-inch pipeline for the purpose of transporting natural gas across the following described Federal lands.

SEWARD MERIDIAN, ALASKA

T. 13 N., R. 2 W.
Section 6

The pipeline will transport natural gas from the main line to hatchery building and residences at the Fort Richardson Hatchery.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views on this matter should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Anchorage District Office, 4700 East 42d Street, Anchorage, Alaska 99502.

CURTIS V. MCVEE,
State Director.

DEVELOPMENT PLAN AND ADDENDUM TO FINAL ENVIRONMENTAL STATEMENT OBED WILD AND SCENIC RIVER, TENNESSEE

Availability

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared an addendum to the final environmental statement on a development plan for Obed Wild and Scenic River, Tennessee. The final statement (FES 76-53) was prepared by the Heritage Conservation and Recreation Service (formerly Bureau of Outdoor Recreation), dated October 19, 1976.

The addendum presents additional information on proposals in the final environmental statement on the establishment of Obed Wild and Scenic River, administration of this area, and development of facilities which are to remain largely the same as that proposed in the final statement.

Copies are available for review from or for inspection at the following locations for a period of 30 days from publication of this notice (until November 20, 1978), after which proposals contained in this document may be implemented:

Regional Director, Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga. 30349.

National Park Service, Obed Wild and Scenic River, Land Acquisition Office, P.O. Box 429, Wartburg, Tenn. 37887.

Project Manager, Big South Fork National River and Recreation Area, P.O Box 477, Oneida, Tenn. 37841.

The U.S. Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Dated: October 16, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF LABOR

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate, or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within 2 weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 16th day of October 1978.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

APPLICATIONS RECEIVED DURING THE WEEK ENDING OCTOBER 13, 1978

Name of Applicant, Location of Enterprise, and Principal Product or Activity

Galileo Electro-Optics Corp., Sturbridge, Mass., manufacture of fiber optic components, optical communication fiber, and electronic components.

Coleco Industries, Inc., Fulton and Montgomery Counties, N.Y., manufacture of toys, games, and swimming pools.

Bellanca Aircraft Corp., Alexandria, Minn., Osceola, Wis., manufactrure of single engine aircraft.

LoDal, Inc., Kingsford, Mich., manufacture of industrial refuse collection vehicles.

TemTex Industries, Inc., Malakoff and Terrell, Tex., manufacture of face-clay bricks and metal fireplaces.

Morgan Colorado Beef Co., Fort Morgan, Colo., beef fabrication facility.

Greenhouses, Salinas, Calif., florist.

[4510-30-M]

FEDERAL-STATE EXTENDED BENEFITS

Ending of Extended Benefit Period in the State of New York

This notice announces the ending of the extended benefit period in the State of New York effective on October 21, 1978.

BACKGROUND

The Federal-State Extended Unemployment Compensation Act of 1970 (Title II of Pub. L. 91-373; 84 Stat. 695, 708; 26 U.S.C. 3304 note), created a program of extended unemployment benefits (referred to as Extended Benefits) as a permanent part of the Federal-State unemployment compensation program, for unemployed individuals who have exhausted their rights to regular unemployment benefits under State and Federal unemployment compensation laws. This act is implemented by regulations of the Department of Labor at Part 615 of Title 20 of the Code of Federal Regulations, 20 CFR Part 615 (43 FR 13818, March 31, 1978), and in the unemployment compensation laws of the several States.

Extended Benefits are payable in a State during an extended benefit period, which is triggered on when unemployment in the State or in all States collectively reaches the high levels set in the act. During an extended benefit period the maximum amount of extended benefits which is payable to eligible individuals is up to 13 weeks, but the total of extended benefits and regular benefits together may not exceed 39 weeks. An extended benefit period commenced in the State of New York on February 17, 1974.

The act and the New York unemployment compensation law also provide than an extended benefit period in a State will trigger off when unemployment in the State is no longer at the high levels set in the act. A benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator. The extended benefit period in New York has now triggered off.

DETERMINATION OF "OFF" INDICATOR

The head of employment security agency of the State of New York has determined, in accordance with the State law and 20 CFR 615.21(e), that the average rate of insured unemployment in the State for the period consisting of the week ending on September 30, 1978, and the immediately preceding 12 weeks, has decreased so that for that week there was an "off" indicator in that State. Therefore, the extended benefit period in that State terminates with the week ending on October 21, 1978.

INFORMATION FOR CLAIMANTS

Persons who wish information about their rights to extended benefits in the State of New York should contact the nearest local office of the New York State Department of Labor.

Signed at Washington, D.C., on October 17, 1978.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

Mine Safety and Health Administration

[Docket No. M-78-92-C]

CONSOLIDATION COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Consolidation Coal Co., 1800 Washington Road, Pittsburgh, Pa. 15241, has filed a petition to modify the application of 30 CFR 75.1101-8 (Sprinkler Systems), to its Laurel Mine, located in Somerset County, Pa. in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

(1) The petitioner requests permission to use a single line of automatic sprinklers for its fire protection system at main and secondary belt-conveyor drives in the above mine. Automatic sprinklers with actuation temperatures between 200° F and 230° F would be located on 10-foot centers with water pressure equal to or greater than 10 psi. Since the aperture of the automatic sprinklers is ½ inch, a strainer is not needed.

(2) To corroborate the effectiveness of the above system, the petitioner cites a USBM study on "Suppression of Fires on Underground Coal Mine Conveyor Belts," NTIS PB250 368 Final Report on USBM Contract No. H0122086.

(3) A system with the required second branch line would be less reliable. This second branch line is vulnerable to damage from material which may fall off the belt, thereby reducing the system reliability and operability.

(4) The proposed modification reduces the amount of piping, thereby making it practical to fully fill the system with antifreeze. Such protection is critical, since winter air temperatures as low as −40° F occur in Laurel Mine.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before November 20, 1978. Comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: October 12, 1978.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[Docket No. M-78-101-C]

PEABODY COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Peabody Coal Co., Box 235, St. Louis, Mo. 63166, has filed a petition to modify the application of 30 CFR 75.1710-1 (canopies), to its Sunnyhill No. 9 South Underground Mine, located in Perry County, New Lexington, Ohio, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of petitioner's statement is as follows:

(1) This petition pertains to the installation of cabs or canopies on Acme Roof Bolters used at the above mine.

(2) A cab or canopy on the above equipment diminishes miner safety for the following reasons:

(a) It significantly reduces the operator's field of vision.

(b) It restricts arm and leg movements, thereby causing operator fatigue.

(c) It limits the operator's means of getting on and off the equipment, thereby impairing his ability to escape from the equipment in an emergency.

(d) The significant increase in the height of the equipment creates the danger of destruction of line curtains and other similar ventilation devices.

(3) Miners refuse to operate such equipment installed with cabs or canopies because they fear for their safety and the safety of other miners.

(4) In the alternative, petitioner proposes:

(a) Compliance with all terms and provisions of its roof control plan adopted and filed in accordance with 30 CFR 75.200;

(b) Continuance of a regular program of safety instruction with emphasis on problems relating to top and roof falls;

(c) Frequent tests of the top by management employees and miners to determine its stability;

(d) Continued job safety analysis studies to assure compliance of roof control practices with company policy as well as Federal and State requirements; and

(e) Continued efforts in cooperation with the MSHA technical support group to design and construct suitable cabs and canopies which will not diminish the safety of miners.

REQUESTS FOR COMMENTS

Persons interested in this petition may furnish written comments on or before November 20, 1978. Comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: October 12, 1978.

Office of the Secretary

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221(a) of the act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 3, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 3, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 4th day of October 1978.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221(a) of the act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 3, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 3, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 10th day of October 1978.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-2756, 3126]

A. O. SMITH CORP., MILWAUKEE, WIS.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2756 and TA-W-3126: Investigations regarding eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

Investigation TA-W-2756 was initiated on December 12, 1977 in response to a worker petition received on December 2, 1977 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing front suspension control arms for Chrysler cars at the Automotive Division of the Milwaukee, Wis. plant of A. O. Smith Corp. During the course of the investigation, it was determined that the products being produced were fixtures (tools, dies, and jigs), which are required for the production of control arms, passenger car frames, and truck frames.

Investigation TA-W-3126 was initiated on February 15, 1978 in response to a worker petition received on February 1, 1978 which was filed by the Smith Steel Workers on behalf of workers and former workers producing automobile and truck frames and their components at the Milwaukee, Wis. plant of A. O. Smith Corp. Production is fully integrated between the Tool Engineering Services group of workers and the Production section group of workers who together form the Automotive Division of the Milwaukee, Wis. plant of A. O. Smith Corp. Workers are not identifiable by product line.

Notices of Investigation were published in the FEDERAL REGISTER on December 30, 1977 (42 FR 65306) for TA-W-2756 and on February 28, 1978 (43 FR 8209) for TA-W-3126. No public hearing was requested and none was held.

The information upon which the determinations were made was obtained principally from officials of A. O. Smith Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met with respect to the production of car frames, truck frames and fixtures for car frames and truck frames:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of light truck frames increased from 52.2 thousand units in 1975 to 68.2 thousand units in 1976 and then decreased to 27.0 thousand units in 1977. U.S. imports of automobile frames increased from 915.4 thousand units in 1975 to 959.2 thousand units in 1976 and then decreased to 921.1 thousand units in 1977.

The ratio of imports to domestic production for light truck frames decreased from 2.7 percent in 1975 to 2.6 percent in 1976 and to 0.9 percent in 1977.

For automobile frames, the ratio of imports to domestic production decreased from 19.9 percent in 1975 to 15.7 percent in 1976 and to 14.2 percent in 1977.

The Department's survey of A. O. Smith's customers revealed that none of the customers who decreased purchases of truck frames and car frames from A. O. Smith increased purchases from foreign sources.

With respect to the production of control arms, which is A. O. Smith's major product, and fixtures for control arms, all of the group eligibility requirements of section 222 of the act have been met.

U.S. imports of control arms increased from 756.2 thousand units in 1975 to 1,925.0 thousand units in 1976 and to 2,055.3 thousand units in 1977.

The imports to domestic production ratio for control arms increased from 2.2 percent in 1975 to 5.2 percent in 1976 and to 5.6 percent in 1977.

A survey conducted among customers who purchase control arms from A. O. Smith Corp. revealed that the major customer decreased control arm purchases from A. O. Smith, and increased purchases from foreign sources in each year from 1975 through 1977. Layoffs in February were a result of bad weather.

CONCLUSIONS

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with control arms, A. O. Smith's major product, produced by the Tool Engineering Services and the Production sections of the Automotive Division of the Milwaukee, Wis., plant of A. O. Smith Corp. contributed importantly to the decline in sales and production and to the total or partial separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Tool Engineering Services section of the Automotive Division of the Milwaukee, Wis., plant of A. O. Smith Corp., engaged in employment related to the production of fixtures for control arms, who became totally or partially separated from employment on or after November 1, 1977, and before February 1, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974; and All workers of the Production section of the Automotive Division of the Milwaukee, Wis., plant of A. O. Smith Corp., engaged in employment related to the production of control arms, who became totally or partially separated from employment on or after October 1, 1977, and before February 1, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further conclude that increases of imports of articles like or directly competitive with car frames and truck frames produced at the Milwaukee plant did not contribute importantly to the decrease in sales or production or to the total or partial separation of workers at that plant.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3433]

BESTFORM FOUNDATIONS OF PENNSYLVANIA, INC., JOHNSTOWN, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3433: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 28, 1978 in response to a worker petition received on March 13, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing bras and girdles at Bestform Foundations of Pennsylvania, Inc., Johnstown, Pa. The investigation revealed that ladies' panties, sleepwear, and loungewear are also produced.

The notice of investigation was published in the FEDERAL REGISTER on April 11, 1978 (43 FR 15205). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Bestform Foundations, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

United States imports of brassieres increased from 6,921 thousand dozen in 1975 to 8,751 thousand dozen in 1976 and to 9,507 thousand dozen in 1977. The ratio of imports to domestic production increased from 45.2 percent in 1975 to 51.6 percent in 1976. Imports of brassieres in the first quarter of 1978 increased to 2,402 thousand dozen compared to 2,235 thousand dozen in the first quarter of 1977.

Company imports of ladies' undergarments increased by 22.9 percent in 1977 compared to 1976. In 1977, Bestform Foundations imported nearly the same numbers of ladies' undergarments as it produced domestically in all of the company's divisions. These company imports, which were almost entirely bras, continued at an even greater rate in the first four months of 1978.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with bras produced by Bestform Foundations of Pennsylvania, Inc., Johnstown, Pa. contributed importantly to the decline in sales and production and to the total or partial separation of workers at the firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Bestform Foundations of Pennsylvania, Inc., Johnstown, Pa. who became totally or partially separated from employment on or after March 10, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3729, 3730, 3731]

BETHLEHEM STEEL CORP., BETHLEHEM, PA.

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3729, 3730, and 3731: Investigations regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigations were initiated on May 18, 1978 in response to a worker petition received on April 17, 1978 which were filed by the recorders on behalf of all workers engaged in the production of tool and alloy steel; machine tools; heavy, light, and drop forgings; brass, iron, and steel foundry products at the Bethlehem, Pa. plant of the Bethlehem Steel Corp. Subsequent investigation revealed that the workers filing the petition were not engaged in employment related to the production of any of the following products: heavy, light and drop forgings; brass, iron or steel foundry products at the Bethlehem plant. The current investigation includes alloy bars, alloy tool steel, ingot molds and carbon steel structural shapes.

Workers producing alloy bars and tool steel were previously certified eligible to apply for adjustment assistance under TA-W-924. This certification expired August 27, 1978. Workers producing carbon steel structural shapes were certified eligible to apply for adjustment assistance under TA-W-1496. The impact date was November 15, 1975 and the termination date was January 1, 1977.

The Notice of Investigation was published in the FEDERAL REGISTER on June 13, 1978 (43 FR 25498-99). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Bethlehem Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. With respect to the workers engaged in employment related to the production of carbon steel structural shapes, without regard to whether any of the other criteria have been met the following criterion has not been met:

That sales or production, or both, of such firm or subdivision have decreased absolutely.

Sales and production of structural shapes increased in quantity in 1977 compared to 1976 and continued to increase in the first 5 months of 1978 compared to the same 1977 period.

With respect to workers engaged in employment related to the production of one of the following: alloy bars, tool steel, or ingot molds, all of the group eligibility requirements of section 222 of the act have been met.

ALLOY BARS

U.S. imports of alloy bars increased from 81,200 tons in 1976 to 140,900 tons in 1977. The ratio of imports to domestic shipments increased from 3.3 percent in 1976 to 5.6 percent in 1977.

U.S. imports of tool steel increased from 27,600 short tons in 1976 to 39,200 short tons in 1977. The ratio of imports to domestic shipments increased from 36.2 percent in 1976 to 45.9 percent in 1977.

The Department conducted a survey of some of the customers purchasing alloy bars and alloy tool steel produced at the Bethlehem, Pa. plant of the Bethlehem Steel Corp. Several of the customers indicated they reduced purchases from Bethlehem Steel and increased purchases from foreign sources in the first quarter of 1978 compared to the same 1977 period. Some customers reported that imports have adversely affected their purchases from domestic producers.

INGOT MOLDS

The majority of the ingot molds produced at the Bethlehem, Pa. plant are interworks shipments to other Bethlehem Steel plants which have previously been certified eligible to apply for adjustment assistance.

CONCLUSIONS

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with one of the following products: alloy bars or tool steel, have contributed importantly to the decline in sales or production and to the total or partial separation of workers engaged in employment related to the production of each of these products at the Bethlehem, Pa. plant.

I further conclude that increased imports of articles like or directly competitive with various carbon steel products at the Sparrows Point, Md.; Lackawanna, N.Y.; Johnstown, Pa. and Steelton, Pa. plants of Bethlehem Steel Corp. contributed importantly to the decline in sales or production of ingot molds and to the total or partial separation of workers engaged in employment related to the production of

this product at the Bethlehem, Pa. plant.

In accordance with the provisions of the act, I make the following certifica-

sistance, each of the groups of eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the

principally from officials of CEL Fashions, Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade

which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats at Dante Fash-

petition received on May 24, 1978, which was filed on behalf of workers and former workers producing electrical systems for engines at Eastman

other domestic sources. The customer stated that purchases from Eastman Manufacturing Co., Inc., declined due to a shift in technology toward break-

this product at the Bethlehem, Pa. plant.

In accordance with the provisions of the act, I make the following certification:

All workers of the Bethlehem, Pa. plant of the Bethlehem Steel Corp. engaged in employment related to the production of either alloy bars or tool steel who became totally or partially separated from employment on or after August 27, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

All workers of the Bethlehem, Pa. plant of the Bethlehem Steel Corp. engaged in employment related to the production of ingot molds who became totally or partially separated from employment on or after April 12, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that all workers engaged in employment related to the production of carbon steel structural shapes at the Bethlehem, Pa. plant of the Bethlehem Steel Corp. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3836]

CAROUSEL SLACK CO., HAMMONTON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3836: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 14, 1978 in response to a worker petition received on June 12, 1978, which was filed on behalf of workers and former workers producing men's and women's slacks at Carousel Slacks, Hammonton, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27024). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Carousel Slack Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of elegibility to apply for adjustment assistance, each of the groups of eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations or threats thereof, and to the absolute decline in sales or production.

Evidence developed during the course of the investigation revealed that in 1976 and 1977 Carousel Slacks was a contractor of men's slacks primarily for one apparel manufacture. Carousel's sales increased in 1977 compared to 1976. This manufacturer does not import slacks or use foreign contractors. In 1978 this manufacturer changed product lines. Carousel as a result has contracted with other manufacturers.

CONCLUSION

After careful review I determine that all workers of Carousel Slack Co., Hammonton, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3663]

CEL FASHIONS, INC., UNION CITY, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3663: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing children's winter coats at CEL Fasions, Inc., Union City, N.J. The investigation revealed that children's coats and women's coats are produced.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of CEL Fashions, Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion was not met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separations, or threat thereof, and to the absolute decline in sales or production.

CEL Fashions, Inc. was founded in April 1976. Total sales increased during the last three quarters of 1977 compared to the last three quarters of 1976.

The Department conducted a survey of customers of CEL Fashions, Inc. The customers responding to the survey accounted for 80 percent and more than 90 percent of CEL's sales in 1976 and 1977, respectively. The only customer who reduced purchases of coats from CEL and increased purchases of imported women's and children's coats during the period under consideration accounted for a negligible portion of CEL's sales.

CONCLUSION

After careful review, I determine that all workers of CEL Fashions, Inc., Union City, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3614]

DANTE FASHIONS, HOBOKEN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3614: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats at Dante Fashions, Hoboken, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Dante Fashions, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of such firm or subdivision have decreased absolutely.

Sales increased in quantity in 1977 compared to 1976 and also increased in the January-May period of 1978 compared to the same period in 1977. Dante Fashions produces on order; therefore, sales and production are equal.

CONCLUSION

After careful review, I determine that all workers of Dante Fashions, Hoboken, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3786]

EASTMAN MANUFACTURING CO., INC., WILBRAHAM, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3786: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 31, 1978, in response to a worker petition received on May 24, 1978, which was filed on behalf of workers and former workers producing electrical systems for engines at Eastman Manufacturing Co., Inc., Wilbraham, Mass.

The notice of investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26497). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Eastman Manufacturing Co., Inc., its customers, the U.S. Department of Commerce, the Federal Reserve Board, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Imports of battery charging generators and alternators decreased absolutely in quantity from 295,600 units in 1976 to 289,500 units in 1977, then increased from 131,100 units in the first half of 1977 to 187,200 units in the first half of 1978. These imports increased absolutely in value from $8.1 million in 1976 to $8.6 million in 1977, then increased from $3.2 million in the first half of 1977 to $5.5 million in the first half of 1978. The ratio of imports to domestic production remained at 1.5 percent in both 1976 and 1977.

Imports of other electronic ignition equipment for internal combustion engines increased absolutely in value from $78.2 million in 1976 to $98.7 million in in 1977, and increased from $47.5 million in the first half of 1977 to $58.2 million in the first half of 1978. The ratio of imports to domestic production increased from 7.5 percent in 1976 to 8.5 percent in 1977.

Sales by Eastman Manufacturing Co., Inc., to the R. E. Phelon Co. represented 98 percent, 96 percent, and 99 percent, respectively, of total company sales in value for fiscal years 1976, 1977, and 1978 (the fiscal year begins July 1 of the preceding calendar year and ends June 30). The remainder of sales were directly to local engine manufacturers.

The major customer of Eastman Manufacturing Co. was surveyed. The customer did not purchase any imported magneto parts, or imported magnetos, either directly or indirectly from other domestic sources. The customer stated that purchases from Eastman Manufacturing Co., Inc., declined due to a shift in technology toward breaker-less electronic ignition systems. Eastman does not have the capability to produce most of the parts for this type system.

CONCLUSION

After careful review I determine that all workers of Eastman Manufacturing Co., Inc., Wilbraham, Mass., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W- 3979 and 3980]

FAIRFIELD GLOVE CO., FAIRFIELD, IOWA, BONAPARTE, IOWA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3979 and 3980: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 19, 1978 in response to a worker petition received on July 17, 1978 which was filed by the Amalgamated Clothing & Textile Workers' Union on behalf of workers and former workers producing work gloves at the Fairfield and Bonaparte, Iowa plants of Fairfield Glove Co.

The Notice of Investigation was published in the FEDERAL REGISTER on July 28, 1978 (43 FR 32885). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Fairfield Glove Co., the Amalgamated Clothing & Textile Workers' Union, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

V 4 3 / 2 0 4 0 OCT 20 78

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

There have been no layoffs or threats thereof, or reduced work hours at either plant in the past 12 months. Workers at both plants were certified eligible to apply for adjustment assistance in previous investigations (see TA-W-706 and 707); the period of certification expired on July 2, 1978.

CONCLUSION

After careful review, I determine that all workers of Fairfield Glove Co., Fairfield and Bonaparte, Iowa are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-3914]

FLORSHEIM SHOE CO., CHICAGO, ILL.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3914: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 27, 1978 in response to a worker petition received on June 26, 1978 which was filed on behalf of workers and former workers producing women's and men's shoes at the Chicago, Ill. plant of the Florsheim Shoe Co. During the course of the investigation, it was established that only men's shoes are produced.

The notice of investigation was published in the FEDERAL REGISTER on July 7, 1978 (43 FR 29364). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Florsheim Shoe Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's dress and casual footwear decreased from 58.7 million pairs in 1976 to 56.5 million pairs in 1977, and increased to 16 million pairs in the first quarter of 1978 from 15.7 million pairs in the same period of 1977. The ratios of imports to domestic production and consumption increased from 70.4 percent and 41.3 percent, respectively, in 1976 to 71.7 percent and 41.8 percent, respectively, in 1977 and decreased from 77.3 percent and 43.6 percent, respectively, in the first quarter of 1977 to 76.2 percent and 43.2 percent respectively, in the same period of 1978.

The decline in production and employment at Florsheim's Chicago plant can be linked to the import influence in the shoe industry generally, in accordance with the findings of the International Trade Commission. After careful consideration of all the alleged factors causing injury, the Commission concluded that certain footwear articles, including men's nonrubber shoes, were being imported into the United States in such increased quantities as to be the most substantial cause of injury to domestic producers. In the case of men's dress and casual footwear, the ratio of imports to domestic production has been greater than 50 percent in each of the past five years, reaching a peak level of 71.7 percent in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's shoes produced at the Chicago, Ill. plant of the Florsheim Shoe Co. contributed importantly to the decline in sales or production and to the total or partial separation of workers at the plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Chicago, Ill. plant of the Florshiem Shoe Co. who become totally or partially separated from employment on or after August 12, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3686]

FORMFLEX FOUNDATIONS, INC., SADDLE BROOKE, N.J.

Affirmative Determination Regarding Application for Reconsideration

On September 21, 1978, counsel for one of the former workers of Formflex Foundations, Inc., requested administrative reconsideration of the Department of Labor's negative determination regarding eligibility to apply for worker adjustment assistance. This determination was published in the Federal Register on August 25, 1978 (43 FR 38127).

Counsel for the worker raises one basic issue in the application; namely, that the appropriate subdivision should be redefined from the total plant at Saddle Brooke, N.Y., to the sewing department at Saddle Brooke, N.J., which closed in 1978.

CONCLUSION

After review of the application, I conclude that the claims of counsel are of sufficient weight to justify reconsideration of the Department of Labor's prior decisions. The application is, therefore, granted.

Signed at Washington, D.C., this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3952]

FREEDOM ELECTRONICS & ENGINEERING, INC., DORCHESTER, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3952: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 6, 1978, in response to a worker petition received on July 5, 1978, which was filed on behalf of workers and former workers producing electronic components at Freedom Electronics & Engineering, Inc., Dorchester, Mass. The Department's investigation revealed that Freedom Electronics & Engineering produces power supplies, printed circuit boards, and electronic cables.

The Notice of the Investigation was published in the FEDERAL REGISTER on July 18, 1978 (43 FR 30927-30928). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Freedom Electronics & Engineering, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. With respect to workers producing electronic cables, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of such firm or subdivision have decreased absolutely.

Freedom Electronics produces on order, therefore sales equal production. Sales increased from fiscal year 1977 to fiscal year 1978 (12 months ending Mar. 30, 1978).

With respect to workers producing power supplies and printed circuit boards, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Customers surveyed who accounted for 100 percent of Freedom's sales of power supplies and printed circuit boards did not purchase any imported power supplies or printed circuit boards, either directly, or indirectly through domestic suppliers in 1977 or 1978.

CONCLUSION

After careful review, I determine that workers of Freedom Electronics & Engineering, Inc., Dorchester, Mass., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3819]

GENERAL INSTRUMENT CORP., F. W. SICKLES DIVISION, CHICOPEE, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3819: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 7, 1978, in response to a worker petition received on May 30, 1978, which was filed on behalf of workers and former workers of the General Instrument Corp., F. W. Sickles Division, Chicopee, Mass.

The Notice of Investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26499). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the General Instrument Corp., F. W. Sickles Division, and Deparment files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the criteria have been met.

The F. W. Sickles Division formerly produced electronic components at the General Instrument facilities in Chicopee, Mass. In the early 1970's production operations were transferred to a Sickles Division plant in Taiwan, but support operations such as repair, testing, and administrative functions were retained in Chicopee. A certification of eligibility to apply for adjustment assistance applicable to workers of the Sickles Division in Chicopee was issued at that time under provisions of Title III, Chapter 3, of the Trade Expansion Act of 1962 (TEA-W-21).

The F. W. Sickles Division maintained support operations for the Taiwan plant in Chicopee until 1978. In mid-1978 the firm transferred repair and testing operations to Juarez, Mexico, and administrative support functions to El Paso, Tex., resulting in the layoff of all remaining Sickles employees in Chicopee. The transfer was made largely in light of the fact that, since production operations are no longer in Chicopee, domestically oriented support functions such as repair and testing could be conducted in an area with lower labor costs than those in Chicopee; i.e., Juarez, Mexico.

The transfer of support operations out of Chicopee is a continuation of the transfer of production operations several years ago. Thus, increased import competition has continued to adversely affect workers at the Sickles Division, Chicopee facility in 1978.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with electronic components formerly produced by the F. W. Sickles Division of General Instrument Corp., Chicopee, Mass., contributed importantly to the separation of workers engaged in production support operations at that facility. In accordance with the provisions of the Act, I make the following certification:

All workers of the F. W. Sickles Division of General Instrument Corp., Chicopee, Mass., who became totally or partially separated from employment on or after January 1, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-3153]

GEORGE J. MEYER MANUFACTURING DIVISION, A-T-O INC., WORCESTER, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3153: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 16, 1978, in response to a worker petition received on February 6, 1978, which was filed by the United Steelworkers of America on behalf of workers and former workers producing labeling and stripstamping machinery at the Worcester, Mass., plant of George J. Meyer Manufacturing Division of A-T-O Inc.

The notice of investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8862). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of George J. Meyer Manufacturing, its customers, the Packaging Machinery Manufacturing Institute, the U.S. Department of Commerce, the U.S. International

Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of

[4510-28-M]

Director, Office of Management,

first quarter of 1978 compared to first quarter of 1977 while increasing the use of foreign contractors to produce brassieres and girdles.

sistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have

hearing was requested and none was held.

The determination was based upon formation obtained principally from

V 4 3 / 2 0 4 0 OCT 20 78

Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

United States imports of packing, packaging, and bottling machinery for food products increased absolutely in each year from 1973 to 1977 and increased relative to domestic production in each year from 1974 to 1977. Imports increased from 65.1 million dollars in 1975 to 74.2 million dollars in 1976 and increased to 85.9 million dollars in 1977.

The ratio of imports to domestic production increased from 17 percent in 1974 to 19 percent in 1976 and increased to 20.2 percent in 1977.

Because the life expectancy of the machinery produced by the subject firm is 20 years, and the firm may not have the same customers from year to year, a survey was conducted of companies who were approached by sales personnel of the subject firm in 1977. Of those companies which did purchase labeling and stripstamping machinery, several purchased imported machinery in greater quantity and value than from domestic sources. None of these companies purchased this type of machinery from George J. Meyer Manufacturing.

CONCLUSION

After careful review I conclude that increases of imports of articles like or directly competitive with labeling and stripstamping machinery produced by the Worcester, Mass., plant of George J. Meyer Manufacturing contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Worcester, Mass., plant of George J. Meyer Manufacturing Division of A-T-O Inc., who became totally or partially separated from employment on or after March 26, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3082]

HOUSTON ELECTRONICS CORP., KANE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3082: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on February 7, 1978, in response to a worker petition received on January 26, 1978, which was filed on behalf of workers and former workers producing crystal holders at Houston Electronics Corp., Kane, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on February 24, 1978 (43 FR 7744). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Houston Electronics Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A Department survey of Houston Electronics' customers showed that most of the customers did not purchase imported crystal holders. Only one customer purchased imported crystal holders, from other domestic sources. This customer's purchases of imported crystal holders accounted for an insignificant and decreasing percentage of its total purchases from other domestic sources.

CONCLUSION

After careful review, I determine that all workers of Houston Electronics Corp., Kane, Pa., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3734]

JASPER BRASSIERE CO., JASPER, ALA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3734: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 18, 1978, in response to a worker petition received on May 16, 1978, which was filed on behalf of workers and former workers producing brassieres and girdles at the Jasper Brassiere Co., Jasper, Ala.

The Notice of Investigation was published in the FEDERAL REGISTER on June 13, 1978 (43 FR 25498). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Jasper Brassiere Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of brassieres, bralettes, and Bandeaux increased from 8,751 thousand dozen in 1976 to 9,507 thousand dozen in 1977. During the first quarter of 1978, imports increased to 2,402 thousand dozen compared to 2,235 thousand dozen during the same quarter of 1977. The ratio of imports to domestic production increased from 45.2 percent in 1975 to 51.6 percent in 1976.

U.S. imports of corsets and girdles increased from 231 thousand dozen in 1976 to 269 thousand dozen in 1977. During the first quarter of 1978, imports increased to 72 thousand dozen compared to 53 thousand dozen during the same quarter of 1977.

A Departmental survey of the manufacturer for which Jasper Brassiere Co. does a major portion of its contract work revealed that the customer decreased purchases of brassieres and girdles from the subject firm during first quarter of 1978 compared to first quarter of 1977 while increasing the use of foreign contractors to produce brassieres and girdles.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the brassieres and girdles produced by the Jasper Brassiere Co., Jasper, Ala., contributed importantly to the decline in sales or production and to the total or partial separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the Jasper Brassiere Co., Jasper, Ala., who became totally or partially separated from employment on or after May 9, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-28-M]

[TA-W-3639]

KAYE COAT CO., INC., PASSAIC, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3639: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing junior's and children's coats and raincoats at Kaye Coat Co., Inc., Passaic, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Kaye Coat Co., Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

Sales by Kaye Coat increased in value in every quarter in 1977, compared to the corresponding quarter in 1976. The value of sales increased in 1977 compared to 1976 and increased in the first 5 months in 1978 compared to the first 5 months of 1977.

Total sales by Kaye Coat include coats produced in-house and coats which are cut by Kaye Coat and sewn by domestic apparel contractors. Declines in employment and production at Kaye Coat during periods of increasing company sales reflect temporary reductions in in-house sewing; that is, increased utilization of other domestic sewing contractors.

CONCLUSION

After careful review, I determine that all workers of Kaye Coat Co., Inc., Passaic, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3873]

KEYSTONE FIREWORKS MFG. CO., INC., DUNBAR, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3873: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 20, 1978 in response to a worker petition received on June 19, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing fireworks and firework display items at the Dunbar, Pa. plant of Keystone Fireworks Manufacturing Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on June 30, 1978 (43 FR 28580). No public hearing was requested and none was held.

The determination was based upon formation obtained principally from officials of Keystone Fireworks Manufacturing Co., Inc., its customers, manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the act must be met. It is concluded that all of the requirements have been met.

Imports of fireworks increased in 1976 from 1975 and increased 19 percent in 1977 from 1976 and increased 35 percent in the first quarter of 1978 compared to the first quarter of 1977. The ratio of imports to domestic production was 259.1 percent in 1976.

Customers of Keystone who were surveyed indicated that some respondents had decreased purchases of fireworks from Keystone and increased purchases of imports in 1977 from 1976 and in the first half of 1978 compared to the first half of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with fireworks produced at the Dunbar, Pa. plant of Keystone Fireworks Manufacturing Co., Inc., contributed importantly to the decline in sales or production and to the total or partial separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Dunbar, Pa., plant of Keystone Fireworks Manufacturing Co., Inc., who become totally or partially separated from employment on or after June 16, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

certification of eligibility to apply for adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 20, 1978 in response to a worker petition received on June 19, 1978 which was filed on behalf of workers and former workers producing men's and women's leather and suede outerwear at Leather Sportswear, Inc., Bridgeport, Conn.

The Notice of Investigation was published in the FEDERAL REGISTER on June 30, 1978 (43 FR 28580). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Leather Sportswear, Inc., its customers, the U.S. International Trade Commission, U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of leather coats and jackets-men's boys', women's, misses', juniors', and children's increased from $177,800,000 in 1976 to $186,400,000 in 1977.

Customers who were surveyed indicated that they did not decrease purchases of leather coats and jackets from the subject firm and increase purchases of leather coats and jackets from foreign sources.

CONCLUSION

After careful review I determine that all workers of Leather Sportswear, Inc., Bridgeport, Conn., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

LEBANON STEEL FOUNDRY, LEBANON, PA.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3568: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 3, 1978 in response to a worker petition received on April 20, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel castings at Lebanon Steel Foundry, Lebanon, Pa.

The notice of investigation was published in the FEDERAL REGISTER on May 16, 1978 (43 FR 21068). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lebanon Steel Foundry, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the American Iron and Steel Institute, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met.

Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of steel castings increased from 27.1 million dollars in 1976 to 33.9 million dollars in 1977. The ratio of imports to domestic production increased from 1.1 percent in 1976 to 1.3 percent in 1977.

A survey of many of Lebanon Steel Foundry's customers revealed that most did not import steel castings in 1977 or in the first quarter of 1978. The only customers that increased purchases of imported steel castings and reduced purchases from Lebanon Steel Foundry together represented an insignificant percentage of sales.

CONCLUSION

After careful review, I determine that all workers of Lebanon Steel Foundry, Lebanon, Pa., are denied eligibility to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3736]

LEVI-OTTENHEIMER, BALTIMORE, MD.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3736: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 18, 1978 in response to a worker petition received on May 11, 1978 which was filed on behalf of workers and former workers producing ladies' jumpsuits, blouses, shorts, slacks, and boys' sportswear (mainly slacks) at Levi-Ottenheimer, Baltimore, Md. The investigation revealed the workers produced girls' and women's gymsuits and boys' jeans and jean-cut slacks.

The Notice of Investigation was published in the FEDERAL REGISTER on June 13, 1978 (43 FR 25498-9). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Levi-Ottenheimer, its customers, the U.S. Department of Commerce, the National Cotton Council of America, the American Textile Manufacturers Institute, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. With respect to workers producing gymsuits without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations or threat thereof, and to the absolute decline in sales or production.

Gymsuits are classified in a basket category which includes playsuits, sunsuits, washsuits, and similar apparel. Industry sources report there are no gymsuits entering the United States.

A survey of Levi-Ottenheimer's customers purchasing gymsuits, evinced that those customers did not purchase imported gymsuits during the period from 1975 through 1977.

With respect to workers producing boys' jeans and jean cut slacks, all of the group eligibility requirements of section 222 of the act have been met.

The U.S. imports of men's and boys' woven cotton and man-made fiber jeans and dungarees increased from 9 million units in 1975 to 14 million units in 1976, and increased to 23 million units in 1977. The ratio of imports of jeans and dungarees to domestic production increased from 3.8 percent in 1975 to 5.4 percent in 1976, and increased to 8.5 percent in 1977.

A survey of customers of Levi-Ottenheimer was conducted by the Department. The survey indicated that some customers had reduced purchases of jeans and jean-cut slacks from Levi-Ottenheimer and increased purchases of imported jeans and jean-cut slacks in 1977 compared to 1976.

CONCLUSION

After careful review of the facts obtained in the investigation I conclude that increases of imports of articles like or directly competitive with boys' jeans and jean cut slacks produced at Levi-Ottenheimer, Baltimore, Md. contributed importantly to the declines in sales and production and to the separations of workers at that firm. In accordance with the provisions of the act, I make the following certification:

All workers engaged in employment related to the production of boys' jeans and jean cut slacks at the Baltimore, Maryland plant of Levi-Ottenheimer who becames totally or partially separated from employment on or after May 10, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that all workers engaged in the production of girls' and women's gymsuits at the Baltimore, Maryland plant of Levi-Ottenheimer are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3689]

LOYAL CLOAK CO., LAKEWOOD, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3689: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats and suits at Loyal Cloak Co., Lakewood, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Loyal Cloak Co., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses', and children's coats and jackets increased from 2252 thousand dozen in 1976 to 2723 thousand dozen in 1977. Imports declined from 590 thousand dozen in the first quarter of 1977 to 572 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.
